WASHINGTON!

Protest Against Seating W. A. Clark.

Bill Regarding Firearms and Liquors Defeated.

Only a Few Appropriation Bills Now Remain to Be Disposed Of.

INTERESTING WASHINGTON NEWS.

Washington, March 2.—The senate has taken up the deficiency appropriation bill.

Senator Chandler today presented in the senate a protest from Henry H. Knapp of Helena, Mont., against the seating of W. A. Clark. Knapp claims to act in behalf of the labor party of Montana. He says Clark's managers made a compact to assist in securing state legislation in the interest of labor but failed to do so. He also claims that Clark expended \$200,000 in his campaign.

The senate committee on interstate commerce today reported an agreement to report the house bill regarding railroad companies to take effect on the 15th of March on their lines to the territory of commerce commission. The bill was amended so as to require only monthly reports.

The senate passed the deficiency appropriation bill, the last of the appropriation bills.

HOUSE.

Washington, March 2.—The house convened at 9 o'clock this morning after a recess taken last night. It had been agreed that two hours, from 9 to 11, should be devoted to unanimous consent for legislation.

After several bills of minor importance passed, Bailey, of Texas, objected to action upon any bills by unanimous consent. He would block proceedings but refused to yield, as the speaker had refused his recognition.

Sperry, of Connecticut, moved the passage under suspension of the rules of the senate bill to prohibit the sale of firearms, opium and intoxicants in certain islands of the Pacific.

Bailey demanded a second, and then brought matters to a complete standstill by making a motion of no quorum.

The sergeant at arms was instructed to bring in the absentees.

At 10:20 a quorum appeared.

Sperry then explained that the bill was designed to prevent the sale by Americans of firearms and intoxicants to the islands of the New Hebrides.

Bailey declared that the supporters of the bill were not only sneering, but were not the Philippine and Hawaiian islands included. He understood since the American regime began 1,400 saloons have sprung up in Manila and 100 in Hawaii.

The bill regarding the sale of firearms and liquor in the New Hebrides was defeated by 117 to 73, two-thirds not having voted in its affirmative. It was 11:20 when roll call was completed and the result announced.

As the regular hour for meeting (11 o'clock) had already passed, the house could not adjourn, so legislative day on Friday continued. As the house will not adjourn again until sine die adjournment on Monday, there will be no Saturday in this legislative session.

House experts on appropriation bills regarded the situation decidedly easy to deal with. With Indian, army and agricultural bills sent to the president, the only ones remaining to give any uneasiness are the river and harbor, naval, post office and sundry civil. No fears are entertained of protracted differences on these.

A CUBAN REPRISAL.

New York, March 2.—Mendez Capote, president of the Cuban constitutional convention, as quoted in a Havana dispatch to the World, says:

"I regret that the United States senate passed the resolution. It is most distasteful and betrays a total misunderstanding of the situation. I am amazed at the reported declaration of Secretary Root that the Cubans must agree to the concessions proposed. I do not believe the convention will yield. Personally I will never concede ceding stations or right to control our foreign affairs. We ask only fulfillment of the"

Recruits on Their Way to Philippines Mutinied in Texas

His Holiness, the Pope, Celebrating His Ninety-First Birthday.

WEEKLY BANK STATEMENT.

San Francisco, March 2.—N. S. Sterry, of Los Angeles, chief counsel of the Santa Fe on this coast, says that it is the intention of the parent company to absorb its three branch companies west of Albuquerque. They are the Joaquin Valley railroad, the Southern California railway and the Santa Fe Pacific.

MUTINY AMONG RECRUITS.

San Antonio, March 2.—The mutiny among the recruits enroute to the Philippines has been quieted. The volunteers left for San Antonio last evening under guard of regulars from Fort Sam Houston. The car doors were locked and guards placed on the platforms. It is said that several men were badly hurt before they were subdued. The recruits arrived here on Wednesday night. They were given their liberty a few hours. Several drank too much liquor and the recruits fell to fighting among themselves. Assistance from local authorities was secured. The authorities at Washington were then notified as well as the department headquarters at San Antonio and the latter were asked to dispatch troops.

The Pope Celebrates.

New York, March 2.—The pope will celebrate his ninetieth birthday today, says a Rome dispatch to the Herald. Dr. Mazzoni said: "His holiness is in marvellous health. He shows no sign of diminishing vigor."

Weekly Bank Statement.

New York, March 2.—Weekly bank statement: Loans, \$914,209,400; increase, \$2,408,500. Deposits, \$1,012,511,000; increase, \$3,324,100. Circulation, \$31,300,000; increase, \$81,000. Legal tenders, \$73,981,100; increase, \$91,000. Specie, \$183,948,500; increase, \$666,200. Total reserve, \$257,929,600; increase, \$1,086,200. Reserves required, \$233,125,000; increase, \$881,750. Surplus reserve, \$1,581,100; increase, \$254,425.

MINE AND MILL WORK.

Cochiti Reduction and Improvement Company Pushing Ahead.

Work on the Good Hope is being vigorously prosecuted by the contractors, Messrs. George Smith and John Carpenter. The work carried on is the driving of a drift in a westerly direction from the main tunnel, which will in a short time reach the body of ore. It is the intention of the owners, the Cochiti Reduction and Improvement company, to open the mine as thoroughly as possible before the mill at Woodbury is completed, so they may have a sufficient amount to start with.

The company has also a large amount of work done on their Iron King, and several bodies of good ore is in sight which can be mined at little expense. It is understood a good sized force of miners will be employed in a short time, when the work of piling up the ore on the dump will be resumed.

The sound hammer is heard again on the new reduction works in Woodbury, and no further delays in the construction work is anticipated. Owing to the severe weather considerable time was lost, and for several weeks little or nothing was accomplished. However, from present indications, everything points to a speedy completion of the mill plant.—Blair Herald.

Death From Consumption.

At his house on Wednesday evening last evening occurred the death of W. L. Kasper, a gentleman 35 years of age who came here last summer in the hope of finding relief from consumption. For a number of years he was vice president of La Crosse (Wis.) Supply company. He was accompanied to this city by his loving wife who was by his side when death came and separated. The remains were embalmed today and will be taken back to the former home by the bereaved widow to-night.

LUNA FUNERAL TRAIN.

The train, with the remains of Mrs. Isabelle B. de Luna, passed through for Los Lunas.

The special train bearing the remains of Mrs. Isabelle B. de Luna, who died at Columbus on Tuesday night, March 12, Road the following comments:

"Hart Wagner, the eloquent California orator, delivered his lecture 'The King's English' before the students and friends of the H. Thane Miller Seminary last evening. The rare polish of diction, the quaintly humorous stories, the marvelous amount of information, and the dramatic force of the speaker, was heartily appreciated."—Cincinnati Commercial.

FIRE OF POTTERY FACTORY.

New York, March 2.—At Newark, N. J., today, Vice Chancellor Stevens gave a hearing on the application to make permanent the order restraining the American Smelting and Refining company from increasing its capital stock from \$25,000,000 to \$100,000,000, and from consolidating the interest represented by M. Guggenheim & Sons, and other interests in the United States and Canada under its management.

Edward Lauterbach, Eugene Treadwell and R. V. Lindenberg appeared as counsel for the complainant stockholders. The directors of the smelting company were represented by Samuel Entenryer, Thos. B. Thatcher, Robert H. McCarty and Wm. H. Corbin.

Lauterbach opened the case by reading affidavits from complainants alleging the proposed increase of capital stock was unnecessary and the amount proposed to be paid for the interest of Guggenheim & Sons excessive. The affidavits alleged the fact that the value of the Guggenheim interests was problematical and that they really had no specific value by reason of secret processes. Wm. H. Corbin replied for the directors.

MARKET QUOTATIONS.

Market quotations and review, furnished by W. P. Metcalf, 5 Cronwell block, received over the private wire of F. G. Logan:

New York, March 2.—(Stocks)—The market opened strong and fairly active, but after the first half hour trading became dull and there were some slight recession. The general list for the rest of the day was steady and good buying of Southern railway and U. S. O., showing an advance of from one to two points. The grangers were steady. Steels quiet with little change in prices. The bank statement was regarded as favorable and its appearance was followed by general advance in prices. Arbitrage business was very light. Demand sterling, 48 7/8 to 49. Total sales, 385,800.

Chicago, March 2.—(Wheat)—The market has been dull. The majority of people here are bearish, as has been the case for some time. Should conditions turn favorable to holders of wheat, it would sell easily as there is a good short interest in evidence. In the absence of any news of importance, the tendency is to stagnate. The market appears to need support from time to time to prevent a general decline. The weather will be a factor from now on. Crop scores are about due and always have more or less effect on the price. We are inclined to think the short side is too popular and would rather buy on this break than sell. Northwestern receipts small, 365 against 360 a year ago. The visible supply is expected to decrease 500 to 500,000. May wheat closed at 75 1/2 c.

Corn.—In a speculative way there appears to be little for sale. Acceptances in the country continue very high. At the present price of hogs, farmers are realizing nearly 50c a bushel for corn on the farm. The acute factor in corn is the absence of any stocks at country stations, which can be shipped in when the farmers get busy doing their spring work. May corn closed at 41 1/2 c.

ALBUQUERQUE. — MARCH 2 1901

Delegate Peres has introduced a bill in congress to protect ancient ruins on the public domain.

The bill for the creation of Luna county will be considered by the territorial council next Wednesday.

The Las Vegas Record is to be greatly improved and will soon be one of the best equipped daily newspapers in the territory.

Delegate Wilson has introduced a bill in congress asking that the legislative session of Arizona be extended thirty days.

There is a large amount of legislation pending before the territorial assembly, much of which should be promptly rejected.

The republican members of the New Mexico legislature should carefully read the provisions of the party platform in relation to McKinley county, and carry out the pledges made therein.

It was rather complimentary to Representative Walton, says the New Mexican, that the house which a few days ago voted down his house bill No. 4, should have reconsidered the matter and on Thursday passed the measure unanimously.

The bill providing that the next election one of the three school directors to be elected and hold office for a term of three years; one shall be elected for two years and the third elected for one year.

At each election after the next ensuing election of the directors, but not later than the first day of January, the directors are prohibited from employing any person suffering from consumption, or from any contagious or infectious disease, as a teacher in the public schools.

TO REGULATE GAMBLING.

One of the measures now pending in the council is Mr. Martinez's bill No. 71, an act to restrict and regulate gambling. It provides that hereafter it shall be unlawful for any person to keep, maintain or operate any gambling table or apparatus, as mentioned in section 1360 of the compiled laws of 1897, in any room, place, building, or upon any street or thoroughfare, or upon the first or ground floor of any house or building within the territory, as incorporated cities or towns, and the application for license for carrying on any such game or occupation shall, in addition to the requirements now prescribed by law, contain a specific statement of the floor or story in the building wherein such games are to be operated, and no license shall be issued without such statement, and any violation of this act shall subject the offender to the same punishments as are prescribed by law for operating such games or apparatus without any license whatever. Provided, that licenses which have heretofore been issued shall be allowed to expire, and the holders shall not be subject to the provisions of this act. It is specified that this act shall take effect and be in force from and after the 1st day of May, 1901.

A STATEHOOD PARALLEL.

In the congressional library hangs a faded document, the petition of Missouri to be admitted as a state in the union. The arguments which were used almost all apply to New Mexico, only more strongly. Missouri then had scarcely 40,000 inhabitants; New Mexico has five times as many; Missouri had existed thirteen years as a territory; New Mexico has been in territorial tutelage for over fifty years; Missouri had been given a vague promise of statehood; New Mexico has a definite promise given in a solemn treaty with Mexico; Missouri urged that it was loyal to the union in 1812, but New Mexico has been still more loyal. The Missouri petition said in part:

"That your petitioners live within that part of the territory of Missouri which lies between the latitude 36 degrees and 38 minutes and 40 degrees north and between the longitude 92 degrees and 94 degrees west, to the east and the Osage boundary line to the west. They pray that they may be admitted into the Union of the states within these limits.

"They conceive that their numbers entitle them to the benefits and to the rank of a state for government. Taking the progressive increase during former years, on the basis of this calculation, they estimate their present number at upwards of 400,000 persons, and as seen as it can be granted under the principles of the federal constitution. They have passed eight years in the first grade of territorial government, five in the second; they have evinced their attachment to the honor and integrity of the Union during the late war, and they, with deference, urge their right to become a member of the great republic.

"They forbear to dilate upon the evils of the territorial government, but will have names, and the grievances of this condition:

"1. That they have no vote in your honorable body, and yet are subject to the indirect taxes imposed upon them.

"2. That the veto of the territorial executive is absolute upon the acts of the territorial legislature.

"3. That the superior court is constructed on principles unheard of in any system of jurisprudence having primary cognizance of almost every controversy, civil and criminal, and subject to correction by no other tribunal.

"That the powers of the territorial legislature are limited in the passage of laws of a local nature, owing to the paramount authority of congress to legislate upon the subject."

Congress heeded the voice of the petitioners and granted them statehood in the face of conditions that almost precipitated a civil war. New Mexico urges many more and more logical reasons than did Missouri at that time, but has the promise of the great political parties to give it statehood. It seems reasonable, however, that if New Mexico takes the proper action at this time, if its legislative authorities the appointment of a non-partisan commission to go to Washington, as Governor Otero has suggested, statehood will be granted the territory within the next twelve months. It is certainly worth while to make the effort.

A Fortune for Charity.

A rich man's statement that he intends to devote his entire fortune to charitable works has aroused much discussion. This is because it will accomplish much good. It is a praiseworthy endeavor, but there are many other agencies which accomplish just as much good. Take Hotter's Stomach Bitters for instance—the great American remedy for constipation, dyspepsia and all the ills which arise from weak digestion. This medicine will keep the stomach in good shape and the bowels regular. It is a wonderful restorative tonic and health builder. It is also a preventive for malaria, fever and ague. Ask for it, and insist upon having it. See that our Patent Revenue Stamp covers the neck of the bottle.

How Are Your Nerves?

If they are weak and you feel nervous and easily "frustrated," can't sleep, and rise in the morning unrefreshed, your blood is poor. Strong nerves depend upon rich, nourishing blood. Hood's Sarsaparilla makes the nerves strong by enriching and vitalizing the blood. It gives energy, refreshing sleep and complete cure of nervous troubles. Begin taking it today.

Nausea, indigestion are cured by Hood's Pills.

The Cerebral Register says: The Albuquerque Citizen has installed one of the latest and most perfect Mercantile or typewriting machines ever manufactured. It has all the latest improvements, sets four different sizes of type, almost any measure—in fact is a whole print shop in itself.

He Fooled the Surgeons.

All doctors told Renick Hamilton of West Jefferson, O., after suffering 18 months from rectal fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the sure cure for cure on earth, and the best salve in the world. 25 cents a box. Sold by J. H. O'Reilly & Co., druggists.

Miss Oliver Coming.

This is what prominent papers say of Miss Oliver:

"Miss Oliver's method is one of absolute simplicity and in that simplicity lies its chief charm. It was as though one were listening to an actual conversation."—Brooklyn Eagle.

"The mental was given under the patronage of Dr. Edward Everett Hale, Mr. and Mrs. Arthur Foster, Mr. J. Ward Howe, Dr. and Mrs. Wm. J. Rolfe, and other persons of distinction; and in the audience were many well-known names. The morning of the 1st of the audience was very early in the evening, and its appreciation of the ability of the young woman was attested by its applause."—Boston Herald.

What Vice President Albert Bernasco Has to Say.

Among the arrivals in the city night before last was J. W. Horton and Vice President Albert Bernasco, of Gallup Lodge No. 1047, United Mine Workers of America, who came for a brief visit to the metropolis. Concerning the so-called strike, or lock-out, the latter term being more preferable, the gentleman had little to say as to the final outcome, but so far as the miners were concerned they were positive they could hold out about as long as the company could.

John Newlander, the contractor and builder, has been awarded the contract for the erection of a 13-room, two-story brick building on West 4th street, near the corner of the street, the harness maker at Korbler & Co.'s establishment, was seen at his bench to-day after an illness of ten weeks with a serious attack of rheumatism.

Hon. J. L. Park, formerly attorney for the postal department in Cuba, under the American administration, arrived here night before last from his home in Toledo, Ohio. He is a sufferer from asthma and hopes to fully recover his health in a few months.

Rev. J. Arthur, S. J., former pastor of the Immaculate Conception church, now of El Paso, Texas, passed through the city this morning on his way to Las Vegas, where he is going to recuperate from a long and serious illness. He was accompanied by Rev. C. Puget of Las Vegas.

THE STEAM LAUNDRY.

The Great Force Comedy at Neher's Opera House, March 5.

The attraction at the Neher opera house for one night only, Tuesday, March 5, is "The Steam Laundry," the greatest farce comedy of the season, "The Steam Laundry," a play written for laughing purposes only and filling the bill in every particular. It is one of the few farces that is built around a plot and the story is one of absorbing interest. The cast is made up of clever people and the specialty contingent is strong in every particular. A feature of this attraction is the solo orchestra of twelve musicians under the leadership of Prof. McDonald presenting a musical program that is the equal of any city orchestra. The average company carrying a band and orchestra is classed as weak, and every one says, "all the show on the street." With this company the stage people are not average clever actors in their respective lines. The parade is unique, headed by the Red Hussar band, followed by the Chinese band in the laughing comedy "The Steam Laundry." The sale of seats opens at Matson's on Monday, March 4.

Glottis News.

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and two last doctors could give no help; but her cure was complete and her health is excellent." This shows what thousands have proved—that Electric Bitters is the best blood purifier known. It's the supreme remedy for scrofula, tetter, salt rheum, eczema, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the system, and only 50 cents. Sold by J. H. O'Reilly & Co., druggists. Guaranteed.

Millions of people are familiar with DeWitt's Little Early Bitters and those who use them find them to be famous little liver pills. Never gripe. Berry Drug Co. and Cosmopolitan drug store.

"A BREEZY TIME."

Will appear at Neher's Opera House, March 9.

Fits and Webster's aggregation of artists and to a big crowd at the opera house last night in "A Breezy Time." The play was well staged and everything went with a vim and dash that gave the audience no time to relax, mirth and laughter. As a fun producer we have no hesitation in saying that no farce comedy seen in Salinas for years can compare with "A Breezy Time." They carry a good band and an orchestra that adds much to the entertainment.—Salinas Citizen (Cal.) Journal.

THE DAILY CITIZEN

SYRUP OF FIGS

NEVER IMITATED IN QUALITY

An Excellent Combination

The pleasant method and beneficial effects of this well known remedy, SYRUP OF FIGS, manufactured by the California Fig Syrup Co., is illustrated in the following statement: "I have been suffering from a severe cold and cough for several days, and have tried many remedies without success. I have now tried your Syrup of Figs, and it has cured me in a very short time. I feel much better and my cough is gone." This is the testimony of a person who has suffered from a severe cold and cough, and who has found relief in the use of this well known remedy. It is a pleasant and effective remedy for all cases of cold, cough, and bronchitis. It is also a good laxative, and is especially recommended for children. It is sold in all drug stores, and is also available in bulk for those who wish to purchase in large quantities.

In the process of manufacturing this syrup, the finest quality of figs are used, and the process is carried out in a clean and sanitary manner. The result is a pure and effective remedy, which is both pleasant and beneficial. It is a well known fact that a severe cold and cough can lead to more serious complications if not treated promptly. Therefore, it is important to use a reliable remedy like SYRUP OF FIGS at the first signs of illness. It is a remedy that has stood the test of time, and is still one of the most effective and pleasant remedies available.

ROYAL INHALER

MOIST MEDICATED AIR
Cures Croup and Lung Trouble. Consumption and other ailments. The Royal Inhaler is a simple and effective device for inhaling moist, medicated air. It is used by simply placing the mouth over the opening and breathing in. The air is drawn through a chamber containing a moist, medicated substance, which is then inhaled. This process helps to loosen phlegm, soothe the throat, and clear the lungs. It is a valuable remedy for all respiratory ailments, including croup, bronchitis, and consumption. It is especially recommended for children, as it is simple to use and does not require any special equipment.

Solid Comfort

depends on many things, to be sure—furniture, health, appetite and the wherewithal to satisfy it—but for a man his after dinner smoke, amid pleasant surroundings, approaches the acme of comfort; we furnish the "acme" in the shape of well-made, fine flavored cigars.
