FREIGHT HAND- LERS WILL LOSE

They Struck Without the Sanction of the Chicago Federation of Labor and Must Fight Alone.

ARBITRATION IS NOT LIKELY

The National Civic Federation is Still Endeavoring to Bring About a Settlement of the Strike in the Pennsylvania Anthracite Coal Region—Government Experts at Work.

Chicago, July 8.—The freight handlers' strike is no nearer a settlement this morning than yesterday. Chairman Job of the state board of arbitration, said that he had received no answer from the railroads or the men to his offer of arbitration. At all the freight houses, pickets have endeavored to persuade the newcomers from taking their jobs and have sought to lure the men away that are already at work. A man familiar with the present trouble and experienced in strikes, said today: "If the teamsters come to the aid of the freight handlers they will win; if not, the chances are that they will lose. It is too easy for the railroad to bring in new men." This statement is full of meaning in connection with the statement of the officials of the teamsters union, who said the freight handlers proceeded to strike without the sanction of the Chicago Federation of Labor and therefore they will be allowed to fight out their own salvation.

This afternoon inquiries from the officials of the various railroads elicited invariably the statement that freight of all kinds is being handled with scarcely any delay. President Curran, of the freight handlers, declared he has been assured the support of the teamsters as individuals and he is certain that no effort will be spared by the freight handlers to obtain the support of the union to which the drivers belong.

National Secretary Turley, of the teamsters, said he knew of no action on the strike being contemplated by his union and said the drivers were performing their duties as usual, save in a few individual cases.

CIVIC FEDERATION AT WORK.

Wilkesbarre, Pa., July 8.—The Associated Press is able to announce that the National Civic Federation has not exhausted all its means in an effort to bring about peace in the anthracite coal fields. The investigation is still in progress and it is understood that the federal government through its department of labor is assisting in this work. A few weeks ago Walter E. Wyer, a representative of the department of labor of Washington, and Professor John R. Commons of the Civic Federation, made a tour of the anthracite coal regions in quest of information. They paid particular attention to the questions of the cost of labor for mining the coal, the selling price of coal and also whether the increase of the wages of the mine workers kept pace with the increasing price of the necessities of life. A seal of secrecy is placed on every one who has any knowledge of the work that is going on.

A MURDER FOR ROBBERY.

A Whole Family Butchered Near the Settlement of Prudence, Oklahoma.

Enid, O. T., July 8.—Near Prudence, 30 miles southwest of here, the bodies of a man, woman and two children, apparently members of one family, all mutilated into almost unrecognizable shapes, were found today. The bodies were stripped of all the clothing, leaving no means of identification. It is supposed that the family were strangers traveling overland and that they were robbed and murdered by men, who then made off with their team and belongings.

The King's Progress.

London, July 8.—The following was issued at ten o'clock this morning: "The king's progress is all that can be expected."

MARKET REPORT.

New York, July 8.—Lead unchanged; copper, \$11.00 @ \$12.15.

GRAIN.

Chicago, July 8.—Wheat, July, 74½; September, 72½ @ 73½; corn, July, 87½; September, 61½; oats, July, 41½; September, 30½.

PORE, LARD, RIBS.

Pork, July, \$18.00; September, \$18.70. Lard, July \$11.00; September, \$11.02½. Ribs, July \$10.70; September, \$10.77½.

STOCKS.

Kansas City, Mo., July 8.—Cattle, receipts, 9,000; steady.

Native beef steers, \$4.75 @ \$5.30; Texas and Indian steers \$2.10 @ \$5.35; Texas cows, \$1.50 @ \$2.00; native cows and heifers, \$2.00 @ \$5.75; stockers and feeders, \$2.55 @ \$5.50; bulls, \$3.30 @ \$4.00; calves, \$2.00 @ \$5.25.

Sheep, receipts, 4,000; market steady. Muttons \$3.30 @ \$4.30; lambs, \$4.70 @ \$6.40; range wethers, \$3.25 @ \$4.40; ewes \$3.25 @ \$4.30.

Chicago, July 8.—Cattle, receipts, 4,000 steady.

Good to prime steers, \$7.75 @ \$8.45; poor to medium, \$4.50 @ \$7.50; stockers and feeders, \$2.50 @ \$5.00; cows \$1.50 @ \$2.00; heifers, \$2.50 @ \$5.25; canners, \$1.40 @ \$2.50; bulls, \$2.50 @ \$5.50; calves, \$2.50 @ \$5.35; Texas fed steers, \$1.00 @ \$6.00.

Sheep, receipts, 25,000; sheep steady, lambs strong.

Good to choice wethers, \$3.50 @ \$4.00; fair to choice mixed, \$2.75 @ \$3.50; western sheep \$2.50 @ \$3.75; native lambs, \$3.00 @ \$7.00.

BUSINESS OF THE FEDERAL LAND OFFICE

During the Past Year Almost 100,000 Acres of Homesteads Were Taken Up in the Santa Fe Land District in Addition to Other Entries.

THERE ARE STILL OVER 13,000,000 ACRES OF UNAPPROPRIATED LAND

The following is a detailed statement of the business transacted at the United States land office at Santa Fe, during the fiscal year ending June 30, 1902: Area in acres entered under the homestead laws, 96,874; under the desert land laws, 4,805 acres; mineral entries 189 acres; coal lands sold 515 acres; lieu selections 933 acres. The following have been the entries by counties: Bernalillo, homesteads, 5,427 acres; desert lands 240 acres; coal lands sold 155 acres; mineral lands 85 acres, a total of 5,867 acres.

Cofax county, homesteads, 9,343 acres; desert lands 80 acres, total 9,423 acres.

Guadalupe county, homesteads, 26,582 acres; desert lands 280 acres; lieu selections 373 acres, total 27,235 acres.

McKinley county, homesteads, 720 acres; coal land sold 280 acres, total 1,000 acres.

Mora county, homesteads, 4,343 acres; desert lands 726 acres, total 15,105 acres.

Rio Arriba county, homesteads 3,039 acres; mineral lands 106 acres, total 3,145 acres.

San Juan county, homesteads 3,482 acres; desert lands 2,920 acres, coal land sold 80 acres; lieu selections 40 acres, total 6,522 acres.

San Miguel county, homesteads 19,742 acres.

Santa Fe county, homesteads, 4,298 acres; desert lands 524 acres; mineral lands 40 acres; lieu selections 160 acres, total 5,022 acres.

Socorro county, homesteads 1,240 acres; lieu selections 120 acres; total 1,360 acres.

Taos county, homesteads, 519 acres; mineral lands 17 acres, total 536 acres.

Valencia county, homesteads, 8,410 acres; lieu selections 240 acres; total 8,650 acres.

Cash receipts, fees and commissions \$29,062.01.

Area in the district of unappropriated and unsurveyed lands, 10,443,287 acres; unsurveyed 2,562,200 acres; reserved 5,361,562 acres; area appropriated 12,098,541 acres, total area in district 31,468,590 acres.

THE SHORTS SQUEEZED.

July Corn Goes Up 90 Cents and the Visible Supply is Clobbered Up.

Chicago, July 8.—The shorts in July corn were squeezed again today and cornered and delivery went to 90 cents, the highest price since 1892, when the market reached \$1.00. The opening bid was from 84 to 85c. The shorts were the bidders, and by running the market up to 90c, a little before noon, they got approximately about 250,000 bushels. It is estimated that in selling this much the manipulators of the market made a profit of \$60,000, as most of their line, estimated at 15,000,000 bushels, was purchased between 61 and 65c. The shorts who covered, have paid heavily for the privilege and those who are still on the wrong side of the market are generally believed to be in the most serious predicament of the decade.

A SENSATION IN COURT.

The Entire Panel of Jurymen for the July Term of Court at Detroit is Dismissed.

Detroit, Mich., July 8.—Judge Alfred J. Murphy, of the recorder's court, created a sensation today at the trial of Frank C. Andrews, former vice president of the wrecked City Savings Bank, which was begun today, by the dismissing of the entire panel of jurors drawn for the July term of court. Judge Murphy said he received information affecting the members of the jury and considered it proper, to the best interests of justice to discharge all the jurors summoned. While he did not develop this in court, it had been rumored that several of the men on the jury were friendly with some of Frank C. Andrews' close political associates.

DEATH SENTENCE COMMUTED.

A Seventeen-Year Old Colored Boy in Texas to Serve a Life Sentence for Assault.

Austin, Texas, July 8.—The death sentence pending against Samuel Woodley, colored, of Fayette county, convicted of assaulting a white girl, has been commuted to life imprisonment by Governor Sayers, because the prisoner was under 17 years of age at the time he committed the crime. The law prohibits the death penalty from being imposed upon persons under that age when the crime was committed. The hanging was to have occurred next Friday.

MISSOURI DEMOCRATS.

A State Convention Held at Springfield to Nominate Three Supreme Court Judges.

Springfield, Mo., July 8.—The Democratic judicial convention which will nominate three judges for the state supreme court, met here at noon today. Most of the leading Democrats of the state were present. The convention to name the remainder of the state ticket will be held at St. Joseph within two weeks.

After the appointment of committees a recess until 3 o'clock was taken.

An Express Train Wrecked.

Libson, July 7.—The Madrid express was derailed today owing to some unknown cause near Guarda, Portugal. Nearly all the cars were wrecked. Six persons were killed and 27 injured.

The Wool Market.

St. Louis, Mo., July 8.—Wool firm, unchanged.

A SAND STORM IN CALIFORNIA

A Damage of \$1,000,000 in the Indio Valley in the Colorado Desert Along the Southern Pacific Railroad.

126 DEGREES IN THE SHADE

The Republican River on a Rampage and Farmers Are Leaving for Places of Safety—Excitement Caused in Indian Territory by Volcanic Manifestations Near Tulsa—Heat in Pennsylvania.

San Francisco, July 8.—A sand storm has caused a damage of \$1,000,000 in the Indio valley on the Southern Pacific railroad in the Colorado desert. An artificial oasis of 900 acres had been made by the digging of artesian wells, and was planted with melons. Judging by last year, when only 60 acres were in cultivation, a profit which was more than \$1,000 an acre, would have been made. There were 200 carloads of melons, for which \$1,200 per car had been offered, and which were almost ready for shipment, when the storm broke. For three days it raged, with the thermometer at 126 degrees in the shade, and when it was over, every bit of vegetation had been destroyed.

VOLCANIC DISTURBANCES.

Guthrie, Okla., July 8.—Great excitement has been caused at Tulsa, I. T., owing to the discovery, to the north of that place, of cracks in the sides of the mountains. Gas is escaping from the fissures and a continual hissing and roaring can be heard. On the extreme top of the highest hill, a small volcano is at work, raising large boulders, and tossing them aside. The experts state that it is a great oil and gas field and that pressure from a great depth has caused the commotion.

FLOODS IN KANSAS.

Concordia, Kas., July 8.—The Republican river here is a foot higher than the high water mark and four miles wide at some places. Many of the farmers were compelled to leave their farms for safety. Much of their livestock has perished. The crops are greatly damaged. The railroad track was washed out near here.

HEAT PROSTRATIONS IN PENNSYLVANIA.

Pittsburg, Pa., July 8.—There are indications for the early abatement of the hot wave. The mercury at 11 a. m. was 84 degrees. Eleven deaths and six serious cases of prostrations have been reported within the last 24 hours.

CITY COUNCIL MEETING.

Considerable Business of Importance Was Transacted at Last Night's Session.

A regular meeting of the city council was held last evening and was called to order by Mayor Sparks. There were present Aldermen Alarid, Baca, Castillo, Dudrow, Hensch, Rodriguez, and Sena. The reports of the city officials were read, the report of the city attorney, Hon. B. M. Read, being especially interesting and exhaustive.

The bills for the last quarter were presented and referred to the finance committee and in this connection the matter of calling a special election to ratify a bond issue to place the city on a sound financial footing, was referred to the city attorney for his opinion with an order that he report on the proposition on the next meeting night.

The matter of keeping the sprinkler on the streets was referred to the street committee. A notice from the board of education ordering a tax levy of five mills on the dollar for public school purposes was read and approved. S. R. Hincley was exempted from paying for his present taps of the Palace avenue sewer on Johnson street, as Major R. J. Palen, from whom Mr. Hincley had bought his lots, had been a liberal contributor towards the construction of the sewer. The ordinance committee was instructed to report proper ordinances amending the license ordinance in respect to hacks and also as to licensing women of ill repute.

Councilman Leo Hensch presented an account for \$7.30 that he had paid for the city to W. A. McKenzie and it was ordered paid in full. Also an account of \$1.50 in favor of J. D. Sena.

The finance committee was ordered to furnish the city attorney with the testimony in its possession relative to certain claims of Ernestina Hensch against the city.

At an executive session which followed the regular session, Francisco Rivera y Padilla was confirmed policeman for three months.

The petition of the Capital Power and Light Company for a franchise from the city of Santa Fe permitting the said company and granting to it the right to erect poles and to stretch wire for an electric line and to maintain same in the streets, plaza, alleys and public thoroughfares of the city, was presented and referred to the committee on streets and alleys. It is understood that this committee favors the proposition and will report in favor of granting the franchise asked for, upon the ground that said granting will redound greatly to the benefit of this city as cheap electrical power for industrial and manufacturing enterprises will thereby be had and will induce industrial and manufacturing concerns to locate in this city on that account.

Death of Colonel Meadors.

Colonel James G. Meadors, until a short time ago, superintendent of the New Mexico Military Institute at Roswell, died at Warren, Arkansas.

DELEGATE RODEY IS ALERT

He Made Argument Before the Secretary of the Interior and Director of the Geological Survey to Secure Irrigation Works for New Mexico.

GOOD PROSPECTS THAT NEW MEXICO WILL GET THE FIRST IRRIGATION ENTERPRISE

Special Correspondence New Mexican.

Washington, D. C., July 5. On the third instant, Delegate Rodey preparatory to leaving Washington, went to see the secretary of the interior, and the director of the geological survey, to urge New Mexico's claim to have at least one of the first irrigation enterprises located in it under the new irrigation law. He made a ten minute argument before the secretary of the interior on the subject, and that official listened to him with very serious attention, and promised to give the matter attention. Mr. Rodey presented views of the subject, which, perhaps, the secretary had not heretofore had called to his attention. Before the director of the geological survey, and Professor Newell of that bureau, Mr. Rodey had a sort of a joint hearing together with Congressman Newlands of Nevada, and Mondell of Wyoming, and argued the question out. Mr. Rodey contended that New Mexico and Arizona, being still territories, the government had most control there and would not be hampered by intricate state laws or regulations, or state irrigation engineers, etc. That there was more unappropriated public domain in those territories than elsewhere, that they had larger tracts of arid lands that were particularly available, etc. That to begin the first enterprises there would avoid the pressure by senators and representatives from the states to have them placed in their jurisdiction, etc. Congressman Newlands suggested that it would be better for the department to start the first enterprise in places where people were already living, and where water had failed, and where large amounts of property would be lost unless the government came to their aid. Mr. Rodey admitted this was a good point, and stated that if that should govern, that then New Mexico was entitled by all odds to the first enterprise, because the Rio Grande valley was thickly settled from the Colorado line south, and had been so settled for more than 300 years, and that now the river was dry from Albuquerque down to the mouth of the Concho below El Paso for many months each year, and that a big dam at White Rock canon near Pena Blanca, or one farther down the river, would be of immense benefit at the present time, and could be finished without interference of any sort in a very short time. When the subject of the international dam was referred the delegate gave all present a 30-minute lecture on the subject that certainly enlightened the people present, not excepting the geological survey men. It would not be at all surprising if New Mexico should get one of the first irrigation enterprises started by the government under the new irrigation law. The government officials do not like interference by state engineers, and they are already being annoyed by senators and representatives of the western states, and they may get rid of them all by not deciding for either and going into the territories with the first proposition.

A LONG SENTENCE.

Miss Jessie Morrison is Sentenced to Twenty-Five Years in the Penitentiary for Murder.

Eldorado, Kans., July 8.—Jessie Morrison, who was convicted on June 25 of murder in the second degree, for the killing of Mrs. Olin Castle, at the latter's home here in June, 1900, by cutting her throat with a razor, was today sentenced to 25 years in the penitentiary. A motion for a new trial was overruled. Miss Morrison, who was gone through three trials, took the sentence with little show of demonstration. It will be appealed to the state supreme court. At the second trial, Miss Morrison was given five years.

THE POPE'S JOKE.

He Believes That He is Teaching the Americans How to Hustle.

Rome, July 8.—The answer of the committee of cardinals on Governor Taft's recent note on the subject of the friars' lands in the Philippine islands, was presented to the Pope this morning by Cardinal Rampolla, the papal secretary of state. The Pontiff expressed his pleasure on the celerity with which the business had been dispatched and said jestingly: "We are teaching the Americans the renowned art of hustling." His answer will be translated into French and will then be printed.

KILLED HIS SISTER.

The Awful Deed of a Demented Man Who Also Fatally Wounded His Mother.

Boston, Mass., July 8.—Herbert Hill today shot and killed his sister, Mrs. Alice Riley, at their home at Roxbury, then turned the revolver on his mother, who has come into the room to protect her daughter, inflicting probably fatal injuries. Hill escaped. He is supposed to be demented.

Territorial Wools Tend Upward.

Boston, July 8.—The wool market here is very firm and considerable business has been transacted with prices upward. Territorial wools tend upward. Fine staple territories have moved freely at 50 @ 52; strictly fine, 49 @ 51; fine and fine medium, 47 @ 48; staple, 51 @ 53; medium, 40 @ 42. Fleece wool market very firm.

THE ESCAPED OREGON CONVICT

He Was Last Seen on Saturday and Since Then Absolutely No Clue to His Whereabouts Has Been Discovered.

MANY STORIES ARE FALSE

Bloodhounds from the Penitentiary at Walla Walla Will Be Put on the Trail—Forty Indians Are Watching for the Murderer in Kitsap County and the Coast Is Being Patrolled.

Seattle, Wash., July 8.—Since Tracy, the escaped convict, left the Johnson home at Port Madison on Saturday, absolutely no real clue has been discovered as to his whereabouts. Forty Indians are watching for the murderer in Kitsap county and the coast of the lower sound is being patrolled. The bloodhounds from the Walla Walla penitentiary arrived last night, but unless the murderer shows up again the Kitsap county hounds will not be taken across the sound. All reports of Tracy's movements have been proven false. The man seen by the Indian woman was a crippled bench-comber. The story that he held up several women beyond Sidney is fiction. The boat found on the beach at Miller's bay was not the one in which he escaped from the Johnson home, but belongs to a rancher nearby. The officers are faithfully running down each report as it comes in.

TRACY SIGHTED.

Sattle, Wash., July 8.—Shortly after noon today Tracy was positively sighted a mile and a half east of Benton, on Lake Washington. A posse started in pursuit.

DRIFT FENCES MUST GO.

President Roosevelt Stands by the Secretary of the Interior in Enforcing That Edict.

Says a Washington dispatch: The cattlemen have made a final and wholly unsuccessful effort to secure some modification of the official order for the removal of the fences from the public ranges of the country. A delegation of western senators and congressmen appealed to the president on Saturday to grant a further extension of time for the removal of the drift fences on the ranges. The president frankly and firmly declined to further hold back the enforcement of the order. The men then appealed to Mr. Hitchcock, secretary of the interior, but were equally unsuccessful.

When the order was issued by the president for the removal of the fences in April the cattlemen urged a delay, asserting that their herds were being prepared for the spring markets and that the enforcement of the fence removal order would work a great hardship and financial loss upon the cattle owners. Upon that showing the president, who understands the conditions on the ranges, agreed to defer the enforcement of the order until July 1. The cattlemen took advantage of the respite and made every effort to secure the passage by congress of a leasing bill, which would give them authority to fence up something like 325,000,000 acres of the public domain in the western states.

Mr. Hitchcock, secretary of the interior, made an open, determined and successful fight against the passage of any leasing bill. He demonstrated to the satisfaction of the committees on public lands that any such enactment would serve as a practical bar to the homesteading of these lands and would also work a hardship upon the small cattle owners in the west. The bills were all defeated. Then the cattlemen renewed their pressure upon the president for a further modification of the order. They urged that they be allowed to retain their drift fences. These are fences across the ranges, at distances of from 20 to 30 miles apart, which serve as protection to the cattlemen, preventing their cattle from drifting away from prescribed sections. These fences were allowed to stand without much objection by the government officials until the cattlemen began fencing across the ends and connecting the drift fences into enormous pastures.

Settlers who attempted to remove any of these fences, for the purpose of making roads, were frequently assaulted and brutally treated by the cowboys. Millions of acres on the ranges are now fenced in and held by cattlemen, without any warrant of law. The president and the secretary of the interior are determined that these fences shall be removed.

"There is no desire," said Mr. Hitchcock today, "on the part of the department to cause the cattlemen any injury or loss, but there will be no further modification of the law for their benefit. If they show a disposition to remove the fences they will be allowed to make provisions for the protection of their herds. But the ranges belong to the whole people, and the settlers and smaller cattle owners will be protected in their rights."

Special agents of the land department will give attention to this matter during the summer months. Reports of violations of the law and the refusal of the cattlemen to remove the fences will be made to the department of justice and the violators prosecuted.

Jury Fails to Reach a Verdict.

Winfield, Kans., July 8.—The jury in the case of O. W. Coffett, on trial for the murder in October, 1901, of George C. Montgomery, a Santa Fe detective, who was assassinated while at his home in this city, were discharged today, having failed to reach a verdict.

ARRESTED FOR HORSE STEALING

Julian Perea Only Recently Released from the Penitentiary is in the Toils of the Law Again and is Lingered in the San Miguel County Jail.

A FINE TRUCK GARDEN THAT IS BEING MAINTAINED NEAR LAS VEGAS

Joy's Special Daily Service.

Las Vegas, N. M., July 7. Julian Perea, who was just released from the penitentiary last March, is again under the ban of the law on a charge of horse stealing and is now in the county jail awaiting the action of the grand jury, he having been bound over by Justice Bacon of precinct No. 5 last Saturday, and failed to raise his \$500 bond.

Raymundo Romero, son of Eugenio Romero, came in yesterday with his son, Eugenio, from his home in Arkansas. Mr. Romero has been away five years, and is a locomotive engineer. He will make a lengthy visit here.

The county commissioners and the probate court are in session today. John Ellsworth returned yesterday from Denver with his family and has resumed his duties at life's end.

Ralph Halloran came in from the east last evening and stopped over before proceeding to his home at Albuquerque.

Near Las Vegas is developing one of the finest truck gardens in the territory, and next year Las Vegas will have fresh vegetables in abundance, although even this year the market has been fairly well supplied from the same source. I refer to the big gardens of Mr. Comstock, the gentleman who is making an Eden out of the old Lewis ranch about 1 1/2 miles southwest of town. Mr. Comstock has 170 acres there, and has 10,000 heads of celery, 20,000 heads of lettuce and 10,000 heads of cabbage, besides much other truck well along and growing as fresh and green as a weed in a swamp. Mr. Comstock has about 25 acres under perfect irrigation; getting the water from a ditch, the rights of which he has secured, and the vegetables are remarkably fine; really a curiosity for this arid region.

The lecture delivered last night by Rev. A. M. Lumpkin on "Rome and Other Cities," at the Methodist church, was a real treat, and a large crowd attended. Rev. Lumpkin has been all over the ground he lectures about, and displays a keen perception in the way he handles his subject. His style and delivery is good, and the lectures are most enjoyable.

It has struck town at last. Several have got the fever—ping-pong—I refer to. Several of the younger enthusiasts at the Montezuma club are figuring on relegating the writing table to the rear and using it for a ping-pong court. The disease was contracted back east by some of the young men who have been visiting there, and it bids fair to become epidemic.

Mrs. Mary Sellman has instituted suit for divorce against her husband, Christian Sellman. She names one, Stella Fox as co-respondent and alleges cruel treatment and threatening use of a pistol toward her, in her papers.

Juanita Trujillo de Abeyta has filed suit for divorce against her husband, Atillano Abeyta. She states that they were married in 1879, and that they lived together as man and wife only three years, he leaving and abandoning her, she claims, on account of his fear of arrest for some crime he had committed. She says she has been faithful all these 20 years and now asks the court to release her from her bonds of matrimony, as it is most probable her husband is dead, for she has heard from him only once, and that soon after a suit to replevin some horses that were stolen from A. J. Jones has been filed in Union county against Jesse Gleason.

There will be a joint installation of officers of the Odd Fellows and Rebecca lodges next Thursday night at Odd Fellows' hall. A big spread and good time will be the program.

Constable Antonio Delgado arrested a man named Garcia at Los Alamos Saturday night for getting too promiscuous with a knife and cutting another fellow in the head. Both were drunk and Garcia will be brought here for trial this week.

Miss Carrie Schmidt returned yesterday afternoon from a school in the east that she has been attending.

George Bunker went down to Santa Rosa this morning to look after some legal business for Charles A. Spless.

Rosita Bruno, daughter of Trinidad V. de Romero, died Saturday of fever at the age of 14 years. The deceased was left blind by smallpox a few years ago. She was buried today.

Miss Annie Smith expects her sister, Mrs. Marshall, in from California this evening.

Hon. Charles A. Spless returned this afternoon from Silver City where he was on legal business.

Miss Marion Winters will entertain a number of lady and gentlemen friends tonight at cards in honor of Mr. and Mrs. Theodore Hockmeyer.

Fred Logan and Wilbert Dunlap have been complained against by the owner of Green's lake for unlawfully fishing there, and the case was heard before Judge Wooster this afternoon. The law provides that in these cases the minimum penalty is \$25 and costs; one half of which goes to the complaining witness. The young men probably did not know they were trespassing by snag

Santa Fe New Mexican

THE NEW MEXICAN PRINTING COMPANY

Entered as Second Class matter at the Santa Fe Postoffice.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the territory, and has a large and growing circulation among the intelligent and progressive people of the southwest.

TUESDAY, JULY 8.

New Mexico Demands Statehood of the 57th Congress.

Of Right and in Justice New Mexico Should Be a State.

The so-called republic of Hagu is having a regular New Mexico state reformer's time.

The King of England is handing out a job of titles. The people who receive these are happy and the business really does no harm to anybody.

The Democratic congressional campaign committee has not yet agreed upon the political issues to be presented to the voters in this year's campaign. Getting rather late in the day.

The Colorado Socialists have decided that they do not want to have any of the holders in their ranks and yet they nominated a full state ticket. The Colorado Socialists are evidently Pickwickian jokers.

If the weather bureau would arrange for a fine bunch of showers for New Mexico for the next five or six days, it would please the people mightily. Prognostications alone will not do. It is the actual rainfall the people want.

The Republicans of New Mexico must make an active campaign this fall upon well defined issues. Sticking heads in political sand does not win political success. Courage, organization, energetic work and good nominations will win.

A prophet is not without honor save in his own country. Former Governor Robert E. Pattison, who is a candidate for governor of Pennsylvania, was nominated by the convention with the delegates from his own county opposed to him. His home delegates evidently knew him too well.

Aguinaldo has been given his freedom but contrary to the expectations of the anti-imperialists he is not at all thankful for it. He is afraid of assassins and hates to lose his free board in a Manila palace. To Aguinaldo freedom does not mean near as much as a full dinner pail and protection from those who hate him.

The Republican territorial executive committee will be called together about the middle of August for the purpose of taking initiatory steps for this fall's political campaign in New Mexico. It seems to be the intention of those at the helm to make a short, energetic and decisive campaign. That such a one will be successful is believed by those thoroughly acquainted with the aspect of political affairs here.

The 57th congress passed a measure that will prove of great benefit to the western states and especially to the territories. It is an act for the suppression of train robbers and making train robbing an offense against the United States. During the session there was a considerable fight on this measure, but during the last few days of the session the senate passed it and the house concurred.

That settlers continue to come into New Mexico rapidly is shown by the fact that in the Santa Fe land district, comprising approximately 2-3 of the area of New Mexico, 191,325 acres were entered under the federal land laws during the past fiscal year, for the first time bringing the area of appropriated lands in the district in excess over the unappropriated area, which, however, still amounts to over 12,000,000 acres, giving plenty of room for many more newcomers.

The Philippine Islands are in the possession of this government and there is nothing to be done except to give them the best administration possible under the circumstances. This is Republican policy and the only feasible, just and sensible course. Democratic newspapers and Democratic speakers as well as Democratic senators and representatives oppose this policy, not because they have a better one, but simply because they are in the opposing business.

The San Luis Valley, Colorado, has a very good climate, in fact, one of the best in the west, but Santa Fe beats it both in summer or in winter. According to a dispatch from Monte Vista, ice formed on the night of July 6, and the crops not destroyed by the drought were cleaned up by the frost, all tender vegetables being killed and the potato and grain crops being much damaged. Not one-fourth of the average crop will be harvested and the Monte Vista Fair Association has given up its plans for holding an agricultural fair this fall. The fact remains that although Colorado climate beats that of the east by far, yet the New Mexico climate is the best of all.

The snide reformers of New Mexico ask pay of the people for their crocodile tears. They want to be elected to county or legislative offices, but the voters cannot see it in that light.

The Sultan of Bacolod, Mindanao, has sent an insulting worded letter to the commander of the American expedition to Lake Lanao, in Mindanao, in which he threatens to begin operations in August. The sultan is at present strengthening his position. Of course, the Americans will not wait until August for the sultan to begin his operations, for they will immediately begin a little operating themselves and it will be mighty strange if the sultan of Bacolod isn't in Manila before August, safely behind prison walls. It will not be long before the sultan of Bacolod and a number of other sultans will understand that your Uncle Samuel is not to be fooled with and will brook no threats. He is not built on the Spanish installment plan.

An entirely wrong impression has gone out over the country with reference to the strength of the statehood bill in the United States senate. The fact is that there are from 29 to 35 Republican senators in favor of the admission to statehood of one, two or all of the territories applying; and between 18 and 29 in favor of the omnibus bill as it stands. The Democrats in the senate are a unit for the omnibus statehood bill's it is. A poll of the senate showed 69 out of the 88 senators in favor of statehood in some form. On the day that Senator Quay forced the opposition to fix a day in December for the bill, if he could have obtained a vote on the floor of the senate, the omnibus bill as it reads would have received a vote of 45 to 38 in its favor, or a majority of seven on the vote stood. The statehood bill has many friends who will vote for it on the floor of the senate when properly brought there, who would not vote to take it away from the committee in the unusual manner it was sought to be done. As it was considered an affront to the majority of the committee on territories.

A SENSIBLE POLITICAL COURSE.

Says the Albuquerque Citizen: Some of the better posted and shrewder Democrats of the territory are of the opinion that it would be good Democratic policy not to nominate a Democratic candidate for delegate in this fall's campaign, but to support the Republican nominee for that position, thus electing him by an overwhelming majority in order to show the 57th congress and the people of the country that the Democrats of the territory of New Mexico are strongly and unequivocally in favor of statehood and are, therefore, ready and willing to sacrifice something in order to obtain this greatly desired boon. This is a very good political idea. The New Mexican, however, does not believe that it will prevail. If carried out it would benefit the statehood movement and the people of New Mexico greatly, but there are a few peanut politicians and strikers who would make something by political strife in the Democratic party who will try to defeat the plan. If it were carried out, statehood would be an assured fact. Judging by the past it is not very probable that such a sensible course would be taken by the Democracy of the territory. It may be, but it is very doubtful.

ANOTHER REASON FOR STATEHOOD.

Delegate Rodey in his speech before the committee on territories of the United States senate, on Saturday the 28th of June, last, made the truthful statement that one of the most cogent reasons why the people of the territories demand statehood, is because they cannot, in the nature of things, be adequately represented by a single, voteless delegate in congress. He declared that a great territory like New Mexico, Oklahoma or Arizona, particularly his own territory, has not only to seek necessary and beneficial legislation to perhaps twice the extent of any ordinary congressional district, but has also to continuously defend itself against all sorts of pernicious attacks. He declared that more than one-half of his time during the present session, was occupied in fighting for the rights of his territory to the use of its waters, and in fighting fraudulent land grants, reserves, leasing laws, etc., and that it was utterly impossible for a delegate to serve on one or more committees of the house, attend to his usual duties which are great and many in a territory, and do all this additional defensive work.

THE DRIFT FENCES.

The cattlemen of the west have 325,000,000 acres of public land fenced with drift fences. The larger cattle corporations in addition, desired congress to pass a lease law which would confirm their hold on the land that has been fenced. But congress did not pass any leasing legislation and now President Roosevelt and the secretary of the interior insist upon the removal of the drift fences. This will work hardship and even entail losses to the cattlemen but they have no one to blame but themselves for attempting to absorb the whole range country. The removal of the drift fences is in the interest of the homesteader, the small cattle owner and the general industrial progress of the west. As between agriculture and the range cattle industry, preference must be given to the former although the latter is also very valuable and should be fostered in every way except at the expense of more important industries. If so much time and determined effort are needed to compel the removal of fences, admittedly illegal, what would not be the trouble necessary to compel cattlemen to abandon leased lands that should become fringing. The lesson is one that should not be lost on congress or the executive departments of the federal government.

The day is coming in the west, as it has come in Ohio, when cattlemen and sheepmen will own the land on which their cattle and sheep range, when they will have their acres of alfalfa to

Throat Troubles

"Bardwell, Ky., where I live, is in the extreme western part of the State and only a few miles from Cairo, Ill., where the Ohio empties into the Mississippi River. It may be that throat troubles are common here because of location, but, whatever the reason, I find it wise to keep a supply of Ackers' English Remedy for Consumption on hand. It is the best thing I ever knew of for coughs, colds and throat troubles, and I have used it in my family for years. No druggist here can be depended upon to have it always, so I am writing this letter to W. H. Hooker & Co., 220 Broadway, N. Y., to order a dozen bottles at a time. My wife is bothered lately with sore throat and difficulty breathing, but just as soon as the dozen bottles get here, I will give her a few doses, and she will certainly be well again. I expect to write another letter in a short time saying my wife is cured, for I feel absolutely sure it is what she needs." (Signed) T. A. Warr.

Sold at 25c, 50c, and \$1 a bottle, throughout the United States and Canada; and in England, at 1s, 2s, 3s, 4s, 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

Write for the above quantities, W. H. Hooker & Co., Proprietors, New York, Fischer Drug Company.

feed their stock in winter and during droughts, when the fact that the land is owned by the cattlemen or the sheepmen will lead to far greater improvements on the range than is possible at present. After the first hardship which such a change will bring with it has been conquered, the cattlemen and the sheepmen of the west will be more prosperous, their business will be subject to fewer losses and they will be upon a more stable basis than under present uncertain conditions.

It is said of Tammany Hall that it does not need a chief to save it so much as a principle. Tammany has no morality of purpose; it is a pack of wolves where each individual dreams of nothing but an office, another contract; and all they follow the hunt of politics for motives always personal and often base. If they were capable of a principle, these voracious folks of Tammany might yet see a victory. But they are not; they have neither a pride nor a patriotism for their country; they think only of fleeing, never of governing, and look on New York as an oyster to be opened and devoured. No mere chief will again lead Tammany to victory and triumph unless it first releases its rogues to obscurity, embraces integrity, cultivates a principle and experiences purity and a change of heart. How well the above description fits the place hunters who under a cry of reform are fighting the administration in New Mexico.

SPECIAL NOTICE.

The New Mexican Printing Company has on hand a quantity of tablets made from ledger, linen, flat and book papers which they will close out at 10 cents per pound. Suitable for school purposes and businessmen, also useful for the home. Only a limited supply.

Portland, Tacoma and Seattle and return \$48.75, Santa Fe.

Missouri Code Pleading

By Mr. Everett W. Pattison,
(Author of Pattison's Complete Digest,
Nearly 600 Pages. Price, 50c. Delivered
This Book is a Very Important One
for all Lawyers.

The New Mexico Code is largely modeled on the Missouri Code so that this book and the Form book, are the most practical for use thereunder.

It sets forth, as succinctly as is consistent with clearness, the present condition of the law governing pleading as interpreted by the courts of last resort in Missouri. The decisions are mostly those of the Missouri courts; though in some instances illustrations have been drawn from the decisions of other code states.

The Author Thoroughly Believes in the Advantages of the Code System of Pleading.

He further believes that precision and exactness are of more importance in code pleading than in pleading at common law. For, while it is true that the common law requires the utmost strictness in adherence to forms, yet, if its forms are followed, the practitioner need have little fear of attack upon his pleading, even though that pleading should totally fail to inform his opponent as to the real points in issue. On the other hand, the very object of the Code is to compel parties to make clear the grounds upon which their right to recover, or their defense, is based. The lawyer who is well grounded in the rules of pleading will surely have the advantage in litigation. The constant study of this valuable work, familiarity with the rules set forth in it, and with the decisions enforcing and interpreting those rules, cannot fail to make one a good pleader.

SPECIAL OFFER—To those who buy both books at once, we will give Pattison's Pleading Form Book (Price, \$5.00) if ordered within the next 30 days for \$4.00 additional, thus offering the two works, giving all there is to be said about Pleading in Missouri.

In one order, Prepaid for \$10.00.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barranca Station, on the Denver & Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly

tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:05 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. For further particulars, address

TUESDAY, JULY 8.

CARLETON POST G. A. R.

One New Member Admitted—Accounts for Fiscal Year Closed and Resolutions Adopted.

Carleton Post, G. A. R., held its regular monthly meeting with a full attendance. One new member was elected and the post business for the six months ending June 30th was closed up in proper form with other business transacted, the following resolutions were adopted:

Whereas, Death has called from our ranks our beloved Comrade John T. Forsha, who was a charter member of our post, leaving but one charter member surviving him;

And Whereas, Comrade Forsha served his country in the dark days of the civil war, from July 28, 1863; when all knew what war was and our country needed soldiers, until after the very close of that awful war;

And Whereas, the record of Comrade John T. Forsha, in Co. B., of the 86th, Ohio Infantry, in which he first enlisted; and in Co. D., of the 12th Ohio Cavalry in which he was re-enlisted, is magnificent; And Whereas, Comrade Forsha was a brave man, a patriot, a true soldier and earnest and loving friend, and his death in the prime of his life, on June 23, 1902, was deeply regretted by all his many friends;

Therefore, Be it resolved that we bow in sorrow to the will of God in taking our comrade from us, and that as a mark of our love and respect for Comrade Forsha, our altars be draped in mourning for the period of thirty days. Resolved, that to the widow of Comrade Forsha, we extend our sympathy and solatium and to his brother and relatives our sincere condolence.

Respectfully submitted, in F. C. & L. JOHN P. VICTORY, GEO. W. KNAEBEL, JOHN C. HILL.

Resolved, that the thanks of Carleton Post No. 3, G. A. R., be and they hereby are tendered to Rev. W. Hayes Moore, for the very eloquent and impressive sermon he preached at the Presbyterian church in this city on Sunday evening, June 23, 1902, to this post, in commemoration of Memorial Day.

Resolved, that inasmuch as the sermon was necessarily deferred because of the sickness of Mr. Moore, this post appreciates even more the beautiful sermon than if it had been preached on the evening fixed for the same, and extends to Mr. Moore, his heartfelt sympathy in his illness and the sincere hope for his speedy restoration to good health.

Resolved, that a copy of these resolutions, signed by the post commander and attested by the adjutant of the post, be sent to Rev. W. Hayes Moore.

Whereas, Memorial day throughout our land, has always since its establishment, been properly observed by all patriotic citizens, and the ceremonies have been under the auspices of Grand Army Posts throughout the United States;

Therefore, Be it resolved, that the thanks and most sincere appreciation of Carleton Post, No. 3, Grand Army of the Republic, Department of New Mexico, are due and respectfully and fraternally tendered to all those who took part in the proceedings on Memorial day, May 30th, 1902, in honoring our dead, and particularly to the Ladies of the Woman's Relief Corps of Santa Fe, and all other patriotic ladies, and the school children who gathered and prepared the beautiful flowers which were scattered on that day over the graves of the fallen ones; and also to the First Regt., Territorial Militia band, the Capital City Band, and the United States Indian school, and all the school children and others who took part in the procession, to Captain G. D. Crittenden, superintendent of the National cemetery; and also to the citizens of Santa Fe, who so generously subscribed towards the expense; and last but not least, to Comrade John P. Victory, the marshal of the day, who so successfully managed the procession, with his aides, making it one of, if not the best and most imposing and impressive procession that ever marched in Santa Fe on any Memorial day.

Resolved, that these resolutions be spread upon the minutes and a copy handed to the press for publication.

Respectfully submitted, GEO. W. KNAEBEL, JOHN C. HILL.

A majority of the committee, Dated, Santa Fe, N. M., July 5, 1902.

MINOR CITY TOPICS

Exchange: Mark M. Conlon, Eureka, Colo.; I. S. Conlon, Los Angeles, Cal.; N. E. Stevens, F. H. Mitchell, Albuquerque; J. R. Luero, Las Cruces; Mrs. N. S. Packer, Gallup; H. A. Schutte, Milwaukee.

About 45 children of the Sunday school of the Church of the Holy Faith, their teachers and parents are enjoying a picnic today in the Santa Fe canon.

Probate Clerk Manuel Delgado today recorded a deed by E. H. Bierman and Josephine Bierman to G. L. Brooks and W. S. Strickle for a parcel of land at Golden, area 4 1-3 acres.

Showers are predicted for tomorrow. The maximum temperature yesterday was 82 degrees, the minimum temperature 54 degrees, the temperature at 6 o'clock this morning 61 degrees.

Bon-Ton: D. M. Coleman, Buffalo; J. C. Arthur, Las Vegas; A. G. Burlingame, Captain; Henry Silbiger and daughter, Pecos; C. W. Atkinson, Prescott; C. B. Harrold, C. H. Price, Alamosa.

On Thursday of this week, there will be said at the cathedral an anniversary mass for the repose of the soul of the late Albino Arias. Mass will begin at 7 o'clock in the morning. Relatives and friends are invited.

Ab Gold will plaster the wall of his Old Curiosity Shop on Burro Alley and will lay a good pavement in the alley, with the hope that other property owners will follow suit as the alley is much traveled by the public.

Palace: H. C. Longwell, W. F. Krueger, F. A. Galer, Denver; G. Alden Whitmore, Boston; Venecio Jaramillo, El Rito; J. Law, C. A. Carruth, Antonio; Richard S. McCaffery, Morrison B. Young, San Pedro.

Judge McFie today signed the final decree in the case of the Acaquia del Cano et al. vs. Acaquia del Llano et al., providing for the distribution of the waters of the Nambé river in and around the Indian pueblo of Nambé.

The telegraph line of the Santa Fe Central Railway Company reached Santa Fe today and the wires will be in the offices of the company in the Catron Block by tonight. The instruments will be placed in a few days and then telegraphic connection will be had

with Donaciano, Vega Blanca and Kennedy from where the line will be run south to Torrance, the poles already being on the ground and the holes dug for them. That part of the line will be completed in nine or ten days.

It is reported that the Santa Fe river has been turned out of its course near its head in order to catch the trout which are plentiful this year in the river. The water in the stream is rather low and it is not difficult to turn it out of its course for quite some distance.

The Santa Fe Hook and Ladder Company held an interesting meeting last evening. The following officers were elected: Foreman, Mauricio Duran; assistant foreman, Henry Pacheco; treasurer, A. M. Dettelbach; secretary, R. Tenorio, representative on the fire board, Joaquin Martinez.

Mrs. G. Wilson died last evening of pneumonia at the home of Samuel Fallow on the south side. Mrs. Wilson came here from Mitchellville, Ia., some time ago, for the health of her three daughters who were with her when death came. She was aged 64 years. Undertaker Charles Wagner embalmed the remains preparatory to sending them to Mitchellville for interment.

The county commissioners should not lose sight of the necessity for a substantial bridge across the Santa Fe river on Don Gaspar avenue and the need of repairs to the Bridge street bridge. A road from Monument rock to the Macho canon should be built and the board of county commissioners should help in the matter.

The board of county commissioners yesterday forenoon approved bills to the amount of \$1,000 and then adjourned until this morning. This forenoon appeals from assessment raises were heard. The assessment on the property of J. B. Lamy at the corner of the Plaza and San Francisco street opposite the Exchange hotel was reduced from \$6,000 to \$5,000. The assessment on the Clemea on Palace avenue owned by Lehman Spiegelberg was reduced from \$2,100 to \$1,500. The assessment on land of Miss Eva Curry was fixed at \$1,400 and her house and improvements at \$300; and the assessment on a cow reduced from \$25 to \$15. The assessment on the ranch of 10 1-2 acres on the Agua Fria road belong to Dr. J. M. Diaz, was fixed at \$100. The real estate valuation of A. Staab was fixed at \$15,400, an increase from \$11,750, and his personal property assessment at \$12,050, an increase from \$3,050. The property valuation of Mrs. Caroline E. Hickey was fixed at \$5,500.

PLEASURE TO THE BUTCHER

PLEASURE TO THE BUYER

We watch the meat we buy. It cost so much you should have the best quality and be sure of the Greatest good in buying. We BUY as LOW as we CAN and SELL as LOW as we DARE so that our patrons get the benefit and we try as hard as possible to satisfy each and every one.

CRISP AND BROWN AND WHOLESOME

We make the best loaf bread you ever ate. It is a combination of care in making and judgment in baking. Light enough to be wholesome and substantial enough to be pleasing and strengthening. It is just the brown enough to look right and taste right to satisfy each and every one. A trial will convince you of its merits.

We have a HURRY WAGON at your disposal, not from the POLICE STATION but from the STORE that tries to make its delivery system the subject of commendation instead of complaint. Want anything in a hurry we will get it to you.
