THE PRIZE FIGHT
WAS A BIG FAKE

Mayor Schmitz of San Francisco Has Given
Out a Statement to That
Effect.

STORY OF THE ENCOUNTER

It Was a Brutal and Disgusting Slugging Match, the
Unexpected Result of Which Apparently Justifies
Mayor Schmitz' Declaration That He Shall
Hereafter Prohibit Such Exhibitions.

San Francisco, Calif., July 26.—Mayor Schmitz has given out the following statement for publication: "From the information I have received, I am forced to believe that this exhibition was no better than the previous ones we had, namely, the Jeffries-Rublin, Gans-McFadden and others, and it will do much toward discouraging the sport in this city. In fact, unless some indubitable evidence is produced to disprove the information furnished me by the Examiner I shall hereafter have to prohibit all such professional 'fake' exhibitions."

THE STORY OF THE BATTLE

San Francisco, July 26.—After fighting a battle of eight rounds that was fraught with brilliant and courageous work Robert Fitzsimmons last night forfeited his last claim upon the heavy-weight championship. He was knocked to the floor by James Jeffries and counted out after he had so badly punished the champion that it was a foregone conclusion among the spectators that the Corishman must win. Bleeding from a number of gashes in the face, apparently weakening and clearly unable to cope with Fitzsimmons' superior skill, Jeffries delivered two lucky punches as Fitz paused in his fighting to speak to him and turned the tide. The battle was brief, but it was noteworthy and will live in pugilistic history. Fitz tried once to arise from the mat but sat down again in helplessness and heard himself counted out, where, but a moment before he had apparently all the better of it.

"I will never fight again," said the battle-scarred veteran of the ring, when he had sufficiently recovered to talk. "The fight was fairly won, and to the best man belong the laurels."

"You are the most generous man alive," said Jeff in return, "and I consider myself lucky to have won as I did." Fitz had been fighting at a furious gait, but was cool and deliberate and was chopping the champion to pieces with those terrific rights and lefts. At last he made him famous. He was a horse and the racer from the top of the gong. When the men came together Fitz appeared rather worried, but upon the opening of the first round he assumed an air of absolute confidence and fought with the deliberation of a general. At the end of the second round Jeff had been bleeding profusely from the mouth and nose. Again and again he landed on his bulky opponent and kept getting away in such a clever manner that it brought down the great house with cheers. It seemed indeed, that Jeff could scarcely weather out the gale.

Then came the eighth round and under a series of hot exchanges Fitz paused with his guard down and spoke to the champion. The latter's reply consisted of two terrific blows that brought back to him the flaming championship and forever removed Veteran Fitz from the fight arena.

Fitz took his defeat with amazing coolness and good cheer. He walked to the center of the ring, struck his hand against the multitude saying: "The best man has won. Had I beaten Jeff tonight I should have conceded him the championship and forever retired from the ring. I retire now, just the same, but without having accomplished my ambition. I am satisfied."

THE MAYOR DETERMINED.

San Francisco, Calif., July 26.—Mayor Schmitz said today that he would be convinced, after a thorough investigation that last night's contest between Fitzsimmons and Jeffries was a pre-arranged affair, he would do all in his power to prohibit future prize fights in this city. He has been very much disgusted with the fight, and it is being evident that the best man did not always win, and it is expected the fighting game here will be forever killed, should conclusive evidence be adduced to prove the assertion of certain persons supposed to be the promoters of the Fitzsimmons-Jeffries bout was a fake.

A TIP TO BETON JEFFRIES.

San Francisco, July 26.—There is a wide difference of opinion in this city as to the character of last night's contest between Jeffries and Fitzsimmons. The charge that the fight was a fake does not meet with general belief, although there is doubtless a large number who are of the opinion that the fight was fixed to end in the eighth round. Even those who charge fraud admit that it was a magnificent fight while it lasted. Fitzsimmons when seen this morning, was apparently much distressed at the charge of a fake. He declared that he fought his best but could not stand Jeffries' terrific body blows. Jeffries also denied that the fight was a fake. He said Fitzsimmons had given him the hardest fight he ever had, and that they were good honest pugilists. The trainers indignantly resent any charge of crookedness, but the fact remains that the information was given to Mr. Naughton of the Examiner the day before the fight, that it was to end in the eighth round. Naughton's information came from some one who was with Jeffries at Barlin Springs and the tip was given to bet on Jeffries to win in the eighth.

Mayor Schmitz said: "I saw the exhibition and up to the time of the blow that settled the fight was striking. It seemed to be a fair and creditable performance, but at the time that the blow was delivered by Jeffries, Fitzsimmons appeared entirely off his guard. Perhaps so much stress would not be placed on this fact were it not for the information given me the night before the exhibition that the contest would end in favor of Jeffries in the eighth round. I believe the promoters of this exhibition knew nothing at all of the pre-arranged affair."

LAS CRUCES AND
THE MESILLA VALLEY

The Agricultural Experiment Station Is
Continuing Its Investigation of Irriga-
tion With Pumps and Is Achieving
Valuable Results.

A NEW MUSIC TEACHER FOR THE COLLEGE
OF AGRICULTURE AND MECHANIC ARTS

Special Correspondence New Mexican.
Las Cruces, N. M., July 24, 1902.

President Luther Foster spent yesterday in El Paso where he went to meet his daughter, Miss Florence Foster, and his mother-in-law, Mrs. J. B. Curtis of Iowa. Owing to the delay of the Texas and Pacific trains, Miss Foster and Mrs. Curtis did not arrive, and President Foster returned last night. Mrs. Curtis is very anxious to visit New Mexico again, as she spent sometime in Mesilla in 1874, visiting her brother, Colonel J. F. Bennett, who was one of the early settlers of the Mesilla valley.

Professor J. D. Tinsley left yesterday for the Pecos valley where he goes to complete his investigations of the alkali in that region. He went overland. Miss Charlotte A. Baker, librarian of the college, will arrive on Saturday from California where she has been for the past six weeks.

Oscar C. Snow and wife spent a few days at Van Patten's the first of the week. Miss Helen Macgregor returned with them.

Miss Mary Waters of Bozeman, Montana, has been given the position of music teacher in the college for the ensuing year. Miss Waters has just finished an eight years' course in music, and comes highly recommended to teach the best German methods.

Mrs. J. D. Isaacs will leave in a few days on a visit to relatives in Texas. The first of the week the Mesilla valley had rain enough and, to spare. It rained for three days, consequently farmers and cattlemen are looking happy. The rain has saved some corn and a number of gardens from drying up, and there will be another cutting of alfalfa.

The experiment station at Mesilla Park is continuing its investigations of irrigation with pumps, which will prove very valuable to the farmers of New Mexico.

IMPEACHMENT PROCEEDINGS.

The United Mine Workers Are Wrought Up Over the
Action of Judge Jackson.

Indianapolis, Ind., July 26.—The miners' official are preparing a transcript with a view to bringing impeachment proceedings against Federal Judge Jackson at Parkersburg.

WILL APPEAL TO THE PRESIDENT.

Indianapolis, Ind., July 26.—The plan of action is not definitely outlined, but it is probable that impeachment proceedings will be begun soon, if Judge Jackson, after the final hearing, refuses to dissolve the injunction. Secretary Wilson said today that a complete transcript of the case, including the complaints and Judge Jackson's decision, will be prepared for submission to President Roosevelt and the senate.

Wilson says the miners will not ask the president to interfere with the injunction, as they realize that the president is without power as to the injunctions, but if the habeas corpus proceedings fail to release the organizers, the president will be asked to pardon them.

CLOSING RELIGIOUS SCHOOLS.

The French Authorities Are Expelling the Catholic
Sisters—A Riot at Marnay.

Paris, July 26.—The serving of the official notices closing the unauthorized religious schools began this morning, and was carried out in Paris without disturbance. At Marnay, in the department of Dunord, the expulsion of the sisters led to a riot in which two persons were arrested. The police commissary and ten rioters were injured.

FIFTEEN INCHES
IN FOUR HOURS

Big Springs, a Town in Texas, Is Under Four
to Twenty-Two Feet of
Water.

DELUGE IN LONE STAR STATE

It Is Still Raining and Miles of Railroad Track Are Be-
ing Washed Out—The Little River Rose Twenty
Feet in Eight Hours—Many Farms
Are Flooded.

Dallas, Tex., July 26.—The deluge of central Texas and the western portion of the state has not abated. In addition three lives were lost at Stephenville and there has been much property damage. Within four hours at Cameron yesterday, 15 inches of rain fell. A thousand feet of Santa Fe track was carried away, and a portion of the Arkansas Pass road was destroyed. The Little River rose 20 feet in 8 hours. The farms in the bottom lands are flooded. At Gainesville, 10 inches of rain fell. Two of the Texas and Pacific passenger trains were derailed at Weatherford. Big Springs is probably the greatest sufferer as the water is over the town from 4 to 22 feet deep. The track for 10 miles west of Big Springs has been washed out and the bridges are gone. 50 passengers are water bound there, and no attempt will be made to run trains until the rain ceases. The foundations of the brick and stone buildings are damaged and some are expected to collapse. The damage will be enormous. At Waco, the Brazos was still rising at midnight and was within one foot of the danger line. It is still raining there.

FLOOD DAMAGE IN NEW YORK.

Canandaigua, July 26.—Another terrible storm visited this section last night, doing great damage. Edward Chamberlain was struck by lightning and instantly killed. The Canandaigua Lake has risen still higher. The damage to the hundreds of farms is simply irreparable.

THE OATS MARKET.

Oats Drop From 71 to 55 Cents and Then Suddenly
Shoot Up to 67 Cents.

Chicago, July 26.—The oats market indicated later that the supposed corner was by no means at an end by it suddenly shooting up from 55 to 67 cents for July and closing at the latter figure.

PANDEMONIUM REIGNED.

Chicago, July 26.—The cause of pandemonium was a rumor that James Patten, who is supposed to control contracts for about 1,500,000 bushels of long stalk, which the shorts fear they cannot deliver, had allowed his unfortunate opponents to settle at about 70. With the Patten contracts out of the way the crowd started to let the market take its course and thrash out the inflation in values. July new oats, which opened firm at 71, floundered to 55 before any support came. When the small shorts heard that no settlement had been made, a few of the speculators who sold unguardedly, rushed back to cover and with a whoop the prices jumped to 67.

REVIEWED BY THE PRESIDENT.

Roosevelt Disapproves of the Acquittal of Lieutenant
Norman G. Cook and Approves Other Findings.

Washington, July 26.—The president has returned to the war department the cases of Major Edwin S. Glenn, 5th infantry; 1st Lieut. Julian Gault, 15th cavalry; and Lieut. Norman G. Cook of the Philippine scouts. Glenn was found guilty by the court and sentenced to be suspended one month and forfeit \$50 of his pay. Gault was found guilty and sentenced to a suspension of three months and forfeit \$50 per month during that period. Cook was acquitted. The president approves the finding in the case of Glenn and Gault and disapproves of the action of the court in the case of Cook. Glenn was tried by a court martial for administering the liquor to the president of the legislature, and Gault for administering the cure to three natives. Cook was tried on charge of ordering three natives shot by the Macabebes scouts.

THE SITUATION IN VENEZUELA.

President Castro Is on His Way to Caracas With His
Troops—The Revolutionists Driven Back.

Washington, July 26.—The navy department received the following cablegram from Commander McLean of the Cincinnati, the senior American naval officer in the Venezuelan waters, dated La Guayra, today: "The president of Venezuela arrived today with his flag on the Beatorador. It was saluted by all the foreign men-of-war and by the battery ashore. He proceeded to Caracas, Venezuela, with the troops by rail. He intends to march on the revolutionary force from Aragua. The trains have been interrupted this morning by the revolutionists. They were driven away by the Venezuelan soldiers. The Venezuelan government holds Valencia."

Harmonious Democrats.

Dallas, Tex., July 26.—The Democratic congressional convention of the 12th district, in session at Dublin, took an adjournment to meet in Cleburne on September 4. Six thousand and seventy-one ballots were taken without a selection.

The Abolition of Child Labor.

San Francisco, Calif., July 26.—The executive council of the American Federation of Labor adopted a resolution supporting the legislation for the abolition of child labor in the states not now having such a law.

THE ABBEY
MINING COMPANY

It Is Prosecuting Development Work on
Groups in Socorro, Dona Ana and Sierra
Counties and Is Well-Equipped for
Extensive Mining Operations.

THE COMPANY OWNS THE LARGEST
MANGANESE PROPERTY IN THE WORLD

Special Correspondence New Mexican.
Socorro, N. M., July 25, 1902.

The Abbey Mining Company of Pittsburgh, Pa., which recently incorporated in New Mexico, is now operating at Abbey and Water Canon, Socorro county; at Upham, Sierra county; and Rincon, Dona Ana county. The Abbey group is situated 25 miles north of Magdalena and consists of 12 recorded claims, located along two parallel veins each 2,500 feet in length. One of these claims, The Recent, located on No. 1 vein, has a shaft 100 feet deep with a 25 foot cross-cut, which shows a good vein of copper quartz on a shale and lime contact. On the same vein 2,500 feet further north, is the Regal claim, on which the shaft is down to the 100 foot level. There is a 100 foot cross-cut and a 50 foot drift on this level. Here there is a two foot vein of ore carrying 8 per cent copper and 80 ounces of silver per ton. A large flow of water was encountered causing a temporary delay in the prosecution of development. The remaining claims have simply the regular assessment work performed on them. In connection with the Abbey group, the company controls 160 acres of coal lands within two miles of the mines.

The Little Baldy group lies five miles south of Water Canon station. There are six claims. The ore is silver, copper and lead, in two veins, and gold in the third. The altitude of this group is nearly 10,000 feet. Assays show returns of 20 per cent copper, 12 per cent lead and 10 to 100 ounces of silver. The gold vein is a fissure standing in andesite and assays run as high as \$70 per ton. The lead group lies about three miles lower down the mountain range. The Washington group is situated in Sierra county, ten miles from Upham station. There are four claims in this group. The vein is from 150 to 150 feet in width, capped with iron, through which copper stringers are protruding, never assaying less than 20 per cent.

The Manganese group is situated in Dona Ana county, about one mile from Rincon. There are 28 claims stretching for eight miles along a continuous vein, apparently making it the largest manganese property in the world. The Abbey company has at present over 60 per cent work at their various groups, all under the management of Nathan Hall. There is a cash balance in the company's development fund of \$20,000 and \$100,000 to \$200,000 can be added to this amount whenever conditions require it. The New Mexican office is at Socorro, James G. Fitch being the New Mexico attorney.

WILMOTH'S ASSASSIN.

He Has Been Located and Is Trying to Play the Tracy
Act.

Philipp, W. Va., July 26.—The real assassin of Chief of Police Wilmoth has been located and the officers with bloodhounds are on his trail. With the daring and desperation of Tracy, the negro murderer is terrorizing the people and steadily pushing his way up the mountains. If taken he will probably share the horrible fate of his companions. He is well armed and it is expected that he will make a daring fight for liberty. The negroes continue to leave.

THE IRISH
QUESTION AGAIN

The Closing Days of the Session of Parliament
Are Marked by Bitter and Heated
Discussions.

THE LAND TRUST SCORED

Accusations and Recriminations Are Especially Fierce—
An Organization by the Land Lords to Resist the
Threatening Combination of Tenants and the
Suppressing a Boycott.

London, July 26.—The closing days of the session of parliament are witnessing heated discussions of the ever recurring questions. This week was especially notable for the fierceness of the accusations and recriminations in the house. The resentment of the Irish members was stirred to an unusual degree by the discovery of the alleged secret documents of the land trust, organized by the landlords for the avowed purpose of resisting the threatening combinations of the tenants and suppressing the boycotting and intimidation instigated by the United Irish League or otherwise.

"We shall not be surprised," said John Redmond, chairman of the United Irish League, to the Associated Press, "if O'Brien, Dillon, Davitt, myself and the other leaders are arrested at Mr. Wyndham's instance within a fortnight."

THE CORNATION.

London, July 26.—King Edward signed the proclamation fixing the coronation for August 9, and making a bank holiday the same date.

PRIVY COUNCIL MEETING.

London, July 26.—The Duke of Devonshire, and the other members of the privy council, left here on a special train this morning for Southampton to attend the meeting of the council on the royal yacht Victoria and Albert, off Cowes, Isle of Wight, today. It was the first meeting of the council ever held in a similar place or under such circumstances.

A BRITISH VICTORY.

The Mad Mullah Is Defeated by a Scouting Expedition
That Secured Rich Spoils.

Aden, Arabia, July 26.—The British expeditionary force operating against the Mad Mullah in east Africa, after scouting the northeast of Damot over an absolutely waterless country, learned of the general direction of the Mullah's forces and his prisoners and sent off a mounted column under Colonel Cobbe, which, after an 80-mile chase across the desert, came in contact with the tribesmen, killed 170, captured 4,000 camels and 12,000 sheep. The British had eight men killed and four wounded.

FATALLY INJURED BY DOGS.

The Terrible Fate in France of a Former Brooklyn
Society Woman.

Paris, July 26.—Madame Edmund Sempis, formerly Miss Louise Rutherford, of Brooklyn, N. Y., was set upon by two Great Dane dogs, which were secured to guard her husband's country house at Anney Lake, and was so terribly injured that she died two hours after the attack.

KANSAS POPULISTS.

The Straight-Out Populists Will Put a State Ticket in
the Field.

Topeka, Kas., July 26.—A state ticket is to be placed in the field under the name of Populist. A call for a state mass convention at Topeka, August 21, was issued today, signed by J. H. Lathrop and N. Robbins, Topeka. They represent the straight out Populist party that nominated Wharton Barker at Philadelphia two years ago.

Cabinet Visitors at Oyster Bay.

Oyster Bay, N. Y., July 26.—Secretary Moody arrived off Sagamore Hill in the Dolphin today. Secretary Shaw, who passed the night at Sagamore Hill, left today for New York. Attorney General Knox is expected tomorrow.

District Court.

In the application for a mandamus by C. P. Blackinton, Sheriff of Socorro county, against the board of county commissioners of that county directing them to issue bonds to fund a judgment against said county obtained by Sheriff Blackinton amounting to nearly \$9,000, Associate Justice McMillan of the territorial supreme court on yesterday granted said mandamus directing said board to issue bonds as requested by the plaintiff unless a levy for the payment of said judgment was made forthwith. H. M. Dougherty, Esq., of Socorro, represented Sheriff Blackinton.

In a similar proceeding on the relation of Max Frost of this city, vs. the board of county commissioners of Socorro county for the settlement of a judgment amounting to \$450 against the said county, Associate Justice McMillan granted a writ of mandamus directed to the said board of county commissioners of Socorro county of the same tenor.

SATURDAY, JULY 26.

New Mexico Demands Statehood of the 57th Congress.

Of Right and in Justice New Mexico Should Be a State.

Let the New Mexico Democratic bosses oppose statehood if they want to. They will be a frazzled set when they get through with that game.

Just give the Democratic bosses of New Mexico rope enough. That is all that is necessary for overwhelming Republican success this fall.

The trans-Mississippi congress, to be held in St. Paul, Minn., on August 22, will be an important gathering and New Mexico should be fully represented.

John R. McLean's paper, the Cincinnati Enquirer, is not taking very much interest in this year's Democratic campaign in the state of Ohio. John is evidently sulking.

The people of the capital city of this territory are enjoying most delightful summer weather and extend a hearty invitation to people elsewhere to come here and do likewise.

The New Mexican has the greatest confidence in the ability of the New Mexico snide reformers to do a great lot of barking. They cannot get any fight out of this paper on that proposition.

The anti-imperialists want all army officers who do their duty in the Philippine Islands, court martialled and dismissed from the service. These anti-imperialists should be given the grand bounce. The people are tired of them.

Since Senator Jones of Arkansas, has been retired a number of senatorial candidates have been on the war path after the toga of Senator Jones of Nevada. The Democratic party is getting rid of its Jones' instead of its Johnsons.

The Democratic leaders in New Mexico are getting ready to oppose statehood for this territory. Let them do so whenever they get good and ready. They can hurt the statehood movement to some extent, but will hurt themselves and their party a great deal more.

This paper will insist upon the nomination of good, competent and honest men for candidates for offices in this country this fall and further that these nominations must be brought about by fair and honest means. This is this paper's private opinion publicly expressed.

The New England Democracy is trying to get together. Gold and silver are to be retired from its declaration of principles and harmony and peace are to prevail. About 300 of these Democrats got together at Nantasket a few days ago and so resolved. In their opinion this makes it so. To unprejudiced observers it looks like the tail trying to wag the dog.

Italy sent the largest number of immigrants to this country during the year ending June 30, 1902. Nearly 150,000 of these arrived in the United States from the sunny shores of the Italian peninsula. This means a large addition to unskilled labor and it remains to be seen whether this will prove of benefit or a draw-back.

The board of aldermen of the city of New York is holding up the application for a franchise for a tunnel of the Pennsylvania Railroad Company. The tunnel is to cost about \$50,000,000 and the Democratic board of aldermen of Gotham is of the opinion that this is too much. The august members of that body believe that half of that sum for the tunnel and the other half for themselves would be about the right thing.

It will be very hard indeed to place Democrats upon registration and election boards in Valencia county. In many precincts of that county of late years not a single Democratic vote has been polled. The Democratic territorial central committee must import Democrats into Valencia county if it would have its party represented on the registration and election boards there. The Republicans are perfectly willing that this should be done.

From New York it is reported that Bird S. Coler, who for four years served as controller of the city of New York, will be the Democratic nominee for governor this fall. He is an active, courageous and bright man and will make as good a race as any Democrat that can be nominated in the Empire state, but as far as election is concerned, that is another matter. The signs of the times indicate that New York will go Republican this fall.

Secretary Moody is doing some good work towards placing the United States navy upon a more practical basis. The secretary is a hard headed business-man.

The leaders of the Democracy in this territory do not take kindly to the idea advanced by this paper that it would be well, for the interests of the people and in order to obtain statehood, were no Democratic candidate for delegate to the 58th congress put up. But then political wisdom was never the strong suit of these gentlemen. They were for a time successful in New Mexico politics, owing to splits and factional fights in Republican ranks, but never won through good leadership or upon Democratic party principles.

The interior department has withdrawn over 500,000 acres from settlement in northeastern Colorado along the South Platte river, and about one-half that area in southern California on the Mexico line. It is supposed, that at these two points the first national irrigation works will be constructed. Of course, New Mexico will have to wait, like so many other good things, until it attains statehood before it can hope for any national irrigation works.

The project of the construction of a railroad to connect Roswell, the county seat of Chaves county, with Torrance on the El Paso and Rock Island railroad and the terminus of the Santa Fe Central railway in Lincoln county, is assuming definite shape and there is much more to it than pessimists affect to believe. The realization of this project would not only do New Mexico incalculable good, but the railroad proposition would prove a paying venture from the very start.

More applications for information concerning this territory are being received by the Bureau of Immigration than ever before in its history. Many publications of the bureau containing information concerning the resources, climate, conditions, etc., of the territory, as also reports of the governor for 1901, are being sent out in answer to such inquiries. That New Mexico is attracting much attention throughout the country is certain and that its population and wealth are steadily increasing is also sure.

The chairman of the Democratic Territorial Central Committee, O. N. Marron of Albuquerque, would like the nomination for delegate to congress upon the Democratic ticket. At least this is inferred from the work some of his friends are doing in the northern part of the territory. As far as the Republicans are concerned, Marron is about as good as any other man. The Democratic candidate will be defeated no matter what his name. At the same time it may properly be remarked here that some of Mr. Marron's friends in northern New Mexico are enthusiastic and really think that he stands a show for the nomination and for election.

Under the existing law it is required that county commissioners and in fact all county officials have all county work in the printing and book line done within the territory and wherever possible within the county where such is needed. The object of this law is to encourage home industry and keep the money paid by the tax payers in the territory so that it might benefit the commonwealth to a greater or lesser extent. The newspapers in the territory regardless of politics should stand together in this for what benefits one, benefits all to some extent. What the counties in this territory need is honest, competent and energetic officials who have the best interest of their home communities at heart.

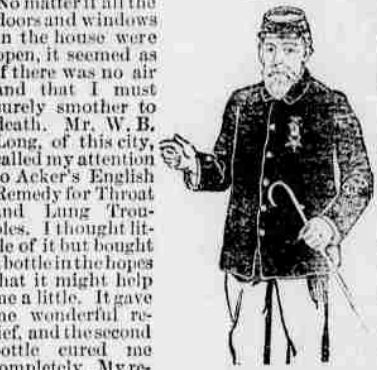

Scientific experiments are being made at New York to count the number of microbes that infest the air of Gotham. Gelatine plates were exposed for a short time and then taken to the laboratory to propagate the microbes which had fastened themselves on the gelatine. To the astonishment of the experimenters, the microbes had gathered in such numbers on the gelatine as to represent an indistinguishable mass which it was impossible to disintegrate. It is impracticable, no doubt, for every New Yorker to come to New Mexico to escape this microbe-laden air, but it is a wonder that not more New Yorkers do come to the Rocky mountains to get a breath of air comparatively free from microbes and disease germs.

The new cell house of the territorial penitentiary is nearing completion. It is being constructed with convict labor and will be a very substantial and strong structure when complete. This is expected to be about the first of January, 1903. As soon as completed the capacity of the penitentiary will be doubled. The cash outlay of the territory for this valuable building is ridiculously small and consists of nothing but raw material such as iron, lumber and slate. The stone, lumber, iron, slate and everything else that goes into the building is being put there by convict labor. The territorial penitentiary is paying its way when it is considered the vast improvements that have been made there within the past few years under a Republican administration and under a Republican superintendent.

Under the revenue laws of this territory the net output of mines should be returned for taxation and should be taxed. An examination of the assessors' returns does not show any large amount of net output of mines listed for taxation. It is a well known fact, although it cannot be legally demonstrated, that there are many mining properties in this territory that show a handsome profit at the end of each year over and above all expenses, but the assessors do not know it and the owners of these properties do not know the assessment books. In Colorado the law is imperative and strong and compels mine owners to report the net income for taxation. Such a law is very necessary in this territory and the 35th legislative assembly must take up this subject and act upon it in the interest of the commonwealth and of the tax-payers and with fairness towards the mine owners.

From a G. A. R. Man

"My attack of miller's Asthma was very bad. I was afraid to lie down at night for fear of smothering. I couldn't get my breath."

No matter if all the doors and windows in the house were open, it seemed as if there was no air and that I must surely smother to death. Mr. W. B. Long, of this city, called my attention to Acker's English Remedy for Throat and Lung Troubles. I thought little of it but bought a bottle in the hopes that it might help me a little. It gave me wonderful relief, and the second bottle cured me completely. My recovery is permanent, too, for ever since I have not had the slightest return of my old enemy. I consider Acker's English Remedy by long odds the best medicine in the world for hacking coughs, asthma and bronchitis. It completely masters those stubborn diseases that many people wrongly suppose to be incurable. I sufferers will just try a single bottle, it will prove every word I have said, and more too!" (Signed) JOHN D. ELLIOTT.

Commander John Megarath Post, No. 132, Portland, Mich.

Sold at 25c., 50c. and \$1 a bottle, throughout the United States and Canada; and in England, at 1s., 2s., 3s., 4s., 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

We authorize the above guarantee.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barranca Station, on the Denver & Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly

tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:08 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. POISONING THE SYSTEM.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the systems, causing headache, dizziness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress. Fischer Drug Co.

TWO COON STORIES.

"It's funny," said Deacon W. H. Nearpass, of Chester, N. Y., "how I found out in what part of the country Jim Bennett had been on one of his trips. Jim doesn't often go on trips, except in warm weather, when snakes are out and are ready to let him discover something new about 'em. But this time the season must have been pretty well along, for Jim said folks were gathering their chestnuts where he was."

"He was driving along, thinking how lovely nature was and yet how queer. He didn't tell me where it was where he was driving along, and he came to a man working away in a field like all possessed, with a pick and shovel. Jim Bennett says he stopped and talked to the man."

"Hello, neighbor! Short a meat, eh?" "The man quit digging and leaned on his pick."

"No, I'm here, holleing back at Jim. 'I dunno as I'm any way short o' meat.'"

"Then Jim says he holleered back at the man: 'Why, you're digging to get a ground-hog out, ain't you?'"

"The man holleered back at Jim: 'No, I ain't diggin' to get a groundhog out. I'm diggin' to get a coon in.'"

"Digging to get a coon in?" he says he holleered. "Why, that's kind o' queer, ain't it?"

"Maybe it is and maybe it ain't," the man holleered back at Jim. "That's according to how folks look at it."

"But where's the coon?" "Come over here and I'll tell you," the man holleered back at Jim.

"So Jim says he tied his horse to the fence and went over into the field where the coon was. The man leaned on his pick and looked at Jim awhile and then said: 'The coon is dead!'"

"Jim Bennett says this gave him a real start, because he thought he was face to face with a crazy man; but he stood his ground, and the man said: 'I'm a hunter, and I don't want him to go out after the chestnuts. The boys was to blame for his goin'.' And I'll lick old Jim Carter till he can't see first time I run agin' him."

"My boys is full of coon and vim, and they move around this district considerin' 'ble getherin' apples and chestnuts and such like boys with vim generally does. Jim Carter has got a chestnut tree on his place, Jimin mine, that beats all the trees I know of, and my boys always gets a hankerker after that tree long about this time o' year; but Jim Carter says his eye onto it, and he says he'll let his boys have got to put up with a good deal of botherin' by him if they let their hankerker for that tree get the best of 'em."

"I've got a spy glass at home, a slammin' good one. Jim Carter lives a mile from that chestnut tree of his, but he keeps comin' toward it every chance he gets to see if it's been tampered with; so what does my boys do but take to spy glass with it, so if Jim is comin' from any direction they can see him long before he gets within any sort o' sight o' them, and Jim keep on getherin' chestnuts till he gets too close for it to be safe for 'em."

"This mornin' that coon o' mine, after he had rooked the baby to sleep and fed the chickens and the pigs," so Jim Bennett tells me the man said, "took down that spy glass and started out. Now, I didn't know this then, or I'd 'a' found out more about it, and either stopped the coon or give him some pinks. But I know it now."

"He took that spy glass 'cause he had been with the boys durin' one or two of their hankerker trips, and went over to Jim Carter's tree chestnut. He chestnutted and chestnutted, 'sweepin' the country every now and then with the spy glass to keep track o' Jim."

"He seen Jim by and by comin' toward the tree. But that coon kept on chestnuttin'. He kept on chestnuttin' so unfortunate long that Jim Carter got there and loaded him with a half a dozen buckshot, and the coon came out of the tree dead."

"He has made a sad mistake, smart as he was. He had been sweepin' the country through the big end of the spy glass. Of course, that made Jim Carter look more than a mile away when he wasn't 50 yards from the tree, and well, this is the coon's grave, and I'm goin' to plant him in it."

"Jim Bennett says that was more than he ever learned about coons before, and he was glad he had stopped and talked to the man. Jim drove along and by and by, he says, he came to a nice, smart little village, where everything looked prosperous and pleasing, except one tall, stoop-shouldered, neglected-looking man who was going down the street with a yaller dog at his heels. Jim gazed after the man kind o' pitying, he says, and another citizen, a spruce, jolly-looking individual said to him: 'That's Sam Fleming. And a real decent, good-actin' citizen he would be, too, if it wasn't for that one bad fallin' o' his'n. He hunts coons.'"

"Jim Bennett says he couldn't say a word."

"Every night Sam and that yaller dog o' his'n is out huntin' coons," Jim says this citizen said, sorrowful as could be. "And he skins 'em, and nabs them skins to his barn door till you'd think he was runnin' a tanyard. And he eats them coons!"

"Just think of it! Now, we all like Sam, and we've been doin' all sorts o' things to try and shame him out o' that fallin' o' his'n, but we can't seem to do it. Now, if he'd only lift somebody's chickens, or steal a sheep, we might do somethin' for him. Then we could take him up and send him some're where they'd keep him out o' harm's way."

"There's one more thing we're goin' to try. If that don't shame him into reformin', then he'll have to move some're else. He'll have to move!"

"Jim Bennett says he asked the man what they intended to do to Sam Fleming next."

"What he we goin' to do to him?" said the man. "We ain't actu'ly goin' to elect him to the legislature!"

"When Jim Bennett told me that, I was surprised and said: 'Why, Jim, how could that be? Men strain and struggle and buy things to get elected to the legislature, and folks look up to 'em.'"

"Yes," said Jim. "Some places they do, I know. But this was the Pennsylvania legislature."

"And that's how I come to find out what part of the country Jim had been on his trip in. And very likely he learned a whole lot more about coons, but that is all he told me."—N. Y. Sun.

BRAIN FOOD.

Not long since there was a great run on the fish markets because it was announced that fish was food for the brain. Of course the fallacy of the fad was soon exploded. Normally the food we eat nourishes brain, nerves, muscles, bones, etc., each part of the body assimilating phosphorous salts. Hence, according to its need. When the brain begins to show weakness or the nerves become sensitive it is a sign that there is a loss of the nutrition contained in the food eaten, and this loss is in general due to disease of the stomach, and its allied organs.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of food, which is the source of the strength of both brain and body.

"I was troubled with very frequent headaches," writes Miss Belle Summerton, of San Diego, Duval Co., Texas, "often accompanied by severe vomiting; bowels were irregular and my stomach and liver seemed continually out of order. Often I could eat almost nothing, and sometimes absolutely nothing, for twenty-four hours at a time. I was entirely unfit for work, and my whole system seemed so run down that I feared a severe sick spell and was very much discouraged. It was advised to try Dr. Pierce's Golden Medical Discovery and did so with such satisfactory results that before finishing the third bottle I felt perfectly able to undertake duties attending public school life."

Dr. Pierce's Common Sense Medical Adviser in paper covers is sent free, on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE WORK GOES ON.

Santa Fe People Are Interested—It Has Much to Do With Our Welfare.

Never out of work. That's the case with the kidneys. Twenty-four hours to the day is the time they put in.

They're equal to it when they're well. But they get sick. Stopping positions of the body. Straining, a fall or over-exertion. Often makes the kidneys sick. But the work goes on. They ask for help through the back. The back aches. It's kidney ache. Doan's Kidney Pills are kidney helpers.

The daily work goes on. Mr. Jacob Wolfe, carpenter, of 1239 North Ninth street, Third Ward, St. Louis, says: "When I first came to St. Louis there was not a bridge across the river, there was only a ferry. I helped to build the court house over 40 years ago and worked on nearly all the old buildings in the city. There was not a railroad in St. Louis, so a word or two from me to my many friends and acquaintance should carry considerable more weight than if I lived say in the New England states. Mrs. Wolfe and I have had more than one attack of backache. Mine was not remarkably severe but it was annoying. Notting Doan's Kidney Pills advertised, induced me to get a supply and Mrs. Wolfe and I commenced the treatment. If it had not performed absolutely what it promised, if the action of the pills were not a long way ahead of anything we ever before used I would be the last resident in St. Louis to publicly recommend them."

Just such emphatic endorsement as he had right here in Santa Fe. Drop into Ireland's Pharmacy and ask what his customers report.

For sale by all dealers; price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y. Remember the name—Doan's—and take no other.

LOW RATES EAST VIA SANTA FE.

On July 5 and 22, August 9, 17 and 21, Sept. 2 and 10, inclusive the Santa Fe will sell tickets east at the following low rates: Chicago and return, \$48.35; St. Louis, \$43.35; Kansas City, \$35.85; Omaha, \$46.15; Des Moines, \$40.60; St. Paul and Minneapolis \$46.30; to other points in the State of Kansas, Nebraska, Missouri, Iowa, Illinois, Minnesota, Michigan, and Wisconsin. For further particulars call on or address, H. S. LUTZ, Agent, W. J. BLACK, G. P. A., Santa Fe, Topeka, Kansas.

REPUISIVE FEATURES.

Blackheads, pimples, greasy faces and muddy complexion, which are so common among women, especially girls at a certain age, destroying beauty, disfiguring and making repulsive, features which would otherwise appear attractive and refined, indicate that the liver is out of order. An occasional dose of Herbine will cleanse the bowels, regulate the liver and so establish a clear, healthy complexion. 50c at Fischer Drug Co.

CURES SCIATICA.

Rev. W. L. Riley, L. D. Cuba, N. Y., writes: "After fifteen days of excruciating pain from sciatic rheumatism. Under various treatments, I was induced to try Ballard's Snow Liniment, the first application giving my first relief, and the second, entire relief. I can give it unqualified recommendation. 25c, 50c and \$1 at Fischer Drug Co."

THE BOSS WORM MEDICINE.

H. P. Kumpe, druggist, Leighton, Ala., writes: "One of my customers had a child, which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. 25c at Fischer Drug Co.

THE PERFECT LIVER MEDICINE.

Mrs. M. J. Jolley, Noble, O. T., writes: "I have used Herbine for a number of years, and can cheerfully recommend it as the most perfect liver medicine, and the greatest blood purifier. It is a medicine of positive merit, and fully accomplishes all that is claimed for it." Malaria cannot find a lodgment in the system while the liver is in perfect order, for one of its functions is to prevent the absorption of fever producing poisons. Herbine is the most efficient liver regulator. 50c at Fischer Drug Co.

BAKING POWDER

Is the Most Economical

Greater in leavening strength, a spoonful raises more dough, or goes further.

Working uniformly and perfectly, it makes the bread and cake always light and beautiful, and there is never a waste of good flour, sugar, butter and eggs.

While it actually costs less to make a batch of biscuit with the Price Baking Powder than with the so-called cheap powders, there is the additional advantage of better and more healthful food.
