NUMBER 85.

FOREIGN NEWS!

King Edward Afflicted With a Cancer.

Foreign Ministers Demand Punishment of Chinese.

A List of High Chinese Officials to Meet Death.

PEOPLE BURNED TO DEATH.

London, Feb. 6.—Cancer of the throat has marked King Edward as its victim. His days are numbered, but he bears bravely. He can hardly speak. The best specialists in the kingdom have examined his throat and regard the case as very singular in that the emperor of Germany and the duke of Edinburgh. The dread disease runs in the family.

EMPEROR WILLIAM SAILS.
Shanghai, Feb. 6.—The imperial yacht Hohenzollern, with Emperor William and sister on board, sailed at 6:40 o'clock this morning for Peking.

PUNISHMENT DEMANDED.
Peking, Feb. 6.—As arranged at a meeting of foreign ministers and Chinese plenipotentiaries today proceedings were conducted orally, no writings being presented to the Chinese. Formal indictment against twelve officials was made, though King Yi and Li Ping Hong are dead. The officials whose punishment has been demanded are Prince Chung, commander in chief of the Boxers; Prince Tuan, principal instigator of troubles into which he dragged the Chinese government and practically the author of the assassination of Baron von Kettler, the German minister.

THE LIST OF OFFICIALS.
Peking, Feb. 6.—Duke Lan, vice president of the police department, who was necessary to giving orders for the capture of foreigners and was first to open the gates of the city to Boxers; Yin Nien, criminal accomplice to Prince Chung and Duke Lan in their machinations; Kung Si, of the councilors of the Boxers; Chiao Su Mien, member of the grand council and minister of justice, who was one of the leaders against the foreigners and responsible for the execution of officials killed during the siege and not having tried to stop attack against legations; Yu Hsien, author of massacres in Shan Si province, who associated with his own hand foreigners and missionaries; General Tung Fuh Siang, who with Prince Tuan carried out in Peking plans against foreigners and who commanded attacks on legations and soldiers who assassinated Japanese chancellor; Li Pin Hong, who led the government to use the Boxers with the one object of the extermination of foreigners; Hsu Tung, Hsu Ching Yu and Kih Kih Si, officials most hostile to foreigners.

The ministers definitely decided at a meeting held to-night to demand imposition of the death penalty upon twelve Chinese officials in the list, including those who are dead, on account of the moral effect upon the Chinese.

Sentence on the living must be inflicted except in cases of Prince Tuan and Duke Lan, which the emperor may commute to banishment to Turkestan.

ON ISLAND OF SUMATRA.
Amsterdam, Feb. 6.—Services from Batavia, island of Java, capital of the Netherlands, say the expedition sent against Samalanga, island of Sumatra, captured a Chinese fortress of Batavia. The Dutch loss is killed and forty wounded. Chinese lost seventy.

A TERRIBLE CATASTROPHE.
Baku, Russian Trans-Caucasia, Feb. 6.—Fire broke out yesterday in the magazine of the Caspian and Black Sea company, which contained 6,000,000 pounds of petroleum. The flames spread to depots having a capacity of 12,000 pounds of naphtha, which poured out like a stream of lava, inundating and setting fire to the dwellings of workmen, which were totally destroyed. Many persons perished. Twenty char-

red bodies have been found. Upwards of fifty people are terribly burned.

AN UNDERSTANDING.

London, Feb. 6.—Emperor William is reported to have left England with the understanding if the affairs of the state permitted, he will visit King Edward at Halmston next autumn. It is also said there is some possibility that next season London will see both Emperor William and also near in this city.

WANTS BROTHER TO SURRENDER.
Bloemfontein, Feb. 6.—The Post today publishes a passionate appeal from Piet De Wet, chairman of the commission, to his brother, Christian, to surrender.

DRIVING THE ENEMY.
London, Feb. 6.—General Kitchener in a dispatch from Pretoria, dated Feb. 6, says:

"Smith-Derrien occupied Lake Chaparral. French is driving back the enemy to Amsterdam. De Wet's force is still north of Thabema. His men damaged train transport of wagons at Pongey's siding this morning."

GALES CONTINUE.
Cherbourg, Feb. 6.—Gales continue, but less violent than yesterday. Several small vessels stranded early today nearby.

MISS MATILDA ARMILLO MARRIED.
Goes to Kansas City, Meets Juan Sanchez and Is Married.

A short time ago, in a brief local paragraph, The Citizen announced that Miss Matilda Armillo, daughter of Juan Armillo, had gone to Kansas City to accept a position as governess or teacher in a private family there. The visit or trip, as the case may be, was nicely planned by Miss Matilda, and her father and sisters here were kept in total ignorance of what was going to happen. After her arrival at Kansas City, a young native gentleman, Juan Sanchez by name and also well-known here, appeared on the scene and soon thereafter the two continued on to Chicago. The next day a telegram was received here, announcing the marriage of the two young people, and The Citizen joins their many friends throughout New Mexico in wishing them a happy prospect and a long married life.

MARKET QUOTATIONS.

Quotations and review furnished by P. H. McCall, No. 6 Cromwell block, received over private wire of F. G. Logan:

New York Stocks.
New York, Feb. 6.—(Stocks)—The market today was booming all around and the transactions were enormous. All the steel stocks advanced sharply and the general market followed the lead. The Pacifics and grangers continued in movement and were heavily bought. The readings came in for a large share of the day's business and made big advances. The bull movement extended through the entire list and looks like keeping on, and the talk all around is very bullish. The close was at nearly best prices.

Total sales, 1,822,800.

Chicago Grain.
Chicago, Feb. 6.—(Wheat)—Liverpool was lower, Antwerp unchanged. Breadstreak makes the world's increase 1,000,000 against decline, 500,000 last year. The features of the day was falling off in the northwest movement which brings primary receipts slightly below last year. It is quite probable that by comparison with last year, from this time on the primary movement will tend to be bullish. Very little export business has transpired, although New York wired 90 loads taken there. The market is dull and still tends to drag. May wheat closed, 74 1/2.

NATION'S CAPITAL

Considering Spanish War Claims.

Bill Passed Senate to Prevent Brutal Hazing.

House Discussing Important Postoffice Matters.

TERRITORIAL LEGISLATURE NOTES.

Washington, Feb. 6.—A bill passed authorizing the Arizona Water company to construct a power plant on the Pima Indian reservation of Maricopa County, Arizona.

The senate committee on foreign relations today considered amendments made by the house to the senate bill providing for the payment of claims against Spain, growing out of the Spanish war and assumed by the United States in the Paris treaty. The committee decided to adhere to the senate bill, which provides for a commission to adjudicate the claims. The house amended it so as to require a court of claims to perform this duty. The senate committee takes the position that much labor and probably general waste to Cuba will be necessary to a proper investigation of the claims and it would be out of the question for a court of claims to give the necessary attention to them. The committee asked for a conference.

Consideration of the military academy appropriation bill was resumed, the pending question being an amendment introduced by Allen (Neb.) making cadets upon entering the academy to take the oath not to engage in hazing, and if found guilty of hazing, they will be dismissed from the academy, and not to be eligible thereafter for position in army or navy of the United States.

FOURTEEN.

Washington, Feb. 6.—Without preliminary business the house today went into committee of the whole and resumed consideration of the postoffice appropriation bill. Loud (Cal.) chairman of the postoffice committee and member of the joint postal commission, took the floor to discuss the question of investigation by the commission. With regard to incidents of questions of pneumatic tube service and "special facilities." Loud said the commission were satisfied they should be discontinued. The pneumatic tube service of Philadelphia and Boston was not extravagant, but the service of New York was "conceived in sin and born out in iniquity," so should be discontinued. Appropriations for special facilities "had proved a disturbing element and were vicious in their effect upon the whole service."

TERRITORIAL LEGISLATURE.

Bill to Refund Indebtedness Passed—Irregularly in House.

Special to The Citizen.
Santa Fe, N. M., Feb. 6.—The council passed the funding bill introduced by Mr. Harrison, which facilitates refunding territories, county and city indebtedness.

A lively contest arose in the council over the calling for reports on the bill. The council called on Mr. Harrison to call for the bill and over the election contest in Santa Fe county.

After wrangling for an hour the committee were given unlimited time to make reports.

Desperadoes captured. The desperadoes occupied all morning trying to kill the coal oil bill and failed.

DESPERADOES CAPTURED.

Cunning Work of Special Officer Williams and Deputies.

ONE DEAD—ANOTHER WOUNDED.

Another chapter of lawlessness has just been closed in New Mexico's history, and as a result one more notorious desperado is dead and another seriously wounded in the county jail.

For some time past cattle stealing has been carried on in this vicinity by a gang of five desperadoes, who have been scouring the mountains and plains for several weeks but were never able to locate them, until last night.

Special Officer Ben Williams, accompanied by Deputy Sheriff Harry Cooper of Albuquerque, and Marguerite Barria, a county official of Las Cruces, left this city at 8 o'clock last night on horseback and scoured the territory for miles on each side of the railroad between here and Isleta, visiting the ranches of William Farr and Jones, thence across the river to the village of Padillas, and then came back to Smith's ranch, at which place they put their horses in the barn and secreted themselves in the outbuilding nearby. It was then 4 o'clock this morning when a few hours Claude Doane and Abel Sedillo rode in sight on their cow ponies, the former dismounting to lower the bars in the gate through which both men and horses might pass. At this moment the officers stepped out from behind their hiding places, and demanded "hands up!"

The desperadoes refused to respond to the request and in their attempt to shoulder their way through the gate, the officers poured a volley of bullets into their bodies. Sedillo had succeeded in leveling his weapon, but at the same moment two bullets were sent into his body and he fell from his horse to the ground, fatally wounded. One of the leaders immediately passed through Doane's left leg, about three inches below the knee, breaking the bone. The horse was shot, the outlaws were riding, were shot a couple of times, and will die. Doane's horse was a light bay, and was branded D A, the letters being connected with a horizontal line. The horse of Sedillo was white, and when shot fell on the left side, and was branded, and the officers did not ascertain the marks, but left orders with some ranchers to save the brands when the animals died.

After the shooting the officers loaded

their wounded prisoners into wagons, and started for Barr station, about a mile distant, where they placed them in the incoming No. 2 passenger train and brought them to this city. They were then taken to the county jail, where surgical and medical attention was administered by Dr. J. R. Haynes. Sedillo was then in a dying condition, but remained conscious until the last breath. He had \$10.40 on his person when shot, which he handed to Mr. Williams requesting him to deliver the same to his surviving relatives. His body was practically riddled with bullets, when examined by the attending physician, and was then passed all human aid. Both arms had been broken by bullets, and a couple of shrapnel took effect in the region of his heart. Doane's wound was an ugly and painful one, but the physician is hopeful of saving that member, and believes an amputation will not be resorted to.

When the cattle thieves were captured each had on his person a Winchester rifle, one large sixshooter and about 100 rounds of ammunition in their belts.

Abel Sedillo, the native, who claims "San Juan" as his home, has the reputation of being one of the most notorious cattle thieves in the southwest, while Claude Doane was an almost unknown man of New Mexico, a native of a town of New Mexico. He was convicted and sentenced to two years in the territorial penitentiary for cattle stealing, and after serving out his term he engaged in the same business, and has been at liberty for about two years past. A year ago he stole a valuable horse from William Farr and rode the animal to Isleta, where he was captured later by Deputy Sheriff Overhul, and placed in jail. That same night he dug out a few pieces of stone and cement with his fingers and nails, and made a hole in the wall of his cell, and he was ready to come for him, he advised them to come "back again." And so they did, and they got him. When he was lying in the express car en route to the city this morning, the messenger recognized him as the man who boarded the "blind" wagon at a point between Laguna and McCarry station about two weeks ago. Doane was well armed at the time, but did not make a show of a show of committing a hold-up, for the messenger had his Winchester leveled on the outlaw, and demanded him to get off. Under the circumstances Doane reluctantly obeyed the command, and soon made his appearance in this section again.

Bunches in this part of the country have been losing large numbers of cattle lately, and one last week The Citizen published parts of a letter which came from Pino Wells, which stated that ten head of cattle and a calf had been slaughtered on the plains placed in a wagon and taken to Isleta, where the country villages. Yesterday Doane and Sedillo drove into Isleta, the little Indian village twelve miles south of Isleta, and sold about twenty-five dressed beef to the Indians.

A short time ago Doane was in Lincoln county and began operations in his usual occupation, and when the officers located him and opened fire on him, he lied himself to cooler climates, where he resumed business.

The news of this capture will be relayed by all the ranchers of this country with delight, and to a certain degree they feel at ease, but there still remains three more of this gang of cattle thieves and hold-ups at large who will no doubt continue their unlawful practices until they meet the fate of the subjects of this article.

It was learned that a big reward for the capture of one or all the gang, dead or alive, has been standing for some time.

Fresh sweetbreads, brains, pork tenderloins, spare ribs, farm sausage, Kansas City mutton, fresh fish, Patent Case oysters, smoked white fish, fresh shrimp at the San Jose Market to-morrow.

BE A SUCCESS IN TRADE OR PROFESSION—We provide the means. Call on or write J. J. Rutherford, 209 West Railroad Avenue, over San Jose Market. Open evening 7 to 9.

"THE CONQUEROR"

Mrs. Carrie Nation Going to Chicago.

She Did Not Surprise Topeka Jointists To-Day.

Diamond Match Company Directors Satisfied With Business.

ACTOR MACDONALD DIVORCED.

Kansas City, Feb. 6.—Flaming posters announcing "Mrs. Carrie Nation, the bravest woman in America, now leading a lost but wonderful crusade ever inaugurated against the rum traffic," is on her way to Chicago, accompanied by a band of her saloon-slashing warriors, and will speak at the Academy of Music, Kansas City, Friday evening, Feb. 8. She has been posted around town.

Chief of Police Hayes says he will promptly arrest Mrs. Nation, if she attempts to put her Kansas methods into practice in Kansas City, Mo.

NO SURPRISE THIS MORNING.
Topeka, Kas., Feb. 6.—Mrs. Nation made no effort to give the jointists a second surprise this morning. Chief Stahl made the round of the joints last evening, warning the keepers to close. While they made a pretense of closing, there was a way to get in at most places.

"BLIND TIGERS" ATTACKED.
Poplar Bluff, Mo., Feb. 6.—At Daktown, Arkansas, a small town across the state line from here, five members of the Women's Christian Temperance Union, attacked two "blind tigers." All bottles of liquor were smashed, contents of kegs poured into streets and fixtures demolished.

Diamond Match Company.
Chicago, Feb. 6.—At 10:20 a meeting of the stockholders of the Diamond Match company was held. Old officers and board of directors were elected. The annual statement showed net earnings equal to 15 1/2 per cent on \$15,000,000 capital stock. President Barber stated the company's progress in England had been very satisfactory, the above per cent having been earned in 1900 against 10 per cent in 1899.

GOFF-BORNEFIELD.
James Goff and Miss Bertha Bornefield married this morning.

There was a charming wedding at the Church of the Immaculate Conception this morning, when in the presence of the friends and relatives of the interested parties, Rev. Mandalar pronounced the solemn words that joined in holy wedlock two popular young people of this city, in the persons of Miss Bertha Bornefield and Mr. James Goff. Mrs. Goff is the sister of Mrs. A. W. White and Mr. Goff a brother of Mrs. Martin Tierney, and is an employee at the local railroad shop. The couple were attended by Miss Lizzie Girard as bridesmaid and Mr. James Tierney as groomsmen. Many handsome presents were bestowed upon the newly married couple, who will go to housekeeping at once in a cozy furnished cottage at No. 315 Pacific avenue. The Citizen extends congratulations with a wish for a long and happy married life.

ALBUQUERQUE, - FEB 6, 1901

The governor of Ohio can strike a
pretty hard blow against the
come to the consideration of sports.

Between football, the grip, the mumps,
the legislature and the courts, the
conquer these are perilous days for
the state.

That New York state man who has
been postmaster for twenty years
must have a handy set of political
convictions.

Advisers from Florida tell of the
capture of a porpoise in the
particular vicious brand
of moonshine must be that which is
distilled among the orange groves.

Representative Carl A. Dalles of Va-
lencia county, is proving a hard-
working and efficient member. He is
gaining legislative experience rapidly,
and is doing good wherever he can.

There is pending in committee a
petition signed by 60 residents of Gallup
praying the appointment of a legisla-
tive committee to investigate the coal
strike situation in McKinley county.

A tornado, even in midwinter, has
caused disaster to the town of Hones-
ta, Texas. It is remarkable how many
things can happen to an individual or
community when it tries to be honest.

A little Las Vegas boy asked his
mother "what she would do if he
should be caught?" There was a boy in
Albuquerque who says Chief Murphy of
Las Vegas "ought to catch those kid-
nappers."

The citizen has received a pamphlet
copy of the memorial to the senate of
the United States by Dr. Nathan E.
Boyd, protesting against the passage
of the infamous Culberson-Stephens
irrigation bill.

Several months ago, a French news-
paper contained an announcement that
the government of the United States
would give a dowry of \$500 cash and
a tract of land of not less than 160
acres to every foreigner who would
marry a maiden of the native tribes in
the Indian territory. Since that time
the president has been overwhelmed with
letters from Frenchmen who desire to
take advantage of the terms offered.

"Finest kind of a climate for in-
valids" is the advertisement sent out
concerning the sanitarium at Boulder,
Colorado, which is at an elevation con-
siderably over 1,000 feet and in a climate
that is ice and snow cold all winter,
and a location where fierce north
winds almost blow the hills away. If
a sanitarium can be conducted in a
place like that it surely can be con-
ducted in a place where the climate is
more easy to provide for invalids in the
delightful winter climate of the Rio
Grande valley.

The senators and representatives in
congress from the arid land states
have made up their minds that if con-
gress can afford to appropriate mil-
lions every year for rivers and land
improvements, it can afford to throw a
few crumbs to the middle west in the
shape of irrigation reserve appropriations.
There are very few states that have
not a dollar from the river and harbor
bill and this year they seem to have
made up their minds to kill the bill un-
less it is amended so as to give them a
share in the proceeds.

Senator Perkins, of California, has in-
troduced a bill providing rules and regu-
lations governing the importation of
trees, plants, shrubs, vines, grafts, cut-
tings, and buds, commonly known as
nursery stock, and fruits into the
United States, and rules and regula-
tions for the inspection of trees, plants,
shrubs, vines, grafts, cuttings, and
buds, commonly known as nursery
stock, grown within the United States,
which may become subjects of inter-
state commerce. The object of the bill is to exclude plants
infected by dangerous pests.

DUTIES OF DISTRICT CLERKS.
Representative Pennington, of San
Juan county, has introduced a measure
in the house which is highly essential
to the successful prosecution of crim-
inal cases. It meets a long-
felt need of the district clerk, Gen-
eral Bartlett, in his official report to
the executive, and requires clerks of dis-
trict courts on the adjournment of
every term to make a list of the crim-
inal cases in which appeals have been
allowed to the supreme court, and
transmit same to the clerk of the su-
preme court, with a statement whether
the defendant has given bond or not;
and in cases where the appeal has not
been perfected by filing bill of excep-
tions, the district clerk shall certify
to the supreme court clerk a copy of
the record proper, showing the indict-
ment, plea, verdict, sentence and ap-
pointment of appeal, all of which shall
be in the hands of the clerk of the
higher court at least five days prior
to the meeting of that court. Any fail-
ure to do this subject the district clerk
to imposition of a fine by the supreme
court of not less than \$10 for each
and every case in which he defaults.

RAILROADS NEEDED.
A connecting route between the San-
ta Fe line and the Pecos Valley &
Northwestern railroad, recently acquired
by the former, is to be built between
Roswell and Albuquerque, thus adding
another important railroad to those de-
veloping the resources of southern New
Mexico. It is to be hoped that other
sections of New Mexico will be equally
as fortunate some day. The railroad
and most promising part for future de-
velopment of the territory lies in Taos,
Rio Arriba, Mora, Colfax and San
Juan counties, and awaits but the com-
ing of more railroads to double its
population and wealth, says the New
Mexican in its comments. Excepting

MARSHALL CENTENARY.

Brilliant Celebration at the New
Capitol in Santa Fe.

INTERESTING ADDRESSES DELIVERED.

The centennial anniversary of the
election of John Marshall to the
chief justiceship of the United
States—one of the most notable events
in the history of the nation—has been
celebrated with much dignity in the
hall of representatives Monday
night, says the New Mexican. The ex-
ercises were held under the auspices of
the supreme court and the Bar associa-
tion of New Mexico. A large and fas-
cinating audience was in attendance,
many appearing in evening costume.
The members of the legislative council
and house were present as special
guests of the occasion. The exercises
commenced promptly at 8 o'clock, Chief
Justice William J. Mills, presiding.
The First Cavalry band discoursed pi-
otante airs at the beginning of the
evening. The music was given by
"America" was played the large audience
arose to its feet. The stately hall, with
its myriad of electric lights, gracefully
draped flags and artistically set flowers,
never looked so beautiful, and the
scene about the rostrum was imposing
and inspiring to the speakers.

arose to its feet. The stately hall, with
its myriad of electric lights, gracefully
draped flags and artistically set flowers,
never looked so beautiful, and the
scene about the rostrum was imposing
and inspiring to the speakers.

The New Mexican published an
eight-page issue on Tuesday, devoting
the extra four pages to the addresses
of the various orators at the John Mar-
shall celebration, and publishing in full
the memorial address of Dr. Nathan
E. Boyd, director general of the
Rio Grande Land and Irrigation com-
pany, protesting against the passage of
the Culberson-Stephens irrigation bill.
The New Mexican also presented, in the
same issue, short biographical sketches
with half-tones of Col. J. Francisco
Chaves, president of the legislative
council; Hon. Benjamin M. H. Hays,
speaker of the legislative house; Coun-
cillor Frank Springer and Charles A.
Spies, of San Miguel county, and Rep-
resentative Carl A. Dalles, of Valencia
county.

First Submarine Cable.
Which was made from an ordinary
wire, insulated with gutta serena, was
laid across the English Channel about
fifty years ago. It was also about the
same time that Hostetter's Stomach
Bitters, the world renowned dyspepsia
remedy, was first introduced to the pub-
lic, and its success as a family medi-
cine during those years almost equal to
that of the submarine cable, while to-
day it stands alone as the one reliable
remedy for dyspepsia, indigestion, flatu-
lence, constipation, biliousness, nervi-
ousness or insomnia. If you are a
sufferer from these diseases, it is be-
cause you have never tried the Bitters.
Try it at once, if you would be well,
it will strengthen your entire system,
and produce sound sleep, and good
health must naturally follow.

Kodo
yspepsia Cu

Digests what you eat
Artificially digests the food and
is in strengthening and re-
building the exhausted digestive
system. It is the latest discovered di-
gestant and tonic. No other prepara-
tion approaches it in efficiency. It
not only relieves and permanently
cures indigestion, but also
pepsia, Indigestion, Heart-
burn, Acid Stomach, Nausea,
Headache, Gastralgia, Cramp-
s, and all other ailments of the
digestive system.

50c. and \$1. Large size contains 254
