KING EDWARD
CROWNED TODAY

The Joyous News Was Announced by an Official and Repeated by Signal Throughout London.

THE KING LOOKED PALE

Interior of the Abbey Was Gorgeously Decorated and Was Crowded With Distinguished People—The King Stood the Ordeal Well and Repeated Oath in Firm and Strong Tones.

London, Aug. 9.—King Edward was crowned at Westminster Abbey at 12:30 o'clock today. The news of the crowning was announced by an official outside of the abbey and repeated by signal throughout London, and was received with cheers which spread throughout the stands and crowds far up the streets, as the bells pealed forth joyfully. Queen Alexandra was crowned at 12:56. The brilliant pageant, which preceded the king and queen in the famous old royal coach was witnessed by multitudes that lined the route and the royal pair received a continuous ovation. The king looked pale, rather finely drawn and in answer to the cheers with a gravity very unusual to him. The interior of the abbey was gorgeously decorated during the coronation service and was crowded with distinguished people, all of whom were in court dress. The scene presented a blaze of color. The king repeated the oath in firm, strong tones, but remained seated through most of the service. The return journey, which was slow, was marked by scenes of enthusiasm. Their majesties arrived at the palace at 2:55 p. m. The weather was perfect with the exception of a shower which delayed the departure from the abbey a few minutes. The king stood the ordeal exceptionally well.

SIX INJURED AT CORONATION. London, Aug. 9.—A runaway brought in in Whitehall through the coronation procession and four Indian soldiers, a woman and child were removed on stretchers.

MANY CONGRATULATIONS TO THE KING.

London, Aug. 9.—While the coronation was being solemnized in London, celebrations and rejoicings were carried on throughout the colonies and numerous cablegrams to the king conveyed the congratulations of the representative bodies everywhere, salutes were fired and church services were held. Similar services were held by the British communities in all the European capitals and the chief cities of the continent. Congratulations from the European sovereigns also poured in. Soon after the king's return to the palace, the pope sent him an especially cordial message.

It is alleged that the strikers intimidated the men who wanted to go to work and turned them back by force. John Fallon, a member of the national board, asserts that neither force nor intimidation was used.

HOMICIDE OF A
PROMINENT MAN

In a Fight Between Walter A. Scott and Walter L. Stebbings, Both Prominent in Chicago's Business Circles, the Former Is Stabbed to Death.

LAMENTABLE AFFAIR, THE RESULT OF A DISPUTE OVER A CLAIM OF \$3,000

Chicago, Ill., Aug. 9.—Walter A. Scott, president of the Illinois Wire Company, was stabbed to death in the Monarch building today by Walter L. Stebbings, civil and consulting engineer, with offices in the same building. The stabbing occurred in Scott's private office. Stebbings had done some work for the Illinois Wire Company, over which there was a dispute. The two had a quarrel, and Stebbings, it is said, called Scott a liar. There was a scuffle and the two burst from the private office, blood flowing from Scott's wounds. He had been stabbed twice. Stebbings made no attempt to escape. Stebbings when arrested, said he had struck Scott in self defense and had not intended injuring him seriously. The fight was witnessed by Miss Myrtle Shumate, a stenographer in Scott's office, who ran screaming into the hall. The occupants of the other offices notified the police, who placed Stebbings under arrest. According to Miss Shumate's story, the two men were in Scott's private office for nearly an hour, disputing over a claim of \$2,000. Suddenly the door was thrown open and the men staggered into the outer office, kicking each other and using their fists. Stebbings held a paper knife in his right hand and the weapon could be seen flashing as the men struggled. Suddenly Stebbings struck Scott in the body. The blow was repeated a moment later. Scott staggered backward and fell to the floor. He died within half an hour. Scott was 43 years of age and leaves a widow and one son. Scott was recently president and owner of the Marshfield and South-eastern Railroad and was owner of the Scott Lumber Company and controlled a large amount of real estate. He is reputed to be a millionaire. When told later that Scott was dead, Stebbings turned pale. Had not a policeman caught him, he would have fallen from his chair.

District Court Notes.

In the district court for San Juan county a suit has been filed by Clarence L. Wilson vs. School district No. 5, of San Juan county to recover the sum of \$370 claimed to be due plaintiff on account of salary as teacher by said district.

After today Judge McFie will hear no more cases in chambers until after the sessions of the territorial supreme court in this city in the latter part of August or over. From this time and until the supreme court meets on August 30th, Judge McFie will be engaged in writing opinions in cases referred to him by the court and hence will have no time to give to district court business.

In the case of Gonzales et al. vs. Chavez et al a suit to settle title and for a partition of the Casa Colorado land grant in Rio Arriba county, in chambers yesterday Judge McFie decided several minor points involved and referred the case back to the referee A. B. Renahan, Esq., with instructions to have survey of the cultivated lands thereon and to make a report thereof to the court.

The application for writ of habeas corpus for William W. Atchison, now in the county jail and charged with the murder of James O'Mara and William L. Thayer some weeks since at San Pedro, was on hearing before Judge McFie today. The territory introduced the same evidence as at the preliminary hearing. The evidence for the defendant was being heard this afternoon, but it is not expected that the case will close this evening. District Attorney E. C. Abbott, assisted by A. J. Abbott, are representing the territory and Catron and Gortner are appearing for Atchison.

MEN OF THE HOUR
IN NEW MEXICO

MAJOR LUIGI MARTINI MANCINI
Professor of Languages at the New Mexico Military Institute, at Roswell

When the New Mexico Military Institute was first opened to the people of New Mexico, the regents determined to make a school suited to the people of the territory; to make it strong not only in military tactics, science and the English branches, but to establish a course in Spanish adequate to the demands of the country, so that the cadets could learn to write and speak the Spanish language in a correct and fluent manner, and be prepared to take their place as leading citizens among Spanish speaking people. Furthermore they realized that the far reaching policy of this government, in acquiring Spanish territory, would create a demand for young men trained as soldiers, and masters of both English and Spanish.

In order to satisfy these demands the regents made a special effort to secure a professor thoroughly educated in modern languages, and especially in Spanish. They were fortunate enough to secure the services of Major Luigi Martini Mancini who had been raised and educated in Italy and lived for some time in Spain, being thoroughly acquainted not only with Italian and Spanish, but with French and English as well.

Major Martini was born in Florence, Italy, the 17th of July, 1859. His ancestors for hundreds of years have been prominently connected with the history of his native country, and his parents belong to the Florentine patriots. He received his first education through private tutors; entered afterwards the Lyceum of Florence in which institution he spent four years. He completed there the classical course, passed with honor the final examinations, and was admitted, through a competitive examination, to the National School of Arms of his native country in which school he received an education very similar to the one given by the United States Military Academy at West Point. In 1888 he graduated and received a commission as 2d lieutenant in the Italian army. He traveled extensively in Europe, saw active service in Abyssinia, on account of his versatility in modern languages, and of his French and Spanish connections, he was sent by his government to Paris and Madrid as an attaché to

special missions and resided in these cities a number of months.

In 1891 he was granted a leave of absence for one year and came to the United States to look after the investments of his father in the Peoria valley. At the expiration of his leave his business interests made it impossible for him to return to Italy and resume his duties in the army. He consequently resigned his commission and decided to cast his lot with the free born American citizen.

In this country he has farmed, managed mercantile affairs, acted as court interpreter, served as assistant postmaster, as clerk in offices of railway and irrigation companies, and thus he has had the opportunity to observe American thought, life, and business in many spheres.

Major Martini Mancini has been connected with the New Mexico Military Institute ever since its opening and is liked and respected by all who know him. He is a tireless worker and trustworthy. Three years ago he was appointed by the regents assistant secretary, which position he still holds. He is of high moral character, a thorough gentleman, and is noted for his polished manner and immaculate appearance at all times, setting a splendid example for the students of the institute. His general education is above reproach; he is quite familiar with the history and traditions of the American republic of which he is really a worthy citizen.

Since he has been connected with the institute, thanks to his perfect knowledge of modern languages in general and Spanish in particular, he received an appointment from President McKinley as Spanish interpreter and was ordered to report to the war department at Washington, but feeling that his duty required him to continue his work at the New Mexico Military Institute, he declined the appointment.

While the major is not at all bigoted, he is a Roman Catholic and has relatives who are of high rank in the Church of Rome. Although he is of noble birth, and raised in a foreign country, he has adapted himself to American customs. He has secured splendid results in the school room and his work is beyond reproach. The Spanish course at the New Mexico Military Institute, under his careful supervision, has attained a high state of perfection.

TURN OUT 600,000 POUNDS OF WOOL

Special Correspondence New Mexican.

Albuquerque, Aug. 9. The first of the series of three games between the visiting Lamar baseball team and the Albuquerque Browns played at the Fair grounds yesterday afternoon, proved to be a close and exciting contest. The Lamars finally won out by a score of 8 to 7. During the whole match there was never more than one run's difference between the teams.

Mrs. Harry S. Lithgow, who for many years was a resident of Albuquerque, is here from Newton, Kas., on a visit to her parents.

Hon. H. B. Ferguson has returned from White Oaks, whither he went on matters pertaining to the sale of the Old Abe gold mine, of which he is one of the four principal owners. Mr. Ferguson says that the American company made the first payment on the mine while he was in White Oaks. This he considers the best of evidence that the company will become the owners of the valuable property, though, he does not take it for granted that the sale is assured. The first payment is not large enough to warrant the company in making further expenditures, should they find the mine less promising with further work. However, the property has been tested thoroughly, immense bodies of low grade ore having been opened up and the new management expresses its complete satisfaction.

The Albuquerque wool scouring mills are just finishing the treatment of 600,000 pounds of wool for the Bibo Mercantile Company of Laguna and Cuernavaca. The mills have negotiated with the firm for the purchase of an equal amount, the result of the fall clip. Ten carloads of wool to be scoured here have arrived from Las Vegas, and are now being unloaded.

Oliver Lawson and Max Reich met with an unusual and rather serious accident in Tijeras Canon. The men were attempting to come out of the canon in the darkness. The horse went out of the road and walked over a precipice. Carriage, horse and men rolled a considerable distance. The men were considerably bruised, the buggy was broken, but the horse came through the ordeal unscathed.

SATURDAY, AUGUST 9.

New Mexico Demands Statehood of the 57th Congress.

Of Right and in Justice New Mexico Should Be a State.

TERRITORIAL REPUBLICAN CENTRAL COMMITTEE CALL.

To the members of the Territorial Republican Central Committee of New Mexico:

You are hereby notified that a meeting of the Territorial Republican Central Committee of New Mexico, will be held in Albuquerque, on Friday, August 22, 1902, for the purpose of fixing the date and place to hold the Territorial Republican Convention to nominate a candidate for delegate to the 57th Congress of the United States and for the consideration of such other matters as may properly come before said committee.

It is hoped that all members will be present at said meeting as matters of importance for the interest of the Republican party of the territory will be considered.

Very truly yours,
FRANK A. HUBBELL,
Chairman Terr. Rep. Cen. Com.
J. D. SENA, Secretary.

New Mexico is advancing, growing and prospering. It is therefore bound to be Republican in this campaign and to become a Republican state.

A Michigan farmer and his wife, who are philanthropists and who are pretty well to do in this world's goods, have adopted eleven children taken from Smith's Orphan Asylum in Minneapolis. This is certainly true philanthropy and great heroism.

The tax levy for the government of this city is about the same as that for the maintenance of the county government. The city tax levy is a very heavy burden to carry and precious little good from it comes to the tax payers and property owners.

This week's rains have broken the drought in Colorado. There has been some damage by flood waters, but upon the whole the people of the eastern slope of the Rocky Mountains in the Centennial state are well satisfied with the actions of the storm king so far this week.

The Albuquerque tail of the Democrat central committee is trying to make the fact that the Democratic party was defeated in Bernalillo county in November, 1900, a territorial and national issue. The Democratic territorial convention may take up this grievance of that tail, but it is doubtful.

Train robberies are becoming of frequent occurrence in the western states of the union. In the territory of New Mexico, where train robbery is a capital offense, there is very little of that kind of business. In some instances this territory seems to be much better governed than some of the great states of the union.

The Crown Prince of Siam is coming to New Mexico in October. It will be during the heat of the territorial campaign and at the height of the Albuquerque and Roswell fairs. If the prince does not get pointers in the Sunshine state to put into practice in the imperial capital of Bangkok, it will not be the fault of the people of this territory.

Chaves county, in the southeastern part, and San Juan county, in the northwestern part of the territory, seem to be growing more rapidly than any other counties of the territory. This may be accounted for by the fact that both these counties have a splendid natural water supply improved and made useful by modern reservoirs and irrigation systems.

A penitentiary is generally considered a mighty hard place to get out of, but the way that convicts have managed to escape lately out of Oregon, Pennsylvania, Tennessee and other penitentiaries indicates that even penitentiary walls and discipline cannot always overcome the devices employed by a man who is anxious to regain his liberty.

Senator Hanna is making a great effort in Cleveland and in Cuyahoga county, Ohio. He is determined that the city and county go Republican in November. He is lame and suffering from rheumatism, but he is making a very active campaign and stirring up the Republican voters and leaders in great shape. The chances are that his work will be successful and that Cleveland and Cuyahoga county will give a very handsome majority for the Republican ticket on election day in November next.

As time goes on it is becoming apparent that the Republicans of the territory are in favor of holding the territorial convention for the nomination of a delegate to the 57th congress in the City of Raton. The territorial Republican central committee should heed the wishes of the party and call the convention to be held at that town.

Andrew D. White, ambassador at Berlin, has resigned his position. It is believed he will be succeeded by Charlemagne Tower, present ambassador at St. Petersburg. This change, however, will not disturb the equilibrium of the people of this country. The prestige and power of the United States are so well established that it matters very little who is ambassador at St. Petersburg, Berlin or any other European capital.

The matter of refunding the outstanding city indebtedness into bonds should be carefully looked into by the Board of Trade of this town. It is an important question that should be carefully investigated. Doubts exist as to the validity of what is called the outstanding floating city indebtedness and no refunding should be had until these doubts are cleared up and it is fully established that the indebtedness is honest, just and legal.

The Democrats of Michigan and Wisconsin are fighting this year's political battles upon state issues alone. They are afraid of national issues and dare not discuss the question of trusts, protection, reciprocity, finance and of a foreign policy. They know that upon national issues the Democracy is hopelessly divided. It is but reasonable to suppose that the voters of those states, who are intelligent and progressive, cannot be fooled by such an ostrich policy.

Even in the state of Tennessee, the Democratic leaders are afraid to tackle national issues. They talk about good roads, an improvement in the judicial system, lower taxation and the like, but dare not go beyond questions that effect precincts and counties solely. There is one local issue, however, upon which they are absolutely silent and that is honest and fair election laws. The discussion of this matter never suits the average Democratic leader.

The Kansas Populists assert that they are not dead politically by any means and will hold a convention on August 21 to nominate a full state ticket. They claim that there are thousands of Populists in the Sunflower state, who will vote neither the Republican nor the Democratic ticket. However, the movement may not amount to very much, as it lacks intelligent direction. The indications multiply that the Republicans will carry Kansas this fall.

Cuba is about to start on the same road that has led more than one small nation to ruin. It wants to make a loan of \$35,000,000, which is a very large sum for a small island like Cuba whose industries and revenues are not in the healthy condition that they should be. The United States should place a veto on this bond proposition, as it has a right to do, unless Cuba shows that it is in a position and will guarantee the prompt payment of interest and principle of the bonds when due.

The Democratic leaders in Bernalillo county are whining that the Republicans defrauded them out of 1,000 to 1,500 votes last election and they are afraid that this robbery of votes will be committed again at the coming election. Poor things; they do not know how to take care of themselves in a political campaign and all they can do is to make charges after an election. Playing the baby in politics these days does not and cannot bring about success. The voters of the territory, regardless of party, are laughing at this puerile exhibition of weakness and foolishness.

THE DEMOCRATIC PARTY OF NEW MEXICO NOT YET COMMITTED.

It is not good policy to magnify the action of a few members of the territorial Democratic central committee in Albuquerque on Saturday last. There were but seven members present namely the following: O. N. Marron, Albuquerque, chairman; C. F. Easley, Santa Fe; W. S. Hopewell, Hillsboro; John Morrow, Raton; J. D. W. Veeder, Las Vegas; W. B. Walton, Silver City; and N. B. Field, Albuquerque. Mr. Marron had about fifteen proxies, but Committee man Hopewell fought this proxy business so vigorously that it had to be abandoned and could not be used. It is understood that by a majority of one vote the resolution as to statehood passed by the committee was gotten through. The Albuquerque members present endeavored to pass a resolution opposing statehood outright. This they could not do and the qualified resolution calling upon the territorial Democratic convention to call upon Democratic senators to insert a proviso for minority party representation on election boards and other matters deemed of importance by the Albuquerque tail of the committee, or defeat statehood, was passed. It is manifestly unjust and unfair at this time to charge the Democracy of the territory with this foolish action. Many Democrats do not believe that the members of the Democratic territorial convention will make asses of themselves by following the nonsensical advice contained in that resolution. The New Mexican is of the opinion that there are many bright, able and progressive men in the Democratic ranks in this territory, that they will treat the resolution with the contempt it deserves and that it will be consigned to the waste-basket. If the opinion of this paper should prove erroneous and the territorial Democratic convention should adopt and act upon the resolution, then and in that case the tenor of it will become Democratic party policy and the Republicans will meet the issue and fight it out on that line. That the voters will disapprove of such action, if taken by the Democratic territorial convention in the coming elections, seems to be sure.

Spitting Blood

"I used to cough a great deal and spit blood, and my neighbors in Dayton, Ohio, where I live, said among themselves that I had consumption, although they did not tell me so to my face, for fear of making me despondent. I kept on coughing and trying different sorts of medicines, but nothing seemed to reach my trouble until I got hold of a bottle of Acker's English Remedy. I prayed for health all the time, and my prayers were answered as soon as I began taking this celebrated English expectorant and tonic. Since my recovery I have told hundreds of sufferers from coughs, colds and weak lungs that Acker's English Remedy would cure them. Some of them won't try it, and it does seem to me terrible when anyone deliberately refuses to be cured. There ought to be a law compelling consumptives to take it. Even if they don't care for their own lives, the public's welfare should be considered. Don't you think so too? I hope such a law will soon be enforced!" (Signed) Mrs. Richardson.

Sold at 50c, 60c, and \$1 a bottle, throughout the United States and Canada; sold in England, 2s. 6d., 3s. 6d., 4s. 6d. If you are not satisfied after buying, return the bottle to your druggist and get your money back.

Dennis Flynn, delegate to congress from Oklahoma, spent his vacation in Hawaii. He could afford to do this because he is not a candidate for re-election. At Honolulu, he made the startling assertion that it is not only possible but probable that the territories will be deprived of their right to send delegates to congress. Flynn said that there is a growing sentiment in that direction because many members of congress do not welcome the prospect of having delegates from the Philippines and other island possessions. Flynn thinks it more likely that the territories will be denied delegates than that the Philippines will be allowed to send representatives to congress. New Mexico had better get under the statehood cover and that as soon as possible.

Alexander G. Pendleton, Jr., of Arizona, a cadet at West Point, has been compelled to walk the plank for hazing a fellow student. President Roosevelt has approved the sentence, although Pendleton's offense consisted merely in "shooting off his mouth." This weakness of military men to talk too much must be stopped, whether it takes the form of hazing or the form of boasting or of advising the government through the yellow journals how to run this nation or how to whip Germany or how to maintain the Monroe doctrine. Of course, the best time to impress the future officers of the regular army how to be silent is when they are cadets at West Point.

TO MY FRIENDS.

It is with joy I tell you what Kodol did for me. I was troubled with my stomach for several months. Upon being advised to use Kodol, I did so, and words cannot tell the good it has done me. A neighbor had dyspepsia so that he had tried most everything. I told him to use Kodol. Words of gratitude have come to me from him because I recommended it.—Geo. W. Fry, Viola, Ia. Health and strength, of mind and body, depends on the stomach, and normal activity of the digestive organs. Kodol, the great reconstructive tonic, cures all stomach and bowel troubles, indigestion, dyspepsia. Kodol digests any good food you eat. Take a dose after meals.

FREE SCHOLARSHIPS.

A Rare Opportunity for Students of Law, Business or Shorthand.

Superintendent of Public Instruction Hon. J. Francisco Chavez is in receipt of a letter from the Nashville College of Law at Nashville, Tenn., authorizing him to appoint two worthy young men or women to each of the following departments in that excellent school: Two to the department of law, two to the department of business, and two to the department of shorthand and typewriting. This free scholarship is valued at \$100 a year and entitles the holder to free instruction until graduation; the time, however, not to exceed three years. The letter says: "If your appointees enter at the opening of the fall term, Monday, September 1, 1902, they can complete the course leading to the LL. B. degree in one year, graduating April 28, 1903. They can complete the course in business and shorthand in the same time. Graduation from this college with the LL. B. entitles the student to practice in all the state and federal courts." Any young man or young woman of the territory desiring such an appointment should address the Superintendent of Public Instruction at Santa Fe at once.

Bland Items.

Special Correspondence New Mexican.

Bland, N. M., Aug. 8.

Patience both strong and extended is certainly a virtue required by every good citizen of Bland and possessed perhaps to a greater extent than anywhere else in the territory.

Henry G. Coors, lumber merchant at Las Vegas, was in town a couple of days last week.

Thomas Williams has taken a position on the Iron King and it is now said will bring his wife over from Santa Fe to settle down.

Ex-Delegate Pedro Perea was a caller this week.

Like a shadow thrown softly and sweetly from a passing cloud, death has entered the home of Mrs. S. Smith, and her bright shining light, so beautiful in its innocence and purity, has gone out in the death of Lillie. She was so bright and sweet, that everyone loved her.

This dramatic pagan ceremony of the Pueblo Indians, of Tusayan, Arizona, popularly known as the Moki Snake dance, will occur in August, beginning this year on the 11th. This weird ceremony is a prayer for rain, and continues for nine days. The public performance in which live rattlesnakes are handled freely, occurs on the ninth or last day. The Department of the Interior requires that all visitors to the Moki reservation shall have a permit issued by the Superintendent and Acting Indian Agent Charles F. Burton, who is stationed at Kean's Canyon, Arizona. The possession of a such permit helps to secure courteous treatment by the Indians and employees. Further information on this subject can be secured from any agent of the Santa Fe railway system.

A Hint to Husbands.

Don't imagine for a moment that you have a monopoly on the contents of the knowledge box. Most married women know at least two or three things, although your wife may have the grace not to continually shake that fact in your face. How much larger a dollar looks to man when he hands it to his wife for necessities than when he spends it for cigars.

Be as lenient in your treatment of your wife's faults and frailties as you expect her to be of yours, and then shut your eyes and multiply the degree by ten, according to your great masculine strength.

There often comes a time in the struggle with pulmonary disease when the victim loses heart and gives up hope. The ambition to be up and around gives way before growing weakness, and the sufferer keeps to the bed.

No one who suffers from lung disease should lose heart or give up hope while there is a possibility of cure. In many cases Dr. Pierce's Golden Medical Discovery has cured lung "trouble" when the cough was obstinate and deep seated, with hemorrhage, emaciation, night sweats and general weakness. A great many men and women are living to-day in the full enjoyment of health and happiness who had been "given up" by doctors, but found a perfect and permanent cure in the use of "Golden Medical Discovery."

"My wife had hemorrhage of the lungs," writes W. A. Sanders, of Fern, Mason Co., W. Va. "She had ten hemorrhages, and the people all around here said she would never be well again. But she began to take Dr. Pierce's Golden Medical Discovery and she soon began to gain strength and flesh. After taking ten bottles she was as fit as a fiddle. You think this would do you any good to publish just use it, and if any one disputes the merits of this almost omnipotent medicine they may enclose self-addressed envelope with stamp, and I will answer, the same as written in this letter."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send at once one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE WORK GOES ON.

Santa Fe People Are Interested—It Has Much to Do With Our Welfare.

Never out of work.

That's the case with the kidneys.

Twenty-four hours to the day is the time they put in.

They're equal to it when they're well.

But they get sick.

Stomping positions of the body.

Straining, a fall or over-exertion.

Often makes the kidneys sick.

But the work must go on.

They ask for help through the back.

The back aches. It's kidney ache.

Doan's Kidney Pills are kidney helpers.

The daily work goes on.

Mr. Jacob Wolfe, carpenter, of 1239 North Ninth street, Third Ward, St. Louis, says: "When I first came to St. Louis there was not a bridge across the river, there was only a ferry. I helped to build the court house over 40 years ago and worked on nearly all the old buildings in the city. There was not a railroad in St. Louis, so a word or two from me to my many friends and acquaintance should carry considerable more weight than if I lived say in the New England states. Mrs. Wolfe and I have had more than one attack of backache. Mine was not remarkably severe but it was annoying. Noticing Doan's Kidney Pills advertised, induced me to get a supply and Mrs. Wolfe and I commenced the treatment. If it had not performed absolutely what it promised, if the action of the pills were not a long way ahead of anything we ever before used I would be the last resident in St. Louis to publicly recommend them."

Just such emphatic endorsement can be had right here in Santa Fe. Drop into Ireland's Pharmacy and ask what his customers report.

For sale by all dealers; price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y. Remember the name—Doan's—and take no other.

Price \$1 DIRECTIONS FOR USING THE LITTLE BROWN JUG FILTER

Fill a bucket nearly full of the water it is desired to filter and set it on a shelf or any place some two feet above the top of the bucket, jar or pan in which it is intended to receive the filtered fluid. Angle iron to support a shelf can be bought for a few cents at Goebel's Hardware Store, or all can be put up of wood. Fill the jug and the tubing completely with water. If you have no clear water, use any ordinary water, and this will be drawn out and replaced in a short time by the new purified fluid coming through into the jug. The tubing may be filled in either of three ways: Set jug and tubing into bucket, seeing that both with cork are completely covered with water, cork having been put in tightly; then let the tubing hang over the lower bucket. The water will begin to run, unless you have failed to get both jug and tube completely full of water. Another way is, after fully filling the jug and placing it in the upper bucket, to suck the air out of the tube with the mouth, which starts the water running. A third way is to see that the jug is full of water clear to the very top, then push the cork at end of tubing down into the mouth very suddenly and firmly, when the water will at once begin to run. Remember that corks must always be in tightly, so that no air can pass. On first trials, see that jug and cork are completely covered in the water. The higher the jug with its bucket is placed above the lower receptacle, the faster the water will run, providing tubing is lengthened.
