Her devotion to the welfare of her country and her people, her wise beneficent rule during the sixty-four years of her glorious reign will ever be held in affectionate memory by her loyal and devoted subjects throughout the dominions of the British empire."

MARKET QUOTATIONS.

Quotations and review furnished by W. P. Metcalf, No. 5 Cromwell block, received over private wire of P. G. Logan.

New York, Jan. 25.—(Stocks)—Near the close of the session there was buying of Northern Pacific common and St. Paul, by interests which have manipulated Missouri Pacific and southwest stocks. These latter were bought on some old reports of consolidations. B. R. T. was very erratic today, being very weak and very strong by turns. A meeting was reported to be held at 1 p. m., but reports came before that time that the old board was re-elected and nothing else done.

The general feeling on the floor at the close was that the general market tomorrow would be higher.

Chicago, Jan. 25.—(Grain) May wheat opened firm and ruled strong throughout the day. The pit was filled with operators, reminding one of old times. Transactions were heavier than in weeks past. All indications point to higher prices and we advise buying on all breaks and in a conservative way. The long side of the property for the immediate future.

Liverpool wheat closed 1/2 higher and corn 1/4 higher than yesterday. The general tone of the corn market was strong and the tendency seems higher.

RAILROAD OFFICIALS HERE.

Arrived From All Directions Last Evening On Tour of Inspection.

A party of distinguished officials of the great Santa Fe railway system arrived in this city at an early hour yesterday evening on a special train from El Paso. They were President E. P. Ripley, First Vice President E. D. Kennedy and General Manager H. U. Mudge, and later they were joined at this place by General Manager Arthur G. Wells, Third Vice President Barr, of the Santa Fe Pacific, and also Messrs. F. C. Fox and McNally, division superintendents of the New Mexico and Rio Grande divisions. The gentlemen have been making a thorough inspection of their lines and examining the numerous improvements which are being made at the various points along the system. The remark of the gentlemen here is that the Albuquerque short line which is to connect with the El Paso Valley road, were closely guarded, but was of the belief that it would be built when the proper amount of encouragement is given to a project. The new hotel, which is in course of construction at this place will be known as the "Alvarado" instead of the "San Felipe." President Ripley departed for the west in his special car last evening.

FROM CHINA!

The Peace Negotiations Have Retrograded.

State of Colorado to Be Sued by Kansas Farmers.

Difficulty Experienced to Serve Process Against Creek Indians.

TELEGRAPHIC MARKETS.

New York, Jan. 25.—A dispatch to the Herald from Peking says: "Germany put the screws on England, with the result that negotiations have retrograded to where they were three months ago."

The demand for the death penalty will be preferred against all leaders mentioned in the decree, in addition to posthumous degradation of such anti-foreign leaders as committed suicide. C. C. & Q. said he could not support the demand if made in writing, but verbally he would do so with heart and soul.

Tung Pu Shiang, whose head is asked for, possesses more real power and controls more troops than any other man in China.

Moreover, the emperor is at present in his custody, and yet he is expected with his scribbles and enunciations, to overpower the Kansu army and head it.

The peace and tranquility of the country are further away than ever.

WANT THE DEATH PENALTY.

Paris, Jan. 25.—A dispatch from Shanghai says: The diplomats have decided to unanimously notify the Chinese plenipotentiaries that military arrangements of the powers depend upon the promptitude with which China executes her engagement. They will also request the death penalty be imposed upon four Chinese functionaries, including Chang Ying Nien. Posthumous death penalty will also be demanded for Prince Kang Yi, assistant grand secretary and president of the civil board, who committed suicide. They will finally ask that the death penalty be decreed in the case of General Tung Fuh Shiang and be carried out when he is captured.

COLORADO TO BE SUED.

Kansas Farmers Up in Arms Against Colorado Ditch Companies.

Wichita, Kas., Jan. 25.—The Arkansas River association in convention here adopted resolutions requesting Gov. Stanley and Attorney General Goodard to begin proceedings in the United States court against the state of Colorado and its citizens to prevent the diverting of water of the Arkansas river from its regular course. A further resolution requests the state legislature to take such steps as it may think "necessary, right and proper to protect the interests of the state and people of Kansas." The organization was composed of owners of the riparian rights of the Arkansas valley. The convention was the outgrowth of a bill now pending in congress asking for a large appropriation from the government for the construction of storage reservoirs in western and south central Colorado, in which it is proposed to run the waters of the Arkansas river, to be used for irrigation purposes of that state. It is alleged that the Colorado ditch companies have several years past wrongfully diverted the waters of the river for the betterment of their own lands, to the injury of all others.

MURDER IN SECOND DEGREE.

Buenos Vista, Colo., Jan. 25.—The jury in the trial of Frank Wallace, charged with the murder of Capt. Rooney, who was stabbed to death by prisoners who escaped, to-day returned a verdict of murder in the second degree. The charge against Antoine Wood was dismissed, there being no evidence that he took any part in the killing.

THE CREEKS STILL DEFIANT.

United States Marshal Asks Important Request From Attorney General.

Washington, Jan. 25.—The attorney general received the following telegram dated Muskogee, Indian territory, Jan. 25, signed by Bennett, United States marshal: "Respectfully and earnestly request authority to expend not exceeding \$500 operating under section 946 to meet the unusual difficulty attending the execution of process, actual defiance of federal authority and disturbances of extraordinary character. Prompt authorization urgent." The authority was granted.

CHEROKEES DISAPPEARED.

I. T. says: Disaffected Cherokees are assembling in large numbers at Eufaula. The resurrection of Ch. and Chief Snake are there. Emisaries from Choctaw insurrectionists are also present. Troops en route from Fort Reno are probably at Henrietta and will likely reach Eufaula by night. It is believed they will attempt to control Snake and his followers.

BLOODSHED FEARED.

Kansas City, Jan. 25.—A special to the Star from Muskogee says: The Creek uprising continues dangerous, green troops yet having failed to arrive. United States Marshal Bennett has captured the 17-year old son of Chief Snake and notified the latter that the boy would be held as hostage until the Indians surrendered. The Indians so far have refused to surrender and to-day are holding two councils, near Bristow and Rush Hill. A dispatch from Bristow this morning states the threatened attack of that town has not yet begun, but the citizens were continuing to arm themselves for any emergency. Marshal Bennett expresses fear of bloodshed if the troops ordered from Fort Reno do not arrive. Marshal Bennett returned from Eufaula this morning after a visit with five deputies to the home of Chief Snake. When he first entered the Snake house there were but three persons there. In less than twenty minutes fifty light-armed Indians of the Snake's band, had gathered. They were all heavily armed, but offered no bodily harm to the officers. The Indians had been picketed round about evidently to protect their chief, or give warning of attack. Snake was not found. Bennett left word for him to come to Muskogee or Eufaula for a conference.

MRS. CARRIE NATION

Saloon Wrecker Takes a Rest.

Did Not Attack the Saloons of Hope.

A Gasoline Steamer Blown Ashore on the Rocks.

ANOTHER MONTREAL FIRE.

Kansas City, Jan. 25.—A special to the Star from Hope, Kansas, says: Mrs. Carrie Nation arrived at midnight from Enterprise and determined to attack two saloons in Hope as she had done at Wichita and Enterprise, but no committee of temperance workers met her and this morning she said she had made up her mind not to damage saloons here because she was alone. She refused to take breakfast because she feared she would be poisoned but instead, talked temperance to a crowd that gathered in front of the hotel. She took the train for Ottawa, saying that she would visit friends there and rest for a few days.

In the crowd that swarmed about Mrs. Nation in Hope were proprietors of two saloons. They escorted her to the train, one on each arm, the crowd cheering.

When Mrs. Nation left Enterprise last night a big crowd followed her to the depot, shouting and throwing eggs at her.

"My object in smashing saloons," said Mrs. Nation, "is to stiffen the backbone of women against the rum traffic, and set an example that is the only way the traffic can be stopped. I will organize a society of saloon wreckers."

Blown on the Rocks.

Point Arena, Cal., Jan. 25.—The gasoline steamer Barbara Harmer, Capt. Hienquan, which sailed last evening for San Francisco, was blown ashore on the rocks near here, and may become a total loss. Frank Christensen, a sailor, was drowned while attempting to take a line ashore. The line was finally passed aboard her, and eight of the crew were dragged to a boat in safety.

Another Montreal Fire.

Montreal, Jan. 25.—The stores of D. A. McPherson, W. K. Johnson and Nicolas Pitt, on William street, were destroyed by fire to-day, together with the contents. The buildings were stocked with butter and cheese. Total loss is estimated at \$26,000.

Death of Valentine Schick.

A telegram announcing the death of Valentine Schick was received in this city early this morning by the daughter of the deceased. It merely stated that the gentleman had died during the night from an attack of pneumonia. Mr. Schick was about 65 years old, and at the time of his demise was in the employ of W. L. Trimble & Co., as superintendent of the half-way station between Ortiz and San Pedro. He was among the first American settlers in this country, and was a conscientious, hard working man. A son residing in Michigan, one married daughter in California and a 19-year old daughter of this city are left to mourn. The remains will be brought to this city to-morrow when the final arrangements for the funeral will be made.

Important Engagements.

London, Jan. 25.—A dispatch was received at the war office from General Hithner, dated Pretoria, Jan. 24, mentioning important contacts with Delarey's and Haasbreek's commands, that a score of Boers had been captured and General Methuen cleared of the Boer menace. Invaders did little harm in Cape Colony. They have not been joined by inhabitants, with whom they are daily becoming more unpopular.

ALBUQUERQUE, — — JAN 25, 1901

Governor Otero has appointed B. J. Young, of Red River, Tazewell county, and Joseph Hall, of Lincoln, Lincoln county, notaries public.

A deer has been discovered in the Philippines that barks like a dog; but if Mr. Pettigrew stays on this side and exercises ordinary care it won't bite him.

Mrs. Leane, of the great state of Kansas, has withdrawn her suit for divorce from Mr. Leane, and some people are angry enough to hint that she has done it for spite.

J. H. Vaughn, territorial treasurer, yesterday received \$175.40 from Secretary Romero, clerk of the Fourth judicial district, fees received for the quarter ending December 31, 1900.

The Press association of Arizona held its eleventh annual meeting at Phoenix on Monday, and adopted resolutions on the death of one of its members, Editor A. P. Sheehan. A legislative committee was also appointed.

There is no probability that the old fashioned, antiquated hatchet with which George Washington mutilated the pepper tree was any such neat, shapely, blue-stained hatchet as that which Mrs. Nation used to split the bar room mirrors of Kansas. The world do move.

Because an English mutton chop was not cooked to suit him, Richard Mann, headwaiter of the dining room of the Auditorium hotel at Chicago, Richard and Mrs. Carrie Nation, charged from a partnership in the free-speech and free-action business.

An exchange says: A subscriber notified the editor that he found a spider in his paper and wanted to know if it was an evil omen. The editor promptly replied that it was not; that the spider was there on legitimate business. It was scanning the columns of the paper to find out who did not advertise and would know where to locate and not be disturbed.

Salad dressing from sunflower oil is one of the delicacies promised from an investigation of the plant by Professor Wiley, chief of the division of chemistry of the department of agriculture. He says the oil from sunflower seed is delicious as an edible oil and one which never rancid, and is good for cooking. He says the general properties of the oil of the olive. If this is true it is appalling to think of the millions of acres of cold masses of sunflowers that go to waste every year along the valley of the western rivers.

If you would increase your happiness and prolong life forget your neighbor's faults. Forget all the slander you have ever heard. Forget the temptations. Forget the faults of others, and give little thought to the cause which provoked it. Forget the peculiarities of your friends, and only remember the good points which make you fond of them. Forget all personal quarrels or histories you may have heard by accident, and which, if repeated, would seem a thousand times worse than they are. Obsolete everything disagreeable from yesterday, start out with a clean sheet to-day, and write upon it for several months the good things which are lovely and lovable. Thus you will make life better worth living.

EDWARD, THE SEVENTH.
It seems to be the custom in some quarters that there will be an upheaval in Great Britain as the result of the accession to the throne of Edward VII. There are others who think it will mean a speedy termination of the war upon lines more favorable to the South Africans. Neither of these results is at all probable. From all the evidences which are now in sight it seems altogether likely that the same policy which has heretofore been pursued in South Africa will be continued to the end. There will be no more attempts at conciliation than those which have already occurred, and with reference to other countries Great Britain's policy will be practically the same that it has heretofore been. It may be taken for granted that the new king, whose will power and determination are quite inferior to those possessed by the queen, will continue to follow in her footsteps to pursue the policy which she has laid down.

Indeed, so far as the temper of the British people can be judged at this distance, they are largely in accord in the matter of prosecuting the war in South Africa and continuing the policy which has been laid down by the queen and her prime minister. There is every indication, therefore, that the reign of Edward VII will not be marked by any notable departure in way or another, but that he will endeavor to rule the kingdom quietly and peacefully so far as other nations are concerned and will continue the internal policies as already outlined.

A JUST TRIBUTE.
Representative Carl A. Dulles of Venezuela county has made his maiden speech in the lower house of the territorial legislature, and demonstrated the fact that he is quite an orator. In his eulogy upon Capt. Maximiliano Luna, who was drowned while on the staff of General Lawton, in active operations against the rebels in the Philippine islands, Mr. Dulles paid a just tribute to the dead soldier. The children use the following extracts:

The Spanish war was taking no counsel of fear, knowing all the trials, hardships and dangers of war; still he fought with the heat of conflict, the old graving in revenge insult to America.

THE MOST MISERABLE BEINGS IN THE WORLD are those suffering from dyspepsia and liver complaint. More than 75 per cent of the people in the United States are afflicted with these two diseases and their effects; such as sour stomach, sick headache, habitual constipation, palpitation of the heart, heart-burn, water-brush, gnawing and burning pains at the pit of the stomach, yellow skin, coated tongue and disagreeable taste in the mouth, coming up of food after eating, low spirits, etc. Go to your druggist and get a bottle of August Flower for 15 cents. THE KICKER.
The Redmen's Journal says: No one loves the kicker, but some are led to countenance him because he is so sure that he has been created for a good purpose that he sometimes impresses them with the belief that he is good for them. Just as many believe that he is a blessing in disguise. He generally starts out with a religious objection to some proposition, and being approved immediately, becomes convinced that his strong point is a kicker. It becomes his business and delight to kick. He never builds. He is only a destroyer. The council house is for recreation, for pleasure, for joy; but he destroys harmony, irritates and causes gnawing of teeth. One of them says that he has seen a pack and a goodfellowship, and make vacant the seats around the council band. If he will not take advice and still has tongue there is but one way of salvation for the tribe. Charge him with conduct unbecoming a member of the Order and when convicted, expel him.

LIVE STOCK CONVENTION.

Col. J. S. Van Doren, of Bluewater, talks of the Big Convention.

Col. J. S. Van Doren, of Bluewater, left last night for home, after having attended the convention of the National Live Stock association at Salt Lake City. He reports having attended the greatest convention of this century and is full of enthusiasm for the outcome of the stock interests, as he thinks, one of the greatest industries of the country. Yes, he says John W. Springer, the president, was re-elected at this session for the fifth time, is a model presiding officer, and handled the fourteen hundred delegates with the delicate services before them, as he would his four-hundred on Broadway in Denver.

The convention was a unanimous protest to congress, against the passage of the Great Bill, the National Live Stock association, the members of the "bleeding" question was laid on the table after the reading of the majority and minority reports of the committee appointed by the National Live Stock association to formulate a bill for passage by congress relating thereto. Valencia is again honored by the selection of the National Live Stock association, the executive committee from New Mexico.

The nucleus of the organization of the American Cattle Growers association was started with a large contingent, to be completed at a meeting to be held at Denver March 5, next; when completed the organization will have some 2,000 members. The new will be another, and more competent teacher. The teacher is the son of one of the old directors and is charged with being utterly incompetent for the position. There are 97 children of school age in the district, but only two were in attendance when Mr. Conway visited the school. The director will take another, and more competent teacher. DEATH OF D. T. LOWRY.
It Occurred at Hot Springs, Arkansas, Wednesday Morning.

The sad words "Dick Lowry is dead" passed from lip to lip at an early hour Wednesday morning, the sad intelligence having been received by wire that he passed suddenly away at Hot Springs, Ark., at 4 o'clock, the immediate cause of death being heart disease, says the Las Vegas Optic.

Dixon Tandy Lowry was born near Huntsville, Randolph county, Missouri, October 10th, 1839. In the '50s he was employed with the herds of the late Sam Doss, the Trinidad, Colo. cattle raiser in the capacity of foreman. He came to Las Vegas in the spring of 1882 and had charge of the Plaza hotel, bar, billiard and club rooms, when the hotel was under the immediate management of Mrs. S. B. Davis. Subsequently he returned to Trinidad, Colo., in which city he was engaged in business with Ben Springer and Lee Perkins. He was married in this city in 1883 to a surviving wife, whose maiden name was Evaline Field of Denver. Three children were born in Mr. and Mrs. Lowry, named respectively, Louise, Edna and Mary, all of whom survive also three sisters, and a brother of the dead citizen reside in Trinidad county, Missouri.

Returning to Las Vegas in 1896 he was employed at the Headquarters, in which establishment he bought an interest from D. F. Forsythe nearly three years ago, the firm name being Forsythe & Lowry.

The sickness to which Mr. Lowry fell an unwilling but not surprised victim this morning set in a year ago, an affliction of the heart developing later.

His friends and his family were a matter of a short time only and often remarked to his friends. He had been advised to seek relief at Hot Springs, Ark., from the illness that was gnawing at his vitals and he followed that advice some days ago. Good reports had been received from him and it was the intention of his wife to start for that city to-day—but alas! death had preceded her!

The funeral will take place in this city Sunday afternoon at 2 o'clock. Rev. George Selby will conduct the services and the Elks will attend in a body, it being the only order to which the deceased belonged.

THE WINDMILL SAYS: "Hon. W. A. Parr has contracted for the erection of four or five buildings in Albuquerque and will make that his temporary home for a short time."

A Teacher Suspended.
County School Superintendent J. V. Conway on last Friday inspected the public school at Tesuque, and as a result of the inspection, he suspended the teacher and closed the school. The teacher is the son of one of the old directors and is charged with being utterly incompetent for the position.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters, and to my great joy and surprise the bitter made a decided improvement. I continued their use for three weeks and am now a well man. charge was incurred or what warrant there is for its payment."

The council clerk declined to deliver the bills ordered printed, even to the secretary for his representative, demanding the receipt of the contractor, who is a person who is unknown other than under his contract. All of this work can be greatly expedited and done without confusion, if under some rule. I am, very respectfully yours,

GEO. H. WALSH.

Secretary of New Mexico.

After reading of said communication the president stated that the chief clerk could explain, whereupon the chief clerk said:

Mr. President and Gentlemen of the Council: I, being the custodian of all bills, am held responsible for them, and I have declined to deliver said bills to any one except the person who will give me the proper receipts therefor. It has always been the rule of the council that the printer in person give his receipts to the chief clerk for all bills ordered printed. This is all I have asked the secretary to do.

"You will understand that the responsibility which rests on me is great in this matter and should be lost between the chief clerk's office, the secretary's office and the printer's office, I would probably be called on to show my authority for having delivered said bills to any other than the proper officer, which as I have stated, has been the printer himself. I would suggest that the council take such action as it deems proper in furnishing me proper orders whom to deliver said bills to and thus protect me and relieve us from the present dilemma."

The president desired to state to the council that he has in his possession papers which purport to be the contest of T. E. Catron vs. Chas. F. Easley, which he will refer to the committee on privileges and elections.

Mr. Hughes moved that the council do now adjourn until to-morrow morning at 10 o'clock, which motion was carried.

TO EXCLUDE CHINESE.

Favorable Report on a Very Stringent Bill.

One of the provisions of the bill is that if any Chinese person shall enter the United States clandestinely or without permission he shall be deported to China, even though he might have applied for such privilege as provided by law.

LEE, THE FAMOUS HYPNOTIST.

Great Engagement of the Wonderful Wizard of the Mind.

For one solid week, commencing Jan. 28th, Albuquerque is to be amused and puzzled by Prof. Lee and his wonderful hypnotic demonstrations. As to the character of Prof. Lee's work nothing need be said. But having once seen him, he wants to see again in the hope of being able to discover what the mysterious force, this secret power of hypnotism, is.
