QUEEN'S ILLNESS!

er Condition Causing
Much Anxiety.

Suffering From Great Physi-
cal Prostration.

Rumor That Her Majesty Had Died
Denied in London.

MEMBERS OF ROYAL FAMILY SUMMONED

Osborne, Isle of Wight, Jan. 18.—The following bulletin has just been issued:
"The queen is suffering from great physical prostration, accompanied by symptoms which cause anxiety."
(Signed) A. DOUGLAS POWELL.
JAMES H. REED.

CABINET MEETING.
London, Jan. 18.—The inner circle cabinet met to-day under the presidency of Lord Salisbury. While it was announced that the occasion was merely the ordinary meeting of the defense committee of the ministry, there is good reason to believe it is more directly connected with grave news from Osborne.

PUBLIC ALARMED.
The official bulletin issued from Osborne House at noon to-day was so completely contradictory of intimations previously given to the newspaper correspondents that it naturally intensified public alarm. The Prince and Princess of Wales and the Duke of York went to Osborne House to-day.

RUMOR DENIED.
The bulletin from Osborne House, published at noon to-day, and at Mansion House at 3 o'clock and attracted crowds whose faces sufficiently attested their deep concern. The people thereafter stood about in groups, discussing the bulletin and waiting for further news.

During the afternoon sinister rumors were circulated of the death of her majesty, but at 4 p. m. Lord Pelham-Clinton, master of the queen's household, telegraphed Buckingham palace that the queen's condition was unchanged since the noon bulletin was issued.

The Duke of Connaught has been summoned from Berlin, where he has been attending the Prussian bi-centenary celebration.

RECEPTION POSTPONED.
Berlin, Jan. 18.—It is officially announced that owing to the serious illness of Queen Victoria and the consequent departure of the emperor for England, the grand court reception fixed for Monday and Wednesday next, will not take place.

CONDITION THIS MORNING.
Covers, Isle of Wight, Jan. 18.—The Queen passed a good night and is much better this morning.

CONDITION THE SAME.
Covers, Isle of Wight, Jan. 18.—There was no change in her majesty's condition at 5:30 p. m. According to local understanding and reports, the Prince of Wales comes to Osborne with the object of practically assuming the regency. He will take over the powers of signing state documents, and is expected to return to London until his return here is necessitated by the possible course of events.

EN ROUTE TO ENGLAND.
Berlin, Jan. 18.—Emperor William and the Duke of Connaught left Berlin by special train for England at 6 o'clock this evening.

LOOKS SERIOUS.
London, Jan. 18.—The British second class cruiser Minerva, having a speed of over 20 knots, leaves Portsmouth to-night to intercept the vessel bringing Emperor William and the Duke of Connaught from Flushing and take them to Osborne. An urgent telegram has been sent to the Duke of Cambridge, recalling him from Paris.

PENSION CLAIMS!

Valuable Papers Burned
in Washington.

Embezzler Neeley to Be Sent
Back to Cuba.

Reward for Pat Crowe, Kidnaped,
Largely Increased.

BANK ROBBERY IN MICHIGAN.

Washington, Jan. 18.—More than 80,000 pension claims in the office of Milo B. Stevens & Co., were lost in a fire last night. Many of the papers were read and evidence in attempting to secure favorable action by the pension office on claims, and cannot be replaced. In addition there were destroyed thousands of claims pending before the treasury department and patent office.

Will Be Executed.
New York, Jan. 19.—C. E. W. Neely, charged with embezzlement of public funds of Cuba, while acting as financial agent of the department of state, will be taken to Cuba next week. John N. Lindsay, counsel for Neely, who made the legal fight against the extradition, said that no further steps would be taken on Neely's behalf.

Reward Increased.
Omaha, Jan. 19.—At a secret meeting of the city council last evening it was decided to offer a reward for Pat Crowe, dead or alive, irrespective of the suspicion that he may have been concerned in the Cudahy kidnapping. This makes the total prize \$18,000 on Crowe's head.

Bank Robbery.
New Baltimore, Mich., Jan. 18.—Wm. E. Sandel & Co.'s bank was broken into last night by crooks, who forced open the safe and secured about \$5,000.

Mrs. Gustav Mack, of Minneapolis, Minn., who left for Seattle, Cal., last night with Mr. and Mrs. McGirt, "stuck up" several very good friends here for bills which they guaranteed on her account, out of sympathy for her. The woman's husband is in the Knickerbocker, where he has some valuable property, and there is good reason to believe that he sent his wife several hundred dollars within the past two or three weeks.

Col. John W. Schofield and wife, two popular people who resided in this city years ago, now of Denver, are the guests of County Collector Chas. K. Newhall and wife. The colonel has a duty to perform and he and wife are here to witness the christening of "Jack" Schofield Newhall, the four months-old baby of Mr. and Mrs. Chas. K. Newhall. The little cherub will probably be put through the water sprinkling proposition on Sunday.

CITIZENS OF HAWAII

Opinion of Attorney General
Griggs.

Town in California Cut Off by
Snow.

Steamer Laden With Cotton Burned
to Ground in Arkansas.

METHODIST PASTOR DEAD.

Washington, Jan. 18.—Attorney General Griggs, in an opinion rendered upon the request of the secretary of the treasury holds first, that a person born in the Hawaiian islands in 1888, of Chinese parents, who are laborers, and taken to China with his mother in 1890, is entitled to re-enter the territory of Hawaii where his father still resides. Second, that the wife and children of a Chinese person who was naturalized in 1887 in Hawaii and still resides there are entitled to enter that territory "by virtue of the citizenship" of the husband and father. The opinion is based upon the assumption that the Chinese persons in question, born and naturalized respectively in the Hawaiian islands, were in fact, citizens of Hawaii under the laws on August 12, 1898, and had not abandoned or lost their rights as such.

Snow Bound.
Redding, Cal., Jan. 18.—Wolverville, the county seat of Trinity county, in the northern part of California, has been snow bound since the latter part of December. Two men came out on horseback, enduring many hardships. John Vashay was frozen to death. Efforts will be made to take in mail and supplies by pack trains.

Steamer Burned.
Memphis, Tenn., Jan. 18.—A dispatch from Bartles Point, Ark., 100 miles above this city, says the steamer Buckeye State, loaded with cotton, burned to the guards last night, and is a total loss. One negro cookstove was lost. The steamer was enroute from New Orleans to Cincinnati.

Dead.
Chicago, Jan. 18.—Rev. Dr. Lorn Laertes Knox, one of the oldest pastors of the Methodist church, author of several books relating to that denomination, died of bronchial pneumonia, at Evanston. He was born at Nelson, N. Y., in 1831.

Sheriff T. S. Hubbel was a passenger for Santa Fe this morning. Mrs. Luke Venus, of Baltimore, Md., passed through the city on the delayed passenger train Thursday morning, for Alamogordo, in response to a telegram that her husband was dying in that town. When the train reached this city, a little female sick terrier, which she had with her, escaped and if any person has found such a dog a great favor will be rendered by returning the dog to either W. F. Powers, route agent of the express company, or Station Agent Pat.

There will be a feast to-night where all comers will be welcome, and no charge for that which may be eaten. Magnificent free lunch at the "Vendome," 215 South First street.

 ALBUQUERQUE, — JAN 19 1901

The legislature will convene next
 Monday, and the people hope that only
 good legislation will be enacted.

Hon. F. A. Hubbell, chairman of the
 territorial republican central committee,
 will spend some time in Santa Fe
 during the session of the legislature.
 He will do good work for Albuquerque.

The Atchison, Topeka & Santa Fe
 railroad paid \$27,000 taxes in San Mi-
 guel county in 1900. They took advan-
 tage of the five per cent discount for
 the last half and paid their taxes in
 full.

The effect of good roads upon any
 country district is almost to be com-
 pared with a good circulation of the
 blood upon the vigor and health of
 the human body. It is all-pervading.
 It is felt every day and every hour.

The Duke of Abruzzi seems to have
 abandoned the proposed trip to the
 North Pole in company with Nansen.
 He is arranging a South Polar ex-
 pedition for 1902. The vessel to carry
 the expedition will be built in Italy on
 the Duke's plans.

The whole history of American politi-
 cs has shown that we have outgrown
 the present method of electing sena-
 tors. It serves to retard the progress
 of legislation and the corruption of
 politics. These evils will
 continue until senators are elected di-
 rectly by the people.

Byran took his vacation first before
 starting to publish his paper, and if he
 publishes a real newspaper, that's
 about the last he will get out of
 his profession. It is told of Horace
 Greeley that he tried in vain for thirty
 years to get a day off to fishing.

The people of this city feel just prou-
 der in the territorial university, and hope
 the legislature will be liberal in making
 appropriations for its support. This
 city pays more for the university than
 one-half the cost of the territory,
 and feel that they have a right to ask
 that the university shall be sustained.

The export of lumber is becoming a
 very important feature of American
 foreign commerce, having nearly
 doubled within the last ten years. The
 total exports of lumber in 1900 were
 valued at \$50,598,416, most of the lumber having
 been sent from the Pacific coast to
 South America and the Asiatic coun-
 tries.

The Las Vegas Record says: That
 the Duncan revenue law is a great im-
 provement over any law ever passed
 for the collection of taxes is evidenced
 by the large collection of taxes by the
 various collectors. The outgoing col-
 lector of San Miguel county collected
 \$35,000 before the first of the year. This
 is as much as was usually collected for
 the entire year under the old law.

In Iowa a state library commission
 has been created, whose duty it is to
 promote the establishment of free li-
 braries. New Jersey has also created
 a library commission. It is required to
 furnish advice to librarians, and may
 give \$100 to such as expend an equal
 sum for books. Since Massachusetts
 took the lead in 1899 special library
 commissions have been provided in fif-
 teen states.

The nineteenth century has been one
 of mechanism. A hundred years ago
 people were content to live by hand, as
 it were; now people live chiefly by com-
 plicated machinery. The world has
 gone patent mad. In the United States
 alone there were 52,336 patents granted
 in the sixty-two years from 1837 to
 1899. During its existence the patent
 office has received more than \$40,000,000
 in fees.

A correspondent of the Scientific
 American says: "The best remedy for
 bleeding at the nose, as given by Dr.
 Mason, in one of his lectures, is a vigorous
 motion of the jaw, upwards. He holds
 that while the jaw is in motion, the
 remedy is so very simple that many
 will feel inclined to laugh at it; but it
 has never been known to fail, even in
 very severe cases."

SUCCESS THROUGH ADVERTISING.
 In an interview recently, W. L. Doug-
 las, the shoe man who has made his
 name familiar all over the country, said
 when asked as to the causes of his
 success:

"I attribute my great success to
 strenuously adhering to my original
 plans and overlooking no opportunity
 to press my business. The main thing
 in the line of success is to keep your-
 self and your goods constantly before
 the public. This is best done by means
 of advertising in general, and particu-
 larly newspaper advertising. My adver-
 tisements have always been, honest goods
 and honest dealing."

Mr. Douglas owns sixty-two retail
 stores, has thousands of other stores
 selling his goods and last year did a
 business amounting in volume to \$1-
 000,000.

COST OF GOVERNMENT.
 Carroll D. Wright, United States
 commissioner of labor, presents some
 interesting statistics in the current
 number of the Century Magazine to
 show that the federal government is not
 living beyond its means. He holds
 that while the per capita expenditures
 are increasing from year to year the
 wealth of the nation is increasing in a
 way to justify these larger annual
 budgets.

In 1901 the per capita expenditure by
 the federal government was only forty-
 nine cents. It has gradually risen until

it, in 1900 it was \$2.39. In 1900 the per
 capita expenditure was \$1.60. In that
 year the private wealth of the nation
 was \$13,740,238, and its products were
 worth \$1,023,246,738. In 1900 the nation's
 wealth had increased to \$24,000-
 000,000 and its products to \$18,222,570,829.
 From these figures it will be seen that
 while the government now spends an-
 nually four times as much per capita
 as it did fifty years ago, the nation's
 wealth and annual income have mean-
 time increased to the point where the total
 amount of 1900. The present national
 debt of \$1.52 per capita is not sufficient
 to alter the situation materially. Mr.
 Wright is justified in his conclusion
 that the nation is rich enough to live
 on a generous scale.

LIGHT-FINGERED GENTLE.

Some of Their Tricks With Visitors to El
 Paso Caravans.

The city of El Paso is crowded with
 thieves, thieves, pick-pockets,
 bunco-steerers and murderers, and the
 newspapers of that city are devoted
 columns to the acts of these unfor-
 tunate people, appealing to their offi-
 cers to rid the city of their presence.
 The El Paso News says:

"Friendship and Hilario Romero of Las
 Vegas are victims of thieves. Don Hilario
 had two pocketbooks taken from him,
 one from his trousers pocket, with his
 money, the other from the inside
 breast pocket of his coat, the latter
 containing a check book, railroad tick-
 ets and personal papers.

Lee David Durr, a man 60 years old
 visiting his son in the city, was robbed
 on a street car yesterday. He was get-
 ting upon the car, when two men came
 up and said, 'Yes, grandpa, we'll help
 you.' So they took the action to the
 words they put their arms around the
 old man and lifted him to the platform.

When he took a seat and looked for his
 pocketbook, he found it gone. The book was
 gone and all his money with it.
 F. J. Roth, of the J. C. Roth Packing
 company, Cincinnati, was getting upon a
 G. H. sleeper last night. In pushing
 his way through the crowd, he was
 robbed of his money, and the book was
 taken from him. He was taken to the
 hospital, where he died.

A nicely dressed young Mexican woman
 reported to the police this afternoon
 that her purse, containing \$30 and a
 ticket to San Francisco, had been
 stolen in the street. She was taken to
 the station in her manager's car, and
 the purse on the table. When she looked
 for it, it was gone.

Education in Porto Rico.
 The expense of maintaining schools in
 Porto Rico is very high. If we consider
 the amount spent for the small number
 of pupils enrolled, but so that the country
 is gradually brought to closer touch
 with our own, their system will evi-
 dently be changed, until it reaches a point
 of perfection. In this country, the people are being educated
 to the fact that there is a sure cure for
 dyspepsia, indigestion, constipation, liver
 and kidney troubles, and that mod-
 erate use of the English, German and
 Spanish languages, but has never been
 known here as a "loose-mouthed fel-
 low." He showed Herr Strauss and
 his manager, Heck, the greatest of
 courtesy, while they were here, and
 was not in the least responsible for the
 press dispatches sent out about the

PRICES THAT INTEREST.
 To hear them tell it themselves every
 grocery store is the "cheapest" in
 town, but we notice that none of them
 have the courage to advertise their
 prices. We have collected for the
 entire year under the old law.

Chipped beef per can \$.25
 Salmon per can \$.10
 Fresh shoulder ham \$.10
 Newton creamery butter \$.10
 Old mottled ham \$.10
 Best of Mocha and Java coffee \$.25
 3 lbs soda crackers \$.25
 2 cans Eagle milk \$.25
 Anderson's jam \$.10
 Sumner's Borden's soup \$.25
 3 pkgs. Scotch oats \$.25
 Deviled ham per can \$.5

Now, as to quality, we carry identi-
 cally the same brands as do the other
 stores. Don't be humbugged by their
 claim of superiority.

Railroad Cut-Off to Be Built.
 The building of the twenty-four
 mile cut-off of the S. F. & P. rail-
 road between here and Ash Fork,
 which has been under consideration
 by the company for some time, is now
 an assured fact.

Contracts have already been awarded
 for the steel for the monster bridge
 across Hell canyon, which will be one
 of the largest structures of the kind
 in Arizona. It will be 150 feet high
 at the highest point, and will be about
 650 feet in length.

This piece of road is intended to ob-
 viate the heavy grade over the moun-
 tain via Rock Butte. It will be twenty-
 four miles in length and shortens the
 distance by a few miles between Ash
 Fork and Prescott. The new line will
 start north of Rock Butte several miles
 and will follow the valley, skirting
 around the foot hills, and will inter-
 sect the present line at a point about
 three or four miles south of Cedar
 Glade station.

Work on the grade, it is said, will
 be commenced at an early date—Prescott

HERR STRAUSS,

The "Famous" Orchestra Leader,
 Says He Is No Longer Sick.

SPRIT OF INGRATITUDE.

The report that Edward Strauss, the
 leader of the famous Vienna orchestra,
 would not direct the orchestra in this
 city Wednesday night on account of
 sickness, has been refuted. He says he
 will direct his orchestra in Topeka.

Herr Strauss passed through Topeka
 yesterday afternoon over the Union Pa-
 cific with his orchestra on route to
 Kansas City from Denver, where he
 conducted four concerts after the re-
 ported illness at Albuquerque. Man-
 nee and night concerts were played
 Sunday. Herr Strauss is an eccentric
 man. It is said of him that he will not
 speak to the members of his orchestra
 when off the stage.

A State Journal reporter met him at
 the train and had a few moments' chat
 with him, through an interpreter, dur-
 ing the time the train stood in the sta-
 tion. He was found in the stateroom
 of the Pullman car. The room was a
 state of confusion. Various articles
 of clothing were scattered here and
 there over grips and seats; an empty
 apollinaris bottle rolled in a far cor-
 ner; a few United States bank notes
 peeped out from under a typewriter
 lid, and Herr Strauss himself was just
 finishing an orange.

While Herr Strauss is able to speak
 the English language to a limited ex-
 tent, he prefers not to converse, for he
 speaks German just a little better, and
 is so to the pronunciation and usage
 of the words of the language. He
 speaks fluently German, Italian and
 French.

Mr. Heck, Herr Strauss' manager,
 was called in and acted as interpreter.
 They spoke in German and the inter-
 preter for the reporter for the following:

"People here have become doubtful
 through the newspaper reports of your
 illness that you would direct the or-
 chestra here."

"That is all wrong," said he. "I
 have been sick, but all right now. I
 directed the orchestra for four con-
 certs in Denver and I will conduct the
 orchestra in Kansas City. Yes, yes, I
 will be all right and direct here."

The story of the way the exaggerated
 reports of Mr. Strauss' sickness got out
 was explained by his manager, as fol-
 lows:

"When we were at Albuquerque
 Herr Strauss was troubled with a
 slight indisposition and a doctor was
 called in. The doctor became quite
 excited over the fact that he had a
 famous man in his care and bustled
 around in a perfectly ridiculous man-
 ner. He was so excited over the case
 and he wanted to make so much of
 little that he went to the drug store
 and spun a story of how sick Herr
 Strauss was."

"The drugist, being a loose-mouthed
 fellow, let one of the newspaper
 friends in on the story and that was
 the way the press dispatches got out."

"Topeka State Journal."

The doctor alluded to is Dr. John
 Tischer and the drugist is B. Ruppe,
 and the interview, if correct, proves
 that Herr Strauss and his manager are
 possessed of ingratitude. Dr. Tischer
 has prescribed for and treated more
 "famous" men than Herr Strauss ever
 heard of, and when he was called to
 attend the sufferings of the musical
 director, which he did in a most
 skillful, professional manner, he
 said that his business was to cure, and
 Herr Strauss was none other than a
 member of the "common" people. The
 doctor said his patient in good con-
 dition, and the "great" musical di-
 rector slurs him by stating that he
 is troubled in a perfectly ridicu-
 lous manner."

B. Ruppe, it is true, likes to talk; he
 has a pair of lungs, knows how to
 modulate in the English, German and
 Spanish languages, but has never been
 known here as a "loose-mouthed fel-
 low." He showed Herr Strauss and
 his manager, Heck, the greatest of
 courtesy, while they were here, and
 was not in the least responsible for the
 press dispatches sent out about the
 slanders of Herr Strauss.

Again, while Strauss was here, a
 number of ladies and gentlemen, know-
 ing what a sick man he was, sent him a
 large bouquet of choice flowers.
 Strauss and Heck have no doubt
 proved themselves a "pair of in-
 grates."

TO WOMEN WHO DOUBT.

Every Suffering Woman Should Read this
 Letter and Be Convinced that Lydia E.
 Pinkham's Vegetable Compound Does
 Cure Female Weakness.

"I have been troubled with female
 weakness in its worst form for
 about ten years. I had leucorrhoea
 and was so weak that I could not
 do my household work. I also had fail-
 ing of the womb and inflammation of
 the womb and ovaries
 and at menstrual
 periods I suffered ter-
 ribly. At times my
 back would ache
 very hard. I could
 not do anything
 or do any heavy
 work; was not able
 to stand on my feet.
 My husband spent
 hundreds of dollars
 for doctors but
 they did me no
 good. After a time
 I concluded to try your medicine and
 I can truly say it does all that you
 claim for it to do.

Ten bottles of Lydia E. Pinkham's
 Vegetable Compound and seven pack-
 ets of Santal Wash have made a
 new woman of me. I have had no
 more trouble since taking the fifth
 bottle. I weigh more than I have in
 years; can do all my own household
 work, sleep well, have a good appetite
 and now feel that life is worth living.
 I owe all to Lydia E. Pinkham's Vegeta-
 ble Compound. I feel that it has saved
 my life and would not be without it for
 anything. I am always glad to recom-
 mend your medicine to all my sex, for I
 know if they follow your directions,
 they will be cured." Mrs. A. K. A. K.

 Prof. Rosa T. Tyler, of Chicago, vice

 speaking of Chamberlain's Cough Rem-

 cold this winter which threatened to
 run into pneumonia. I tried different
 remedies but I seemed to grow worse
 and the medicine upset my stomach. A
 friend advised me to try Chamberlain's
 Cough Remedy, and I found it
 was pleasant to take and it relieved me
 at once. I am now entirely re-
 covered, saved a doctor's bill, time and
 suffering, and I will never be without
 this splendid medicine again." For

 coveries in medicine. It quickly cures
 coughs, colds and all lung troubles of
 the severest nature, removing as it
 does, the cause of the affection and
 leaving the parts in a strong and heal-

 tal medicine, but has stood the test of
 years, giving satisfaction in every case,
 which its rapidly increasing sale every-
 where confirms. Two million bottles
 sold annually. Boschee's German syrup
 was introduced in the United States in

 village in the civilized world. Three

Bland Board of Trade Working in Right Direction.

LIST YOUR PROPERTIES.

From the Bland Herald.

There was a fair sized gathering of representative citizens at the meeting of the board of trade in the building next to the Exchange hotel last Tuesday evening. All officers were present except Corresponding Secretary Ad H. Wreath, who was sick with a gripe at his home in South Blvd. A great deal of interest was manifested by those present and a considerable amount of new business was transacted.

Minutes of the previous meeting were read and after making a few minor alterations were approved.

It was decided to remit the fines of all absentees of the special meeting on the evening of January 3.

The committee on mines and information were authorized to purchase the needed supplies for their office, and directed to extend invitations to all mine and prospect owners to list their properties with this committee. Mines owned by the association will be listed free of charge. Non-members will be charged a nominal fee of one dollar for each mine listed.

Members of the board of trade, J. G. Creager, James D. May and John O'Connor were appointed by the president to consult with the members of the Bland Mining company with a view to ascertaining whether or not some arrangement could be made by which the Bland reduction works may be put into operation by some company and to report on same at the next regular meeting.

B. H. Shaw, who was one of the committee appointed at the previous meeting to confer with the local merchants regarding a method of advertising the association and district, reported that all were heartily in favor of adopting some new and up to date plan. The committee was then instructed to invent an appropriate design and to submit the same to the board of trade next meeting for their consideration.

The secretary was then instructed to post meeting notices in prominent places two days prior to the date of the meeting.

Upon motion of W. E. Myers a committee of three were selected to confer with the Cochiti Gold Mining company and the honorable board of county commissioners with reference to the construction of a new Bland-Albuquerque road. The committee named for this work are Messrs. W. E. Myers, B. H. Shaw and G. S. Madden.

No further business was before the assembly the meeting then adjourned until Tuesday evening, February 6th.

LIST YOUR PROPERTIES.

The committee on listing of mines for the Cochiti Board of Trade and Mining Bureau, is prepared to catalogue the mines of the district. Those desiring to have their mines listed on the board of trade will send in a complete description of the property, giving—

1. Location and distance from Bland and name of claim.

2. Width of vein at outcrop and length of outcrop, also strike, dip and character of quartz and country rock.

3. Value of ore as indicated by assays. (Don't exaggerate.)

4. Amount of character of development work done, giving approximate amount of ore in sight and its value per ton.

5. Water and timber available.

6. Description of roads and trails to mine or vicinity.

7. Your price.

Members of the board of trade are entitled to have their mines listed without charge. Outsiders and non-members will be charged a nominal sum of \$1 which must accompany the description when sent in.

A Life and Death Fight.

Mr. W. A. Hines, of Manchester, la., writing of his almost miraculous escape from death, says: "Exposure after exposure, induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost \$5.00 a bottle. Hundreds have used it on my recommendation, and all say it never fails to cure throat, chest and lung troubles." Regular size 50c and \$1.00. Trial bottles free at J. H. O'Reilly & Co.'s drug store.

When threatened by pneumonia or any other lung trouble, prompt relief is necessary, as it is dangerous to delay. We would suggest that One Minute Cough Cure be taken as soon as indications of having taken cold are noticed. It cures quickly and its early use prevents consumption. WORK COMMENCED.

The Rock Island Extension in White Oaks Country.

THE RICH MINING DISTRICTS.

The much talked of El Paso and Rock Island extension has at last actually begun, says the White Oaks Eagle. Surveys on the Rock Island and have been completed and contractors have been throwing dirt for a week past. Work is now under way at the yards at Carrizozo, and grade stakes are being set on the main line and the work vigorously pushed in every direction.

Chief Engineer Sumner says that the road will be built as fast as money, men and materials can do it, and that the entire work should be completed in less than a year.

White Oaks, while not right on the main line will be greatly benefited by the extension, and will have a freight and passenger depot on the line of the extension at some point near Manoheta, which will put us in about five miles or possibly within three and a half miles of the road. We will also be the first mining camp on the line from Liberal, Kansas, and will be in position to command the attention of capital, looking for mining investment. Six to ten hours will put passengers in here from Liberal and Kansas City and give us quick communication with the northeast.

Our mining interests are continually working up and more capital is being expended now than at any time during the camp's history. The South Homestake company is getting its stamp mill in shape to begin milling and all arrangements have been completed by the Lady Godiva people to build a mill for that property; also the Compromise company is making tests of ore to determine what kind of machinery is to be used in its treatment.

All these new enterprises, with the Old Ad, which still leads in gold production any other property in the territory, augurs a prosperous year for White Oaks, and will be certainly result in the launching of other enterprises, during the year. A demand is going to come for our coal, building stone, marble, iron ore, clay, and the owners of copper in the lone mountain district will be in easy reach of transportation.

The Gallina and Jicarilla districts will be seen to be rich in gold and silver because of their newly acquired railroad advantages, and shipments will begin from both places as soon as the road is ready to receive their business.

Quarantine Forestry.

The Santa Fe train was loaded to the guards yesterday with people coming to the carnival from the Rio Grande valley. Various causes conspired to make the train late. Most of these were unavoidable, but when the delay was increased about an hour, in order that the quarantine force might get in its clumsy and ridiculous work, patience completely played out. For one hour were over 400 people held away from an entertainment they were paying the railroad company to take them to see the fair. The delay was caused through the crowded trains, and make these neighbors of El Paso swear that they had not come from Chinatown, in San Francisco.

Denver, Jan. 15.—The delay in the train that left Albuquerque early Thursday morning, and the Citizens representative, like the others on the train, had to swear that "he had not been in Chinatown in San Francisco for fifteen days past."
