You Want to See the County Exhibits; Then You Will Know What New Mexico Is Doing!

ALBUQUERQUE MORNING JOURNAL

ALBUQUERQUE, NEW MEXICO, FRIDAY, OCTOBER 15, 1915.

ALLIES ARE ATTACKING THE TENTIONS OF ALL FRENCHS WITH GREATEST VIGOR

ALL ATTENDANCE RECORDS BROKEN ON ALBUQUERQUE DAY AT THE FAIR

Twelve Thousand People Pour Through Gates at Traction Park and Witness Splendid Amusement Program.

COUNTY TENT CROWDED TO CAPACITY ALL DAY

Climax of New Mexico's Greatest Exposition Is Reached; Fireworks at Night Show Get Wild Applause.

The gate receipts yesterday, and last night, not including any part of advance sales of day and night season tickets, were \$100 more than the entire gate receipts of last year's fair week.

The record for attendance at any gathering ever held in New Mexico was broken yesterday when more than 12,000 people crowded through the gates of the fairgrounds at Traction park to see the best exposition ever held in the southwest and to witness one of the most complete and excellent amusement programs ever provided at any fair anywhere.

The weather man threatened dire things, but he didn't make good on his threats. About 11 o'clock in the morning clouds began to gather in the sky and the chill feeling that always precedes a downpour was evident in the atmosphere. The prediction that a hard rain was at hand was heard on every hand.

The enthusiasm of the Albuquerque people and the thousands of visitors to the city, however, could not be daunted by the gloomy sky, and even when a few scattering drops of rain began to fall there was nobody who thought for an instant of getting indoors or of abandoning the intention to go to the fairgrounds. There was "fun" everywhere, and nobody seemed to care whether it rained or not.

Amusement beginning. The day began auspiciously with the greatest parade ever seen in the southwest. Col. John Borrdale, chairman of the industrial parade committee, and a grand marshal of the event, had done his work well and was ready to make good on every promise that he had uttered. Between two solid masses of humanity that lined the sidewalks and edges of the streets along the whole parade route, the parade was a sight to see. The parade took its way while cheers and shouts from the crowd showed the hearty approval felt of the work that had been done.

The success of the parade put everybody in a good humor and whetted the appetites of the people for more of the same sort of things. At noon the retail stores closed their doors and the employees began to get out. The streets were filled to their utmost capacity, while the fitness lumbered out Central avenue with people hanging to railing boards and jeopardizing life and limb by clambering on the space left enough to accommodate one foot.

Stands Are Closed. At 5 o'clock the grandstand and bleachers were so densely crowded that President Putney, fearing that an accident might occur from overcrowding, ordered that no more tickets be sold. Standing room had already been exhausted, and the latecomers were compelled to stand in the open space alongside the stands in order to see the amusement features. The boxes presented a brilliant scene with two or three hundred of the most prominent men and women in the state occupying seats and viewing the races and other attractions.

Out on the grounds and in the tents there were fully as many people as there were in the stands. The big county tent was visited by more people yesterday than on any day of the fair. All day long the aisles of the tent were jammed, and it was with difficulty that visitors could make their way through the mass of humanity that impeded their progress. The Brundage carnival show enjoyed the busiest day that they have had yet. The many attractions were backed from noon until late at night, and it was a jolly, good-natured crowd that filled in and out of the tent containing the many excellent attractions embodied in this combination.

THE WEATHER

WEATHER FORECAST.

Washington, Oct. 14.—New Mexico, Friday, rain. Saturday, unsettled, probably rain, cooler.

LOCAL WEATHER REPORT.

For twenty-four hours ending at 6 p. m. yesterday: Maximum temperature, 61 degrees; minimum temperature, 39 degrees; 21 degrees at 6 p. m. yesterday, 56 degrees. Northwest winds, cloudy, trace of rain.

SOCORRO STANDS FORTH AS MINERAL COUNTY

Socorro county put all her eggs in one basket when she decided to come up to Albuquerque and show the people what she has. She didn't have time to get together the kind of an agricultural exhibit that would do her full credit, so she confined herself to Socorro, a veteran mining man who has spent the best years of his life among her rugged mountains in charge of the display.

Mr. Leson and Socorro county have done fairly well, thank you. They managed to pull down first prize in gold, lead and zinc and second in silver and copper, and, better still, to take first prize for the general mineral exhibit. The booth in which these minerals are displayed is clean, bright and well arranged. It has so arranged the specimens that no matter on which side you approach you are sure to be attracted and pleased. A big chunk of zinc ore weighing 2,600 pounds, running 32 per cent of metal, is one of our conspicuous features of the exhibit.

UNION COUNTY RESOURCES ATTRACTIVELY DISPLAYED

Union county arrived a little late with her exhibit at the fair, but the attractiveness of her booth in the county tent fully compensated for the delay to which she was subjected. C. P. Taylor, of Clayton, is in charge of the booth.

Corn that yields from forty to fifty bushels to the acre is one of the main features of this exhibit. Other grains shown are wheat, oats, rye, barley, millet, alfalfa, broom corn, Sudan grass, Kaffir corn, maize and corn. In vegetables there are some splendid ones, pumpkins, squash, cabbage, cucumbers, celery, beets, turnips and sweet potatoes. The fruit display consists mainly of apples and peaches, a number of the specimens of both being shown.

An educational exhibit from the Clayton public schools is exceedingly attractive, and a conspicuous feature of the general exhibit is a magnificent silver-mounted saddle made by Max Gonzalez, of Clayton, which is held at a price of \$125.

DRY FARMING SUCCESSFUL IN GUADALUPE COUNTY

The exhibit of Guadalupe county, which is in charge of C. W. Holliday and William Chapman, is a striking demonstration of what can be accomplished by scientific dry farming methods. The agricultural display is one of the best in the fair, and the fruits shown compare favorably with any on exhibit at the fair.

Corn in variety, with maize, kaffir corn, sorghum, Sudan grass, alfalfa, beans, chile and pumpkins are arranged in a most attractive manner in this booth, while apples, peaches and cantaloupes are exhibited to show the possibilities of the county in fruit-growing. The display of preserved fruits and vegetables is especially fine.

MORA COUNTY ONE OF THE RICHEST IN STATE

That Mora county is one of the most fertile in all New Mexico is the impression gained from the splendid exhibit made by that county at the fair.

Apples and pears of the finest quality make up the first display, eight varieties having been awarded the county on its apple show. The vegetable display, consisting of cabbages, pumpkins, cucumbers, squash, onions, turnips and beets, is especially attractive.

Wheat, barley, corn, beans and peas are shown. Photographs of scenes in Mora county, which surround the exhibit, are decidedly effective.

A display of free gold from Mora county is included in the exhibit from Mora. This comes from a rich mine which is controlled by Albuquerque capital, J. D. Short is in charge of the gold display, while C. F. Strong, of Mora, has charge of the Mora county agricultural exhibit.

COLORADO ABUNDANT IN MINERALS AND AGRICULTURE

It is a varied and exceedingly interesting exhibit that has been gathered by the commission in charge of the Colorado county exhibit. One of the richest mineral counties in the state, it is only natural that a good showing should be made along this line, but this is equalled by the agricultural display made.

Corn from the Dawson fields and timber from the rich forests of northern New Mexico play a conspicuous part in the exhibit. Apples, pears, white crabapples and other fruits are shown, while in the line of vegetables there are exceedingly fine pumpkins, squash, turnips, beets, carrots and parsnips. The grain collection includes wheat, maize, barley, wheat, oats, corn, rye and rye. Thirty-five varieties of grasses are shown.

GREY CONFINES STATEMENT TO DIPLOMACY IN BALKAN STATES

Eagerly Awaited Announcement Deals More With Statecraft Than Arms as Applied to Eastern Muddle.

FRIENDSHIP OF RUMANIA RETAINED

Land of the Lion Key-piece in Puzzle Disclosed by English Foreign Secretary Before House of Commons.

London, Oct. 14 (4:12 p. m.)—The diplomatic, rather than the military side of the situation, was the subject of Sir Edward Grey's eagerly awaited statement relative to the Balkan situation which he delivered today to a crowded house of commons.

"I propose to confine myself," the British foreign secretary said, "to a resume of our diplomatic objects since the war. At the outset, we desired that the war should not spread and in common with our allies we assured Turkey that if she remained neutral, Turkey and Turkey's territory should not suffer. The situation was completely changed by the entrance of Turkey into the war and all obligations on the part of the allies then ceased.

"We and our allies then concentrated upon securing an agreement among the Balkan states and we used all our influence to secure an accord. Unfortunately, the feeling in the Balkans is not one of union, but of division. It was clear nothing but a decisive, preponderant advantage for the allies would enable us to secure a policy of union.

Germans Outbid Allies. "We were given to understand in the course of the negotiations that, except with regard to Thrace, the central powers had offered to Bulgaria more to secure her neutrality than the allies could offer in return. Bulgaria, which had been declared to be neutral, declared war on the central powers at the expense of her neighbors and without any corresponding advantage to them.

"We have remained throughout on friendly relations with Rumania, who has favored the policy of a Balkan union.

"It is the policy of bringing about a Balkan war that the sovereigns and governments of Germany, Austria-Hungary and Bulgaria, the sovereigns and the governments have succeeded in carrying into effect. We were given to understand that in order to secure a Balkan union there were certain concessions Bulgaria would require, especially in Thrace and Macedonia.

Balkan Co-operation Necessary.

"The allies were ready to do all in their power to secure peace for Bulgaria, but to obtain the consent of Serbia and Greece, it was an essential preliminary that Bulgaria take sides with the allies. Bulgaria, the sovereigns and the governments have succeeded in carrying into effect. We were given to understand that in order to secure a Balkan union there were certain concessions Bulgaria would require, especially in Thrace and Macedonia.

"It will be enough to say that these reasonable hopes and aspirations were, in the main, founded upon opportunity to peoples of the same race, of the same sentiments and the same religion to join themselves in a great common cause, most akin to them."

Premier Asquith in the house of commons declined to grant a day for debate on Sir Edward Grey's statement on the Balkan situation. In the house of lords the Marquis of Crewe made a statement similar to that of the foreign secretary, and concluded:

"This attack on Serbia will only make sterner and fiercer the determination of the allies to carry the war through to a definite victory at whatever cost. Nothing has occurred in any part of the world to weaken that resolution and we will maintain it."

Miner Urges Withdrawal.

During the discussion which followed the Marquis of Crewe's statement, Viscount Milner suggested the withdrawal of the troops from Gallipoli and their transfer to some other theater of the war.

Lord Lansdowne, in reply, said it was impossible for any member of the government to say that the troops would continue in the Dardanelles operations or would be withdrawn from them. It would be to forfeit the advantage which the allies had gained by the withdrawal of the troops from Gallipoli and their transfer to some other theater of the war.

VAST BRITISH OFFENSIVE REPELLED, SAY GERMANS

Berlin, Oct. 14.—The official announcement regarding operations on

the western front follows: "While enemy movements were shell-like the most near Western front (Belgium) and the artillery of the enemy was shelling our positions to the north of Ypres, without success, the British began an attack behind clouds of smoke and was over almost the entire front between Ypres and Lens. This attack failed completely. At several places the smoke clouds flooded into the trenches of the enemy. Only at small points to the northeast and east of Vermelles were the British able to obtain footing in our first line trenches. They have since been driven out for the most part with hand grenades.

Five attacks of the enemy made without the use of smoke clouds, but with strong forces, against the positions west of Bulch were repulsed with severe loss to the attackers. South of Arras two machine guns were taken from the enemy in a counter-attack. After the examination of the position known as Kleven Nester, which the French had captured on the heights east of Souchez, 100 prisoners remained in our hands.

"In the Champagne the French continued their attack on both sides of Tahure with the most extreme bitterness. Five attacks in the south and two in the north were repulsed. South of Tahure road broke down with a severe loss to the attackers. Attempts of night attacks were quelled at the very outset by our artillery fire.

"In the Vosges the French attempted to recapture the positions which they lost on the Serokmannelle. Their attack broke down in front of our entanglements.

"Eastern theater. Army of Field Marshal von Hindenburg—West and southwest of Ilnow we drove the enemy out of another position and took 600 prisoners and three machine guns. Russian attacks were repulsed. Armies of Princes Leopold and Alexander von Linsingen. There is nothing to report.

"The troops under General Count Bulgar captured Hainaut, south of Boulogne (in eastern Galicia) and drove the Russians back over the Drava.

"Serbian front. Our troops continued to advance south of Belgrade. The enemy was driven back in the west and north and a few days ago the strips river, the Germans have counter-attacked and driven the Russians back across the stream.

Further north along the Pripet and in the region of Ivankiv, the Germans claim further success.

The march of the Germans and Austrians through Serbia continues to go on at a slow pace. The Russians everywhere are accepting the case of battle and tactically restraining the Balkan attacks.

The Bulgarians have declared war against Serbia.

The French premier has announced to the senate that he probably will take part in the Balkan operations while the British secretary for foreign affairs is authorized for the statement that so soon as Russian troops are available they will co-operate with the allies in the Balkans.

Respecting the attitude of Greece, King Constantine declared:

"It is my duty to preserve my country from the danger and destruction that would result from a Balkan conflict. I hope to do this at all hazards—if it is possible."

Conference Committee Expected to Leave Clifton to Meet Representatives of Employers in El Paso.

El Paso, Tex., Oct. 14.—A conference committee of five striking copper miners, escorted by Sheriff J. G. Cook and Adjutant General Harris, was expected to start tonight from Clifton for El Paso to talk peace terms with the mine management.

Later today the managers (telegraphed Sheriff Cook that they had selected five acceptable representatives from the fifteen names ratified yesterday by the strikers in their meeting. The conference accepted are: J. Hollingsworth, J. S. Hughes, Rudolph Balaurov, Rufus Garcia and Henry Daly.

The managers in their telegram said they would defer the traveling expenses of the delegates on their way to El Paso. The strikers' committee was expected to arrive tomorrow morning and it was planned the conference would begin at once.

There was a possibility that several days might be spent in talking over terms of settlement. The strikers' committee was expected to arrive tomorrow morning and it was planned the conference would begin at once.

Italy Requests Rumania to Allow Passage of Slav Troops to Serbia

Summary of War News of Yesterday

Fifty-five persons were killed and 114 injured in the battle dropped by the Zepplin which landed in London Wednesday night. Fifteen of the killed and thirteen of the wounded were soldiers. The remainder were civilians—men, women and children, according to the British home office. The English people are greatly wrought up over the attack and are demanding reprisals.

Berlin says of this raid—the most serious made so far in casualties are concerned—that in addition to the London attack, the town of Wuppertal, where the great British arsenal is situated and the water works of Rumania were heavily bombarded and that great fires resulted.

The British have been engaged in a new and heavy attack on the German positions around Hattich, one of the important sectors between the Tassan and Arras. One of the points of the battle was the Hattich railway which was taken from the Germans some time ago and was partly recaptured by them. Provided by a bombardment and under cover of a cloud of smoke, the British sent 3,000 of their soldiers to the Hattich railway. In addition, the trenches behind the Yerno-Hattich road and to the southwest of the town, as well as the main trench of the Hattich railway, were captured. The British, however, were unable to hold the thousand yards of trenches, owing to the vicious artillery fire in which they were subjected.

Along the remainder of the front there has been severely any fighting except artillery duels but on the eastern front to the north of the Bukovina front, where the Russians have crossed the strip river, the Germans have counter-attacked and driven the Russians back across the stream.

Further north along the Pripet and in the region of Ivankiv, the Germans claim further success.

The march of the Germans and Austrians through Serbia continues to go on at a slow pace. The Russians everywhere are accepting the case of battle and tactically restraining the Balkan attacks.

The Bulgarians have declared war against Serbia.

RUSSIANS ARE PRESSING GERMANS ALONG WHOLE LINE BY AN EXCEEDINGLY STRONG COUNTER-ATTACK

FRENCH AND BRITISH FORCES ARE RELENTLESSLY SHELLING TRENCHES IN WESTERN ZONE

Operations in Dardanelles Become Active and English Submarines in North Sea Are Destroying Kaiser's Merchant Vessels Plying Between Fatherland and Sweden With Much Needed Cargoes of Ore; Bulgaria Makes No Headway Toward Cutting Railroad Between Nish and Salonika, Having Crossed Border as Much as One Mile Only at One Point; Diplomatic Questions Relating to Balkans Are Discussed by Sir Edward Grey in Parliament and by Premier Viviani in Chamber of Deputies, but Definite Information Is Withheld From Public.

London, Oct. 14 (9:55 p. m.)—There appears to be a general attack on all the German fronts. The British and French, Berlin relates, have attacked in Flanders and Champagne, while the German official report of the campaign in Russia is a record of counter-attacks against the Russians, who are endeavoring to regain the initiative.

Even the Belgian coast is not excepted, British monitors having again been bombarding the German positions along this coast. British submarines in the Baltic thus far have sunk ten German ore-carrying steamers and have completely paralyzed the ore trade between Sweden and Germany. This has caused some dissatisfaction in Sweden, and it is charged two steamers were sunk within Swedish territorial waters. But the British assert they have been studiously observing international laws and have been sinking only German steamers.

Offensive in Dardanelles. It was also reported here that the allies have begun an offensive in the Dardanelles to keep the Turks busy. The Russians are continuing their attacks in Galicia in an effort to clear the Austrians from the Rumanian frontier and prevent them from sending aid further reinforcements against Serbia.

Sir Edward Grey, the British foreign secretary, made a long statement in the house of commons today on the situation in the Balkans. He said that the British government was in a position to offer the knowledge of its public and failed to satisfy entirely as to the progress of the Anglo-French expedition land of Salonika. He did say, however, that British troops would co-operate with the allies as soon as they were available.

Italy May Come In. The French premier, M. Viviani, had just been speaking when the news of the Italian declaration of war against Bulgaria was received. The Italian declaration was made at a meeting of the Italian cabinet in Rome. The Italian declaration was made at a meeting of the Italian cabinet in Rome.

There is naturally much speculation as to how Italian and French assistance will be afforded. Italy has a large number of troops available and the news of its declaration of war is a decided asset, but Russia is handicapped in this respect, and there is an indication here to believe a report from Rome that Petrograd has asked Rumania to allow Russian troops to pass through her territory on the way to Italy.

Would Involve Rumania. To grant such a request would be tantamount to a definite alliance with the allies, and would doubtless result in Austria-German troops attacking the Rumanian front. This, it is thought, might happen, as Germany has already made a large number of troops available and the news of its declaration of war is a decided asset, but Russia is handicapped in this respect, and there is an indication here to believe a report from Rome that Petrograd has asked Rumania to allow Russian troops to pass through her territory on the way to Italy.

Strain Resistance in Balkans. These diplomatic questions are not delaying the military operations. The Austro-German and Bulgarian attacks on Serbia are proceeding apace. They are, however, meeting with stern resistance, and although under constant attack since October 5, the Serbians are giving ground only 100 to 150 feet. The extent of the Bulgarian invasion up to the present, according to a dispatch from Nish, consists of tomorrow's session.

Twice during the late afternoon session the jury box had been similar. It filed, but counsel for the government and the defense each exercised the examination each time of another witness. Each side has eleven more preliminary challenges and the indications tonight were that others would be taken tomorrow. The jury box was taken tomorrow.

BRIGHTER CHILDREN

Children are probably brighter to-day than a generation ago—but are they stronger? That's a grave question. So many pinched faces, dulled eyes and languid feelings make us wonder if they will ever grow into robust, healthy men and women.

If your children catch colds easily, are tired when rising, lack healthy color, or find studies difficult, give them Scott's Emulsion for one month to enrich their blood and restore the body-forces to healthy action.

Scott's Emulsion is used in private schools. It is not a "patent medicine," simply a highly concentrated oil-food, without alcohol or harmful drugs. It cannot harm; it improves blood; it benefits lungs and strengthens the system. Your druggist has it—refuse substitutes.

Scott & Bower, Bloomfield, N. J.

CARPENTERS GET FIRST PRIZE ON PARADE DISPLAY

Trades Unionists Given Big Premium by Judges of Industrial Procession; Many Creditable Entries.

The Albuquerque local of the Carpenters' union yesterday was given first prize for its display in the industrial parade, which has been a feature of state fairs on Albuquerque day from time immemorial. Other prizes awarded by the fair commission were as follows:

Best general display: First prize, Carpenters' union; second prize, Wright's Trading post.

Best original display: First prize, John Heaton (coal company); second prize, Charles H. Hild.

Comical display: First prize, W. C. T. U.; second prize, Butler Auto company.

As a general display, the judges made special mention of the entry by the Indian society representing Mt. Vesuvius in action.

The judges who made the awards were the following: H. O. Bureau, C. M. Hayne, A. N. White, J. S. Hull and E. L. Medler.

Parade Great Success.

The parade was the greatest success of any affair of its kind ever given in the state and probably in the whole southwest. To give a detailed description of all the displays would require more than fill a Sunday edition. Chief of Police Thomas McMillin and City Clerk Tom Hughes drove ahead to make sure of the right of way for the big procession.

Everybody was glad to make way for the Roswell cadets in their dress uniforms and their position well at the head of the line started things off with a bang.

The military bearing of the boys might be compared justly to the West Pointers' appearance in the last great inaugural parade at Washington, so perfectly did the cadets hold their gait and truncheon well at the head of the line. Two machine guns mounted on motorcycles put a business-like finish on the general fighting trim of the Pecan valley institution.

Fire Department in Line.

It was a fortunate thing there were no fires during parade time, for the Albuquerque fire department was in line with all its equipment, looking fit to extinguish a volcano. A number of decorated automobiles followed the fire fighters, and those of Alfred Grunfeld and C. T. French contained human decorations of the prettiest girls the eyes could wish to lean upon.

The Grunfeld auto was very effective in carrying out the victory scheme of decorations, even the hats of the young ladies being of appropriate color and design.

A float of university representa-

ONLY SIXTEEN, GIRL VERY SICK

Tells How She Was Made Well by Lydia E. Pinkham's Vegetable Compound.

New Orleans, La.—"I take pleasure in writing these lines to express my gratitude to you. I am only 16 years old and work in a tobacco factory. I have been a very sick girl but I have improved wonderfully since taking Lydia E. Pinkham's Vegetable Compound and am now looking fine and feeling a thousand times better."

—Miss AMELIA JAQUILLARD, 3861 Tchoupitoulas St., New Orleans, La.

St. Clair, Pa.—"My mother was alarmed because I was troubled with suppression and had pains in my back and side, and severe headaches. I had pimples on my face, my complexion was sallow, my sleep was disturbed, I had nervous spells, was very tired and had no ambition. Lydia E. Pinkham's Vegetable Compound has worked like a charm in my case and has regulated me. I worked in a mill among hundreds of girls and have recommended your medicine to many of them."

—Miss ESTELLA MAGUIRE, 110 Thwing St., St. Clair, Pa.

There is nothing that teaches more than experience. Therefore, such letters from girls who have suffered and were restored to health by Lydia E. Pinkham's Vegetable Compound should be a lesson to others. The same remedy is within reach of all.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

ROSWELL CADETS SCORE DISTINCT VICTORY AT FAIR

Lads From Military Institute Attract Favorable Comment From All Visitors to State Exposition.

With as big a fair and as many interesting features in it as the New Mexico state fair, it is difficult to pick out a single feature as the leader in any day's events, as a general rule, but this task was an easy one yesterday. The cadets from the New Mexico Military Institute, who appeared in dress uniform for the first time in the exposition, and who demonstrated how quickly they could put a pair of machine guns into action, and what those guns could do, were the salient feature yesterday. They had the attention of the crowd every minute, and as they put on several exhibitions beside those mentioned, that was a good share of the time.

The cadets are an important feature of the fair, from an educational standpoint, and it might be said that they are getting a considerable amount of education themselves from attending.

Importance of School Realized.

New Mexico people are being wakened up by the cadets' display in the fact that the state has a military institute.

The W. C. T. U. had a comical display of their favorite conveyance, the water wagon, which a lad labeled New Mexico vainly tried to mount.

Indians from Wright's curio store added the picturesque frontier touch without which many eastern visitors would be disappointed. Also among the business houses that had displays were Armour & Co., Albuquerque Lumber company, Gross, Kelly Co., Swift & Co., and the Charles H. Hild Co., the last having a unique replica of its local store mounted on a float.

Girls' Band Scores Hit.

Of the bands that did good service in keeping the procession at a lively step, the Girls' band from Clovis deserves a lot of praise. The girls were a good advertisement also for the suffrage cause, for they made the women musicians in line work hard to equal their performance.

Bands from the Pueblo Bonito and the Santa Fe shops were a great addition to the parade, and the latter band was followed by a strong delegation of the apprentices of the local Santa Fe railway shops.

Some fine horses were ridden in the parade, Miss Thelma London handling her mount with special deftness. The forestry service had a splendid mounted representation.

Among the most original of the displays was that of Mount Vesuvius in action, entered by the Italian society. A scuba float, with Miss Lion Barth godmother, came in also for much praise on account of its originality.

The Butler Auto company had a comical display of wrecking machinery, which was aptly labeled "Jets."

An Albuquerque foundry, Yuba Traction company and the Avery Traction and Power Machinery company displayed machinery showing their respective commercial firms.

Woman's suffrage was advocated by the display of a carriage decorated with the colors of the Woman's Equal suffrage association. The South Spring orchard used some native apples in the decorative scheme of their display.

MRS. CLARK'S FUNERAL IS LARGELY ATTENDED

SPECIAL DISPATCH TO MORNING JOURNAL

East Las Vegas, N. M., Oct. 14.—The funeral of Mrs. John S. Clark, wife of State Senator Clark, was held this afternoon at 2:30 o'clock.

The Rev. J. S. Moore, pastor of St. Paul's Memorial Episcopal church, had charge of the services, which were largely attended.

Mrs. Clark had been a resident of Las Vegas since 1814, when she came here with her husband. Her maiden name was Nannie Clark Watson, and she was the daughter of Dr. and Mrs. A. J. Watson, of Mayfield, Ky., where she was born in October, 1862. She married to John S. Clark in 1881.

In western Tennessee, Mrs. Clark is survived by her husband and two sons, Herbert W. Clark, of this city, prominent in republican politics and a member of the state tax commission, and Lawrence D. Clark, of Bisco, Ariz.

JUSTICE NOT ALWAYS ON LEADEN HEEL, IS SHOWN BY M'CLURE

SPECIAL CORRESPONDENCE TO MORNING JOURNAL

Clovis, N. M., Oct. 14.—That justice is not always on the leaden heel was exemplified here Tuesday evening when Judge John T. McClure of the district court sentenced Benjamin E. Davis to serve not less than one year nor more than fifteen months in the state penitentiary for giving a half pint bottle of whiskey to prisoners confined in the county jail.

Judge McClure told Davis that he was disposed to be lenient with him for the reason that he had pleaded guilty and thus saved the county the expense of a trial.

Champ Clark Speaks at Clayton.

Clayton, N. M., Oct. 14.—Champ Clark, speaker of the house of representatives, made a brief address here Saturday during a ten-minute stop on his way to Amarillo, Tex.

The speaker was met by a large body of representative citizens with a band. All the school children and teachers were present to hear the address. Mr. Clark is to lecture in Amarillo.

"JUST THE THING."

A tailor's work is sedentary. That is why most tailors suffer from constipation. G. W. Roberson, Wichita Falls, Tex., says: "I find Foley's Cathartic Tablets the most delicate, cleansing cathartic I have ever taken. They are just the thing. They keep the stomach sweet, the liver active, drive away biliousness, bloated, tired feeling, of clogged bowels, promote and effective, without griping or pain. Stout people praise them for the light, free feeling they give. Sold everywhere."

ROSWELL CADETS SCORE DISTINCT VICTORY AT FAIR

Lads From Military Institute Attract Favorable Comment From All Visitors to State Exposition.

With as big a fair and as many interesting features in it as the New Mexico state fair, it is difficult to pick out a single feature as the leader in any day's events, as a general rule, but this task was an easy one yesterday. The cadets from the New Mexico Military Institute, who appeared in dress uniform for the first time in the exposition, and who demonstrated how quickly they could put a pair of machine guns into action, and what those guns could do, were the salient feature yesterday. They had the attention of the crowd every minute, and as they put on several exhibitions beside those mentioned, that was a good share of the time.

The cadets are an important feature of the fair, from an educational standpoint, and it might be said that they are getting a considerable amount of education themselves from attending.

Importance of School Realized.

New Mexico people are being wakened up by the cadets' display in the fact that the state has a military institute.

The W. C. T. U. had a comical display of their favorite conveyance, the water wagon, which a lad labeled New Mexico vainly tried to mount.

Indians from Wright's curio store added the picturesque frontier touch without which many eastern visitors would be disappointed. Also among the business houses that had displays were Armour & Co., Albuquerque Lumber company, Gross, Kelly Co., Swift & Co., and the Charles H. Hild Co., the last having a unique replica of its local store mounted on a float.

Girls' Band Scores Hit.

Of the bands that did good service in keeping the procession at a lively step, the Girls' band from Clovis deserves a lot of praise. The girls were a good advertisement also for the suffrage cause, for they made the women musicians in line work hard to equal their performance.

Bands from the Pueblo Bonito and the Santa Fe shops were a great addition to the parade, and the latter band was followed by a strong delegation of the apprentices of the local Santa Fe railway shops.

Some fine horses were ridden in the parade, Miss Thelma London handling her mount with special deftness. The forestry service had a splendid mounted representation.

Among the most original of the displays was that of Mount Vesuvius in action, entered by the Italian society. A scuba float, with Miss Lion Barth godmother, came in also for much praise on account of its originality.

The Butler Auto company had a comical display of wrecking machinery, which was aptly labeled "Jets."

An Albuquerque foundry, Yuba Traction company and the Avery Traction and Power Machinery company displayed machinery showing their respective commercial firms.

Woman's suffrage was advocated by the display of a carriage decorated with the colors of the Woman's Equal suffrage association. The South Spring orchard used some native apples in the decorative scheme of their display.

MRS. CLARK'S FUNERAL IS LARGELY ATTENDED

SPECIAL DISPATCH TO MORNING JOURNAL

East Las Vegas, N. M., Oct. 14.—The funeral of Mrs. John S. Clark, wife of State Senator Clark, was held this afternoon at 2:30 o'clock.

The Rev. J. S. Moore, pastor of St. Paul's Memorial Episcopal church, had charge of the services, which were largely attended.

Mrs. Clark had been a resident of Las Vegas since 1814, when she came here with her husband. Her maiden name was Nannie Clark Watson, and she was the daughter of Dr. and Mrs. A. J. Watson, of Mayfield, Ky., where she was born in October, 1862. She married to John S. Clark in 1881.

In western Tennessee, Mrs. Clark is survived by her husband and two sons, Herbert W. Clark, of this city, prominent in republican politics and a member of the state tax commission, and Lawrence D. Clark, of Bisco, Ariz.

JUSTICE NOT ALWAYS ON LEADEN HEEL, IS SHOWN BY M'CLURE

SPECIAL CORRESPONDENCE TO MORNING JOURNAL

Clovis, N. M., Oct. 14.—That justice is not always on the leaden heel was exemplified here Tuesday evening when Judge John T. McClure of the district court sentenced Benjamin E. Davis to serve not less than one year nor more than fifteen months in the state penitentiary for giving a half pint bottle of whiskey to prisoners confined in the county jail.

Judge McClure told Davis that he was disposed to be lenient with him for the reason that he had pleaded guilty and thus saved the county the expense of a trial.

Champ Clark Speaks at Clayton.

Clayton, N. M., Oct. 14.—Champ Clark, speaker of the house of representatives, made a brief address here Saturday during a ten-minute stop on his way to Amarillo, Tex.

The speaker was met by a large body of representative citizens with a band. All the school children and teachers were present to hear the address. Mr. Clark is to lecture in Amarillo.

"JUST THE THING."

A tailor's work is sedentary. That is why most tailors suffer from constipation. G. W. Roberson, Wichita Falls, Tex., says: "I find Foley's Cathartic Tablets the most delicate, cleansing cathartic I have ever taken. They are just the thing. They keep the stomach sweet, the liver active, drive away biliousness, bloated, tired feeling, of clogged bowels, promote and effective, without griping or pain. Stout people praise them for the light, free feeling they give. Sold everywhere."

NATIONAL BANK LOANS IN STATE ARE \$21,000,000

State Financial Institutions Add Another \$7,000,000 to Total of Credit Extended to New Mexico Concerns.

The Albuquerque local of the Carpenters' union yesterday was given first prize for its display in the industrial parade, which has been a feature of state fairs on Albuquerque day from time immemorial. Other prizes awarded by the fair commission were as follows:

Best general display: First prize, Carpenters' union; second prize, Wright's Trading post.

Best original display: First prize, John Heaton (coal company); second prize, Charles H. Hild.

Comical display: First prize, W. C. T. U.; second prize, Butler Auto company.

As a general display, the judges made special mention of the entry by the Indian society representing Mt. Vesuvius in action.

The judges who made the awards were the following: H. O. Bureau, C. M. Hayne, A. N. White, J. S. Hull and E. L. Medler.

Parade Great Success.

The parade was the greatest success of any affair of its kind ever given in the state and probably in the whole southwest. To give a detailed description of all the displays would require more than fill a Sunday edition. Chief of Police Thomas McMillin and City Clerk Tom Hughes drove ahead to make sure of the right of way for the big procession.

Everybody was glad to make way for the Roswell cadets in their dress uniforms and their position well at the head of the line started things off with a bang.

The military bearing of the boys might be compared justly to the West Pointers' appearance in the last great inaugural parade at Washington, so perfectly did the cadets hold their gait and truncheon well at the head of the line. Two machine guns mounted on motorcycles put a business-like finish on the general fighting trim of the Pecan valley institution.

Fire Department in Line.

It was a fortunate thing there were no fires during parade time, for the Albuquerque fire department was in line with all its equipment, looking fit to extinguish a volcano. A number of decorated automobiles followed the fire fighters, and those of Alfred Grunfeld and C. T. French contained human decorations of the prettiest girls the eyes could wish to lean upon.

The Grunfeld auto was very effective in carrying out the victory scheme of decorations, even the hats of the young ladies being of appropriate color and design.

A float of university representa-

tion was also in the parade.

The parade was a great success, and the Roswell cadets were the highlight of the day.

The judges were very pleased with the display of the cadets, and the crowd was very enthusiastic.

\$100 POOL MATCH AT NEW MEXICO ROOM TONIGHT

Louie Fracardi and Edward Barkow, former New York State Champ, to compete for big purse.

Of special interest to the local followers of the cue sport is the big prize pool match for a purse of \$100 to be staged tonight at the New Mexico room, 1001 Broadway, between Louie Fracardi, the local champion, and Edward Barkow, former New York state champion. Barkow will play Fracardi 15 in 100, the winner to draw down the big purse.

"Edgie" Barkow has beaten some of the very best hands of the cue, including "Cowboy" Watson, Marjorie Hart, and Blankenship, and finished first in the New York state tournament in the years 1908 and 1909.

Barkow's big match Fracardi will give an exhibition of finger billiards and fancy shots. The preliminary starts promptly at 8 o'clock tonight.

STATE RIFLE CLUB TO BE ORGANIZED AT TRADE CLUB TODAY

There will be a meeting of the Commercial club this afternoon at 2 o'clock for the formation of a state rifle association. It is the plan to form an organization to conduct all state rifle matches in the future, and all who are interested in such competition are invited to be present at the meeting. This year the competition was handicapped by starting late, and as a result many teams were not entered. With the formation of the new state rifle association, it is planned to have the matches much earlier in the future, both as to teams entered and trophies offered.

INVENTOR OF SLOW BALL DIES AT HOME IN CLEVELAND, OHIO

Cleveland, O., Oct. 14.—Bill Reddy, baseball writer, who is credited with originating the slow ball, died at the home of his sister here today. While with Milwaukee, which club he was managed by Connie Mack, Reddy developed the slow ball. He entered the major league with Cincinnati and was sent to the Oakland club in the Pacific Coast league and finally became manager of the San Francisco team, on quitting which Reddy opened a road house near Oakland, where many famous players trained, and where he died.

Experiments with Baking Powder are Costly

Millions of housewives know this is the truth—they realize the cost of a single cake-day's failure. That's why they stick to Calumet.

Be on the safe side—avoid disappointments—use Calumet next time. Calumet is the most economical to buy and to use. It's pure in the can—pure in the baking. Order now!

Received Highest Awards from Cook Book Shows and Baking Powder Shows.

Be Safe—Use

Cheep and big can Baking Powders don't mean money. Calumet does—it's pure and far superior to sour milk and soda.

ZUNI INDIANS WILL RUN IN MARATHON AT FAIR GROUNDS TODAY

A Marathon race between two Zuni Indians was staged at the fair grounds here today. The race was held at 10 o'clock and the Indians, who were accompanied by a Zuni band, ran the distance in 1 hour and 15 minutes. The race was won by the Indian named "Red" who ran the distance in 1 hour and 15 minutes. The race was won by the Indian named "Red" who ran the distance in 1 hour and 15 minutes.

PACIFIC COAST TRIP OF WORLD CHAMPS IS OFF

Red Sox Decide Not to Take Hike Unless They Receive a Guarantee and Expenses and Jaunt Falls.

Philadelphia, Pa., Oct. 14.—The proposed trip to the Pacific coast of the world's champion Red Sox and the Philadelphia National League pennant winners was declared off today by Robert P. Murray, representing the national baseball commission.

Inability to come to an agreement on a financial arrangement is the cause of the abandonment of the trip.

At a meeting of the presidents of the two clubs, the members of the national commission, and William Lange, representing the Pacific coast interests held in Boston Thursday, it was agreed that the terms should make the trip. At the time it was expected there would be no hitch over the trip, but the Red Sox were not satisfied with the terms offered by the national commission.

Today at a meeting of the Philadelphia players at which they were given their share of the world's series money, all consented to join the party with the exception of Patcher, Chalmers and Outfielder Whitford, who had other plans. Mr. M. B. Ryan, called up President Lammie at the Boston Americans on the telephone and was informed by the Red Sox president that the world's champion had decided not to make the trip because they were given a guarantee and expenses. As the national commission representative could not give this he ended the trip off in the great disappointment of the Philadelphia players.

The tentative plan for the trip was called for a game at Chicago, Omaha, Denver and Salt Lake City. Requests for a game at Dubuque, Ia., and at Kansas City also had been received. Ten thousand dollars was guaranteed for a game at Kansas City.

The Philadelphia players' share of the world's series money was divided into twenty-four parts, each of the twenty-three men eligible to participate in the series was given a check for \$2,482.24.

The twenty-fourth share was divided into three parts, one of which went to Patcher, Chalmers and Outfielder Whitford, who had other plans.

DERBY WINNER IS GERD AFTER HARD RACE WITH MOLLY

Jose Knight Takes Pace, Great Northern the Free-for-all Trot and Lon C. Mixed Event.

The feature of yesterday's speeding race at the fair grounds, the Albuquerque Derby, a mile and one-eighth, was captured by Gerd, Indiana up. That the derby would be a contest between Gerd and Molly Cad was indicated in pools Wednesday night. Gerd took the lead in the last mile and Molly Cad was a close second as they went past the judge's stand. Madeline Minkwitz, who led at the five-eighths, dropped into third place at the finish.

The last heat of the 2-15 pace was a neck-and-neck race on the stretch with Jose Knight and ahead of Pope Hartford. Knight took the lead in the last mile and Pope Hartford was a close second.

Great Northern took three firsts in the free-for-all trot and Lon C. three firsts in the mixed event. The consolation race was postponed until this afternoon.

The results:

2-15 Pace, Pace \$500.
Jose Knight 1 1 1
Pope Hartford 2 2 2
Lon C. 3 3 3
Madeline Minkwitz 4 4 4
Time: 2:14.4, 2:15.1, 2:16.2.

Free-for-all Trot, Pace \$500.
Great Northern 1 1 1
Lon C. 2 2 2
Madeline Minkwitz 3 3 3
Time: 2:14.4, 2:15.1, 2:16.2.

Mixed Event, Pace \$500.
Jose Knight 1 1 1
Pope Hartford 2 2 2
Lon C. 3 3 3
Madeline Minkwitz 4 4 4
Time: 2:14.4, 2:15.1, 2:16.2.

Consolation Race, Pace \$500.
Jose Knight 1 1 1
Pope Hartford 2 2 2
Lon C. 3 3 3
Madeline Minkwitz 4 4 4

KNIFE WIELDER HAS A CHANCE TO RECOVER, REPORT

Bullet Found by Doctors, Who Operate, in Muscles of Back; Severed Arteries Are Tied Off.

Michael Sedillo, the ex-convict who was shot early yesterday morning by Deputy Sheriff Ramon Ortiz, was reported last night by Dr. Charles A. Frank, county physician, to be holding his own. Sedillo is at St. Joseph's hospital, where he was taken shortly after the shooting. Dr. Frank stated he had a chance to recover. The outcome depends upon developments in the condition of Sedillo within the next few days.

Immediately after he was received at the hospital yesterday morning Sedillo was operated on. The surgeons found the bullet, a .22-caliber pellet, lodged in the muscles of the back on the left side, near the middle. The bullet entered the left side of the abdomen about half way between the hip and the lower ribs.

Wounded in Satisfactory Place.

The intestines were not perforated, which is a great deal in favor of the man. The doctors found, however, that small arteries had been cut and that Sedillo's abdomen was slowly filling with blood. The arteries were tied up. Had it not been for the operation the man might have died to death slowly.

Sedillo stabbed "Doc" Young, an extra bartender at the Sunnyside saloon, in the left side of the abdomen—almost in the identical spot where Sedillo was shot later—in a quarrel. He was said and Deputy Sheriff Ortiz attempted to arrest him. Sedillo, who was outside the saloon when Ortiz saw him, was pointed out to the deputy as the man who had done the stabbing.

Says Sedillo Advanced.

The shooting occurred in the road east of the Sunnyside. A witness said yesterday that Sedillo was advancing toward Ortiz with his open knife in his hand and was between six and ten feet away when the officer fired. Ortiz fired only one shot. Sedillo dropped. Ortiz took the knife, which he turned over to Under Sheriff Dick Lewis. The blade, about three inches long, was bloody. This was presumably the weapon used on Young.

Dr. L. G. Blevins gave medical attention to Young. He said the wound was between an inch and a half and two inches deep and about two inches long. The slash in Young's coat was longer. Young was on his feet shortly after the cutting and gave a statement to Under Sheriff Lewis. While the wound apparently is not dangerous it was said yesterday morning that there was possibility that complications might arise. If no infection develops Young's recovery will be speedy.

Simple Way to End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain common liquid arvon from any drug store (this is all you will need), apply it at night when retiring, use enough to rub the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy, every single skin and trace of it, no matter how much dandruff you may have.

You will find all itching and itching of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

Arvon is a pure, natural, vegetable product, and is entirely safe for the scalp and hair.

KNIFE WIELDER HAS A CHANCE TO RECOVER, REPORT

Bullet Found by Doctors, Who Operate, in Muscles of Back; Severed Arteries Are Tied Off.

Michael Sedillo, the ex-convict who was shot early yesterday morning by Deputy Sheriff Ramon Ortiz, was reported last night by Dr. Charles A. Frank, county physician, to be holding his own. Sedillo is at St. Joseph's hospital, where he was taken shortly after the shooting. Dr. Frank stated he had a chance to recover. The outcome depends upon developments in the condition of Sedillo within the next few days.

Immediately after he was received at the hospital yesterday morning Sedillo was operated on. The surgeons found the bullet, a .22-caliber pellet, lodged in the muscles of the back on the left side, near the middle. The bullet entered the left side of the abdomen about half way between the hip and the lower ribs.

Wounded in Satisfactory Place.

The intestines were not perforated, which is a great deal in favor of the man. The doctors found, however, that small arteries had been cut and that Sedillo's abdomen was slowly filling with blood. The arteries were tied up. Had it not been for the operation the man might have died to death slowly.

Sedillo stabbed "Doc" Young, an extra bartender at the Sunnyside saloon, in the left side of the abdomen—almost in the identical spot where Sedillo was shot later—in a quarrel. He was said and Deputy Sheriff Ortiz attempted to arrest him. Sedillo, who was outside the saloon when Ortiz saw him, was pointed out to the deputy as the man who had done the stabbing.

Says Sedillo Advanced.

The shooting occurred in the road east of the Sunnyside. A witness said yesterday that Sedillo was advancing toward Ortiz with his open knife in his hand and was between six and ten feet away when the officer fired. Ortiz fired only one shot. Sedillo dropped. Ortiz took the knife, which he turned over to Under Sheriff Dick Lewis. The blade, about three inches long, was bloody. This was presumably the weapon used on Young.

Dr. L. G. Blevins gave medical attention to Young. He said the wound was between an inch and a half and two inches deep and about two inches long. The slash in Young's coat was longer. Young was on his feet shortly after the cutting and gave a statement to Under Sheriff Lewis. While the wound apparently is not dangerous it was said yesterday morning that there was possibility that complications might arise. If no infection develops Young's recovery will be speedy.

Simple Way to End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain common liquid arvon from any drug store (this is all you will need), apply it at night when retiring, use enough to rub the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy, every single skin and trace of it, no matter how much dandruff you may have.

You will find all itching and itching of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

For good cooking use Cottolene

You will find in making biscuits, pie-crust, cakes and doughnuts that Cottolene is supreme, because it is the purest cooking fat and possesses important food values.

It is a precise combination of specially refined cottonseed oil, of the highest grade, with pure beef-stearine from selected leaf beef suet. This combination gives Cottolene its unexcelled cooking qualities.

Cottolene

There are imitations, but there is no substitute for Cottolene.

For economy, as well as for good cooking, use Cottolene. You will require a third less of it than of any other shortening or cooking fat.

We guarantee Cottolene for its purity, for its wholesome qualities, for its food value, and for its superiority as shortening.

Anyone who can cook or bake at all, can cook and bake better with Cottolene.

Pails of various sizes. Arrange with your grocer for a regular supply.

Write our General Offices, Chicago, for a free copy of our real cook book—"HOME HELPS."

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! If tongue is coated give "California Syrup of Figs."

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue. If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the food, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 5-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeits sold here, as don't be fooled. Get the genuine, made by "California Fig Syrup Company."

N. M. N. U. ENTRY AT STATE FAIR IS CREDITABLE

Fact That Institution Trains Students to Teach Stressed in Display in Educational Pavilion.

"We train teachers to teach this way," says a card beneath a big banner across the exhibit of the New Mexico Normal university, of Las Vegas, at the educational pavilion on the state fair grounds. The work is of many sorts and the exhibits of it all are good.

A number of water color sketches are the feature which catches the eye after the banner has been observed. These sketches are of many types, murals, landscapes, still life studies and sketches of Indian scenes and other early colored and gracefully formed subjects.

A handsome perspective of a building attests the accuracy of the architectural and architectural work done and many black and white and charcoal studies are worthy of praise. Two of these sketches from casts of the Venus de Milo and of a figure are exceptionally fine. A series of geometrical designs in black and white also are very good.

The manual training department of the institution is represented by an Indian checkerboard the accuracy of whose joining is remarkable, some examples of turned work in several materials and a handsome dining table of oak.

The whole exhibit stresses the point that it is the work of those who must teach it to others later.

LOS ANGELES MAN HAS HIS POCKET PICKED?

R. J. Bird, representing the Western Wood Preserving company, with headquarters in Los Angeles, lost a pocketbook containing \$55 when getting on a car at the fairgrounds yesterday afternoon. Mr. Bird is not sure whether he was a victim of pickpockets or whether in some manner his pocketbook slipped out of his pocket while boarding the car. He has offered a reward for the return of the pocketbook and contents.

Assisting Ambition

Men of ambition—with the desire to forge ahead—need revitalizing food to help them to compel success.

Grape-Nuts

is a success food. It is made from whole wheat and malted barley and, pound for pound, contains far more "go" and "get there" than ordinary foods.

It retains all the nutriment of the grains, including their natural mineral salts—Phosphate of Potash, etc., often lacking in ordinary food, but essential to thorough upbuilding of sinew, brain and nerves.

Grape-Nuts is partially pre-digested and agrees with all. It's the ideal vigor-food for child and adult.

"There's a Reason"

Sold by Grocers everywhere.

COUNTIES TO BE ORGANIZED FOR FAIR FARS AT BANQUET TONIGHT

Leaders to Get Together in Dining Tent at Camp Putney and Put Humdinger Proposition on Firm Basis.

COUNTY EXHIBIT PRIZE AWARD TO BE ANNOUNCED

Notable Gathering of Leaders for Development of New Mexico Scheduled; History Is Being Made.

In the dining tent at Camp Putney tonight there will take place a meeting that will have a most important bearing on the future history of state fairs in New Mexico. A humdinger fair is drawing to a close, and every body who has been connected with it is determined that the fair to come shall be kept up to the humdinger standard.

Representatives of every county that has an exhibit at the fair now in progress will be at this meeting. A banquet will be served by the young ladies of the boys' and girls' camp under the direction of Miss Maudie Myers, state superintendent of industrial education, and Miss Edna Ross, the head of the domestic science department of the New Mexico College of Agriculture and Mechanical Arts at Mesilla Park. Mr. E. Hickey, who has acted as grand marshal of the day throughout the fair and who has been one of the leading factors in the success of the enterprise, will act as toastmaster, and brief speeches will be made by a number of prominent men from different sections of the state.

At this banquet, also, the names of the counties winning the prizes for the best agricultural exhibits will be announced. The interest in this contest is at a high pitch, and the announcement of the awards will be one of the biggest events of the entire affair, as all of the counties have made excellent displays and the rivalry between them is intense.

Rev. E. P. Schuler, the greatest booster of humdinger propositions that has ever been known in New Mexico, is to be on hand to lead in the singing. As cannot state nor count, with the infinite variety of Mr. Schuler's vocal accomplishments, and there will be plenty of "pep" and style left the while during the time that the Lutheran minister has the floor.

A large part of the heavy expense of the fair this year was incurred by reason of the fact that it was necessary to send out committees through the state to get the scope of the fair and to get the various counties organized in the movement to make it a success. The chief purpose of the gathering tonight is to make such an expense unnecessary in the future.

The year and has seen what a real humdinger fair is like and what it can accomplish in the development of the resources of the various counties. The men who are here and who have had the most impressive survey here will be expected to take up the work next year and do the organizing of their counties for themselves. Co-operation and teamwork will be developed, and by the plan that is in contemplation the humdinger fair next year at about half the cost of the one this year.

The talks at the banquet will be brief. A minute and a half will be allotted to the representatives of each of the counties present. Secretary W. W. Wiley and Phil H. Lenoir, of Las Vegas, who has been assisting Mr. Wiley during the greater part of the week, will be in charge of the arrangements and everything will move off smoothly and promptly.

The counties that will be heard from are as follows: Santa Fe county will be represented by County Superintendent John V. Conway, Sheriff by J. G. McPherson, Guadalupe by Frank Page, Torrance by Roland Harwell, Otero by Otto L. Tinkler, Sandoval by Miguel de la Cruz, Eddy by George Brantley, Union by Oliver Mora, by Fred Strickland, Grant by Judge Porterfield, San Juan by Mr. Allen, Bernalillo by A. B. Stroup, Lincoln by John A. Haley, Valencia by Rev. Dr. Zeigler, Luna by S. H. Wells, Roosevelt by A. A. Rogers, Chaves by Claude Simpson, Dona Ana by H. R. Linn, Curry by Bert Curless, Colfax by V. L. Martinez, Hidalgo by Mr. Alford and Socorro by J. J. Leeson, October 16.

PROF. HERING TELLS LARGE CROWD ABOUT CHRISTIAN SCIENCE

Last night at the Albuquerque high school auditorium, Prof. Hermann Hering, lecturer from the First Church of Christ, Scientist, Boston, gave a very instructive and interesting talk on Christian Science. In the presence of the audience, he was full in the Morning Journal of Sunday, October 16.

Professor Hering is a man of large physique and possesses an easy flowing style that holds his audience. The lecture last night will be printed in full in the Morning Journal of Sunday, October 16.

Introducing the speaker O. B. Clarke stated that the purpose of getting Professor Hering here to lecture was to give in an authoritative manner the principles of faith as laid down by Mrs. Eddy to those who were desirous of learning the truth about Christian Science.

Professor Hering left this morning for Trinidad, Colo., where he will lecture tonight.

Kaiser's Youngest Son to Wed. Amsterdam, Oct. 14 (via London, 11:40 p. m.)—The Berlin Reichs-Anzeiger announces the engagement of Prince Joachim, youngest son of Emperor William, and Princess Marie-Augustine, daughter of Prince Edouard of Anhalt. The princess was 17 years old last June.

DAIRY CLASSES CLEANED UP BY ROSWELL HERDS

J. P. Jacobsen Takes Only First Prize Which Does Not Go to Pecos Valley, Where It Is Competing.

That the dairy show at the fair has been a success was evident from the spirit of the exhibitors last night after the completion of the judging. Roswell registered dairy cows took almost everything in sight, but the Bernalillo county exhibitors expressed themselves as being absolutely satisfied. They say it has been a big boost for the dairy industry here to have the Roswell cows in competition and has brought about a desire for better cows here.

Medium Class. Tom Malone and George Pettine, of Roswell, who have fifteen head of Jerseys at the fair, won first and second in every class in which they showed except one. In the class for heifers under one year, J. P. Jacobsen took first.

In the Bernalillo county section above the only cow shown by the Roswell exhibitors, one from the herd of A. D. Crile. However, in every class Dr. Crile's Holsteins won blue and red, and his young bull took the grand championship for Holsteins. He also took the blue in the "breeder's" young herd classification.

All the cattle from Roswell are registered, and while the exhibitors from there were unable to bring their best cows, they said the trip had been worth while in promoting the dairy industry of the state. There have been more visitors to the dairy barns this year than ever before and the exhibitors have seen better stock. Good dairy cows are one of the chief assets of Chaves county and especially of the Bernalillo section. The dairymen there have some of the best of the blood in America and they are establishing a reputation all over the southwest for high class registered young stock. There were more than one hundred registered dairy cattle entered at the State livestock and products exposition at Roswell this year, and the Roswell exhibitors who are here are just as anxious to make future state fairs as large or larger because they say it is one of the best ways of getting better cows on the farms.

MINISTER ENDORSES 'HYPOCRITES' AS A LESSON IN MORALITY

"Years ago, when the drama was in its infancy, dramatists were in the habit of attempting what were known as morality plays, so called because in addition to providing a means of acting, they pointed a moral. 'Hypocrites' may, I think, be called a great modern morality play," writes a prominent minister, who has seen the play in its entirety without words. It is a sermon in its theme, and one which may not leave a pleasant taste in the mouths of some people, especially that class which is easily susceptible to shock. And yet, if the truth were held up before them, they might find episodes in their own lives such as "Hypocrites" by the lesson it teaches, is attempting to avert.

"As the old proverb says, there are none so blind as those who will not see." The introduction of the nude figure in the film appears to be the chief cause of complaint from those who have found fault with the play. This viewpoint is a little difficult to understand. We have the nude in paintings and sculpture and condone it on the plea that it is art. Is not the drama also art? Without doubt, so anyone to find fault with the nude in the play is not finding fault with the play. The lesson it teaches is as old as man himself, and yet it is a lesson that cannot too often be taught. 'Hypocrites' is a clear, unadorned presentation of facts, a sermon as plain and probably more convincing, in pictures as Billy Sunday's sermons are plain in words. And, with all its plainness, the film is handled with admirable restraint. There is nothing in it that might offend the most fastidious, if we except those who worship at the shrine of self-modesty and prudery. And to those it is sufficient to say to the pure all things are pure."

FIVE TAXI DRIVERS CITED IN TWO NIGHTS ON SPEEDING CHARGE

Alfredo Sandoval, one of the two taxi drivers who were cited Wednesday night on the charge of speeding, was fined \$10 at the night session of police court yesterday by Judge George R. Craig. The case of Tony Michelbach, the other, was continued until today.

Three taxi drivers were cited Tuesday night to face Judge Craig on the speeding charge. Two were fined and the case of the other was set for today.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relieves you instantly.

GROWERS BUYING MANY SHEEP AT THE STATE FAIR

New Mexico Woolmen Breeding Up Stock by Bidding in Choice Bucks Shown in Livestock Department.

If the New Mexico State fair had accomplished nothing else, it still would have to its credit the improvement of a good many of the herds of sheep which form so large a portion of the state's resources, for it has brought fancy breeders and range woolgrowers together in a way that will prove profitable to both, namely, through the sale of fancy blooded bucks to the range man.

As usual with New Mexico shows, the major portion of the showman or sheep shown were bucks. Practically all of them that were for sale had been sold last night. There were about thirty big, heavy-merino bucks with fleeces nearly a foot long that were sold yesterday at \$25 a head to Owen Prather, of Alamogordo, who takes sheep exclusively for wool.

Some of the animals in New Mexico, where the Rambouillet and other dual purpose sheep are emphasized, Rambouillets in Evidence. There are few after pen of Rambouillet bucks being sold for prices of \$12 each and higher. Many of these have been sold already and are representative of the kind—Consett company stated last night that his concern had sold more sheep than it had on the grounds, just on the strength of the display made, which he said really were just samples of what they could supply.

The Grand Canyon Sheep company has several pens of fine Rambouillet bucks on display, with C. F. Morse in charge.

Local Growers Anxious. Albers Brothers have three pens of fine Angora goats, raised within a few miles of Albuquerque, whose fine fleeces are destined some day to become fabrics of the finest of wools for ladies, should the styles again demand that quantities of artificial hair be worn. Hardly anyone knew that such stuff could be raised in this section and this display was made to show that it could be raised and to the possession of those who know of it.

With this display are two big Angora bucks and three pens of smaller ones, besides the general display. An interesting exhibit is a pen of Lincoln-Rambouillet bucks, which are being shown as a result of an experiment in this state. Other "fresh" sheep are the Pennington bucks displayed by the Indian agency at Shiprock.

Hardly to be classed as fancy but equally interesting are the products of crosses from these Penningtons with the ordinary range stock of the Navajo. These crosses have proved unusually successful, according to Agent C. M. Goodnight, who pointed out that three things had to be considered in the sheep bred by the Indians, while only two had to be considered by the ordinary breeder. These were the quality of wool and the size and hardness of the sheep.

Mr. Goodnight said the cross of the Cotswold strain with the native Navajo sheep also had proved very successful. He emphasized the importance of wool-producing sheep on account of the Indian blanket industry, without which he said the Indians would starve.

Darge Brothers have a good representation at the fair, with some good yearling bucks, some two-year-old bucks and a pen each of yearling and two-year-old ewes.

The Bond-Connell company and the Charles Chadwick company are handling the majority of the sheep at the grounds.

COMPANION OF INJURED INDIAN IS SENT TO JAIL

Juan Chavez, companion of the Indian rider who was injured when his horse fell on West Central avenue, was sentenced to serve fifteen days in jail by Judge Craig for reckless riding. Chavez was arrested by Captain Pat O'Grady. He and Mariano Delgadito, the injured man, were riding fast when the accident occurred. Delgadito's horse shied at an automobile and fell on him.

BETTY NANSSEN AT THE PASTIME THEATER SUNDAY AND MONDAY

Florida La Tosca (Betty Nanssen), is a celebrated opera singer. Two men are rivals for her love. The favored one, Mario de Campor, a young artist, loses by his success the sympathy and hatred of Baron Scarpia, prefect of police. Inspired by his hatred Scarpia causes the arrest of Mario on a trumped-up charge, and as the price for his freedom, demands that La Tosca give herself to him. The singer's love is all powerful and she consents to the debasing proposal. Scarpia comes to claim his prize. Tosca is desperate. At the last moment, revolting from the horrible bargain she has made, she seizes a knife and slays her false savior to the heart. Tosca's realization of what she has done and the consequences which ensue lead "The Song of Hate" to a terrific climax, in which Miss Nanssen's superb art and wonderful command of dramatic emotion rise to heights never before attained.

To be shown at the Pastime theater Sunday and Monday.

Put a little "Gets-It" on it, stick it at once. There's nothing to it. Put it on your nose and it's gone. No pain, no fuss, no hours—gone. "Gets-It" never hurts the true flesh, never makes toes sore. If you have tried anything else for corns you will be much more surprised to see how quickly and easily your corns and calluses will come right off with "Gets-It." Quit limping and wringing your face with corn-wrinkles. Try "Gets-It" tonight on that corn, callus, wart or bunion, and you'll be glad you read this.

"Gets-It" is sold by all druggists, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

Sold in Albuquerque and recommended as the world's best corn remedy by Otwell Drug Co.

SWAMP-ROOT SAVES KIDNEY SUFFERERS

You naturally feel secure when you know that Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, is absolutely pure and contains no harmful or harsh producing drugs.

The same medicine, at all times, strength and efficiency, preserving its purity. Kilmer's Swamp-Root is made in every bottle of Swamp-Root. Swamp-Root is absolutely pure and contains no harmful or harsh producing drugs. It is not recommended for anything. According to verified testimony it is nature's great helper in relieving and restoring kidney, liver and bladder from all ailments. If you suffer, don't delay another day. Go to your nearest drugstore now and get a bottle. All drug stores sell it in two glass-fifty cents and one dollar.

However, if you wish first to try this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y. for a sample bottle. When writing be sure and mention the Albuquerque Morning Journal.

SAND PAINTERS SEEN BY CROWDS AT STATE FAIR

Most Interesting of All Indian Ceremonials Is Exemplified by Medicine Men at Traction Park.

By far the most interesting feature of the Indian exhibit at the fairgrounds is the sand painting ceremony given by two Navajo medicine men from the reservation in McKinley county, which is put on in small tents, one opposite the casino and the other near the corner of the grandstand. Hundreds of visitors saw the ceremonial yesterday and Wednesday, and the only regret is that a larger space could not have been provided in order that more people could witness it.

The medicine men who are giving the sand paintings are Na-desh-shai and Camanera, who live near Lake Maricopa. They begin their work at an early hour in the morning and continue it until sunset. A bank of white sand is laid on the floor of the tent, and with sticks the medicine men trace out lines, which make a curious pattern not unlike those seen on Navajo blankets. These lines are then given over by the medicine men to colored sand which is produced from grinding together rocks found on the reservation, all the colors being natural. The colored sand is sprinkled along the lines already laid out in a most painstaking and careful manner.

Weird Ceremonial. The sand paintings are part of a religious ceremonial which is designed to cure the sick. When they are completed, at sundown, the content on the reservation is for the medicine man and his assistants to start a dance which lasts all night, and when morning arrives another pattern is begun in the sand paintings. This lasts for sixteen days, the Indians engaged in the ceremonial taking their sleep in short snatches.

The designs of the sand paintings have a mysterious significance which no Navajo will divulge to the outside world, and it is part of the ceremony that the sand must be destroyed at the end of the day. Thus it is that two tents are provided at the fairgrounds, the Indians working in each of them on alternate days. Today they will be engaged in their painting in the tent at the corner of the grandstand.

BALDWIN PIANO COMPANY REPORTS FINE BUSINESS

O. F. Zottman, manager of the local branch of the Baldwin Piano company, reports a fine business so far this week. His house has sold three pianos, four player-pianos and a lot of other music, besides some smaller goods and there is yet two more days of the fair. Most all of the purchasers are out-of-town fair visitors, subscribers of the Journal, and came here with the intention of purchasing musical instruments. The local business is showing these days a fine list of pianos and player-pianos.

"OO-y! My Corn-n!" H-m, Use 'Gets-It'

Then You'll Have No Corns to Bump! Your Corns Will Come "Clean Off." Quick!

Did you ever see a corn peel off after you've used "Gets-It" on it? Well, it's a moving picture for your life! And you hardly do a thing to it.

"Here Corn Bumped Against 'Gets-It,' Corns Vanish!"

Put a little "Gets-It" on it, stick it at once. There's nothing to it. Put it on your nose and it's gone. No pain, no fuss, no hours—gone. "Gets-It" never hurts the true flesh, never makes toes sore. If you have tried anything else for corns you will be much more surprised to see how quickly and easily your corns and calluses will come right off with "Gets-It." Quit limping and wringing your face with corn-wrinkles. Try "Gets-It" tonight on that corn, callus, wart or bunion, and you'll be glad you read this.

"Gets-It" is sold by all druggists, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

Sold in Albuquerque and recommended as the world's best corn remedy by Otwell Drug Co.

DECORATIONS TO BE JUDGED AND PRIZES AWARDED

W. R. Walton, Wee Jamie Clark and M. Emory Davis the Trio Who Will Determine Ownership of Prizes.

W. R. Walton, chairman of the committee on decorations, announced yesterday that he had chosen the judges to pass upon the displays made by different local homes and that the decorations would be judged by the judges. The judges are W. R. Walton, H. Emory Davis and Wee Jamie Clark, of the Kliffers. Mr. Walton intends to round up his committee some time today and take them through the city in his car so that they will be able to see the decorations and judge of the value in awarding the prizes, which are as follows:

First prize, \$25, second prize, \$15, third prize, \$10.

The decorations that have been made elaborate than ever before in the city. The decorations are in Albuquerque and are more extensive than those of any other city. The decorations are in the city and are more extensive than those of any other city. The decorations are in the city and are more extensive than those of any other city.

Many Signs Decorated

A goodly number of the business house decorations are quite extensive. Most of them display good taste in arrangement and are very effective. It is in the central downtown section, however, that the most effect is produced, as in this a single program has been carried out through the entire downtown area. Commencing at the Santa Fe passenger station the decorations are in the city and are more extensive than those of any other city. The decorations are in the city and are more extensive than those of any other city.

Welcome to Each County

President of the fair, H. Emory Davis, is in the city and is more extensive than those of any other city. The decorations are in the city and are more extensive than those of any other city. The decorations are in the city and are more extensive than those of any other city.

On Central Avenue First Street

On Central Avenue First Street, a big electric "welcome" sign which is not addressed to anybody in particular and on its other side is the announcement "The Fair is Here."

Surrounded from the top of each of the ornamental lamp posts are lanterns and streamers in the fair colors, giving the section of town where these posts are located the appearance of a court of honor.

Taking them in and large, the decorations are the finest that have been seen in Albuquerque.

WEE JAMIE CLARK DISCOVERS A MAN FROM HIS COUNTRY

It is not often that men from the same county, who had associations thirty years before, were unexpected to find each other in the same place. In the case of Wee Jamie Clark, who is from the Shetland Isles, yet who has been in the city for some time, he was met by a man from his own country, who had been in the city for some time.

Two of them were watching the big city set of lights and getting into conversation which led to the discovery that they had been in the same place.

That started the fellow-conversation off to comparing notes and pretty soon Jamie found that he had actually found a man from his own country. The man was a man from the Shetland Isles, yet who had been in the city for some time.

Not a day after the only story about Jamie that broke yesterday.

Last night when Jamie got on a car to come to town, he was in a pocket for a while. Having some trouble locating his carfare amid the many other articles he carried, he found out a few minutes and forgot which he had won at the fair.

Questioned as to what they were and where he had won them, he gave the data of all but the largest, a handsome silver. Pressed for the information on this, Jamie announced that he had won it. "For not taking a drink," he failed to say where or when, however.

Jamie has purchased a ship and is threatening dire and awful punishment to the reporter who "put a story in the paper that the Kliffers were married men." He says they aren't, and that the story, besides being a gross libel, has caused many of the pretty girls to take less notice of them than they usually receive.

You may make opportunity daily if you do not read Journal every day.
