SEVERE BATTLE!

Boers Defeat Army of
Gen. Clements.

British Loss Nearly Six
Hundred Men.

Chinese Residents of Hawaii Are
Not American Citizens.

SICKNESS OF EX-SECRETARY PORTER.

London, Dec. 15.—Lord Kitchener has wired the war office as follows: "Pretoria, Dec. 14.—Clements brought in his force opposed to Commando No. 1, unopposed. Casualties were, I regret to say, heavy—killed five officers, nine other ranks. Missing, eighteen officers, 555 of other ranks. These latter were four companies of the Northumberland Fusiliers stationed on the hill and some primary and other details sent up to support them. Broadwood's brigade took no part in the engagement. The Boers suffered severely. Knox drove Dewet north to the Thabane-Ladybrand line, which was held by our troops. Dewet's force, about 3,000 strong, made several attempts to get through during the day, assisted by a force of Boers operating from the north. These attacks were driven, though some of the Boers from the south were able to get through the line."

Writing later, Lord Kitchener reports that while passing the lines in the neighborhood of Thabane-Ladybrand, he saw a large number of Boers, mounted infantry captured a pompon, several wagons with ammunition, twenty-two prisoners and some horses and mules. A portion of the enemy has not been able to pass north.

WORST DISASTER OF WAR.
London, Dec. 15.—Gen. Kitchener's supplementary dispatch referring to the disaster at Magaliesberg demonstrates that the catastrophe is among the worst of the war. The matter was brought in the house of commons today, but the secretary for war had no information to add except that the wounded numbered six officers and forty-five men.

Newspapers see pre-arrangement in the recurrence of Boer activity every where, the object being to strengthen Kruger's hands.

Not American Citizens.
Washington, Dec. 15.—The treasury department has ruled that Chinese who were naturalized citizens of the republic of Hawaii did not become American citizens by virtue of the provisions of the territorial act.

TERRIFIC STORM!

San Francisco Is Badly
Torn and Twisted

Heaviest Storm in the History
of California.

Next W. C. T. U. Convention to Be
Held at Fort Worth.

ENGLISH PARLIAMENT DISMISSED.

San Francisco, Dec. 15.—The heaviest wind and rain storm in the history of the state raged for an hour yesterday afternoon. Mrs. John King was killed near Sausalito. Telegraph and telephone companies suffered severely and service was completely suspended. The greatest damage done to wires was between this city and Benicia, where the wind from San Francisco bay had full effect. The storm extended over the central and northern portion of the state. The principal damage was caused by the wind which blew down trees, fences and frail buildings. Heavy thunder and lightning accompanied the storm. In this city the wind blew at a terrific velocity, and rain descended in sheets. High fences and bill boards were blown down, lamp posts were twisted, signs thrown to the sidewalks and plate glass windows broken. Trees were blown across the car tracks and roofs and fronts of frail buildings were carried away. An old house on Hartlett street was torn down, and Mrs. Kate Ramsey, 70 years old, seriously injured. A Berkeley, St. Matthews' Episcopal mission church in Marin was entirely demolished. St. Matthews' church, on Grove street, near Russell, was wrecked beyond repair.

W. C. T. U. Convention.
Chicago, Dec. 15.—The next convention of the national W. C. T. U. will be held at Fort Worth, if suitable railroad accommodations can be obtained. This was decided last night by the national officers.

Parliament Dismissed.
London, Dec. 15.—Parliament was dismissed until the middle of February. War funds were finally voted after assurance was given that the government would co-operate with Kitchener in the endeavor to end the war.

MRS. HENRY RELEASED.

On Habeas Corpus Proceedings the Mother
Out of Jail—The Husband Is Held.
The habeas corpus proceedings instituted by Attorney T. N. Wilkinson for the release of Mrs. Ira Henry, confined in the county jail on a charge of infanticide, was heard by Judge Crumpacker this morning, and resulted in the release of Mrs. Henry. Testimony was given by the witnesses for the prosecution, and by Mrs. Henry, and after hearing it the judge decided that it was insufficient and that she could not be held for trial. She was ordered released. It is not known if the lady will remain here or return to her people in Topeka, Kansas. The husband, however, remains in jail.

Five Tramps Create Excitement in a
Quiet Illinois Town.

WEEKLY BANK STATEMENT.

Lincoln, Neb., Dec. 15.—W. J. Bryan said to-day he will establish a weekly newspaper.

"I expect to lecture occasionally, especially in college towns where I can speak to students," he said, "but my principal work will be done with pen, or perhaps I should say, with pencil."

"The paper will be called the 'Commoner' and will defend the principles set forth in the Kansas City platform. I shall be publisher and editor, and Lincoln will be the place of publication."

Perea Acts as Escort.
Washington, Dec. 15.—Robert Wilcox, delegate from Hawaii, was sworn in today. He was escorted to the bar of the house by Mr. Perea, delegate from New Mexico. After the oath was administered, many members came forward to congratulate Wilcox.

Livened Up the Village.
St. Louis, Dec. 15.—Five unidentified men, garbed as tramps, who asked shelter in the calaboose at midnight, overpowered the village marshal of Brighton, Illinois, and locked him in a cell, then broke into a bank and two stores. They attempted to get into the vault of Blodgett Bros. bank, in which there was a large amount of money, but were unsuccessful, although a strong box was partially wrecked by several explosions of dynamite. Robbers escaped on a handcar. Then the marshal was liberated, and he started after the robbers with blood hounds.

suscitated by the state board of health.

The new army for the Philippines is

The peace negotiations for China are

ter so long a delay are now in a hurry
to get the matter over and done with.

In his annual report Postmaster Gen-
eral Charles Emory Smith says that
the cost of a complete national free rural
mail delivery has been estimated at
\$12,000,000 per year.

Hoke Smith of Atlanta has given
traveling libraries to fourteen counties
in Georgia. The books are intended for
the school children and are to make the

There is practically no hope of secur-
ing special appropriations for the con-
struction of storage reservoirs in arid
region. Especially is this true in re-
spect to the present session of congress.

The Colorado Springs Telegraph
says: "It begins to look as if the tele-
graph operators were beaten in their
controversy with the Santa Fe railway.
But that does not mean that their
cause is lost."

Sulphuric acid is made in England
from iron pyrites obtained in Spain,
which contain some arsenic. English
brewers use the sulphuric acid to make
grape sugar and so the arsenic has
found its way into English beer.

Christmas shoppers ought to come to
some decision. To look and gaze and
spy around for three weeks, and then
all rush for purchases at once, is a pos-
sible and unnecessary cruelty for the
store clerks, which has been witnessed
too often in this community in the past.

CENTURY CELEBRATION.
The arrival of the twentieth century
is to be celebrated in various ingeni-
ous or appropriate ways in nearly all
parts of the Christian world. In Peru
the Lima postoffice has put in celebra-
tion to celebrate the new century
three sets of postage stamps, with por-
traits of Senor Romanos, Admiral Grau
and Colonel Bolognesi. The dawn of
the new century will be observed in
New York city with unique ceremon-
ies. In this city there will be the usual
chorus of steam whistles and mocking
birds at midnight, disturbing the peo-
ple's sleep and rest, as a consequence
of which on the day of the new cen-
tury they will feel as cross and fidgety
as Wall Street bears.

LAW SUSTAINED.
Minnesota years ago made a law
providing that if any company should
pay a tax of 3 per cent on their
gross earnings in lieu of taxes on their
property. In 1895 the legislature un-
dertook to repeal this contract and
separate the lands granted to the rail-
way companies from their other prop-
erty, proposing to tax the lands while
retaining tax on gross earnings. The
supreme court of the United States has
now pronounced the latter law void, be-
cause repugnant to the federal consti-
tution, in that it undertook to invali-
date a contract—another rebuke to a
state for indulging in sharp practices
toward corporations created by it and
entitled to its protection.

PRESERVATION OF FORESTS.
The United States Geological survey,
which is investigating the forests of
the country, finds that 37 per cent of
the land is wooded. In the various
states the percentages vary from 1 in
South Dakota to 7 in Kansas, to 18 in
Illinois, to 22 in California, to 40 to 50
along the Atlantic border and to 71 in
Washington. The vast amount of tim-
ber in the United States made people
careless about taking measures for its
preservation, and it is generally agreed
that if things had been allowed to go
on in their natural course a timber fa-
mine would have resulted in two or
three generations. For several years
past the government has been laboring
to avert such an outcome, and further-
more in this direction are now agitated.
A great scarcity of timber would be
almost as unfortunate in its effects on
the water supply as on the industries
which use lumber. Humboldt's warn-
ing is still true: "In felling trees grow-
ing on the sides and summits of moun-
tains, men under all climates prepare
for subsequent generations two calami-
ties at once—a lack of firewood and a
lack of water."

ROCK ISLAND'S CUT OFF.
When the Rock Island begins build-
ing its big cut-off to the southwest
from Liberal, Kas., to El Paso, Tex.,
this month it means that within a very
few months the Rock Island will begin
laying steel rails from Fairbury, Neb.,
to Herington, Kas. It is part of the
same general plan to get the shortest
line yet built from all parts of the Rock
Island system to Los Angeles and to all
parts of Mexico.

Leading away off to the southwest
through Kansas, almost touching the
Oklahoma border at the terminus of
Liberal, the Rock Island now has a
line. All surveys have been completed,
articles of incorporation have been filed,
and formal announcement made that
work is to begin at once on an exten-
sion that will carry this road 870
miles further to the southwest, through
the Panhandle of Oklahoma, north-
western Texas and northwestern New

Rosalie, near White Oaks.
Fairbury is at the northern obtuse
angle of a big diamond formed by the
Rock Island system. This cut-off will be
built diagonally across to the south-
west, crossing the southwest side of
the diamond at Clay Center, and will
continue southward to Herington.
Where it meets the junction of the Lib-
eral extension with the Fort Worth line.
This means the building of about ten
miles of new track, and will result in
a direct saving of over 50 miles more
from Omaha, not only to the southwest
and to Los Angeles or Mexico, but also
to Ft. Worth and the whole Oklahoma
country.

A New Year's Guide.
There is one book every one should
make an effort to get, for the New
Year. It contains simple and valuable
hints concerning health, many amusing
anecdotes, and much general informa-
tion. We refer to Hostetter's Alma-
nac, published by the Hostetter Co.,
Pittsburg, Pa. It will prove valuable
to any household. Sixty employees are
kept at work on this valuable book.
The issue for 1901 will be over eight
millions, printed in the English, Ger-
man, French, Welsh, Norwegian, Swe-
dish, Holland, Bohemian and Spanish
languages. It contains proof of the
efficacy of Hostetter's Kidney Pills,
the greatest kidney purifier by the pub-
lishers, and is worthy of careful preser-
vation. The almanac may be obtained
free of cost, at any drugist or general
dealer in the country.

to take the places of the strikers at the
local depot. Bell went to work, but
the others, claiming that the officials
had told them the strike had been de-
clared off, when they found out on ar-
riving here that it is still on, refused
to go to work.

Mrs. R. C. Dryden came in from Win-
slow yesterday and was the guest of
Mrs. Aaron Gray during the day, leav-
ing last night for Captain, Lincoln
county, where her husband, Dr. Dry-
den, is located as the physician and sur-
geon of the Captain Coal company. The
doctor was formerly connected with
the medical department of the Santa Fe
Pacific, stationed at Winslow.

One of the features of Prof. O. C.
Cogan's performance at the opera

cepted 155 challenges through Illinois,
Indiana, Kansas and Colorado, this be-
ing the first stop in New Mexico, en-

CATHOLIC BAZAAR AND DANCE.

From Cerrillos Register.
S. L. North and son, Fred, came in
from their new mine near San Antonio
last week. Mr. North is very sanguine
over his prospects there.

J. Bonaville, who was severely in-
jured by the kick of a mule at Madrid
last week, was taken to Las Vegas for
medical treatment.

graph company, left Tuesday morning

Manager Woods, who will visit in the
rest for the next thirty days.

John W. Bell, well-known in this
section, is now in Cuba, Texas. He
sent Mrs. B. Green, of the Palace hotel,
a small Texas sweet potato weighing
eight pounds. It arrived in good shape
last Friday and was on exhibition at
the hotel several days. Mr. Bell says
he has had about enough of Texas and
will soon return to Cerrillos.

G. W. Ford, of Thornton, was in Cer-
rillos this week, and gave Abe Reid the
contract for shooting right head of
horses and overhauling his freight wa-
gons. Mr. Ford has just finished haul-
ing 257,000 pounds of freight for the
Baird Mining company, at Golden, and
is preparing on another large contract
of freighting for a company near Alber-
marle.

BAZAAR AND DANCE.

One of the most enjoyable occasions
it has ever been our good fortune to
attend was the bazaar and dance last
Friday afternoon and evening given by
the ladies of St. Joseph's Catholic
church, the Cerrillos opera house.
The hall was profusely decorated
with hunting and evergreen and pre-
sented a most beautiful appearance.

The booths, situated on each side
of the hall, contained many useful and
beautiful articles, and were in
charge of Mesdames W. H. Kennedy
and W. E. Dame and Miss Fannie Mc-
Nulty.

Super fish pond, situated near the stage
was one of the decided attractions and
was most appreciably welcomed over by
Mrs. J. Ross Forsythe, to whom the
great success of this feature is due.
A beautiful doll was awarded to the
little Miss Nellie Flaherty as the most
popular little girl present, while an
elegant and massive silver butter dish
was presented to Miss Jennie Kirkland
as the most popular young lady present.
The receipts of the bazaar and dance
were \$17.50, including the donation of
Messrs. Hoyt and Burn of the Galisteo
company.

Editor's Awful Flight.

earth and the best salve in the world
with an elegant oblong case. The gift

Could not express the rapture of An-

Philadelphia, Penn., when she found
that Dr. King's New Discovery for
Consumption had completely cured her

years made life a burden. All other
remedies and doctors could give her no
help, but she says of the royal cure,
"It soon removed the pain in my chest
and I can now sleep soundly. Some-
thing I can scarcely remember doing
before. I feel like sounding its praises
throughout the universe." So will ev-

Pneumonia Prevented.
Among the tons of thousands who
have used Chamberlain's Cough Rem-
edy for colds and in gripe during the
past few years, to our knowledge, not
a single case has resulted in pneumonia.

Thos. Whitfield & Co., 240 Wabash ave-
nue, Chicago, and of the most promi-
nent retail druggists in that city, in
speaking of this, says: "We recom-
mend Chamberlain's Cough Remedy for
the gripe in many cases, as it not only
gives prompt and complete recovery,
but also contracts any tendency of a
gripe to result in pneumonia." For
sale by all druggists.

BABY FOODS

It is clear that doctors and
mothers think more of special
foods than they used to.

The reasons are: (1) both
mothers and babies live less

naturally than they used to;

(2) mother's milk is not so
plenty, and not so good, as it

used to be; (3) Scott's emul-
sion of cod-liver oil is mother

food as well as baby food
—enables the mother to feed

her baby naturally.
