CENTRAL POWERS ARE GAINING IN WAR PRESTIGE

Berlin, Oct. 26 (by Wireless).—The present military situation is eminently favorable to the central powers in the view of Major Marahat, the military critic of the *Bayerischer Tagblatt*, whose review of the various campaigns is summarized thus by the Overseas News agency:

In the east the Anglo-French co-operation is ebbing slowly, after the failure of the attempts to break the German lines. Political reasons are certainly the chief, but the British and French are continuing the struggle in the Balkans for a time. Major Morabit declares:

Italy, he says, desires to make her own war and all demands from the Anglo-French press that she send troops to the Balkans will be in vain. The true reason, he declared, is that Italy needs all her reserves in the Alps since she lost hundreds of thousands of men in countless attacks upon the Austro-Hungarian mountain positions. It cannot be doubted, he added, that all her future sacrifices will be equally useless and that finally her day will come when the Austro-Hungarians have managed to turn the offensive.

"In the Balkans, says Major Morant, the most difficult part of the task has been achieved by the forcing of the passage of the Danube and the storming of the principal fortifications south of Belgrade, while the Bulgarian troops, through the capture of Gornovo, Paskov and Velez, have made it possible from now on for the entente allies to help the Serbians."

Sylvester C. Dunham Dies.
Hartford, Conn., Oct. 26.—Sylvester C. Dunham, capitalist and president of the Travelers' Insurance company, died of pneumonia at his home here today.

BREAK A CHILD'S
COLD BY GIVING
SYRUP OF FIGS

Cleanses the little liver and
bowels and they get
well quick.

When your child suffers from a cold or a cough, give the little stomach, liver and bowels a gentle, thorough cleansing at once. When cross, peevish, listless, pale, doesn't sleep, eat or play, if breath is bad, almost always, give a few drops of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste will move out of the bowels, and you have a happy, healthy child again. If your child coughs, huffs and is caught cold or is feverish or has sore throat give a good dose of "California Syrup of Figs," to soothe the bowels and give force what other treatment is given.

Sick children needn't be laxated to this harmless "fruit laxative." Mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given day saves a sick child tomorrow.

Ask your doctor for a few drops of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups mainly on the bottle. Beware of cheap imitations sold here. The genuine, made by California Fig Syrup Company.

"I believe in the gospel as the power of God and the wisdom of God, and in Christian good will as the force to transform the world."

the communion of the good, the coming of the kingdom and the life everlasting."

that the king's army "in evoked patriotic response from the people of the commonwealth, and sent to heaven already the souls of those already guided."

m.)—The ministry of finance is developing a plan to establish a number of Russian savings banks in the United States to receive deposits from Russian nationals there. The first banks to be opened under the plan will be in New York and Chicago.

Five investigations, three by the counties, one by the state and one by the city, are under way here in an effort to fix the blame for the fire.

children of all ages and for grown-ups.
Beware of counterfeits sold here. Get the gen-
uine, made by "California Fig Syrup
Company."

MANY LANGUAGES IN PHILIPPINES CREATE PROBLEM

Speaker at Mohonk Lake Conference on Indian and Other Dependent People Discusses the Subject Fully.

(Associated Press Correspondence.)
Mohonk Lake, N. Y., Oct. 27.—The language problem in the Philippines was one of the subjects of discussion at today's session of the Lake Mohonk conference on the Indian and other dependent peoples.

Dr. E. Everett Condit, professor of modern languages in the University of Chattanooga, who was formerly a government translator and interpreter at Manila, said:

"There are more than fifty native languages of the Malay-Polynesian family spoken in the islands. The majority of these languages are so different from one another as to be mutually unintelligible. There is besides an indefinitely large number of local dialect varieties of speech, many of which are rapidly becoming extinct owing to increasing intertribal intercourse."

"Fully 90 per cent of the Philippine Malays still speak their native tongue in the home. The language situation is therefore a real problem. A common medium of speech is essential for the social, commercial, and political unification of the island peoples of the islands. Before American administration the Spanish language served only to a limited extent as a common language, as only a comparatively small number of the population had the opportunity to learn it."

"Tagalog Not Popular."
"In recent years there has been much talk of adopting Tagalog, the language of Manila and the surrounding country, as the common language of the islands, but very few of the six millions of non-Tausans are in favor of the movement, for although Tagalog is the speech of the capital, it is spoken by less than one-fifth as many people as speak Ilocos (Visayan)."

"The adoption of an artificial language, like Esperanto, while advocated by few, has never been seriously considered by the people as a whole. Since the introduction of the American public school, the problem of a common medium of speech has rapidly become an approaching solution. While most of the school children speak their native languages in the home, they use English in conversing with children whose native language differs from their own. Thus, while the indigenous vernaculars will live on for many generations—perhaps for centuries—English is destined to become in the near future the lingua franca of the entire archipelago."

BIG WHEAT ACREAGE IN NEW MEXICO AND TEXAS IS ASSURED

(Associated Press Correspondence.)
Fresno, Cal., Oct. 26.—The planting of wheat is still in progress in northwest Texas and eastern New Mexico. As far as could be learned on a trip of nearly a thousand miles this week, the acreage will be largely increased this season. Reports come from many sections that the planting of wheat is being pushed in localities where settlers are coming in on account of cheap land.

The grain situation in this part of the southwest is just now interesting. The wheat crop alone this season will exceed ten million bushels and so far little has gone to market. Last season the Santa Fe railway alone moved nearly 100,000 cars of grain out of this district, including wheat, oats, barley, rye, Indian corn, kafir corn and milo maize, while so far only a limited number of cars have been shipped.

The crop of forage grains, like kafir corn and milo maize, is the largest ever grown in this section. It is a bumper crop that is now being harvested, but no figures are available for a safe estimate of these grains. There is yet a large amount of these grains still in the hands of the farmers, both in New Mexico and Texas.

The fact that the farmers are not marketing their wheat indicates that this entire section is prosperous, everything being in position to hold their wheat for a better price. Another thing that also indicates prosperity is the great amount of building going on both in the country and the towns. Many of the farmers are also buying more land and paying cash for it.

This section is today without any doubt one of the most prosperous in the United States. The coming year promises much as there is abundant moisture in the ground.

CANANEA TROUBLED BY RENEGADE AMERICAN

(Associated Press Correspondence.)
Douglas, Ariz., Oct. 26.—United States military officers here have received reports that a renegade American is causing trouble in Cananea.

"He is described as a German, and is said to have had a forged American passport. He was tried by court martial on September 28. Sentence has been pronounced and will be carried out shortly."

"He is a person of Turkish extraction with a German name. He will be brought before a court martial."

In both instances the charge is of having attempted to collect and communicate to the enemy information regarding his military and naval and military forces with the intention of assisting the enemy."

"Don't stay stuffed! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head, soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid."

A NEW FIGURE IN WORLD DIPLOMACY

RICHARD HOOD COLE

With the recognition of General Carranza, a new figure has risen in international diplomacy. He is a plain American business man, whose shirt-sleeve diplomacy has done more for Carranza's cause than yards of gold leaf and official red tape could accomplish.

The new business diplomat is Richard Hood Cole, of Pasadena, Cal. He is in the diplomatic game because he is Carranza's close friend and was requested by the "First Chief" to keep an eye on the Constitutionalists' affairs in Washington.

As a protégé of Lyman J. Gage, former Secretary of the Treasury, Cole has been interested in large financial affairs for years, devoting himself especially to the financing of large enterprises.

Living in the Willard hotel with his wife, who has been received in the most select circles of Washington society, he has really been the

directing force behind the movement to obtain American recognition for the Constitutionalists' government.

Men from California say Cole's hobby is helping others. He is the man who gave Jess Willard his big start toward the world's heavyweight championship by seeking him out and supplying money for him to go and sign up the Jack Johnson fight.

Cole knows a slough of world-famous people, some of whom are almost always to be found at his beautiful home in Pasadena. He and Mrs. Cole have lived here in elegance, yet in the greatest simplicity. Both have been lionized since the fact of his close friendship with Mexico's "First Chief" leaked out.

Cole's work for Carranza has brought mention of him for an appointment to a prominent diplomatic post under the American Government, where he may yet be a power for American prestige.

commended to Major General Funston that an additional regiment of artillery be sent to Douglas to preserve American neutrality in the event of an attack upon Agua Prieta by Villa forces, it became known tonight. At present two batteries of field artillery are stationed here.

Articles from Sonora stated that an American named Kemp had taken charge of a Canadian with a part of the Yaqui Indians commanded by Colonel Belmont of Villa's army. Kemp was said to be causing much trouble to foreigners desiring to leave the district.

Two American ironworkers who left Cananea without obtaining passports were halted by Villa soldiers and robbed of \$450, when a second detachment attempted to stop them they made their escape in their automobile amid a volley of shots.

Thousands of refugees traveling on foot, on horseback and in all manner of vehicles, are making their way toward the Arizona border from the interior of Sonora, arrivals said.

GOOD SHOWING MADE BY UNITED STATES STEEL

(Associated Press Correspondence.)
New York, Oct. 26.—Earnings of the United States Steel corporation for the quarter ending September 26, last, which had been looked forward to with great interest in financial and other business circles, were announced today. They amounted to \$28,719,648, an increase of \$10,709,537 over the preceding quarter, the most favorable exhibit since the second quarter of 1913, when earnings aggregated \$41,219,813.

The net income of \$10,045,791 shows a gain of \$9,724,297 over the preceding quarter, while the surplus of \$18,037,241 indicates a gain of \$8,765,526.

The regular quarterly dividend of 1-2-4 per cent was declared on the preferred stock, but no action was taken toward the resumption of common dividends, as expected in previous quarters, although the surplus of the quarter was almost three times in excess of such requirements.

Unofficial forecasts of the earnings for the third quarter ranged from \$40,000,000 to \$45,000,000, so that actual returns did not come up to these expectations.

The record of the steel industry was one of steady growth, however. September's earnings of \$14,569,652, exceeding those of August by \$275,000 with a gain of \$1,734,242 over July's returns.

MORE ALLEGED SPIES ARRESTED IN ENGLAND

(Associated Press Correspondence.)
London, Oct. 26 (12:42 p. m.).—An announcement was made officially today of the arrest of two persons designated as "K" and "L" who are suspected of being German agents.

"K" is described as a German, and is said to have had a forged American passport. He was tried by court martial on September 28. Sentence has been pronounced and will be carried out shortly.

"L" is a person of Turkish extraction with a German name. He will be brought before a court martial.

In both instances the charge is of having attempted to collect and communicate to the enemy information regarding his military and naval and military forces with the intention of assisting the enemy."

SHAW WOULD DRIVE GERMANS FROM BELGIUM

(Associated Press Correspondence.)
London, Oct. 27 (1:48 p. m.).—Lecturing in London last night on aspects of the war, George Bernard Shaw contended that it was the sacred obligation of the allies to drive the Germans out of Belgium, but he added, "There could be no thought of expelling Germany." He declared that peace must be based on the basis of restoring the territory to the victors.

With reference to British policy, he considered that in treating the central military districts as a water government, the allies were making a mistake, he said, and was making a mistake in the government, and that the ministry should be made responsible for their actions.

Mr. Shaw strongly advocated the holding of a general election immediately and appealed for liberty of speech and the press.

GOVERNOR JOHNSON LOSES PET SCHEME

(Associated Press Correspondence.)
San Francisco, Oct. 26.—Governor Hiram W. Johnson conceded late tonight the defeat of the non-partisan state officers amendments which were voted upon here today and predicted that the people would reverse themselves on the question. Returns at 11 o'clock from a majority of all the counties in the state showed an almost unanimous majority against the amendments, and indicated that probable defeat of all propositions. The non-partisan plan was the main issue of the election. It was advocated by a progressive party measure, having the support of the governor, Hiram W. Johnson, and the state administration. The governor and some of the state officers' candidacies were seriously for it.

ALL SERBIAN PORTS ON DANUBE ARE TAKEN

(Associated Press Correspondence.)
Belgrade, Oct. 26 (via Wireless to New York).—All Serbian ports on the Danube have been occupied, says the Yugoslav News agency. Prior to the occupation, the Danube frontier to the east of Nish has been surrounded from all sides and must surrender shortly, inasmuch as the supply of ammunition and food in the city is insufficient.

All Bulgaria is in the hands of the Bulgarians. The Bulgarian press condemns the British attack on Belgrade. The Hubs of Bulgaria say England has just what she deserves. A sudden attack without any warning in Belgrade and at the Danube.

RUSSIANS CLAIM TO REPULSE ALL TEUTON ATTACKS

(Associated Press Correspondence.)
Petrograd, Oct. 26 (via London, Oct. 27, 12:15 p. m.).—The official communication issued today follows:

"On the left bank of the Dvina, south of Bialystok, the Germans attempted a sudden attack without any warning, but they were repulsed by our forces, but they were discovered in time and repulsed."

"On the Dvina from the region of Leningrad, the Germans attempted a sudden attack without any warning, but they were repulsed by our forces, but they were discovered in time and repulsed."

"On the Dvina from the region of Leningrad, the Germans attempted a sudden attack without any warning, but they were repulsed by our forces, but they were discovered in time and repulsed."

WRITTEN AGREEMENT TO KILL FATHER-IN-LAW

(Associated Press Correspondence.)
Pittsburgh, Pa., Oct. 26.—Thomas C. Polney, a lawyer of Washington, D. C., who yesterday pleaded guilty to conspiracy and to assisting his father-in-law, T. Franklin Schneider, a millionaire candy manufacturer, also of Washington, in a hotel here last June, today testified at the trial of William Brower, another of the alleged conspirators, that he agreed to pay \$4,000 to William Brower, George McHenry and H. C. Carls if they would kill Schneider.

Polney said that the agreement was in writing and that it passed into the hands of McHenry, who, Polney said, refused to return it to him, when he gave up the idea of "putting Schneider out of the way."

"I was through with it. I was tired of being blackmailed. I was almost driven crazy," said Polney.

SCOTTISH RITE GRAND COMMANDER ELECTED

(Associated Press Correspondence.)
New York, Oct. 26.—M. W. Bayless, of Washington, D. C., was elected supreme commander of the one hundred and eighth session of the supreme council thirty-third degree of the American and Scottish Rite, held here today. Among other officers chosen were:

James H. Long, Boston, lieutenant grand commander; Charles S. Webster, Washington, D. C., grand secretary; Holden G. Hill, Providence, R. I., treasurer; M. W. Morton, Providence, R. I., secretary general; Walter Seymour Newark, N. J., keeper of the archives.

MANUFACTURERS HOPE TO GET MACHINES BACK

(Associated Press Correspondence.)
Petrograd, Oct. 26.—Manufacturers whose works have been stripped of machines by the Germans propose an official commission to make an inventory of the machines that have disappeared as soon as may be possible. It is hoped that by manufacturers that the payment of an indemnity for the machines will not be sufficient, since many months, in some cases years, will be required to replace the machinery. Consequently the French manufacturers will demand the return of the machines themselves.

These machines they claim were not all taken because they were needed in Germany, but in order to paralyze the industries of northern France after the eventual declaration of peace. The restoration of the machines will be an easy matter, it is believed, since inventories were made by the Germans and catalogues printed at Cologne for circulation among German manufacturers.

Home Gets Big Legacy

(Associated Press Correspondence.)
Chicago, Oct. 26.—The Chicago home for the friendless is named as the residuary beneficiary of the \$599,000 estate left by Louis H. Brown, real estate dealer, who died October 29, in his will filed for probate today. Thirty-one other legatees, including nine relatives, a library, a hospital, a college and a school are also given shares in the property. One-half of St. Pierre's Atchison, Topeka and Santa Fe Railroad company adjustment bonds is left to Yale university.

Has Slept for a Week

(Associated Press Correspondence.)
Macomb, Ill., Oct. 26.—Physicians here are puzzled by the strange case of Miss Gladys Dobson, who has been sleeping soundly at her home here since a week ago. The young woman has been in poor health for the day, but today physicians said she was unusually well. Today physicians said Miss Dobson showed no signs of waking up.

YOUTHFUL EMBEZZLER CAUGHT IN EL PASO

(Associated Press Correspondence.)
El Paso, Tex., Oct. 26.—(The El Paso Herald-Examiner.)

Main 18 years old who disappeared from El Paso several days ago and with \$4,000 in gold, was arrested here today after he had deposited \$2,000 in the First National bank of El Paso. Main, the police say, had stolen the money belonging to the El Paso National bank at Los Angeles, where, until October 22, he was employed as messenger. He gave an answer for the money to be turned over to the Los Angeles bank.

Main said he arrived in El Paso Saturday morning and stayed at only to Juarez, Mexico, where he said he spent \$700 for wine and entertainment, \$100 in gambling and \$100 for clothes, besides buying a motor car for \$100.

Reports of the boy's career in Juarez reached the El Paso police and officers were awaiting him this morning when he crossed the international bridge and went directly to the bank.

KITCHEN NOT CONVERT TO PRESIDENT'S PLAN

(Associated Press Correspondence.)
Washington, Oct. 26.—Representative Claude Kitchen, minority leader of the house of representatives, has not yet been converted to support of the administration's national defense program.

Mr. Kitchen was in Washington for a few hours today, but did not see President Wilson. To those who talked with him the majority leader frankly said he did not see how he could support the defense appropriation bill as it is now. He is, however, substantially as outlined in unofficial reports. He declared, however, that he would keep his mind open on the subject until he had talked with the president yesterday and seen the proposals for himself.

Friends of Mr. Kitchen assert that to save he can not give the administration proposals his support he will not oppose them as the leader of the house majority but merely as an individual.

WEDNESDAY, OCTOBER 27, 1915

A COUNTY AGENT NEEDED.

Bernalillo county should have a
county agent who will be under the
charge of and actively cooperate with
the New Mexico College of Agri-
culture and Mechanic Arts. Other
counties have such agents, and none
in this state needs the services of one
more than this.

Located in one of the richest sections
of the entire southwest, with
land enough, if properly cultivated, to
produce practically everything. Agri-
cultural resources, we are one of the
most backward of agricultural
communities.

Instead of raising our own apples,
peaches, pears and plums, we never
have yet learned the art of raising,
consequently the fruit is largely raised
by worms and we secure the supply
for the local market from California
and other sections of the United
States, after the payment of high
freight rates.

There is no better poultry section
than this, yet we ship in turkeys and
chickens of cold storage chickens and
eggs. From forty to sixty bushels of
wheat to the acre is not an unusual
yield, but because the seed has not
been properly treated must be allowed
to decrease the yield about fifty per cent.

All of these and many more difficul-
ties in the way of the farmer's
success would be obviated if we had
a county agent, an expert who would
show the land owners up and down
this valley of rich soil and cheap irri-
gation how to farm properly, other
farmers favored sections of New
Mexico are succeeding and the
investment by the county commission-
ers in a county agent would result in
the making of the saving of hundreds
of thousands of dollars for this vic-
inity.

The agricultural college is doing
great things for the state of New
Mexico, but not for the farming area
around Albuquerque because we have
not given the required cooperation.

It is said that Carranza plans to
substitute baseball for bull fights as
the national sport of Mexico. We
now see more clearly why the ad-
ministration decided to recognize his
government.

THE PEOPLE BACK HIM.

A great majority of the people of
the United States are according
staunchly behind President Wilson in
his conduct of our foreign relations.
The only interpretation which can be
placed upon such support is that our
citizens do not want war with a Eu-
ropean power and have never been in
favor of intervention in Mexico,
provided diplomatic skill could not
avoid either contingency.

City people are urged, so to speak,
to policy, and what little warlike
passion had been generated in their
breasts since Alamo and Goliad have
been, was ignited in the Spanish
war. We are habituated to peace,
have been brought up in peace, re-
served a distrust and dislike for mili-
tarianism, possess nationalistic senti-
ment, we wish, would like to get rid of some
alien territory we have, and there-
fore have no earthly reason for a dis-
cure for expansion.

As we live in peace, we are dis-
posed to think peacefully. We hold
war an evil and as well as a sense-
less thing. It is no way to settle
international controversies, we be-
lieve. It entails an enormous econ-
omic waste, as well as an appalling
destruction of life. We are pacifists
not only sentimentally but intellectu-
ally.

All of which it is to be said, how-
ever, the world's condition
sharply contrasts with our own con-
dition, and the realization of that
fact is slowly penetrating our na-
tional consciousness. Men like Bur-
ton of Ohio, Mann of Illinois, Kern
of Indiana and Hay of Virginia have
changed from their opposition to ade-
quate defense to open advocacy of
preparedness.

But let us not reason in abstrac-
tions. Great Britain furnishes a
powerful concrete example. Her

people have not desired war and her
statesmen have refused to prepare
for war. She stumbled into the
war and blundered again into this
war.

For twenty years in South Africa
the British policy, neither one thing
nor another, was such as to encour-
age the Boers to believe that Eng-
land never would fight. It provoked
from Kitchener the remark that, in
South Africa the British empire
would find its grave. The weakness
of that policy postponed war for
twenty years, but made a terrible war
inevitable.

For us to remain unprepared is to
invite attack; and it is as certain
as anything in this uncer-
tain world that advantage will be
taken of us if we continue to re-
main lulled before our enemies. There
is no such thing as international or
inter-racial friendship.

The people are back of the presi-
dent's efforts to keep us out of war
and they are back of his policy to
prepare this country for defense
against attack.

American patriotism should get a
splendid impetus from the military
unpreparedness and the internal pol-
iticizing of England in this war. In
unpreparedness we have but one
enemy, China. For discord we will
match William Jennings Bryan
against any statesman in the British
government.

NOT QUITE CONSISTENT.

The Congressional national coun-
cil, now in session at New Haven, is
now as opposed to preparedness
for defense. The venerable Dr.
Washington Gladden declares that
there never has been a time since the
surrender of Cornwallis at Yorktown
when this nation was so free from
menace of war, and Dr. Vincent of
Washington, D. C., had been informed
that it would take the belligerents
from sixty to seventy years after the
close of the war, to re-prepare, mean-
while this nation would have grown
to a population of two hundred mil-
lions, and no nation would dare at-
tack it.

In answer to Dr. Gladden let it be
stated that three times while so pacif-
istic a statesman as William Jen-
nings Bryan was secretary of state,
this nation was on the very verge of
war through no possible fault of her
own except that her very unprepara-
ness invited insult and attack.

As for the opinion expressed by Dr.
Vincent we may give two illustra-
tions: When our civil war closed we
were about as nearly exhausted as
any nation of Europe will be when
the struggle now in progress ends,
but when we served notice on France
that the French soldiers must be
withdrawn from Mexico we had avail-
able the mightiest force of veteran
soldiers ever seen in time of peace
on this continent. The war had pre-
pared us to throw a million men into
Mexico had the French emperor de-
fied the Monroe doctrine. So much
for the exhaustion which this war
will bring upon any one of the great
belligerents of Europe.

It is quite true that the American
population will be two hundred mil-
lions in sixty or seventy years—
doubtless within fifty years we shall
have that number of people. But
quarantined China, with a population of
423,000,000, was recently compelled
to yield to Japan's 67,000,000. Japan
is armed and drilled and could eas-
ily crush two Chinas, though the in-
dividual Chinaman is every whit the
equal of the Jap in intelligence and
muscle. Twenty-five trained men
with a machine gun more than equal
a thousand men armed with speared
rifles.

But our Congressional friends
are not quite consistent. They have
called upon the president to use all
of the power to end the massacre of
Armenians by the Turks. A moral
pretext for Turkey has been made and
removed. Had we the power to back
up a threat with force, the massacres
would have ended with our protest.

Quinine is now \$1.10 an ounce.
But New Mexico has a climate which
is to break and putative as a rem-
edy for all unimportant ills.

CAUSE FOR STRIKES.

Carefully prepared statistics show
that the preachers of the country are
an average of \$1.87 per day as their
sole compensation, and that the
preachers counting the full working-
day year, are not paid as well.

The bartender for his services re-
ceives an average of \$5 a day. Yet
the public profess to regard the
teachers and the preachers as the
most valuable servants of society,
organizing and strike might do
some good. Certainly they would be
justifiable.

The teachers' meeting next month
will also be a "honeydew."

SERIOUS IF TRUE.

The fact that a German military
officer came to this country, with
money furnished by his government,
for the purpose of blowing up ships
sailing from American ports, and
arousing manufacturing plants,
can not be regarded other than in
the gravest light by the authorities
at Washington.

The principle involved is on a par
with the alleged conspiracy by Ser-
bian officials in the assassination of
the Austrian archduke which fur-
nished the excuse for plunging Europe
into war.

Of course, there will be careful in-
vestigation of how far the Berlin gov-
ernment is responsible for the send-
ing of the German officer here. His

SILENCING THE CHAUFFEUR AT LAST.—By Brinkerhoff.

story has not been verified, so far as
the public knows, and Germany must
deny all knowledge of the movements
and purpose.

THE DIRECT PRIMARY.

Now and then we get a glimpse of
a sentiment in New Mexico for a di-
rect primary, notwithstanding the
fact that the direct primary as an ex-
periment has been a failure wherever
tried. Every effort to revive the
pure democracy of ancient times, and
to extend the principles of the New
England town meeting, appears to
have resulted disastrously.

Experience has made it clear that
government in modern civilization is
impracticable except through organ-
ization. If the direct primary is in-
conceivable of organization it may work,
but such organization necessarily
would place a double burden upon
the men who secured nominations
and later had to campaign for elec-
tion.

Men nominated by direct primaries
usually have not been up to the
standards set by conventions, and
the average of platformism has
been distinctly lowered in those states
where direct primaries have succeeded in ex-
pressing itself in law.

A lot of things termed progressive
are really retrogressive, as the Am-
erican people are gradually learning.

San Miguel County Man Loud in Praise of Recent State Fair

Editor Journal.—As one of San Mi-
guel county's state fair committee and
an old fair I venture to say that the
recent fair was an unqualified success
to all of its friends and we should all
feel proud of the success attained in
every department. The "get-together"
and "get acquainted" features far
more than repay for all of the trouble
and expenditures.

As an individual exhibitor there
were placed to my credit some ex-
hibits and several red ribbons, one of
them being for best display of vegeta-
bles by one person.

But what I wish to say especially
is in regard to the fair, and the
plans for an exhibit building worthy
of the name state fair. Such exhibi-
tion should have a permanent working
committee and begin as early as prac-
ticable to gather funds by subscrip-
tion, and if there be any loss in reach-
ing the date, a thousand dollars re-
served in our treasury of county com-
missioners to supplement it with the
needed appropriation.

While San Miguel is sixth in the
line of counties, she is not in the least
sore in complaining that her weak-
ness were in quantity and display,
and even then not running ratio
points behind the one at the top.

What we need is to pull-pull all
together—a loud and strong pull—
everybody pull. R. L. PARKER,
Reuland, N. M., October 23, 1915.

Romero Pleads Guilty.

San Francisco, Oct. 26.—(Ad.) Romero to-
day pleaded guilty to selling liquor
without a license and was sentenced
to pay \$100 and costs by Federal
Judge W. J. Pope. Romero lives in
eastern New Mexico.

MINISTER GIVES TESTIMONY.

The Rev. C. M. Kaigdon, Havana,
Fla., writes: "For three months I suf-
fered intense pain in kidneys and
back, which at times laid me out en-
tirely. I read of Foley Kidney Pills
and after trying various remedies
without result, I decided to try the Fo-
ley treatment. I was relieved almost
with the first dose and it is a fact that
I used only 1½ bottles when all of the
pain disappeared. I am 55 years of
age and now feel like a young man
again." Sold everywhere.

PORRAS REDUCES HIS OWN SALARY WITH THE OTHERS

President of Republic of Pan-
ama Determined to Institute
an Era of Economy; Many
Employees Discharged.

(Associated Press Correspondence.)
Panama, Oct. 26.—President Porras
is determined to inaugurate an era
of economy in governmental af-
fairs. His first step in this direction
was the discharge of many employees
in all the departmental offices and a
considerable reduction in the national
police force. He has also recently
reduced the salaries of all employees,
including himself, by from 10 to 15
per cent.

In order to better the financial
condition of the country through the
payment of its current obligations and
to liquidate a treasury deficit inher-
ited from a previous administration, an
effort is being made to obtain a new
loan of \$1,000,000. This is to be ac-
complished by a bond issue and will be
a part of the national debt which
already amounts to \$1,500,000 through
a previous bond issue for railway
construction purposes.

Disregards Politicians.

Both the reduction in wages and
salaries were ordered by the presi-
dent in opposition to the advice and
wishes of his political advisers who
feared that it would have a material in-
fluence on the presidential election
next year. The president, however,
pointed out that politicians were un-
willing to accept the reduction in wages
from becoming utterly bankrupt. He
told them that the national treasury
was practically empty and that many
make-shift had to be resorted to to
obtain sufficient money to pay the
salaries due to employees.

The expenses of the government
have been considerably in excess of
the revenue, chiefly because in the
past little or no attention has been
paid to financial economy and reforms,
and also to the great falling off in im-
port duties because of the war in
Europe and general business depres-
sion throughout the republic itself.

Offers of a loan have been made by
a local concern and also one in New
York. Negotiations are still in pro-
gress in hopes of obtaining better
terms than 37 with 6 per cent interest.
The previous loan was placed at
27-1/2 with 7 per cent interest. Any
loan negotiated will have to have the
approval of the American govern-
ment and this is being sought.

Mrs. Mohr Named Guardian.

Providence, R. I., Oct. 26.—Mrs.
Elizabeth P. Mohr, under indictment
charged with having been an access-
ory to the murder of her husband, Dr. E.
Mohr, on August 21, was appointed
guardian of her two children by the
municipal court today. The petition
for appointment was unopposed.
