## PRESIDENT KRUGER

Will Formulate Charges  
Against Roberts.

Reason Why Dr. Norton Is Not  
Acceptable to Turkey.

Dr. Dowie's Lace Workers Admitted  
to This Country.

GERMAN FLAG OVER THE GREAT WALL.

New York, Nov. 25.—According to a dispatch to the Journal-Advertiser from Michael Davitt, President Kruger, the British press learns, is likely to follow up the line taken in his pronouncement at Marseilles, by formulating specific charges of breach of the code of civilized warfare on the part of Lord Roberts in instructing his officers to resist to reconcentrated methods in an effort to early crush the Boer resistance.

### THE PORTER'S REASON.

Says Dr. Norton Was Unfriendly and Told  
Latter About Massacres.

New York, Nov. 25.—The Constantinople correspondent of the Berliner Tageblatt, says a Herald dispatch from Berlin, states the reason why the porters refused to assist in the newly appointed United States consul, Dr. Thomas H. Norton, at Harport, is because, when a missionary, he showed himself unfriendly to the Turks and spread untrue stories about massacres. The consul will, in spite of the decision of the porters, leave Harport to take up new duties. As the American battleship Kentucky is on her way to Smyrna, it is extremely probable the porters will give way.

### Lace Workers Admitted.

Washington, D. C., Nov. 25.—The treasury department decided to admit the lace workers and families brought to this country by Dr. J. A. Dowie, "divine healer" and founder of Zion City, Ill., to teach others the art of lace-making. This reverses the action of the Philadelphia immigration officials.

### German Flag Hoisted.

Berlin, Nov. 25.—A dispatch from Field Marshal Count von Waldersee says Col. Muehlenfels' expedition hoisted the German flag over the Great Wall, which was reached November 22 after a difficult mountain march. The dispatch adds that the French had a severe fight with Boxers 30 kilometers south of Peking.

### Indiana Slaughtering Game.

Rifle, Colo., Nov. 25.—Game Commissioner Johnson and deputies proceeded to Meeker by stage today. They received reports here that indicated the slaughter of game by Indians this year is unprecedented. Old Indians predict trouble before the Indians are finally removed to the reservation.

### Denver, Colo., Nov. 25.—Adjutant General Overmyer today ordered

troop A, cavalry, at Grand Junction, to be in readiness for service against the Indians of Utah who are hunting in Colorado. Ammunition and supplies for two weeks campaign were shipped to the troop. It is not the Utah Indians, who are making trouble this year.

### WANT A RECEIVER.

President Stillwell Using Funds of Guar-  
dian Trust Company.

St. Louis, Nov. 25.—The application of John W. Gates et al. for the appointment of a receiver for the Guardian Trust company was filed in the United States circuit court today. Judge Amos Thayer reserved decision. It is alleged the Guardian Trust company is being mismanaged by President A. E. Stillwell, and its funds are being used to promote Kansas City, Mexico & Orient railway.

President Stillwell and other officers of the company say its affairs are in excellent condition. Stillwell asserts the application for receiver is a per-

LAKE ERIE STORM.

Chicago, Nov. 25.—Delegates to the ninth annual convention of the National Irrigation congress, which closed here Saturday, unanimously declared that greater interest in the irrigation of arid lands in the United States had been aroused by this convention than any previously held.

### A FORTY-NINE DEAD.

The First Discoverer of California Gold  
Died in Utah.

Salt Lake, Nov. 25.—Harry W. Bilger, who made the first record of the great California gold discovery in 1848, died at St. George, Utah, Saturday of pneumonia. He was about 80 years of age. Bilger was a member of the Mormon battalion, and was at Sutter's mill race when the discovery was made. William J. Johnson, of Ramah, N. M., is one of the three other survivors of that party.

### Navy Department Appointment.

Washington, D. C., Nov. 25.—The president decided to appoint F. T. Bowles, naval constructor in charge of the New York navy yard, chief of the bureau of construction and repair of the navy department upon the retirement of March of Rear Admiral Philip H. Horn, the present incumbent.

### Czar's Condition.

St. Petersburg, Nov. 25.—From three sources the correspondent of the Associated Press ascertained that Imperial officials are becoming extremely pessimistic regarding the condition of Emperor Nicholas. Many good judges believe the chances of the czar's recovery are diminishing.

### France Honoring Kruger.

Paris, Nov. 25.—Dr. Leyds, diplomatic agent of the Transvaal, visited the French minister of foreign affairs, M. Delcasse, today. Mr. Kruger took a long drive during the afternoon, escorted by police cyclists and mounted guards. He was warmly greeted along the route. Later he received various delegations at his hotel.

Washington, D. C., Nov. 25.—The subcommittee on ways and means continued the preparation of the war revenue reduction bill today. The former speaker, Reed, was present as a visitor.

### Capture of Snatch Thieves. Handed Over to the Grand Jury.

Marshal McMillin cut short the career of two crooks Saturday in short order. They had been in town but a few hours, but had in that time lifted a telescope value from the New York Bazaar on Railroad avenue and a coat and vest from B. Pinter, the tailor, on the same street. This is all that has been found against them, but they may have swiped other things that have not been reported. They sold their swag, but it may be recovered. The marshal picked them up and found them supplied with snide jewelry, duff and dumb states for working the begging racket, and an assortment of articles carried by their class. This morning they had a hearing before Judge Crawford, who held them to the grand jury under a bond of \$200. It is fortunate that these two crooks were caught, as they would have worked the town systematically, as was doubtless their intention. A colored man was fined \$5 and costs for disturbing the peace in a saloon in the same last night.

THE TELEGRAPHIC MARKETS.

New York, Nov. 25.—A Washington dispatch to the World says: "Minister Conger will probably return to the United States. Conger advocates measures which the president regards too radical. He has not taken kindly to the fact that his views are not endorsed at Washington."

### Solitary Confinement.

West Point, N. Y., Nov. 25.—Acting Captain Guthrie, of Colorado, for permitting breach of order in mess hall and subsequent insubordination, was sentenced by a committee of army commissioners to solitary confinement and removal of his chevrons. Two other officers and one private received similar sentences.

### Mulhatton Insane.

Phoenix, Ariz., Nov. 25.—Joe Mulhatton, once well known from New York to San Francisco as the "Prince of Story Telling Drummers," has been placed in the territorial insane asylum. Physicians say chances of his recovery are small.

ALBUQUERQUE, — NOV 26 1900

The court of private land claims will meet in Santa Fe on December 4.

Phoenix, Ariz., will hold another carnival between December 10 and 14, inclusive.

Business on the Santa Fe road has been going rapidly the past month and is still increasing.

Now is a good time to advertise your holiday goods. Remember the success of the early bird and govern yourself accordingly.

Sportmen will endeavor to have a new game law. The statute is burdened by a revision of the game laws every two years.

Manufacturers of wood type will have to make larger letters in order to accommodate the "red" afternoon papers of Denver.

The precinct elections for Justices of the peace, constables and mayordomos de escuelas will be held throughout the territory on Monday, January 14, 1901.

Nestor Montoya, who is the chief court interpreter of this judicial district, is said to be a candidate for interpreter of the territorial legislative council.

The Mutual Life Insurance company of California is a new company and, by order of General Manager Hodge, will be allowed to do business with railway employees.

Capt. Jack Crawford, the old pioneer and poet of New Mexico, will give an entertainment at Las Cruces in the early part of December. The captain has just returned from Klondike, the land of gold.

Hon. U. S. Bateman, of Carlsbad, N. M., a legislator-elect from the district of which El Paso county comprises a part, is sending out a circular letter to the attorneys of the territory asking for any suggestions they may have to make regarding needed legislation during the coming territorial legislative session.

Friends of Col. J. Francisco Chavez, of Valencia county, are considering his claim for president of the territorial council, of which he will be a member. It is understood in this city that Dr. G. W. Harrison, who is the councilman-elect from Bernalillo and McKinley counties, is also a candidate for the presidency of the council.

The Pecos Valley Stockman, established at Roswell by Kibben & Dillias, has inaugurated a rather novel plan for increasing its circulation and advertising Roswell and the Pecos valley. This Journal offers a \$2,500 valley home ranch for the best guess as to the territory's population on the 1st of April, 1901, each guesser to be a paid-up subscriber to the Stockman. Cash prizes for the next best guesses bring the total up to \$5,000 in value.

The sheepmen are rejoicing over a decision by a California United States circuit judge in a forest reserve case. The judge held that the act of congress creating forest reserves was unconstitutional. The reason for the unconstitutionality of the act is that it delegates to the secretary of the interior legislative power. The decision, in our humble opinion, is correct, but the congress may now legislate against the interest of the sheepmen. If so, then the sheepmen will be up against the real thing.

COPPER IS STILL KING.  
Foreign demand for copper continues undiminished and the probability is that prices will advance toward the first of the year. The consumption of copper in England for the first seven months of the year was 43,877 tons, nearly 19,000 tons more than for the same period last year. French consumption for the same period was 25,361 tons, which was 5,587 tons more than for the same period last year. Germany, however, is consuming more copper at present than any other foreign country, 39,696 tons of imported copper (not including pryrites), being the amount consumed for the first six months of the year. As the foreign consumer is the customer for American copper, the foreign consumption is gratifying when we consider that within the four years ending June 30, 1900, the United States has produced 1,044,077 tons of fine copper and exported 621,636 tons.

MADE A VICE PRESIDENT.  
New Mexico has been honored in the selection of Hon. L. B. Prince as the first vice president of the National Irrigation association. The convention of the association held last night at Chicago aroused great interest throughout the country, for every newspaper of any account devoted space to the proceedings of the convention and commented upon it in its editorial columns. Most of the comments were not only in favor of saving the forests and storing the floods, but also urged that the national government undertake the work of building storage reservoirs in order to reclaim the arid regions. Ex-Governor Prince has been doing pioneer work in this line for the present point, where east and west almost unanimously demand that congress act in the matter. It seems very likely, too, that the good demand will be heeded by the law-making powers and that the new congress will make a large appropriation as a beginning toward the great work outlined by the irrigation congress.

RIGHTS OF STRIKERS.  
In discussing the reciprocal rights of employer and employee, Justice McLaughlin of the New York appellate court said: "It cannot be seriously questioned that every workman has the right, in the first instance, to say for whom and with whom he will work. This right is given to every person of legal age who is competent to act. An employer has the absolute right to say whom he will employ and the employee has the right to say by whom he will work. The right of reciprocal liberty is destroyed and chaos reigns. And if one has the right, acting in his own individual capacity, he does not lose it when acting with others in an equal right, so that employers may combine and say that they will not employ persons who are members of a labor organization and laborers may combine and say that they will not work for employers who are members of a labor organization."

ABOUT THE LEGISLATURE.  
In the legislative council at the coming session there will be some veterans in legislative service. Vets: Colonel J. Frank Chavez, of Valencia; Hon. T. D. Burns, of Rio Arriba; Hon. Thomas Hughes, of Bernalillo. Those who have served one term are Messrs. Frank Springer, Charles A. Spies, of San Miguel, Malpais, of Santa Fe, of Taos. Those who will serve their first term are Dr. C. D. Cruikshank, of Socorro; Messrs. Juan Navarro, of Mora; Dr. W. Harrison, of Bernalillo; Hon. J. L. Fielder, of Grant; Hon. J. F. Hinkle, of Chavez, and Hon. Charles F. Easley, of Santa Fe. Among the members of the council are five lawyers, namely: Col. J. Frank Chavez and Messrs. Frank Springer, C. A. Spies, C. F. Easley and J. L. Fielder. There are two physicians, Messrs. W. Harrison and C. D. Cruikshank. Hon. T. D. Burns is a merchant and stock raiser. Hon. Thomas Hughes is a printer and editor. Hon. Thomas Hughes is a printer and editor. Hon. Thomas Hughes is a printer and editor.

THE ROCK ISLAND PLANS.  
While the matter of absorbing the El Paso & Northern railway into the Rock Island directors, there is an agreement between officials that will doubtless be confirmed when the annual meeting is held in December. Under the agreement agreed on by the Rock Island and the El Paso & Northern directors, the former road will build from its terminus below Liberal, Kas., to Santa Rosa, N. M., on the Pecos river, a point seven miles north of Santa Rosa. The El Paso & Northern will build from Santa Rosa to the El Paso & Northern terminus at Santa Rosa, N. M., a distance of 120 miles. A corps of surveyors is now in the field for the purpose of ascertaining the feasibility of a line to Santa Rosa, N. M., via Clayton, where connection can be made with the Colorado & Southern, which will give the Rock Island considerable business, as well as to Kansas City and Chicago. The Colorado & Southern connection is especially desirable because it will enable the Rock Island to reach the coast from southern Colorado. The business to be secured from the El Paso & Northern is not considered of sufficient importance to weigh for or against the Rock Island plans and whatever is gained will be considered an unlooked-for pickup.

A Thinking Machine.  
A famous inventor declares he has devised a machine that will abolish war. The machine is a box that will go on without men on board and can be controlled for any distance without wires. It will obey orders from the land or it will act on its own judgment, according to the necessities of the situation. It will carry an unlimited quantity of explosives, which can be aimed with unerring accuracy. Progress has achieved wonders during the last century. The fact that a man can substitute for Hostetter's Stomach Bitters proves the inestimable value of the Bitters. So long as constipation, indigestion, dyspepsia, liver and kidney troubles continue to afflict mankind, so long will the Bitters stand as the one sure cure for them.

Interest in the present term of court has centered around the case of the United States vs. John H. Tellesbaum for using the mails in the promotion of a scheme of fraud. After occupying the attention of the court for several days, and requiring the subpoenaing of witnesses from different parts of the territory and from Colorado, the case was given to the jury at 9 o'clock Friday night. Shortly after five o'clock the jury returned a sealed verdict, which was opened in court Saturday morning. The jury found the defendant guilty of fraud.

The penalty for the violation is \$500 fine or one year in the United States jail, or both.

Messrs. Long & Fort, attorneys for the defendant, took an appeal to the supreme court of the territory—Optic.

Awarded Highest Honors—World's Fair Gold Medal, Midwinter Fair.

WILLIAM A. MCKENZIE.

Hardware Merchant of Santa Fe Died Last Saturday.

William A. McKenzie, an old business man, veteran and resident of Santa Fe, died shortly after a 10 o'clock Saturday forenoon at his residence. His death was a shock to the community because it was so sudden and unexpected.

He was known by nearly everybody in the city, says the New Mexican. Mr. McKenzie had been complaining for a week or so of severe headaches and did not seem to feel well. He was in his room yesterday forenoon, however, the same as usual. At 10 o'clock he became so ill that Dr. Masie was summoned. The illness became worse and was taken home in a coach. It became apparent that he had suffered a stroke of paralysis from which he did not rally. To friends he had often expressed a premonition that this would be his manner of death.

Mr. McKenzie came here from Peoria, Ill., in 1872, and established himself with Alexander Irvin in the hardware business in which he had been engaged since then and since 1882 without a partner. In 1874 he made a visit to Peoria and was married there to Margaret M. McKenzie, nee Hines, who with three children survives him. Two children preceded him to the grave. His father and his sister, Mrs. Irvin and Miss McKenzie are residents of this city.

Mr. McKenzie made a splendid record for himself in the civil war in the struggle for the Union. After coming to New Mexico he took active interest in the militia and for a time held the rank of first lieutenant in the local company. Mr. McKenzie was a good business man and made many friends. He was charitable in an unostentatious way and contributed liberally to the support of the Church of the Holy Faith.

WILLIAM A. MCKENZIE.

Hardware Merchant of Santa Fe Died Last Saturday.

William A. McKenzie, an old business man, veteran and resident of Santa Fe, died shortly after a 10 o'clock Saturday forenoon at his residence. His death was a shock to the community because it was so sudden and unexpected.

He was known by nearly everybody in the city, says the New Mexican. Mr. McKenzie had been complaining for a week or so of severe headaches and did not seem to feel well. He was in his room yesterday forenoon, however, the same as usual. At 10 o'clock he became so ill that Dr. Masie was summoned. The illness became worse and was taken home in a coach. It became apparent that he had suffered a stroke of paralysis from which he did not rally. To friends he had often expressed a premonition that this would be his manner of death.

Mr. McKenzie came here from Peoria, Ill., in 1872, and established himself with Alexander Irvin in the hardware business in which he had been engaged since then and since 1882 without a partner. In 1874 he made a visit to Peoria and was married there to Margaret M. McKenzie, nee Hines, who with three children survives him. Two children preceded him to the grave. His father and his sister, Mrs. Irvin and Miss McKenzie are residents of this city.

Mr. McKenzie made a splendid record for himself in the civil war in the struggle for the Union. After coming to New Mexico he took active interest in the militia and for a time held the rank of first lieutenant in the local company. Mr. McKenzie was a good business man and made many friends. He was charitable in an unostentatious way and contributed liberally to the support of the Church of the Holy Faith.

Board of Education, Office of Superintendent of Schools, Chicago, Ill., February 11, 1900.

Mr. John H. Schofield is a man of high character and of the most practical and reliable character. I have known him for many years and have seen him in every position of responsibility and have seen him in every position of responsibility and have seen him in every position of responsibility.

Commenting on Mr. Schofield's ability and character, President E. G. Robinson, of Brown University, Providence, R. I., contributes the following:

I have known Mr. J. H. Schofield for many years and have seen him in every position of responsibility and have seen him in every position of responsibility and have seen him in every position of responsibility.

Brother Fabrician, of LaSalle college, Philadelphia, Pa., adds the following testimonial:

LaSalle College, Philadelphia, Pa., March 10, 1900.

Harry Gleason expects to leave for the north to-morrow morning on insurance business.

The newest and latest—"The Pall Mall" hat, just received at Mrs. McClellan's, No. 312 West Railroad avenue.

E. L. Medler, who was at Las Vegas attending the United States court, has returned to the city. Mr. Medler is assistant to United States Attorney Childers.

Brad Jones was hunting in Tijeras canyon yesterday, and seeing a gray eagle, fired at the bird, wounding it in the leg. He brought the eagle to the city today and hopes to sell it to a taxidermist to be mounted.

Chief Ruppe called at The Citizen's office this afternoon and left the following item: "The ball of the Chicago fire department netted according to the Tribune, \$24,000, which goes to the benefit fund. There will be no charge for cloak room at the local fire department dance at Columbus hall Wednesday night."

Postmaster Armijo ought to set a watch on the boys—even grown people, who tamper with the lock boxes at the postoffice, and make an example by having a few arrests made. Complaints have reached this office recently of late, by patrons of the postoffice, that their boxes have been tampered with and left locked or unlocked as the case may be.
