## THE WIRES DOWN!

Telegraphic Report Cut  
Short To-day.Big Storms All Around Causes  
the Break.Repairs of Telegraph Lines Necess-  
ary in All Directions.

## FIRST DAY DISPATCHES HAVE FAILED.

Owing to the heavy storm in Colorado and elsewhere the first dispatch of to-day's service of the Associated Press started to come in at 4 o'clock this afternoon. After a few dispatches had been received, Manager Vaughan, of the Western Union, reported another break in the wires.

Colorado Springs, Colo., Nov. 22.—The sun rose this morning on a dismantled city. The wind attained a velocity of eighty-five miles an hour last evening. At midnight the wind has gone down to sixty miles an hour, and since gradually abated. The damage is greatest in the business part of the city. The El Paso National bank, the Burke building, goldfields block, opera house, high school building, Antler's livery, Colorado Springs Transfer company, and the Mining Exchange building, all in the center of the city, have roofs torn off or badly damaged, and the wreckage blockades the principal streets. Plate glass windows all over the city are shattered. The loss of these alone amounts to many thousands of dollars. In the outlying sections of the city perhaps a hundred dwelling houses were wrecked. No loss of life reported. There were a dozen alarms of fire during the day and night. The firemen did valiant service.

Bears Defeated.  
Bloomington, Nov. 22.—Bears under Brand were defeated on Nov. 18 at Badgeran with heavy loss. The Lancers charging through the Bear line, doing bloody damage. Brand himself was wounded. The British casualties are not serious.

Heavy Rains in California.  
San Francisco, Nov. 22.—The train service of Southern California is practically at a standstill owing to washouts caused by heavy rains which have fallen since last Friday. No trains are moving in or out of San Bernardino, the headquarters of the Southern California division of the Santa Fe Pacific. Between Los Angeles and this city there are eight washouts, six being west of Ontario. On the Southern Pacific there are three washouts.

Apache Kid Killed.  
El Paso, Tex., Nov. 22.—President Jos. F. Smith, of the Mormon church, who arrived here after a tour among the colonies of Mexico, reports the killing of the notorious Apache kid in a recent Indian raid at Colonia Pacheco.

Kruger at Marcellus.  
Marcellus, Nov. 22.—The steamer Gelderland, with the former president of the Transvaal, Paul Kruger on board, arrived this morning. Kruger landed at 9:30 and received an ovation from immense throngs.

Apache Vengeance.  
Tribes Medicine Men Meet Out Perseous  
Revenge for Perseus.

Prescott, Ariz., Nov. 22.—The medicine man of the Yavapai Apaches is in jail in Prescott charged with the murder of an aged tribesman under peculiar circumstances. The old Indian appears to have been the money man of the tribe, but refused to contribute toward the support of the medicine man. The latter killed him till he found the Indian alone on the plains. Riding down on the aboriginal capitalist, he lassoed him and dragged him to death, the rope tied to the horn of the saddle.

It is told that the murderer was not content till he had fairly torn the

body to pieces by dragging it across the rocks and through cactus. The medicine man hid out in the mountains for several weeks, but was finally captured, almost dead from starvation.

A Stage Accident.  
Santa Barbara, Cal., Nov. 22.—By the upsetting of the coast line stage at Los Puentes creek yesterday, S. W. Parker, of Ventura, was drowned. Four other passengers narrowly escaped a similar fate.

Wreck of the Maine.  
Washington, Nov. 22.—Commander Lucien Young, captain of the port of Havana, has called for proposals for removing the wreck of the Maine from the bottom of the harbor. The bids will be opened December 15. The contractor will be allowed until April 1 next to remove the material and must engage to use no explosives in the removal.

To Reclaim Arid Lands.  
Washington, Nov. 22.—Representative Shafroth is in Washington with a view to drafting a bill to be introduced upon the convening of congress, which will thoroughly examine into the resources of arid lands in all arid land states. He has not yet determined on the particular features of his bill, but he realizes the many intricacies of the irrigation question and the liability of arouse opposition to bills which are not universally just in all their provisions.

## PROMISES FOR THE FUTURE.

A Competent Expert From Cripple Creek.  
J. P. Barnes, John G. Shields and K. H. Babbitt, of Colorado Springs, returned here this forenoon after spending several days in Santa Fe, looking over the ground for probable future investments, says the New Mexican. The gentlemen were non-committal as to definite plans for the future, but they will send down from Cripple Creek a competent engineer who will thoroughly examine into the resources of the probable cost of contemplated improvements, the amount of tonnage which can be guaranteed a railroad from this city to Bland and other data. The gentlemen were impressed with the plan of an electric railroad to Bland and believe that Santa Fe has a future but that progress must be made deliberately.

M. W. McGrath and George Nelson are still in the city discussing with business men the contemplated improvements. They will probably meet with the city council to discuss certain plans. McGrath, before leaving for Colorado capital, before leaving for Santa Fe, he wants to have local capital take a share in the contemplated improvements.

It is unfortunate that the untoward weather and other circumstances prevented the visitors from carrying away with them the very best impressions of Santa Fe, its attractions and its latent resources.

Money for Missions.  
The general committee of the Methodist Episcopal church, in session in New York, has made the following appropriations: Spanish missions in New Mexico and southern California, \$12,000, and \$1,500 for Spanish schools in those places.

Smooth Swindlers.  
A smooth stranger representing himself to be a nephew of J. S. Reynolds, president of the First National bank of El Paso, lived on the fat of the land at that place last week and got away, it is said, with \$20 in money.

A. J. Maloy, the Railroad avenue grocerman, is reported quite ill. The Galletta mountains, above the city, were visited by quite a heavy snow last Monday.

Miss Mattie Coulton and Harry Freeborn will be united in the holy bonds of matrimony this evening.

William Garland, a well-known railroad contractor and builder, who was east on business connected with some of his Arizona railroads, passed through the city for Mexico the other evening.

Isaac Lane, an old resident of Albuquerque, well known to everybody, and familiarly called "Dad," suffered this morning a severe stroke of paralysis, and is said to be in a critical condition.

Mrs. Theo Van Norner, of Elmira, N. Y., has come to Albuquerque to visit during the winter with her daughter, Mrs. Ralph B. Coleman, wife of the superintendent of the Electric Light company.

St. Paul, Minn., Nov. 22.—The body of a man who was killed last night from a fall from a building, was found in the city.

## THE SUICIDES!

Death of Myrtle Farrell  
Last Night.Few More Particulars About  
Engineer Horace Tilton.Horrible Death of Switchman Lozier  
at Kansas City.

## HE WAS KNOWN AT LAS VEGAS.

Myrtle Dugan, known as Myrtle Farrell, the demi-monde, who attempted suicide Tuesday, November 13th, by taking chloroform, and who has been lying in a stupor ever since, died at 1 o'clock this morning. Several times before it was thought she would die, but she hung on to life with wonderful tenacity, although she would not of her own accord admit either the nurse or physician in their attempts to save her life. The poison did its work slowly, but surely. It is evident that she claimed she had promised Paul Bittler, her suicide lover, that she would. A brother, Frank Dugan, came in from Gallup yesterday, and was present when she died. The woman leaves a child that is at present at Camp Verde, Arizona, and has an aged mother and father living. The funeral will be held to-morrow afternoon at 3 o'clock from Edwards' undertaking parlors. Interment will be in the woman's sickness, and that of her funeral will be delayed by contributions from the women of her class in this city.

## THE TILTON SUICIDE.

Arrangements for Funeral Not Yet Completed.

The arrangements for the disposition of the remains of Horace Tilton, the suicide, have not yet been completed. A telegram to the engineer's division at Dunsmuir, Cal., brought an answer that the relatives at Prescott had been notified and to expect word from them. Nothing has been received from Prescott, this morning a telegram was received from El Paso signed by George F. Tilton reading as follows: "My brother, H. W. Tilton died at Albuquerque yesterday. Please wire full particulars at my expense." An answer to the above has gone to El Paso, and it is possible that the brother there will send instructions to-day. George F. Tilton is well-known as a railroad official at El Paso.

The El Paso Herald of November 19th has this to say of the dead man: "Horace Tilton, the man who had the nerve to stab himself eleven times with a short-bladed pocket knife, is well-known in El Paso, having made this city his home for six or seven years. He kept house with his mother on North Stanton street and held a position as engineer on the S. P. between this city and Tucson. He has a brother who is superintendent of motive power on the Chihuahua & Pacific road and formerly was employed by the Mexican Central in Juarez. He moved from this place to Needles, Cal., about five years ago.

"Engineer Nugent, of the Southern Pacific, knew him well and this morning he said: 'I knew Horace Tilton well, though I saw him for three years. The last time I saw him was at Santa Catalina Island. He owns a considerable amount of property in Los Angeles, and had been there looking after it. He was then running out of Needles on the Atlantic & Pacific. If he was ever married, I never heard of it, and do not believe he was. I do not believe he killed himself about a woman as reported, for he was a sensible man and never lost his head about the women. I do not believe he was ever married, for if he had been I would have heard of it. He was rich and popular, and the boys often told him he was a fool to work and run the risks he did, when he had so much money.'

El Paso Murderer.  
Sheriff Boone was expected to return last night from Carlsbad, N. M., with

Red Seely, the slayer of R. S. Hall, but for some reason did not arrive.

It is not believed that he will have any trouble in getting Seely to return from New Mexico to the county in which the crime was committed, but some unexpected complication may have arisen.

The sheriff of Carlsbad was to have been paid \$1,000 for the arrest of Seely, but whether or not he has been paid is not known.

On account of the prominence of Hall in this county and the wide publicity given to the story of the killing, it may prove difficult to get a jury in El Paso. It is probable that Seely will ask for a change of venue.—El Paso Herald.

WILLIAM LOZIER KILLED.  
Well Known Brakeman Meets Death in the Kansas City Yards.

The following account of the death of William Lozier, who for a long time was an employee of the Santa Fe railway, and a resident of Las Vegas, until about three months ago, is taken from the Kansas City Star:

"William Lozier, a switchman for the Hannibal & St. Joseph railway, was instantly killed at 3 o'clock yesterday in the railroad yards at the corner of Twelfth and Santa Fe streets. Lozier was working on a switch train. He was on top of a car which it was the intention to 'kick off' on a switch. He was to remain on the car and set the brakes when the car entered the switch. The switchman, who was to uncouple the car, failed to do so at the proper moment and Lozier was thrown over the end of the car. He was in the act of getting up when the car struck him and knocked him down. His head fell on one of the rails and the wheels passed over him.

Lozier was 40 years old. He had been working for the Hannibal railway only a month. One of his brothers is an engineer for the Santa Fe railway and another is in the employ of the Chicago & Alton. Lozier's body was taken to Stewart's undertaking establishment."

At the time of their removal from Las Vegas, Mr. and Mrs. Lozier occupied the residence of Conductor M. J. Lesney on Tilden street, of that city.

CORPORATIONS FIGHT.  
Hand to Hand Struggle Between Several Big Trusts.

There is soon to be waged a gigantic commercial battle between the National Paper company, capitalized at \$3,000,000, on one side, and the Cotton Seed Oil trust, capitalized at \$2,000,000, and the International Paper company, capitalized at \$20,000,000, on the other.

The National Paper company is the outgrowth of the Thomas Fire company, recently incorporated at Trenton, N. J. The key to the position of the new company is its possession of the patents of Robert Thomas for a new process making pulp paper from the waste hulls of cotton seed, billions of tons of which lie piled all over the south, the refuse of hundreds of oil mills, owned by the cotton oil trust.

Cotton planters in the south have been notified that from \$5 a ton, the price for seed will be raised to \$11, and they have been warned not to make contracts with the cotton seed oil trust's mill agents for supplying the seed, as in one year the National Paper company will take the entire crop of seed at a better price.

Robert Thomas of Atlanta discovered in his penitentiary a process to which cotton seed hulls succumbed and became white pulp that would never turn yellow, as will all wood pulp. Wood pulp costs him a minimum of \$5 per ton, cotton seed hull pulp a maximum of \$35 per ton.

A large profit enables the new company to undersell the old and to go into the cotton seed oil manufacture also.

ALBUQUERQUE, — NOV 22 1900

Let's stop local quarrels and all help  
build up Albuquerque.

The official vote will not be counted  
in New York state till December 15.  
Hold your bets.

This has truly become a billion dollar  
country. Bank clearings last week  
amounted to \$2,139,000,000.

Officials who change their politics to  
hold their positions deserve little con-  
sideration from the people.

That paragraph about the clan Mc-  
Gowan has stirred up the British in-  
habitants of this city, and they point  
with pride to Flodden field, and shout:  
"On, Children, On!"

As an additional evidence of the rapid  
growth of socialism in New England, a  
bill has been offered in the Vermont  
legislature, providing for the establish-  
ment of a state dictionary.

The controversy over the public li-  
brary has led back to the battle of  
Flodden, where the Scotch could have  
whipped the English if they had been  
commanded by Mark Hanna.

"Chicago's public school teachers' pay  
roll has more than doubled in nine  
years, and is now more than \$500,000 a  
month. There are 8,500 teachers, prin-  
ciples and superintendents on the city's  
pay roll."

Political fusion has never scored a  
success of more than a temporary and  
unimportant character. Yet it never  
seems to occur to people of like opinion,  
but belonging to different organizations  
to get together in any way.

The Carville Indian foot ball team  
was in a railroad wreck in which sev-  
eral trainmen were killed. The players  
merely dreamed that they were in a  
practice scrimmage, however, and had  
to be awakened by the resulting party.

Paris is said to be the cleanest city in  
the world. Every morning 500 male and  
600 female scavengers, divided into 140  
brigades, turn out to perform the  
duties of the scavenger. The men never  
work from 4 in the morning till 4 in the evening,  
less two hours for meals, or two  
hours per day.

An important convention of the cot-  
ton interests is in session at Macon, Ga.  
representing all the cotton growing  
states except Missouri and Oklahoma.  
There has not since the civil war been  
so prosperous a season for that industry  
as the past year, and the southern peo-  
ple are much encouraged.

Bids for supplying railway cars to  
South Africa resulted in much in Kansas.  
It gained 5,000 more people than  
New Hampshire, 7,000 more than Maine,  
9,000 more than Wyoming, 24,000 more  
than Delaware, 26,000 more than Vir-  
ginia, 31,000 more than Nebraska. As  
far as percentage goes, its increase in  
population is greater than that of thirty-  
two of the states, and its total popula-  
tion is greater than either Delaware,  
Nebraska, Idaho, Wyoming, Alaska or  
Arizona.

AMERICAN SHIPPING.  
The report of the commissioner of  
navigation will probably be quoted in-  
tensively in congress this winter. In  
support of a shipping subsidy bill,  
America's tonnage is shown to be only  
a third as large as Great Britain's.  
Four-fifths of it is employed in the  
coastwise trade. Last year the United  
States had only 800,000 engaged in for-  
eign commerce, and American ships  
carried only 9 per cent of the coun-  
try's exports and imports. A cen-  
tury ago the shipping of the United States  
in foreign trade was nearly as large as it  
is to-day, and the original thirteen  
states have a smaller tonnage of the  
class than they had at the opening of  
the century.

CAPT. MAYNE REID.  
The widow of Captain Mayne Reid is  
living in destitute circumstances in  
London. Captain Reid was the author  
and poet in the United States a  
generation ago. Many of his best sto-  
ries are located in New Mexico, and one  
of them deals with life in Albuquerque  
in 1846. What American has not thrill-  
ed over his tales written when with the  
United States army in Mexico, and just  
before he was wounded?

"We were not many—we who pressed  
Beside the brave who fell that day;  
But who of us has not confessed  
He'd rather share his warrior rest  
Than not have been at Monterey?"  
He lived life to the full—soldier, cow-  
boy, actor, author, farmer, friend of  
Edgar Allan Poe, of Kossuth, of the men

CONGRESSIONAL APPOINTMENT.  
One of the important matters to be  
determined by congress at the coming  
session is that of congressional reap-  
portionment under the new census.  
From the start, when there was one  
representative to each 30,000 inhabi-  
tants, the ratio has been increased  
every ten years, and since the census of  
1890 has been one representative for  
each 17,500 persons. The present cen-  
sus shows an increase of population of  
more than 12,000,000, and there must,  
of course, be a proportionate increase in  
the ratio of representatives to popula-  
tion. How to provide for that increase  
in an equitable manner is no easy  
problem. The house, with its 350 mem-  
bers, is already at times a very un-  
wieldy body, and yet if the new ratio  
is to reduce the representation of no  
state there will have to be a very large  
increase in membership. The ratio that

seems most favored, except by those  
from a few states—Arkansas, Kan-  
sas, Maine and Virginia—which would  
under it have one less representative  
than at present, is that of one repre-  
sentative to each 20,000 persons. That  
would add to the present member-  
ship of the house.

Sweden is suffering from the effects  
of a boom in manufacturing which has  
drawn thousands of the country people  
to the larger towns, and caused house  
rents to advance 20 or 30 per cent.  
Many of the manufacturers have in-  
vested beyond their capital and are in  
distress. Money is very scarce, and a  
crisis is threatened.

It is estimated that the number of  
colored voters eliminated from the  
southern polls by additional laws passed  
during the past four years will  
amount to about 300,000.

The Phoenix Gazette says that Gov.  
Murphy will leave in a few days for  
Washington to work for the admission  
of Arizona to the union.

Little by little interest in arid land  
reclamation by irrigation has grown  
until now it is a national question that  
will not be denied.

W. C. T. U.  
Increase of the Prohibition Vote in the  
United States.

Are you aware that the prohibition  
vote of 1900 is more than double that of  
1896?

Are you aware that this last census  
shows an increase in W. C. T. U. mem-  
bership of close to 15,000?

Are you aware that purity agitators  
would make an advance, if, in their ef-  
forts to promote purity, they would not  
talk impurity?

Are you aware that the Sunday open  
door to the saloon is an injustice to,  
and a discrimination against, other  
classes of business?

Are you aware that Santa Fe has  
closed doors on Sunday, alike in all  
businesses, and even the little burg of  
White Oaks? Remember the Sabbath  
day to keep it holy.

Are you aware that North Carolina  
has a W. C. T. U. lady in the executive  
mansion, and that the ball rooms of  
the mansion are converted into club  
rooms for W. C. T. U.?

World's Congress, held in London, there  
were lords and ladies in great numbers,  
and the most famous representatives of  
the church of England?

Are you aware that the churches are  
awakening to their duty toward inter-  
temperance and the inconsistency of their  
members praying for temperance and  
voting for intemperance?

Are you aware that Sunday, Nov. 26,  
is world's Sunday school temperance  
Sunday?

Are you aware that in moral educa-  
tion lies the key for a thorough  
renovation and disinfection of our land  
from vice and intemperance?

Are you aware that no one virtue is  
the crucial test of life? There are total  
abstinence, the temperance, the temper-  
ance, but whose tongues are  
as biting as alcohol itself, and whose  
narrowness has no competitor save a  
straight line.

Are you aware that all the cardinal  
virtues and many domestic ones, to-  
gether with the total abstinence from  
alcohol are embraced in the W. C. T. U.  
Are you aware that the local W. C. T. U.  
is so soon to have a hall, a territorial  
paper, another mothers' meeting and  
Oh, lots of nice things?

Life Saved by Electric Light.  
An interesting calculation has recently  
been made which shows that when  
the electric light has been introduced,  
gas, oil lamps and candles, there will be  
6,000 less deaths annually, those be-  
ing so much more unhealthful than  
electricity. In like manner there will  
be far less sickness in the world, when  
every one learns to check the inroads  
of dyspepsia with Hostetter's Stomach  
Bitters. Constipation, indigestion, bil-  
iousness, fever and ague and malaria  
are but danger signals, proclaiming a  
diseased condition of the stomach. Good  
digestion is at the base of perfect nu-  
trition. The Bitters strengthens the  
weak and cures all disorders arising  
from mal-nutrition. Every one would  
do well to try it. See that our Private

AN IMPORTANT DIFFERENCE.  
To make it apparent to thousands

Case of Mrs. Rich.  
Word comes from Chihuahua that the  
supreme court of the state will this  
month pass finally upon the case of  
Mrs. Mattie Rich, who was convicted of  
the murder of her husband, John D.  
Rich, and sentenced to fourteen years  
imprisonment in the state penitentiary  
by the judge of letters at Juarez, Lie.  
Arriola Gonzalez. The case has now  
been before the court for eight  
months for action. It is one of interna-  
tional importance, having been the first  
case to arise wherein the surrender of  
an American citizen was demanded by  
Mexico, and as the deceased was well-  
known in this city, the case attracted  
considerable local attention.—El Paso

# IN SAN MIGUEL COUNTY.

Collection of Short Paragraphs About  
People of the Las Vegas Towns.

## COURT AND OTHER MATTERS.

Las Vegas visitors witnessed quite a  
lively snow storm Monday night and  
Tuesday morning.

Joe Waddingham, brother of Wilson  
Waddingham, deceased, is an agent  
typewriter in the Las Vegas region.

A. R. Fitch, formerly of this city, is  
at Las Vegas, and has forged ahead as  
one of the best architects that town.

Mrs. W. R. Kistler, the venerable  
mother of Russ Kistler, editor of the  
Optic, is reported ill, but her condition  
is not alarming.

Frank Willis, for years a resident of  
Albuquerque, is now living in the old  
town of Las Vegas, and reports himself  
getting along nicely.

Juan J. Herrera, who is a well known  
politician in San Miguel county, is a  
candidate for the position of sergeant-  
at-arms of the territorial council.

W. A. Givens, formerly of Albuquerque,  
is conducting a lively business on  
the west side of town. F. Clay is his  
partner. Clay & Givens constitute a  
good firm.

Ralph Halloran joined the Albu-  
querque colony at the Casino on  
Tuesday, coming in from the north.  
He proceeded south on the first section  
of No. 11 yesterday afternoon.

Cy D. Boucher, ex-passenger con-  
ductor, is conducting a first-class gro-  
cery store on the west side, and he is  
doing a big business. Cy is a  
passenger wreck, near Trinidad, some  
time ago, in which his face, head and  
hands were badly disfigured.

W. B. Childers, the United States at-  
torney, appeared Tuesday at the court  
engaged in assisting Mr. Money in re-  
presenting the government in the case  
against J. H. Teitelbaum. George P.  
Money is the able assistant United  
States attorney at Las Vegas.

San Miguel county will be repre-  
sented in the territorial council by Chas.  
A. Spiess and Frank Springer, two well-  
known and popular attorneys of Las  
Vegas. Both gentlemen are now at  
work on certain reform measures which  
they will introduce and advocate at the  
approaching territorial legislature.

Mrs. P. H. Kent and daughter, Miss  
Margaret, and Miss Irene Saint, came  
in from the south on Tuesday and took  
dinner at the Casino, being met by  
the Las Vegas depot by Attorney E. L.  
Medler. Mrs. Kent and daughter pro-  
ceeded on to Kansas City, and Miss  
Saint to Newton, Kan.

T. S. Earl, who wrote a lengthy let-  
ter to the management of the Las Ve-  
gas Record going into details about his  
qualifications as an editor and all-  
round printing office man, failed to  
come up to expectations and after one  
week's service was let out by Manager  
Blood last Saturday night.

Las Vegas people are mourning the  
death of Charles W. Wylie, the first  
mayor of East Las Vegas, which oc-  
curred the other day in the City of  
Godsburg, Pennsylvania. The deceased  
was a well-known railroad contractor  
of the southwest. His family now re-  
sides in Colorado Springs, Col.

The Albuquerque delegation, forced  
to remain at Las Vegas on court mat-  
ters, enjoys themselves hugely crack-  
ing jokes and telling hairbreadth expe-  
riences in the southwest. Judge Stans-  
bury is considered the Mark Twain of  
the party, and Forest McKinley the  
"Gentle Giant." The party is not far  
from Judge Stansbury as a good  
story-teller.

The Agua Fria Water and Ice com-  
pany, which furnish a good supply of  
water and ice to the people of the west,  
has been joined by its estimate wife, and  
they have rooms at the Castaneda.

The incest case of the Varellos—father  
and daughter—came to a close Tuesday  
night by the jury returning a verdict  
against both. They will serve sentences  
in the territorial penitentiary.

The Raton kid, Sweeney, who took a  
letter from the postoffice belonging to  
the First National bank, of that town,  
was sentenced Tuesday by Judge Hall  
to one year in the reformatory at  
Golden, Col., but sentence was sus-  
pended on good behavior. The boy was  
turned over to his father, who promised  
the court that he would try to save the  
boy from serving a term in a reform  
school or penitentiary.

R. L. M. Ross, who for many years  
has officiated as the efficient and popu-  
lar deputy probate clerk of San Miguel  
county, will step out on January 1, and  
devote his time in the future to pushing  
some of his personal affairs. Mr. Ross  
is one of the best informed citizens of  
San Miguel county, and many friends  
regret that Gregorio Barile, who was re-  
elected probate clerk, has seen fit to  
retire Mr. Ross on January 1st.

Tuesday morning the Castaneda  
changed hands. Auditor Brown, of the  
Fred Harvey bath house system, and the  
superintendent John Stein, checking in  
the new manager, W. H. Cheatham  
transferred from the Hatchinson, Kan.  
house. Mr. Cheatham is accompanied  
by his wife. The retiring manager, W.  
J. Cheatham, has resigned from the list  
of eating house managers, and will re-  
turn to Chicago. Robert Mulge, the  
chief clerk, is retained by Mr. Cheatham.

The Plaza hotel is now owned and  
conducted by William Carlos Bailey.  
Mr. Bailey, for three years manager of the  
Montezuma hotel at the Hot Springs,  
James A. Nab is the manager of the  
Plaza hotel under Mr. Bailey, and the  
hotel is doing a good business. Quite a  
number of families are stopping at the  
Plaza, among them Fred Y. Vapp and  
wife from Hamilton, Ontario, who are  
on route to California, but are stopping  
over at the important southwestern  
towns. They are expected here in a few  
days.

The case of J. H. Teitelbaum, for  
using the mails for fraudulent pur-  
poses, was finally called for trial yester-  
day afternoon before Judge Mills, and  
after three days of testimony, the jury  
returned a verdict of guilty. The de-  
fendant, who was represented by J. B.  
McCreight, two witnesses from Albu-  
querque, got in their testimony just in  
time to catch the delayed train No. 17  
for home. Mr. Albright returning on the  
first section and the latter on the sec-  
ond section. O. S. Fryburg and G. B.  
Denny, two other witnesses from Albu-  
querque, will return to their homes this  
evening.

James S. Duncan, with Nick Chaffin,  
carry on the only livery business in the  
new town of Las Vegas, and their re-  
port business excellent. "I got out of  
politics this year," said Mr. Duncan,  
"by a very narrow margin, and am glad  
of it. The party wanted me to run for  
the territorial council again, but I had  
been elected, after which I rolled up my  
sleeves and helped assist the republican  
ticket from top to bottom." Mr. Dun-

can was in the territorial council two  
years ago.

The street car line between the two  
towns of Las Vegas is in a most dilap-  
idated condition, likewise the cars and  
horses. A driver informed an Albu-  
querque visitor yesterday that the cars  
are never repaired, and that some of  
the horses in use, especially the two  
old grays, are 25 and 30 years old respec-  
tively.

Seoundino Romero is the efficient dis-  
trict clerk under Judge Mills. He is a  
popular republica politician, and is  
a most courteous gentleman.

## LOCAL PARAGRAPHS.

The Ladies' Aid society of the Lead  
avenue Methodist church held a busi-  
ness meeting this afternoon at the  
church.

Mrs. Ed. B. Harsch is entertaining  
her friend, Mrs. J. Swartz, of St. Joe,  
Mo. The lady arrived from the west  
last night.

The Ladies' Aid society of the Pres-  
byterian church are meeting with Mrs.  
R. M. Craig, 615 South Arco street,  
this afternoon.

There will be a meeting of St. John's  
Guild on Friday afternoon at 2:30 o'clock  
at the vestry. Business of importance  
to be transacted.

Mr. and Mrs. J. R. Duncan, parents  
of Mrs. Carl and Frank Hopping, left  
this morning for their old home in  
Hurlington, Iowa, after a pleasant  
visit of four months.

Mr. and Mrs. J. J. Johnson and Mrs.  
J. A. Anetche, of Silver City, returned  
from a trip to Los Angeles last night,  
and will continue on homeward after  
spending to-day here.

E. H. Holman, of Chicago, the partner  
of Mr. Anetche, and one of the contrac-  
tors for the new hotel and depot, came  
in last night and will lend his assist-  
ance to pushing the work along.

The Trinidad Chronicle says that Miss  
Marguerite Burns, daughter of the Hon.  
T. B. Burns, of Trinidad, arrived in the  
territory has returned home after a visit  
with her sister, Mrs. P. H. Mur-  
ray.

Major Ernest Meyers has returned  
from Denver. He ran into some severe  
cold weather in Colorado and quickly  
decided to strike out for home, where  
he knew he would be comfortable, be-  
sides he was not at all well during his  
trip.

The Talbot property at the corner of  
Second street and Railroad avenue, now  
occupied by B. Ruppe and others, is  
to be sold December 17th. This is  
done to settle some litigation over the  
estate, and to provide funds to pay off  
some debts.

At the special session of the city  
council held yesterday afternoon, the  
contract for building the sidewalks  
that have been advertised to be built by  
the city, was awarded to Stevens &  
McClintock, who have between 800 and  
1,000 feet to be built.

There was a very pleasant reception  
last night at the hospitable home of  
Mr. and Mrs. W. L. Hathaway on  
North Second street. Mrs. Hathaway  
gave a most excellent dinner, and the  
guests of the city, the guests of  
honor being Mr. and Mrs. O. A. Mat-  
son.

The regular semi-annual election of  
officers of Albuquerque Emancipation  
club, will be held to-night.  
The club is a social and literary club,  
and after the business session an oyster  
supper will be served, and a smoker.  
With its usual talk will follow. Every  
patriarch in the city is invited to at-  
tend.

Mr. and Mrs. C. W. King, of North  
Fourth street, are expecting their  
daughter, Mrs. Myra Suddler, of Joplin,  
Mo., to pay them a visit in a few days.  
Mrs. Suddler was one of Albuquerque's  
most popular young ladies, and her  
many friends here will be pleased to  
see her.

Mrs. J. J. McDonald and son, Claren-  
ce, passed through this city the other  
afternoon en route to Chicago, where  
Mr. McDonald is the city clerk of  
Heard's Chicago American. Mrs. Mc-  
Donald was born and raised in Califor-  
nia and this is her first trip away from  
that state.

Starkie, the ball player who played  
short stop for the Browns here last  
September during the tournament held  
at the time of the street carnival, and  
who played a game that will not soon  
be forgotten, is said to have been  
signed by the Cleveland club of the  
American league for next season.

There is a probability that the foot  
ball team from the College of Agricul-  
ture and Mechanic Arts at Las Cruces  
will play the eleven of the Indian school  
here on Saturday. The media valley  
boys play the Normal school team at  
Las Vegas on Thanksgiving day, and  
expect to win. In the Indian school  
team they expect a very close game.

Since the putting on of the California  
line, the passengers of the city and  
La Junta have stop-overs in the ter-  
ritorial metropolis much to their grati-  
fication. The personnel is now as fol-  
lows: Conductor, H. L. Lewis, R.  
Snyder, A. W. West, H. P. Hayes, C.  
H. Stevenson, A. P. Gatchell, W. J. Fu-  
gate and Jerry Quinn.

Owing to the new hotel and depot be-  
ing placed across Gold avenue, the  
Electric Light company are compelled  
to move the poles carrying the service  
wires which have heretofore stood on  
the above avenue and the railroad  
tracks. A number of poles of extra  
size and height will be placed on Rail-  
road avenue sufficient to carry the  
present service, and considerable in-  
crease in the future.

## RHEUMATISM

No sure cure is yet known  
for chronic rheumatism. No  
man living can cure it always.  
He can try. If he fails he can  
try another way.

There are many ways.  
Some harmless; others worse  
than the rheumatism. Better  
not take the chance of quick  
medicines.

Scott's emulsion of cod-liver  
oil cures rheumatism only by  
crowding it out by vital force.

If that succeeds, it succeeds; if  
that fails, it fails. It never  
does any harm.

We'll send you a little to try if you like.

LUXURY

finds his favorite seat in one of our easy chairs that make sitting the climax of graceful repose. Reading in such a chair gives the lady a double pleasure. Civilization is distinguished by nothing so much as by its easy chairs, which have nothing in common with the hardwired back breakers of our ancestors except that both were meant to be sat upon. The easiest chairs on earth are none too easy to occupy, and our chairs are certainly ideals of absolute comfort. Make yourself as comfortable as possible by getting one of our chairs.
