TERRIBLE CYCLONE

Town in Tennessee Almost Wiped Out.

No Arizona Indians on the War Path.

Governor Murphy of Arizona Pardons Innocent Man From Penitentiary.

STORM AT SAN FRANCISCO.

Columbia, Tenn., Nov. 21.—A terrible cyclone, moving in a northwesterly direction, struck this place at 3:30 last night. The northern half of the city, populated principally by negroes, were almost entirely swept away. Fifteen persons are known to have been killed. The homes of the dead are: Florence and Evelyn Perrelli, Capt. A. F. Aydolette, wife and son, another son and daughter missing; Miss Kate Forsythe, James Cherry; six negroes, names unknown.

The cyclone lasted about five minutes and its path, about a thousand feet wide, is clearly marked by devastation, and get a pack of highest quality playing cards, having our American heroes' faces on the court cards. Just like other cards in every other respect—practical, and easy to read. New and novel. Malt Nutrine department, Alhambra Hotel, Brewing Association, St. Louis, Mo.

Nashville, Nov. 21.—The storm last night was the most destructive in many years. Two lives are reported lost and much damage done at Lava-gast. Six miles from Nashville, at Thompson station a child was killed. Two persons were killed and several fatally injured at Nolensville.

Louisville, Ky., Nov. 21.—Telegraphic communication in the path of last night's storm, is still interrupted, and no definite information has been received as to loss of life or extent of damage.

Near Nolensville, Miss. Jennie Hamilton was killed; James Hampton internally injured; will die; James C. Christiana is missing; Mrs. Bromie is killed.

Kansas City, Nov. 21.—A telegram received at the general offices of the Kansas City, Ft. Scott & Memphis railroad this morning, from Memphis representatives, says that the train which was lost in last evening's tornado at and near La Grande, Tenn., and the property damage amounts to nearly \$40,000.

San Francisco, Nov. 21.—A severe storm prevails over northern California, and telegraphic communication is interrupted. The Southern Pacific company has ordered out snow plows on the Central Pacific line. This is the first time in ten years a November storm made such an order necessary.

NOT ON WAR PATH.

Apache Indians of Arizona Peaceful and All on Reservations.

Phoenix, Ariz., Nov. 21.—A message received here from the San Carlos reservation, says that no Indians have left the reservation, contradicting a belief that the Apache band, which has been on the war path in Mexico, came from San Carlos. There are no indications of uneasiness among the San Carlos Apaches.

A dispatch from Casas Grande, Mexico, states that the fight reported there between the Mexicans and Indians was grossly exaggerated. Near Colonia Pacheco whites were fired on by a few wandering reds, who plundered estates from a ranch house. One Indian is said to have been killed and another wounded.

Deserved a Pardon.

Phoenix, Ariz., Nov. 21.—Gov. Murphy commuted to four years the sentence of John C. Scholz, who has served three years of a ten years' sentence. The imprisonment was the result of conviction for stage robbery and the

COLORADO STORM.

Wires Down Late This Afternoon.

Chinese Troops Resist Allied Forces.

European Powers Driving the Chinese to Desperate Resistance.

STORM IN OHIO.

A severe storm in Colorado broke down the wires south of Denver, cutting off the Associated Press Report to the Citizen at 5 o'clock.

Chinese Resist Expedition.

Berlin, Nov. 21.—Count Von Waldersee cables from Peking that he has advised from Col. York's corps showing that the Chinese general, Ho, with 10,000 regulars and much artillery, is near Kalgan, prepared to resist energetically further advance of the expedition. Col. York will wait reinforcements before attempting to proceed.

China Driven to Desperation.

New York, Nov. 21.—According to the highest official authority, says a Herald special from Washington, events are hurrying us to a point where in the interests of humanity, we must withdraw from the contest of nations. Plain warning will be given the powers, and if they still persist in the policy calculated to drive the Chinese to desperation, the only thing left will be to enter into independent negotiations with the Imperial government, such a course would be undoubtedly followed by Russia and France.

Not Believed.

London, Nov. 21.—The reported death of Gen. Schalkburger, acting president of the Transvaal, since President Kruger's departure, is discredited here. A rumor that he died at Johannesburg Nov. 9 lacks confirmation.

Big Land Deal.

W. E. Washington, the big Hereford cattle raiser, has purchased 5,000 acres of land from the Roswell Land and Water company, increasing his possessions in the Pecos valley to 15,000 acres, all in one block.

Irrigation Company Reorganized.

The Pecos Valley Irrigation company has been reorganized and the new company will commence operations about the first of next year. The management will then pass from the hands of the receiver into those of the new organization.

New Mexico Boy Honored.

Sam Agas, one of Grant county's most popular young men, has been appointed valedictorian of his class in the St. Louis college of pharmacy. This is the highest honor conferred upon students by the college and the young man is to be congratulated upon receiving the appointment.

Going to Washington.

Governor M. A. Otero will, on the 25th of next month, make a trip to Washington, to attend a reception given to all the governors of the United States by President McKinley.

Big Shipment.

Last Friday 150,000 pounds of wool were transferred from the Denver & Rio Grande railroad to the Santa Fe railroad at Santa Fe for shipment to the east. The wool comes from Espanola.

Captured a Badger.

F. H. Pierce succeeded in capturing a 7-pound badger that was burrowing its way through the large dam of the Agua Fria company, on the canyon, this morning. It was indeed fortunate that the discovery was made at the time it

FEAR ATTACKS!

German Troops in China Expect Assault.

Considerable Firing From Tien Tsin.

Jealous Kansas Woman Cuts Her Rival's Throat and is Arrested.

KRUGER REACHES FRANCE.

Tien Tsin, Nov. 21.—There has been a considerable amount of firing recently in the vicinity of Tien Tsin, owing to a report that the German office in the city would be attacked last night. The German sentries were doubled and an officer patrolled on the opposite side of the river. The remainder of the German troops were ordered to hold themselves ready for action on an instant's notice.

Nothing happened, but to-day all the Chinese servants of the officers of the Bengal lancers left, saying that they had been informed that the Boxers were marching on Tien Tsin and Peking.

Neither General Campbell, of the British troops, nor Colonel Moale, of the Americans, believe this.

CUT HER THROAT.

Jealous Kansas Woman Cuts the Throat of Her Rival.

Eldorado, Kan., Nov. 21.—Miss Jessie Morrison, charged with killing Mrs. G. Olin Castle last June, by cutting her throat with a razor, was placed on trial here to-day. Miss Morrison alleges that the motive for the murder was jealousy, she having been a former sweetheart of Castle, a clerk in a local racket store.

Miss Morrison, who is 26 years old, is the daughter of former Probate Judge M. H. Morrison. Mrs. Castle was Miss Mary Wiley.

Mrs. Castle lived eighteen days after being cut. Before she died, she made a statement declaring that Miss Morrison attacked her without provocation, and sent word forgiving her.

Miss Morrison says that Mrs. Castle attacked her with a razor and in the struggle that followed, she wrested a weapon from her adversary and inflicted several slashes on her victim's throat.

Range Ranches Fringe.

Marquette, Nov. 21.—The Dutch cruiser Delphin, having on board former President Kruger, is reported off Toulon. The reception of Kruger is liable to be postponed until to-morrow. The Gelderland cannot reach Marquette before 6 o'clock this evening.

Money to loan on diamonds, watches, or any good security. Great bargains in watches of every description.

H. YANOW, 209 South Second street, few doors north of postoffice.

A large line of Hattenberg patterns, plain and stamped linens, at Mrs. Wilson's, 214 South Second street.

Catholic Order of Foresters.

Applicants for a charter for a subordinate court of the Catholic Order of Foresters, please do not fail to attend the first preliminary meeting Thursday, November 22, at 7:30 at Saint Mary's church.

MONEY TO LOAN.

On diamonds, watches, etc., or any good security; also on household goods stored with me; strictly confidential. Highest cash price paid for household goods. T. WHITTELL, 114 Gold avenue.

WOUNDED MAN DEAD.

Robert McCanstant, the insane man who was shot at Phoenix, Arizona, by Deputy Sheriff Barmann of Navajo county, while the latter was trying to escape, died from the effects of the wound.

McCanstant created considerable excitement recently by crazy actions in the vicinity of Holbrook. A post mortem examination revealed the fact that his condition was caused by a slight depression in the skull, which could have been relieved in 15 minutes by a physician.

Shattered an Arm.

A serious accident happened to Lee Upton last Friday afternoon, and one that will probably disable him for a few weeks. While he and Albert Green were throwing stones at a burro young Upton had the small bones in his right forearm shattered. It seems that a stone that young Green threw at the burro missed the animal and struck Lee Upton. Both boys are the best of friends, and the mishap was purely an accident. Dr. Wells dressed the injury. —Deming Herald.

Eggs Going Up.

Eggs have taken an upward jump in price since last week, and are now selling at 16 per case instead of 14, which was the price a few days ago and are scarce at that. The packing trust caused the rise by cornering the market. It is predicted that 50 cents per dozen will be the price by Thanksgiving if the rise continues.

Died at the Hospital.

Mrs. Elizabeth Harold, who came to Grant county from California only a few weeks since in the hope of benefiting her health, died as she was being admitted to the Sisters' hospital for medical treatment. Mrs. Harold, who as Elizabeth Crawford passed her girlhood in Grant county, had been in ill health for some time past, and since her arrival here, has been residing with the family of Mrs. Jessie Dickerson on the Mangas.—Deming Herald.

Down in southern New Mexico there is a well defined rumor to the effect that Major W. H. H. Jewell of Las Cruces, will be a candidate for appointment as governor of New Mexico, under the new McKinley administration.

Spooked salmon, fancy halibut, codfish, Norway mackerel, pickled herring, Golden bladders, Roll 'em up. Holland Fett Milchners, sardines, bulk, etc. Just received at the San Jose Market.

W. B. conveys the most comfortable to the wearer, and give a more graceful figure than any other corset made. See the new erect form corset in black, white and gray. B. Ifield & Co.

Washington, D. C.

ALBUQUERQUE, — NOV 20, 1901

Bryan has a plurality in Colorado of 25,000.

El Paso has organized a prosperous sports club.

San Francisco securities are rapidly journeying toward par.

The Pennsylvania railroad company has ordered 4,000 cars within a week.

The clan McMillen of Scotland assert that the highlands always whip the lowlands.

The thirty-fourth legislative assembly will convene at Santa Fe on Monday, January 21.

Having settled the library question, let's get in a good humor and try to get another railroad.

The New Mexican is advertising for good sized cotton tags. Probably needed to use on political sore spots.

The Santa Fe has contracted with the American Car and Foundry company for eleven passenger coaches.

The good roads convention in Chicago should bear in mind that hell is said to be paved with good intentions.

Greater New York's budget for 1901 shows that over \$38,000,000 has been added to the cost of its government.

Even the democratic newspapers admit that Bryan is a hard man to elect. He is also a hard man to discourage.

The United States forces in the Philippines have begun a movement to crush the rebels in the island of Samar.

The Herald says that the big Deming shoe factory is an assured fact, and work is apt to be commenced on it any day.

Three suicides within a week in this city is convincing proof that people forget that they will be dead a long time.

The completed count shows that Bryan carried New York city by 72,621 plurality, while McKinley carried the state by 345,463.

Exports for October and also for the first ten months of the year break all records in the history of American commerce.

Work on the new Deming ore concentrator is progressing rapidly, and it will only be a few weeks more before the fire will be kindled.

The Bureau of Navigation, treasury department, reports that 112 vessels of 35,242 gross tons were built in the United States during October.

The markets of the world are surprised by a greater republican prosperity than they expected, even after another republican victory.

Dubs says he is going to keep on running for the presidency, but Wharton Barker has about made up his mind to go into some other business.

Nothing in the nature of a labor strike has been threatened or threatened since it became known that President McKinley was re-elected.

The Union Pacific railway shops in Denver have been reconstructed and will be opened December 1, as Pullman shops, employing about 400 men.

The peaceful result of the election in Porto Rico has determined the administration to withdraw all but about 400 regulars. Some more of Bryan's predictions gone wrong.

The first mail carried in the United States was from New York to Boston on a once-a-month schedule. Now everybody is clamoring for a daily free delivery at every household.

The Santa Fe has contracted for sufficient new steel rails weighing 100 pounds to the yard to relay 100 miles of main line track. Some of the steel will be used on the Texas lines of the system.

Between 1,000 and 1,500 engineers and firemen on the Chicago, Milwaukee & St. Paul system have been notified that material concessions in the matter of pay and working time have been granted to them.

Kansas farmers continue prosperous, and many of them are now buying chainless bicycles. They probably buy chainless wheels so that there will be no danger of catching their whiskers in the sprocket wheel.

There is some complaint about high prices, but not nearly so much as there always is during a time of low prices. High prices and low times always go hand in hand. Low prices and hard times seem to be inseparable.

District Attorney S. Alexander and W. E. Martin, of Socorro are in the city. During the recent campaign they were active workers for the republican party. Mr. Martin stumped the entire territory for Mr. Rodey, and helped roll up the big majority for the republican candidate for delegate.

SUMMARY OF THE CENSUS.
Taking the social status of the units of the population, the census of 1900 places the United States at the head of the civilized powers in preponderance of population. According to this enumeration the United States has 75,000,000 inhabitants, which is 21,000,000 more than the United Kingdom, including Canada, Australia and the white population of South Africa; 24,000,000 more than the German Empire; 21,000,000 more than Austria-Hungary; 27,000,000 more than France. Russia alone, among the advanced powers, exceeds the United States in population by 50,000,000; but in the economic and social status the average unit is much below that of any of the other leading countries of the world. The rate of the growth of the population of the United States is greater than that of any other country, though the percentage of increase during the past decade is somewhat lower than that of the preceding ten years. The natural growth of the population of the United States is supplemented as in no other country by a large and still

impressive volume of immigration. During the last five years no less than 1,258,000 persons came to this country for permanent residence, from the various sections of Europe.

YOUR SPARE MOMENTS.
How much time do you have that belongs to you?

When your day's work is done and you are independent of your employer, what do you do with the margin that is yours?

Do you waste it in worldly pleasure or divide it equally between improvement and pleasure?

Don't you think it better to adopt the latter plan?

Suppose you get home from work every night at 6 o'clock. There's a long winter's evening before you. If you are a young man, instead of spending the night after night with the boys or at the theater, devote say two evenings during the week to reading standard works, or the best novels. Then there are some musical instruments to learn or law to read, literary or gymnastic clubs to join, and in fact any number of ways to improve the margin that belongs to you.

It makes little difference what time of business you may be engaged in. A constant employment of 10 per cent of your spare time in a profitable manner is better than having your whole effort upon the performance of your regular duties.

And when you have become used to filling in the margin of your life with some useful pursuit, you will find that it will give you good effect upon the performance of your regular duties.

And when you have become used to filling in the margin of your life with some useful pursuit, you will find that it will give you good effect upon the performance of your regular duties.

IRRIGATION CONGRESS.
The Irrigation Congress has assumed a national character, and the program which has been prepared for this session will attract wide attention. Some of the most prominent men of the country will speak, including senators and members of congress, government officials, and some of the leading business men of Chicago, who see the chance for the development of trade through the opening of the west through irrigation. The great Auditorium theater, which seats 4,000 people, has been secured for the evening sessions and illustrated lectures will be given on forestry and irrigation.

According to the Railway Age the railway companies, without exception, were for sound money and business expansion, and they will now push forward extensive improvements in calling for bridges, rails, locomotives, cars and every kind of manufactured article used in construction, equipment and operation, giving employment to labor and capital in every part of the country.

Work of reducing grades on the Emporia cut-off of the Santa Fe railroad is in rapid progress, and a modern steam shovel is in use which is a wonder. Although the men in charge of it have not become very well accustomed to its operation, they can cut and load five carloads of dirt in fifteen minutes. A dipperful is three cubic yards, equal to three wagonloads.

Gradually the work of the big factory is increasing. The Joint plant of the Illinois Steel company has resumed operations in all departments, except the three red mills. This will accept about 2,000 men at work. It is reported that there are a number of orders on hand, and the prospects are good for a steady run of several months.

Within two weeks' time the movement of California fruit will begin and all the railroads that handle this class of business are making extensive preparations to carry heavy shipments. The yield this year has been unusually prolific and the demand for transportation facilities for eastern markets will be something enormous.

Life Saved by Electric Light.
An interesting calculation has recently been made which shows that when the electric light has entirely displaced gas, oil lamps and candles, there will be 4,000 less deaths annually, there being so much more unhealthful than electricity. In like manner there will be far less sickness in the world, when every one learns to check the thousands of dyspepsia with Hostetter's Stomach Bitters. Constipation, indigestion, biliousness, fever and ague and malaria are but danger signals proclaiming a diseased condition of the stomach. Good digestion is at the base of perfect nutrition. The Bitters strengthens the stomach and cures all disorders arising from mal-nutrition. Every one would do well to try it. See that our Private Revenue Stamp covers the neck of the bottle.

Reclaiming Alkali Land.
The removal of alkali from irrigated land, brought there by impregnated water from artesian wells, has been one of the problems of farming in the west. Dr. P. P. Tyson, of the United States state of Washington, is said to have a plan which has worked admirably, and which has been called to the attention of government agricultural experts.

The method is a system of sub-irrigation, for the speedy and economic introduction of which he has invented a machine. What the system will do has been shown in a field of alfalfa and clover now growing on land that two years ago was a bed of alkali upon which salt grass would scarcely grow. About fifty acres have been treated and fifteen acres have been seeded. This year six large haystacks adorn the tract, the first cutting of mixed clover and alfalfa yielded three tons to the acre; the second is yielding two tons, and it is said a finer quality is not to be found in the state.

The drainage tiles are laid four feet below the surface by an implement resembling a grub, which is dragged by a wire cable, working around a wheel, operated by two horses. The investigation and government report on this plan will be awaited with interest by farmers throughout the entire arid region.

Cut prices on guitars, mandolins, violins, etc., at Broome's.

Clerk is Coming.
Senator W. A. Clark of Montana, owner of the United Verde and Iron King mines at Jerome, will visit Arizona next week to take up the matter of big improvements on his property. Either a railroad will be built from the Iron King to Jerome, or a smelter will be erected at the mine.

Awarded Highest Honors—World's Fair Gold Medal, Midwinter Fair.

DR. PRICE'S CREAM BAKING POWDER

A Pure Cream of Tartar Powder. MAKES THE STANDARDS

OFFICIAL MATTERS.

J. L. Stanton has been appointed postmaster at Lynn, Colfax county, vice S. C. Elliott, resigned.

P. H. Loughran, clerk in the receiver's office at the federal building in Santa Fe, has handed in his resignation to Hon. E. F. Holart, the receiver of the local land office.

OFFICIAL RETURNS.
Territorial Secretary Wallace has received the official election returns from San Miguel, Colfax, Mora and Socorro counties. Union county is now the only county still to be heard from.

MR. ROBEY'S MAJORITY.
From the official returns so far received and from unofficial returns, the New Mexican figures that the majority of Hon. R. B. Robey over O. A. Larrar is 3,733, and the total vote cast at the November election in New Mexico was over 39,000.

SCHOOL REPORT.
Superintendent of Public Instruction M. C. de la Baza has received the report of the county superintendent of Lincoln county which shows that the county has 21 school districts, 19 schools, 23 teachers, 800 pupils enrolled, 1,749 pupils of school age, and that school was taught 83 months, that the receipts amounted to \$9,400.35, the expenditures to \$8,733.85, leaving a balance of \$3,716.60.

TERRITORIAL FUNDS.
Territorial Treasurer J. H. Vaughn has received the following remittances: From Jacob Schullin, collector of Dona Ana county, \$22.96 of 1898 taxes; \$536.96 of 1899 taxes, of which \$242.96 is for territorial purposes and \$125.15 for institutional institutions; from Abraham Abeyta, collector of Socorro county, \$45.67 of 1899 taxes; from Fred Muller, collector of Santa Fe county, \$113.50 of 1899 taxes; from J. C. Larrar, collector of Pecos county, \$27.20 for territorial purposes and \$27.20 for territorial institutions; and \$78 of 1900 taxes.

AN INCORPORATION.
Jared G. Salern, William A. Lang, Martin E. Crow, James Ross, Louis Smallfield, Augustus H. Fox, Fred M. Nichols, George Owen, Edward Owen, seats 4,000 people, has been secured for the evening sessions and illustrated lectures will be given on forestry and irrigation.

According to the Railway Age the railway companies, without exception, were for sound money and business expansion, and they will now push forward extensive improvements in calling for bridges, rails, locomotives, cars and every kind of manufactured article used in construction, equipment and operation, giving employment to labor and capital in every part of the country.

Work of reducing grades on the Emporia cut-off of the Santa Fe railroad is in rapid progress, and a modern steam shovel is in use which is a wonder. Although the men in charge of it have not become very well accustomed to its operation, they can cut and load five carloads of dirt in fifteen minutes. A dipperful is three cubic yards, equal to three wagonloads.

Gradually the work of the big factory is increasing. The Joint plant of the Illinois Steel company has resumed operations in all departments, except the three red mills. This will accept about 2,000 men at work. It is reported that there are a number of orders on hand, and the prospects are good for a steady run of several months.

Within two weeks' time the movement of California fruit will begin and all the railroads that handle this class of business are making extensive preparations to carry heavy shipments. The yield this year has been unusually prolific and the demand for transportation facilities for eastern markets will be something enormous.

Life Saved by Electric Light.
An interesting calculation has recently been made which shows that when the electric light has entirely displaced gas, oil lamps and candles, there will be 4,000 less deaths annually, there being so much more unhealthful than electricity. In like manner there will be far less sickness in the world, when every one learns to check the thousands of dyspepsia with Hostetter's Stomach Bitters. Constipation, indigestion, biliousness, fever and ague and malaria are but danger signals proclaiming a diseased condition of the stomach. Good digestion is at the base of perfect nutrition. The Bitters strengthens the stomach and cures all disorders arising from mal-nutrition. Every one would do well to try it. See that our Private Revenue Stamp covers the neck of the bottle.

Reclaiming Alkali Land.
The removal of alkali from irrigated land, brought there by impregnated water from artesian wells, has been one of the problems of farming in the west. Dr. P. P. Tyson, of the United States state of Washington, is said to have a plan which has worked admirably, and which has been called to the attention of government agricultural experts.

The method is a system of sub-irrigation, for the speedy and economic introduction of which he has invented a machine. What the system will do has been shown in a field of alfalfa and clover now growing on land that two years ago was a bed of alkali upon which salt grass would scarcely grow. About fifty acres have been treated and fifteen acres have been seeded. This year six large haystacks adorn the tract, the first cutting of mixed clover and alfalfa yielded three tons to the acre; the second is yielding two tons, and it is said a finer quality is not to be found in the state.

The drainage tiles are laid four feet below the surface by an implement resembling a grub, which is dragged by a wire cable, working around a wheel, operated by two horses. The investigation and government report on this plan will be awaited with interest by farmers throughout the entire arid region.

Cut prices on guitars, mandolins, violins, etc., at Broome's.

Clerk is Coming.
Senator W. A. Clark of Montana, owner of the United Verde and Iron King mines at Jerome, will visit Arizona next week to take up the matter of big improvements on his property. Either a railroad will be built from the Iron King to Jerome, or a smelter will be erected at the mine.

Awarded Highest Honors—World's Fair Gold Medal, Midwinter Fair.

DR. PRICE'S CREAM BAKING POWDER

A Pure Cream of Tartar Powder. MAKES THE STANDARDS

He Tried a Sample Bottle

Nearly every day people come into drug stores and ask the druggists to recommend some medicine for their troubles. Very often they are told to take a sample bottle of Dr. Williams' Pink Pills. They take it, and find it so good, that they buy a full bottle. It is the best medicine for all the troubles that it cures. It is the best medicine for all the troubles that it cures. It is the best medicine for all the troubles that it cures.

Prof. F. J. Birtwell, the ornithologist, has secured a fine specimen of an Arctic horned owl that was shot near Bernadine. The habitation of this species is in the frozen north and it is seldom ever seen out of the limits of extremely cold countries. The bird has a very thick covering of downy feathers, as is usual with winged creatures of cold climates. The professor is much excited over his find.

While Albuquerque has had a warm rain that was very welcome, and a little wind for a few hours yesterday, with sunshine from 10 at intervals, and on the whole only a little uncomfortable weather, all points north of us have had snow and sleet and blizzards, while in the east the heavy snow storm and the reason has been raging, blocking adding railroads and hindering business. All hail to our climate.

Home Trading.
Home trading helps home business. A dollar spent at home comes back to the community.

Home trading helps build up the home city. Home trading permits the buyer to examine goods before they are paid for.

Home trading encourages home merchants to keep a larger stock of goods and to reduce prices to the lowest margin of profit.

Home trading gives opportunities for profitable employment to many clerks, errand boys and other employees.

Home trading helps your business, whatever it is. Do you trade at home?

School Reports.
Superintendent of Public Instruction M. C. de la Baza has received the report of the county superintendent of Guadalupe county, which states that there are sixteen school districts in the county, 15 male and 3 female teachers, an enrollment of 461 male and 324 female pupils; an average daily attendance of 604 pupils; 1,609 children in school age; 18 schools; 23 teachers; 57 months; receipts amounting to \$2,560.02; expenditures of \$2,130.00, and a balance on hand of \$2,560.02. The superintendent of the following counties: Bernalillo, Chaves, Grant, Mora, Rio Arriba, Santa Fe, Socorro and Valencia, report of the territorial institutions have thus far made the annual report to the superintendent of public instruction required of them.

Holiday Tickets.
Railroad tickets sold this year on account of Thanksgiving, Christmas and New Year holidays will have longer limits than hitherto allowed on this class of tickets. The Christmas tickets will be sold at a fare and one third for the round trip, will be on sale Nov. 27th, 28th and 29th, and will be valid for travel on the Santa Fe and Denver & Rio Grande roads for Christmas and New Year. The sale of tickets begins Dec. 22nd, lasts until Dec. 25th, and for New Year tickets until Jan. 1st. The round trip limit of all tickets to be until Jan. 2nd.

A fine line of cameras at greatly reduced prices at Broome's.

Railroad Earnings.
The gross earnings of fifty-three roads for the first week in November were \$5,533,064, against \$5,523,375 for the first week in November, 1900, an increase of \$9,689. Thirty-one roads show an increase and twenty-two a decrease. Since January 1 the roads referred to have earned \$369,427.51, an increase of \$44,966,676 over the \$324,460,842 reported for the corresponding period of 1899. For the longer period forty-seven show increases and six decreases.

MRS. GOULD'S VIEW.
Christian Idea of Wealth is Stewardship of Trust.

Helen Gould, in a letter to the Christian Herald tells the duties of the rich and says in part:

"The Christian idea of wealth is a stewardship of trust, based on personal pleasure, but on the welfare of others, which certainly seems nobler. Those who have more money than they need for the support of their families and for the necessities of life, have a duty to perform. There are many ways one can help.

"Children, and the sick and aged especially, have a right to our attention. The forms of work for them are numerous—from the kindergarten and day nurseries, and the industrial schools to the homes and hospitals. Our institutions of higher education require gifts in order to do the best work, for tuition fees do not cover the cost of the advantages offered. Certainly such societies as those in our churches, the Young Women's Christian association, the Young Men's Christian association, deserve our hearty co-operation.

"Many other forms of charity might be enumerated."

The Huge Buffalo Herds.
How quickly the huge herds of buffalo that the American plains were swept from the face of the earth. A recent careful count by a competent person places the whole number of animals of the kind living today at only 1,024. Dr. William T. Hornaday says in his book concerning the buffalo that it would have been as easy to count the number of lost lives in a forest as to calculate the number of buffaloes living at any given time during the history of the species previous to 1870.

BIG-HEAD CHILDREN
with long thin necks—you see them in every school—want Scott's emulsion of cod-liver oil, to build up their poor little shrunken scrawny bodies.

School will be of no use to them. Something will carry them off.

They have no play in them. There is no fun in playing, when everybody else can run faster, jump further, turn round quicker, and keep on longer.

Big head is no harm; let the body be big too.

We'll send you a little to try it for you. SCOTT & BOWNE, 101 Broadway, New York.

Business Locals.

Try a Brunswick ten cent cigar. Kleinworth's is the place to get your nice fresh steak. All kinds of nice meats.

The Brunswick ten cent cigar has just been awarded first prize at the Paris exposition.

Look into Kleinworth's market on north Third street. He has the nicest fresh meats in the city.

Ladies' furs in all styles and prices. These goods are strictly up-to-date in price and style. Rosenwald Bros.

James Fox Springs stage office, First street stable. Leave Albuquerque Mondays and Fridays at 5 a. m.

Second Fall ship. It of the celebrated "Walkover" shoes. Best \$1.50 shoes for men on earth. E. L. Washburn.

Grand values in curtains. Our variety is the largest, the styles and quality are attractive and the prices are much lower than anywhere else in the city. Albert Palmer, Grant building.

Special Sale this week of fine furs at the Economist.

The March Bottling Works are the only bottlers of the genuine Coyote Canon Springs Mineral Water, 213 S. First Street. New phone 245.

Special sale on all drug goods this week at H. B. Fields & Co's.

Winter goods at great reduction. Rosenwald Bros.

THE POPULAR SHOE STORE

C. MAY

208 N. RAILROAD

SECOND TO NONE

There you have it in a few words—a clear, bold and truthful definition of the kind of shoes we sell. You can't point to another shoe selling concern that will give you as big a value for your money as we do. Why? Simply because by buying and selling for cash and running our store on the lightest expenses in Albuquerque we can afford to undersell all the rest and save you money.

COMPARE

Our \$2.00 Men's and Ladies' Shoes with any \$2.50 shoe sold somewhere else.
Our \$2.50 Men's and Ladies' Shoes with any \$3.00 shoe sold somewhere else.
Our \$3.00 Men's and Ladies' Shoes with any \$3.50 shoe sold somewhere else.
Our \$3.50 Men's and Ladies' Shoes with any \$4.00 shoe sold somewhere else.

WE WILL LEAVE IT TO YOUR OWN DECISION WHICH CONCERN YOU WILL PATRONIZE.

There's a Feast in Store
For the family whose house-keeper makes her purchases for the Thanksgiving dinner at Bell & Co.'s. Please bear in mind that there you can obtain everything that gives zest to the meal—helps out the good old turkey. Citron, spices, seasoning of all kinds, say nothing of fruits which go to make up a prime Thanksgiving dinner. Get your orders in early.

If you want to save money fall in line and trade with us.

Rosenwald Bros.

TILTON IS DEAD.

The Locomotive Engineer Who Stabbed Himself Died Last Night.

Horace Tilton, the locomotive engineer who stabbed himself so severely in the breast yesterday morning, the particulars being given in full in last night's Citizen, died at ten minutes to 3 o'clock this morning. The remains are now at Strong's undertaking rooms. It has not been possible to learn anything more of Tilton's motives for killing himself. After his death a sum of money, amounting to nearly \$200 was found in his clothes, so that it was not for a lack of funds that he wished to die. Neither can the story of having a divorced wife here, or other family troubles be substantiated to any extent. He has told persons in this city that he was unmarried, and it is possible that his name has been confused with one similar of a man who did have trouble with his wife a short time ago here, or near here.

The local division of B. of L. E. have notified the division of Dunsmuir, Cal. by telegraph of Tilton's death, and asked for instructions regarding his burial. An arrangement will be made for the funeral until word has been received.

Baptist Convention.

The Baptist Territorial convention held at Las Cruces the past few days, was well attended, twenty-four out of the twenty-five Baptist churches in the territory being represented. The meetings were productive of much good, and the future prospects for benevolent work are bright. The following officers were elected: President, Rev. Bruce Kinney; Secretary, Rev. George Brewer; Treasurer, Rev. N. W. Alger. The fact that the above board of officers were all selected from Albuquerque, was from the fact that it was decided to have them located at one point for greater facility for consultation and work. Revs. Brewer, Alger and Mr. Kinney returned home yesterday. Rev. Kinney remained at Las Cruces and will assist Rev. Clinton Strong in evangelistic work. Rev. George Brewer will occupy the pulpit of the Baptist church here next Sunday in the absence of Rev. Kinney.

Lively Game.

The purple and white of the Las Vegas Normal university proved its superiority over the orange and black of the Baton high school in warmly contested games on Raynolds Field Saturday afternoon. Although the weather was abominable—in fact the worst of the season—change came during the game in its encouragement of the favorite team. The wind proved quite disastrous to some of the plays attempted in the basket-ball game, but it was very dry and an ideal day for the players of the four ball games.

The game closed 15 to 6 in favor of Las Vegas.

Grant County School Children.

The superintendent of schools for Grant county, has duly appropriated the school fund of said county and the amount of money subject to such appropriation is \$2,982.60. The total number of persons of school age is 2,732. The rate per scholar is 80 cents, which is apportioned to the several school districts.

Grand Opening Ball.

The new C. Colombo hall will be dedicated tonight with a grand ball. Di Mauro's orchestra will furnish the music. Luncheon will be served to guests. Tickets will be sold at the door. Everybody invited. Go to this ball and help a worthy society to pay for their new hall.

Fine Grazing Country.

Almost the whole eastern part of Guadalupe county, embracing part of the so-called staked plains, is covered with the finest of grama grass. Water is found within a few feet of the surface and it needs only the master hand's man to create a veritable paradise here.

Matter of Regret.

A rumor was in circulation this morning that Dolpo Aguilar, the escaped murderer, who was sentenced to hang for the murder of the Duke freighters a few years ago, had been killed, but unfortunately there seems to be no foundation for the rumor—Las Vegas Optic.

Crowded With Work.

The plant of the Silver City Reduction works in this city is being crowded to its full capacity these days, and the receipts have been so large that several times it has been found necessary to send the surplus to the El Paso smelter for treatment. Until within a few days the plant has been running to its full capacity—three furnaces—and then was compelled to close down one of the stacks on account of a shortage of coke. The suspension is only temporary, and the idle furnace will be blown in again during the present week. Over 50 per cent of the ore comes from the camps surrounding Silver City, the larger portion of the remainder being shipped in

from Arizona. It has been found necessary recently to erect several additional ore bins to handle the supply. It is stated on good authority that on account of the large increase, an additional furnace will be installed about the first of the year, and the capacity of the smelter increased to about 300 tons per twenty-four hours. Manager Harman is naturally feeling much elated over the showing being made, and it is needless to say that the people of Silver City are as much pleased as are the smelter managers, as it not only insures the permanency of the plant as a local industry, but its enlargement. At present the number of men employed in the Silver City Reduction works is never less than 150—Silver City Independent.

LUXURY

finds her favorite seat in one of our easy chairs that make sitting the climax of graceful repose. Reading in such a chair gives the lady a double pleasure. Civilization is distinguished by nothing so much as by its easy chairs, which have nothing in common with the hardwired back breakers of our ancestors except that both were meant to be sat upon. The easiest chairs on earth are none too easy to occupy, and our chairs are certainly ideals of absolute comfort. Make yourself as comfortable as possible by getting one of our chairs.

The World Listens When Leaders Speak.

This is true of the Furniture business as of statecraft. Naturally we have considerable pride in being leaders in our business. Quite a strong expression, but quite easily proven. The Furniture, the price to be the evidence, you to be both judge and jury. Come in and be convinced.
