PREFERS DEATH
TO DEFORMITY
FOR HER BABELittle One Comes Into World
a Hopeless Defective and
Operation Which Would Save
Life Is Not Performed.PHYSICIAN IS TARGET
OF BITTER CRITICISMNo Action Taken by Authori-
ties Other Than Decision to
Refuse Death Certificate
Until Investigation Is Held.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Chicago, Nov. 17.—The Hollinger
baby, a defective mite whose mother,
on professional advice, decided it
should not undergo an operation
which probably would save its life,
died tonight after hovering between
life and death at the German-American
hospital here all day.

Meanwhile the subject of the prop-
erty of sacrificing the life of the
infant, that it might not grow up a
burden to society was the subject of
widespread discussion. Dr. H. J.
Halselden, on whose advice the moth-
er acted, was visited by many medical
men today and telephone calls alter-
nately accused and praised him. He
remained unmoved in his convictions,
that death was the greatest blessing
which could be hoped for to the in-
fant.

The principal physical deformities
of the baby are the closure of the
incubator tract, paralysis of the nerves
of the right side of the face, the ab-
sence of the right ear, blindness of
one eye and malformation of its
shoulders. Dr. Halselden, who offi-
ciated at the birth, noted the absence
of a neck. The brain he found to be
only slightly abnormal but the cran-
nial nerves were absent or undevel-
oped.

"If he grew up he would be a
hopeless cripple and would suffer
from fits," said the doctor.

"Would his mind be clear? Would
he be normally alive?" one of the
visitors asked.

"That I do not know, but the
chances are against it."

Doctors Approve Action.

Dr. J. B. Murphy, former presi-
dent of the American Medical associa-
tion, and physicians and profes-
sional men and women, including a
number of clergymen, generally took
sides with Dr. Halselden. But his
advice was just as numerous.

Mrs. Anna Hollinger, the mother,
remained in a room nearby. Many
times she asked:

"If it had been my decision, I
would have let the child die."

"The mother's death was the best for
the child. She has three healthy
children and the slight of the con-
ditioned one is believed to have been
due to an attack of typhoid fever
which the mother suffered recently."

The authorities took no action fur-
ther than to determine that no death
certificate should be issued after an
investigation by the coroner.

In discussing his stand in the case
today, Dr. Halselden cited the case of
Roswell Smith, a supposedly harmless
defective, who, after reaching the
adult stage killed Hazel Weinstein,
for which he was hanged. A visitor,
however, remarked that Fyodor Dos-
toevsky, born a defective, a gambler
and an epileptic, developed into a great
novelist and one of the greatest psy-
chologists in Europe.

Most of the visitors today treated
the baby, which lay in a private room,
as if it were unconscious. Dr. Halselden,
who had a roomed it in death, alone
treated it as a human being. He
checked it with a twisted cheek and
said:

"He was dead before the night
came."

"He was a moral wrong," he
said. "I am sure that a city which
outrage every week, a city which
outrage a day and an outrage every
round of the clock, a city which
holds that death is preferable to
the life of a defective."

"The one rang. Dr. Halselden
answered and talked five minutes
with a visitor. She pleaded with him
to let the baby's life. When he re-
turned from the phone he smiled
sadly."

"She called me names," he said.
"It is strange what a fuss people are
making over this case when all these
babies are so unnoticed."

"The little bundle, which was the
center of all eyes, stirred and a feeble
cry was heard."

"Not much longer to wait, little
one," said the doctor, gently, adding
"Come near him, 'he is dying.'"

"The baby's life is in the hands of
a higher power. Nature will provide
the best remedy."

Dr. Rosalie M. Ladova commented:
"A life is a life and I wish Dr.
Halselden would step aside and let
someone else operate."

"The child was baptized with the
name of John shortly before its death."
Mrs. Hollinger was not informed of
the death of the baby, Dr. Halselden

THE WEATHER

WEATHER FORECAST.

Denver, Nov. 17.—New Mexico:
Thursday and Friday fair, not much
change in temperature.deeming it advisable to keep the news
from the mother until morning.DOCTORS COMEND
DR. HALSELDEN'S ACTION

New York, Nov. 17.—The Medical
Legal society tonight adopted a resolu-
tion commending Dr. Halselden for
refusing to prolong the life of the de-
fective Hollinger baby in Chicago. Os-
car J. Smith, who offered the resolu-
tion, said the refusal of Dr. Halsel-
den to perform an operation was not
only saving the child misery but sav-
ing society the responsibility for car-
ing for it. Numerous other addresses
were made commending the Chicago
surgeon.

CARRANZA PASSPORTS
FOR MEXICO VISITORS

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Galveston, Tex., Nov. 17.—Hereaf-
ter all persons desiring to enter the
republic of Mexico will be required to
have passports issued by consuls of
the Carranza government, according
to instructions received at the Mexi-
can consulate here today from the
foreign office of the de facto govern-
ment. It is understood the order is
directed primarily against Mexicans
who might be considered undesirable
by the Carranza authorities.

NEW INVENTION
DESIGNED TO ROB
SEA OF TERRORSProfessor at Clark University
Discloses Method for Find-
ing Direction of Fog Signals
by Ocean Vessels.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
New York, Nov. 17.—Professor A.
G. Webster of Clark university, Wor-
chester, Mass., in an address today at
the final session of the National
Academy of Sciences, told of an in-
strument he had perfected for find-
ing the direction of a fog signal and
which, he expects, will rob sea travel
of one of its greatest terrors.

He told of his work in regard to the stand-
ardizing sounds for fog horns and the
development of a receiving instru-
ment capable of catching the signals.

The standard sound, which he
hopes will be adopted for navigation
no far as fog signals are concerned,
is formed by means of a tuning fork
arranged so as to hum in a resonator
by the passage of an electric current.

The new instrument consists of con-
ical horns, placed in pairs with the
small ends together and these catch
the hum from the signaling ma-
chine. A glass connected with the
receiving apparatus shows by means
of light within, the direction from
which the signal sounds. Heretofore,
the speaker explained, mariners have
not been able to tell within 45 de-
grees the direction from which the
fog signals come.

The disaster in which the Empress
of Ireland was sunk on the coast of
Canada two years ago, the speaker
pointed out, was due to the pilots on
board her and the ship with which
she collided steering wrongly in a
fog. If they had been directed by
such an instrument as his receiver,
Professor Webster said, the pilots
would have known exactly how to
steer and the collision with attendant
loss of 1,200 lives could have been
avoided.

APPEAL IS GRANTED
IN COAL TRUST CASE

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Philadelphia, Nov. 17.—The United
States government today took an ap-
peal to the United States supreme
court in the case against the Reading
company and its allied companies in
the coal trust suit recently decided
against the government in the district
court here. The court granted the
appeal.

The lower court ordered the Central
Railroad company of New Jersey to
divest its interests in the Lehigh &
Wilkes-Barre Coal Co. Fourteen er-
rors are assigned in the petition for
the appeal.

SUBMARINES ACTIVE
AGAINST ITALIAN SHIPS

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Galveston, Tex., Nov. 17.—Officers
of the Italian steamship San Gio-
vanni, which arrived here today from
Genoa, report the sinking of three
Italian steamers in the Mediterrean
sea which have not been men-
tioned in official dispatches. The
steamers were Crems, Serbia and
Gani. All were victims of hostile sub-
marines, the officers report. The
Crems was a vessel of 2,226 tons and
the Serbia, 2,448 tons.

Available records do not show the
Gani, which is said to have been a
coasting ship.

Rich Bequest for Yale.

New Haven, Conn., Nov. 17.—Ap-
proximately a million dollars is to go
to Yale under the will of Justus S.
Hotchkiss, of this city, filed for prob-
ate today. The will bequeaths an
estate appraised at about \$2,000,000.
Mr. Hotchkiss was a retired lumber
dealer.

CANANEA FIGHT
TO BE DECISIVE
AND TURN SCALE
FOR THE WINNERVilla and Carranza Forces
About Equal, According to
Best Information Obtainable
on American Border.OBREGON'S PLAN OF
BATTLE IS DISCLOSEDLooting of City Is Believed to
Have Been Ordered in Case
Attack Soon to Be Made Is
Successful.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Douglas, Ariz., Nov. 17.—That the
battle of Cananea will be a decisive
struggle which will determine the im-
mediate future, seems certain tonight.
Believable reports received from Can-
anea state that General Rodriguez
has between five and six thousand
men by actual count, while two
thousand reinforcements are within
easy marching distance on the Sonora
river. It has previously been sur-
mised that General Rodriguez incor-
porated these two thousand in his
force, but such was not the case. The
Carranza and Villa armies are about
evenly matched numerically, with
slight advantage in numbers in favor
of the latter, if the cavalry detach-
ment is recalled from Arizpe. The
morale of the Carranza force is con-
sidered superior to that of the Villa
army, however, and may prove the
deciding factor in the struggle.

General Obregon's plan of cam-
paign was learned tonight. He is
sending his cavalry south, following
the line of the Southern Pacific rail-
road, while his infantry and artillery
is divided into two columns, one go-
ing to the east and one to the west of
the San Jose mountains, which stand
between Naco and Cananea.

General Villa has approximately
sixty-five hundred troops between
Magdalena and Hermosillo. As near-
ly as can be ascertained from the bor-
der he has approximately 15,000 in
the field, including the former May-
torena troops and garrison at No-
gales.

Looting Ordered by Villa.

General Villa has ordered the loot-
ing of Cananea. It is reported here
yesterday ten carloads of copper bull-
ion were seized from the Cananea
Consolidated Copper company and
taken to Nogales, where it arrived to-
night. Ten additional carloads are
reported to be between Del Rio and
Nogales tonight en route to Nogales.

How Villa proposes to use this metal
is unknown unless he intends to at-
tempt to make the owing company
bail it back at a high rate.

The shipment at Nogales is said to
amount to 1,250 tons. The Cananea
company's big department store was
also looted and the soldiers of Rodriguez
helping themselves to every kind of
goods in stock, destroying much they
could not use, it is reported here.

Other American stores were looted
while the troops were quartered in
a number of American-owned resi-
dences throughout the town. Nothing
is known here about the personal
safety of the Americans in the town.

General Villa also is reported to have
taken fifty of the finest horses in that
section from American owners, when
he passed through recently on his
way to Nogales and Magdalena.

Private messages from Nogales
state that Villa intends to detach part
of his force to assist in the defense
of Cananea and to attempt to out-
flank Obregon.

VILLA'S BROTHER TELLS
OF MYSTERIOUS MESSAGE

El Paso, Tex., Nov. 17.—Humberto
Villa, financial agent of the Villa gov-
ernment at Juarez, opposite here,
stated today that the Juarez wireless
had picked up messages from Gen-
eral Obregon and General Diezguiz in
which Diezguiz told General Obregon
that he had only 4,000 men with him
at Hermosillo and Obregon told Diez-
guiz that Col. Lazaro Cardenas' com-
mand of 600, not 2,500 as given in
press dispatches, had been partly de-
stroyed by Rodriguez' outposts at Villa
Verde yesterday, only a few escaping
to bring the news of Rodriguez' pres-
ence at Cananea to Obregon.

The messages were said to have
been picked up in transmission be-
tween San Francisco and Guaymas.

200 WOUNDED SOLDIERS
ARRIVE FROM CANANEA

Nogales, Ariz., Nov. 17.—Two hun-
dred wounded soldiers arrived in No-
gales, Sonora, late today from Can-
anea on a train which included in its
make-up fine carloads of bullion, said
to be valued at \$250,000.

There were no marks on the cars
containing the bullion, believed to be
part of the output of the Cananea
smelters, to indicate their destination.

His Likeness Still Popular.

New York, Nov. 17.—Black Dia-
mond, the aged Buffalo, whose like-
ness is printed on 116 treasury notes
and is stamped on the latest five-cent
pieces, was put to death here today.
He was more than 20 years old and
the largest bison in captivity. The
bison was killed because of old age.

JUAN RODRIGUEZ
IS CAPTURED BY
POSSE SIX MILES
WEST OF ROSWELLHalf Dead From Hunger and
Exposure, Alleged Slayer of
Marion Cartwright Is Found
in the Foothills.MURDERED MAN'S SON
HELPS TAKE PRISONERJury Is Still Being Held To-
gether and Trial Will Pro-
ceed in District Court as If
Nothing Had Happened.

(SPECIAL DISPATCH TO MORNING JOURNAL)
Roswell, N. M., Nov. 17.—Juan
Rodriguez, who escaped from Sheriff
Young Monday night, was captured at
6 o'clock this evening after a search
which lasted nearly thirty-six hours.
He was found six miles west of the
city in the hills in a starved and
weakened condition. John Cart-
wright, son of Marion Cartwright,
with whose murder Rodriguez is
charged, and George Williams, were
the men who caught the fugitive.

A report came to the city late this
afternoon that the Mexican had been
seen west of this city. L. W. For-
syth, who owns a small ranch five
miles west of the city, sent the word
in, saying that he had seen Rodriguez
traveling west.

Poses in Pursuit.

All the special deputies who could
be summoned and a number of citi-
zens, including Lem Cartwright, went
to the Forsyth ranch, they quickly
threw out lines of patrol for a mile
around where the fugitive had been
seen by Mr. Forsyth. They worked
closer and closer together until Mr.
Cartwright and Mr. Williams found
him in the brush, another con-
ference would be held at the White
House. Meantime it was arranged
that certain confidential data relat-
ing to the revenue needs of the gov-
ernment should be put into shape for
consideration at the next conference.

He is suffering from the two days
and one night exposure and is scarce-
ly able to talk. He had found a small
piece of canvas which he was using
in place of his coat which he left in
the brush. When found he had a small
bit of water with him, but said he
had had nothing to eat since Mon-
day. He said he had been in hiding
near the city since his escape, al-
though the country to the west had
been carefully searched before.

The prevailing opinion was that Rodriguez
had gone east. He started east from
the jail and was last seen at the east
side of the city. To get to the country
to the west it was necessary for him
to come back through the city.

Trial to Proceed.

For thirty-six hours the officials
have been going constantly in an ef-
fort to get Rodriguez. Sheriff Young
and son, Frank, who is a deputy, and
Jim Johnson, another deputy, have
not stopped to sleep since the Mexi-
can escaped.

The trial will proceed in the morn-
ing. The jury has been kept locked
in the jury room all of today and yester-
day. Seven jurors were accepted
by both sides when the defendant es-
caped and the special venire drawn
Monday afternoon had been exhaus-
ted. Another special venire will be
called to report at 5 o'clock tomorrow
morning.

AUSTRIA DENIES
CHARGES MADE
IN ANCONA AFFAIROfficial Communication Says
Vessel Attempted to Escape;
Was Not Fired on After
Halting.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Washington, Nov. 17.—American
Ambassador Penfield today cable the
state department an official statement
concerning the sinking of the Italian
steamship Ancona, which had been
handed him by the Austrian foreign
office, apparently before he received
the department's instructions cable
yesterday to seek the Vienna version
of the tragedy.

The text of the communication vir-
tually is identical with that given out
in Vienna by the Austrian admiralty
and sent to this country by wireless
from Berlin. It says that the Ancona
died at full speed when a warning shot
was fired across her bow and it denies
the allegation of the Italian govern-
ment that the steamer was shelled af-
ter she had come to a standstill and
that other shots were fired at life
boats and at persons swimming in the
sea.

After the receipt of the report it
became known that Secretary Lansing
considered that the state department
had in its possession sufficient offi-
cial information to form the basis of
an inquiry of Austria-Hungary regard-
ing its attitude toward the conduct of
submarine warfare.

PARTY LEADERS
DISAGREE OVER
PLANS TO LIMIT
APPROPRIATIONSRepresentative Fitzgerald
Wants Everything to Be
Passed Upon by Committee
of Which He Is Chairman.SHERLEY OF KENTUCKY
HAS DIFFERENT PROGRAMPresident Waits for Confer-
ence to Be Participated in
by Speaker Clark, Kitchin,
and Hay of Virginia.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Washington, Nov. 17.—Paul Egan
and a half house luncheon President
Wilson and members of the special
budget committee of the house con-
ferred over methods of systematizing
appropriations in contrast. No agree-
ment was reached and after a long
discussion the president asked the
committee members to get together as soon
as possible on some definite plan.

Representative Fitzgerald, of New
York, chairman of the appropri-
ations committee, was insistent upon
his plan of centralizing all ap-
propriations in one committee, the ap-
propriations committee. On the other
hand Representative Sherley, of Ken-
tucky, strongly advocated a plan he
had urged for some years for a bud-
get committee to be made up of
chairmen and ranking minority mem-
bers of the various committees hav-
ing jurisdiction over appropriations.

Speaker Clark, Majority Leader
Kitchin and Representative Hay, of
Virginia, the other members of the
budget committee, were absent from
the conference and it was agreed
that, as soon as they returned to the
city, later in the week, another con-
ference would be held at the White
House. Meantime it was arranged
that certain confidential data relat-

ernment should be put into shape for
consideration at the next conference.

BERNSTORFF CONFERS
WITH SECRETARY OF STATE

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Washington, Nov. 17.—Count von
Bernstorff, the German ambassador,
and Secretary Lansing conferred to-
day for more than half an hour. Lat-
ter both said they had agreed not to
discuss the subject of their conver-
sation.

It was suggested in official circles
that the conference probably had to
do with the negotiations for settle-
ment of the Lusitania case and that
possibly statements made by Dr. Chi-
rini, the former Austro-Hungarian
ambassador had been mentioned.

Dr. Gorkar recently charged that
the ambassador was interested with
Austrian Consul General von Suler at
New York in mounting strike propa-
ganda.

The ambassador said he had pre-
sented no communication from the
German government to Secretary
Lansing.

Results of the investigation, so far
of the alleged activities of von Nuber
have been submitted to Secretary
Lansing by the department of justice
and the secretary is considering the
facts disclosed by this and other such
cases. No action has been determined
upon and so far as alleged offenses
by consular officers are concerned the
state department view is said to be
that they are for the department of
justice to deal with as consuls do not
enjoy diplomatic immunity.

TRANSFER OF BOATS IS
SUBJECT OF INQUIRY

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
New York, Nov. 17.—The transfer
to the Pacific coast of the steamers
Harvard and Yale, of the Metropolitan
Steamship company, to take them
out of competition, as the government
alleged, with the steamers of the New
York, New Haven & Hartford Rail-
road Co., was the subject of testimony
given today at the trial of the eleven
former directors of that road charged
with criminal violation of the Sher-
man law.

The witness was Capt. H. W. Good-
all, president of the Pacific Naviga-
tion company, which operates the
steamers.

The defense maintains that the New
Haven had no interest in what be-
came of the boats and it was brought
out on cross examination that Goodall
initiated the negotiations. Goodall
said that in his opinion the boats, ow-
ing to their type, could not pay on
the Atlantic coast. This statement
was elicited to show that the New
Haven could not have regarded them as
dangerous competitors.

Six Bodies Taken From Debris.

Seattle, Wash., Nov. 17.—Workers
dealing today in the debris in the
third level of the Northwestern Im-
provement company's coal mine at
Ravenale recovered the bodies of six
victims of the explosion yesterday
which killed thirty-one men and in-
jured three others. Three bodies were
taken out soon after the disaster oc-
curred. Three men taken out uncon-
scious last night were revived.

NEW DRAFT PREPARED OF
SHIP PURCHASE BILL

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Washington, Nov. 17.—A tentative
draft of the new government ship
purchase bill, which will be urged by
the administration at the coming
session of congress, was considered
today at a conference at the treasury
department. Secretary Redfield and
Solicitor Thurman, of the department
of commerce, went over the proposed
measure with Secretary McAdoo.

The draft follows the lines sug-
gested by Secretary McAdoo in a re-
cent speech outlining the purposes
of the administration as to naval
auxiliaries and the upbuilding of the
American merchant marine. Before
the measure is put in final form it
will be presented to congress. It will be
laid before President Wilson for his
approval.

Grand Case Postponed.

Winning, Minn., Nov. 17.—Owing to
the absence from the city of Edward
Anderson, king's counsel in charge of
the defense in the civil suit instituted
by the Manitoba government against
Thomas Kelly & Sons, contractors, for
recovery of alleged over-payments in
connection with the parliament build-
ings contract, the hearing of the case
was not begun today as had been
planned. It is understood Mr. Ander-
son will not return for a fortnight,
and the crown will press for substitute
defense counsel so that the hearing
may start next week.

HOSPITAL SHIP
SUNK BY MINE;
MANY LIVES LOSTAnglia, on Which King George
Recently Crossed Channel,
Lost; About Seventy Per-
sons Perish.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
The following official communica-
tion concerning the disaster to the
hospital ship Anglia was made pub-
lic:

"The war office reports that the
hospital ship Anglia struck a mine in
the channel today and sunk. The to-
tal number on board was thirteen of-
ficers and 372 men of other ranks of
whom about 200 were saved by a pas-
senger vessel."

Another ship proceeding to the rescue
was also sunk by another mine.

Another official communication
said:

"King George was shocked to hear
that the Anglia, which so recently
conveyed him across the channel, had
been sunk. His majesty is grieved at
the loss incurred but trusts that the
survivors have not unduly suffered
from their terrible exposure."

ANOTHER BRITISH SHIP
IS REPORTED SUNK

London, Nov. 17 (6.43 p. m.)—The
steamer Lusitania of London has
been sunk. Her crew was landed.

The Lusitania, which was a vessel
of 1,834 tons, was built in 1902 and
owned by J. Hall, Jr., & Co., of Lon-
don. She was in the London-Lisbon
trade. Later reports of the vessel
described her sailing from Lisbon Oc-
tober 27 for London.

STEAMER TRENEGLOS
IN LIST OF DISASTERS

London, Nov. 17 (12.55 p. m.)—The
British steamer TreNEGLOS has been
sunk.

The TreNEGLOS was a vessel of 2,889
tons and was owned by the Hain
Steamship company of St. Ives, Eng-
land. She was built in 1906.

PASSENGERS ABOARD
MOSTLY WOUNDED MEN

Dover, Nov. 17 (11.15 p. m.)—The
hospital ship Anglia with about 300
wounded men aboard, in addition to
the crew, nurses and attendants
bound from France for Dover, struck
a mine in mid-channel today and
sank in a very short time. Nearly
100 men, most of them seriously
wounded and therefore in their coats,
lost their lives.

The collier Lusitania, which was
nearby at the time of the accident,
immediately went to the assistance of
the Anglia and her boats had been
just lowered when she also struck a
mine and foundered. All her crew
were saved.

A patrol vessel succeeded in rescu-
ing three hundred of Anglia's pas-
sengers and crew, including some
nurses. A number of bodies were
recovered.

LANSING PREPARING
NEW NOTE TO ENGLAND

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Washington, Nov. 17.—A memo-
randum which will form the basis of a
note to Great Britain regarding sub-
marine warfare is now in course of prepa-
ration at the state department. It was
learned today that it had not been
definitely decided yet what attitude
the United States would take in re-
gard to the action of Great Britain
in placing on the contraband list cot-
ton and other products never before
treated as contraband. It was said
that this decision would be reached
within the next few days and that
soon thereafter the first draft of
the note would be made. Several
drafts may be required before the
communication is ready for trans-
mission.

Delay.LAST SERB CAPITAL
TO FALL QUICKLY

London, Nov. 18 (3.31 a. m.)—
A dispatch to Reuters' Telegram
company from Athens dated
Wednesday says:
"Official war dispatches are
still lacking, but, according to
press dispatches received here,
Perlepe is said to have been oc-
cupied by the Bulgarians, who
are now two hours distant from
Monastir and making a turning
movement under command of
German officers. The situation
is most critical. The foreign con-
suls, except the French, have
gone to Salonika, to which place
the prefect of Monastir has sent
the city's archives."

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
London, Nov. 17.—The fact that the
Balkan situation, both military and
diplomatic, is disquieting, if not criti-
cal, is believed here to have led to
the visit of the British prime minis-
ter, Mr. Asquith, David Lloyd-George
and A. J. Balfour to Paris for a con-
ference with the French cabinet and
General Joffre, the French command-
er-in-chief.

The main Serbian army, which is
operating under General Putnik in
the north, is now encompassed on
every side but one, and being cut off
from the south

lent on both sides. Against the wood to the south of Pico, southwest of Pico, we concentrated an effective fire.

In Champane, in the region of the Navarre farm and near Bahay, the artillery action is still continued. In the Argentine we exploded two series of mines, which destroyed German trenches for a considerable extent.

"The Helian communication reports almost complete calm along the front.

"Army of the east. On November 15 the Bulgarians abandoned their attacks against our front on the left bank of the Gerna, to the west of Krivopal. They withdrew on the Archangel heights to the north of the village of Cleevo, leaving many bodies. After three days fighting the Bulgarians have lost 4,000 men. Our losses were slight.

"To the north of Babrovo we have a hard on a enemy which was proceeding in the direction of the Bulgarian town of Strumitsa."

FRENCH GOVERNMENT ACTS AGAINST GREECE

Paris, Nov. 17 (10:19 p. m.)—A Havas dispatch from Marseilles says the government has ordered the port authorities to accept no further shipments of merchandise destined for Greece.

VIENNA REPORTS ARE ENGAGEMENTS SUCCESSFUL

New York, Nov. 17.—The Austrian official communication received from Vienna today by way of London is slightly different from that received by wireless from Berlin. The Vienna statement follows:

"Vienna, Nov. 17 (10:19 p. m.)—Russia war minister, 'London is no news from this region.

"Italian war minister. In the region of Gorizia there were no important infantry engagements yesterday. The activity of the Italian artillery compared with that of previous days, has considerably slackened. The situation on the whole southwestern front is unchanged.

"One of our airplane squadrons on Monday dropped bombs on Livno. Our airmen observed big fires which resulted from the bombs. All the aeroplanes returned safely.

"Southwestern war theater. The Austro-Hungarian troops fighting on

UTAH PUZZLED OVER REQUEST BY PRESIDENT

Governor Spry and Others Concerned Know No Reason for Extending Further Clemency to Hillstrom.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Salt Lake City, Utah, Nov. 17.—President Wilson's telegram to Governor Spry, requesting a reconsideration of the case of Joseph Hillstrom, will probably be answered early tomorrow. The governor had the message under consideration this afternoon and announced early this evening that he expected to have an answer ready tomorrow morning. The governor would not indicate the nature of his answer.

The president's second intervention in the case caused great astonishment and wide comment here today. Hillstrom was sentenced to be executed October 1. He was granted a reprieve September 30. In that instance, the president acted on a request from Swedish Minister Eknerst, who was especially urged by Governor Spry to submit new reasons or facts to justify clemency at the meeting of the board of pardons October 18. No new facts were presented at that meeting and Hillstrom's attorney said he knew of nothing to be added to what had already been offered in the case. The request of the president today, coming just on the eve of the date set for the execution, has aroused great curiosity here as to what reasons have been presented to the president to obtain his intervention. No new evidence in the matter has been made known here since the case was originally tried.

A local firm of attorneys, not previously associated with the case, examined the record of it recently at the request of the Swedish minister and have forwarded their report by telegraph to him. They decline to indicate the nature of their report. E. B. Crichlow, a member of this firm, was a freshman at Princeton when the president was a senior there.

Arrangements for the execution have not been changed. Hillstrom is said to show signs of nervousness at times but otherwise maintains the attitude he has assumed from the first and refuses to give any details of the circumstances under which he said he received his bullet wound the night of J. H. Morrison and his son were murdered here.

MAY ABOLISH OFFICE HELD BY WILLIAMS

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Washington, Nov. 17.—The federal reserve board had before it today a recommendation of its advisory council that the office of controller of the currency, which has direct supervision over the operation of all national banks, be abolished. A counter-proposal provides that member banks, including national banks, hereafter be examined exclusively by the board's examiners.

The federal reserve board issued a statement outlining recommendations for amendments to the federal reserve act made by the federal advisory council.

In addition to the suggestions that the work of the office of the controller of the currency be absorbed and administered by the reserve board, the council recommended a reduction by two-thirds of the present paid-in capital stock of federal reserve banks, the subscribed capital to remain as under existing law. It suggested that the Clayton anti-trust act be amended by the section affecting interfering directors, so as it would be lawful for an officer or director of one bank to hold office or be a director in another bank.

The council expressed the view that the request of the board in respect to high interest rates by banks which are members of the system, and the demand for money is regulated by its limitation of bank of circulation in banking centers. It adopted a resolution declaring unfavorable opposition to a plan that would make farm land bonds, which have been proposed in connection with rural credit bills, security for loans from federal reserve banks or to any measure that would make such bonds the basis for acceptance by member banks.

PREACHERS SHOULD PRACTICE WOOD SAWING

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Long Beach, Calif., Nov. 17.—The establishment of a training school at Mission, Tenn., and an increase in the number of educational institutions in the mountains of Tennessee, Alabama, Louisiana and Mississippi, were decided upon today at the convention of the North American conference of Adventist ministers in session here.

Preachers should make a practice of sawing wood, splitting rails and digging ditches, Elder George I. Butler declared here today in a sermon before the convention of Seventh Day Adventist ministers.

"I call myself a patriarch of the manual labor system. I recommend to my young brethren in the ministry that they be not ashamed to take an axe and split wood, or to take a shovel and dig some trenches."

The delegates at the convention voted today to urge all Adventist churches to inaugurate an active campaign for foreign missions during the annual week of prayer which begins December 11.

Will Limit Emigration.

London, Nov. 17 (4:14 p. m.)—An order in council will shortly be issued declaring that during the continuance of the war all Britons of military age desiring to leave the United Kingdom even on a trip must obtain special permission. This permission will not be given without good cause.

Summary of War News of Yesterday

An allied war council has been formed. It is composed of members of the French and British cabinets and its meeting has been held in Paris.

The members of the council will cooperate in the conduct of the war, as previously announced by Premier Aiguith, and it is expected that Russia and Italy will be represented at an early date.

It is understood that the situation in the Balkans, in the Dardanelles, and on the western front have been under review, as naval and military experts were utilized in advisory capacity.

The attitude of Greece and the situation in the Balkans, according to today's dispatches are giving the content power much thought, but some opinion is thrown on the efforts of the diplomatic representatives of these powers at Athens and of M. Denis Coghlin of the French cabinet, who is also at the Greek capital, to bring the Greek king and government to a definite decision of the future Greek policy.

Lord Kitchener, the British secretary of war, is reported to be in Galipoli and his presence in the near east gives new hope in London that a way would be found to extricate the entire allies from what is acknowledged to be a difficult and dangerous position.

The British government has placed a limited embargo on Greek ships in already loaded or are loading will be permitted to proceed on their destinations. A Marseilles dispatch says the French government has ordered the port authorities to accept no further shipments of merchandise destined for Greece.

In Serbia, the Teutonic allies are everywhere harrying the Serbs. In the north, the Austrians and Germans have made further advances while in the region of Slenica, the Austro-Hungarians have compelled the Montenegrins to evacuate mountain positions north of Javor and along the border of the Sanjak of Noviazar.

Little has come through concerning the campaign in southern Serbia, where the British, French and Serbs on different sections are opposing the Bulgarians, to whose aid German and Austrian reinforcements are said to be speeding by all available roads.

Whether the Bulgarians have been able to force the defending Serbians out of the Babuna pass and open the gateway to Prilep and Monastir, has not yet been officially stated.

Paris says that to the west of Krivopal the Bulgarians abandoned their attacks and retreated to the heights north of Cleevo, having lost four thousand men as against slight losses for the French.

Attempts by the Teutons to cross the Drina river below Dyrkig were repulsed by the Russians; while to the west of Dyrkig, the Teutons are declared to have been driven out of their trenches. Farther south, in the region of Cantorok, the Austro-Germans are still carrying on a heavy offensive movement along the left bank of the Strye river. But the Russians have driven them back several times.

The British hospital ship Anglia, on which King George returned to England a short time ago, after he had been injured by being thrown from his horse in France, has been sunk by a floating mine in the English channel. Of the 385 persons on board 200 were saved by a patrol boat. Another vessel going to the aid of the hospital ship also was sunk by a mine.

A dispatch from Copenhagen reports twenty-five German torpedo boats and a cruiser proceeding northward in the direction of the North sea.

PUNISHMENT OF FAY MAY BE BY U. S. TRUST LAW

Government Is Working on Theory That Confessed Conspirator Violated Act Against Restraint of Trade.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Washington, Nov. 17.—An effort may be made in the near future by the department of justice to secure indictments against Robert Fay and others connected with the alleged plot in New York to blow up munition ships after the criminal section of the Sherman law. It is understood that information now is being gathered to aid the department in determining whether there has been a conspiracy in restraint of foreign commerce such as to justify presentation to a federal grand jury.

The belief that indictments under this statute might be successfully prosecuted was said today to be based on the interruption of the Sherman law by the supreme court in the Danbury hatters' case. The ordinary interpretation of lawyers before that decision was that the act was designed only to prevent combinations which restrained trade among its members or others in a similar line of business. The supreme court in the Danbury hatters' case, however, held that there could be a restraint of trade by an agency.

Department of justice officials always have expressed doubt of the possibility of convicting Fay and his associates under the so-called conspiracy section of the criminal code, under which they recently were indicted. The recent trip of District Attorney Marshall to Washington is understood to have been for the purpose of seeking upon indictments under another section of that code.

The Weather a Year Ago To-day. Clear. Temperature, High 60°, Low 19°—remember Laxative Bromo Quinine cures a cold in one day. There is only one "Bromo Quinine." Look for signature "W. GROVE, 25c."

BIDS TOO HIGH; GOVERNMENT MAY BUILD WARSHIPS

Private Concerns Fail to Keep Within Appropriation and United States Navy Yard May Take on Construction.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Washington, Nov. 17.—Because of the apparent failure of private bidders to keep their proposals within the \$7,500,000 limit of cost set by congress for the hulls and machinery of battleships Numbers 13 and 14, bids for which were opened today at the navy department, construction of both vessels may be undertaken at government navy yards. The New York and Philadelphia government plants submitted estimates of less than \$2,000,000 each for ships propelled with the combination steam and electric drive to be used in the new superdreadnaughts now building at the New York yard.

The result of the European war's demands on American markets is shown by the fact that the hulls and machinery of the new battleships Mississippi and Idaho were contracted for at \$7,115,000 and \$7,250,000 respectively, a year ago, while today's private bids for virtually identical ships ranged from \$7,229,000 to \$7,775,000 with various qualifications.

New hull construction, due to plans to lessen the danger from torpedo attacks, occasioned some of the increase. Recent additional tests of the electric drive on the collier Jupiter have convinced the department's experts that it is not only cheaper to install, but cheaper in operation. No private bidder ever has presented figures on this type of ship. Bids for armor for the new ships, also opened today, showed little increase in price since the last armor contracts were awarded. The Carnegie company was the low bidder for the first class armor for both ships at \$425 per ton.

OLD BALLOON FOUND IN WOODS BY DEER HUNTERS

(BY MORNING JOURNAL SPECIAL LEASED WIRE) St. Louis, Nov. 17.—A telegram received from a Bemidji (Minn.) newspaper today told of the finding of an old balloon near there. The telegram follows:

"Dear hunters in woods here found an old balloon believed to have descended in St. Louis many months ago. Did you ever lose a balloon?"

St. Louis aeronauts say no balloon ever was lost in a flight from St. Louis, but that seven years ago a balloon ascended from Chicago and was lost. It was supposed to have landed in Canada.

EXPLANATION GIVEN BY VETERAN BALLOONIST

Chicago, Nov. 17.—A possible explanation of the balloon explosion found near Bemidji, Minn., was given today by Capt. Carl Horace Wilde, a veteran balloonist.

"Three experimental balloons, unmaneuvered, were sent up from St. Louis two years ago. The balloons contained only instruments for registering atmospheric conditions. Two of the bags which had a diameter of thirty-five feet, were traced, but the third one never was traced."

ZEALANDIA'S PAPERS TO BE INVESTIGATED

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Washington, Nov. 17.—Further instructions were sent by the state department today to the American consul at Progress, Mexico, regarding the investigation by him of the documents of the recent forcible search of the steamer Zealandia by a British cruiser off Progress. A specific report is desired as to the absence of the ship's papers, which the captain has been quoted as saying had been left ashore with the consul. The British embassy has informed the state department that the Zealandia was boarded and searched when outside of Mexican territorial waters.

Jury Discharges Striker.

Chicago, Nov. 17.—Charged with taking part in an unlawful assembly, Miss Isabella Alexander, a striking garment worker, was discharged by a jury in the municipal court today. Miss Alexander was arrested while acting as a picket for the striking garment workers. Fifty-nine similar cases, in which fifty-four of the defendants were women, probably will be dismissed.

A BIT OF ADVICE

First—Don't Delay. Second—Don't Experiment.

If you suffer from backache, headache or dizziness; if you rest poorly and are languid in the morning; if the kidney secretions are irregular and unnatural in appearance, do not delay. In such cases the kidneys often need help.

Don't's Kidney Pills are especially prepared for kidney trouble. They are recommended by thousands. Can Albuquerque residents desire more convincing proof of their effectiveness than the statements of an Albuquerque citizen who has used them and willingly testifies to their worth?

J. M. Vickrey, plumber, 1004 N. Eleventh St., Albuquerque, says: "I don't hesitate to recommend Doan's Kidney Pills for backache and kidney trouble. In my case they brought immediate relief from backache. I know of another case where Doan's Kidney Pills brought positive relief from backache, due to weak kidneys."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Vickrey had. Foster-McMillan Co., Props., Buffalo, N. Y.

The Best at Any Price

No other baking powder will raise nicer, lighter biscuits, cakes and pastry, none is more pure and wholesome

Then Why Pay More?

VILLA BANDITS RAID LOS MOCHIS; FIVE MURDERED

Thirty-three Refugees Flee to Topolobampo and Are Taken Aboard United States Gunboat Annapolis.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Topolobampo, Sinaloa, Mex., Nov. 17 (via Radio to San Francisco).—Mayo Indians and Villa Indians raided the town of Los Mochis, eighteen miles inland from here, yesterday. Refugees arriving here today sought protection aboard the United States gunboat Annapolis. One British subject and four Americans were reported killed.

Thirty-three refugees, mostly women and children, arrived here and were taken aboard the Annapolis. Others were said to be on the way.

American civilians here immediately organized patrols and outposts to guard the town.

The late arrivals from Los Mochis said the raiders withdrew late yesterday and that a detachment of Carranza troops had been ordered there by General Diego, in compliance with the request yesterday of Admiral Cameron McR. Winslow, commanding the Pacific fleet, to whom Americans at Los Mochis appealed for protection. They said in their appeal they feared attacks by the Indians, following the recent withdrawal of a Carranza garrison sent to join troops in operations near San Blas, thirty miles north of there.

It was stated that the United States company's property at Los Mochis and other American interests were looted. The situation was reported as grave.

Most of those who fled from Los Mochis brought with them clothing and bedding but no provisions. All were given supplies by the Annapolis.

The trip from Los Mochis was made on handcars, which sometimes had to be hauled by mules over difficult passages. All railroad rolling stock previously was commandeered or destroyed by Mexican forces.

TURKEY BIDS FOR JEWISH SETTLERS

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Washington, Nov. 17.—Turkey, in an effort to draw within its borders Jews now in territory ceded away by the Ottoman empire as a result of the last Balkan war, has decided to grant them the same benefits and exemptions as heretofore were accorded only to Mohammedans. An announcement to this effect was made here today by the Turkish embassy.

"The advantages and exemptions," said the announcement, "consist of exceptional facilities for having access to Ottoman nationality, and immunity for a certain period, from payment of taxes and from military service."

"During the last century the Ottoman government has accorded these facilities exclusively to Mohammedan immigrants coming to Turkey from Russia, Bulgaria, Greece, Serbia and Rumania. This is the first time that these exemptions have been granted to immigrants professing a religion other than Mohammedan."

Commission Approves Tax Levies.

Santa Fe, Nov. 17.—The tax commission today approved the tax levies of Santa Fe county, the total not to exceed \$12,938.16, and Roosevelt county, while reductions were made in the Curry county levy so that the total will produce \$78,987.87, and the San Juan county levy from 2.3 mills to 2.0275 mills.

NO QUININE IN THIS COLD CURE

"Pape's Cold Compound" Ends Colds and Grippe in a Few Hours.

Take "Pape's Cold Compound" every two hours until you have taken three doses, then all serious misery goes and your cold will be broken. It promptly opens your clogged-up nostrils and the air passages of the head, stops nasty discharges of mucus running; relieves the headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and sniffling. Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitutes.

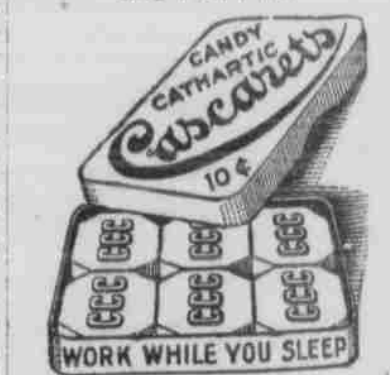

BOSTON MAN MAY BE AMONG ANCONA VICTIMS

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Boston, Nov. 17.—Pears were expressed here today that Albert W. Buck, an inspector of the Massachusetts bureau of labor and industry, who was captain of the Italian college train of 1911, was lost on the Italian liner Ancona. Mr. Buck had been in Genoa and called on the consignment from Naples on November 4 that he expected to sail the next day. While the Ancona did not sail until November 5, officials of the bureau say they have learned that the steamer left Naples on November 5.

IT'S YOUR LIVER! YOU'RE BILIOUS, HEADACHY, SICK!

Don't Stay Constipated With Breath Bad, Stomach Sour or a Cold.

Enjoy Life! Live Your Liver and Bowels Tonight and Feel Fine.

To-night sure! Remove the head and lower poison which is keeping your head dizzy, your tongue coated, mouth offensive and stomach sour. Don't stay bilious, sick, headachy, constipated and full of cold. Why don't you get a box of Cascarets from the drug store now? Eat one or two to-night and enjoy the sweet, genial flow and bowel cleansing you ever experienced. You will wake up feeling fit and fine. Cascarets never gripe or bother you all the next day like colonic pills and pills. They get gently but thoroughly. Mothers should give their sick, bilious or feverish children a box of Cascarets any time. They are harmless and children love them.

SWINNEY TO HEAD BOARDS' SECTION AT STATE MEET

Interesting Program of Exercises Arranged for Convention Next Week; Teachers to Discuss Important Matters

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Santa Fe, Nov. 17.—County Supt. L. L. G. Swinney will preside over the school boards section at the meeting of the State Educational association at Albuquerque next week. It is a most important section and school directors from every county in the state will be in attendance. The first topic for discussion is "The Board's Duty in Employing Teachers," and will bring to a focus the movement to employ only first and second grade teachers where such are available. M. E. Hickey, of Albuquerque, will lead off and Mrs. Rufus J. Palen, of Santa Fe, will follow.

"Making the Budget and Keeping Account" is the second topic with Supt. T. W. Conway, of Raton, as leader, and E. G. McInness, of Santa Rosa, second.

The third theme will be "The Use of School Buildings for Community Purposes," emphasizing the new doctrine that the school house and the church should be kept open for the public twenty-four hours a day and seven days a week, every month in the year. Philadelphia Roca, assistant superintendent of public instruction, of Santa Fe, will start off the debate with Supt. H. L. Krichbaum, of Des Moines, following.

Veteran Educator Is Boosting.

Mrs. S. F. Culbertson, county superintendent of schools of Roosevelt county, has addressed the following letter to her teachers: "I am making an effort to reach the teachers and directors, to secure a full attendance in Albuquerque November 22 to 24. Every teacher who attends will return with a message of cheer and encouragement and be better fitted to train the coming men and women of our great nation."

"The Santa Fe railway, always on the alert to keep in line with the demands of the growth of the country, grants this year, the low rate of one fare for the round trip. This is the hour of our opportunity to become better acquainted with the resources, growth and educational progress that is being made in our own New Mexico."

"The school boards are asked to encourage the teachers employed in their several districts, to attend the association. Furthermore they are asked to appropriate \$10 toward the traveling expenses of every teacher who attends. I regard this as one of the most important sessions of the State Teachers' association ever held in New Mexico for several good reasons. Write Supt. B. A. Deen, at Taiban, and Supt. J. S. Long at Portales, who will look after homes for you."

PROSPERITY IN SIGHT FOR CARLSBAD PROJECT

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Carlsbad, N. M., Nov. 17.—The Carlsbad project is heading toward prosperity, the way livestock is moving to the farms the last week or two. This evening some four hundred fine calves were unloaded here for C. H. McLeathen, E. G. Tracy, S. I. Roberts and P. L. Dearborne. They were brought from John Barber and Young Bell, who raised them on their ranch in Texas, the stock being loaded at Alvarado, some distance north of Pecos. E. G. Tracy will handle about one hundred of these calves on his place in North Carlsbad. The others will go to the farm of the Dearborne Development company south of town. They will be wintered on alfalfa hay, kaffir corn fodder and other feed. In case the market conditions are inviting in the spring these calves may be turned into baby beef for the early summer market.

Friday evening E. T. Carter and associates received nine cars of calves also from Texas. These are now on farms south of town feeding on alfalfa pasture and plenty of dry feed. This lot will also be wintered with the view of finishing in the spring in case conditions promise a liberal margin for fat stock in early summer.

Dr. E. P. Doepp will bring a drove of calves about December 1 to be wintered on his farm in La Huerta. These calves are of his own raising on his ranch in Texas.

SCHOOL PROBLEM IS BEING WORKED OUT IN SAN MIGUEL COUNTY

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) East Las Vegas, N. M., Nov. 17.—The total estimated cost of maintaining the schools of San Miguel county during the present school year is \$59,000. This includes the salary of Dr. M. P. Des Marais, county superintendent, and the maintenance of the schools of East Las Vegas and the town of Las Vegas. Under the provisions of the new county unit law, the various school districts turned in their estimates several weeks ago, accompanied by a statement of the money on hand. These latter total \$15,000.

The amount to be derived from other sources of taxation this year will be considerably more than that of last year, \$32,000. This gave the commissioners reason to expect that \$42,000 should be raised by taxation, and they made their levy accordingly. It amounts to two and eight-tenths mills. These figures were brought out by County Commissioner York, replying to the statement of the city school board that it believed the county unit law would hamper the city educational system. Mr. York says the estimate system will obviate such a possibility.

AILING WOMEN NEED THIS FAMOUS DOCTOR'S PRESCRIPTION

Thousands of women who are now blessed with robust health cannot understand why thousands of other women continue to worry and suffer from ailments peculiar to women when they can obtain for a trifling sum Dr. Pierce's Favorite Prescription which will surely and quickly banish all pain, distress and misery and restore the womanly functions to perfect health.

This old prescription of Dr. Pierce's is extracted from roots and herbs by means of pure glycerine and is a temperance remedy of 40 years' good standing.

Women who suffer should not wait till a breakdown causes prostration. If you are anxious to correct the derangement of the delicate feminine organs, to get rid of irregularities, or that catarrhal condition, to avoid pain at certain times, to overcome irritability and weakness, waste no time, but get Dr. Pierce's Favorite Prescription in liquid or tablet form this very day from any medicine dealer and tomorrow you will know that you are on the highway to health and happiness. Write for free 136-page book on diseases for women to Dr. V. M. Pierce, Buffalo, N. Y.—Adv.

A FREE BOOK.

If you will send three dimes, or stamps, to pay for wrapping and mailing and enclose this notice, Dr. Pierce, of the Invalids' Hotel, Buffalo, N. Y., will send you a revised copy of his Common Sense Medical Adviser, in cloth binding, 1008 pages, with color plates. Just what you need in case of sickness or accident. Treats of Physiology, Anatomy, Sex problems, Marriage relations, Hygiene, Exercise, Disease and its prevention.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

SITE FOR HIGH SCHOOL FIXED IN VALENCIA COUNTY

John Becker Donates Land and Contributes \$2,000 to Building to Be Erected on Lot in Town of Belen.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Belen, N. M., Nov. 17.—At a meeting of the board of directors, the site for the location of the Valencia county high school was definitely decided. They had bargained for a piece of ground some time ago, in the southwest part of town, some distance from the residence center, but they discovered that there was considerable opposition in the district to that location. The board, therefore, acceded to the desire of the majority of the school patrons, and have accepted an offer of Mr. John Becker, who had already offered to donate the grounds necessary, together with \$2,000 towards the building, giving them the choice of three locations, one to the north, four blocks from the center of town, one to the west, about the same distance and another in the south center of town, on Third street, two blocks from the Santa Fe, and one block from Becker avenue. The board has decided to accept the central location.

Plans are being completed also for the bonding of the district in the sum of \$5,000. There is also available the sum of \$4,000, an accumulation in the district, and this, together with the donation from Mr. Becker, will give them fourteen thousand dollars. It was thought for some time that the \$4,000 could not be used for building purposes, the county commissioners taking this view, but after the rendering of the opinions of the county and the state attorneys, as well as having the favorable opinion of the office of the state superintendent, the commissioners conceded the point.

Supt. W. Melvin Fox is preparing plans for the new building. It will be a modern school building, with gymnasium, industrial department, assembly hall and all modern conveniences. The plans at present are to build of brick, and possibly to pebble dash it. When completed, it will be an ornament to Belen, and a credit to Valencia county.

Under the direction of Mr. Fox, the boys of the industrial department are putting up their new shop, twenty-five by fifty feet.

Reading Circle Planned.

Santa Fe, Nov. 17.—Superintendent of Public Instruction Alvan N. White will take up vigorously at the meeting of the educational association next week, the establishment of a national rural teachers' reading circle. The study courses for the years 1915 to 1917 are classified under five heads as non-professional books of non-cultural value, educational classics, general principles and methods of education, rural education and rural life problems.

MINERS' RHEUMATISM

is caused by impoverished blood and is aggravated by working in dampness and from lack of fresh air. It will not correct itself until the blood is purified, and the greatest physicians prescribe Scott's Emulsion, because its medicinal nourishment quickly improves the quality of the blood to relieve the painful muscles and stiffened joints, while its wonderful oil-food strengthens the organs to expel the very acids which cause the trouble.

Scott's Emulsion is exactly what miners need to create rich, red, active blood, strengthen the throat and fortify the lungs against colds, pneumonia, bronchitis and consumption.

Scott's is always free from alcohol or drugs—but be careful to avoid substitutes. Scott & Bowne, Bloomfield, N. J. 15-4

WITH ENWRIGHT OUT IT'S EVEN BET---HOUGHTON

Coch Tolls Harvard Student
Body That Two-to-one Bets
Are All Bunk, Saying It Is
an Even Money Proposition.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Cambridge, Mass., Nov. 17.—A few
body after Coach Houghton of the
Harvard football team had learned
that Enwright would not be available
for the game with Yale because of
a scholastic difference, he told a large
meeting of students tonight that next
Saturday's game was an even money
proposition.

"These two to one bets are all
bunk," he said. "I want to tell you
that the facts do not warrant such
bets. It is an even money proposition.
While I have a power team this
season, but the building has come
back. I have a scholastic respect
for Tom Shewlin and his work."

Practice for the eleven today was
light. A drill, running through
formations and a blackboard talk
occupied the time.

SCORE OF FORMER YALE MEN DRIVE TEAM THROUGH DULL

New Haven, Conn., Nov. 17.—More
than twenty former Yale football
players headed to Tom Shewlin drove
the blue football team through the
last practice of the season in the
Yale field today. Tomorrow the
eleven and substitutes will leave for
Amherst, Mass., to remain until
the game with Harvard on Saturday.

GOPHERS START TODAY FOR MADISON TO MEET BADGER

Minneapolis, Minn., Nov. 17.—The
University of Minnesota football team
went through its last strenuous practice
of the season today and after
light drill tomorrow will depart
for Madison for the clash with
Wisconsin.

Of the twenty-four games that
have been played by the Gophers and
Badgers the Minnesota have won
thirteen, Wisconsin has taken nine
and two resulted in ties.

THREE MAROON CRIPPLES TO FACE ILLINOIS, IS REPORT

Chicago, Nov. 17.—Reports from
the Midway tonight that Scanlon,
Larson and Doherty, who have been
injured among the Maroon cripples,
may be able to play against Illinois
next Saturday did much to cheer
Chicago supporters. With Doherty and
Scanlon both in the lineup, the
Chicago backfield would be greatly
strengthened. It was not announced
that they would play but the report
was given that Coach Houghton was
reasonably confident of it.

MINNESOTA HEAVY IS WINNER BY THE 'KAYO' OVER ANDRE ANDERSON

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Milwaukee, Wis., Nov. 17.—Fred
Polton, the Minnesota heavyweight,
knocked out Andre Anderson of Illi-
nois in the fourth round of a sched-
uled ten-round bout here tonight. An-
derson was floored three times in the
concluding round, each time with a
left to the solar plexus. Anderson had
the advantage of the first round,
ending Polton in his knees with a
left to the jaw. The second and third
rounds were even.

WILLIE HOPPE AND KOJI YAMADA BOTH WINNERS

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
New York, Nov. 17.—Willie Hoppe
and Koji Yamada won their games to-
day in the handicap J&J bulk line
billiard tournament.

Hoppe, the only scratch man, easily
defeated Freddie Stone 17-15 in the
evening contest, by a score of 5-0 in
45. Hoppe averaged 31.3-16 and
Stone 21.1-14. Hoppe's best run
was 87 and Stone's 14.

Yamada (17-15) was trailing Joseph
Mayer (17-15) of Philadelphia in the
evening game until the twenty-fifth
inning, when the former's best run
of 111 ended the game, the score be-
ing 2-1 in 28. Yamada averaged
30-15 and Mayer 21-14. Mayer's
best run was 31.

Favorite Cough Medicine.

There are good reasons why Cham-
berlain's Cough Remedy is preferred
to any other by many mothers of
young children. First, what one of
them says about it: "Last winter my
daughter had an attack of croup and
I gave her Chamberlain's Cough Rem-
edy. It relieved her at once. My ex-
perience and that of my friends is that
this medicine will do all that is claim-
ed for it." writes Mrs. W. H. Wood,
Lima, Ohio. Obtainable everywhere.

Guernsey Back in Line-up for Princeton and Harvard Games

Otis Guernsey, Yale fullback, who
dislimbed himself in the game
against Princeton last Saturday.
Guernsey is one of the best back-
field men played at Yale but has
been out of the game nearly all of
the season. He is a consistent ground
runner and probably the best punter
on the Yale squad. In a recent train-
ing he tossed two field goals from
the 42-yard line and set over a mil-
lion of points averaging sixty yards.

WOMAN CHARGED WITH FORGERY OF KEITH WILL

Court Throws Out Claim of
Alleged Daughter to \$750,-
000 Estate of Bakersfield
Oil Man.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
San Francisco, Nov. 17.—A suit
contesting the will of the late John M.
Keith, wealthy oil man of Bakers-
field, Calif., brought by Mrs. Louise
Keith Thomson, who claimed to be
Keith's daughter, was thrown out of
court late today by Superior Judge
James V. Coffey on the ground that
the plaintiff had not proved her case.
Immediately attorneys for the Keith
heirs asked the district attorney to
ask for the grand jury all the facts
relating to Dr. Sarah J. Tedford's
connection with the case, particularly
the testimony of Theodore
Kytko, a handwriting expert, who as-
serted that Dr. Tedford had written
the alleged holographic will presented
to Dr. Tedford on behalf of Mrs.
Thomson. Dr. Tedford's indictment
on a charge of forgery was asked.

The original Keith will, disposing of
\$750,000, was admitted to probate
some time ago, but an order staying
distribution was granted August 2,
when Mrs. Thomson's claim was filed.

In dismissing the case, Judge Coffey
said the evidence disproving the
claim of Mrs. Thomson was "conclu-
sive and overwhelming."

It was claimed that Mrs. Thomson
was the daughter of Keith and that
she and her father were separated
when shipwrecked on the Alaskan
coast thirty years ago, that she lived
for fifteen years in an Eskimo village
and learned that her father had sur-
vived the shipwreck only through the
newspaper notices of his death.

Dr. Tedford testified that the al-
leged holographic will in favor of
Louise Keith Thomson was made in a
San Francisco stationery store several
days before Keith's death.

Theodore Kytko, a handwriting ex-
pert, swore that Dr. Sarah J. Ted-
ford's handwriting and that on the
will which purports to be the holo-
graphic testament of the late John
M. Keith, of Bakersfield, Cal., were
the same. Kytko, Dr. Tedford,
writing in court at dictation, dis-
tinguished certain words which were
also included in the will. The mis-
takes were the same in each instance.

Mrs. Louise K. Thomson, who says
she is Keith's daughter, separated
from him by a shipwreck in Alaska,
is the beneficiary of the contested
will. She is Dr. Tedford's sister-in-
law.

John Keith of Hollywood, a sub-
sidiary of Los Angeles, testified that he
formerly lived in North Platte, Neb.,
where Mrs. Thomson claimed to have
lived as a child. She said the pro-
prio of a railroad eating house there
where Mrs. Thomson alleged
P. Keith said that in many years
residence in North Platte he never
heard of John M. Keith.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Washington, Nov. 17.—Prominent
action on the Hague conference treaty
and the pending treaties with Colom-
bia and Nicaragua will be sought by
the administration when Congress con-
venes tomorrow.

Secretary of State Hughes, chairman of
the state foreign relations com-
mittee, conferred today with Secretary
Lansing and told him he would under-
take to remove these conventions from
Congress as early as possible.

There has been persistent opposi-
tion to the Colombian treaty under
which the United States would pay
\$12,000,000 in settlement of an ethnic
dispute out of the separation of Pan-
ama. Secretary of State Hughes said
he would not be deterred by this.

Administration leaders believe the
Nicaraguan treaty, which provides for
the payment to that republic of
\$100,000 for a canal route and naval
station rights in the Bay of Fonseca,
will be approved.

Admission of the treaty with Haiti
which would settle the dispute with
Haiti over the right to build a canal
through the island is expected.

EXPLOSION AT TIMES BUILDING NOT FROM GAS

Expert Testifying at Trial of
Schmidt Says Disaster Was
Caused by Some More In-
tense Agency.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Los Angeles, Nov. 17.—William
Mulholland, the last of the experts on
explosives to be called by the prose-
cution, completed his testimony today
in the trial of Matthew A. Schmidt,
charged with the murder of one of
the victims of the Los Angeles Times
disaster. The witness identified the
steel beam found in the building after
the explosion and also the beam
broken by a charge of dynamite as an
experiment afterwards.

When the prosecution questioned
Mulholland about the experimental
beam, objections were interposed by
the defense.

The court ruled that questions re-
lating to the experimental beam be ad-
mitted if the proper foundation was
laid and Mulholland testified that the
beam was placed across an excavation
in a similar position as the one
found in the building, and that the
dynamite broke it to much the same
manner.

"My opinion is that the wreck was
caused by the violent explosion of an
intense explosive," said Mulholland in
reply to a question.

He located the explosion at about
the same point in "link alley" as the
other expert witnesses.

On cross-examination Mulholland
testified that he had witnessed sev-
eral gas explosions and had examined
the effects of others.

"The effects of gas explosions can-
not be confused at all with the ef-
fects produced by dynamite," he de-
clared.

Eastern witnesses, it was an-
nounced, will be called to the stand to-
morrow to identify a number of tele-
grams which the prosecution stated
would figure in the general conspir-
acy theory.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Fort 8th, Okla., Nov. 17.—The
first aero squadron of the United
States army was ready tonight to
take wings tomorrow in its flight to
San Antonio, Tex., weather con-
ditions permitting. Motor trucks and
trail automobiles were loaded and six
motorcycles were prepared for the
use of electricians and mechanics
in making the trip to San Antonio
under conditions approximating war-
fare as nearly as possible, as a test
not merely for the six aeroplanes of
the squadron, but the army transport
service as well.

INCREASE SHOWN IN REVENUES OF THE ROCK ISLAND

Annual Report of Receiver
Gives Figures as to Operat-
ing Expenses and Income
of Railroad for Year.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
New York, Nov. 17.—The report of
the Chicago, Rock Island and Pacifi-
c railway and proprietary companies,
now under receivership, for the year
ended June 30 last, shows total op-
erating revenues of \$70,947,899, an in-
crease of 2.7 per cent, operating ex-
penses of \$52,521,815, an increase of
2.7 per cent, and net operating reve-
nues of \$17,426,084, an increase of 2.3
per cent. Balance of income in 1915-
16 amounting to \$450,421 was charged
to a balance deficit of \$234,476 last
year.

Since the receivership payments of
interest on the bonds and notes of var-
ious underlying properties, amount-
ing to about \$700,000, have been dis-
continued, in addition to which about
\$100,000 has been saved in salaries of
general officers and expenses of the
New York office.

Useless Shares Written Off.
The receiver has written off as
worthless approximately \$1,000,000 of
preferred and common shares of the
Peoria Railway Terminal company,
Rock Island company, Nebraska Central
Railway and Construction company
and the Union Terminal com-
pany of St. Joseph, Mo. Other securi-
ties owned by the company, including
Chicago and Alton, preferred stock,
and Memphis Railroad Terminal com-
pany, have been written down to esti-
mated values.

The annual report, was prepared
prior to the receipt of the report of
J. W. Kendrick, railroad expert, who
estimated that it would require about
\$27,000,000 to rehabilitate the system.

While the report shows a deficit of
\$234,476, the analysis in footnotes re-
veals that operating revenues were
reduced \$1,561,538 on the books by
increasing depreciation charges, for-
merly one-quarter of one per cent, to
a minimum of two and a half and a
maximum of three per cent. Addi-
tional note is made of "unprecedented"
rates of May, June and July, 1915,
which caused damage of \$1,000,000.

DEMING ARMORY BONDS VALID, IS COURT'S OPINION

Case of Far-reaching Importance, Affecting Many Interests, Is Handed Down by Chief Justice Roberts.

SPECIAL DISPATCH TO MORNING JOURNAL.
Santa Fe, Nov. 17.—The state supreme court today handed down an opinion in the Deming armory bond case, a case which is one of the most important that have come before the state supreme court thus far.

Several other acts questioned because of irregularities of procedure in their passage, are validated by the decision, at least indirectly. The legislature had made appropriations of \$150,000 each for armories at Deming, Gallup and Gallup. The opinion is by Chief Justice Roberts and all the other judges concur in it. The case is called *Kelly vs. Marron*, vs. Marron, state treasurer, appellee.

The court also affirmed *State vs. Marron*, appellant, who had been found guilty of manslaughter and sent to the penitentiary for nine years from Lincoln county, on charge of the killing of his wife, Anna Garcia de Ascarate.

The judgment of the court below is reversed and remanded to the extent of making available for the education of the children an amount reasonably sufficient for their support and education, in the divorce case of Dorothy E. Fuller, plaintiff in error, vs. Louis O. Fuller, defendant in error, from Chaves county.

Kelly vs. Marron.

This is a suit regarding the validity of the bill providing for an armory building in the village of Deming and authorizing the issue of bonds to pay for it, upon an information on the state's part to enjoin him from advertising and selling the bonds, it being claimed that the bill was not regularly passed for the failure of the journal to show that the bill had been read a full in each house after being introduced and engrossed as required by the constitution.

judgment of the court below affirmed.

Syllabus by the Court.

1. The enrolled bill which has been passed by the speaker and president of the respective houses as required by section 20 of article 4 of the constitution and approved by the governor and deposited with the secretary of state as required by the constitution, section 48, article 4, is conclusive upon the courts, as to the regularity of its enactment, since the signatures of the officers are a solemn declaration by the officers of a legislative department that the bill, as enrolled, was enacted and approved.

2. Each of the three departments of the government is equal and co-equal and responsible only to the people, and the courts are not warranted in assuming that their department is the only one to which it is safe to entrust the enforcement of the provisions of the constitution regarding the enactment of statutes.

3. The courts will not look beyond the property authenticated legislative act on file in the office of the secretary of state, certified and signed as required by the constitution, to the journal of either house for the purpose of determining whether such act was read in full therein, after it had been enrolled and engrossed, as required by section 20, article 4, of the constitution.

4. The case of *Karnes vs. Sargent*, 100 N. M. 100, wherein the court held that it would look to the journal to ascertain whether an act had been

DANDRUFF GOES! HAIR GETS THICK, WAVY, BEAUTIFUL

Save Your Hair! Double Its Beauty in a Few Moments. Try This!

Hair Stops Coming Out and Every Particle of Dandruff Disappears.

Try as you will, after an application of Dandruff, you can not find a single trace of dandruff or falling hair and your scalp will not itch, but will please you most, will be a few weeks' use, when you see new hair growing at first—then really new hair—growing all over the scalp.

A little Dandruff immediately restores the beauty of your hair. No matter how old, faded, brittle and dry, just moisten a cloth with Dandruff and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an increase in the beauty and softness of the hair, the beauty and shimmer of true hair health.

Consider the fact that a 25-cent bottle of Dandruff will counter any dry, sore or itchy scalp, and will prove that your hair is as pretty and soft as any—that it has been neglected or injured by harsh treatment—that's all.

Remember that the hair which freshens up with sunshine and air, and grows right to the roots, and keeps the scalp cool, and the hair growing, stimulating and life-prolonging properties cause the hair to grow long, strong and beautiful.

Receiving First Government Order Ever Sent by Wireless Telephone

ADMIRAL FISHER, COMMANDANT OF NEW YORK NAVY YARD.

Secretary of the Navy Daniels lifted from his desk in Washington an ordinary telephone receiver connected with the naval observatory at Arlington, six miles off, while Admiral Fisher, commandant of the New York navy yard, took up a receiver connected with the Western Electric company in Manhattan, four miles away. Then the aerial received the first official order ever sent over the wireless phone. The conversation of the secretary of the navy and the admiral ran thus:

Daniels—Hello.

Fisher—How do you do, Mr. Secretary?

D.—Very well, admiral; how are you?

F.—Very well, thank you.

D.—You are looking well. Can you hear me distinctly?

F.—Yes, very plainly.

D.—Your voice sounds very distinct. I want to give you an order over this wire; will you have a stenographer placed over the governor's veto, distinguished from the present case.

Fullen vs. Fullen.

This is a suit for divorce, partition of community property, the establishment of rights to separate property, and for the custody of minor children, in which defendant in error was plaintiff, and plaintiff in error was defendant.

Judgment was rendered in the court below against the plaintiff in error, from which said judgment plaintiff in error sued out this writ of error to review said judgment.

Judgment of the court below reversed and remanded with directions to modify the decree to the extent of making available out of the fund provided for the children an amount sufficient for their reasonable necessities by way of support and education, as ascertained from the evidence in the record, or if this is insufficient, from further evidence to be taken by the court. The decree as to all other respects will be affirmed.

Syllabus by the Court.

1. Sections 4179, 4180, code 1915, interpreted, and held that an application for judgment is not a motion requiring five days' notice, and that where a cause has been submitted and taken under advisement, the parties are entitled to notice for no particular length of time, as to the form and substance of the judgment, so long as opportunity is afforded to be heard upon that subject, and to take exceptions to the findings and conclusions, and to propose matters as to their respective contentions may be represented on the record.

2. It is a fundamental rule of appellate practice and procedure that an appellate court will consider only such questions as were raised in the court below. This rule has express statutory sanction in this jurisdiction, Section 4108, code 1915.

3. Where there are two or more separate and independent causes of action in a given case, there may be as many separate and distinct final judgments therein.

4. In such a case, even in jurisdictions where terms of court are prescribed, the lapse of the term will not deprive the court of jurisdiction of the cause, but simply of the judgment which was rendered, subject to such term, if it was a final judgment.

5. In this jurisdiction, by reason of section 4185, code 1915, there are six terms of court except for jury trials, and a judgment which disposes of all, or one or more of the separate and independent causes of action in the case, becomes final judgment upon its rendition and entry, in the sense that the same passes from the further control of the court, and except a default judgment. Section 4227, code 1915, and an irregularly entered judgment, section 4230, code 1915, and except for such purposes as all courts always retain control over their judgments.

6. No relief will be afforded in this court from findings of fact made by the trial court, which are supported by substantial evidence.

7. The matters mentioned in the seventh paragraph of the opinion require no decision of any question of law.

8. Where the court has found the necessity to exist for a provision for the support of minor children out of the property of the parties to a divorce proceeding, and where such provision is made in the decree, it is error to withhold from them the benefit of such provision until their return to the jurisdiction, from which they have been clandestinely removed by the mother, when the withholding of such benefit is, apparently, by way of punishment of the guilty mother.

The measure of the infant's claim upon the court, and upon the funds set aside for them is their necessities, independent of any misconduct on the part of either party to the divorce proceedings.

Opinion by Parker J. Roberts, C. J., and Hanna, J., concurring.

In February, 1913, Ricardo Asca-

take it down? It is an official message.

"Dear Admiral Fisher, Navy Yard, New York. Report as soon as practicable after the arrival of the New York, how soon the repairs recommended on her can be completed. (Signed) Daniels," was the message.

F.—Yes, sir, is there anything more you wish to say?

D.—How long will it take before we can get the California off the ways?

F.—We hope to get that monster off in about thirteen or fourteen months.

D.—Well, you will want another ship in a year, won't you?

F.—Yes, we will be glad to have one in about a year. We would like it a little earlier. We could prepare it much ahead.

D.—Admiral, you have my word, I will try to do that. By the way, admiral, here's a man who has an invention so that you can see over the phone. I can almost see you now; I hear you so plainly.

SINKING OF ANGLIA ALARMS GREAT BRITAIN

LONDON, Nov. 18 (1:10 a. m.).—The sinking of the Anglia, although the first case in the war of a hospital ship meeting disaster while carrying wounded, has caused great anxiety in the public mind, as it had been supposed that the English channel was entirely free of danger from mines.

The newspapers indulge in much speculation, some of them offering the explanation that they must have been German mines.

The Anglia had 200 cotton cases aboard. When the rescuing vessels reached her she was badly down by the head and her propellers were rocking. Her stern was so high above the sea that one of the rescuing vessels was able to pass under her and forty men dropped aboard.

The crew of the Anglia gave vivid narratives of the disaster, according to which, after a terrific explosion, the bows of the Anglia seemed to melt away until the sea lapped her tails. She surged forward, however, and the end came with dramatic suddenness.

With wounded soldiers and doctors, nurses and sailors clinging to the stern, the vessel appeared for a moment to stand on her bows, then suddenly went under, but left the Red Cross flag flying at her mast six feet above the water.

FRAUD CHARGE BROUGHT AGAINST SOLICITOR

SANTA FE, Nov. 17.—A young man giving his name as Frank Clapp was held in \$2,000 bond to the grand jury today to answer to the charge of fraudulently soliciting subscriptions to the Pictorial Review.

The hearing was before Justice of the Peace Alberto Garcia. Clapp's companion, who gave his name as H. E. Herbert, was held in \$1,000 bond.

Tomorrow forenoon the case will come up before District Judge E. C. Abbott on petition for writ of habeas corpus. A. G. Ackert, representing the Pictorial Review, and dozens of other publications, came from New York to assist in the prosecution. He asserted that the two young men probably cleared \$10,000 this year in taking subscriptions in ten to fifteen states.

Wagner Lectures to Women.

SANTA FE, Nov. 17.—Before the Woman's club this afternoon, Superintendent J. H. Wagner of the public schools gave an illustrated lecture on the relation of the public schools to the community, expressing the desirability of the schools coming into contact with the community life at as many points as possible.

Mrs. W. H. Bartlett followed with an extremely interesting talk on her experiences as a special teacher at Santa Fe. Mr. Frothingham, representing the Curtis Publishing company, addressed the club on "The Boy, business and the Community." The High School Glee club under the direction of Mrs. George H. Van Stone rendered several selections.

Breeding Stock Being Improved.

CARLSBAD, N. M., Nov. 17.—It is a remarkable how much breeding stock is coming into northwest Texas and east of New Mexico the last few weeks. The progressive stockmen are selling their old stock and taking back better cows and generally registered bulls.

This change is so striking that everybody cannot help but notice the change that is coming over this section. It will add to the prosperity of the country as better stock matures more quickly and returns therefore come sooner.

Roasting Ears in November.

CARLSBAD, N. M., Nov. 17.—Roasting ears for Sunday dinner November 14 were enjoyed through the Pecos valley and out over the great plains. Some years this may not be possible, but other years the farmers may have roasting ears still later. It is an illustration of the very favorable climate that this section of the southwest enjoys. It is not generally understood that the Panhandle of Texas and the Pecos valley may provide green pasture the year around with just a little care in the rotation of crops. This year there will be much wheat and oats pasture available for part of the nation in feeding and wintering livestock.

FRANK J. CHENEY.
Before me, before me and subscribed to at public sale, this 18th day of November, A. D. 1915.

WAR'S DURATION SURPRISES ALL BELLIGERENTS

Haldane Declares Germany's Astonishment Is Probably Greater Than That of Any Other Nation.

LONDON, Nov. 18 (1:30 a. m.).—Viscount Haldane, the former war secretary, speaking at a banquet last night, declared that the Germans would have reached Paris and perhaps Calais, had not the government taken prompt action upon the warnings which he himself and others had given of the German intentions.

The British government, he said, did everything possible to get aggressive ideas out of the heads of the other nations on the continent, but that did not prevent the government from taking precautionary measures. Great Britain was not taken unawares but was able to mobilize the army and navy at the first moment of the outbreak of the war, he added.

Lord Haldane expressed the belief that there was not a single government among the powers that has not been wholly surprised and taken aback by the magnitude and duration of the struggle which has since developed and that nobody has been so much surprised as the German general staff, which "had expected a walk-over in about three months."

CAREFUL PACKING SAVES \$1,500,000

CHICAGO, Nov. 17.—More than \$1,500,000 was saved shippers and railroad companies during the first six months of 1915 by efficient and careful packing, marking and handling of freight shipments, according to reports made at the semi-annual meeting of the American Railway association at its closing session here today.

The association includes in its membership presidents and vice presidents of practically every railway in the country.

Regulations recommended by the organization will automatically go into effect throughout the country, it is said.

Storm Rages Over Newfoundland.

St. Johns, N. F., Nov. 17.—Much damage has been caused to water front property and to coast shipping by a storm which has raged over Newfoundland for two days. Telegraph service to many points is interrupted. Fears are felt for the safety of vessels on the Grand Banks along the northern coast of the island.

Indigestion and Constipation.

"For some time prior to taking Chamberlain's Tablets I was troubled with indigestion and constipation. I lacked ambition, and felt tired and worn out. Chamberlain's Tablets afforded me quick relief, and eventually restored me to good health," writes Mrs. J. T. Tyler, Eden Center, N. Y. Obtainable everywhere.

Eggs packed in boxes of one dozen bring a better price than any other method of delivery.

By a recent contract with a big factory we are placed in a position to sell complete boxes at one cent each by the hundred. Less than a hundred would be little higher in price. These boxes are good ones and can be used more than once if desired.

Singing the Praise of Chamberlain's Tablets.

"Ever since I used Chamberlain's Tablets for indigestion, when living in Fulton, N. Y., about five years ago, and did not know much good I have been gaining their praise in the care of neighbors and friends," writes Mrs. Ernest Crookes, Canfield, N. Y. Obtainable everywhere.

Don't Merely "Stop" a Cough

Stop the Thing that Causes It and the Cough will Stop itself

A cough is really one of our best friends. It warns us that there is inflammation obstructing in a dangerous place. Therefore, when you get a bad cough don't proceed to dose yourself with a lot of drugs that merely "stop" the cough temporarily by deadening the throat nerves. Treat the cause—heat the inflamed membranes. Here is a home-made remedy that gets right at the cause and will make an obstinate cough vanish more quickly than you ever thought possible.

Put 2½ ounces of Pinex (50 cents worth) in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you a full pint of the most pleasant and effective cough remedy you ever used. At a cost of only 54 cents. No bother to prepare. Full directions with Pinex.

It heats the inflamed membranes so gently and promptly that you wonder how it does it. Also loosens a dry, hoarse or tight cough and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a highly concentrated compound of Norway pine extract, rich in quinine, and is famous the world over for its healing effect on the membranes.

To avoid disappointment, ask your druggist for Pinex, and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

PENROSE'S HAT IS IN THE RING FOR PRESIDENT

Pennsylvania Senator Gives Out Statement in San Antonio Announcing That He Is a Candidate.

SAN ANTONIO, TEX., Nov. 17.—Boies Penrose, United States senator from Pennsylvania, said here today that he would be a candidate for the republican nomination for the presidency in 1916 but refused to discuss his plans beyond saying that he would make a formal announcement later. While here Senator Penrose arranged for a conference with H. F. McCreary, republican national committeeman from Texas. Mr. Penrose was in San Antonio as one of the party attending the Liberty Bell from the Pacific coast to Philadelphia.

NOTED ELKS EDITOR DIES IN NEW YORK

NEW YORK, Nov. 17.—Arthur C. Moreland, aged 68, widely known among the members of the Benevolent and Protective Order of Elks and editor-publisher of the Elks-Antler, one of the leading publications of the order, died in a hospital here late today. Two weeks ago he went to the hospital on account of gastritis in the right foot and his condition became gradually worse.

He had served as exalted ruler of Elks lodges in San Francisco and New York and was the author of the ritual of the order. He was stricken with blindness more than twenty years ago.

WITNESS UNMERCIFULLY PANNED BY LARRAZOLO

SPECIAL CORRESPONDENCE TO MORNING JOURNAL.
East Las Vegas, N. M., Nov. 17.—Seething language was used by O. A. Larrazolo, attorney for Tranquillo Baca, in arguing the case before the jury Tuesday evening. Baca is accused of cattle stealing, and Jacoby is the principal witness against him, having stated that the defendant made arrangements to sell him two stolen cows on February 2, but that he trapped Baca and a man named Jose Martinez by having Chief of Police Ben Colas hidden in the corral when the animals were delivered.

Larrazolo told the jury it should be "careful of giving too much credence to the testimony of men, born in foreign lands, who come

THE BANKS SHOW PROSPERITY
IS HERE.

The people of Albuquerque have a right to be proud of the showing made by the banking institutions of this city. Not only in every bank, and every trust company engaged in the banking business, on the soundest possible basis, but the large aggregate of deposits speak well for the prosperity of this banking center.

The First National bank has total assets of more than \$5,000,000 and the State National has above \$2,000,000. The First Trust, the American Trust and the Citizens' bank, the total well up toward ten million dollars, which fact tells its own story of the prosperous condition of this section of the state.

The First National bank with the First Trust company is big enough to out a figure in the banking circles of any city of less than a quarter million population, and the beauty of it is that it and the other banks, while cautious, never fail to liberally care for the interests of any worthy customer. Every business which appeals to the banking interests of this city is sure to have ample support provided it has the moral security which careful banking rules make necessary.

On the other hand, there is no other community in the entire nation where a "wild cat" proposition would appeal with less hope of securing a dollar. The "safety first" idea prevails here, but is carried only so far as prudence demands.

There never before has been so much money in the banks of Albuquerque, and the deposits are growing by leaps and bounds. The long expected, dreamed of and hoped for prosperity is here. It is all over the country and the crest of the tide has not been reached and will not be reached for at least another five years.

It has leaked out recently that John D. Rockefeller, Jr., can say damn when he is riled. The young man with whose name we associated untold millions of money and a Sunday school class, when a laborer got up in one of the Colorado meetings and said he doubted if the young man posing as the son of the richest man in the world really was John D. Rockefeller, Jr., the latter sprang to his feet and said: "You know damned well I am John D. Rockefeller, Jr." Which recalls the fact that Woodrow Wilson used the same expletive three years ago when answered by a persistent reporter that both John D. Jr. and Woodrow Wilson would have been just as big men if they had said damn instead of damn.

BRYAN DENTEN IS

It is a safe bet that William Jennings Bryan will be a little more careful in the future when he makes statements regarding men and their motives. Recently he charged in a speech in Philadelphia that the navy league, which is advocating preparedness, was supported by and working in the interest of the manufacturers of munitions.

The president of the league wrote a courteous letter to Mr. Bryan in which he asked him to retract, stating that the contributions for support of the league came from more than 20,000 members, mostly in dollar subscriptions and that the largest contribution was ten dollars. He also stated that there was no munitions plant, either as a corporation or through officers or directors individuals, that had contributed one dollar. He asked Mr. Bryan to name an auditor who would make a thorough examination of the books of the league's income and expense.

Mr. Bryan made no reply. After more than five weeks had passed, the president of the league notified Mr. Bryan through an attorney that unless there was complete retraction and withdrawal of the charge against him under the label laws.

Mr. Bryan immediately declared that he never had charged the navy league with being supported by, and

in the interest of, the munitions plants. He said the Philadelphia newspapers had intentionally misquoted him. He was shown then that six different reporters, for so many different publications, had quoted him as using the same words. He said that made no difference, and produced an old manuscript which he said was the speech he had delivered. They showed him many other things said in his reported speech which were not in the manuscript and he admitted having said them, as the manuscript was merely an outline, but insisted that it must be accepted as what he actually said, even if he did say a lot of things not contained in it.

Of course, Mr. Bryan knew that he had made this charge against the navy league, as quoted by the reporters; he also knew that he was charged, and in danger of losing a goodly sum of money in a damage suit, hence, his painful retraction.

One of Mr. Bryan's troubles has been the readiness with which he has charged corruption against any and all who failed to agree with him, over and over again, he has stated that the newspapers backing the policies of President Wilson were subsidized by the manufacturers of war materials and were speaking from sordid motives.

Of course, the charge against the newspapers was just as false as that against the navy league. But it is not a crime against the law for any man to launch the newspapers, without pointing out any particular one of them, for denunciation. In the case of the navy league he was specific.

A graduate of the University of California wrote from the French front recently that he had been promoted to the signal corps and that the average life of a signal corps man was thirty days. He had been on the job seventeen days. Ten days later he was killed, showing that the law of averages was still good.

WHY WE MUST ARM.

OWEN STRAUSS has long been recognized as one of the clearest and ablest thinkers of the nation. In a recent address he packed the truth of history and experience into the following pregnant passage:

"While righteousness exalts a nation, the present war gives uncontroverted proof that righteousness will not protect a nation unless all other nations are protected by right. Nations, National weakness, do not make for peace. A nation without power is compelled often to submit either to conquest or to humiliating concessions."

No juster rebuke could be delivered to the men who are opposing increase of our pitiful little army and our inadequate navy. Humiliating concessions have been exacted from weak neutral nations of Europe and ruthlessly snatched from the feeble hands of China, though China has a population of more than four hundred millions of pacifists.

International law has no stronger base than domestic law has—both rest upon the right of might, the major force of civilization. Neutral rights are a mere scrap of paper unless supported by the power to make successful war. On that point Alexander Hamilton, writing in the Federalist in 1788, said:

"The rights of neutrality will be respected only when they are defended by an adequate power. A nation despicable by its weakness forfeits even the privilege of being neutral."

However much we may deprecate war, however loudly we may talk of the doctrines of the Christian religion, the fact remains that we are in the midst of a world of lawless force, and the nation unprepared to fight for its rights, sooner or later will lose them.

The teachers' meeting should pack the armory hall three times a day, and it will do it if the people of Albuquerque realize what is in store for them.

With Scissors and Paste

NO PROPHECY.

There is a great, mysterious thing with wings.

Flying about the world; and it has come since the new century. Of all the things

We follow, eager, this alone is dumb.

And has no name. But mankind chases it.

With all the vigor of the racial soul. We hear its beating wings, or see a bit

Of sunshine on its feathers, but the whole

Is hidden, voiceless and mysterious; We only know it means the world to us!

Efficiency has turned us to machines—

Higher machines, but still without a soul.

Service is better, yet, it has a meaner, And not an end—the rule, but not the goal.

What is the age's ideal? With a cry It flutters just above the battle flake—

It beats its pinions even where nations die.

And even in deserts nests among the crags.

What is it? Let one name it for us—

—He

THE GUN BEHIND THE DOOR.

(Springfield Republican.)

While the temptation is strong among opponents of the initiative and referendum to make merry at the expense of Governor Miram Johnson, the wholesale rejection at the polls of ten California laws which the governor had strongly advocated carries a serious lesson—one which experience is teaching wherever direct legislation is being tried.

The California voters in the first

Male Spiders and Scorpions Find Love-making Exceedingly Dangerous

(Cincinnati Enquirer.)

On several occasions we have spoken of Fabre, his friends and his work. We have been impressed by his description of the perils of courtship among spiders and scorpions. It all seems so tragically true—the deadliness of the female is so evident.

Faint heart never won ugly spider, parades the insect poet. Indeed, the male spider must not only display courage, but must also display extreme skill in dancing before he can hope to subdue the heart of any fe-

male of his species.

The male spider, come a-wooing, may see the female standing perfectly still, some twelve inches away. The sight will excite him. He moves toward her. When some four inches off he must begin in due time "the most remarkable performance that an amorous male can offer for the delight of an admiring female."

She eyes him eagerly, changing her position from time to time so that he shall always be in view. He, raising his

male of his species.

For washing dishes use a teaspoonful of Gold Dust to a full dishpan of hot water.

Follow the simple directions on every package of Gold Dust.

For washing dishes

This is one of the uses in which Gold Dust is supreme.

And it does not scratch or mar.

But remember that its use is not to be limited to washing dishes.

In the truest sense Gold Dust really works for you.

Gold Dust cleans, brightens and beautifies everything in the house.

It penetrates corners that can not be reached with fingers or wash cloths and takes out dirt and grease. In addition to its activity as a cleaning powder, Gold Dust acts as a disinfectant.

It is safe, quick, and sure.

Millions of women have learned that it is the one washing and cleaning powder for all cleansing and purifying purposes.

It cleans floors, linoleum, kitchen utensils, bathtubs and bathroom fixtures, windows, fine woodwork, silver, plated, copper and nicked and enameled ware—

Recipe—

For washing dishes use a teaspoonful of Gold Dust to a full dishpan of hot water.

Millions of women have discovered how much the work of dishwashing may be lessened and made easy by the use of Gold Dust.

It makes everything clean and pure. Gold Dust is the only cleaner you need. Its popularity is universal.

It is inexpensive and indispensable.

"Let the Gold Dust Twins do your work."

Five-cent and larger packages sold everywhere

GOLD DUST

The Active Cleaner

THE WHOLE BODY NEEDS PURE BLOOD

The bones, the muscles and all the organs of the body depend for their strength and tone and healthy action on pure blood.

If the blood is very impure, the bones become diseased; the muscles become stiffened; the skin loses its elasticity, and there is inability to perform the usual amount of labor. The skin loses its clearness, and pimples, blotches and other eruptions appear.

Dr. Wood's Serravallo makes pure blood. It is positively unexcelled in the treatment of scrofula and other humors, catarrh, rheumatism, dyspepsia, loss of appetite, that tired feeling. Be sure to get Wood's and get it today. All druggists.

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off With Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should be kept clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Olive Tablets—there's no better substitute for colic—there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which colored ointments and lotions cannot do. They are gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cured of a skin disease. It is a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a pure vegetable compound mixed with olive oil. You will know them by their olive color. Tablets afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists.

The Olive Tablet Company, Columbus, O.

A Remedy For All Pain

"The efficiency of any drug," says Dr. C. F. Roberts, "is known to us by the results we obtain from its use. If we are able to control pain and disease by means of any preparation, we certainly are warranted in its use. One of the principal symptoms of all diseases is pain, and this is what the patient most often applies to in order to relieve his pain. If we can arrest this promptly, the patient is most benefited. In fact, for the other remedies which will effect a permanent cure, the remedy which I have used largely in my practice is Anzikan Tablets. Many are called for by headaches of material origin, where outside was being taken. They must be given for headaches of a neuritic origin, and especially for women subjected to certain times. Two Anzikan Tablets give prompt relief, and in a short time the patient is able to go about as usual." (This tablet may be obtained at all druggists. Ask for A-K Tablets. They are also concealed for headaches, neuritis and all pains.)

O'SHEA TO ADDRESS PATRONS' SECTION AT TEACHERS' MEETING

A platform star of educational work will be Prof. M. V. O'Shea, president of Wisconsin university, author of national renown and psychologist who is stirring new thought for child welfare.

Dr. O'Shea will address the teachers and patrons at the annual session of the patrons' section of the N. M. E. A. Tuesday morning of convention week in the high school auditorium. His subject will be Patrons' Privileges in Co-operating With Teachers. Those who have followed his articles in the Mothers' Magazine know that few speakers can talk so interestingly on this subject as can Dr. O'Shea. In the recent issue of the Mothers' Magazine, the article by Dr. O'Shea on "Home and School" deals with real Christian values in a way to make every reader think deeply on the significance of the Christmas celebration in home and school.

Other features of the patrons' sectional meeting Tuesday morning will be songs by Miss Elizabeth Garrett, the blind composer, and physical culture demonstrations by the Las Vegas Normal Glee club.

BELIEVES THIS CITY IS GETTING A GOOD 'Y' FOR THE COST

That Albuquerque is getting the biggest and best arranged Y. M. C. A. building for the cost that we have seen was the opinion expressed yesterday morning by Charles R. Towson, of New York, international secretary of the Y. M. C. A. Mr. Towson arrived here yesterday morning, returning to his headquarters from El Paso, where he attended the interstate convention. Secretary W. H. Day took Mr. Towson on a sightseeing trip which ended at the Y. M. C. A. Mr. Towson was shown through the building. He was here little more than an hour.

Public-dashing was begun on the east side of the building yesterday. The brickwork was finished last night.

SUIT IS BROUGHT BY BERNALILLO COMPANY AGAINST ANDRES VIGIL

The Bernalillo Mercantile company yesterday brought suit in the Sandoval county division of the district court against Andres Vigil. Judgment is asked by the plaintiff for \$450, interest at the rate of 6 per cent from April 14 of this year, and 10 per cent attorney's fee. The Mercantile company alleges it holds Vigil's promissory note for \$450. George S. Klock is attorney for the plaintiff.

RAYNOLDS EXECUTORS FILE FINAL REPORT IN PROBATE COURT

Ralph W. Johnson and William M. Reynolds filed their final report as executors of the will of William P. Reynolds yesterday with the probate court. Judge Burg set the hearing on their report for January 3.

DEATHS AND FUNERALS.

Funeral of Mrs. Helweg. Funeral services for Mrs. Paulina Helweg will be held at 3 o'clock Friday morning at the Church of the Immaculate Conception. Father Mandat, S. J., will officiate. Burial will be in Santa Barbara cemetery.

WHEN ARRESTED, HE TAKES POISON; LIKELY WILL DIE

J. B. Davis Hurried From Isleta to Hospital for Treatment; Will Recover if He Lives Through Night.

While locked in the little building that serves for a jail at Isleta, J. B. Davis, formerly employed by a motor company here, yesterday afternoon attempted to kill himself by taking poison. He was brought here on Santa Fe train No. 116, arriving at 6:30 o'clock last night, and taken to St. Joseph's hospital in an attempt to save his life. However, it was said that recovery was doubtful.

Davis was arrested about 2 o'clock yesterday afternoon by Special Officer A. J. McKew, of the Santa Fe railway police, at Isleta. McKew found him in a freight car. He told McKew his name was Davis. The officer then accused him of having passed a worthless check for \$100 at Richard H. Ellis' store, 305 South First street. Davis insisted that he had the wrong "Davis."

Asks Officer for Water. McKew searched the man and found a check for \$5, made payable to Davis and signed by C. M. Barber, of the Albuquerque Motor company. The check was similar to that taken in by Ellis, except as to denomination, so McKew placed him under arrest.

McKew, unwittingly, added Davis to his multiple attempt. About 3 o'clock, according to the officer, Davis asked him for water. He nearly forgot the request, but remembered it a short time later and took Davis a glass.

When McKew returned to the building about 5 o'clock, Davis was unconscious and breathing heavily. A paper containing some white powder, marked potassium cyanide, was found near the prone figure by McKew. Davis had taken some of the powder with the glass of water.

Taken to Train. Assisted by several men, McKew carried Davis to the train. He telephoned Dr. Whittier at Los Lunas, who boarded the train at that station, and accompanied him here. Dr. W. W. Spargo was called when they reached the hospital. Dr. Spargo said it was doubtful if the man would recover, but that if he lived through the night he probably would overcome the effects of the dose. Customary treatment for the poison was given. He was unconscious.

Davis worked for a short time at the Albuquerque Motor company's place on West Central avenue. He came here early in October. Little was known about him there. He had said he came from New York and that he was going to El Paso, when he left. He is 30 years old.

Ellis Tells of Check. Ellis told McKew that Davis had been in his store and had tried to buy a pair of boots on credit. He came back Monday night with a check for \$10, bearing C. M. Barber's name, and knowing that Davis had been working for the Albuquerque Motor company, the storekeeper sold him the boots, underwear and socks, taking the check, he said. He was told when he presented the check at the bank that Mr. Barber had no funds in that institution, according to Ellis. He then went to the Motor company's office. He did not see Mr. Barber, but some one in the office told him that the company used private checks, Ellis said. The check, held by him was one of the kind furnished by the bank.

Ellis made report of the matter to the police and McKew, who happened to be in the city Tuesday morning.

Davis' head had been injured. There was blood on his collar, from the injury, when McKew found him. He told the officer that he had hurt himself in getting off a train.

Said He Walked to Isleta. Later he told a conflicting story, saying that he had walked from Barcelona to Isleta. This came in response to McKew's inquiry as to what he had done with the boots he got at Ellis' store. He said he left them at a saloon in Barcelona.

"BOUGHT" A Powerful Play at the Pastime Theater Today and Tomorrow.

Horace Framberg, an impecunious literary man, receives the following offer: Helen Talbot, daughter of a rich financier, has trusted her lover not wisely but too well. She is about to become a mother. Her lover went down on the "Titanic." If Framberg will marry Helen Talbot and save her name, he will receive \$10,000 and a position in Mr. Talbot's office.

Framberg marries Helen; and the child dies. Mr. Talbot gradually trusts and likes Framberg; but Helen despises her "bought" husband and intrigues with other men. So Framberg resigns his position and pays her back her \$10,000; deserts her and tells her to get a divorce.

Talbot's business is failing, and Framberg helps him recover it. Then Framberg returns to his room to die, as he thinks, but when he recovers from his illness he finds Helen by his side.

She loves him and they are made happy by a happiness that has not been "bought."

See the photoplay at the Pastime theater today and tomorrow.

SANTA FE MAKES BIG APPROPRIATIONS FOR WORK IN NEW MEXICO

The list of authorized appropriations contained in the last issue of the Santa Fe Magazine follows: Albuquerque division: Bridge No. 6-57, protection work, \$2,500; Gallup, purchase of land for proposed new mechanical facilities, \$12,000; Seligman, temporary addition to the Harvey house dining room, \$2,000; Gallup, grading for the construction of new mechanical facilities, \$30,000.

New Mexico division: Kochler, construction of 208 feet of track \$1,500. Third district: increased weight of rails and fastenings, \$4,800; Pecos, construction of a 745-foot track to serve the Holly Sugar company, \$1,400.

Pecos division: Red Bluff, construction of fifty-car capacity stock pen, \$1,800; Clovis, conversion of power plant to use fuel oil instead of coal, \$2,200.

Rio Grande division: Increased weight of rail and fastenings between Bayard and San Jose, \$1,200; El Paso, construction of spur track to serve the El Paso Smelting and Refining company, \$1,000.

B'NAI B'RITH DAY TO BE CELEBRATED FRIDAY

Members of the order of B'nei B'rith, the best known of all Jewish charitable organizations, will celebrate B'nei B'rith day here tomorrow with appropriate ceremonies in Temple Albert. E. J. Kornhauser, of Cleveland, president of district No. 2 of the order, in which Albuquerque is situated, and a distinguished orator, will deliver the principal address on that occasion. Mr. Kornhauser and his wife are at present visitors in the city.

After the services tomorrow night there will be a reception to Mr. and Mrs. Kornhauser at Temple Albert.

WATER FOR SPRINKLING ALAMOGORDO STREETS TO BE DISCONTINUED

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Alamogordo, N. M., Nov. 17.—The board of trustees of the town of Alamogordo has received notice from the Alamogordo Waterworks company to the effect that after December 1 no more water for sprinkling will be furnished. This will mark the beginning of another chapter of the struggle to collect taxes from the Alamogordo Improvement company, which is under the same local management and partly under the same ownership, as the waterworks company. The companies have refused to pay the sprinkling taxes for the years 1913 and 1914, amounting to something over \$2,000, and as a matter of precaution the town of Alamogordo has withheld the payment of the money due the Alamogordo Waterworks company for water furnished for sprinkling.

The amount due for sprinkling up to December 1, 1915, is about \$2,000. In a suit that was filed not long ago by the county, the court compelled the companies to pay all the taxes except the sprinkling tax, holding that the so-called sprinkling tax which the town sought to collect, was invalid and uncollectible. Lacking the \$2,000 a year, which the town holds that the companies should pay in sprinkling taxes, it will be impossible to continue the sprinkling service, notwithstanding that practically all the other owners of property have paid the sprinkling tax. The city authorities still entertain hope of collecting the tax from the companies, but how they hope to force the collection has not been made public.

Habeas Corpus Denied. Santa Fe, Nov. 17.—District Judge E. C. Abbott today denied a writ of habeas corpus to Frank Clapp and H. E. Herber, the two young men held here on the charge of obtaining magazine subscriptions under false pretenses.

FARMER AND STOCKMAN NOW CO-OPERATING IN SOUTHEAST NEW MEXICO

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Carlsbad, N. M., Nov. 17.—Cattle and sheep are moving to the valley farms this fall in remarkable numbers, said Elliot Hendricks, president of the National bank of Carlsbad, this morning. "The change in farming and livestock methods is striking and has come quickly; in fact, I might say unexpectedly."

"Since I came to Carlsbad over twenty-three years ago, I have kept in close touch with the farming and livestock industries, especially in Eddy county. For years there was no appreciable change in handling livestock or conducting the farms. The two interests, though not exactly antagonistic like they were in many places, paid little attention to each other, apparently having no interest in common."

"This fall, however, there is developing a singular co-operation. Stockmen buy farmers' hay to take to the range for winter feed. Others are planning to take their best cows and ewes to the farms for the winter. The farmers are buying calves and older cattle and sheep to winter on feeding, using feed that would otherwise be lost. Still others are buying cows."

"This change in methods is creating a new demand for money. It is really a new kind of loan in this section to enable farmers to buy livestock and market their feed crops on the hoof. I can name more than a score of farmers in the Carlsbad project, the district with which I am most familiar, who have already received calves, cows and sheep. Several more have bought cows and with great cattle, using outside pasture in summer and farm grown feed in winter. This change in livestock on the farm is good business."

SANTA FE LOOKING TO ALBUQUERQUE FOR HELP TO GET CONVENTION

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Santa Fe, Nov. 17.—Santa Fe counts on the assistance and friendship of Albuquerque to help it land the educational convention for next year. That was the sentiment voiced at the well attended meeting of the Chamber of Commerce last evening. A committee of three members is interviewing the business men today to sound them as to the earnestness of their desire to have the convention and whether they are willing to state that earnestness in dollars and cents and work. It was felt that it will be easier to land the convention than it will be to entertain it, but that Santa Fe can entertain it and entertain it most loyally. The committee appointed by Emil Chaffield, C. W. McClintock and Nathan Salmon.

The chamber decided to employ an advertising expert to make a survey of the resources and possibilities for development of Santa Fe. Edgar L. Street, of New York, made a splendid boasting talk and others caught the spirit and predicted that 1916 will be the banner year in the growth and development of the Capital city.

At the request of the Woman's club, Frank Owen, Paul A. P. Walter and R. G. Cartwright were appointed a committee to take charge, in conjunction with committees from other civic bodies, of the municipal Christmas tree.
