KENYON LOSES COVETED PLACE ON COMMITTEE

Republicans Turn Him Down
Because He Favors Prohibition of Munitions of War to Belligerents.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Washington, Dec. 11.—Senator Kenyon, Republican of Iowa, was defeated today by the Republicans on the committee to investigate the relations between the United States and Germany.

The committee was organized today by the Senate. Kenyon, who had been a member of the committee for several years, was defeated by a vote of 14 to 12.

DENIES GERMANY TRIED TO FOMENT WAR IN MEXICO

Hugo Hahn, Manager of Berlin Banking Interests, Tells of Unpleasant Financial Deal for Huerta.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Mexico City, Dec. 11.—(By Mail to London, Dec. 11.)—Hugo Hahn, manager of Berlin banking interests, tells of an unpleasant financial deal for Huerta, which he says was a failure. Hahn, who is a German, says that he was in Mexico City in 1914, and that he was in contact with Huerta, who was then the president of Mexico. HOLLAND NOT IN SYMPATHY WITH THE FORD PLANS

Neither Encouragement Nor Recognition of Any Sort to Be Extended; May Be Asked to "Move On."

(BY MORNING JOURNAL SPECIAL LEADER WIRE) The Hague (Via London, Dec. 11, 1915, p. m.)—Neither encouragement, recognition nor support in any shape or form will be offered to the Ford peace party by the Netherlands government, according to information from official sources given to a correspondent of the Associated Press. Government officials, it was indicated, naturally noted the party's departure and also received a notification thereof from the leader, but no reply was forwarded. No opposition, however, will be placed in the way of the party's landing in Holland, but should the activities of its members become embarrassing while here they will in all probability be requested to transfer their headquarters to other than Dutch territory. Private pacifists, of whom there are many in this country, probably will welcome the Ford party as an addition to their ranks.

The impression prevails that the general public and the press are inclined to regard the Ford party with the slightest interest as the opinion is widely prevalent here that peace will not be achieved by the efforts of pacifists, but as a result of hard fought battles in which one antagonist succumb.

FORMER PREMIER IS IN SARCASTIC MOOD

Edinburgh, Dec. 11 (9 p. m.)—In this month there is coming over a vessel freight with peace, said the Earl of Rosebery, the former prime minister, in a speech here tonight. "It is preposterous to suppose that a gentleman named Ford, who makes, I think, perambulations, is coming over to pour oil on troubled waters at the inspiration of a Dr. Aitken of whom we know something here, and by voice more potent than any of the kind heard in this world is going to tell the soldiers from the trenches and the waves be still."

"The expedition will fail, but that the mighty passengers receiving free passes may enjoy themselves and do no mischief, is our earnest solicitation."

FORD WIVES FOR HOTEL ROOM FOR 168 PERSONS

Christiana, Dec. 12 (via London, 1:45 a. m.)—A wireless message received from the Ford peace party on board the steamer Oscar II, requests that hotel accommodations for 168 persons be arranged. A private Norwegian traveling bureau will undertake to find accommodations for the party. Neither the American minister, Albert G. Schneiderman, or Consul General E. Halldeman, however, has heard anything from the party and will only receive Henry Ford as a private citizen.

The Oscar II is due here on December 14. The Ford party will receive a friendly welcome from the press and the public, but nobody seems inclined to support Mr. Ford's peace proposals. At a meeting of the students' society, which is open to any sound-minded person who has anything to say on questions of public interest, Mr. Ford will be given an opportunity to lay his plans before the public.

FORD PARTY AMUSES PEOPLE OF SWEDEN

Stockholm (via London, Dec. 12, 12:58 a. m.)—Henry Ford's peace mission is received by the Swedish press as a novelty, which will have no chance to intervene in the cause of peace. No acknowledgment of the mission is expected, but will be made by the Swedish authorities and the American legation has taken no notice of it.

BIG AUTO PARADE IN MOUNTAIN PARK TODAY

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Denver, Colo., Dec. 11.—A 75-mile automobile parade through Denver's mountain park is planned tomorrow to open the city's new Mountain Boulevard, constructed at a cost of more than \$250,000. Officials of Denver and civic organizations and the public generally are to participate. Denver's mountain park consists of more than 2,000 acres lying in the mountains fifteen to thirty miles from the western limits of the city. It is said to be the only instance in which a municipality has gone far beyond its borders to acquire real estate for park purposes and authority to construct the roadway was secured by special act of the state legislature.

The new boulevard system extends west from Denver through Golden and ascends by serpentine rise. Lookout towers, built at intervals, approach the first snow-capped range of the Rockies. At the highest point the driveway is approximately 3,000 feet above Denver. It then descends sharply into Bear Creek canyon, follows that mountain stream many miles, emerges from the foothills at Morrison and thence to Denver.

The roadway with a minimum width of twenty feet was built at an average cost of \$3,000 a mile. For short distances where it was blasted out of solid rock, city officials place the cost of construction at \$50,000 a mile.

SUCCEEDS BURTON AS PEACE SOCIETY HEAD

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Washington, Dec. 11.—Directors of the American Peace society, meeting here today, elected Dr. George W. Kirtland, of Columbia university, president of the society to succeed former Senator Theodore E. Burton, of Ohio. Mr. Burton resigned because of inability to devote sufficient time to the society's work.

Alleged Murderer Identified. Brownsville, Tex., Dec. 11.—Stanley Dodd, of San Benito, today identified Benito Caballero, a Mexican in the county jail, as the man who killed Earl Donaldson and J. T. Smith during the bandit raids near here recently. Dodd was with the party, but escaped harm when one of the Mexicans whom he had befriended said Dodd was a German. Caballero was held without bond.

Wabash Receivership Ends. St. Louis, Mo., Dec. 11.—Chester K. Kram, special master in the Wabash receivership case, today submitted his report to Elmer B. Adams, United States circuit judge, and was discharged as master. The Wabash railroad now is out of the hands of the receiver.

M'COMBS MAKES FORMAL CALL FOR CONVENTION

Democrats Are to Meet in St. Louis, June 14, 1916, to Nominate Candidates and Adopt National Platform.

(BY MORNING JOURNAL SPECIAL LEADER WIRE) New York, Dec. 11.—William F. McCombs, chairman of the democratic national committee, issued a formal call today for the democratic national convention in St. Louis, June 14, 1916.

The statement calls attention to the plank in the party platform directing that in each state where it is not provided by law "all expressions of preference for presidential candidates shall be given and the selection of delegates and alternates made through primary elections conducted by the party organization in each state."

Two delegates and two alternates for every senator and two delegates and two alternates for every representative in congress from each state based on the congressional apportionment of the sixty-fourth congress, and six delegates and six alternates each from the District of Columbia, Porto Rico, Hawaii and the Philippines are to be chosen.

Mr. McCombs left tonight for St. Louis to make preliminary arrangements for the convention.

ALLOWED BATTERY TO BE PHOTOGRAPHED

(BY MORNING JOURNAL SPECIAL LEADER WIRE) Newport News, Va., Dec. 11.—A private named Anderson is under arrest at Fort Monroe. It became known tonight, charged with allowing a detective employed by the federal government to photograph a battery and accepting a bribe for the privilege. The government is said to have been detailed on the case after reports had reached officers that Anderson had been accepting money from visitors in return for permission to make photographs of the fortifications.

GEORGIAN AHEAD OF HIS BATTING MARK FOR 1914

Jump Is Only Two Points While
His Percentage for Last
Season Is Below That for
1911, 1912 and 1913.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
New York, Dec. 11.—The American
league batting averages for the season
of 1915 again show Ty Cobb leading
the league organization club leaders
as he has done for the past seven or
eight years. The Georgian star, in-
creased his average two points over
his record of 1914, but fell short of
the figure made during the seasons of
1911 to 1913. The league leader's av-
erage since 1911, together with the
average of the first five batters who
placed in one hundred or more games
are as follows:

	1911	1912	1913	1914	1915
Cobb	.329	.328	.328	.328	.329
Swanson	.278	.278	.278	.278	.278

Chicago, Dec. 11.—The University of
Washington football coach, who
eight years ago won the title of the
national champion, was invited to a
single defeat, would be an acceptable
head in the coaching staffs of several
eastern and middle western colleges.
The international games this autumn
have done much to increase the in-
terest in football among the people of
this country, and it is not surprising
that the interest is not confined to
the campus of the Atlantic coast and
the middle west.

Having selected all-american, all-
western and all-American football
players, the coaches are now turning to
similar activities in other branches of
sports. A recent unofficial golf rank-
ing placed Jerome D. Travers first,
Francis Olin second and Robert
Gardner third.

Officers of the National Tennis as-
sociation are highly gratified with
the financial report of the year, including
its net profits of almost \$10,000 for
the first national championship tour-
nament held outside the Casino courts
of Newport. Now that the stands
used for the Davis cup matches of
1914 and the tennis tournament this
season are entirely paid for, the net
profits in the 1916 championships
should establish a new record if the
contests are held in either New York,
Chicago or Philadelphia.

An all-American track and field
team for the season of 1915 shows
that the twenty positions on the team
are divided among the athletes named
in the following sectional groupings:
East, seven places; middle west, four
places; Pacific coast, five places.

The rise of William M. Johnston to
the topmost ranking among American
football players has been little short
of phenomenal. The national champion's
name was not found in the list of the
first ten players four years ago.
Johnston gained his first brackets at
the end of the 1913 season when he
was placed fourth, with McClellan,
Williams and Clougher ranked ahead
of him.

Last year Johnston dropped to sixth,
Burr and Murray being ranked in
front of the California in addition to
the trio which led him the previous
season. His feat in leaping to the top
of the list this year was due almost
entirely to Johnston's sectional play
in the national championship tourna-
ment. Since this country in the
absence of the world's best players
can be little, if any, grounds for
finding with the decision of the nat-
ional committee.

Welsh and White May Meet in Denver

CHARLIE WHITE AND FREDDIE WELSH.

Chicago, Dec. 11.—Fifteen pairs, the
Denver fight promoter, was here re-
cently in an endeavor to get Freddie
Welsh, the lightweight champion, and
Charlie White, to stage a twenty-
round bout in the Rocky mountain
city. This has the backing of a large
number of sportsmen and it is believed the
offer will appeal to both Harry Pol-
lock, Welsh's manager, and Nat
Lewis, who manages White. Lewis is
particularly anxious to make a match
for White with Welsh and will accept
reasonable terms if he can. It is ex-
pected that this will be a real battle
between two of the best fighters of
what Pollock thinks Welsh should
get in a championship bout.

AMERICAN-AUSTRALIAN TEAM WINS SIX-DAY RACE; SMASHES MARK

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
New York, Dec. 11.—Fred
Hill of Boston and Alfred Drenda of
Australia, the American-Australian
team, won the twenty-third annual
six-day bicycle race, which closed at
10 o'clock tonight in Madison
Square Garden.

The final score was 2,730 miles and
eight laps, which bettered by eleven
miles and six laps the best previous
mark, which was set by Gaudet and
Gleadow in New York in 1914.
McNamara and Sperry finished sec-
ond, while Magin and Lawrence were
third, and the American team was
placed fourth. The other teams finished
in the following order:

Five and Tenney, fifth; Eaton and
Madden, sixth; Walther and Morgan,
seventh; Hardie and Haldane, eighth;
Drobach and Corry, ninth; Sere and
Linnart, tenth; and Milton and Tan-
ner, eleventh.

Late in the afternoon the weary
riders left for a busy night and at 8
o'clock the eleven remaining teams
had traveled 2,082 miles and two laps.
The best previous mark for the 1915
hour was 2,075 miles, five laps, made
by Corry and Sere in 1914.

TURKEY RUN WILL BE HELD TODAY BY MOTORCYCLE CLUB

Start to Be Made at Third
Street and Central Avenue
Early in Afternoon; Finish
There Also.

The Motorcycle club will stage a
turkey run today. The event will be
something in the line of an endur-
ance run. Each entrant starts with
1,000 points. Deductions will be
made if he is late or early at any of
the control points or if he misses one
of these points. Motorcycles and side-
cars will be allowed an additional
200 points at the start.

Last night six motorcyclists had
entered. One was a sidecar, entered
by A. M. Dove, who will make the
run with Mrs. Dove.

The start will be made at Third
street and Central Avenue at 1 o'clock.
The first motorcycle leaving at that
time and the others at five-minute
intervals. The finish will be at the
same intersection late in the after-
noon. Owing to the fact that the
contest is more of an endurance run
than a race the speed of fifteen miles
an hour will not be exceeded in the
city.

The winner gets a turkey, the rider
who comes in with the next highest
score, a duck and the one who brings
home the third highest score, a chicken.
From the starting point to the city
limits the entrants will be required
not to go over fifteen miles an hour.
From there to Coates springs the
speed will be twenty miles. From
Coates to Jones place, from there to
Embudo canyon and from there to
Bear canyon it will be fifteen miles.
From Bear canyon to the city limits
the riders may again hit the twenty-
mile clip, but from the city limits to
Third and Central they must slow
down to fifteen miles.

The run is for club members, but
non-members may join the club at
any time before the start.

BELEN WOMEN ACTIVE IN CIVIC BETTERMENT AND EDUCATION WORK

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Belen, N. M., Dec. 11.—At a recent
meeting of the Women's club of Be-
len several steps were taken in the
interest of education and civic bet-
terment. W. M. Fox, the city super-
intendent of schools, was asked to
meet with them and to suggest and
assist with the ladies in matters
pertaining to educational affairs of
the community. Mr. Fox laid before
them the preliminary plans for the
new county high school and went into
some detail regarding the arrange-
ment and use to which the new
building should be put.

The club brought forward a sug-
gestion in that the library of the
new school be made a public li-
brary, open to all patrons of the
school and that the different pupils
of the school be trained in the li-
brary and put in charge of the li-
brary for a few weeks each during
the school year, thereby enabling the
library to be open evenings for the
use of those who would avail of its
privileges. This idea lends itself well
with the arrangement of the building
as the library room has an outside
entrance. Adjoining the library is
the domestic science department and
the club also brought this idea which
was well taken. The library and do-
mestic science department could be
of convenient times turned over to the
Women's club, parent-teachers meet-
ings and other civic and social orga-
nizations to the benefit of the schools
and community. An action by the
school board on this would go a long
way toward securing the most hearty
cooperation of the patrons of the
school in all matters pertaining to its
growth and usefulness. The nearer
the school is to the people, who send
their children to it for education, the
better that education is going to be.

One of the most urgent needs of the
town of Belen is a place for the
young people of the community to go
evenings to continue their studies.
The want of a library has been felt

RIVALS FOR BAKER TO FURNISH EXCITEMENT AT LEAGUE MEETING

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Chicago, Dec. 11.—Trades union-
ing well known ball players and pos-
sible disposition of the problem of
the Cleveland club will be feature of
the American league's annual meet-
ing here next Wednesday. It was pre-
dicted tonight. The program for the
meeting contains nothing but routine
business, according to a league offi-
cial, but the trades suggested and set-
tlement of Charles W. Somers' affairs
as far as they affect the Cleveland
team and the league generally remain
to offer interest.

Rivals for the services of Frank
Baker, now under contract to the
Philadelphia club, will furnish the
main excitement in the trading line.
Election of a vice president to suc-
ceed Mr. Somers is on the program.

BASKETBALL SEASON IS OPENED BY WARD TEAMS

Ward school teams opened the bas-

BELEN WOMEN ACTIVE IN CIVIC BETTERMENT AND EDUCATION WORK

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Belen, N. M., Dec. 11.—At a recent
meeting of the Women's club of Be-
len several steps were taken in the
interest of education and civic bet-
terment. W. M. Fox, the city super-
intendent of schools, was asked to
meet with them and to suggest and
assist with the ladies in matters
pertaining to educational affairs of
the community. Mr. Fox laid before
them the preliminary plans for the
new county high school and went into
some detail regarding the arrange-
ment and use to which the new
building should be put.

The club brought forward a sug-
gestion in that the library of the
new school be made a public li-
brary, open to all patrons of the
school and that the different pupils
of the school be trained in the li-
brary and put in charge of the li-
brary for a few weeks each during
the school year, thereby enabling the
library to be open evenings for the
use of those who would avail of its
privileges. This idea lends itself well
with the arrangement of the building
as the library room has an outside
entrance. Adjoining the library is
the domestic science department and
the club also brought this idea which
was well taken. The library and do-
mestic science department could be
of convenient times turned over to the
Women's club, parent-teachers meet-
ings and other civic and social orga-
nizations to the benefit of the schools
and community. An action by the
school board on this would go a long
way toward securing the most hearty
cooperation of the patrons of the
school in all matters pertaining to its
growth and usefulness. The nearer
the school is to the people, who send
their children to it for education, the
better that education is going to be.

One of the most urgent needs of the
town of Belen is a place for the
young people of the community to go
evenings to continue their studies.
The want of a library has been felt

here for some time past and it would
have been supplied long ago had
there been a suitable building and an
organization to manage it. Helen is
to be congratulated on the wide-
awake, public-spirited membership of
the Women's club who are taking hold
of this matter in such a practical
way. They have already accumu-
lated a fund of over \$150 to be used
for library purpose and expect to
have \$500 in the time the new build-
ing is ready.

With the ladies of Helen demanding
these things and backing them with
their organization and personal ef-
forts there is no possibility of a failure
and every encouragement to be-
lieve that we will have these good
things for our comfort, use and en-
richment in the near future.

CLOVIS MAY ISSUE IMPROVEMENT BONDS

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Clovis, N. M., Dec. 11.—The city
council is considering the proposition
of issuing an election in the near
future for the purpose of voting bonds,
probably in the amount of \$25,000,
for the purpose of extending the sewer,
electric light and water works sys-
tem here. These facilities are mu-
nicipally owned, consequently the mat-
ter of issuing bonds is one for the
people to decide on at a general elec-
tion. The growth of the city has been
so rapid during the past year that the
extension of these facilities has be-
come necessary. In order to accom-
modate customers who are now wait-
ing, the city council has been devising
ways and means of extending against
the city of this kind, and as soon as
an ordinance can be drawn up it will
be introduced and passed by the council.

Since the fire of two weeks ago,
when two children lost their lives by
being caught in a frame fire trap
hotel when the building caught fire
and was practically consumed, the
city council has been devising ways
and means of guarding against cala-
mities of this kind, and as soon as
an ordinance can be drawn up it will
be introduced and passed by the council.

OPEN GAMBLING IN OLD TOWN IS DISCLOSED WHEN ARREST IS MADE

Pappini Brothers Have Warrant Served on Young Man and Warrant Is Immediately Sworn Out Against Them.

EXTORTION IS CHARGE AGAINST SALOON MEN

How Wide Open Has Old Albuquerque Been Running? Question Is Being Passed Among the Innocents.

When George Pappini and his brother, Guido Pappini, were arrested last night, the warrant was served on a young man in the city, who was serving yesterday afternoon shortly after 4 o'clock, and about 4:30 o'clock warrants were sworn out against the Pappini brothers for extortion and blackmail. All three of the parties are at liberty, but a story was turned loose that would make the people of Bernadillo county sit up and ask themselves just what has been going on in and around Albuquerque for the last year or so.

The young man referred to is a member of a good family who is working for a moderate salary. For obvious reasons his name is withheld. George Pappini is a saloonkeeper who has operated both in the new and the old town. Guido Pappini, it is understood, is a recent acquisition to the roll of potential American citizens. He has been in this country only a short while and as yet speaks English imperfectly.

Itan Gambling Cane.

After the red light district was closed in Albuquerque, George Pappini moved to Old Town and became proprietor of the Central saloon. He did not confine himself, however, to the sale of snuff, cigars and malt liquors and other beverages, which, it is taken to extend, will produce intoxication. There was an establishment in connection with the saloon which answered all the purposes of those who were driven from the North Third street section something over a year ago.

Then on the side, George ran a little gambling game to accommodate the many patrons of his place. All was fish that got into George's net. Almost anything to woo the goddess of fortune could be had at the Central, except, perhaps, faro and roulette. It is recorded that there was a wheel or a layout. No bones were made of the matter—anybody who wanted a game could get one.

The young man to whom reference has already been made was a nocturnal visitor at the Central several months ago. He played the string through, and at a late hour was seated at a crap table "rolling the bones." The play was swift, and free drinks were being served from the bar whenever anybody with a thirst held up a finger and looked at the bartender. It was not long until the young man was stripped to his foolish hide.

Then the young man called for a blank check and began a series of writings that ended in his leaving the Central saloon with the central George's in charge of his check for something like \$15. The young man had to borrow the money to pay taxi fare back to town.

The cold gray dawn of the morning after brought the usual melancholy reflections. Also, it brought resolution. The young man went to his bank and stopped payment on the check.

Invokes Aid of Law.

George tried to wheedle the money out of the young man, and got what is known in the vernacular as a cold shoulder. The young man had consulted an attorney and had been advised that collection of the amount could not legally be enforced.

After exhausting every resource at his command, George finally decided to invoke the aid of the law to compel payment of the check. He swore out a warrant for the young man on the charge of obtaining money under false pretenses. This was early last week.

The warrant was placed in the hands of Deputy Sheriff Serafino Garcia, but it was not served at once. Sheriff Garcia made several calls on the young man, but could not find him until yesterday afternoon.

Deposition Is Made.

Yesterday afternoon the dep-

uty sheriff and the two Pappini called on the young man and found him in. They also found the young man's attorney and several of his friends in. The young man had become a thorough convert to the doctrine of preparedness.

There was some talk, and then George Pappini declared that in order to show that he was a good fellow he would let the thing drop and have the warrant dismissed if the young man would come across with a reasonable amount and pay the remainder of the check at intervals. The young man's reply was: "I'll not pay a damn cent." That settled the matter, and Deputy Sheriff Garcia advanced, took the young man by the arm and led him out. And then, also, one of the young man's friends said: "Well, we'll go over now and swear out a warrant against these fellows for blackmail."

The effect was electrical. The deputy sheriff was down at the corner with the young man, George, who had lingered behind, suddenly shot like a bolt down the street and grabbed Mr. Garcia by the arm. "Let him go!" he exclaimed, and Mr. Garcia let him go. In the mean time two of the young man's friends had gone before Judge Craig and had sworn out a warrant for the two Pappini brothers for extortion and blackmail. The warrant was placed in the hands of Chief of Police McMillin, who served it last night. The Pappini immediately gave bond.

Other Gambling Cases.

It has been common talk on the streets of Albuquerque for many months that wide open gambling has been going on in the old town. There has also been talk to the effect that "quiet games" have been conducted in the new town. In the nature of things, the men who operate in these quiet games do not care to have their names mentioned publicly, but it is safe to say that if it came to a pinch at least a dozen indictments could be returned for violations of the anti-gambling law.

It is now stated that the bid has been clamped on in Old Town. The story is that when the authorities decided to make a clean sweep and tied a can to the tiger's tail. Many stories were told in regard to the existing condition of affairs in Old Town yesterday, but owing to the doubtful source from which these stories came it was difficult to determine what credence was to be given them.

An effort to reach Sheriff Jesus Romero last night to ascertain whether he knew of gambling in Old Albuquerque was unsuccessful. An official who is close to the sheriff stated, however, that during the last two weeks Mr. Romero had been busy settling on the list and that within the last week the list had been made for violations of the anti-gambling law.

COLORADO NATIONAL GUARD HAS AERO CLUB

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Denver, Colo., Dec. 11.—Denver men, three of whom are rated as millionaires, today incorporated the Aero club of Colorado as a unit of the national guard. The club embraces military duties and recreation, but its articles exclude commercial activities. The incorporators are Charles Alfred Johnson, J. Foster Synes, attorney; Robert B. Hall, Claude K. Buetcher, capitalist, and Tyson S. Dines, attorney and capitalist. With them as directors for the first year will serve W. N. W. Hines, broker; A. C. Foster, capitalist; Lawrence C. Phipps, Jr., treasurer of the Nevada-California Power company; Dr. John Chase, assistant general of the Colorado national guard; W. E. Porter, H. English and T. E. Stearns. Johnson, an officer on the retired list of the guard, is captain of the new corps. He is expected to leave for the east next week to visit similar organizations and to inspect types of airplanes. Two planes will be needed at once.

Captain Johnson is a former president of the Denver chamber of commerce and Mr. Stearns is its present head.

STARVATION FACES PEOPLE OF ALBANIA

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Rome, Dec. 11.—Reports from Albania indicate that conditions there are most distressing, the people being on the point of starvation, the weakest being unable to resist the cold on account of hunger. Dr. Edward W. Ryan, representing the American Red Cross, is studying the situation to arrange for the sending of supplies into Albania, which it seems advisable to concentrate at Durazzo.

WANTED TO WHIP U. S.; RELEASED FROM PRISON

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

rowville, Tex., Dec. 11.—Miguel Saez, a Mexican charged in the federal court with inciting a rebellion against the United States, was released today. He already had spent three months in jail, which prompted Judge Burns to say that Saez would have to be very guilty to be given a longer sentence. The charge against Saez was based on an alleged incendiary speech made at a dance during the bandit trouble.

WHITE ROCK PLAN IS NEAR REALITY, STATES ENGINEER

Here to Determine Size of Original Unit, Location of Dam and Its Depth, Says A. G. Hillberg.

That the long-dreamed-of White Rock canyon project is going to become a reality was the statement last night of A. G. Hillberg, consulting engineer. Mr. Hillberg is in New Mexico making investigations for eastern capitalists, who have decided to back the project, he stated. According to the engineer, there is no stock to sell, no bonds to sell and no bonus is asked.

Mr. Hillberg is to determine the size of the plant to be built first, find the depth for the foundation of the dam and decide upon the location in the canyon of the dam. He will go to White Rock canyon to look for the dam site.

Engineer Speaks at Club.

Mr. Hillberg spoke to citizens last night at the Commercial club. He urged the encouragement of the use of electric power and asked for a report on the use of new land for the growing of sugar beets. One of the possibilities of the plan is the use of electricity for pumping water on land that cannot be reached by the low-level ditches.

An ultimate expenditure of two and one-half millions would be required for the size of plant contemplated, according to Mr. Hillberg. About one-half of this amount, he believes, would be the original investment to construct a plant of sufficient capacity to furnish electricity for the present demand.

Not to Compete.

Mr. Hillberg stated that the purpose of the people he represents is not to compete with power plants in Albuquerque or other cities, but to furnish them electricity at a cheaper rate than they can generate it. Two companies are contemplated, one for generating the power at the canyon and the other for transmitting it to Las Vegas, Santa Fe and Albuquerque. The latter company would sell the current to the central companies.

Mr. Hillberg said he expects to find a market for about 10,000 kilowatts, but believed he would be able to go back to New York with the report that 15,000 would be generated.

He estimated three or four months as the time in which work would be started.

TEA INDUSTRY HAS HAD PROSPEROUS YEAR

(Associated Press Correspondence.)

London, Nov. 30.—The tea season just closed has been one of the most prosperous years in the history of the industry. The quantity exported during the twelve months by the various producing countries increased from 754,000,000 to 802,000,000 pounds.

India's crop has broken all previous records, contributing nearly 27,000,000 pounds, of which England took three-fourths.

The increased use of tea in Russia is one of the features of the year's statistics, her imports amounting to 121,000,000 pounds, against 95,000,000 the previous year. The trade report, in fact, shows that consumption of tea has increased everywhere, especially in countries where until lately tea has not been popular, while the military demand for the staple shows that there is an increasing tendency to supply the forces on active service with tea in preference to alcohol.

NAVAL FLYING CORPS PROVIDED IN BILL

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Washington, Dec. 11.—Creation of a naval flying corps, and establishment of a school for training navy aviators and an increase in the number of midshipmen in the naval academy by about one-half are proposals indicated in a tentative draft of the naval appropriation bill, some details of which became known tonight.

The proposed increase in the naval academy would permit each senator to appoint three midshipmen instead of two at present. For two years after the passage of the act the secretary of the navy would be empowered to appoint ten junior officers and five warrant officers a year from civil life on provisional commissions, to be revoked in two years unless the officers prove fully qualified as aviators. After two years all officers of the corps would come from the ranks of the student aviators. The aviation school would furnish a two-year course.

A reserve corps of aviators also is provided for to be composed of men transferred from the active service and the surplus of graduates from the school and also open to qualified civilians. A training of from two weeks to a month annually is planned for the reserve.

GOLD IN SAFETY BOXES MUST BE GIVEN UP

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Berlin, Dec. 11 (via London, 11:05 p. m.)—The Reichsbank is taking measures to secure all gold deposited in safety deposit vaults since the war began. Circulars have been sent to all banks throughout the empire urging them to serve police on the retention of space in safety deposit vaults since the outbreak of the war that rent arrangements will be discontinued with the present time unless the patrons sign a declaration that the vault drawers contain no gold. Banks are now sending out notifications to customers and enclosing forms for making declarations of the gold contained in their vault drawers.

SIX STICKS OF DYNAMITE FOUND UNDER BRIDGE

Southern Pacific Trains, Which Carry War Munitions and Standard Oil Products, Are Threatened.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Oakland, Calif., Dec. 11.—A pack containing six sticks of dynamite, equipped with fuse and fuses, was found today by an Italian fisherman under a bridge over Alhambra creek, a short distance west of Martinez, which carries the main line tracks of the Southern Pacific railroad. Over the bridge pass trains carrying the output of the Hercules Powder company and the Standard Oil company to the east.

News of the find was conveyed at once to officials of the Southern Pacific and to Sheriff R. K. Yeade of Contra Costa county at Martinez, who cooperated in the formation of parties of officers to search the region for similar packages, which, it was feared, might have been placed under other bridges and culverts.

Special Agent James Prindle, of the Southern Pacific company, said tonight that the entire western division of the road which extends from Oakland to Ogden, Utah, would be placed under a special guard.

Both Prindle and Sheriff Yeade expressed the opinion that the dynamite was placed under the bridge by some person desiring to impede the progress of war munitions, which it is said, are shipped over the main line in large quantities. Trains of explosives frequently are dispatched by the Hercules Powder company, and every other day the Standard Oil company dispatches a train manned by armed guards for Chicago under a sixty-eight-hour schedule.

CENTRAL ORGANIZATION TO PRESERVE NEUTRALITY

Washington, Dec. 11.—A central organization for gathering evidence of offenses against the neutrality of the United States has been created as the first step in the federal government's purpose to enforce more stringently the neutrality program as outlined by President Wilson in his address to congress.

The postoffice department, the state department, the department of justice and the treasury department will join in gathering information which will be assembled uniformly and acted on by the state department under the direction of Counselor Pack.

This plan was decided upon at a conference between Counselor Pack, Chief Flynn, of the secret service; Chief Postoffice Inspector Koons and Assistant Attorney General Warren, who handles neutrality cases in the department of justice.

PHYSICIAN IS ILL WITH DENGUE FEVER

(Associated Press Correspondence.)

San Juan, Porto Rico, Dec. 11.—Dr. H. B. Carter, assistant surgeon general of the United States public health service, and sent here along with Surgeon General William C. Goetz, U. S. A., to settle a medical controversy as to whether there were cases of yellow fever in Porto Rico, is ill in a private hospital here suffering from dengue fever. He has been confined to his bed for more than ten days.

In his report to Director of Sanitation Elliott, Dr. Carter said that he could find no yellow fever but asserted that there was considerable dengue or dengue-like fever. It was the prevalence of this disease that led to announcement by Major Dutcher, U. S. A., that he had found yellow fever. Dengue fever is a tropical ailment, caused by a mosquito bite, and its victims have all the aches and pains of persons suffering of the grippe. Dr. Carter said he wanted to study the disease after General Goetz had returned to the states and almost immediately thereafter he was bitten by an infected mosquito and took to his bed. He expects to return to Washington at the earliest possible moment.

of pit props for the Welsh mines has lately become acute, and it is thought that if several vessels could be acquired by this means there would be an excellent means of obtaining the necessary material for the mines. The Welsh coal exporters have been hit hard by the shortage of ships and they are complaining eloquently at the way this has enabled American coal to take the place of Welsh fuel in foreign markets.

During the month ending August, 1915, the United States exported to South American and Mediterranean ports three million tons more than during the same period in 1914, while South Wales exports during the same period decreased three and a half million tons. While this transfer of trade is looked upon as being only temporary, Welsh coal exporters fear that a large part of it will remain in American hands after the war.

ARRANGEMENTS BEGIN FOR PRESIDENT'S WEDDING

(BY MORNING JOURNAL SPECIAL LEADER WIRE)

Washington, Dec. 11.—With President Wilson's return from California today, final arrangements were begun for his marriage next Saturday night to Mrs. Edith Gage.

Some days it seems as if you can no longer hear the pain and misery you suffer from kidney and bladder troubles. The ache across your back grows worse with every move you make and every step you take. It seems to rub you of all strength and energy. Your head aches, you are nervous and worn out, sleep poorly and have no appetite, stomach is upset and bowels irregular.

Police Kidney Pills lessen the pain, make it less acute, and they give strength and tone to the kidneys, make them strong, active, their action becomes regular and normal again, and your health grows better each day you take this great healing medicine.

IDEAL SERMON BY PRESIDENT FOR COUNTRY SOCIAL CENTERS

Churches and Schools Should
Be Meeting Places for Peo-
ple of Rural Districts, Says
Wilson.

PASTORS CAN DO MUCH BESIDE PREACHING

Ministers Might Well Become
Marketing and Purchasing
Experts for Communities,
He Declares.

As a return for Sunday readers-
hip of the first sermon ever preach-
ed at the Journal's editorial table,
President Wilson today delivered
the address before the National Con-
ference of the National Council
on Church and Country Life
at Columbus, Ohio, last Friday night.
(The text follows.)

Mr. Chairman, ladies and gentle-
men: I think as we have witnessed
the progress of our civilization in
recent years we have more and more
realized how our cities were leading

to draw the vitality from the country-
side, how much less our life centered
upon country districts and how much
more crowded cities.

There was a time when America
was characteristically rural, when
practically all her strength was drawn
from quiet countryside where life ran
upon established lines, where the
man, woman and children were dis-
tinguished by each other in a long es-
tablished neighborhood, but our
rural districts are not now just what
they used to be and have perished in
recent years of something of the vitality
that has characterized our great
and life, so that we have again and
again been called upon from one
point of view or another to study the
revitalization of the countryside.
There was a time, no longer, say, then
the youth of my own father, but ex-
actly, when pastors found some
of their most vital work in the
country churches. I remember my
dear father used to ride from church
to church in a thickly populated
country region and minister to sev-
eral churches with a sense of minis-
try to the most vital interests of
the heart of the country in which he
lived.

Tribute to Christianity.

After all the most vitalizing thing
in the world is Christianity. The
world has advanced, advanced in
what we regard as real civilization
not by material but by spiritual
means, and one nation is distinguished
from another nation by its ideals
not by its possessions, by what it be-
lieves in, not by what it lives by,
by what it intends, by the vision
which its young men dream and the
achievement which its most of ma-
turity attempt. So that each nation
exists when it writes its poetry or
writes its memoirs the character of
its people and of those who spring
from the home of its people.

There is an old authentic upon
which I do not care to dwell, because
there is not a great deal to be got
from dwelling on it, between life and
doctrine. There is no real antithesis.
A man lives as he believes he ought
to live or as he believes it is to his
advantage to live. He lives upon a
doctrine, upon a principle, upon an
ideal—sometimes a very low prin-
ciple, sometimes a very exalted prin-
ciple.

The Sin of Ecstasy.

I want to be told when I was a
youth that some of the old centers
reduced all sin to ecstasy, and I have
thought as I watched the career of
some individuals that the antithesis
had some vital point to it. An ec-
stasy is a man who has not the whole
property of life. He is not the whole
of himself as the center of affairs
even as affects the prevalence of
God. He has not related himself to
the great forces which dominate him
with the rest of us, and therefore has
only a little kingdom all his own
in which he reigns with unbroken
sovereignty. So there are some men
who set up the principles of individ-
ual advantage as the principle, the
doctrine of their life and live by that
and live generally a life that leads to
all kinds of evil. Whatever
our doctrine by our life is confirmed
to it.

Work of Rural Church.

When I think of the rural church I
wonder how far the rural church is
vitalizing the lives of the commu-
nities in which it exists. We have had
a great deal to say recently, and it
has been very profitably said, about
the school as a social center, by which
I mean the school house as a social
center, about making the school
house which in the day time is used
for the children, a place which their
parents may use in the evenings and
the other designated times for the
meetings of the community, where
they are privileged to come together
and talk about anything that is of
community interest and talk about it
with the utmost freedom. Some peo-
ple have been opposed to it because
there are some things that they do
not want talked about. Some boards
of education have been opposed to it
because they realized that it might
not be well for the board of educa-
tion to be talked out.

Talk Dangerous to Rascals.

Talk is a very dangerous thing,
community conferences of views are
a very dangerous thing to the men
who are doing the wrong thing, but
I, for my part, believe in making the
school the social center, the place
that the community may use for any
kind of coordinating that it wants to
do in its life. But I believe where
the school house is inadequate, and
even where it is adequate, that the
most vital social center should be the
church itself, and that, not by way
of organizing the church for social ser-
vice—it is not my topic tonight; that
is another topic—but of making the
community realize that the congrega-
tion and particularly the pastor is
interested in everything that is im-
portant for that community, and
members of that church are ready to
co-operate and the pastor ready to
lend his time, his energy to the land
of organization which is necessary
outside the church as well as in for
the benefit of the community.

Work for the Pastor.

One of the things that the depart-
ment of agriculture at Washington is
trying to do is to show the farmers of
the country the easiest and best
methods of co-operation with regard
to marketing their crops, learning
how to handle their crops in a co-
operative fashion so that they can
get the best prices. From the rail-
roads, learning how to find the pre-
vailing market prices in the accessi-
ble market, so as to know where it
will be best and most profitable to
send their farm products and de-
liver them together in co-operative
associations with those objects in view.
The church ought to lend its hand in
that. The pastor ought to say, if
you want somebody to look after that
for you, I will give part of my time
and I will find other men in my con-
gregation who will help you in the
work and help you without charging
you anything for it.

Individual Example.

The church has too much depended
upon individual example. "So let
their light shine before men," has
been interpreted to mean "Put your
individual self on a candle stick and
shine." Now the trouble is that they
are a very poor candle and the light
is very dim. It doesn't dispel much
of the darkness for me individually
to sit on top of a candle stick, but if
I can lend such little contribution
of spiritual force as I have to my neigh-
bor and to my comrade and to my
friend, and we can draw a circle of

friends together and to make our
spiritual better, then we have nothing
more than to say, we have
co-operation.

Co-operation Necessary.
Co-operation is the vital principle
of social life. Not organization mere-
ly. I think I know something about
organization. I can make an organi-
zation but it is one thing to have an
organization and another thing to fill
it with life. And then it is a very
important matter what sort of life
you fill it with. If the object of the
organization is to do the object of
some business organization is and the
object of many a political organiza-
tion is to do the life of the com-
munity and to run the community for
its own benefit, then there is nothing
profitable in it. But if the ob-
ject of the organization is to do the
mechanism by which the whole com-
munity can co-operatively use its life,
then there is a great deal in it. An
organization without the spirit of co-
operation is dead and may be dan-
gerous.

Benefits of Public Meetings.
This is a notion which needs to be
gone through the motions of public
meetings whether there is anything
particularly important to consider or
not. It is an interesting thing to me
how the American is born knowing
how to conduct a public meeting. I
remember that when I was a boy I
belonged to an organization which at
that time seemed to me very im-
portant, which was known as the Light-
foot Baseball Club. Our club room
was a corner, an unoccupied corner
of the loft of my father's barn, the
corner that had had an encroached
upon, and I distinctly remember how
we used to conduct orderly meetings
of the club in that corner of the loft.

HEALTHFUL HEATING

Moore's Air-Tight Heater is a very handsome stove, and adds
another touch of comfort and beauty to the home. It is built to
heat on the same plan as a furnace which heats and circulates warm
air in the house.

Leading experts in heating and sanitary engineering unitedly
agree that circulating warm air is the proper and most healthful
manner of heating, and many schoolhouses are required to be heated
that way.

Moore's Air-Tight Heater in the home means a warm floor and

NEW LAUNDRY PLANT IS READY FOR BUSINESS

Formerly the Hubbs Laundry, and Now Practically a New Outfit, With New Machinery of the Latest Invention.

With this issue of the Journal is announced the completion of the new plant of the Excelsior Laundry, comprising one of the most complete and up-to-date equipments in the southwest. The Excelsior laundry, company of which H. R. Pollock is president, and J. H. Wall, general manager, sometime ago purchased the business of the Hubbs laundry and immediately commenced the remodeling of the entire plant and building at a cost of more than \$25,000 for new equipment, practically an entire new plant being installed.

The building has been so arranged that the entire plant is installed upon the ground floor, thus providing economy of space but more systematic supervision over the various departments and greater efficiency of service.

In addition to the installation of the most modern washing machinery, automatic conveyors, drying rooms, steam presses and other machines of superior equipment, the company has installed the very latest thing in shirt presses and collar irons and machinery, recognizing this department to be perhaps the most important branch of the laundry business. This equipment includes the Hagenbach double sliding board iron press, the only one of its kind in New Mexico. This is a combination machine for ironing the bottoms and yokes at the same time, while it also runs completely around the neck.

In conformity with this equipment, in all other departments of the business have been installed the very latest improved machines and there is no work too complicated or too delicate for the Excelsior to turn out.

A complete electrical equipment has been installed and every machine in the plant is electrically driven from power generated by an individual power plant which at the same time furnishes the lights for the building. New machinery is no longer weighed by its initial cost, but by its utility and ability to earn its adoption from the standpoint of operating cost and efficiency of workmanship, and with this in view the Excelsior management has spared no cost in installing the very best that money could buy.

In line with this progressive policy the Excelsior Laundry offers to the public the best service that efficient and conscientious effort can give at no matter what cost, guaranteeing not only satisfaction in workmanship and a saving in cost, but prompt and courteous treatment on the part of its employees.

ELKS LAY DOWN RULES FOR BIG NEW YEAR DANCE

Only Members in Good Standing May Reserve Tables; Outsiders Admitted as Guests of Antlered Ones.

Rules have been laid down by the local lodge of Elks governing the New Year's eve celebration that is to be given in the club rooms this year. These rules are published for the information of the public and in order to correct the impression that the reservation of tables and admission to the entertainment is open indiscriminately to the public. They are as follows:

1. Tables may be reserved only by Elks in good standing.
2. Non-Elks will be admitting as guests of Elks, but may not reserve tables.
3. Reservations may be made at the desk in the Elks' club beginning at 1 p. m., Tuesday, December 14.
4. Reservations may be made in person, or by representative, written requests, or telephone messages cannot be considered.
5. Only one table may be reserved by any member or his representative.
6. Reservations for tables may be for two, four, six or eight persons. Space will not permit for larger parties.
7. Reservations must be paid for at the time they are made. Rate is \$1.00 per person.
8. Preference in the matter of tables will be given to members of Albuquerque lodge.

DES MOINES MAN TAKES OWN LIFE; WAS DESPONDENT

SPECIAL BUREAU TO MORNING JOURNAL. CHICAGO, N. M., Dec. 11.—William Fell, a prosperous merchant of Des Moines, committed suicide today by shooting himself through the head. The bullet entered the right temple and passed entirely through the head. Despondency caused by ill health is supposed to have been the cause of the deed.

Mr. Fell had only recently opened up in the grocery business, and was doing well. It is understood that he carried a large amount of insurance.

MUNICIPAL TREE IS PLANNED FOR DEMING

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.)
Deming, N. M., Dec. 11.—During the proposed Christmas carnival in Deming, December 22, 23, 24 and 25, a big municipal Christmas tree, with treats for 1,500 children, is the idea being planned out by the pastors of the city. The tree is to be up four nights during the proposed carnival. The Deming Ice & Electric Co. has agreed to furnish the colored illuminations for as large a tree as the committee may be able to secure. It is certain that the display will go a long way toward giving the citizens of Deming the true Christmas spirit. The tree will be placed in the center of the square at the intersection of Gold avenue and Fifth street. There are more than 1,300 school children in this school district, but it is not probable that all of them will be on hand on Christmas eve, when the tree will be given out. If they are there and more they will be taken care of in the generous Deming way.

The committee in charge of the tree are busy arranging a program that will include readings, music and religious exercises. It is hoped that the big regimental band from the border will be on hand to provide the music. The exercises will begin at about 6 o'clock in the evening.

The pastors of the churches have also undertaken the work of providing for all the needy in Deming. R. H. Thompson is the chairman of a committee to care for this part of the work. Clothing and goods will be collected and distributed to all of those whose names together with their needs are turned in.

The pastors taking part in the work—and they represent every church in the city—are as follows: Rev. Father Carmel, Rev. H. J. Kearns, M. Flores, Rev. E. C. Morgan, Rev. S. R. McChire, Rev. Theodore Platt and Rev. Hugh T. Mitchelmore.

GERMAN STEEL PLANTS ARE NEARLY NORMAL

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Berlin, Dec. 11.—The wireless to Washington says the following today for publication:

In a statement issued today at the annual meeting of German iron and steel manufacturers, figures are presented to show that since August, 1914, and until July, 1915, the number of employed workmen has increased from 175,000 to 447,000. The steel output up to October, 1915, reached 77 per cent of the average normal production.

NEW SECRETARY OF WOOL GROWERS PRACTICAL MAN

Walter M. Connell, Recently Appointed, Talks Interestingly About Sheep and Wool Prosperity.

Walter M. Connell, who was recently elected by the executive committee of the New Mexico Wool Growers' association secretary of that organization, is in receipt of advice from a number of sheep raisers in the state to the effect that the sheep are in the very best of condition to go into the winter, and that the flocks will fare better, considering past experience, owing to improved methods to be adopted in case of hard frosts and heavy snows. This winter than ever before, hence the largest and most experienced sheepmen anticipate few losses from starvation and freezing.

Mr. Connell states that all the sheep raisers of New Mexico, by far throughout the entire southwest, enjoyed a most prosperous summer and fall, and, besides receiving almost top-notch figures for their output of wool, nothing was noted high and the sellers profited thereby. "So you see, considering all these conditions," continued Mr. Connell, "the sheep raisers of New Mexico are all in good financial condition and have money in the banks."

Mr. Connell is personally identified with the sheep and wool industry of New Mexico, and the executive committee of the association, of which Ed McCree is president, secured a point well taken when they gave him the secretaryship. Mr. Connell is secretary-treasurer of the Hondo-Connell Sheep & Wool company, with office and warehouse at the corner of Tenth and railroad tracks.

Mrs. J. Krems has resigned her position at the store of Jaffa Grocery company and has accepted the position of bookkeeper and cashier for Kretzer, Collier & Co. Mrs. G. H. Ball is the new bookkeeper and cashier at the Jaffa store.

SOCIAL SEASON IN GOTHAM NOW IN FULL SWING

Opening of Metropolitan Opera Causes Brilliant Assemblage of Notables; Handsome Gowns Are Worn.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
New York, Dec. 12.—New York's social season is in full swing. It opened in a blaze of glory with the opening of the Metropolitan's doors late in November. This first night, as always, drew the usual brilliant opera-going audience, wonderfully gowned in the soft shades so much favored for formal evening wear this winter. The white throats, beautifully dressed hair, and gleaming jewels attracted the attention more than once of even the "dressed in the wool" music lovers, who are usually immune to clothes when Gershwin is to be heard.

The Favored Pale Tints.
Among the prevailing shades worn by the gorgeous "first nighters" were pink, blue and white with here and there a stunning black frock, or one of vivid emerald green. This shade of green is an exception to the rule of white, or pastel shades, now so modish; there are several entire gowns in this shade at the opera and the most striking and artistic costumes looked at the horse show, some weeks earlier, was also of this green. It is wonderfully becoming to a woman with white hair and a youthful face. Black is favored for evening, too, and serves as an attractive touch of contrast among the pale tones in the "golden horse show."

The Matter of Fans and Gloves.
Among the most fascinating accessories accompanying these attractive costumes were the fans; these were not the small, useless fancies of several seasons past, but large, graceful fans of ostrich, curled and uncurled. Many were in white, or the pastel shades; one especially attractive fan was of midnight blue, uncurled ostrich.

The matter of gloves with the sleeker frocks, and all were sleeveless with one or two exceptions, has probably been a problem with many. White gloves, coming just above the elbow, were generally worn now and then one noticed a pair in pale pink or deep cream to match the frock.

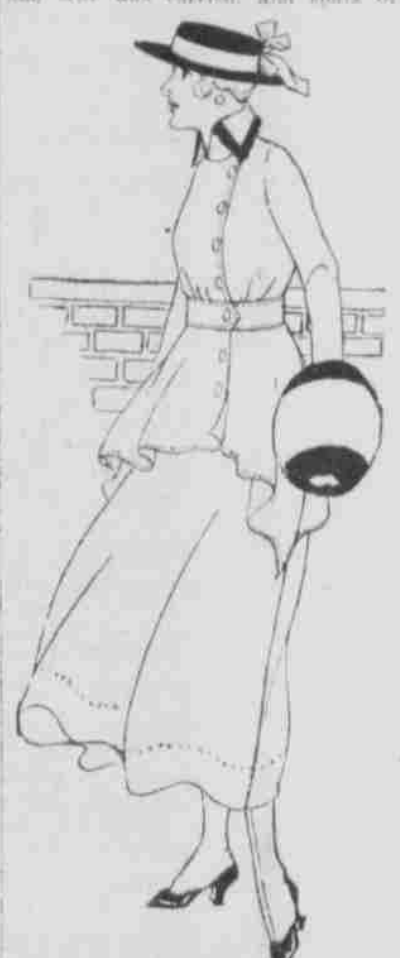

Lark Green Dayton Suit.

one or two pairs of black, too, were worn. The universal use of tulle, maline, or the fine-meshed net was very noticeable; it was used to veil the neck and arms, as a scarf, in the hair, or billowing, panier-fashion, over the hips. The men with their black suits and white fronts made an excellent background for these pretty women and their delicately colored frocks.

The daytime costumes at the horse show were quite as interesting as those worn in the evening. While there were many attractive one-piece dresses worn under short separate coats of cloth or fur, the tailored suit, as in days gone by, was most in evidence. Not the straight mannish suit, either, although there were many of these, too, but the knee-length, semi-tailored suit of broadcloth, gabardine, drevy, whispored and moose-khacha and stripes. Many shill-showered mixtures were worn, trimmed, of course, with hat or brooch.

An exceptionally effective suit of dark green drevy was made with a flannel skirt and flaring pelisse on the coat. A wide soft collar of dark fox and a barrel muff of fox accompanied the suit. Other effective details were the matching spats, the wide velvet hat, and the stiff stick. Another tailored suit, worn the same afternoon, equally simple and chic, was of dark blue gabardine, made with a Russian blouse coat and flaring skirt, trimmed with narrow bands of seal, a small ball muff of leucy and seal was carried, and spats of

white corresponded with the white hille ribbon on the stiff-brimmed hat.

The Three-quarter Coat.
This length prevails in the separate coat for daytime wear. They are of fur, or cloth, fur-trimmed. When the coat is made of cloth it may contrast with or match the frock. One notices a box-back now and then, but the belt in some form is most generally favored. Buttons are attractive trimming, in novelty metals, gold filigree, nickel and the like. The majority of these coats are made with normal shoulders and self-lapels, although there are many regian models. One especially pretty coat was of broad-cloth brown velvet, loose and falling nearly to the skirt hem, belted in with brown leather. Several leather costumes were also at the horse show one afternoon; they were worn by mannequins from one of our large dress making establishments, and created quite a bit of comment. Leather suits are a novelty, and as such are attractive, but in a probability they will not become popular with the general run of people.

MAKE YOUR OWN LIQUORS AT HOME

Cincinnati, O., Dec. 11.—By a new method of concentration an expert distiller of this city has produced a concentrated extract with which anyone can easily and quickly make in their own home any liquor, whiskey or cordial at a saving of over fifty per cent of the liquor dealers' prices. A few minutes does the work requiring no apparatus, no boiling, no experience whatsoever. While the liquor-making at home idea is new and startling in its possibilities its legality has been carefully investigated by the highest authorities and his method has been found to conform with the laws in every respect. This new method will be welcomed by thousands of people living in districts where it is now even impossible to obtain whiskey for medicinal purposes. Anyone can now save the heavy expenses, high licenses and enormous profits of the saloon keeper and liquor dealers and can have in his home at any time a pure nourishing liquor at a very low cost.

It is indeed a remarkable discovery and he has already received thousands of letters of praise. Anyone can try a full quart of his favorite liquor free by writing to M. W. Prickett, 2065 Universal Bldg., Cincinnati, O., and ask for his booklet, "Secrets of Making Liquors at Home," sent to anyone sending their name and address.

"Xmas"

It is said in his latest, advanced theory that the man who first called it "Xmas" had in mind the large deep green "X" on the business side of a ten dollar bill. And who will there be to say him nay?

The "X" contrasts us on every side. If you don't believe it, just stroll down Central avenue and look into the shop windows. Do our wide-awake merchants put out for display the articles that can be purchased out of the loose change that the tired business man jingles in his old trouser pocket? Yes, they do not. Brilliantly exhibited, they spread before us little trinkets that formerly were priced at \$65 but can now be obtained, on account of the special holiday reduction, at the ridiculously low figure of \$6.25.

And we fall for it! But at that they do it in such an engaging manner that we have no disposition to raise a kick after it is all over. It is evident that these merchants have cut out the clause "Lead us not into temptation" from the prayers that they ought to say when they go to bed at night.

BOTHER THE X!

But why worry about the "X" in "Xmas"? "Bawled it!" By common consent we have set aside Christmas as the time when we shall all of us go broke trying to make ourselves think we are having a good time, so why not get our money's worth and really have a good time? There's a chance—an elegant chance—to get not only the full value of the "X" but some interest on the side. An investment in the municipal Christmas tree is one that is sure to bring dividends. That is only one of a multitude of ways in which the man or woman who wants to find out why the "X" was put in "Xmas" will have him or her curiosity satisfied. Of course, there are some people who wouldn't be happy whatever happened to them. Take the case of an old scrooge—take the case of any number of crabs that we all know—just as soon as Christmas comes around they get a pain in their midriff and don't get any relief until well into the new year. They are still howling about the reason to which they have been put for Christmas presents when the Fourth of July comes around.

A LITTLE SOB STUFF.

Think, however, of the young scrooge who never had a chance in the world of the kid that was left squalling on somebody's doorstep of the kid that somebody didn't think enough of to stay and take care of—of the kid whose papa got killed on the railroad—of the kid whose mama has to hold him in one arm while she does the washing with the other. Isn't it worth the "X" in "Xmas" to

give a little help in one such of God's creatures?

Dr. E. E. Lukens, the man who loves children just because they are children, and who is giving the best years of his life to see that every little country-faced imp that comes within the range of his activities has an even break with the Little Lord Fauntleroy who rides to school in Father's limousine, is ready to take a hand in the matter and see that the "X" goes where it will do the most good. Furthermore, in order to stimulate interest in the welfare of the young (in that never lost a chance, Dr. Lukens has dug down into his own clothes and offered a substantial reward for the man or woman who will write a paper—call it a sermon, lecture, or what you will—giving in the best and most convincing language the best and most convincing reasons for the doctrine that all kids are created free and equal and all kids should have an even start in the race.

There's another chance to justify the "X" in "Xmas."

Sob stuff? Of course it's sob stuff. Why not? It doesn't hurt once in a while to indulge in that sort of thing. Ask the mother. Ask the child. Remember that it is almost Christmas. Then let's don't talk about sob stuff.

Opinion is divided as to what to do with defective babies, but there is no question about what should be done with fathers of precocious children.

NAUGHTY! NAUGHTY!

Just to change the subject, here is one that the Grass Widow handed me the other day, clipped from the current number of the Parisienne. "Consider the matter; it is to be noted, neither doth it sin. It stretches far, yet giveth not. When comes night it relights; yet morn finds it ready and willing—yea, happy to take up its burden of support. It upholds its end, and other things; it is the tie that binds. Without it our life is indeed loose-lived. It enters far into the career of woman, yet blows no horn about it. It is both modestly and off the shelf of the blarney shop, it is a refuge for life and man sees it no more—perhaps. It is of the rubber, yet rubbers not.

"The road to hell is paved with 'em."

ELKS' NEW YEAR'S EVE.

There remains no doubt that the Elks' People will have a big time when all is ready to prime the lid off the year 1916. The entertainment, "Midnight at Maxims," which was originally intended for the night before Thanksgiving, is to be given in even greater splendor than was at first planned. It is to be one big night with the best People.

Ernest Landolt will have charge of the arrangements, and Landy has provided for all the specialties that

Four Kiddies

As I sat on my porch one morning,
The world looked to me rather gray,
And things didn't seem very interesting—
I must have had a rough that day.

Then there came, fleet-foot, into the yard
Of the place just across the way,
Four little rollicking kiddies,
To skip and scamper and play!

They danced and played and tumbled
In a very abandon of glee,
And they played a game of hide-and-seek
In a way that was good to see.

They called and laughed and shouted,
Till the echoes rang again,
Replete with the lit of childhood,
In a merry, blithesome strain.

And the heartening spirit of gladness
From those kiddies over the way,
Came right across to me, there,
As I watched them at their play.

Till my heart was filled and sweetened,
And I, too, was glad and true—
The rough? Gone! Eternity routed
By those kiddies across the way.

—MRS. LLOYD WHITE.

go to make such an enterprise an unqualified success. The ball room will be arranged after the manner of one of New York's best known added attractions. An excellent musical and entertainment program will be rendered, and between times the folks will rise up from their tables and shake their feet. At midnight, just when old 1915 is going out and young 1916 is coming in, there will be all the high jinks that any reasonable person has a right to expect.

The following formal announcement has been made in regard to the affair:

Tables may be reserved only by Elks in good standing. (Who-daya-mean good standing?)

Non-Elks will be admitted as guests of Elks, but may not reserve tables. (We should worry.)

Reservations may be made at the desk in the Elks' club beginning at 1 o'clock next Tuesday afternoon. (Well all be there.)

Reservations must be made in person or by representative. Written requests or telephone messages cannot be considered. (Oh, very well.)

Only one table may be reserved by any member or his representative. (For the love of Mike, isn't that enough?)

Reservation for tables may be for two, four, six or eight persons. Space will not permit a larger party. (Well, we'll do the best we can.)

Reservations must be paid for at the time they are made. Rate is \$1 per person. (The very idea! This is positively insulting.)

Preference in the matter of tables will be given to members of Albuquerque lodge. (Just so the pans all there, what does it matter?)

"It isn't always what a 'Christmas' presents, said a friend, 'that makes it appreciable.'"

"Oh, no!" replied Mrs. Bargaminter. "Very often it is what people think it cost."

PI KAPPA ALPHA DANCE.

One of the really brilliant social events of the season was the dance given in the Elks' ball room Friday night by the local chapter of the Pi Kappa Alpha fraternity. The affair was a most elaborate affair and was carried out to perfection, and the occasion was one of the most enjoyable in the social annals of Albuquerque.

A distinctly unique and really beautiful feature was the musical march by the members of the fraternity, twenty-seven in number, and their ladies, which preceded the grand march. Each couple carried a Japanese parasol draped in the colors of the fraternity, and in the course of the march intricate figures were executed, culminating in the formation by the members of the Greek letters "Pi Kappa Alpha."

The committees to which the success of the dance was due were as follows:

Arrangements: Thomas M. Danahy, M. N. Akers, Bruno Diekmann, Herbert Shelton, Elmer Friday and Ray McCanna.

Flour: Louis Hemmelen, Elmer Friday.

Supper: Charles Lembo, Ernest Hammond, Leslie Boldt, Paul Butt, Gordon Gass and Ira V. Boldt.

ST. JOHN'S MEN'S CLUB.

The second meeting of the Saint John's Men's club was held on Tuesday evening, December 7, at the office of Judge W. W. McCallahan. Following the business part of the session, which consisted chiefly of matters pertaining to the constitution of the club, an adjournment was taken to the home of Judge McCallahan for the program of entertainment and refreshments. As members of the club devoted their automobiles for the occasion, no time was lost in the transfer of the thirty-three members and guests to the scene of hospitality.

Mr. John Miller and the reporter of the parish, Mr. Bullock, gave interesting talks on matters pertaining to the parish and welfare of the club. The singing trio, composed of and playfully contributed a most excellent musical program, adding greatly to the general enjoyment of the evening. The satisfaction necessary to the men who had not been accustomed to the refinements of a tempting society were provided in plenty.

The club is not restricted in membership to members of Saint John's Episcopal church, and it is hoped that the many advantages of such a Christian brotherhood will appeal to those interested in the general welfare of the club.

"Why are you asking me for help?" Haven't you any close relatives?"
Yes, that's the reason why I'm appealing to you—Birmingham Age-Herald.

COUNTRY CLUB RULES.

Recently the question was raised as to whether private entertainments could be given at the Country club. For example, could a lady entertain friends informally at bridge without infringing upon the rights of others? Since there seems to be considerable misunderstanding on this point, the directors have had much and discussed informally the various policies involved. In this discussion it was clearly brought out that in accordance with the by-laws:

"The privileges of the club shall be extended only to members and to the lady guests (each member being entitled to invite one or two), and to the non-resident guests of the members."

In accordance with these by-laws it is clear that ladies may invite their friends at will provided they do not anticipate the exclusive use of any room or rooms. In fact, it was clearly the opinion of the board of directors that the more general the use made of the club house the better it would be. At the same time, it was pointed out that to rent the club house for the exclusive use of any member, particularly during the afternoon, would not be in accord with the best interests of the club. On the other hand, considering that the club house is rarely used in the evening, except for club entertainments, it was freely predicted that at the annual meeting to be held January 11, an amendment would be made in the by-laws to permit the rental of the club to members for private parties not to exceed three evenings a week. This could not interfere with the use of the club by club members, and at the same time would produce a welcome revenue.

Thus far, it is anticipated that the following amendments will be brought up for discussion on January 11:

Instead of "No private dancing parties shall be given at the club house," page 12, lines 4 to 5, club booklet, the following should be substituted: "The club house may, in the discretion of the board of directors, be rented for private parties, but in excess of twelve evenings in any one month."

Page 14, line 25, insert after the words "to members," except upon permission of the board of directors under such rules as they may prescribe.

On page 15, line 10, it is proposed to change "over sixteen years of age" to read "twenty-two years of age," so that children of members who have not yet attained legal age may have the privilege of the club without taking out a membership.

Page 15, change "22" to "20."

There are arguments pro and con when it comes to increasing the annual dues for active members, but when it is considered that, for example, a Los Angeles Country club has annual dues of \$14, with additional fee for use of the golf course, the \$20 charged annually by the Albuquerque Country club seems made out if proper service is to be maintained on the basis of an average of one hundred members.

It is also proposed that after line 16, page 16, there should be added:

"These by-laws may also be amended by the unanimous vote of the full board of directors, and such amendments shall be subject to the ratification by members at the annual club meeting."

Helen—Is this your son, dear?

John—Exactly, sweetheart.

John—World, come this for me.

Jack—No, my pet. Mine is an unbroken love—Philadelphia Ledger.

LUTHERAN MUSICAL.

The program given at the Lutheran church Thursday evening was well attended and greatly enjoyed.

Mr. David the tenor, his voice of unusual sweetness, well suited to the occasion, and his rendition of "Mother's Prayer" was enthusiastically received. Miss Ida Hesselton, a student of the Lutheran musical school,

proved equally artistic in the accompaniment and her solo, "Kameme Ostrom" Miss Hesselton brought out the Lutheran church as only a musician of deep study can do. Miss Rike played with her usual fine expression.

FOR MRS. SIMS.

Mrs. Frederick L. Lawless entertained informally Wednesday afternoon at the Country club in honor of Mrs. John F. Simms, a recent bride who already has taken a prominent place in local society. Articles were played, followed by tea. Mrs. Clark

Care poured.

Besides the guest of honor, there were present Mrs. Felix Lange, Mrs. John Lee Clarke, Mrs. W. D. Abbott, Mrs. Clark M. Carr, Mrs. Nell R. Field, Mrs. Harry Sumner of El Paso, Mrs. A. S. McCallahan, Mrs. Theodore S. Woulter, Jr., Mrs. E. J. Allen. (Continued on Page Four.)

"THE STORE WHERE COURTESY ABIDES"

The Appropriateness of Jewelry for Gifts

Gifts are made to commemorate happy events and occasions. A gift is a symbol of Love, Happiness, Friendship, Respect and Goodwill—all of which are qualities of mind or thought. These qualities endure forever if nurtured, cherished and guarded.

In making a gift one should endeavor to give, as a symbol or embodiment of the thoughts entertained, some article that endures—something that may be kept and cherished as a memento of a happy occasion or event.

Jewelry, Diamonds, Watches and kindred articles are the most adaptable for gift giving, as each article is a happy combination of all that is essential.

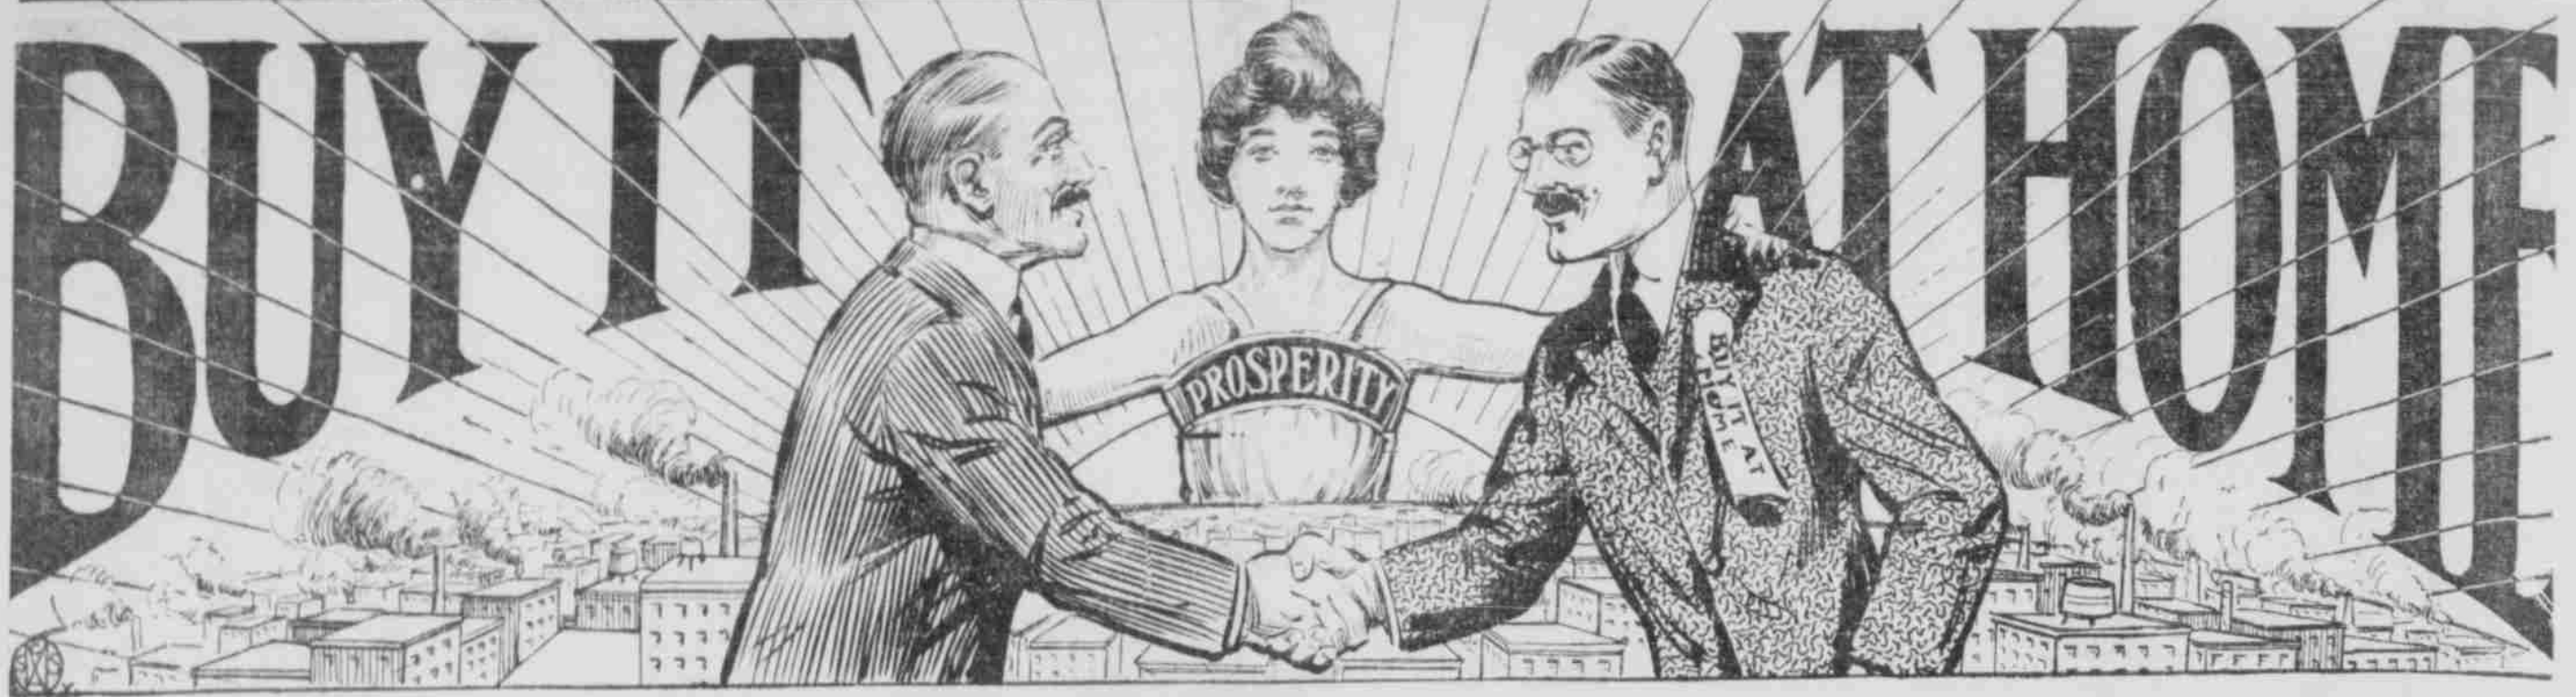

Articles of this kind are at once beautiful, useful and of value. They are articles many would not buy for themselves, but have a desire to possess. They combine the conception of the trained artist and the skill of the maker.

If undecided on the gift question, step inside our store and look over our display of goods. It costs you nothing and there will be no obligation. Perhaps by doing so, you will get an inspiration as to just what is the right thing to do.
