LIST OF KILLED!

Number of Deaths by Chinese Boxers.

Prince Tuan Wanted Before Peace Is Declared.

McKinley and Cabinet Discuss the Chinese Situation.

ELECTRICAL RAILWAY STRIKE.

New York, Oct. 9.—A complete list of the Protestant missionaries known to have been killed from the beginning of the Boxer movement to September 5 and those unaccounted for, has been received by the American Bible Society from Rev. John R. Hykes, D. D., its agent in Shanghai. The lists number 175, very few, if any, of whom will escape. Of these 46 are men, 73 are women (41 married, 32 single) and 29 children. In the above total there are the following Americans: Twenty-five men, 34 women, 18 married, 16 single and 29 children; total, 69 Americans. The total killed about whose death there can be no question, are 11 men, 6 married women, 13 single women, and 15 children; total, 45. Of the killed the following were Americans: Three men, 2 married women, 6 single women, 3 children; total, 12.

HE WANTS PRINCE TUAN.

Shanghai, Oct. 9.—Natives report that Field Marshal Von Waldersee has peremptorily demanded of Prince Ching and Li Hung Chang that Prince Tuan and other Boxer leaders be handed over to him for punishment before he begins to negotiate.

Serious friction is reported between the British and Russian troops at Shanghai Wan after the capture of the forts.

The Japanese consider the withdrawal of the Chinese imperial court into the interior diminished the conference in good faith by that government, hence Japan will not reduce the number of her troops in China.

IN AN UPROAR.

Hong Kong, Oct. 9.—The district of Flatshan is in an uproar. Anti-foreign placards are being posted liberally. A plot has been discovered to destroy all the missions. The viceroys have sent troops.

EMPEROR WILL RETURN.

Peking, Oct. 9.—Prince China has received an edict from the emperor dated October 1, in reply to a note sent at the request of the legations, saying that he will return to Peking as a negotiator to take a favorable turn.

THEY WANT PROTECTION.

Washington, Oct. 9.—The Chinese minister said today that if the powers regarded it as essential that the emperor and empress dowager should return to Peking, he was quite confident this could be brought about, first by giving positive assurances for the personal safety of their majesties, and then, as a plain evidence of this assurance, directing the bulk of the allied forces now at Peking to be withdrawn to Tien Tsin, Yang Niu, or some other point, leaving only a few hundred troops at Peking as a guard.

CABINET MEETING.

Washington, Oct. 9.—Today's cabinet meeting, which lasted two and a half hours, was devoted exclusively to the Chinese situation. An answer of this government to the French note was practically decided upon and will be put in form for transmission to the French government very soon. Its substance was not made public, and will not be until it is delivered to the French minister for transmission to his government.

MORE RE-ASSURING.

Paris, Oct. 9.—It is semi-officially announced today that news received here from China is more reassuring than the English dispatches make out; that an agreement between the powers will be arrived at on the basis of the Delcasse note; that the reported arrival of Li Hung Chang in Peking has

been confirmed, and that confirmation also has been received of the degradation of Prince Tuan.

Strikes at Terre Haute.

Terre Haute, Ind., Oct. 8.—The employees of the Terre Haute Electrical railway went on a strike today. No cars were started and no electric light or power is in serving. The men struck because the management refused to yield to the demands made by them.

Have Reached Washington.

Washington, Oct. 9.—President and Mrs. McKinley reached Washington this morning. President McKinley will remain in Washington until the 23d or 24th when he will again go to Canton to remain until after the election.

Youtsey's Suspicious Action.

Georgetown, Ky., Oct. 9.—In the trial of Henry Youtsey, charged with complicity in the Gobel assassination, witnesses gave testimony regarding his suspicious actions and threats made by him. The jury was taken to Frankfort to inspect the scene of the tragedy.

Buer Kills.

Lorenzo Marquez, Oct. 9.—Hundreds of Boers with their families are fleeing. Most of them have America as their ultimate destination.

Government Leaves Ohio Way.

Portage, Wis., Oct. 9.—Unprecedented high water in the Wisconsin river caused the government levee to give way this afternoon and a tremendous rush of water spread over the low-lying part of the city. Streets and basements were flooded and people hurried to the higher ground with valuables, and the resulting damage will reach thousands of dollars. No lives so far are reported lost.

Parliament Members.

London, Oct. 9.—The total number of members elected in the following: Liberals, 234; opposition, 173. Total, 407.

POLITICAL NEWS!

Roosevelt Entertained in St. Louis.

Bryan Pawing the Soil in the State of Illinois.

Bourke Cochran Has Recovered and Will Begin His Tour.

NEW JERSEY CLERK A DEFAULTER.

St. Louis, Oct. 9.—Gov. Roosevelt breakfasted late. At 12:30 he was escorted to the Merchants Exchange, where he responded to a hearty reception with a short speech. A carriage drive planned by the local reception committee, was vetoed by Roosevelt, who, instead took a horseback ride.

Arrived at Quincy Early and Met by a Big Crowd.

Quincy, Ill., Oct. 9.—A special train bearing W. J. Bryan reached Quincy early today before any one in the party had arisen. They were not, however, permitted to continue their slumbers. Notwithstanding the early hour, there was a throng at the station, among them being marching clubs who acted as an escort to the speaking grounds. Bryan spoke on the general issue of the campaign.

At Carthage he took cognizance of the criticisms of his personal participation in the campaign, saying: "According to my understanding of politics, that as the citizen, sovereign and office holder servant, the citizens have a right to know what the candidate thinks of public questions. The right to participate in the government is one of the inalienable rights—a right that you republicans recognized when Lincoln was your leader, and a right that I, and a right that you never repudiated until you fell from Lincoln down to Hanna."

Cochran Has Recovered.

Kansas City, Oct. 9.—W. J. Bourke Cochran has practically recovered from his illness and will resume his speech-making tour to-morrow.

Defaulters.

New York, Oct. 9.—P. H. Gilhooly, counsel of the Elizabethan, N. Y., banking company, announced today that William W. Schreiber, the missing clerk, was a defaulter to the amount of \$50,000, and that the bank directors had made good the shortage.

WOOL MARKET.

Demand for Wool Pressing and Buyers Show No Inclination to Buy.

Boston, Mass., Oct. 9.—While there has been some sales on the wool market this week the demand is not pressing and buyers show no inclination to buy. This had a tendency to make the market soft in places and fine medium and fine territory wool, staple and secured, could be purchased at 45 to 48 cents, while in some instances parcels have been sold at a lower figure. Piece wools are quiet with prices nominal, although there has been more inquiry for those wools for the past week.

The Lavelle Are at El Paso.

Edward Lavelle and wife are in the city from Albuquerque. Mrs. Lavelle is suffering with rheumatism and she and husband are here in the hope that she will find relief. The lady is quite elderly and is subject to occasional attacks of rheumatism and has at several periods before experienced relief in this climate. Mr. Lavelle is an old railroad man and there is hardly a railway west of the Mississippi on which he has not done some service. It was learned from him that the Santa Fe is about to make \$200,000 worth of improvements in Albuquerque. It proposes to build a new hotel, a new depot and make other additional facilities for its increasing business.—El Paso Independent.

FOR DELEGATE TO CONGRESS.

The Rio Grande Republican on Judge Rodney's Nomination.

The editor of the Rio Grande Republican two years ago suggested for delegate to congress the name of Bernard S. Rodney of Albuquerque, deeming that a ratification of our choice by the republican convention would result in the best possible good for our territory and our people. Our suggestion at that time, though considered, was not acted upon, and it is now that our choice has received the full recognition we have desired.

Among other things we have said of Mr. Rodney in the past, we desire, while extending the heartiest congratulations, to reiterate an opinion expressed in the Republican of date August 26, 1898, which was in part as follows:

"The name of Hon. B. S. Rodney of Albuquerque is so well known that it needs no eulogy from our pen. He is a man of unusual talent and marked ability—an eloquent orator, and one

possessing a thorough knowledge of New Mexico and her best interests, and would work solely for our welfare as would perhaps no other. Mr. Rodney is a gentleman of much tact and popularity added to true merit. His record as a man, a lawyer, and a statesman is a clean one."

Black Jack's Fate Yet Undetermined.

Tom Ketchum, alias Black Jack, sentenced to hang at Clayton, October 5, is enjoying the reprieve afforded by the appeal to the territorial supreme court. This court will probably sit in November and if it affirms the decision of the lower tribunal which it doubtless will, the case will presumably be carried to the United States supreme court. Should this court of highest and final resort decide adversely to the train robber, which it doubtless will, the prisoner will hang in January or February next.

The iron nerve of Ketchum is not phased in the least by his prison life within the gallows' ghastly shadow. The famous bandit's cheek has never paled; his eye never flinched, and his breath never quickened at the ever present thought of the noose and the drop. He has fearlessly challenged his criminal fate and fearlessly will meet the just penalty.

ROBBERY AT THIRION & LAWLER'S.

Five Good Revolvers and Two Boxes of Cartridges Stolen.

A robbery occurred at Thirion & Lawler's second hand store last night, the thief getting away with five good revolvers and two boxes of cartridges. Yesterday morning a stranger entered the store and asked to see some revolvers. Mr. Lawler showed them to him and from the way he handled the goods Mr. Lawler thought he was a professional, but being very busy at the time said no particular attention to the man. After looking at the goods for a short time the man remarked that he would come back later on and would then secure the weapons. Last night some persons supposed to be the same man examined the revolvers in the morning and had them located, broke into the store through the rear and going up to the front of the store abstracted the revolvers from the show case and also took along the two boxes of cartridges. It is thought by the firm that other goods were stolen, but nothing else has been missed up to press hour. The robbery was reported to the police, and Marshal McMillin and his sleuths are now investigating. All suspicious characters will from now on be carefully watched, and those without visible means of support will be marched out of the city.

CHARLES OTT'S CAPTURE.

Followed Two Thieves to Toledo and Captured One With Stolen Packages.

Some express packages were stolen last night at the depot platform and the thieves got as far as Toledo with their spoils before the police, under the direction of the Toledo police, secured the packages to a standstill, but the other escaped. The stolen articles being recovered and one thief captured the time being. The thief and his booty were brought here and turned over to the authorities.

The whole district is arming, and the police force is utterly unable to cope with the rioters.

Victoria, B. It is estimated there are between 8,000 and 10,000 of such claims.

ALBUQUERQUE, — OCT. 9, 1900

National Republican Ticket

For President—
WILLIAM MCKINLEY,
OF OHIO.

For Vice President—
THEODORE ROOSEVELT,
OF NEW YORK.

For Delegate to Congress—
B. S. RODEY,
of Albuquerque.

American manufactured articles sent
abroad during August amounted to
\$15,780,000.

The popular vote of McKinley in 1896
was 1,041,179; Bryan, 650,925. The
total popular vote was 1,692,104.

Leut. W. E. Dame, who has served
his country faithfully in the Philip-
pines, will soon return to his home at
Cerrillos.

Mr. Larrasolo has promised this
city a military post. Santa Fe will take
due notice and secure a similar prom-
ise from the gentleman.

San Juan county is almost sure to
elect a republican. This is the gold that
the democratic camp and a
boiling democratic ticket in the field.

The Continental Oil company, a
branch of the Standard Oil monopoly,
has ordered a reduction of three cent
a gallon in the price of oil in this ter-
ritory.

The "paramount" issue of anti-im-
perialism, built with exceeding care by
the Kansas City convention, has turned
out to be what oil men term a dry hole.
Nothing in it.

It cannot be said that the trusts are
crushing out individual enterprises when
the census shows that up to date there
are 525,000 manufacturing establish-
ments in the country as against 22,623
in 1895.

Omaha is said to have deposited
\$1,500,000 in gold in the banks at Lo-
renzo Marquez. This is the gold that
the British government has warned the
government of the Netherlands against
allowing to be embarked on the war
ship that will carry Kruger to Holland.

The receipts of gold from the mining
districts of Alaska and the Northwest
Territory at the San Francisco mint
and the Seattle assay office during the
period between July 1 and the close of
the month are as follows: Alaska, 356
ounces; Northwest Territory, 315,352
ounces. Of this sum \$104,075 is credited
to the Klondike district and \$23,318 to
Cape Nome.

The Roswell Register says: "The
newspaper editors of the Pecos Valley
are unfortunate in being cut off from
the other portion of the territory by
lack of railroad connections, and this
prevented from fraternizing with their
brethren. A territorial press associa-
tion was recently organized at Albu-
querque during the fair, and should
prove a decided benefit to those who
can attend its meetings."

American machinery will hereafter
handle the coal and iron received and
shipped in the harbor of Alexandria,
Egypt, with a reduction in the cost per
ton from \$1.50 to 50 cts. or less. An ex-
port was sent to this country to study
the problem at the time the Egyptian
structure of an elevated tramway on
the American plan. American bridges
and locomotives had been previously
introduced in the land of the Pharaohs.

Official statistics reveal the fact that
United States coal and coke to the value
of \$1,766,934 were purchased by
Mexico last year, against \$1,252,265 the
previous year, and that \$10,457 worth
of builders' hardware was sold by Yan-
kee drummers in Mexico last year, in-
creasing their sales from \$35,213 the
previous year. This is what followed
the frantic predictions of Mr. Cleveland
that unless the tariffs were abolished
American exports would cease.

Most of the 127 claims paid by an
accident company for the month of
June last were caused by the use of
tools or machinery. Forty-one per-
sons were thrown from vehicles and
the same number from bicycles. Thirty-
seven were injured by animals, twenty-
four by street cars and only three by
electricity. One man claimed to have
been bitten by a hare, but this zoolog-
ical novelty has been held for investi-
gation. The amount paid for the month
was \$55,425.

LAND OFFICE BUSINESS.
The report of the commissioner of
the general land office shows a large
increase in the current work of the of-
fice for the past year, due, the commis-
sioner says, to the general stimulus
given to all the industries of the coun-
try for a year past.

The total cash receipts of the land
office for the past year amount to \$4-
379,785, an increase over the previous
year of \$1,209,621, and over the fiscal
year 1898 of \$1,101,763.

There was a proportionate increase
in the amount of land disposed of, the
total this year amounting to 12,453,887
acres, an increase of 4,000,000 acres over
the previous year. The homestead en-
tries for the year aggregated 4,436,492
acres, an increase of 2,300,522 acres
over the previous year. There has been
also a large increase for the year in
the number of final homestead en-
tries made.

There has been a decrease in the
number of mineral land entries made
during the year, but this is to be ac-
counted for largely by the number of
suspensions, notably in Colorado and
Montana, under late rulings made by
the secretary of the interior.

Important work has been accom-
plished in the forestry division. Two

Delegate Candidate Larrasolo Spoke
at Opera House Last Night.

LARGE CROWD PRESENT.

The democratic candidate for dele-
gate to congress, O. A. Larrasolo, ar-
rived last night from Las Vegas, and
was met at the local depot by the First
Regiment band, a committee of promi-
nent local democratic leaders, and sev-
eral hundred people.

The delegate candidate was promptly
escorted to the Neher opera house,
where he delivered a most excellent
democratic speech, being introduced to
the audience by Mayor St. Marro and
his remarks being interpreted by
Antonio Lucero, who accompanied the
orator to the city.

As a starter, Mr. Larrasolo paid a
most worthy tribute to his political op-
ponent, Judge B. S. Rodey, which re-
ceived the hearty approval of his hear-
ers in loud and continued applause.

He then branched out on "Hannan-
ism" and "McKinleyism" and lambasted
these two distinguished republicans,
who are not in territorial or county po-
litics, to the great delight of the demo-
crats. He spoke in the greatest de-
grees of Bryan and McKinley, and
stated that Bryan was, in his estima-
tion, the greatest orator and statesman
to-day in the world, and stated that
Hannan, who recently challenged him to
a debate, showed in that challenge how
little he knew of the great democratic
presidential candidate.

Regarding the establishment of a mil-
itary post in New Mexico, instead of
Arizona, for one of these republicans
must have that military post he said
that as the war department had recom-
mended Albuquerque for the post, if he
were to choose wisely, he would be using
all his influence and power to have
the military post located at this city.

He favored statehood for New Mex-
ico, and pleaded for the speedy adop-
tion of the constitution, which he said
would work for the benefit of the
admission of New Mexico into the
union of states.

Throughout his entire address, the
democratic delegate candidate was ac-
corded the closest attention, and his
speech was punctuated by generous ap-
plause.

The other speakers were Hon. H. B.
Ferguson and Judge B. S. Rodey.
Mr. Larrasolo, accompanied by Mr.
Ferguson, left this morning for the
south. At Las Cruces they will be
joined by Judge A. H. Paul, and a tour
of the Pecos valley will be made be-
fore returning to northern or central
New Mexico.

THE MISS M'ATEE ASSAULT.
The Thug Still at Large—She Is Better and
May Recover.

To-day, Mr. McAttee, of the brick
contracting firm of Cooper & McAttee,
received a telegram from Denver that
the condition of his sister, who was
the victim of an assault from one of
Denver's numerous thugs, had ma-
terially changed for the better and
that she was entirely recovered. The
Denver Republican of October 5th
says:

Miss Annie McAttee, who was mur-
derously assaulted last Monday night
on Thirty-first avenue between Lafay-
ette and Marion streets, is resting easy
in the police station's room at the city
jail. She recovered consciousness yester-
day and recognized her relatives
and her surroundings. No attempt was
made to get any information from her
regarding the assault, and no reference
to the assault was made in her pres-
ent condition. She thinks that she received the
injury from a fall. Mrs. Shapley,
Harvey and Pershing were in constant
attendance upon her all of yesterday
and last night.

The physicians say they are much
encouraged over her condition and an-
ticipate strong hopes of her ultimate
recovery.

The first favorable symptoms in her
condition were noted yesterday after-
noon. She opened her eyes and gazed
wonderingly about her. When she at-
tempted to arise she fell back helpless
on her pillow and weakly raised her
hand to her head. Miss Catherine
Johnson, the nurse in attendance, ad-
justed the pillows and Miss McAttee
fell into a deep sleep. Later in the day
she again awoke and recognized her
nurses, Miss Edith McAttee, and other
members of her family.

In the opinion of the physicians the
only thing to fear is meningitis. For
the next three or four days Miss Mc-
Attee's condition will be carefully
watched by the three physicians, and
no attempt will be made to remove
her from her present quarters. Her
pulse and temperature are normal, and
there are considered most encouraging
signs.

Miss Edith McAttee was in almost
constant attendance on her sister yester-
day. She is nearly exhausted from the
anxiety and watching of the last
two days.

The detective department was at
work all day yesterday and last night,
but their efforts have thus far been
fruitless. Each one of the sleuths has

A BIG IRRIGATION SCHEME.
A Dam Is to Be Built Across Apache
Canyon in Union County.

A dispatch from Clayton, Union coun-
ty, says: An eastern syndicate be-
ing organized for the purpose of dam-
ming Apache canyon near Clayton. This
canyon and its wide network of tribu-
tary arroyos, gulches and draws com-
prise the drainage channel of the
eastern slopes of the Sierra Grande
mountains, and a dam thrown across
the canyon at the proposed point would
form a lake twenty miles long, with an
average width of one-quarter of a mile
and an average depth of 40 feet. This
lake and its drainage feeders would
provide water for the irrigation of 100,
000 acres of land, and would, also, place
large and permanent water upon a
large and excellently grassed and shel-
tered stock range.

At the point of the proposed dam
construction the canyon is but 150 feet
in width, the dam itself to be of solid
masonry 300 feet thick and 40 feet high,
with an estimated cost of \$100,000. The
lands to be irrigated are practically in
one body, and lie just southeast of
Clayton. They are an average soil
depth of 20 feet, and their fertility as-
sumes the character of the fertile
seasons of the region assuring all the
great variety in harvest schedule. The
stock range of the region is well
pastured of thousands of cattle and
sheep.

The Clayton region, generally speak-
ing, is steadily increasing its stock
values, the annual wool production be-
ing now in excess of 2,000,000 pounds,
while considerable additional stocking
of the cattle ranges is in progress.
