FORD PARTY NOW IN CHRISTIANIA; PEACE BEFORE SPRING, SLOGAN

Automobile Manufacturer Feels
Sure History Will Give Him
Credit for Initiating End of
War.

REAL WORK TO BEGIN WHEN BRYAN ARRIVES

S. S. McClure and Dr. Aked
Compromise Their Differ-
ences Regarding President's
Defense Policy.

Christiania, Norway, Dec. 19 (via London, Dec. 19, 1:50 p. m.)—Every nation in the world will soon look upon the American peace pilgrims as taking the initiative in stopping history's worst war. The landing of the peace expedition in Europe will be recorded as one of the most benevolent things the American republic ever did," said Henry Ford today to the Associated Press representative on stepping ashore on Norwegian soil.

The steamship (Bear II), carrying the Ford peace expedition, arrived at this port on Saturday after a fourteen day voyage from New York. The delegates expressed much pleasure because the vessel was delayed three days by the British authorities at Kirkwall, Scotland.

Confident of Success.

Mr. Ford said he was confident the expedition would result in getting the men out of the trenches before the winter was over. He declared he had information from official sources that his peace plan was looked upon approvingly. He added that his motive in coming to Europe was to develop to the full an understanding through-out the world by the time peace negotiations were begun at The Hague, where William Jennings Bryan, ex-secretary of state, was expected to join the peace party.

Party Will Grow as It Travels.

Mr. Ford explained the presence of the American party in Norway was merely to convince the Norwegians of the fervent wish of Americans for peace. He expects to gather a Norwegian delegation here, and then, in about three days, proceed to Stockholm, Sweden. He said the party would grow as it traveled through central neutral countries and that the rest of the world demanded peace immediately. By the time Copenhagen was visited and The Hague reached, probably two weeks hence, Mr. Ford said, the peace movement would have a definite program.

Weather Is Fine.

The members of the Ford party landed at 8 o'clock this morning and went to various hotels. The weather is fine, so the travelers will have a good chance to see Norwegian winter life.

After holding meetings while crossing the Atlantic and discussing over the question of the American preparedness policy, the 150 peace advocates on arriving were anxious to learn what attitude would be adopted toward them by Europe.

Receptions by Christiania preachers and university professors and an unofficial call made by Albert G. Schmedeman, American minister to Norway, attended the first day of the members of the peace expedition in Europe. Formal meetings will begin Monday.

Differences Compromised.

Christiania newspapers publish long accounts regarding the Ford expedition accompanying the stories with cartoons from foreign newspapers.

Just before the Oscar II reached Christiania, the Ford guests held a public meeting aboard the ship. Samuel McClure, of New York, said that unless the peace pilgrims composed their differences regarding President Wilson's preparedness policy, it would cause disaster to the expedition. He declared American preparedness was necessary and was not related to the peace efforts.

The Rev. Charles F. Aked, pastor of the First Congregational church of San Francisco, maintained it was ridiculous for Americans to urge peace abroad while preparing for war at home.

Finally a resolution declaring that the delegates were unanimous for immediate peace was adopted.

KRN PLATEAU IS SCENE OF BLOODY 200-DAY BATTLE

Hungarian Soldiers Find Shelter
Behind Frozen Corpses
of Italians Slain in 180
Different Attacks.

Berlin, Dec. 19 (via London, Dec. 19, 1:50 p. m.)—Describing the defense by Hungarian soldiers of strategic positions on the Krn plateau, in the Isonzo region, 6,000 feet above the level of the sea, the correspondent of the overseas news agency who reached the scene after the receipt of a congratulatory telegram sent by Emperor William to the Kaiser's regiment, says:

"The Hungarians, with no shelling at their disposal, at first took shelter behind frozen corpses. The whole plateau was covered with dead Italians, it being impossible to bury the bodies as the Italians kept up a continuous artillery fire. The wounded soldiers perished and it was impossible to assist them.

"The Hungarians have been defending the Krn positions for 200 days in which time 150 attacks were repulsed without the Italians gaining the least success."

ITALIAN ACTIVITY DESTITUTE BAD WEATHER

Rome, Dec. 19 (via London, Dec. 20, 1:12 a. m.)—The following official communication was issued today:

"Despite the fact that stormy weather—snow in the mountains and rain and fog on the plains—is hampering our operations, the activity of our troops has not been relaxed. On the northern slopes of Monte San Michele our infantry detachments surprised a hostile trench position which made a salient in our lines and captured it in a surprise attack."

AUSTRIANS REPEL ATTACKS OF ITALIANS

Vienna, Dec. 19 (via London, Dec. 19, 1:50 p. m.)—The official statement issued today follows:

"Russian theater: Beyond local artillery actions there is nothing to report.

"Italian theater: On the northern slopes of Monte San Michele the Italians delivered infantry attacks which were repulsed. The situation is unchanged.

"Southeastern theater: The fighting in Montenegro continues to take a favorable course. Yesterday about 800 Montenegrin prisoners were brought in."

DANISH STEAMER IS SEIZED BY ENGLAND

London, Dec. 19 (11:30 p. m.)—The Danish steamer United States was brought into the Clyde by a British warship Friday night, being diverted from her route while on the way from Copenhagen to New York. A large number of Germans and Austrians, with large sums of money in their possession, are said to be aboard. The mails from the ship were put ashore.

The steamer United States sailed from New York, November 13, and arrived at Copenhagen December 1. She sailed from that port for New York December 12. She belongs to the Scandinavian-American line.

THE WEATHER

Weather Forecast.

Denver, Dec. 19.—New Mexico: Monday and Tuesday fair and cold.

Local Weather Report.

For twenty-four hours, ending at 6 p. m. yesterday.

Maximum temperature, 43 degrees; minimum, 14 degrees; range 29 degrees; temperature at 6 p. m. 27 degrees; north wind; clear.

NEW AMERICAN NOTE TO AUSTRIA IS CABLED TO U.S. AMBASSADOR

Information Asked for in Reply
Is Given in Part in Docu-
ment Much Lengthier Than
Original One.

WASHINGTON DOES NOT GO INTO DETAILS

Final Word From This Gov-
ernment Is Spoken and
Vienna Can Yield or Rela-
tions Will Be Severed.

Washington, Dec. 19.—The new American note to Austria-Hungary regarding the sinking of the Italian steamship Ancona is understood to have been cabled tonight to Ambassador Penfield for presentation to the Vienna foreign office.

Secretary Lansing and other officials of the state department declined to divulge any information concerning the communication. From other reliable sources, however, came a strong intimation that the final draft of the note had been completed by Secretary Lansing during the day and had been put in code and started on its way over the cables.

Text Kept Secret.

A veil of secrecy has surrounded the communication ever since a White House messenger carried a preliminary draft from President Wilson to Secretary Lansing last night. However, it is known that the secretary spent a considerable time last night and today at work developing the ideas the president had outlined. As completed the note is believed to have been considerably more lengthy than the first.

Unless there are unforeseen developments, the note should be in Vienna by Wednesday night. It will be made public when Secretary Lansing is advised that it has reached the Austro-Hungarian foreign office. A prompt reply is requested and of such a nature as to indicate that one will come within ten days.

Demands Reiterated.

Certain portions of the text of the new note were said tonight to be nearly identical with portions of the first. The demands of the United States are reiterated for disavowal, punishment of the submarine commander and repatriation by the payment of indemnity for the Americans killed and injured.

Austria-Hungary's rebuff to the first note contained an implied request for details regarding the American citizens who were killed or injured. The state department, it is said, has been unable to secure all of these names and even though it has some of them they probably have not been furnished to the Austro-Hungarian government. The United States is represented as being determined not to enter into any discussion of such details, this government being primarily concerned with the principles and the violations of law and neutral rights involved.

The note, it is understood, will be made public when the final word of the United States has been spoken. Upon the attitude of the Vienna foreign office depends the continuance of good relations between the two governments.

VON DER GOLTZ PREPARES FOR MOVE ON EGYPT

London, Dec. 19 (12:50 p. m.)—A dispatch to the Exchange Telegraph company from Amsterdam says:

"It is reported that Field Marshal von Der Goltz, commander-in-chief of the First Turkish army, has established his headquarters at Aleppo, Syria, where the Turkish and German troops under his command are being equipped for an invasion of Egypt.

"Field Marshal von Der Goltz's force consists partly of the Constantinople army corps, which is under German officers. The soldiers are armed with Krupp rifles.

"Several large corps of German professors are going to Turkey under a three year contract to teach the German language."

GERMAN COUNSELLORS FOR TURK MINISTRY

Paris, Dec. 19 (10:25 a. m.)—Dispatches from Constantinople forwarded by the Haxos correspondent at Athens say the party of union and progress has decided on the nomination of German counsellors in all the Turkish ministries except the chief ecclesiastical dignitary.

Vienna Is Optimistic.

Zurich, Switzerland, Dec. 19 (via London, 10:45 p. m.)—Dispatches received here from Vienna indicate that Austrian political circles are taking an optimistic view of the controversy between Austria-Hungary and the United States, growing out of the sinking of the Italian steamship Ancona. The politicians believe the government will enter into a further discussion of the points at issue.

GERMANS AWAIT REINFORCEMENTS FOR ATTACK ON THE ALLIED LINES

Unless French and British
Armies Are Quickly Strength-
ened, Teutons May Turn
Attention to Italians.

BULGARS NOT ALLOWED TO CROSS FRONTIER

Subjects of Central Empires
Warned by Consuls to Leave
Saloniki Within Fifteen
Days, Is Report.

Paris, Dec. 19 (10:20 a. m.)—Telegraphing from Athens under date of December 18, the Haxos correspondent says:

"Premier Skoufopoulos declared to the representative of an Athens newspaper today (Saturday) the report that the German minister had informed him the central powers intended to violate Greek territory was unfounded.

"The invasion for four days of the German and Bulgarian troops on the Greek frontier, however," the correspondent adds, "is attributed as much to diplomatic as to military reasons, and it is thought the Germans are not sufficiently strong to attack the allies alone and are trying to overcome the objections to Bulgarians on Greek soil."

Another dispatch from the Haxos correspondent at Athens says:

"Government and diplomatic circles give the impression that the central powers will limit their attention to the Serbs and Italians in Albania unless the interests allies are reinforced at Saloniki and so change the military equilibrium in the Balkans.

"News from Saloniki is to the effect that the situation at the front is unchanged.

"Air scouts of the central allies report the concentration of Bulgarian troops in proximity to the Greek frontier and the arrival of reinforcements at Doiran.

"The German and Austrian consuls have left Saloniki for Monastir after having warned the subjects of their countries to prepare to leave the Greek port within fifteen days."

POORER PEOPLE OF BERLIN NOW SUFFER HUNGER

Woman Brings Word to Hol-
land That Demonstrations
by Women Are Put Down
by Mounted Police.

London, Dec. 19 (11:24 a. m.)—Telegraphing from Amsterdam the correspondent of Reuters Telegram company says:

"Life in the poorer quarters of the German capital is described as pitiful by the German-born wife of an English laborer residing in Berlin, who, after sixteen months' internment has arrived at Flushing, Holland, on her way to England, according to the correspondent of the Amsterdam Telegraph."

"The German authorities, the Telegram correspondent quotes the woman as saying, 'are in great fear of a revolt owing to the discontent of the people. Several riots occurred in which shops were plundered. Mounted police charged the crowds which were composed mainly of women. Many among the working class is considerable and increasing daily.'

"The woman's story is somewhat confirmed," says the Reuters dispatch, "by a letter from the Berlin correspondent of the Handelsblatt, who declares that shops were literally stormed by large crowds who were their daily allowance of butter, which was only about a quarter of a pound per family. Provision shops were guarded by the police to prevent disturbances."

FORT OGLETHORPE TO HAVE TRAINING CAMP

New York, Dec. 19.—A military training camp for students, business and professional men of the southern states, authorized after the one conducted at Plattsburgh, N. Y., last summer, is to be established next April at Fort Oglethorpe, Ga., near Chattahoochee, Tenn. It was announced here tonight by Major General Leonard Wood, commander of the department of the east, who will have direct supervision over the camp.

VILLA DEMANDS SAFE REFUGE IN UNITED STATES IF HE ENDS WAR

Conference Is Held in El Paso
at Which Terms Are Laid
Down by Representatives of
Chieftain.

GENERAL AND BROTHER WANT IMMUNITY BATH

Unless United States Authori-
ties, State of Texas and
Carranza Agree Not to
Prosecute, War Will Go On.

El Paso, Tex., Dec. 19.—A conference of United States military officials, state and city officials and officials of the Carranza and Villa governments was held here secretly today, at which it was proposed by the Villa delegation that Gen. Francisco Villa, commander-in-chief of the Villa forces, his brother, Hipolito Villa, financial agent of the Villa government, be permitted to cross the border unopposed by local, criminal or civil action of any of the elements represented at the conference.

Will Then End War.

In return for the immunity of the Villa brothers, the delegation promised that a new chief would be selected to head the Villa movement and pledged the leader, when selected and not named, but believed to be Governor Villa, that he would, if full guarantees were offered, turn over the entire military and civil organization of Villa control in the territory to the Carranza government.

Should the guarantees not cover all persons affiliated with the Villa movement, the plea would be withdrawn and the fight against the de facto government of Carranza continued.

First Consideration.

So far as the city, state and federal authorities are concerned the conference of opinion after the conference was that the importance of eliminating the Villas from Mexico was paramount to their prosecution on charges which normally would be at a serious nature. It was believed that the advantages according to Mexico and the United States through the control by one government of all that country should govern future actions of the elements behind the conference.

Now Up to Carranza.

The matter of prosecution under extradition proceedings was left to the Carranza government. To justify charges of various sorts against the Villa brothers might be brought growing out of the violence of the revolution and they might be arrested and held for trial during a long period. The outcome of the proceedings might result in their extradition to Mexico with their execution a serious possibility.

The results of the conference have been held before the state department and General Carranza. It is said a decision is expected tomorrow.

CARRANZA BELIEVES PEACE WILL COME SOON

Laredo, Tex., Dec. 19.—The report that General Villa would abandon his campaign against the de facto government of Mexico, created much surprise on both sides of the border here. The report was telegraphed immediately to Gen. Venustiano Carranza at his temporary headquarters near San Antonio.

Carranza military authorities in Nuevo Laredo today said they regarded Villa's action as forecasting a speedy re-establishment of peace in Mexico.

Because of a strict censorship no news reached here today from the Chihuahua campaign.

CALLS CALLED TO CONFER WITH OBREGON

Douglas, Ark., Dec. 19.—General P. Elias Calles, Carranza governor of Sonora, left here today in an automobile for Nogales, Ariz., in response to a request from General Alvaro Obregon, who has arrived there unexpectedly from Guaymas, Sonora. Calles was ordered to leave immediately to confer with the military leader.

The movement of General Calles' military division comprising nearly 5,000 men, from Agua Prieta, Sonora, to Nogales, practically was completed today. General Angel Flores remained in Chihuahua at Agua Prieta with 2,500 troops.

ANOTHER SLIDE BLOCKS CANAL NAVIGATION

Panama, Dec. 19.—Another slide movement of material in Galliard cut last night prevented the passage of vessels through the Panama canal today. It is expected that the canal will be cleared for the transit of vessels Tuesday.

The committee appointed by the National Academy of Science to investigate the geological formation in the canal zone and study the subject of landslides arrived here this afternoon. Work of investigation will begin tomorrow. The committee will remain until January 1.

FIREMEN FIGHT CANAL OF BLAZING WHISKEY

Glasgow, Scotland, Dec. 19 (2:45 p. m.)—Firemen had to fight a canal full of blazing whiskey here today when a fire broke out in the building of the distillery company Ltd. Twenty thousand casks of liquor were stored in the building. The conflagration spread rapidly and the explosion of the casks rebounded the whiskey which made a burning stream of the canal. The loss is estimated at \$750,000.

ALLEGED AMERICAN CHARGED WITH SPYING

Berlin, Dec. 19 (via London, Dec. 19, 2:11 a. m.)—Hauptmann Paul Lohr, a Bavarian, American citizen, who has been placed in jail at Warsaw and is awaiting trial on a charge of espionage.

As the investigation has not yet been completed the authorities have not been able to communicate to the American consulate the full charges against Lohr, which are understood to involve an alleged conspiracy to secure information to the Russians after the German occupation of Warsaw. The authorities are alleging the American representative, the widest latitude to assist Lohr in preparing for his defense. The consul and vice consul are permitted to visit Lohr frequently in his cell and have been assured they will be shown the formal indictment in due time before the trial and is permitted to be present in court during the trial.

Lohr has been a hanger-on in the leading circles of Warsaw for years as a commissionaire and guide. In those capacities he is known to many American tourists. During the Russian revolution Lohr acted as a temporary correspondent for several American and British newspapers.

NOTED SCIENTIST DIES; 80 YEARS OLD

New Haven, Conn., Dec. 19.—Prof. Arthur William Wright, a noted scientist and professor of experimental physics at Yale from 1872 to 1896, died at his home here today in his eightieth year. In 1878 he was sent by the United States government to Colorado to observe a total eclipse of the sun, and at that time made the first measurement of the polarization of the solar corona. He is said to have been the first American to obtain definite results from X-ray experiments.

HEAVY FIGHTING ON DARDANELLES IS PROCEEDING

Constantinople Reports Bom-
bardment by Anglo-French
Squadron; Turks Are Shell-
ing Kut-el-Amara Trenches

Constantinople, Dec. 19 (via London, Dec. 19, 1:19 a. m.)—Anglo-French squadrons and allied land batteries yesterday bombarded Turkish positions at Art Burun and at Ali on Gallipoli peninsula, says the official statement issued here today by the Ottoman war department.

In Mesopotamia, Turkish troops are said to be destroying defense works of every description in front of the British main position near Kut-el-Amara.

The text of the statement follows:

"Our troops continue to destroy defense works of all kinds before the enemy's main position near Kut-el-Amara. Our heavy artillery is successfully bombarding the trenches of the enemy.

"Dardanelles front: Near Anafarta there were intermittent artillery encounters. One or two mines were exploded, destroying a French trench. Our patrols have captured in enemy trenches bayonets and ammunition and various other kinds of war material.

"Near Art Burun the enemy fired a great number of bombs against our right wing. One cruiser and three armored monitors as well as long batteries bombarded our positions from different directions. Our artillery successfully replied.

"Near Seddul-Bahir, our artillery, on December 17, sank one of two tugs in the narrow, which were debarking men and ammunition. The debarking was interrupted.

"One cruiser and one monitor bombarded the neighborhood of Ali, but caused no damage."

RUSSIAN FORCES NOT TO ATTACK BULGARIA

London, Dec. 19 (2:45 a. m.)—There has been considerable speculation in London for some time as to what has become of the Russian troops, which concentrated on the Bulgarian frontier several weeks ago with the apparent intention of entering the Balkan conflict.

Dispatches to the Telegram from Rotterdam made the Balkan question clear to the effect that the Russian army in this section had been completely moved from their positions to following and that all plans for attacking the Bulgarians had been abandoned in favor of a new offensive against Bulgaria.

FIREMEN FIGHT CANAL OF BLAZING WHISKEY

Glasgow, Scotland, Dec. 19 (2:45 p. m.)—Firemen had to fight a canal full of blazing whiskey here today when a fire broke out in the building of the distillery company Ltd. Twenty thousand casks of liquor were stored in the building. The conflagration spread rapidly and the explosion of the casks rebounded the whiskey which made a burning stream of the canal. The loss is estimated at \$750,000.

ALL EUROPE IS WAITING NEXT STROKE AGAINST ENTENTE POWERS

Field Marshal von der Goltz
Is Believed Preparing for
Drive Against Suez Canal
and Egypt.

ATTEMPTED INVASION OF ENGLAND POSSIBLE

Little Fighting Reported Any-
where Except on Gallipoli
Peninsula and on the Isonzo
Front.

London, Dec. 19 (10:46 p. m.)—During the relocation in all of the offensive campaign, except the Italian pressure on the Austrians, which has followed the expulsion of the Serbian army from its own country, European interest is focused upon the probability of some move, but as yet undeveloped, against England.

It appears to be taken for granted on all sides that the policy of the central powers will be to attempt to gain a decision, somewhere, while their opponents will prefer to devote the winter to preparations for warfare in the spring.

Egypt May Be Objective.

There is much discussion in Great Britain of a reported Turkish-German attempt on the Suez canal. Messages received from neutral countries professing to have German sources of information, describe the German field marshal, von Der Goltz, as equipping at Aleppo an army for an invasion of Egypt. The same correspondents assert that the Germans are collecting extensive droves of camels and donkeys for their transport.

A majority of the English writers who know Egypt declare that such a project would be hopeless.

May Try to Invade England.

The Observer today considers a German attempt to invade England as a desperate gamble, one of the foremost possibilities and that the extensive movements of troops in Belgium may mean preparations for embarking at Zeebrugge and in the Scheldt river.

Officers returning from the western front express the belief that fighting there on a scale is impossible because the country is mud-dier and altogether in worse shape than last year.

The activity on the Gallipoli peninsula and small Italian gains are the only important military operations reported today.

German War Vessels Lost.

Germany has lost the small cruiser Bremen and a torpedo boat in the Baltic sea through a submarine attack. It is presumed that the submarine was one of the English under-sea squadron which recently has shown enterprise in those waters.

The Turks claim to have sunk a British monitor in the Taurus river near Kut-el-Amara.

The Greek situation remains unchanged. The Greek government is reported to have protested formally against the entente allies' fortifying outside Saloniki. The protest may be of the same character as the one lodged against the first landing of troops, which was then described as merely a technical one to keep the record clear.

RUSSIAN AVIATORS AGAIN LAUNCH ATTACK ON METZ

Berlin, Dec. 19 (via London, 4:00 p. m.)—French aviators launched another attack against the German fortress of Metz last night, but the only result was damage to property, says the official statement issued today by the German army headquarters.

In the Balkan theater, the statement adds, 750 Serbs and Montenegrins were taken prisoner.

The text of the statement follows:

"Western theater: Nothing of importance took place. During the night Metz again was attacked by enemy aviators. Damage to property was the only result.

"Eastern theater: Small Russian detachments advancing against our positions at various points were repulsed.

"Balkan theater: Near Mogorva and Metopole near Tzab Strabani and Montenegro have been taken prisoner."

GAS ATTACK AGAINST BRITISH LINES ENDS

London, Dec. 19 (11:40 p. m.)—The following, British official statement was issued tonight:

"Early this morning the enemy discharged gas against our line in the southwest of Ypres, accompanied by a heavy bombardment. Except at a few places, where they were driven back before reaching our lines, they were prevented from leaving their trenches by our fire. Our protective measures against gas proved effective and our line is everywhere intact.

"Except for artillery activity on both sides there has been no further development during the day. The hostile artillery was unusually active west of Ypres and also against our trenches west and south of Messines.

"The enemy blew up two mines in

BOMB RAIDS ON VENICE OCCASION HAVOC AND RUIN

Historic Buildings, Centuries Old Are Demolished and Priceless Art Treasures Are Badly Damaged.

(Associated Press Correspondence.) Venice, Italy, Dec. 19.—An opportunity to see the destructive effect of the latest raids on Venice was given today to the Associated Press, when an inspection under official escort was made of the havoc and ruin in the Venetian old church of the Scrovegni, one of the art monuments of the world, and a wreck with its roof blown off, its massive walls tottering, and its famous ceiling fresco of "The Last Judgment" a million frames, hung in beams of ruin in the ruins of the building.

"There have been three bomb raids on Venice, but this was the worst," said the official escort. "The first raid was on the Grand Canal, and the second on the Rialto Bridge. The third raid was on the Scrovegni church, and the result was the complete destruction of the building and the loss of the famous ceiling fresco." The official escort pointed out the damage done by the bombs, and the loss of the famous ceiling fresco. The official escort pointed out the damage done by the bombs, and the loss of the famous ceiling fresco.

Work of Destruction. The Scrovegni church is a masterpiece of Venetian architecture, and its destruction is a great loss to the world. Just a Little Exercise for Stout Ladies

IDA SCHNOLL DOING "THE CRAB."

"Why, it is the easiest thing in the world," said Ida Schnoll, all-around woman athlete. "You may see by the smile on her face and the lack of strain that 'doing the crab' is not difficult for her. If it were difficult, her face would show the strain of the exercise."

The railway station of Venice, the center of a network of railway connections. Just above the station the aeroplane began to circle round and round. Clearly it was going to bomb the station. But at 2,500 meters height the aim is not good, and besides there were many obstacles in the way. The aeroplane began to circle round and round. Clearly it was going to bomb the station. But at 2,500 meters height the aim is not good, and besides there were many obstacles in the way.

Caused by Internal Explosion. This internal explosion is what caused the terrible destruction, as besides the flying fragments of the bomb and its shrapnel contents, the sudden expansion of air in the confined interior of the church literally blew the roof and the walls to pieces. The explosion was so powerful that it blew the roof and the walls to pieces. The explosion was so powerful that it blew the roof and the walls to pieces.

Jersey Politician Fails

James Smith, Jr.

James Smith, Jr., former United States Senator from New Jersey, and one of those who voted in the senate against the sugar schedule of the Wilson tariff during the administration of Grover Cleveland, has been the subject of extraordinary attention by the controller of the Treasury, John Skelton Williams. The former senator, who had the democratic party of his state in his control until Woodrow Wilson was elected governor, and has had it since the New Jersey general election of 1911, was a member of the White House staff, and was a member of the Federal Reserve board.

The Chicago and Eastern Illinois will be provided for by absorption into the Chicago, Milwaukee & St. Paul system. Some strong financiers in Chicago are interested themselves in the Missouri, Kansas & Texas, and that road also will see better days.

Business Retains Hope. The change in attitude is due in a degree to the effect of the business revival growing out of the war. That is the one danger point. It is, however, it leads to the infusion of new capital into the railroad system, the effect will be the same as if it came from some other source. Many people believe that the impulse which business has received will last for years, even though the prime cause ceases to operate. Anyhow, the prospectors have evidently adopted as their principle "Look not mournfully on the past," in other words, "Do not cry over spilled milk." That is the position of E. D. Hubert, who has just taken a leading part in the rehabilitation of the Rock Island, in response to certain suggestions of help to those who have lost money in that system.

The testimony of Mr. Mellon in the New Haven case has created a strong impression among western financiers. He stated that the great plan of Mr. Morgan would have been a benefit to all concerned if the government had not interfered at the critical time. It is coming to be better understood that the fault in this railroad business is not altogether on the side of the railroad men or on the side of the government and the public, but that the fault belongs to the shareholders in their side of the case.

Body Is Found Frozen. Boulder, Colo., Dec. 19.—The body of a man, believed to be that of T. L. Pearson, formerly of Denver, was found frozen late today near Louisville. Identification was made by means of letters found in his pockets. The man had been dead about three days, it was believed. He was about 60 years old.

More Loans Likely. The making of loans to the allies will not doubt go on to the limit of American pecuniary endurance, and those loans will be evidence of large transactions in commodities, but in other directions there are signs of reaction, small though that reaction may be. The railroads have had a splendid run of business in the past two or three months, but this week's report shows a small increase in idle cars, which perhaps is due to the discharge of freight into ships on a larger scale than heretofore and a consequent release of some of the cars which have been standing full and idle on the eastern roads. But there is a weakening of the confidence of certain speculators and investors in railroad stocks.

Ready to Industrials. Large purchases were made in this part of the country some weeks ago, and the buyers have seen a good profit in their holdings, which the more recent quotations have whittled down to some extent. Thus the opinion of those who have given their faith to the industrial as against the railroad stocks has been strengthened. These operators, while admitting the new life in the transportation business, say that the bulk of the hog and also of the spring wheat has been shipped and that the decreased yield of cotton this year will operate to the disadvantage of the roads. Here, then, is a possible reason for a moderate reaction. Those who have bought the railroad stocks are mostly the old-timers who have placed their faith in that class of property these many years. They have not sold.

Matter of Finance. The class who believe in the industrial is much more numerous, but probably not so strong pecuniarily. That they are strong enough, however, to hold their stocks against any ordinary downturn is evidenced by the fact that the sharp declines that have occurred from time to time in the past few weeks have shaken off very few. The brokerage houses in Chicago probably are carrying more stocks than ever before. This fact ordinarily would be considered most for the big manipulators in Wall street, and evidently they have attempted to dislodge these holders from time to time, but they made little headway. Doubtless the holders of the industrial are large also in eastern brokerage offices, but relatively they are not so great as in the west, and the situation now is seriously the west against the manipulators of Wall street.

Much Stock Trading. The absorption of western capital in stock trading is large at the moment, and there is at least the appearance of speculation in the agricultural specialties of the Chicago Board of Trade, but this does not suffice to pull down the resources of the banks.

STATE MUSEUM NOTES

SPECIAL CORRESPONDENCE TO MORNING JOURNAL.

Santa Fe, Dec. 19.—Two striking photographic enlargements of life among the Mayas in Guatemala at the present day, were presented today to the museum by the Maya Film company, of San Diego, through E. Wilson Farr, general manager of the company. One is a Mikito (chaff-bird), holding up two enormous shields, which furnish the chief food supply of the people, and the other is a picture of two Mikito women crossing a stream with their paposes on their back. Mr. Farr promises to send the museum more pictures and also a number of stone implements from that region.

Governor Hunt of Arizona has decided to give his collection of Apache blankets to the state museum at Tucson and his fine collection of paintings to the art museum that the state promises to establish at Phoenix. It is the work of the museum here that has been the incentive in Arizona for the establishment of an archaeological museum by the state at Tucson, and for the interest in art at Phoenix, Arizona New Mexico lands.

The museum library today received the beautifully illustrated "Museum of Fine Arts Bulletin," for December from London, which is mainly given to an account of the museum's expedition to Nubia. Striking—some might almost say startling—is the similarity of some of the pottery designs taken out of the Nubian ruins with those of the Arroyo Hondo and nearby ruins. The library also received the program of the twelfth annual meeting of American geographers at the Archaeological Institute of America, Washington, D. C., and of the Pan-American scientific congress, December 27 to January 8, as well as the eleventh of the official documents bearing upon the European war.

The woman's museum committee will be patronesses of the art exhibit of Allen Tupper True, which will be hung next week and will remain up over the holidays.

SURVEY OF IMPORTANT ROAD IS COMPLETED
CARLISLE, N. M., Dec. 19.—The first service has completed the survey of a road across the forest in the Guadalupe mountains by way of Queen in western Eddy county. Robert Stephenson, forest ranger, in charge of the surveying party, came in last night and went south this morning. He says that a new route has been found that cuts out the old kinks and steep grades and at the same time cuts down the distance very materially. The route as now surveyed is fifteen and three-quarters miles long and has no bad curves or steep grades.

The government intimates that it is up to the people. If Eddy county builds a good road from Carlisle to the boundary of the national forest, the government will build the fifteen and a fraction miles across the forest. Tom Middleton, who is an authority on road building in the mountains, says that the canyon hill west of Queen in grade and it is no longer a dread to the wayfarer, he is almost or still a driver of the horse. C. M. Richards kept after the forest service in season and out of season and it is largely due to him and that other Eddy county good reader, G. H. McLenathan, that the government has made the survey of a road across the forest. It is now up to the people to show they mean business by building to the forest boundary.

Armory Money in Bank.
DENING, N. M., Dec. 19.—The money for the Dening armory is at last in a local bank and subject to the order of the Dening armory board of control. Tuesday a state warrant was received for exactly \$18,120.43 by John Watson, who deposited in the Bank of Dening. Work on the armory will be started about the first of the year, now close at hand.

Sorority Hates Pledge.
LAS VEGAS, N. M., Dec. 19.—Las Vegas has two sororities which are unique in not being connected with any school. The societies are in reality girls' social clubs. The Pi Sigma, the larger of the two, recently made some of its pledges attend school with their dresses turned wrong side out.

CONVICTED MAN SENTENCED BY JUDGE MEDLER

Jose Ramirez Passionately Protests Innocence When Asked by Court If He Had Anything to Say.

SPECIAL CORRESPONDENCE TO MORNING JOURNAL.
Las Cruces, N. M., Dec. 19.—Jose Ramirez, found guilty of the robbery of a horse, was the first prisoner to face the court when sentences were passed yesterday at the conclusion of the adjourned September term with jury. When asked by the court if he had anything to say—why sentence should not be passed upon him, he replied in the affirmative and made a plea for clemency which is somewhat unique.

"I have a very few words to say," said Ramirez. "I ask God to help me, what I say here before this honorable court that is listening to me is not a lie, because I carried them here because I was paid for doing so. I say that before God and man, that my hands are clean about this, because I didn't want to imagine in any manner of my body to take that stuff. I will, too, like Christ, when he was crucified, and he was given vinegar to drink. I don't like it, but I will have to take it, as I have not committed any crime. I have no fear. I therefore say that I am as innocent as a baby as to this thing, and I ask the clemency of the court, and I hope the Lord will help you in your head not to strain your soul and I say before God and man that if I am sentenced that it is up to you. That is all I desire to say."

In reply the court remarked that the jury had seen fit to convict him upon the evidence, that nothing remained but for the court to pass sentence, stating that he had been before the same court in another county, which the defendant admitted. The sentence was not less than two years and six months in the penitentiary and not more than five years and a fine of \$500 and costs.

Ramon Aguilar was the next prisoner to face the court, having been found guilty by a jury of assault with a deadly weapon, and given not less than two years nor more than two years and six months in the penitentiary.

Train Robbers Get Theirs.
The next array were those who pleaded guilty and who were convicted by the jury of robbing the Santa Fe freight car which was loaded with copper bullion. This case has been a very interesting one and the result will have a far reaching effect, no doubt, upon persons who may be inclined with the idea as the court stated, of "making a living by stealing."

Guillermo Giguin and Aurelio Jimenez, two who pleaded guilty were each given not less than three years nor more than five years in the penitentiary. Pedro Miranda, another member of the gang, was given the maximum sentence of not less than fifteen years in the penitentiary, with costs of the prosecution. Miranda was identified as having boarded the train while in motion and while holding the handle on the box car door with one hand, broken both heels on the car door, pushed the door open, and then assisted his four companions from their position underneath the car and on the roof rods, up into the car where the bullion was, after which they proceeded to throw off thirty-seven bars, each of which weighed over 340 pounds.

A pitched battle resulted when the officers who were riding in an empty car immediately behind the car of bullion, got off their cars. Three were captured that night and later four more.

The jury found three guilty and acquitted two. Two who were found not guilty, however, were immediately incarcerated for different offenses, one Leonardo Pedrosa, being charged by an information filed by the district attorney last night of an assault with intent to kill, which is alleged to have occurred the night of the robbery when the battle took place. The other defendant, Miguel Marquez, was reincarcerated on an information charging him with breaking jail. They are bound over to await the action of the next grand jury for this county.

Crespin Trujillo, a youth charged with stealing a set of harness from a Mr. Faulkner, pleaded guilty to an information, and when asked if he had anything to say, said: "The American good man \$3.50, that is why I took the harness." Another boy who accompanied him—when "collected" his account was given a year in the reform school on account of his age, being but 16 years old.

COUPLE SEEM CONTENT TO REMAIN IN JAIL

SPECIAL CORRESPONDENCE TO MORNING JOURNAL.
Silver City, N. M., Dec. 19.—Thaxton he admits both himself and wife were furnish bonds of \$1,000 and \$500, respectively, under which they were held following the shooting to death last week at the Pierra mine camp of Roy Gibbs by Alamp. The couple seem content to remain in the county jail. Alamp is in need of medical attention because he is suffering from tuberculosis.

Both prisoners declare that when the grand jury meets that body will absolve them from a charge of murder growing out of the killing of Gibbs, who was shot, on Alamp claims, in self-defense, when Alamp discovered him in his house with his wife.

Widow Dies of Grief.
LAS VEGAS, N. M., Dec. 18.—Less than a week after the death of her husband, Mrs. William Busch died Saturday at her home on National avenue.
