RAIN, HAIL, SLEET, SNOW AND WINDS

Violent Storms are Reported From All Parts of the East. Telegraph and Telephone Wires are Down While a Heavy Fall of Snow Impedes Traffic in Many Cities. Ocean Steamers Creep Up to Their Docks After Tempestuous Voyages.

STORM IS CENTRAL IN NEW JERSEY TODAY

New York, Dec. 5.—A snow and sleet storm delayed traffic in New York today. Service on the elevated lines was seriously interfered with and communication between uptown and downtown by means of surface lines was very slow and difficult. Dispatches from all parts of the state show that the storm is prevailing everywhere with varying severity. At Albany the snowfall is very heavy and all trains are reported from one to five hours late. Blizzard conditions prevail at Schenectady, Newburgh, Saratoga and other places in the east and north part of the state. From Rochester to Buffalo the storm is much milder. In this city, the storm developed into a blizzard as the day grew. Sound steamers arrived several hours late and their officers reported the storm very heavy up the sound. Telegraphic service east of New York to New England especially, is prostrated and northward through New York state, the service is greatly impeded by the wind and snow.

The White Star liner, Teutonic, which reached her dock today, completed a trip of seven days and 13 hours of almost continual storms. The ship met particularly severe weather last night in approaching port and anchored in the lower bay. The last bit of voyage, up to the dock was made in a blizzard. Every day of the trip, the passengers were kept within storm doors, and one of the crew was nearly washed overboard. Toward noon the storm abated, but the wind continued high.

Philadelphia, Dec. 5.—A fierce snow and rainstorm, amounting almost to a blizzard, is prevailing through Pennsylvania today. Railroad service in all directions is badly crippled and telegraph and telephone wires are prostrated. Throughout the anthracite coal region, the fall of snow is reported to be very heavy and it is drifting badly, necessitating the shutting down of many collieries.

PARALYSIS OF THE HEART THE CAUSE

United States Minister Buck Died Without a Groan or a Word While the Guest of the Emperor of Japan.

WAS HELD IN HIGH ESTEEM AND FLAGS ARE AT HALF MAST

Yokohama, Dec. 5.—Paralysis of the heart caused the death of United States Minister Albert E. Buck, which occurred yesterday. The end was tragically sudden. Mr. Buck was held in high esteem in Japan and the flags on the government buildings have been placed at half mast. The funeral has been set for Monday next.

SUCCESSOR TO BUCK. Washington, Dec. 5.—When the president comes to take up the question of succession to the vacancy caused by the death of Minister Buck at Tokio, it is understood that he will name John Barrett of Oregon, at present commissioner general of the St. Louis Exposition to Asia and Australasia, to be minister.

SURPRISE AT WASHINGTON.

Sudden Turn in the Cuban Treaty Negotiations Was Entirely Unexpected.

Washington, Dec. 5.—The unexpected turn in Cuba treaty negotiations at Havana, have greatly surprised the officials here, who had every reason to believe from Minister Squieres' reports, the treaty was practically an accomplished fact. Now that it is to be thrown into the house of representatives at Havana, with a nationalist majority supposed to be hostile to the establishment of closer relations with the United States, it is feared the treaty is lost for, if not rejected outright, it is almost certain to be amended so as to make it unacceptable to the United States.

TWO MEN KILLED.

An Immense Slide of Snow and Dirt Tore Down the Mountain Side.

Baker City, Ore., Dec. 5.—James Sullivan and a man by the name of De Kibbs, were killed in the snowslide, which occurred at the Cornucopia mine Wednesday night. An immense slide of snow and earth came tearing down the mountain side, covering the men before they could reach a place of safety. The mine was damaged to the extent of several thousand dollars. Another slide occurred at the South Pole mine, carrying away the shaft house and a number of small buildings. No one was injured. Owing to the sudden heavy fall of snow, other slides are feared.

PERISH THE THOUGHT.

A Lighted Cigarette May Have Caused a \$3,000 Fire at Princeton University.

Princeton, N. J., Dec. 5.—Dickinson Hall, the big recitation building of the academic department of the University, narrowly escaped being burned to the ground today. Fire broke out in the third story at 10 o'clock, while Professor J. Mark Baldwin's junior class in psychology was in session. A bucket brigade was formed by the students and the local fire department was summoned. After a hard fight the blaze was smothered before it reached the main part of examination hall. It is thought that some one dropped a lighted cigarette in the hallway. The loss is \$3,000.

THINK THEY HAVE THEM.

Albuquerque Officers Confident Some of the Safe Blow are in Custody.

Albuquerque officers believe they have at least a part of the gang connected with the recent safe robberies, under arrest. Harry Monroe, the notorious crook held in the county jail, has denied from the beginning that he was in Las Vegas, but he has been identified by Las Vegas officers as having been there November 12, or about the time of the Springer robbery, and admits it. It has also been settled beyond doubt that Ferrell and Myers, two other suspects held at Albuquerque, were there at the same time and the three knew each other. Ward, who was arrested in El Paso, and Hackett, the first one arrested, know the others of the gang. The efforts of the police are now directed toward finding some or all of the goods stolen from Vann's store.

IMMIGRANT RATES.

Are the Subject of a Controversy Among Different Western Railroads.

The present indications are at Chicago there will soon be a war over immigrant rates to the west. The Rock Island has made a demand for a greater share of the business and a meeting of representatives of the western roads with the commissioners of the Western Passenger Association is being held to try and arrange a compromise. It is understood the Rock Island demands 10 per cent of the revenue between the Kansas City and El Paso divisional points, but is willing to leave it to arbitration. The Southern Pacific and the Santa Fe are said to be opposed to arbitration.

TRUST PUBLIC CITY BILL

Sub-Committee of the House Judiciary Committee Reported Favorably.

PRIVATE BILLS CONSIDERED

The Contestants in the Wagoner vs. Butler Case, from St. Louis, Must Prepare Their Papers in 35 Days Instead of 150.

Washington, Dec. 5.—The sub-committee of the house judiciary committee having trust legislation under consideration, today reported favorably to the full committee, the publicity bill. Then the committee referred this bill and all other, to a special sub-committee consisting of Messrs. Littlefield, Overstreet, Powers, Clayton and De Armond.

TIME WAS DECREASED. Washington, Dec. 5.—Elections committee No. 2 of the house, considering the case of Wagoner vs. Butler, from St. Louis, today decided to report a resolution providing that the time to be given the contestants for preparing their cases, be limited to 25 days instead of 150, as the rules now provide.

PRIVATE BILLS CONSIDERED. Washington, Dec. 5.—This being Friday, the house devoted the day to consideration of bills on the private calendar.

THE GRAND CANON.

An Edition de Luxe of a Beautifully Illustrated Volume Issued by the Passenger Department of the Santa Fe System.

The Grand Canon of Arizona, is the simple title of a beautiful book of 124 pages published by the passenger department of the Santa Fe system. C. F. Lummis, J. L. Stoddard, Harriet Monroe, Joaquin Miller, Hamlin Garland, Edwin Burr Smith, David Starr Jordan, Charles Dudley Warner, and others of equal renown each contribute an article, or rather a superb work painting, descriptive of the Grand Canon and its glories. Several of these articles have already a permanent place in literature and each one of them is worthy of the theme. The book is profusely and splendidly illustrated with the finest of half tones from actual photographs, and printed on heavy calendared paper, making the volume a work of art and a souvenir which every visitor to the southwest and especially to the Grand Canon, will want. A limited number of copies have been placed on sale with City Agent H. S. Lutz at 50 cents.

PALATIAL CHICAGO RESIDENCE SCORCHED

An Over Heated Furnace Caused \$10,000 Worth of Damage in the Home of Franklin MacVeagh This Morning.

EVERY PORTION WAS FILLED WITH DENSE SMOKE

Chicago, Dec. 5.—Franklin MacVeagh's palatial residence at 103 Lake Shore drive, was damaged \$10,000 by fire early today. Two maid servants jumped from a second story window, sustaining serious injuries, and several others nearly suffocated, were rescued by firemen. Only a small portion of the residence burned, the chief danger to the occupants being from suffocation from the dense smoke that filled every portion of the structure. Mr. MacVeagh and family were uninjured. An overheated furnace was the cause of the fire.

A SAMPLE LETTER.

The following letter was today referred to the Bureau of Immigration from the local land office. It is given verbatim and is a good sample of many letters answered at the bureau. No matter how foolish many of the questions may be or what is asked, a courteous answer is always made. This letter, which is from Michigan, is as follows:

"Dear Sir: Is those Lands in New Mexico all desert Lands Or are there Some wood Lands and Prairie Lands also in that territory of New Mexico. Or do those Lands belong to the U. S. A. Government or to the territory of New Mexico? Or do those Lands in New Mexico have to be irrigated? Or is their water or Springs or Rivers or creeks running through those Lands? I Suppose all those Lands that is surveyed is subject to entry by U. S. A. citizens. Do you have to apply to Washington D. C. to commissioner of Public Lands, or are you the party dose all the business in regard to full entry of Public Lands I Suppose you do have to locate immediately on those lands after Preention of those Lands. I Suppose its a pretty wild part where those lands is Situated. What part of the territory of New Mexico is those lands Situated Or is it mountainous or a hilly country or are they agricultural or mineral Lands or a Part of both is that a healthy country out their I Suppose the most Part of New Mexico is a dry and warm climate Please answer this letter and give me all the Reliable information you can and oblige yours. very. Respectfully."

DISTRIBUTION OF ANNUAL REPORT OF SUPERINTENDENT OF PUBLIC INSTRUCTION.

Colonel J. Frank Chaves, superintendent of public instruction, during the past week has distributed hundreds of copies of his annual report to county superintendents of schools and to principals of city schools throughout the territory. He has also sent 400 copies of his report to Delegate B. S. Rodey for distribution to members of congress and to department officials. The report is very comprehensive and makes an excellent showing for New Mexico's school system. In the work of sending out this publication he has been aided to some extent by the Bureau of Immigration, which has mailed additional copies to officials of educational institutions throughout the country by whom they will be appreciated and where they will do great good.

NOTARIES PUBLIC APPOINTED.

Governor Otero this morning appointed Milnor Rudolph, of Revuelto, Guadalupe county, and I. L. Analla, of Lincoln, Lincoln county, notaries public.

REPORT WAS DECIDED BY ONE VOTE

Senator Bard of California Was the One Who Determined That the Majority of the Senate Committee on Territories Should Be Against New Mexico and Arizona. Both Sides Are Now Actively at Work Canvassing Their Strength.

OPPOSITION IS FROM NEW ENGLAND AND THE EAST

The report of the senate committee on territories to amend the omnibus statehood bill as it passed the house, was determined by one vote. The deciding vote in favor of the majority report was cast by Senator Bard of California, says a special from Washington to the St. Louis Globe Democrat. Senator Beveridge, who had pledged himself to some of the old senate leaders, to reject New Mexico and Arizona, was not sure of the result in the committee until the final vote was taken and Bard declared himself. Those who voted for the majority report are now exerting themselves to line up supporters for their report and to prevent reconsideration.

The special says the opposition to statehood for New Mexico and Arizona comes largely from New England and the eastern states. The leaders for statehood have a strong adherent to their cause in Senator Quay and he is re-enforced by Senator Elkins of West Virginia, and Senator Platt of New York. With the exception of these three senators, the friends of the statehood proposition hail entirely from the west.

Senator Aldrich of Rhode Island, Senator Hale of Maine, Senator Platt of Connecticut, and the other leaders on the Republican side, are doubtful of the outcome. One of the senators who has been conferring with them and planning for the defeat of the bill, admitted he feared the majority report of the committee would be rejected. He said:

"Of course, I am opposed to the three territories becoming states. I do not believe that either New Mexico or Arizona is ready for statehood. Just now it looks as though we would have trouble in getting a majority to oppose the determination of the western senators to put the bill through. We have made a careful investigation and are prepared to muster an array of facts to establish that the two territories should not be brought into the union of states. Our hope is that we will be able to convince a number of the senators of the correctness of our position, senators who are not now with us. We hope, too, that in the canvass which the advocates of statehood for all three territories have made, that they have taken for granted expressions that have not been antagonistic to statehood indicate votes for them, and this will not prove to be the case when the test comes."

Senator Quay in conducting the canvass for the bill, has been fighting in the open. He does not hesitate to show the canvass he has made of the senate when the correctness of his figures is questioned. His canvass indicates the solid Democratic strength and 12 Republicans.

Delegate Flynn of Oklahoma, is placed in a most embarrassing position by the report, and the division on the Republican side of the chamber. In his fight he has always looked to Republican support. He has, however, all the time worked side by side with the advocates of statehood for all the territories. The proposal to admit Indian Territory as a part of his new state, further embarrasses him as a large element of the people of Oklahoma is opposed to combining the two territories. It is openly asserted in Washington that such action would result in the sending of a solid Democratic delegation to congress.

Arizona has not been idle since the report was submitted and has appointed a committee consisting of N. O. Murphy, former governor, Governor Brodie, former Governor McCord and Surveyor General H. H. Price to go to Washington and work for statehood.

F. H. Newell, a hydrographer of the geological survey, presented to the senate committee colored maps showing the land in New Mexico and Arizona that is capable of being made productive by irrigation.

FRIDAY, DECEMBER 5.

New Mexico Demands Statehood of the 57th Congress.

Of Right and in Justice New Mexico Should Be a State.

Extra from the Congressional Record of June 25th, 1902, page 7,842.

President pro tem, of senate:
The chair has been requested to restate the proposition, and will do so.

The senator from Indiana, the chairman of the committee on territories, has stated in open senate today, that the committee will report on the territorial bill, so-called, on the third day of the next session of congress. Thereupon the senator from Pennsylvania asks unanimous consent, that on the tenth day if the senate is in session and on the first day thereafter if it may be in session if not on the tenth, the bill shall be made the unfinished business.

Is there objection? The chair hears none, and the order is made.

The beef trust says that it has put down the price of beef. This may be the case, but if this has been done, the consumers have not yet found it out.

There will be no tinkering with the tariff at the present session. This was expected. For the next two months congress has all it can look after without taking up the tariff question.

Publicity of the affairs and manipulations of trusts and great aggregations of capital, would, no doubt to a great extent, prove as a regulator of such concerns in the right direction.

There can be no doubt but that the forbidding of rebates by the railroads to trusts and great manufacturing concerns, by law, would be beneficial and act for the better control of the trusts.

The dairymen at Albuquerque threatened to strike and at once the citizen offered to contribute money toward the sinking of an artesian well. Is there any connection between the two propositions?

One by one the roses fall, one by one do candidates for the speakership for the house of representatives of the 57th congress, withdraw, thus leaving Representative Joseph G. Cannon of Illinois a clear field.

Some of New Mexico's yellow sheets are now declaring that the Democrats would not have been beaten so badly at the last election in this territory, had some other man besides Ferguson been their candidate. This is not. Why cry over spilt milk?

Former President Cleveland is of the opinion that the national Democracy has a fighting chance for success in the next congressional campaign. He may be right, but his countrymen, by a great majority, do not agree with him, at least so show the recent election returns.

It will be a beautiful fight in the United States senate on the passage of the omnibus statehood bill. It may be a long fight, but this paper believes that the rights of the people of the territories of New Mexico, Oklahoma and Arizona will prevail and that the omnibus statehood bill will become law at this session of congress.

Postage stamps bound in books evidently filled a "long felt want." The recent report of the postmaster general showed that during the year 7,093,274 books were issued, or 51 per cent more than were used during the previous year. The profit to the government over the cost of manufacturing the books was \$43,402.

It is difficult to realize how large Uncle Sam has grown and how government service must now practically cover the earth. One of the mail routes regularly operated by the post department is from Yukon to Alaska, a distance of 250 miles all of it north of the Arctic circle. One round trip a month is made.

A few of the yellow sheets of the territory are worrying themselves greatly over the question of who shall be speaker of the house of representatives of the 57th legislative assembly. Why this worry? It will be a Republican and he will be selected by the Republican caucus and elected by the Republican members of the assembly. There are several candidates, it is true, but there is no bitter strife, no venomous fighting and no vicious sentiment by Republicans against Republicans in the matter. Whoever the speaker may be, when elected, he will be acceptable to the party as a whole.

The matter of holding a statehood convention for the purpose of protesting against the bill creating a state out of Oklahoma and Indian Territory and demanding enactment of the omnibus statehood bill, now pending in the United States senate, is being agitated in Oklahoma. This is a good idea and it ought to be carried out not only in Oklahoma, but also in New Mexico and Arizona.

The Sherman anti-trust law will in all likelihood be amended at the present session of congress so as to make it more effective and stronger. A bill to this effect has already been introduced by Senator Calum of Illinois, and it is believed it will be favorably reported by the senate judiciary committee. The Republican members of the senate and house of representatives will not be afraid to treat the trusts as they should be treated and that as soon as possible.

The visit of Dr. Lorenz of Vienna, to this country, has had many good effects. Not only has he successfully treated hundreds of cases of hip disease among children, but through his clinics the attention of the public has been called to the crowded condition of children's wards in nearly all hospitals. This has long been well known to physicians, but outside of the circle of those who have business in hospitals, it was little appreciated. Now there is a general movement to establish children's hospitals, and men of means have become interested and are providing funds. Many of these projected institutions are called "Lorenz Hospitals for Children," an appreciative acknowledgment of the great work done by the noted surgeon.

The disposition of the ships of the United States navy, is a good indication of the state of affairs in the world. When China was the storm center and the war in the Philippines was engaging attention, the heaviest vessels were in the Asiatic fleet. With the adjustment of the trouble in China and the coming of peace in the Philippines, the fleet was reduced and again the North Atlantic squadron became the strongest. Today, Admiral Dewey has under his command in the maneuvers, five battleships, five cruisers and four gun boats. The Asiatic squadron has but one battleship, although a second is now on the way there. Thus the strong arm of the service swung from the Atlantic, as the outbreak of the war with Spain, to the Pacific, and now it has again come back to the Atlantic and as a defensive squadron.

MODERN SCHOOL BUILDING ABSOLUTELY NECESSARY.

Santa Fe's greatest need is a modern school building or two. For years, this city has lost annually desirable population because other cities offered better school facilities. Today the most popular part of Santa Fe's school system, the kindergarten, is almost without pupils because parents recognize that ill ventilated, badly heated and unsanitary school rooms are the primary cause of the spread of contagious disease among children. It might be added too that the school rooms are also poorly lighted, to the detriment of the eyesight of the pupils. But it seems that the welfare of 1,400 children growing into manhood and womanhood in this city is as nothing to the members of the board of education, for despite the demands plainly made to them they put off action by rapid excuses about politics or about waiting for the day when the Fort Marcy reservation may be sold. In the meanwhile, the little ones are suffering, and the city loses more every year through the lack of good school buildings than two such buildings would cost. This is not the time to mince words when the welfare of the city is at stake and it might as well be said now as later that the fact that Santa Fe, the capital, has no modern school buildings, impressed the statehood committee that was here, very unfavorably and when statehood comes will be used as an argument to remove the capitol to some more progressive town.

Santa Fe is rich enough to own as good school buildings as Albuquerque or Las Vegas, for the Santa Fe city school district has no indebtedness. The interest on the cost of new buildings can be paid for by economy in fuel, janitors' services and the tuition that could be charged for outside pupils, and the proper collection of the poll tax. To build new school houses would not necessarily add a mill to the tax rate, but it would benefit the town in reputation, in wealth and most important, in health. It is up to the board of education now to take immediate steps to lay the matter of a bond issue before the people at the spring election. If by that time the visionary scheme of securing the Fort Marcy reservation for school purposes should really become a fact, nothing would be lost, but very much will be lost if the board of education puts off action much longer.

A PAYING PROPOSITION.

Neither cholera nor locusts nor the rinderpest, which swept off nine-tenths of the common beasts of burden, the carabao, have been able to prevent a great growth in the trade of the Philippines in the third year of American government.

Figures prepared by the treasury bureau of statistics show that the archipelago imported during the fiscal year of 1902 merchandise valued at \$2,141,000, an increase of nearly \$2,000,000 over 1901 and the greatest amount in the history of the islands. At the same time the Philippines exported goods to the value of \$2,327,000, the largest amount in any year save 1870 and 1889. In 1895, the Philippine imports were only \$7,915,000. Of Philippine exports during the fiscal year just closed, almost \$16,000,000 have gone to the United States and the United Kingdom, about one-half to each. But if the hemp sent to England on its way to America is reckoned in, as it ought to be, the United States far surpasses the United Kingdom and stands as the chief market for Philippine products. As to the Philippine imports, the United States, which held an insignificant place before the Spanish war,

sending to the Philippines only about \$1,300,000 annually of goods, has now reached second rank. In the fiscal year 1902, the United States sent to the islands goods worth \$4,035,000, as compared with \$2,855,000 in 1901, and \$1,657,000 in 1900, or an increase in 1902 over 1900 of 143 per cent. Thirteen per cent of the goods which the Philippines consume now come from this country, 17 per cent from Great Britain, and only 7 per cent from Spain. But there is this additional significant circumstance, that while the exports of the United States to the Philippines increase, British exports are declining. The United Kingdom lost one-fifth of its Philippine market in 1902, the falling off in British cotton goods alone being about \$1,500,000.

Thus the American commercial conquest of the Philippines is steadily proceeding. Trade follows the flag to that distant archipelago. There are no tariff discriminations against Europe in American favor, and this makes the growth of American commerce all the more remarkable. Eventually, as matters now go, the United States will almost monopolize the Philippine market. But, after all, it is not for commerce merely that Uncle Sam is in the archipelago. He did not go there looking for dollars. He simply seeks to do his duty toward civilization and humanity, and it is by this and not by ledger accounts of profits and loss that the "Philippine adventure" shall be judged.

The Office Supply Company is headquarters for all kinds of typewriter supplies of the very best make and at the very lowest prices. Typewriting paper, carbon paper and ribbons handled by this company will be found the best in the market. Stenographers' supplies the best manufactured and cheapest in New Mexico also handled. Write for price list.

1903 Calendars.
The New Mexican Printing Company will have the largest line of calendars to offer the trade this year ever shown in the territory, and it will be worth the while of those desirous of procuring calendars for the coming year to wait for the representative of this company to call on them with samples. The prices are remarkably cheap.

Now is the time to order your loose leaf ledgers. New Mexican Santa Fe

A MILLION VOICES.

Could hardly express the thanks of Homer Hall, of West Point, Ia. Listen why: A severe cold had settled on his lungs, causing a most obstinate cough. Several physicians said he had consumption, but could not help him. When all thought he was doomed he began to use DR. KING'S NEW DISCOVERY FOR CONSUMPTION and writes: "It completely cured me and saved my life. I now weigh 227 lbs." It's positively guaranteed for coughs, colds and lung troubles. Price 50c and \$1. Trial bottles free at

SAVED AT GRAVE'S BRINK.

"I know I would long ago have been in my grave," writes Mrs. S. H. Newson, of Decatur, Ala. "If it had not been for ELECTRIC BITTERS. For three years I suffered untold agony from the worst forms of indigestion, waterbrash, stomach and bowel dyspepsia. But this excellent medicine did me a world of good. Since using it I can eat heartily and have gained 35 pounds." For indigestion, loss of appetite, stomach, liver and kidney troubles. Electric Bitters are a positive cure. Only 50c at

THE PRIDE OF HEROES.

Many soldiers in the last war wrote to say that for scratches, bruises, cuts, wounds, corns, sore feet and stiff joints Bucklen's Arnica Salve is the best in the world. Same for burns, scalds, boils, ulcers, skin eruptions and piles. It cures or no pay. Only 25c at

A COLD WAVE.

The forecast of sudden changes in the weather serves notice that a hoarse voice and a heavy cough may invade the sanctity of health in your own home. Cautions people have a bottle of ONE MINUTE COUGH CURE all ways at hand. E. H. Wise, Madison, Ga., writes: "I am indebted to ONE MINUTE COUGH CURE for my present good health, and probably my life." It cures coughs, colds, influenza, bronchitis, pneumonia and all throat and lung troubles. ONE MINUTE COUGH CURE cuts the phlegm, draws out the inflammation, heals and soothes the mucous membranes and strengthens the lungs.

WHAT'S IN A NAME?

Everything is in the name when it comes to WITCH HAZEL SALVE. E. G. DeWitt & Co. of Chicago, discovered, some years ago, how to make a salve from Witch Hazel that is a specific for piles. For blind, bleeding, itching and protruding piles, eczema, cuts, burns, bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWITT'S the genuine.

COUGHING SPELL CAUSED DEATH "Harry Duckwell, aged 25 years, choked to death early yesterday morning at his home, in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing which continued for some time. His wife sent for a physician but before he could arrive, another coughing spell came on and DeWitt's Salve was used. He died at St. Louis Globe-Democrat, Dec. 1, 1901." Ballard's Horehound Syrup would have saved him. 25c, 50c and \$1 at Fischer Drug Co.

FAVORITE FAMILY REMEDY Frequently accidents occur in the household which cause burns, cuts, sprains and bruises; for use in such cases Ballard's Snow Liniment has for many years been the constant favorite family remedy. 25c, 50c and \$1 at Fischer Drug Co.

BODY OF GOVERNOR ARMY.

Will Be Buried in the Potters Field Unless Some Suitable Arrangement is Made.

The removal of bodies from the Old Fellows' and Masonic cemetery was commenced yesterday, and is being carried forward as rapidly as possible. The remains of W. M. F. Army are buried there, but will not be moved until the territory has been given an opportunity to take action or some arrangement is made for their suitable care. W. M. F. Army was secretary of the territory from 1882 to 1887 and again during 1872 and 1873. During the civil war he was for 15 months acting governor. His remains are buried in a metallic casket and unless some proper provision is made for their re-interment, there will be no place to put them except in the potters' field at Fairview cemetery. Those in charge of the work do not wish to place the remains of an ex-governor of the territory in the potters' field, and will give until January 1 for some arrangement to be made. It has been informally suggested that permission be secured to bury the body in the National cemetery as he was a war time governor. Another suggestion, made is, that the territory purchase a lot in Fairview cemetery and the body be re-interred there. Until the end of the month, no action will be taken for the removal by those doing the work, in order that some of the officials or some organization may take the matter up and make a proper arrangement for reburial.

MINOR CITY TOPICS

Best in the market at the Bon-Ton. Exchange: E. Meyer, Albuquerque. Exchange: E. A. Seger, Delaware, O.; F. A. Milligan, Attica, Ind. Thomas Blea was placed in the county jail last night for being disorderly. Santa Fe Lodge No. 2, I. O. O. F., will hold a regular meeting this evening. The new 60-foot smoke stack at the Water street power house was placed in position today. Manuel Baca of Pina Blanca, was a visitor in the capital today on business and visiting relatives. Bon-Ton: W. H. Beebe, Chicago; H. S. Davenport, B. Z. Van Ornum, Boston; T. Ortiz, Pajonque. David Miller, janitor of the capitol, is superintending the erection of a large flag pole in front of the postoffice. The ladies of the Guild of the Church of the Holy Faith are holding a sale in the corner room of the Catron block this afternoon and evening. Palace: R. E. Twitchell, Las Vegas; L. D. Ford, El Paso; J. Reed Elliott, St. Louis; B. W. McCandless, Atchison; L. Chimes, El Paso; J. C. Berger, Denver. All members of the Junior Auxiliary of the Church of the Holy Faith (Episcopal) are requested to meet at Mrs. W. H. Bartlett's tomorrow afternoon at 2:30 o'clock. Trains No. 1 and 7 from the east and No. 8 from the west, arrived this morning at 6 o'clock, the first over 12 hours late, the second 10 hours late, and the third 8 hours late. Romula Urban, Aniceto Urban and Estanislado Barela, who are held in the county jail for the stabbing of Thomas Montoya at Cerrillos, will be taken to that place tomorrow at 10 o'clock, for a hearing before Justice of the Peace Tony Neils. The prediction is for fair weather tonight and Saturday with stationary temperature. The maximum temperature yesterday was at 8:40 p. m. when 40 degrees was registered, and the minimum was 15 at 3 a. m. The temperature at 6 o'clock this morning was 31. At the meeting of Santa Fe Typographical Union, No. 405, held on Wednesday, the following officers were elected to serve for the ensuing year: President, Camilo Padilla; vice president, H. W. Stevens; treasurer, Canuto Alarid; secretary, Benigno Muniz; sergeant at arms, John Howland; executive committee, M. Vigil, J. J. Ortiz and R. A. Watkins. Attention is called to the report of Territorial Auditor W. G. Sargent on the third page. It is very complete and comprehensive and shows both the excellent financial status of the territory and also the exactness and strict supervision exercised by the territorial auditor over the territorial funds. The report is a model in every respect. The same must be said of the report of Territorial Treasurer J. H. Vaughn which appears on the same page. By the publication of these reports the people are fully informed as to the standing receipts and the expenditures of the territory. It is believed by many parents that the lack of modern sanitary, ventilating and heating apparatus in the Santa Fe public schools, is the cause of considerable illness among the children of the city and many parents are keeping their children out of school on that account while those who can see their way clear are speaking of moving to places which have modern public school facilities. When will Santa Fe recognize that Santa Fe's greatest need at present is not so much railroads, factories and other improvements as desirable as these are, as modern school buildings?

PERSONAL MENTION

Rev. R. M. Craig, of Albuquerque, is in the capital. Miss Laura Davis is quite sick at her home with an attack of the grip. Judge Daniel H. McMillan of Socorro, is in the city today on official business. Eduardo M. Otero went to Lamy this morning to deliver 450 lambs to a purchaser. Major Ernest Meyers of Albuquerque, was a business visitor here yesterday. Major W. H. H. Llewellyn left this afternoon for Albuquerque with Governor Otero and party. W. S. Hopewell, general manager of the Santa Fe Central railway, returned this noon from a trip along the line. Carl J. Probst, clerk in J. H. Gerdes' establishment, is laid up with an attack of neuralgia. Mrs. M. L. Monroe who has been in the city for several weeks, left this morning for Antonio, Colo. J. C. Berger, a capitalist of Denver, and a friend of H. J. O'Brien of Denver, is here today on business. Major W. H. H. Llewellyn of Las Cruces, district attorney and member-elect of the next legislative house, is a visitor in the city. Colonel R. E. Twitchell, assistant solicitor of the Santa Fe railway, spent yesterday in the city on business connected with the railroad. Mrs. Caroline Robertson of Albuquerque, has arrived here to assume her duties as literary teacher at the Government Indian school. Lewis G. Ortiz of Cuba, half brother of Benjamin M. Read, Esq., will locate in Santa Fe permanently. He has taken up his residence with Mr. Read for the present. Leon T. Wilson of Putnam, Conn., who has been in the city for the past week with a view of locating, left this evening for Albuquerque to take a look at the Duke City. This afternoon Governor Otero accompanied by his brother-in-law, H. J. O'Brien of Denver, and J. C. Berger, a Denver capitalist, left for Albuquerque on private business. Owen A. Wood, who had been a supply teacher at the United States Indian school, has left for Albuquerque, as the regular teacher whose place he had supplied, has arrived. Assistant General Manager Harry Alexander of the Santa Fe Central Railway Company, returned on the noon train from El Paso and Torrance, where he had been on business for the company. Attorney H. J. O'Brien and son of Denver, came in on the Denver and Rio Grande train last evening. Mr. O'Brien is a brother-in-law to Governor Otero, and was attending to legal business today. I. B. Hanna, superintendent of forest reserves, who had intended to leave the city last evening for Captain, Lincoln county, remained over until today on account of all trains being late and fearing a long delay at Lamy. Captain Charles F. Gardner has not left Santa Fe, as might be inferred from a reference to him in last evening's paper, but he and his wife are keeping house in rooms at the residence of A. P. Hogle on the south side, and will remain here until April. Captain Gardner will be pleased to meet the live horticulturists of this county. He is making a careful study of this portion of the territory and any assistance rendered him in the line of securing correct information will be thankfully received. A little over a year ago he came to New Mexico a very sick man and death seemed near and certain, but the healing qualities of the air have prevented further trouble and he has almost fully recovered.

BRILLIANT BANQUET.

El Paso Celebrated the Advent of the New Southwestern Railroad.

One of the most brilliant banquets ever served in El Paso was on Wednesday evening to President James W. Douglas and his associate officials of the El Paso and Southwestern railroad, celebrating the completion of that line. It was under the auspices of the chamber of commerce and the toasts were highly eulogistic of El Paso and the officers of the road. El Paso was constantly referred to as the Chicago of the southwest.

HAVE REACHED EL PASO.

Roswell Prisoners Enroute to the Penitentiary, Have at Last been Located.

Sheriff Higgins of Roswell, is reported as having arrived at El Paso on Wednesday evening with a batch of prisoners, en route to Santa Fe. The Roswell papers reported these prisoners having left there some ten days or two weeks ago. They must evidently have taken a vacation on the road as none have as yet reached here.

District Court.

Suit was brought in the district court of the first judicial district, Santa Fe county, by A. Staab of Santa Fe, against Jose Salazar of Rio Arriba county for judgment on a promissory note for the sum of \$350 with interest at 12 per cent. from February 18, 1902. Suit was also brought by A. Staab against Narciso Sanchez and Horacio Martinez, trading as Sanchez and Martinez in Rio Arriba county for judgment on a promissory note for \$500 together with interest thereon at the rate of 12 per cent from February 18, 1902.

U. S. Weather Bureau Notes.
