A GUIDE TO THE LITERATURE OF THE SOUTHWEST

Lyle Saunders

12

THIS BIBLIOGRAPHY, a service of the Inter-American section of the University of New Mexico's Research Bureau in the Social Sciences, attempts to list, with as much thoroughness as time and resources permit, current materials dealing with the Southwest. The Southwest, as we define it in gathering items for inclusion here, consists of all New Mexico and Arizona and parts of Oklahoma, Texas, Colorado, Utah, Nevada, and California.

An asterisk before any book title indicates a review in this issue of the QUARTERLY REVIEW; a dagger marks those titles contemplated for review in a future issue. The symbol (F) designates fiction; (J) is used to indicate material on the juvenile level.

Included here are those items which were published or came to our attention between January 1 and March 31, 1945.

Most of the work of compiling this issue was done by Miss Gertrude Armijo and Miss Margaret Wyss.
