FATE OF CHINA!

Foreigners at Shanghai Oppose Leniency.

Chinese Outrages Demand Stern Measures.

Minister Conger Says There Is No Change in Pekin Situation.

POPULATION OF TWO CITIES.

(Copyrighted Associated Press.)
Shanghai, Sept. 4.—A dispatch announcing that the American government refuses to agree to the withdrawal of troops from Pekin before it is satisfied that satisfaction for the outrages upon and the losses to its subjects is given, are applauded by the entire foreign colony in Shanghai. Any other policy, according to the business men and missionaries, would be a vital blow to the prestige of foreigners. Local English papers severely denounce the proposal of the evacuation of Pekin, and say the Chinese would interpret the evacuation as a defeat. The masses of the Chinese now believe that the Chinese army are victorious.

The European community continues to demand the destruction of Pekin and the extradition of the officials, demanding indemnity and paper promises of new treaties inadequate. Unquestionably information in detail of the massacres of foreigners daily received influences his sentiment.

The Associated Press representative learns from official sources the fact of the killing of several American women missionaries who were led about the country naked, repeatedly outraged and finally killed by a method too revolting to be described. Such incidents make a lenient policy unpopular in Shanghai, where all the victims had friends.

Placards appeared to-day in all public places exhorting foreigners to oppose a compromise with the government attacking Li Hung Chang, quoting the remark to Consul General Goodnow credited to Earl Li that "foreigners in Pekin except ministers were of no account."

According to a special dispatch from St. Petersburg, dealing with the question of Manchuria, Russian officials regulate any intention to permanently occupy or annex Manchuria. The dispatch adds that Russia will claim no territorial concessions provided other powers refrain from doing so, and expresses the hope that the question of indemnity can be settled by co-operation of the allied powers.

No Change in Situation.
Washington, Sept. 4.—Minister Conger has been heard from again, his last advice being dated Pekin, August 30. The state department has decided to make no statement of the contents of the message beyond the simple announcement that it did not mark any material change in the situation at Pekin.

Saratoga, N. Y., Sept. 4.—The republican convention to nominate a full state ticket was called to order soon after noon by State Chairman Odell, who is to be nominated for governor. Lieutenant Governor Woodruff, who is to be renominated, was chosen temporary chairman by acclamation.

Woodruff assigned the officials of New York city for their alleged connection with the ice trust. References to McKinley and Roosevelt were greeted with loud applause. A recess was then voted until 4 p. m.

IMPROVEMENTS

Local Railway Shops to Be Enlarged.

Drawing Completed and New Machinery Ordered.

Electrical Engineer Killed Yesterday at Madrid Camp.

HE CAME FROM NEW YORK.

For the past few days rumors have been in circulation that the already big local railway shops would soon be enlarged and to-day The Citizen representatives, while in south Albuquerque in quest of good news, ran across a gentleman who knew something about these contemplated improvements and additions, and from him The Citizen is in a position to substantiate the correctness of the reports. The gentleman said:

"As there is about 2,500 miles of railroad depending on the Albuquerque shops for repairs of locomotives and cars, it has become necessary to increase the shops' facilities. Drawings are now completed for a 124 foot extension on the present machine shops, which will make the building when completed, 380 feet in length. The erecting shop to accommodate at one time fifteen engines for an overhauling, will also be enlarged. A large number of modern, up-to-date machinery has been ordered for this new shop, while the present boiler shop will be rearranged. The present boiler shop will be moved from its present location to a more convenient location and it is to be extended twenty-five feet. Modern machinery will also be ordered for this department. The transfer table pit will be extended the whole length of the 280 foot shop. The machine shop building will be a substantial stone structure. These improvements and necessary additions," continued our informant, "will necessarily require an increase in the present force of workmen approximating between 150 and 200 men."

ENGINEER ELECTROCUTED.

Fatal Accident to Electrical Engineer at Madrid.

Special Correspondence.
Corralitos, N. M., Sept. 4.—Frank Litzendorf, an electrical engineer, was electrocuted last evening at Madrid, N. M., eight miles from here, whether he had been sent by the General Electric Co. of Schenectady, N. Y., to do some important work on the power plant of the Cochiti Gold Mining company, of which which company operates an electric line from Madrid to Bland. Litzendorf was inspecting the machinery of the plant just before leaving for the night, and slipped in some manner, and in falling his hand struck the generator, making a circuit which shot 3,000 volts through his body, causing instant death.

KILLED BY TRAIN.

Mangled Body of Unknown Man Found on the Track.

Special to The Citizen.
Upham, N. M., Sept. 4.—About 7 this morning the body of a man was found by the section foreman three miles west of here. The man was shabbily dressed and when the body was discovered it was lying between the rails of the main line, and was horribly mangled, the face being mutilated beyond recognition. Freight train No. 32 passed Upham shortly before the ghastly find was made, and it is supposed the unfortunate man had been beating his way on that train and in some manner fell under the wheels. A letter found on his person leads to the belief that the man's name was Sandoval. He was apparently 30 years old.

The county authorities refused to have anything to do with the case and the section men buried the body in a dry goods box close to the track.

DISPATCH FROM CHAFFEE.

He Details the Needs of American Troops in China.

Washington, Sept. 4.—The following dispatch was received to-day by the war department from Gen. Chaffee: "Taku, (no date)—A written report of operations to relieve legations will be forwarded as soon as possible. The present conditions are that hostilities have practically ceased only occasional shots fired from cover on small party repairing telegraph line and foraging. No considerable body of Chinese troops (Boxers) discovered here or along the line of communication.

"We fear that Li Hung Chang has full power, but he is not here. Will the United States keep military forces here until terms of peace are arranged? Now in China about 5,000 effective. Sixth cavalry, light battery F, Fifth ar-

ALBUQUERQUE, — SEP. 4, 1900

National Republican Ticket

For President—
WILLIAM MCKINLEY,
OF OHIO.
For Vice President—
THEODORE ROOSEVELT,
OF NEW YORK.

At the coming school session in Cuba,
the attendance is expected to reach 250,
600.

The mine owners of New Mexico
should send one exhibit to the Territorial
Fair.

The fruit growers of the territory
should have a first-class exhibit at the
Territorial Fair.

The people of Albuquerque have never
fallen down an any proposition that
was for the benefit of the city.

Continued prosperity will be the
paramount issue for four years if Bryan
is given a decisive defeat in November.

The territorial republican convention
to nominate a candidate for delegate
to congress will be held in the new
capitol at Santa Fe, Oct. 3.

San Juan county will hold a successful
fair at Farmington next week.
The exhibition will last four days, and the
fruit exhibits will be immense.

Indianapolis is the greatest sunbelt
manufacturing city in the world, and
the industry grew out of a model con-
tributed by one of its feminine residents.

American manufacturers are going
abroad this year at the rate of \$3,000,
000 a month, an increase of over 200 per
cent since 1890. Prosperity could take
no more lasting form.

America's three leading centers of
population—New York, Chicago and
Philadelphia—have altogether 6,429,474
inhabitants, or nearly 9 per cent of the
whole population of the United States.

There are twenty miles of cars hand-
led with what in the yards of the Santa
Fe railroad at Kansas City. This is an
object lesson of prosperity that ought
to convince even a chronic calamity
howler.

The territorial horticultural fair will
be held at Santa Fe September 26th,
27th and 28th. Reports from different
sections of the territory show that a
very large and varied line of exhibits
will be in evidence.

During August 12,700,000 coins of the
face value of \$1,234,160 were the pro-
duct of the mint in Philadelphia. Of this
amount there were \$1,000,000 in silver
of a value of \$1,130,000 and \$234,000
in the base metals, valued at \$139,160.

ALL SHOULD HELP.
The success of the twentieth annual
Territorial Fair is already assured, but
it can be made doubly attractive to all
officials are cheerfully assisted by
everybody in this city. There are many
things that should be done in the next
two weeks. Booths should be erected,
the business houses should be decorated.
All subscriptions should be paid in.
All the details of the exhibition and
street carnival should be looked after
closely, and completed before the fair
opens. Every student should be re-
cruited. The schools should take part
in it, and all the races of the territory
be well represented. The bicycles
should be tastefully represented in the
parade. There will be people at the fair
this year who never saw a bicycle, never
heard a brass band, never saw hun-
dreds of the many things that go to
make up a successful fair, and every-
thing should be done to please, interest
and entertain them. On the other hand
there will be many eastern people pre-
sent who never saw an Indian war dance
and have no idea of the Indian tradi-
tions. This part of the exhibition should
be made complete and attractive. All
these things can be done in the next
two weeks and it is business on the part
of the people of this city to leave no-
thing undone that will entertain visitors
and make the fair creditable.

PROFITS OF FUGITIVE.
A New York station has acquired
some interesting figures illustrating the
cost of prize fighting in Greater New
York since the enactment of the Horner
law in 1896. This statute authorized
the police department of the big
municipality to conduct prize fights, and
under its tutelage a large number of
these affairs have been "put off" by
the big fighters in the pummeling busi-
ness.

The statistician in question declares
that prize fighting in Greater New York
during the past four years has been the
most expensive luxury ever indulged
in by the people. More than \$2,000,000
has been paid for tickets by the men
who have visited these prize fights, the
return in enjoyment on which has not
been more than 10 per cent. If the same
amount of money, he adds, had been
disbursed in getting up yacht races,
rowing races, parades or any other
form of amusement popular with the
people twice as much fun would have
been realized.

Several of the prize fights have result-
ed so unsatisfactorily as to nearly
cause riots, and others have been plain
fakes, prepared for the purpose of rob-
bing the public.

The total attendance at all the fights
is computed at 1,700,000. Of the more
than two and a half million dollars ex-
pended the pugilists have received \$600,
000 and the promoters \$1,050,000. The
number of fights is given at 250. The
profits of some of the fights are as-
tonishing. Jeffries is slated to have

THE BIG FAIR!

Chihuahua Band Will
Surely Be Here.

Socorro Man Secures Grand
Stand Privilege.

Butte, Mont., Man Purchased Bid
for Ring and Knife Board.

BATCH OF INTERESTING NOTES.

Several members of the executive
committee of the New Mexico Territorial
Fair association, having read the
call for a meeting published in the city
daily papers and realizing that the fair
is near at hand and that much work
must yet be accomplished, met at the
city building last night and transacted
considerable important business.

A. F. Katzenstein, of Socorro, made a
bid of \$10 for the privilege to sell ice-
cream, confectionery and cigars at the
grand stand. His bid was accepted on
motion of Mr. Hensel.

M. Kelly, of Butte, Montana, made a
bid of \$10 for the ring and knife board
on the midway, which was accepted.

R. M. Stockton, of Belen, who was
here yesterday, made a verbal bid for
the privilege of serving lunches and
fruit on the midway, but, failing to
comply with the requirements of the
executive committee as to bids, no ac-
tion was taken on Mr. Stockton's propo-
sition.

Mr. Kelly petitioned for a concession
on the part of the city to exhibit moving
pictures and to give photographic exhi-
bitions. Accepted.

The "Queen of the Carnival" contest,
which was ended last Saturday night in
the election of Miss Anna Palladino as
queen, was discussed and the election
retained by the committee. As several
of the leading candidates have or are
about to leave for city, the committee
requested the president to officially re-
cognize Miss Palladino as queen and also
to confer with her as to her maids
of honor and to a float.

The president of the association read
letters and telegrams from Hon. Felix
Martinez, of El Paso, regarding the
coming of the great Chihuahua military
band, and orchestra to the Territorial
Fair, which assured the committee that
with the expenditure of a few hundred
dollars, the greatest band of the Repub-
lic of Mexico can be secured. Governor
Ahumada endorsing the proposition of
his band visiting Albuquerque and en-
gaging in part in the fair festivities. The
president was instructed to promptly ac-
cept the proposition, and to officially thank
Hon. Felix Martinez, of El Paso, and
Hon. Ahumada, of Chihuahua, for the
manifest interest in the fair, and in
giving the fair visitors the use of one
of the finest military bands in the
world. The celebrated band will play
at the opening and closing of the fair,
and during the afternoon and evening
concerts. The orchestra of twelve pieces
will render music for the great
carnival ball.

The president reported that the side-
walks had been ordered from Pueblo,
Colorado, and were expected to arrive in
a few days. He also informed the com-
mittee that he had purchased a 40-foot
round top Murray make car, which will
be used during fair week by one of the
concession holders.

The committee was informed that the
fire works, with the firing apparatus,
had arrived from Los Angeles.

The meeting then adjourned to meet
again Thursday night of this week,
when it is hoped that all the members
of the committee will find time to meet
and confer on matters of great interest
to the fair.

FAIR NOTES.

The official program will probably be
ready for publication to-morrow.

The fire department will take part in
the parade during the fair, and will
make a good showing under the new
improvements.

tieth annual fair of the New Mexico
Territorial Fair association will be in
full blast. Pay up your subscription.

It is now an assured fact that the ce-
lebrated Chihuahua band will be here
for the fair. Governor Ahumada, of
Chihuahua, was in El Paso day before
yesterday, and told Hon. Felix Martinez
that he favored the idea of the president
of the Fair association to bring to
Albuquerque the military band of the
state of Chihuahua. Mr. Martinez tel-
lied the fact, and to-night a letter
engaging the famous musicians will be
mailed to Governor Ahumada. It is

Socorro Man Secures Grand

Butte, Mont., Man Purchased Bid
for Ring and Knife Board.

BATCH OF INTERESTING NOTES.

Several members of the executive
committee of the New Mexico Territorial
Fair association, having read the
call for a meeting published in the city
daily papers and realizing that the fair
is near at hand and that much work
must yet be accomplished, met at the
city building last night and transacted
considerable important business.

A. F. Katzenstein, of Socorro, made a
bid of \$10 for the privilege to sell ice-
cream, confectionery and cigars at the
grand stand. His bid was accepted on
motion of Mr. Hensel.

M. Kelly, of Butte, Montana, made a
bid of \$10 for the ring and knife board
on the midway, which was accepted.

R. M. Stockton, of Belen, who was
here yesterday, made a verbal bid for
the privilege of serving lunches and
fruit on the midway, but, failing to
comply with the requirements of the
executive committee as to bids, no ac-
tion was taken on Mr. Stockton's propo-
sition.

Mr. Kelly petitioned for a concession
on the part of the city to exhibit moving
pictures and to give photographic exhi-
bitions. Accepted.

The "Queen of the Carnival" contest,
which was ended last Saturday night in
the election of Miss Anna Palladino as
queen, was discussed and the election
retained by the committee. As several
of the leading candidates have or are
about to leave for city, the committee
requested the president to officially re-
cognize Miss Palladino as queen and also
to confer with her as to her maids
of honor and to a float.

The president of the association read
letters and telegrams from Hon. Felix
Martinez, of El Paso, regarding the
coming of the great Chihuahua military
band, and orchestra to the Territorial
Fair, which assured the committee that
with the expenditure of a few hundred
dollars, the greatest band of the Repub-
lic of Mexico can be secured. Governor
Ahumada endorsing the proposition of
his band visiting Albuquerque and en-
gaging in part in the fair festivities. The
president was instructed to promptly ac-
cept the proposition, and to officially thank

PUEBLO AND APACHE.

Some Figures From the Report of Indian Agent Walpole.

THE PUEBLOS ARE PROSPEROUS.

The annual report of Hon. N. S. Walpole, in charge of the Pueblo and Apache Indian agencies in this territory, has been made public by the commissioner of Indian Affairs.

It is shown that the total population of the Pueblo agency is 7,883, 244 deaths having occurred during the year. It is gratifying to note that 18,275 acres of the agency were under cultivation during the past year, producing 69,184 bushels of wheat, 97,613 bushels of corn, 145,368 melons and 1,232 tons of hay.

The Pueblos now own 73,443 head of sheep, which last year yielded 143,015 pounds of wool, valued at \$16,851. In addition they own 4,376 cattle, 5,063 horses and a large number of other grades of stock and cattle.

SCHOOL FACILITIES.

The agency now has nineteen schools with a total enrollment of 500 pupils. A new school was opened at Pecos, one of the sub-pueblos of Zuni, and schools were authorized at Santa Fe and Old Caliente but on account of various delays, these have not yet been opened.

The school at Corbett, New Mexico, is now open. The school at Santa Fe, New Mexico, is now open. The school at Santa Fe, New Mexico, is now open.

In the year most women have to suffer for a week. At the best this suffering interferes with household activities, social enjoyments. At the worst it shuts the woman in a darkened room or confines her to bed. Most women can be completely cured of this trouble by the use of Dr. Pierce's Favorite Prescription. It regulates the periods, stops enfeebling drains and cures female weakness.

"All praise is due to you for your wonderful 'Favorite Prescription.' I have been suffering with female irregularity, was confined in every three months. After using two bottles of Dr. Pierce's Favorite Prescription I am cured, and have not suffered any more since. Your 'Favorite Prescription' is a boon for delicate women."
