KNOX WRITES OF TRUSTS

Says Present Law is Inadequate for Their Proper Control.

LEGISLATION SUGGESTIONS

Transportation of Goods at Discriminating Rates Should be Penalized With Power of Enforcement.

Washington, Jan. 6.—Attorney General Knox has addressed identical letters to Senator Hoar, chairman of the senate judiciary committee, and Representative Littlefield, chairman of subcommittee of the house judiciary committee, giving his views on the subject of trusts. These letters are in reply to communications sent him by Senator Hoar and Mr. Littlefield, asking the views of Mr. Knox. The letters embrace three subjects, questions which have been decided by the courts, the questions which are pending in the courts and suggestions respecting further legislation. Under the latter head, Mr. Knox says: "The end desired by the overwhelming majority of the people of all sections of the country is that combinations of capital should be regulated and not destroyed, and that measures be taken to correct the tendency toward monopolization of industrial business of the country. I assume a thing to be avoided, even by suggestion, is legislation regulating the business interests of the country beyond such as will accomplish this end. In my judgment, a monopoly in any industry would be impossible in this country, where money is abundant and cheap and in the hands of or within the reach of keen and capable men, if competition were assured in a fair and open field and protected against unfair, artificial and discriminating practices."

"If the law will guarantee to the smaller producer protection against practical methods in competition and keep the pathways to the market open and available to him for the same tolls charged to his powerful competitor, he will manage to live and thrive to an astonishing degree."

COMMISSION BUSY.

Hearings of the Anthracite Strike Trouble Were Resumed at Philadelphia Today.

Philadelphia, Jan. 6.—After a recess over the holidays, the Anthracite Coal Strike Commission resumed its work today on hearing the non-union men's side of the controversy in the great industrial war in the anthracite coal regions during the past year. The sessions of the commission in this city are being held in the U. S. circuit court room in the federal building, and it is expected that nearly a month will be occupied in taking the testimony of the non-union men, the coal operators and the mine workers in rebuttal.

The session began at 11 o'clock. The court room was well filled when the commissioners filed in and took their seats. All the prominent attorneys were present excepting C. S. Darrow, leading counsel for the miners who was delayed in the west. The first business brought up was the presentation by their counsel of the wage statements of several of the small independent coal companies in the Hazleton region.

TAKT A JUSTICE.

Will Probably Succeed Shiras Some Time During Next Month.

Washington, Jan. 6.—If existing plans carry, some time next month the president will send to the senate the nomination of Governor Taft to be an associate justice of the supreme court to succeed Justice Shiras, who is expected to retire during that month. Governor Taft will be succeeded as civil governor of the Philippine Islands by General Luke E. Wright, at present vice governor and the latter's place will be filled by the appointment of W. W. Rockhill, the present director of the bureau of American Republics.

There are already many aspirants for the place which will be vacated by Mr. Rockhill, but so far the president has made no choice.

Citizens Heard the Explosions, But Thought Cowboys Were Amusing Themselves.

Ordway, Colo., Jan. 6.—The private bank of Stillman, Williams & Co. was robbed, the safe being blown open between two and three o'clock this morning. The thieves, two in number, made their escape on horseback. Some citizens heard the explosion and later the horses' hoofs, but supposed cowboys were amusing themselves. It is reported the bank lost between fifteen hundred and two thousand dollars.

SENATOR NELSON SPOKE

Has a Carefully Prepared Speech to Occupy Two Days.

FIFTEEN MORE SPEECHES

Senator Foraker Will Probably Be the First to Defend New Mexico and Arizona.

Special to the New Mexican.

Washington, Jan. 6.—The omnibus statehood bill is expected to occupy much time. In accordance with the agreement made before the holiday recess, Senator Nelson of Minnesota, who is an ardent advocate of the Beveridge plan, yesterday commenced his speech against the admission of New Mexico and Arizona and for the admission of Oklahoma and Indian Territory as one state. His speech is carefully prepared and it is expected the greater part of two days will be consumed in its delivery. Senator Burnham will speak next and it is expected he will speak two days. Other Republican senators have agreed to speak in opposition to the omnibus bill and it is believed there will be at least 15 speeches on that side. Some speeches in support of the house measure will be heard, but probably none this week. Senator Foraker is expected to be the first to speak on behalf of New Mexico and Arizona.

THE HOUSE.

Washington, Jan. 6.—The vote in the house yesterday having shown that the bill to create a general staff in the army did not command the support of the necessary two-thirds to pass it under a suspension of the rules, a special order was brought in from the committee on rules at the opening of the session of the house today which provided for its consideration. The rule allowed an hour for general debate. It was not anticipated, and upon its adoption, the house proceeded to the discussion of the bill.

THE SENATE.

Washington, Jan. 6.—In the senate today, the Vest resolution instructing the committee on finance to prepare and report a bill removing the duty on anthracite coal was then considered. Mr. Vest said there is nothing in the resolution that the finance committee can furnish light upon and as before, he could not see the necessity of Mr. Aldrich's motion made yesterday to refer the resolution to the finance committee. "This is no longer a partisan question," said he, "but a question of absolute humanity. We are not on the verge of a crisis in regard to coal, but we are actually in it. Women and children have been frozen to death, and my only solicitude is to find a remedy to this disgraceful and outrageous condition of affairs."

He criticized the Dingley tariff law and said there was no more chance to day, in his judgment, to reduce a single duty in the Dingley act than for him to carry off the capitol building on his shoulders. If it was a question of raising money for the next campaign for president, that was the end of the discussion.

Senator Aldrich of Rhode Island, said he desired to make full answer to Mr. Vest, but as Mr. Hoar gave notice that he would speak on his trust bill, he asked that the resolution go over until tomorrow. The resolution went over and Mr. Hoar addressed the senate upon his anti-trust bill.

Senator Clay of Georgia, introduced a bill to provide for the free importation of commodities controlled by trusts. The bill confers upon the president authority to issue a proclamation suspending the collection of all customs duties on such articles brought from foreign countries.

Upon the conclusion of Mr. Hoar's speech, Mr. Nelson of Minnesota, resumed his remarks begun yesterday afternoon in opposition to the omnibus statehood bill.

ENGLISH IS SPOKEN.

Seventy Pupils in School in a Small Town of 200 People.

There is a school at Las Palas, a small town 45 miles northwest of Roswell, that is an argument for statehood. The town and adjoining ranches have a population of about 200 and school is held there ten months in the year and the salary paid the teacher is \$70 a month. The enrollment is 70 and the average attendance the first term this year was 62. Sixty per cent of the pupils are boys, the oldest being 19 years old, and the oldest girl is 17. There are eleven pupils of American parentage. No language but English is used in the school, and English alone is used by the pupils when at play. There is great rivalry among them as to who can attain the greatest proficiency in the practical use of the language.

BIG TAX COLLECTION.

T. B. Catron Paid \$11,500 Due on Rio Arriba County Property for Many Years.

District Attorney E. C. Abbott on yesterday collected from T. B. Catron, the sum of \$11,500 due on judgments for delinquent taxes on the Tierra Amarilla land grant, and other property in Rio Arriba county, owned by Mr. Catron. The judgment was for taxes delinquent for the years from 1891 to 1901 inclusive and the amount paid was less than the judgment, on account of a compromise agreed upon. District Attorney Abbott turned the tax money received over to District Court Clerk A. M. Bergere, who transmitted the same today to the County Treasurer of Rio Arriba county.

LOTS ARE DONATED.

Sites Secured in Roswell for a Sanatorium and Catholic Church.

The people of Roswell are actively at work to secure the erection of a Catholic church and sanatorium. When Bishop Pitaval was there recently the subject was broached to him and he named as a committee to ascertain public sentiment on the proposition, W. P. Lewis, John Guheen and Major Martini Mancini. The committee has been an active canvas and substantial encouragement has been received. E. A. Cahoon, chairman of the committee on sanitariums for the Roswell Club, says he has been assured by Avery Turner, general manager of the Pecos Valley lines of the Santa Fe, that the railway company will assist in the undertaking. L. K. McGaffey has donated five lots in block 5, Fruitland addition, comprising about ten acres, as a site for the sanatorium, and two lots for the church. It is expected the church will be constructed of brick or stone and will be rather elaborate. The report will be sent to Bishop Pitaval to lay before Archbishop Bourgade within a short time.

DRIFT FENCES WANTED.

A Petition to Congress to Permit Them Through Eastern New Mexico.

A petition has been circulated through the eastern part of the territory asking congress to pass a law to permit the building by private parties of fences running east and west through the belt of country in eastern New Mexico, called the Staked Plains, with proper and sufficient gates for purposes of public use, in preventing cattle and other livestock drifting and straying away from the owners. It is proposed that these drift fences be so placed as not to be used for the purpose of exclusive occupancy of any portion of the public domain by anyone. That they be constructed at intervals of 15 to 30 miles apart, under such regulations and directions of the government of the United States, through its proper officers and departments as shall seem proper. The petition asserts that unless drift fences shall be built as requested, persons cannot successfully engage in and pursue the livestock business in the belt of country referred to.

WATCH RECOVERED.

John Francis Was Slandered and the Timepiece Taken from Him.

A gold watch which was stolen from John Francis, a coal miner at Gardiner, was recovered last week at Raton. Francis was sandbagged and the watch taken. He promptly notified the Raton jeweler, and the watch was offered to A. E. Fairbanks for \$10 by a colored man. When Fairbanks examined the watch, he found the name "John Francis" engraved on the inside of the case. He stepped back to where his revolver was lying, and then told the man he had instructions to hold the watch. The man protested that it belonged to a friend of his who was at the depot, and he would go over and see him about it. Neither one has been heard from since. The watch is a solid gold hunting case, with Waltham movement, and is valued at \$75.

FOUR PERSONS WERE KILLED

Three Were Burned or Suffocated and Ethel Saunders Jumped to the Street from the Fourth Floor.

Chicago, Jan. 6.—Three persons lost their lives and a fourth was fatally injured in a fire at the Hotel Somerset, an eight story brick structure, at Wabash and 12th sts., early today. Three of the victims, Mrs. E. T. Perry, aged 35, and her two daughters, 8 and 9 years old, were burned or suffocated to death in their room on the 4th floor. The fourth victim, believed to be Miss Ethel Saunders, jumped from the window of a room on the same floor to the street and was fatally hurt. Four persons are more or less seriously hurt. A short time after it was discovered that lives had been lost, William Clemons, a porter in the hotel, was arrested. From admissions made by Clemons, it is believed that he caused the fire by accidentally igniting his bed clothes while smoking a cigarette. Miss Saunders died in the ambulance on her way to the hospital. She is said to have been a niece of Mrs. Perry. The financial loss is only \$2,600.

Record of June 25th, 1902, page
7,842.**

President pro tem, of senate:
The chair has been requested to
restate the proposition, and will
do so.

The senator from Indiana, the
chairman of the committee on
territories, has stated in open
senate today, that the committee
will report on the territorial bill,
so-called, on the third day of the
next session of congress. There-
upon the senator from Pennsylvania
asks unanimous consent, that
on the tenth day if the senate is
in session and on the first day there-
after it may be in session if not
on the tenth, the bill shall be
made the unfinished business.

Is there objection? The chair
hears none, and the order is
made.

The Washington Star suggests that
children be taught in the schools how
to use the mails. The suggestion is a
good one, as so many otherwise in-
telligent persons are densely ignorant
in this regard. This ignorance is not
only the cause of vexation and annoy-
ance, but at times of positive loss, mis-
understanding and sorrow.

lack of public schools or higher insti-
tutions of learning in which no fees
are charged. That is really the founda-
tion for public education, all other
improvements and advancements are
but a matter of natural growth.

The City of Berlin, Germany, is man-
aging to keep up as astonishing a rate
of growth as Chicago. The two cities
for the past three decades have been
very close in population, but Berlin is
still ahead with a population of 2,500,-
000. Other German cities too have
doubled in population in ten years,
most notable being Hamburg which
now has 668,000 people, and Munich,
which has 500,000 inhabitants.

Senor Marconi predicts that "two
hundred words a minute at one cent a
word and the general use of wireless
telegraphy instead of the mails for a
large proportion of the personal corre-
spondence that now passes between
America and Europe" will be develop-
ments of the near future. It's all off
with cable companies and mail sub-
sidies for steamship lines if Marconi's
prediction is more than hot air.

Clifton Chisholm of near Roswell, re-
cently took 600 New Mexico raised
hogs to the St. Joe market, where they
topped the market, the price paid for
them being \$6.47 per cwt. The cost of
raising the hogs had been \$2.50 per cwt.
Mr. Chisholm declares that raising
hogs is more profitable than raising
cattle, sheep or goats. Here is a hint
to other New Mexico livestock men who
of late years have found there is not
the profit in sheep and cattle that there
used to be.

The Las Vegas Record pays the
Bureau of Immigration the following
neat compliment: "The Territorial Bu-
reau of Immigration, through its ef-
ficient secretary, Colonel Frost, is doing
splendid work. It has a large amount
of literature on hand that is being sent
to all parts of the country, showing
the undeveloped resources of New
Mexico, with the result that there are
a great many people looking to New
Mexico as a place for safe invest-
ments."

In politics as well as in individual
life, the man who sets his face against
progress, is bound to lose in the end, if
he is not crushed altogether. This is a
fact to be remembered by those mem-
bers of the board of education who are
evidently playing a game of delay and
obstruction on the question of new
school houses for the Capital City of
Santa Fe. When they step out of the
board of education, there will be a sigh
of relief and their names will be speed-
ily forgotten, except that it will be re-
membered against them, that when the
people of the city of Santa Fe demand-
ed the chance to vote on the question
of issuing bonds for the building of
new school houses, these few men
stood in the way and said: "No, we
will not give the people a chance to
vote on this question, we know better
what is good for them than they do.
The people be damned."

The White Oaks Eagle is manifesting
monopolistic tendencies. It has ab-
sorbed the Nopal Republican and the
Captain Progress and is looking around,
like Alexander, for new fields to con-
quer. In other words, the White Oaks
Eagle is manifesting J. Pierpont Mor-
gan tendencies, despite the fact that it
delights in belaboring the great finan-
ciers upon every occasion that presents
itself.

The United States government is
about to take a mining census, and Pro-
fessor F. A. Jones of Albuquerque, has
been appointed to take the census for
New Mexico. He is certainly compe-
tent for that position and will do the
job ably. Unfortunately, at the pre-
mining operations in the territory
are lacking, and the showing that will
be made by a mining census at this
time will not do the mineral resources
of New Mexico justice.

The editor of the Springer Stockman
has considerable faith in the ability of
his brethren of the press to let them-
selves be felt in the right direction in
the coming 35th legislative assembly. It
is rather a credit to New Mexico that
newspapermen are so well represented
in the legislative assembly and as
newspapermen are accustomed to look
at every side of a proposition and are
quick in detecting shams, they will
take an important part in shaping
wholesome and much needed legisla-
tion.

In the death of Robert W. Tansill,
Carlsbad loses the kind of friend that
Santa Fe ought to have. He was a
friend who in seasons of stress and
discouragement, in fact, had it not
been for him, there might be no Carls-
bad today. He was a real creator with
his wealth and not only Carlsbad, but
all of New Mexico owes him a loving
remembrance and a permanent monu-
ment, for his work in developing the
southeast corner of the territory,
creating a garden out of a sagebrush
and mesquite desert.

Carlsbad's star as a literary center in
the southwest is in the ascendancy.
"Outing," for December, published a
sketch by George H. Hutchins, the pro-
prietor of the Hotel Schiltz at Carls-
bad; T. B. McKee of Carlsbad, has a
poem entitled "The Freighters' Song,"
in the December "Munsey," and sev-
eral of the large Chicago dailies lately
had articles of literary merit from the
pens of Carlsbad people. There is also
published in Carlsbad, the Carlsbad
Argus, one of the best edited and best
printed weeklies in New Mexico, whose
literary excellence and persistent work
for the town of beautiful and sugges-
tive name, has resulted in much good
to the lower Pecos Valley.

The tax commissioners of New York
City have increased the taxable assess-
ment of Manhattan by \$1,500,000,000.
Some of these tax commissioners should
be degraded to come to New Mexico to
assessors or deputy assessors, this
increase the tax rate of New
York City will be reduced from \$2.27
per thousand dollars to \$1.12. New
Mexico would experience the same re-
duction in tax rates. If assessments
were made as carefully in Taos, Rio
Arriba, Valencia and other counties as
they are in Chaves, Eddy, Sierra and a
few other counties in which the per
capita assessment reaches from \$400 to
\$500, compared to per capita assess-
ments ranging from \$50 to \$200 in Taos,
Rio Arriba, Valencia, Bernalillo and
most other counties.

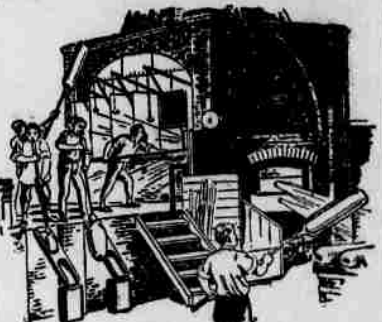

Of the thirty-two states admitted
since the adoption of the national con-
stitution, only Maine, Wisconsin, West
Virginia, South Dakota, Washington
and Utah had a greater population
when admitted than has New Mexico
today and strange to say the states
that had the greatest population when
admitted are not the states that have
grown the fastest or prospered the
most. Texas, California and Montana
have a greater area than has New Mex-
ico. All the states had no encounter per-
sistent opposition before they were ad-
mitted. Vermont fought steadily for
fifteen years for admission. Indiana
was the smallest of the new western
states and had only a population of
96,000 when admitted and Illinois had
only 40,000 people when admitted.
Neither of the two at the time of ad-
mission hoped ever to have more than
a quarter of a million of people, for
their resources at that time were not
one iota of those of New Mexico.

HOPWELL CORRECTLY QUOTED.
"The New Mexican represents W. S.
Hopewell as favoring the admission of
New Mexico and Arizona combined in-
to one state, named New Mexico, and
having its capital at Santa Fe. Mr.
Hopewell must know, and therefore
The Optic thinks he has been misrep-
resented by the New Mexican, that the
scheme of the combined territories into
one state, includes the state's being
called Arizona and not New Mexico;
and he must also know that Santa Fe
could not be the capital of the com-
bined territories. It is too far from
the center of land. If New Mexico can
not have statehood for herself, then
she does not want it at all; and the
combination of this territory with Ariz-
ona would be overwhelmingly defeat-
ed in New Mexico."—Las Vegas Optic.

The yellow Las Vegas contemporary
is wrong again, as usual. The New
Mexican did not misrepresent. Chair-
man W. S. Hopewell of the Democratic
territorial central committee, in the re-
cent interview with him published in
this paper. The New Mexican is not in
the misrepresentation business. It
leaves dirty work of all kinds to its
more or less esteemed yellow contem-
porary, which contemporary, it must
be acknowledged, is a shining and great
success in misrepresentation and other
wicked and injurious matters. Mr.
Hopewell was correctly quoted in the
New Mexican. He has the courage of
his convictions. He is strongly in fa-
vor of single statehood for this territory,
but if that cannot be had, he thinks it
would be good policy to combine with
Arizona. He is for statehood, first,
last and all the time in some shape.

Workmen

You have seen hundreds of your companions
waste away in mill and foundry with a persistent
cough. You have seen hundreds of them die with
that terrible disease, Consumption. You have seen
wives left penniless, and children thrown upon
the mercy of the cold world, because the father
coughed his life away. The air you breathe
every day is full of sharp, metallic dust, which is
inhaled into the lungs and irritates their delicate
lining. In the case of glass blowers, the fierce

heat of the molten glass forces its way up the
tube into the lungs where it gradually breaks
down their delicate structure, making every cold
a danger to life. You can't afford to quit work-
ing and are daily exposed to this fatal dust and
intense heat. What you and your friends need
is Acker's English Remedy. This will make your
throat and lungs strong again. It will heal the
irritation, brace up your strength, and you need
never lose a day's work. I have noticed that in
some mills there are no cases of consumption.
The reason is that Acker's English Remedy is
used by the men working there.

Sold at 25c, 50c, and \$1 a bottle, throughout
the United States and Canada; and in England
at 1s, 2s, 3s, 4s, 6d. If you are not satisfied
after trying, return the bottle to your druggist,
and get your money back.

We authorize the above guarantee.

During the next few days the people
of New Mexico should be heard from in
Washington. There should be no
doubt in the minds of any senators
about the people of this territory want-
ing statehood and wanting it badly.
Every one should send a telegram to
some senator urging him to stand by
New Mexico. The Capital City especially
should be well represented in the
flood of telegrams that is being sent
from all the territories. Quite a num-

ber went from Santa Fe yesterday, but
many more should follow. The insis-
tence of the people of New Mexico that
the Republican party should keep its
platform pledges may save the day for
statehood. At least, the rooting done
at home for statehood, will be a good
advertisement for the Sunshine terri-
tory.

The Democratic press has a duty to
perform during the coming session of
the legislature. Just and honest criti-
cism of proposed legislation from a po-
litical enemy will be worth a good
deal to the Republican party and to the
people. But it is feared that the Dem-
ocratic press in New Mexico will not
be equal to the task and for honest and
just criticism will substitute scolding
and blackguarding, which will hurt
the Republican party, but will deprive
it of the benefit of sincere criticism.

SAVED AT GRAVE'S BRINK.
"I know I would long ago have been in my grave," writes Mrs. S. H. Newsum, of Decatur, Ala., "if it had not been for **ELECTRIC BITTERS**. For three years I suffered untold agony from the worst forms of indigestion, waterbrash, stomach and bowel dyspepsia. But this excellent medicine did me a world of good. Since using it I can eat heartily and have gained 35 pounds." For indigestion, loss of appetite, stomach, liver and kidney troubles **Electric Bitters** are a positive cure. Only 50c at

A MILLION VOICES.
Could hardly express the thanks of Homer Hall, of West Point, Ia. Listen why: A severe cold had settled on his lungs, causing a most obstinate cough. Several physicians said he had consumption, but could not help him. When all thought he was doomed he began to use **DR. KING'S NEW DISCOVERY FOR CONSUMPTION** and writes: "It completely cured me and saved my life. I now weigh 227 lbs." It's positively guaranteed for coughs, colds and lung troubles. Price 50c and \$1. Trial bottles free at

THE PRIDE OF HEROES.
Many soldiers in the last war wrote to say that for scratches, bruises, cuts, wounds, corns, sore feet and stiff joints **Buckley's Arnica Salve** is the best in the world. "Same for burns, scalds, boils, ulcers, skin eruptions and piles. It cures or no pay. Only 25c at

BEST LINIMENT ON EARTH.

UNCONSCIOUS FROM CROUP.
During a sudden and terrible attack of croup our little girl was unconscious from strangulation, says A. L. Spofford, postmaster, Chester, Mich., and a dose of One Minute Cough Cure was administered, and repeated often. It reduced the swelling and inflammation, cut the mucus and shortly the child was resting easy and speedily recovered. It cures coughs, colds, lagrippe, and all throat and lung troubles. One Minute Cough Cure lingers in the throat and chest and enables the lungs to contribute pure, health-giving oxygen to the blood. **Fischer Drug Co.**

A SCIENTIFIC DISCOVERY.
Kodol does for the stomach that which it is unable to do for itself, even when but slightly disordered or overloaded. Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. **Fischer Drug Co.**

REV. CARLISLE P. B. MARTIN, L. L. D.
Waverly, Texas, writes: "Of a morning, when first rising, I often find a troublesome collection of phlegm, which produces a cough, and is very hard to dislodge; but a small quantity of **Ballard's Horehound Syrup** will at once dislodge it, and the trouble is over. I know of no medicine that is equal to it, and it is so pleasant to take. I can most cordially recommend it to all persons, needing a medicine for throat or lung troubles." Price 25c, 50c, \$1 bottle at
Fischer Drug Co.

ONE HUNDRED DOLLARS A BOX.
Is the value H. A. Tidwell, Summerton, S. C., places on **DeWitt's Witch Hazel Salve**. He says: "I had the piles for 20 years. I tried many doctors and medicines, but all failed except **DeWitt's Witch Hazel Salve**. It cured me. It is a combination of the healing properties of **Witch Hazel** with antiseptics and emollients; relieves and permanently cures blind, bleeding, itching and protruding piles, sores, cuts, bruises, eczema, salt rheum and all skin diseases." **Fischer Drug Co.**

I cannot recommend it too highly, it will do all you claim for it." Sold by **Fischer Drug Co.**

AUNTIE.

When auntie comes to see us, then we have to get up and greet her.
Us children hate to have her come, 'cause on account of that.
We've got to sit still an' behave an' never make a sound.
An' when we come indoors to wipe our feet upon the mat.
The house is scrubbed so awful clean we mustn't make a track.
An' we're scrubbed, too, I tell you, till it 'most takes off the bark.
When auntie goes away we wish she never would come back.
For while she's here to see us we've got to have to toe the mark.

When auntie comes to see us then we have good things to eat.
We sort of like to have her here, 'cause on account of that.
An' pa, he always says a great long grace before the meat.
An' gives her the best slices an' don't make her eat the fat.
He's awful funny an' perille, is pa, when auntie's here.
An' ma she calls us "darsling" 'n' she gives us twice of pie.
An' pa an' ma, when auntie's here, they call each other "dear."
But when she goes away they don't do that. I wonder why?

When auntie comes to see us it's like Sunday every day.
It's funny that it should be so 'cause on account of that.
She's cross an' kinder fussy, but she's rich as gold, they say.
An' nobody to leave it to, unless it is her cat.
When auntie comes then pa an' ma seem tickled most to death.
An' when she talks of going they say: "Dear me, auntie, no!"
Yet when she's gone then both of them they draw a great long breath.
It seems if they was tickled most to death to have her go.

A Total Eclipse.
Any man can produce a total eclipse of the sun, so far as he himself is concerned, by holding a dollar close to his eye. The total eclipse of health is often produced in much the same way, by letting the dollar shut out from view all other things and interests.
A great many people pay for wealth with health and admit at last that they have made a poor bargain. In the chase of the dollar people are too eager to take time to eat regularly or choose proper food, the stomach becomes disordered or diseased, the food eaten ceases to nourish, and physical breakdown comes.
Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and so enables the strengthening of the body in the only way by which strength can be obtained, by food properly digested and perfectly assimilated.

"I suffered for four years with pain in my stomach so that at times I couldn't work nor eat," writes Mr. Frank Smith, of Granite, Chaffee Co., Colo. "I wrote to you about my sickness and was told to use your medicine, which I did with good results. I only used four bottles of **Golden Medical Discovery**, and must say that I am entirely cured, and feel like I can highly recommend your medicine to any sufferer."

The People's Common Sense Medical Adviser, 1008 pages, free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper-covered edition, or 31 stamps for the cloth-bound volume, to Dr. R. V. Pierce, Buffalo, N. Y.

A CASE OF IT.

Many More Like It in Santa Fe.
The following case is but one of many similar occurring daily in Santa Fe. It is an easy matter to verify its correctness. Surely you cannot ask for better proof than such a conclusive evidence. Ruperto Martinez of Griffin st., says: "I knew that a pretty sure indication of kidney complaint is an aching back, but in my case there was added to that annoyance trouble with the kidney secretions. At first the pain across the loins was the only evidence, but latterly the condition and action of the kidney secretions plainly told me that I must do something for my kidneys or aggravated trouble would follow. I went to Ireland's drug store for Doan's Kidney Pills, took a course of the treatment and the complication stopped. To show my faith in Doan's Kidney Pills, let me tell you that while working at Watrous getting out stone for the railroad an acquaintance of mine was compelled to stop and go home on account of his back. I advised him to use Doan's Kidney Pills. He acted on my advice and in a couple of days after commencing their use he returned to work."

For sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Cheap Rates to New York.

The Mexican Central has recently placed on sale tickets to New York and return going via the Mexican Central to either Vera Cruz or Tampico; thence via the famous Ward Steamship Line to New York. The return will be by rail over any line to El Paso. The entire trip covering thousands of miles, can be made for \$122.50. A more delightful trip cannot be planned as stop over privileges are allowed and the tickets are good for one year from the date of sale. The trip includes the City of Mexico, the "Paris of America," Havana, Cuba, and its famous Moro Castle, Newport and a dozen of the largest cities of the United States. Further information can be secured by addressing W. S. Mead, C. R. Hudson, general passenger agent, or W. D. Murdoch, assistant general passenger agent.

Gold in the Black Hills.
The Burlington Route has recently issued a 48 page booklet bearing the title "Mining and Mining in the Black Hills." The book is one which should be read by every mining man in Colorado. It gives more information about the mines of the Black Hills than has ever before been placed between two covers. A copy will be mailed free on application to the undersigned.
The Black Hills need Colorado men and money. Several of the shrewdest men in this state have already invested heavily in the Hills. The results so far have been more than satisfactory. The completion of the Burlington's new line to the Northwest brings the Black Hills within a night's ride of Denver. You can leave Denver tonight and be in Deadwood or Lead City tomorrow afternoon.

Eugene Field's Views on Ambition and Dyspepsia.
"Dyspepsia," wrote Eugene Field, "often incapacitates a man for endeavor and sometimes extinguishes the fire of ambition." Though true despite his complaint Field suffered from indigestion all his life. A weak, tired stomach can't digest your food. It needs rest. You can only rest it by the use of a preparation like Kodol, which relieves it of work by digesting your food. Rest soon restores it to its normal tone.
