CHINESE PROBLEM!

What Shall Be Done With the Empire?

Washington Authorities Deliberate the Question.

Japanese Force Marching From Taku to Pao Ting Fu.

GUNBOAT ASCENDS CHINESE RIVER.

Washington, Aug. 29.—The calling of a special cabinet meeting for this morning to consider the latest developments in the Chinese situation, following a midnight conference last night and several similar conferences with Secretaries Root and Adee within the last two days, emphasizes the amount of attention the president is devoting to this troublesome topic.

It is understood the government is better advised than yesterday as to certain important elements in the Peking middle.

Baron Speck von Sternburg, a German charge, saw the acting secretary this morning. It is understood the purpose was to talk over the question of Li Hung Chang's credentials. One effect of Germany's refusal to accept Li as plenipotentiary will be to delay peace negotiations at least until Field Marshal Waldersee's arrival in China, several weeks hence.

This fact is not contemplated with anxiety by our government, the president being desirous of terminating the present unsatisfactory state of affairs in China as soon as this can be done with honor and security and providing the objects laid down in his various notes can be attained.

The cabinet meeting to-day was devoted entirely to discussion of the diplomatic phases of the situation in China. No definite conclusion was reached on any point. No statement as to any questions discussed were made public.

It is stated at the war department that preparations are being made for wintering 5,000 United States troops in China.

Japanese Troops Advancing.
Berlin, Aug. 29.—According to a dispatch from Tien Tsin, Japanese forces are now on the way from Taku to Pao Ting Fu (capital of the province of Chi Li) with the direct object of occupying the latter place. The German vice admiral at Taku reports the arrival of Peking on August 22 of a German convoy with provisions. The railroad from Tien Tsin to Yang Tsun is working but from the latter place to Peking the road is in bad shape.

HELD AS HOSTAGE.
Li Hung Chang is not in a very pleasant position.

Paris, Aug. 29.—Officials of the ministry of marine were shown to-day a dispatch from Washington in which it is declared that the opinion prevails there from a dispatch from Admiral Courbet, announcing the intention of five admirals to detain Li Hung Chang until the Japanese have consented to open negotiations with the Chinese, referred to a situation which existed some time ago. The French officials declare that the news is not old and there is no question as to the correctness of the wording of the dispatch, but they themselves are unable to say from the dispatch what is the present position of Li Hung Chang, whether detained on board ship or whether the admirals intend to detain him when he arrives at Taku.

Money Market.
New York, Aug. 29.—Money on call, nominally at 1 1/2 per cent, prime mercantile paper, 4 1/2 per cent. Silver, 6 1/2 per cent.

Chicago Stock Market.
Chicago, Aug. 29.—Cattle—Receipts, 18,500 head, including 5,000 head of western and 1,000 head of Texas; the market for all kinds was steady and strong. Butchers' stock, 10c higher; good to prime steers, \$5.50@6.10; poor to

ANARCHIST TRIAL!

Bresci, the Assassin of King Humbert.

He Is Sentenced to Life Imprisonment.

Annual Meeting of American Bar Association at Saratoga.

BOSS SHEEHAN BEATEN.

Milan, Aug. 29.—The trial of Bresci, the anarchist who, on July 29, shot and killed King Humbert of Italy, at Monza, while his majesty was returning from a gymnastic exhibition, opened here to-day. An immense crowd of people gathered about the court from early morning, seeking admission to the court room, where only a few places were reserved for the ticket-holding public. The hearing began at 9 o'clock. Bresci was calm and almost indifferent. Counsel Signor Martelli, head of the Milan bar, and an anarchist writer, Signor Morlino, made requests on various grounds for adjournment, which was refused. It is said that Bresci wrote the judges, declaring that he would not reply to an interrogatory. The indictment showed that the assassin indulged in incessant target practice and that he prepared bullets so as to render them more dangerous. Witnesses were then introduced, eleven for the prosecution and five for the defense. The examination of Bresci followed. He declared that he had decided to kill Humbert after the events of Milan and Sicily, "to avenge the misery of the people and my own." He added, "I acted without the advice or aid of accomplices." The prisoner admitted target practice and the preparation of bullets. He spoke in a low, firm tone and said he fired three shots at three yards with a revolver. Bresci, at the close of the trial, was pronounced guilty and sentenced to imprisonment for life.

Bar Association.
Saratoga, N. Y., Aug. 29.—The opening session of the twenty-third annual meeting of the American Bar Association was held to-day. The president's address was delivered by ex-Senator Charles F. Manderson, of Omaha, Neb. Manderson made the most noteworthy changes in the statute laws on points of general interest made in several states and by congress during the preceding year.

BULLER'S ADVANCE

He Occupies Machodorp With Army.

Buller's Loss, 14 Killed and 64 Wounded.

Business Session of the Grand Army of the Republic.

LIVELY POLITICS IN NEW YORK.

London, Aug. 29.—Lord Roberts, under date of Belfast, Aug. 29, telegraphs as follows:
"Buller's advance occupied Machodorp this afternoon. The enemy made a poor stand and retired northward, followed by Dundonald's mounted troops, who could not proceed beyond Helvetia on account of the difficult nature of the country and the enemy taking up a position too strong to be dislodged by mounted troops. It appears that Buller's casualties were very few."

French continued his movement to-day as far as Elandsfontein, from which he turned the enemy out with no difficulty. The latter retired leaving a quantity of good cooked food behind.

"General Buller's casualties on Aug. 27 were: Killed—One officer and thirteen men; wounded, seven officers and fifty seven men."

GRAND ARMY.
Veterans Hold Business Meeting of Interest to the Order.
Chicago, Aug. 29.—In Studebaker hall this morning the veterans of the Grand Army of the Republic, who yesterday marched in the parade, turned their attention to matters of business. The annual meeting was called to order at 10:30 o'clock. Commander-in-Chief Shaw, Mayor Harrison welcomed the soldiers to Chicago. Commander-in-Chief Shaw, of the Grand Army, replied to the mayor. J. M. Longnecker, commander of the department of Illinois, greeted the veterans on behalf of the soldiers of Illinois. General Wagner responded for the members of the army.

The convention reassembled at 2 o'clock. General Shaw read the annual report. Following the address of General Shaw came a long list of reports submitted by minor officials and the various committees of the organization. The reports read were those of the executive committee, council of administration, Adjutant General Stewart, Quartermaster General Atkinson, Surgeon General Baker, Chaplain in Chief Robbins, Junior Vice Commander in Chief Minton, Custodian Holcomb, Inspector General Cummins, committee on legislation, veterans in the public service and the committee on pension legislation.

Lively Politics.
New York, Aug. 29.—Full returns from yesterday's primaries in Greater New York show that the New York county republican organization is successful in all except the Twenty-first assembly district, where Abraham Gruber, who opposes the county committee, is successful. Tammany hall held control of the democratic organization in all the districts.

ALBUQUERQUE, — AUGUST 20, 1900

National Republican Ticket

For President—
WILLIAM MCKINLEY,
OF OHIO.
For Vice President—
THEODORE ROOSEVELT,
OF NEW YORK.

The American eagle is not a democratic turtle.

The Massachusetts supreme court has decided that a bicycle is a machine rather than a vehicle.

The United States never had a better president than McKinley to handle unexpected emergencies.

At last accounts "Coco" Harvey was farming a farm, having made all the money he could farming the farmers.

The Philadelphia gentleman who wanted to bet \$100,000 on Bryan's election seems to have vanished into the dim bedum.

Scientists say they have found proof that Noah was a Chinese. Such an assertion about a Chinese might be more readily believed.

The new paper in Rio Arriba county, La Luz, makes it clear that northwest New Mexico has not had its share of territorial officers.

According to the Medical Record there is in the United States one physician to every 600 people, and yet the Americans are tolerably healthy.

The democrats are exceedingly worried over the political situation in this territory. Any day they may see defeat staring them in the face.

Col. Twitcheell has deeply offended the Las Vegas Optics by organizing a republican club in Kentucky, and then members right under the nose of the democratic organ.

Red shirtism in North Carolina and Goodellism in Kentucky are omitted from all of Mr. Bryan's speeches on "government without the consent of the governed."

Mr. Bryan needs't worry about the safety of the republic. There is not a good American in the whole country who would not give his life to save the name republic.

An imperialism is needed that will be strong enough to suppress those mobs of toughs in New York whose outcries are equal to anything in the mob-ridden Carolina.

The behavior of American officers and soldiers in China has not been surpassed for discretion, bravery and honor, anywhere in the world. Horrible case of "imperialism."

If it is imperialism to protect American citizens and among them an American minister in a foreign land, then imperialism is a popular thing, dear to the hearts of all patriotic Americans.

There are nearly a dozen national tickets of one kind or another in the field this year but as the campaign advances it becomes apparent that what may be called the side show vote will be unusually small.

This country needs an imperialism strong enough to hold the railroads strictly responsible for every human life they take by their indifferent heedlessness in the maintenance of the murderous surface crossing.

Five times have the United States acquired title to land and sovereignty over people by purchase. When the government paid Spain \$20,000,000 for the Philippines, it did what was done in 1802, in 1823, in 1825, and in 1897.

Major Llewellyn announces that he will not be a candidate for delegate to congress, but will be a candidate for the legislative assembly from Dona Ana and Otero counties. The major served as speaker of the assembly and made a first-class record in the position.

An imperialism is needed in this country that is strong enough to recognize the fact that such a country that allows a group of egotistical individuals to commit crime in the guise of a mob is a house affair not worthy the name of democracy.

GOOD REASON.
As a reason for only three of the thirty-six Grand Army posts in Philadelphia sending delegates to the National Encampment at Chicago, Mr. Morrison, the state department commander, says it is due to the invitation sent to Mr. Bryan. The old soldier argues with good reason that Bryan's attendance can only be for political reasons. Bryan's state department commander, says it is due to the invitation sent to Mr. Bryan. The old soldier argues with good reason that Bryan's attendance can only be for political reasons. Bryan's state department commander, says it is due to the invitation sent to Mr. Bryan. The old soldier argues with good reason that Bryan's attendance can only be for political reasons.

EXPORT OF MACHINERY.
The exports of machinery, hardware, tools and other articles from the United States during the fiscal year 1899 were the largest in the history of our export trade, being \$2,446,617, against \$7,842,372 in 1898, \$4,627,466 in 1897, and \$5,659,138 in 1896 prior to which year the exports in this line had never aggregated so much as \$5,000,000.

In exports of sewing machines, typewriters, electrical and other intricate machinery there are also gratifying increases. Comparing the export figures of the fiscal year just ended with those of 1898 and 1899, it is found that sewing machines increased from \$1,145,194 in

BASE BALL PURSE

Amount Increased by Fair Committee.
More Bids for Midway Privileges Opened.
Will Probably Accept Proposition for Railway Novelty.
ROCK DRILLING CONTEST ABANDONED

The executive committee of the New Mexico Territorial Fair association held a meeting last night, and, although there were a few empty chairs around the table, those present did not mind the lack of company. The committee was held in the city from September 18 to 22—the only week of next month in which there will be no rain but clear weather and sunshine.

The committee waded through an accumulation of suggestions, pro and con, about how to run the fair from non-members, and after pigeon-holing the mass of letters proceeded to business.

A number of bids for fair privileges were opened, considered and the following accepted:

Mr. E. W. Williams, for Moxie Meade, booth on the Midway, \$10.
W. C. Mason, for rubber ball privileges, \$5.
A. L. Greenleaf, for popcorn and peanut booth on the Midway, \$10.
James H. Barker and J. E. Owen, for cushion privilege at grand stand, \$10.
The combination bid for lemonade, confectonery and cigars at the grand stand and for lemonade, soda water and ice cream booth on the Midway did not comply with the requirements of the committee as to such bids and no action was taken on the proposition.

Messrs. McDonald and Wynkoop, two well-known playing members of the Browns base ball club, were at the meeting and were granted permission to address the committee. They stated that in the past few weeks they had traveled over the sands and through the canyons of southern New Mexico, feeling the pulse of the base ball players in the territory. Mr. McDonald was convinced beyond a doubt that the committee would raise the first prize up to \$500, the second prize to \$250, the third prize to \$150, and the fourth prize to \$100, and that the prize for the grand stand would be \$500, and the prize for the base ball game, \$100.

The argument put forward was very convincing, and it was moved, the motion being seconded, that as the letters of Mr. E. W. Williams and Mr. W. C. Mason, be added to the base ball prize, thus making the first prize, \$550, the second prize remaining at \$100.

The letter from J. W. Shriver, builder of the new fair grounds, was read, and the committee was informed that he was carrying a railroad train in the world, was read, and the president of the fair was instructed to renew his correspondence with that gentleman with a view of bringing his great railway novelty here for fair week. Should arrangements be made, Mr. Shriver will buy his truck along Gold avenue, carrying passengers from the Midway to the grand stand. In his letter Mr. Shriver enclosed a recommendation from Mr. George H. Clark of Sacramento, Cal., who states "that the railway was in operation during the Sacramento street fair, and that it was a marked success both as a means of entertainment and amusement for the old and young people and a revenue producing proposition for the fair. To Mexico, there is always a demand for the railway, and it is a good thing to have it here."

Bids for the unpaid fair privileges were opened, and the committee was informed that the unpaid fair privileges were \$100, and the unpaid fair privileges were \$100, and the unpaid fair privileges were \$100.

The revised program of the purpose and motive of the fair is included in another column. Those who intend to take part ought to read the list over carefully.

Mrs. Walton, who was engaged to give some pretty platform features in the fair, was informed that she was progressing nicely, and that she will be ready with her program in a few days.

Read the list of unpaid fair privileges published in another column. Some of the very best "money" yet remain unpaid; that is, bids were received for them, but the committee declined to accept.

The grandest fire works ever seen in the southwest will be exhibited here during the fair, under the personal supervision of W. H. Wilson, the pyrotechnist of the Los Angeles Fire Works factory. Mr. Wilson and his assistants will arrive here a week before the fair opens, and will have the "money" ready to go.

It is predicted that the "money" display and parade for the approaching fair will be the grandest, longest and most elaborate ever held in the southwest. There will be many floats, some of which will cost several hundred dollars to build. The committee will give \$50 for the best and most appropriate float in the parade.

It is sincerely hoped that the fair subscribers pay up their subscriptions to the committee, and that they will not be embarrassed in making deposits for contracts already signed. The obligations of the fair association now reach up to over \$4,000, and as it is the wish of the executive committee, to bring the approaching fair out on the right side of the ledger, the contributors are appealed to for their subscriptions.

The Albuquerque Press club organized the other day, has sent out invitations to the editors and publishers of the territory to meet here on Wednesday, September 19 (second day of the great fair) for the purpose of reorganizing the New Mexico Territorial Press association. This measure is a long step toward the union of the newspapers of the territory, each of whom have already been "comped" by the president of the fair association and accompanied by the "comps" are printed coupons guaranteeing them protection while in the metropolis.

The decorations for this fair, now collected by all, will eclipse anything here before seen in the big southwest. Business houses, which heretofore have never been decorated, will be gorgeously trimmed for this fair, for all will try and secure the first and second prizes offered by the committee. From windows will also be elaborately decorated, prizes being offered for the best decorated front window of business houses.

While The Citizen is on this subject, merchants are reminded that the committee will give \$25 for the best and most appropriate outside booth and display in front of their stores.

Spitting Blood

"I used to cough a great deal and spit blood and I was very weak and my lungs became hardened. I was so weak I couldn't even get up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use, and now am well and strong. I can't say too much in its praise." The obligations of the fair association now reach up to over \$4,000, and as it is the wish of the executive committee, to bring the approaching fair out on the right side of the ledger, the contributors are appealed to for their subscriptions.

The Albuquerque Press club organized the other day, has sent out invitations to the editors and publishers of the territory to meet here on Wednesday, September 19 (second day of the great fair) for the purpose of reorganizing the New Mexico Territorial Press association. This measure is a long step toward the union of the newspapers of the territory, each of whom have already been "comped" by the president of the fair association and accompanied by the "comps" are printed coupons guaranteeing them protection while in the metropolis.

The decorations for this fair, now collected by all, will eclipse anything here before seen in the big southwest. Business houses, which heretofore have never been decorated, will be gorgeously trimmed for this fair, for all will try and secure the first and second prizes offered by the committee. From windows will also be elaborately decorated, prizes being offered for the best decorated front window of business houses.

While The Citizen is on this subject, merchants are reminded that the committee will give \$25 for the best and most appropriate outside booth and display in front of their stores.

Spitting Blood

"I used to cough a great deal and spit blood and I was very weak and my lungs became hardened. I was so weak I couldn't even get up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use, and now am well and strong. I can't say too much in its praise." The grandest fire works ever seen in the southwest will be exhibited here during the fair, under the personal supervision of W. H. Wilson, the pyrotechnist of the Los Angeles Fire Works factory. Mr. Wilson and his assistants will arrive here a week before the fair opens, and will have the "money" ready to go.

It is predicted that the "money" display and parade for the approaching fair will be the grandest, longest and most elaborate ever held in the southwest. There will be many floats, some of which will cost several hundred dollars to build. The committee will give \$50 for the best and most appropriate float in the parade.

Volcanic Eruptions

THE NEW TUNNEL

Work Now in Progress in New Mexico's

Greatest Gold Camp.

In conversation with William Jenks,

general manager of the Golden Coochiti

Tunnel company, who came in a few

days ago from Bland, it was learned

that the work of driving the tunnel

is being carried forward as rapidly

as possible with eight men. Indications

from the development so far are all that

could be asked by the most sanguine.

Mr. Jenks' faith in the future of the

district is unbounded.

Hardly three years have passed since

the settlement of the grant case, which

so long interfered with operations in

the Coochiti district, and since that time

no large amount of money has been

paid by any one of the numerous

mining properties in the district, many

of these properties have been developed

to a point at which they can be called

into production. The tunnel has reached

the depth of 300 feet and has, besides a

fine cyanide plant of large capacity, an

electric plant at Madrid and line for the

transmission of power and light, fine

hoisting machinery, etc., hundreds of

thousands of tons of material have been

blocked out. The Navaho has run a

tunnel 300 feet to tap their vein at the

depth of about 600 feet. The Wash-

ington, Iron Kings, Crown Mine, Union

and many other mines have been de-

veloped, and because of the immense

size of the ore bodies are all destined

to become great mines. The latest un-

derstanding of importance in the tunnel

mentioned above, which is intended to

tap the very center of the district at

great depth, and act as a common car-

rier in bringing to the surface all ore

from deep workings at a much less ex-

penditure than would be required to hoist

it. As well as a tunnel proposition, this

is also certain to be a big mine, as the

ground owned by the company is cut

into many lengths by the mother lode of

the district, in which vein the tunnel

is being run. Under the management of

Mr. Jenks the best results will be at-

tained, for he is not only a thoroughly

competent man, but perhaps more im-

portant with the Coochiti than any one

else.

If You Contemplate

buying furniture, study the way to do so to the best advantage. Fine furniture makes a fine house, but fine things may cost too much if you don't buy judiciously. Furthermore, furniture that looks elegant may be too flimsy to last and have no merit below the varnish. We carry only such goods as have merit both in appearance and reality. No furniture looks better or lasts longer than ours, and no furniture like ours can be bought elsewhere at our figures.
