Nation Mourning for King Humbert.

Anarchists of New Jersey Endorse Murder.

Chinese Attack Russians at New Chwang in Great Force.

CHINESE PIRATES EXECUTED.

Rome, July 31.—In the absence of the new king, the ministry has issued in his name the following manifesto: "King Victor Emmanuel III, in ascending the throne, has to perform the painful duty of announcing to the country the awful calamity which violently cut short the valuable life of King Humbert."

"The nation is wounded in its sincere affection for the august dead and in their sincere feeling of devotion and affection to the dynasty, while executing the cruel crime will be plunged into profound grief for the venerated memory of the good, brave, magnificent king, the pride of his people and worthy of the perpetual traditions of the house of Savoy, by rallying with unshakable loyalty around his august successor, the Italian will prove by their deeds that their institutions do not die."

The king is expected to arrive at Reggio di Calabria to-morrow. He received the first news of the assassination of his father by wireless.

Plot to Assassinate.
Rome, July 31.—The Tribune says that the assassination of King Humbert is believed to be the result of a plot. A non-militant anarchist recently declared, the Tribune asserts, that a meeting had been held in Paris, at which lots were drawn, and several persons selected to kill the king.

The papers announce that King Victor Emmanuel III. will reach Brindisi to-day and go directly to Monza.

New York, July 31.—Chairman Hanna was asked to-day if there was any truth in the published story that he and Governor Roosevelt had some words of disagreement yesterday over the gov-

ernor's St. Paul speech. He replied: "Nothing in it. The governor called on me, and we went over the campaign and the part he will take in it. And he will take a very large part in it. We discussed the speeches—his speeches with others—but not any particular speech that I can recall."

Think with Rebels.
Washington, July 31.—The following telegram was received at the state department this afternoon from Consul Fowler: "The Foo, July 31.—On 21st I wired the governor for information at Pao Ting Fu. Nine days unanswered. Wired yesterday. He now replies that Pao Ting Fu city and neighborhood is thick with rebels and impossible to obtain the slightest news or to send messengers. Next of Consigners at Paterson, N. J.
New York, July 31.—There was a meeting of anarchists at Paterson, N. J., last night, at which the killing of King Humbert was discussed. "All monarchs, according to our views, must die. Let Nicholas of Russia tremble and let the new king of Italy prepare for death. They would consent to take places on the throne were they not inhuman. It is a republic we want, and it is a republic the anarchists of every country will have. We will try to better this government by fair means, and if we cannot succeed, then we will resort to other methods."

The failure of the relief expedition made the stage far more perilous. July 19 the Yangtze river broke off relations. June 29 China declared war. Baron von Ketteler and Francis James, an English professor, were murdered. Over 100 non-combatants occupied the British legation. 'I understand converts are holding the north cathedral. A thousand refugees occupied the palace of Prince Lu. A race began on July 15 after twenty-six days of force assault. One night shelling was uninterrupted for six hours. 'Four attempts were made to fire the British legation. Two accidents resulted in the ruin of the Han Lin college (Chinese national college). The cowardice of the Chinese prevented successful rushing. 'The total killed or died in: Germans, 10; Japanese, 10; French, 11; British, 5; Russians, 4; Americans, 7; Italians, 7; converts, 9; total, 61. 'Correspondents Morrison, Reid and Twenty are ill. At least 2,000 Chinese were killed. The Americans occupy a strong position on the city wall. Provisions are still excellent. Hospital arrangements are excellent. Everybody is much exhausted by continuous work. 'Imperial edicts commanded the Boxers and ordered the missionaries to leave the interior and commanded all viceroys to help Peking; but an edict dated July 15 ordered prohibition and promise compensation. A report that a large relief force was coming produced this change."

According to the census of 1929 the
total mortgage indebtedness in the
United States was \$4,919,612,285.

The city council is to be commended
on its action forcing the building of

General Joe Wheeler has fought in
40 battles and was never defeated.
He has asked to be sent to China before
he is put on the retired list.

Hurst mail delivery is on the increase
in all parts of the United States and
seems likely to be extended into all
districts where the service is self-sus-
taining and where there are good roads.

Governor Roosevelt's mother was a

caterer in the navy. He thought she
was a southern belle in Cuba, and is

There are no lawyers in China, but
the quantity and quality of the fabri-
cations that have been floating around
the world would indicate that there is
plenty of undeveloped legal talent
going to waste in the eastern kingdom.

Recent extensive purchases of cloth,
shoes and iron have been made in Su-
zhou for the Japanese army, and the
Japanese purchasing agent said: "Our
men will wear American shoes into
China, and when they reach Peking will
hang American shirts on the wall to dry."

It is to the credit of our land that so
few attacks have been made on the
Chinese and that the few have been so
promptly suppressed by the local au-
thorities. Public opinion has developed
upon any revolutionary sentiment that
would take it out on the Chinese here
for the sake of their countrymen thou-
sands of miles away.

The tool manufacturers of Germany
have formed a trust for the purpose of
reducing costs and more effectively
fighting foreigners, especially Ameri-
cans. The matter is respectfully
referred to Mr. Bryan, with the request
that he cause the immediate suppres-
sion of this very objectionable trust.
The trusts are as thick in Europe as in
America.

Emperor William has sworn ven-
geance against the Chinese. In his ad-
dress to his troops on the eve of their
departure from Bremerhaven, he said:
"Our task is one of revenge for the trea-
son of our ambassadors and for the
violation of the rights of hospitality.
Give no pardon and make no
prisoners. Manage your arms so that
within the period of a thousand years
no Chinaman will risk to even look
with an evil eye on a German."

CONDITIONS AT CAPE NOME.
Surgeon Albert U. S. A. has sent to
the surgeon general of the army a re-
port, giving details of the situation
existing at Cape Nome. He says that
within two or three weeks the popula-
tion has increased from 2,700 to 20,000,
with tents and buildings irregularly
located along the beach. The sanitary
conditions were very crude in the first
place, and with the influx of the new
population have become much worse.
He describes a horrible condition ex-
isting, as there is no method of cleaning
up the town and no provision for the
destruction of accumulations of gar-
bage and filth.

DREADED DEATH.
All the plagues and evils and pests
of men and beast fall to cause so much
suffering and loss and death as the
drouth. There has never in the his-
tory of the world been such a record,
because there was never before such a
population of human and bovine beings
to be affected by such inequalities in
the fall of rain as there have been in
the last two years.

Worst of all, of course, is the drouth
in India, which has caused and is still
causing the death of many thousands
of Hindus, after their cattle had al-
ready died.

A disastrous drouth in upper China
was one of the causes of the rising
against foreigners, enabling the Boxers
to play upon the superstitions of the
natives.

A fearful drouth in Arizona has
caused 9,000 Indians to die of famine
and drouth in the country with
dead cattle.

So severe is the drouth in Utah that
the range is dried up and sheep are be-
ing taken out of the country and in New
Mexico the range is suffering terribly from
lack of water.

There has been so great a drouth in
the Lakotas and Mandans that the
usual wheat crop is reduced to not over
one-tenth.

HOSPITAL FOR MINERS.
The New Mexican argues that the
territorial hospital for miners should be
located in a large town and not in a
mining camp. The argument is not sus-
tained. A hospital for miners should be
located in a large town where there is
work, so that immediate relief could
be afforded in case of accident. Of
course, the New Mexican thinks the
miners' hospital should be located at
Santa Fe. That city already has a hos-
pital kept up at territorial expense,
and that town should not ask for
everything in sight. Santa Fe pays less
