TALK OF PEACE!

War in South Africa Nearing End.

Train Robbed by Bandits in Kentucky.

Attempt to Wreck a Train and Steal \$3,000,000 in Gold.

WEST VIRGINIA REPUBLICANS.

Pretoria, July 11.—The British success at Botha's camp has considerably improved the prospects of peace. It is said. The whole government of the Orange Free State has surrendered except President Steyn. The collapse of the forces of General De Wet is expected daily. It is expected that when General Botha learns of the defeat of his colleagues he will gladly enter into conference tending to the establishment of peace.

Philadelphia, July 11.—According to the officials of the Baltimore & Ohio railroad a deliberate attempt to wreck the Washington express bearing \$2,000,000 in gold to the sub-treasury at New York, came near being successful early today at Potomac, a short distance outside of this city. The engine, which overturned the engine and derailed three baggage cars, but no one was injured. Examination disclosed the fact that the switch had been tampered with.

West Virginia Republicans. Charleston, July 11.—The republican state convention, which opened here today had the largest attendance in the history of this state. In addition to the nomination of a state ticket, the convention marks the opening of the presidential campaign and Stephen B. Hildesheim as senator. While there is no opposition to Hildesheim for senator or to A. B. White for governor, there are contests for other places on the state ticket.

Train Robbery. Paducah, Ky., July 11.—The Illinois fast train from New Orleans to Chicago was pillaged by a gang of two miles south of Wickliffe, Ky. The bandits entered the cab. Fireman J. J. Frysch was struck on the head with the butt of a revolver and badly hurt. The robbers, six in number, cut off the engine and express car and ran a mile and a half to Port Jefferson, on the Ohio river and within sight of the Missouri shore. Here they blew open the express safe and secured \$16,000 and crossed into Missouri.

Short Wheat Crop. Chicago, July 11.—Grain markets opened strong on the board of trade today, influenced by a government report issued after the close yesterday, showing a big drop in the conditions of spring wheat. Before noon September wheat had advanced 2½¢. September corn, 1½¢. September oats, ¾¢. The close: Wheat—July 80½¢; September, 82½¢; Corn—July 43¢; September, 44½¢; Oats—July 24¢; September, 24½¢.

Rebels Dispersed. Paris, July 11.—The Chinese minister here has informed M. Delcasse that Li Hung Chang called him from Canton under yesterday's date, saying that his

had just received a telegram from Peking, asserting that the soldiers and rebels who surrounded the legations had gradually dispersed.

Fighting the Chinese. Berlin, July 11.—The German consul at Tien Tsin cables that the foreign settlements were continually bombarded by the Chinese from July 5 to July 8. On July 6 2,000 Boxers attacked the French settlement and were routed by the Russians. The British and Japanese forces on July 7 bombarded the Chinese batteries. Toward evening a Chinese bullet penetrated the roof of the German consulate, which caused an outbreak of fire, which was extinguished after slight damage.

The Stevenson Son. On the delayed passenger train from Tien Tsin and back has been a young gentleman, Louis Stevenson, son of Admiral E. H. Stevenson, the democratic presidential candidate. He was on his way from Los Angeles to Bloomington, Ill., to join in the celebration of his distinguished father. When the train reached Las Vegas, there he met Senator W. A. Clark, coming south, the senator at the time being interviewed by the Optic. That paper has the following to say of the incident: "The senator's talk was interrupted by a pale-faced, sad-eyed young man, who extended his hands with the salutation: 'Excuse me, Senator Clark, I am the son of Admiral E. Stevenson, just nominated on the democratic ticket to be vice president.' The senator shook the young man's hand heartily and said he knew his father well and esteemed him highly."

Young Stevenson, a few years ago, resided in Grant county, and did considerable prospecting and mining in the Santa Rita mining district. People of Grant county are well acquainted with the son of the candidate of the democratic party for vice president.

THE SMELTER MATTER. Commercial Club in Meeting Last Night on the Subject.

Pursuant to call, a large membership of the Commercial club met last night to consider the proposition submitted by A. J. Frank, of Denver, as to the location of a big smelter plant in this city.

After the reading of Mr. Frank's letter on the subject (it was published in The Citizen yesterday afternoon) quite a number present discussed and made speeches on the proposition.

Without taking any definite action, President Marmon, of the club, appointed J. E. Saint, G. L. Brooks, J. S. Raynolds, A. A. Grant and J. C. Baird a committee to investigate the project and to report at another meeting of the club in a few days.

The club adopted the following by-law, in the constitution, which was submitted to a meeting of the club, held on May 5, 1900: "That section 6, of article 2, shall be amended to read as follows: 'Also, members shall be entitled to the social facilities of the club, may participate in all business meetings, and shall be entitled to vote except for the election of officers or directors, or upon matters pertaining to the government of the club.'"

Other matters, pertaining strictly to the club, were acted upon, after which an adjournment was taken.

TROOPS LAND!

Ninth Infantry Land in China.

Empress of China Publishes an Edict.

Heavy Fighting Between the Allied Troops and Chinese at Tien Tsin.

REVOLT SUBSIDING AT PEKIN.

Washington, July 11.—The following cablegram has been received at the navy department from Admiral Meyer: "Choo Foo, July 11.—Arrived yesterday, two battalions of the Ninth infantry and one battalion of marines. Colonel Meade, landed to-day and will proceed to Tien Tsin. The allied forces at Tien Tsin are engaged in maintaining their defenses. Ordered Solace here to take sick and wounded to Yokohama hospital. The Oregon will proceed soon to dock at Kure, to be towed by a chartered steamer and conveyed by the Nautilus. Just learned from Admiral Seymour at Tien Tsin, that the foreigners there are held prisoner."

HEAVY FIGHTING.

Chinese Putting up a Heroic Resistance at Tien Tsin. London, July 11.—Although Shanghai to-day repeats the statement that both the emperor and dowager empress are alive and telegrams from Chinese officials again testify to the safety of the legations, the assertion no longer stimulates hope here and pessimism will prevail as long as the authorities who, after their own showing, are able to get messages to the coast, fail to send confirmation of the safety of foreigners from some member of the legation at Peking.

London sees in the disappearance and reappearance of prominent people at Peking and the efforts of the Chinese apparently are making to shift the blame from one to the other, and in the attempts to represent themselves as victims instead of principals in the recent occurrences, only preparations for all-out defenses in view of the approach of the troops of the powers and the tragedy they may discover on reaching the Chinese capital.

According to a dispatch from Shanghai, fighting at Tien Tsin on July 6 was the heaviest which has yet occurred. The Russians alone burying 200 men. The allies are becoming exhausted.

A dispatch from Canton says Li Hung Chang is keeping excellent order there. Robbers and pirates are executed frequently and the people cowed and afraid to disturb the peace.

Chinese Disclaim Responsibility. Washington, July 11.—Wu Ting Fang, the Chinese minister, delivered to Secretary Hay this morning a copy of a cablegram received by him, purporting to be from the Chinese imperial government, believed to have originated in the Chinese war department, disclaiming responsibility on the part of the imperial government for the Boxer trouble, and asserting that the engagement at Tien Tsin was the direct result of the bombardment of the Taku forts by the foreigners.

Editor by the Empress. Shanghai, July 11.—The edict of the empress dowager, promulgated June 30, has just been published at Shanghai. She expresses sorrow for the death of Baron von Kettler, the German minister, who, she says, went to the Taku forts on the day of his death against her wishes. She expresses regret that the capture of the Taku forts should have complicated matters, but orders the Boxers to be suppressed and the foreign legations at Peking protected. The whole tone of the edict is that the foreigners are to blame for the gravity of the crisis.

Revolt Decreased. Berlin, July 11.—The German consul at Che Foo telegraphs that the governor of Shan Tung announces that, according to reports on July 4, the foreign ministers at Peking were out of danger and the revolt was decreasing.

KILLED IN A RUNAWAY. Robert E. Bates the Victim of a Fatal Accident.

One of the saddest accidents which have occurred in the vicinity of Silver City in many a day happened Friday morning, by which Robert E. Bates, of Pecos, was fatally injured, dying shortly afterward, and his son, William Bates, quite painfully injured, says the Independent.

Mr. Bates and his son were driving into Silver City for the purpose of making final proof in the matter of a homestead entry. About 7:30 o'clock Friday morning they started down a steep hill in what is known as Horse Canyon, in the western portion of the county. They had nearly reached the

bottom, when one of the mules which they were driving was struck by a wagon or some other insect, and started to run. William Bates told his father to hold on to the seat and he would do what he could to stop the mules. He succeeded in guiding the animals safely for quite a little distance, when, suddenly, one of the front wheels gave way under the strain, and both occupants were precipitated to the ground. The son was rendered unconscious, and when he recovered his senses he found himself entangled in the wreck of the buckboard, the mules having broke loose. He was badly bruised about the left side and shoulder and his left foot badly sprained. He at once thought of his father, and found him lying unconscious about twenty feet from the side of the road. A Michigan had been cut along the right side of his head and he was injured internally.

Realizing that his father was very seriously hurt, the son made him as comfortable as possible under the circumstances, and started back a distance of six miles to where some men were working on the road, for aid. This distance he made on foot, suffering excruciatingly from his sprained foot and other injuries. He finally came upon the road men and together they returned to the scene of the accident. Mr. Bates was still alive and was at once taken to the nearest residence, that of Kitt Conn, for medical assistance, but, before a doctor could be secured, he breathed his last. Interment was made Saturday in the Gila cemetery.

Robert Emmett Bates was born in Massachusetts seventy-four years ago. In early life he moved west to Michigan, and from there to Indiana, Nebraska and Wyoming, joining his son, William, in Grant county in 1893. He was an industrious, upright citizen, and commanded the esteem and respect of every person. Besides his aged wife and two sons, William and Guy, residing in Grant county, he is survived by three other sons and two daughters. The news of his death caused universal regret.

William Bates came into Silver City a Sunday evening, and while suffering much pain, is able to be about.

BEN WELLER'S EXPERIENCE.

Poisoned by Drinking Fourth of July Lemonade in Silver City.

Very few people in Albuquerque, if any, know that Ben Weller was poisoned on or about the Fourth of July. He was at Silver City, where he entered the bicycle race and was a successful contestant for the prize, but when he returned to this city he kept mum on the poisoning. The news, however, has been told, the credit being given to the Independent for the following account: "Mr. and Mrs. Abe Abraham and Mrs. Sam Abraham, of Clifton, Ariz., who is visiting them, had a very narrow escape from death by poisoning Thursday afternoon. To alleviate the heat all partook freely of some lemonade, which had been allowed to stand in a galvanized vessel. In a few moments all were seized with severe cramps. Drs. Gilbert and Wadswick were called and had several hours' hard work before their patients were out of danger. The two Mrs. Abrahams suffering severely. Ben Weller, of Albuquerque, was also made very sick by drinking some of the same lemonade."

On An Inspection. A. G. Wells, general superintendent of the Santa Fe Pacific and Southern California; I. L. Hubbard, division superintendent, came in from the west this morning in Mr. Wells' private car. The general superintendent has just returned from a tour of inspection over the San Joaquin Valley railroad to San Francisco, and reports everything in splendid running condition. He and Mr. Hubbard will remain here several days. G. W. Smith, master mechanic and superintendent of motive power, who was also out west on business connected with his duties, returned to the city with the above gentlemen.

ALLEGED PLOT!

Plan to Assassinate President McKinley.

Sensation Caused by a Crank's Confession.

Red Lake Indians Threaten to go on War Path in Minnesota.

NATIONAL EDUCATIONAL ASSOCIATION.

Newburg, N. Y., July 11.—Chairman B. S. Odeh, of the republican state committee, said to-day, concerning the alleged plot to assassinate President McKinley: "I have nothing to say on the subject except that I made an investigation on the line of what I supposed to be reliable information, and I discovered either a crank or a Baron Munchausen, and on the principle that an ounce of prevention is worth a pound of cure it is probable that my report to Secretary Dick is the cause for the extra care now being taken of the president. I have nothing further to say on this subject, except that I regret that someone has been indiscreet enough to make of a trifling matter the gigantic plot exposed in the newspapers."

Hanna Denies Story. Cleveland, Ohio, July 11.—Senator Hanna to-day denied the report that a plot to assassinate President McKinley had been discovered in New York. "This," said Hanna, pointing to a story of the alleged plot, published in the morning papers, "is the first I have heard of it."

Cornelius N. Bliss, ex-secretary of the Interior and National Committee-man Payne, of Wisconsin, arrived here early to-day, and was closeted with Senator Hanna an hour or more discussing the report. The personnel of the new national committee, shortly after noon Senator Lodge joined the conference.

National Educational Association. Charleston, S. C., July 11.—"Contributions of Religious Organizations to the Cause of Education," was the general topic at the forenoon session of the National Educational association. President Corson announced the nominating committee, composed of one member from each state represented, which will nominate officers for the coming year. Nearly 2,000 delegates have arrived, but considerable disappointment is expressed that there are not more present.

Minnesota Indians Hold War Dances. Solway, Minn., July 11.—The blanket Indians, of Red Lake, are in a sullen mood and trouble is feared. The government is erecting a \$20,000 school at that point and these Indians seriously object to any attempt at civilizing them. They have refused annuities from the government for a number of years, claiming the government has not given them their just portion of the Indian money. White settlers near the reservation are arming themselves, fearing an attack. A call probably will be made for state troops. The Indians are holding war dances nightly.

Silver City's Credit. Silver City, N. M., July 11.—The bonded indebtedness of the city, amounting to \$50,000, will be refunded. At a special meeting of the city council the proposition of C. T. Grayson, banker, on behalf of the bondholders to refund bonded indebtedness in 4 per cent bonds, was accepted. It is learned that this move will save the city nearly \$2,000 per annum.

ALBUQUERQUE - JULY 11, 1909

National Republican Ticket

For President—
WILLIAM MCKINLEY,
OF OHIO.

For Vice President—
THEODORE ROOSEVELT,
OF NEW YORK.

Last year the expenses of the govern-
ment were very heavy, and still \$100,000,000 of the public debt was paid.

Bradstreet's reports the failures for
the first six months of 1909 the fewest
for eighteen years, but the fact was
not mentioned in the Kansas City
platform of denunciation.

The colonies of France alone import
\$47,000,000 worth of goods a year. This
helps materially to keep the factories
busy, and to afford a market for the
farm products of that European
country.

During the past three years the in-
crease in the national bank deposits
exceeded \$418,000,000. During Presi-
dent Cleveland's term of four years,
there was an increase of only \$70,000,000
in the national bank deposits.

Under the operation of the Wilson
free trade tariff for revenue only, there
was a deficit of \$109,000,000 in thirty-
five months. Under the Dingley tariff
for protection there was a surplus of
\$48,000,000 in thirty-two months.

The republican party has always
stood up for the protection of American
wages, for 100 cents in the pay-
ment of wages and originated the pol-
icy of free home-made goods, thus giving
solid proof of its friendship for the
industrial masses.

A comparative statement of the re-
ceipts and expenditures on account of
the postal service for the fiscal year
ended June 30, 1909, shows the total
receipts to have been \$103,245,450 and
the expenditures, \$107,776,704, which
leaves a deficit of \$4,531,254, or against
\$4,531,254 for the previous fiscal year.

Exports of agricultural products for
the fiscal year just ended ended \$350,000,000. Of American manufactured
goods the exports amount to about
\$420,000,000. Of the products of mines,
they will reach about \$140,000,000. Ex-
ports of the products of forests will
amount to \$40,000,000.

The populist party is dying because
of fusion with the democratic party.
The populist party sought to establish
an order of things for which it had
a definite aim. In this respect it was
entirely different from the democratic
party, and a populist has really no
business in the democratic ranks.

BOOM AT MANILA.

The magic American touch has
roused Manila in two short years to a
commercial animation it would not
have had in a thousand years of Span-
ish rule. Official reports published to-
day show total importations for the
calendar year of eighteen million dol-
lars. At the same time the report
shows that the business going there
from the United States is in many lines
not at all what it might be.

YEARS COINAGE.

The annual statement of the coinage
executed at the mints of the United
States, issued by the director of the
mint, shows the total coinage to have
been \$14,257,750. The total gold coinage
value of \$14,257,750, as follows: Gold,
\$107,957,100; silver, \$3,121,853; minor
coins, \$2,441,917. This is an increase as
compared with the fiscal year ended
June 30, 1908, of \$2,024,345, or 16.3 per
cent. In value. The coinage during 1908
amounted to \$12,233,405, as follows:
Gold, \$8,320,770; silver, \$2,094,217; minor
coins, \$111,214.

DASTARDLY PLOT.

It is hard to believe that a plot
extending to assassinate President McKin-
ley, yet the New York World publishes
the details of a plan on the part of a
gang of Spanish and Cuban desperadoes
to kill the president. One of the
plotters was named and sent a warning
letter to a member of the national re-
publican committee. Investigation was
made and certain allegations made in
the letter were verified. The plot was
so dastardly that it was not believed
possible till detectives disclosed that it
demanded serious consideration. Two
republican presidents have been as-
sassinated, and the "imperialistic" cry
being sent up by the Bryanites may
cause cracks of the Wilkes Booth and
Chautauque stripe to seek the life of Mr.
McKinley.

PROSPEROUS RAILROADS.

The annual report of the Inter-State
Commerce Commission shows that the
railroads of the United States are get-
ting out of the hands of receivers, and
that nearly all the roads are in pros-
perous condition. The total gross earn-
ings of railroads were \$228,000,000
larger last year than in 1908. The
number of passengers carried during
the year was 2,116,000 more than dur-
ing the previous year. There were 44,000
more men employed in the year
ending June 30 than in the pre-
vious year. The number of locomotives
in use was increased by 4,400. The rail-
road men of the country certainly do
not wish to change to democratic rule.
There are nearly one million
railroad men in the United States, and
nearly all of them are in favor of re-
publican propriety.

SURVEYING IN NEW MEXICO.

An expedition connected with the
geological survey and headed by Rob-
ert T. Hill will spend the remainder
of the summer in exploring the south-
eastern part of New Mexico, the ge-
ology of which region is but little
known.

That part of the territory con-
sists in the main of isolated groups or short
ranges of mountains lying between
which are broad plateaus of desert

A BLOODY FORT.

Old San Carlos, a Historic Fort, to
be Abandoned.

SCENE OF MANY INDIAN RAIDS.

When a company of the Seventh In-
fantry leaves Fort San Carlos, Arizona,
for Fort Loomis, one of the historic
frontier forts of the United States, it
will be abandoned and will revert to the
management of the Indian agent.

For many years San Carlos was the
hotbed of Apache troubles. When the
Apaches decided to leave their reser-
vation and sweep down into Old Mex-
ico their trail lay close beside the fort
and the result was that soldiers at the
post in the early days saw plenty of
fighting. Most of the fighting came
upon the Twenty-ninth, Fourth and
Tenth cavalry regiments, as they
were stationed there during the trou-
blesome years of the Indians. It was
located at the junction of the Gila and
San Carlos rivers, at the southern
corner of the Apache reservation, and
was known fifteen or twenty years ago
as the most dangerous post in the west.
It was the time when the Apaches
were almost continually on the war-
path; when a quiet week or month was
sure to be followed by a raid by the
Indians which called for hard riding
and hard fighting by the soldiers.

"APACHE KID" LIVED THEIR.
Army officers say that they never
saw a time for many years when the
officers and men in San Carlos were
not prepared for fighting. The raids
by the Indians became so frequent
that they came to be expected. It was
at San Carlos that "Apache Kid," an
first sergeant scout, killed the chief
of scouts and then fled to his people
in the mountains and began his career
of crime and blood. He was the most
desperate of the Apache leaders and
the most bloodthirsty, according to
army officers. He was killed, too, for
he had learned much at the fort, and
coupled with this knowledge was his
natural craftiness and Indian traits
and his thorough knowledge of every
trail in the mountains.

Germino, too, gave the soldiers at
San Carlos plenty to do years before
general, then Lieutenant Lovett, moved
to earth and closed his career. In the
early days San Carlos was in the
midst of its hardest fighting and
brushes with the Apaches were almost
weekly occurrences. The Indians
tried more than once to take the fort
by storm.

INDIAN AFFECTION IS FATAL.

Of the stories told of old San Carlos
one is of Agent Cushing, of whom the
Indians were really fond. The govern-
ment decided to transfer him to an-
other agency. The Indians heard of
this, invited Cushing into the moun-
tains to hunt and he was never again
seen alive. One story has it that his
body was returned to the fort, but
the Apaches kept fragments of
flesh and bone, determined that if they
could not have him entire they would
have most of him, and the white men
could do as they pleased with the re-
mains. The story is told as an example of
an Indian's love of friendship.

San Carlos was known, aside from its
reputation as a place of fighting, as
the hottest post in the United States.
The average temperature in summer
there is 110 degrees in the shade. In
the winter it is extremely cold. In his
book on western forts General McCook
speaks of the post as the only one in
America in which extreme heat and
cold were known to exist.

The fort was constructed roughly at
first, the officers living in adobe
houses, but the men were quartered in
canvas houses. During the summer
the men were virtually confined in
furnaces. Some years ago, however,
the government erected adobe houses
for the men and in other ways made
the place more habitable, but it was
never known as "the hell of American
forts."

Five tribes of Apaches came under
the jurisdiction of the Indian agent at
San Carlos. They number 3,402, and
have a developed economy. The San
Carlos, Tohono, Mojave and Yuma
Apaches.

A Night of Terror.
"A fearful anxiety was felt for the
widow of the brave General Burnham,
of Machias, Me., when the doctors said
she could not live until morning,"
writes Mrs. S. H. Lincoln, who attended
her that fearful night. "All thought
of her was soon lost in the realization
that she had been stricken with pneu-
monia, and she begged for Dr. King's New
Discovery, saying that it had more
than once saved her life, and had cured
her of consumption. After three small
doses she slept easily all night, and
she further use completely cured her."

Accidentally Shot Himself.
George Lindsay, a young married
man employed in the gaming rooms at
the Headquarters, accidentally shot
himself in the leg at the hot springs
yesterday afternoon at 2:30 o'clock, and
is now hovering between life and death.
He and his wife were seated in a buggy

and a revolver, which had been drawn
to shoot a dog, was jostled off the seat
or was accidentally discharged in the
handing of the gun, the ball entering
the calf of his leg, ranging downward
and shattering the bone and coming
out on the other side of the member.
A physician was immediately sum-
moned and pronounced amputation of
the limb necessary. However, Mr.
Lindsay objected and the operation has
not yet been performed. The patient
is now in a precarious condition and
it is feared that he will not survive the
wound.—Optic.

Is It Right
For an Editor to Recommend Patent
Medicine?
From Sylvan Valley News, Broad-
way, N. C.
It may be a question whether the edi-
tor of a newspaper has the right to
publicly recommend any of the various
proprietary medicines which flood the
market, yet as preventative of suffering
we feel it a duty to say a good word
for Chamberlain's Colic, Cholera and
Diarrhoea Remedy. We have known
and used this medicine in our family
for twenty years and have always
found it reliable. In many cases a dose
of this remedy would save hours of
suffering while a physician is awaited.
We do not believe in depending im-
plicitly on any medicine for a cure, but
we do believe that if a bottle of Cham-
berlain's Diarrhoea Remedy were kept
at hand and administered at the onset
of an attack much suffering might be
avoided and in very many cases the
presence of a physician would not be
required. At least this has been our
experience during the last twenty years.
For sale by all druggists.

STREET RAILWAY FRANCHISE.
An Application for It Made to Santa Fe
City Council.
The city council last night spent an
hour discussing the petition of Colonel
George W. Knudsen, asking for a street
railway franchise, says the New Mexi-
can. In behalf of Denver capitalists,
the petitioner asks the city to grant
him and his associates a franchise to
erect a street railway on the Santa Fe
horse car lines, the franchise to be
good for fifty years, and at least one
mile to be in operation within one year
from the date of franchise. The Santa Fe
family, have gone to Albert Lea,
Minn., where he has accepted a posi-
tion with the Chicago & Great West-
ern.

ness last night. He returned to Ma-
drid this morning.

Mrs. J. P. Pfister, of Hialeah, Kan.,
arrived in the city and will spend a
few weeks with her sister, Mrs. J. C.
Bairdridge, and family.

J. R. Raynolds, the banker and one
of the heaviest subscribers to the citi-
zen, was here to-day, arriving last
night from Las Vegas.

The bridges along the Santa Fe Pa-
cific will be inspected, the chief engi-
neer of bridges, A. F. Robinson, leaving
for the west on the afternoon train.

George Shandard, of Crown Point,
Ariz., a rough rider who attended the
reunion at Oklahoma City, passed
through the city for his Arizona home
last night.

Best Jones is again showing up
finely as one of the star pitchers of the
St. Louis national base ball club. Yes-
terday he pitched against the Boston
team and placed nine whitewashes to
his credit. This is the second time this
season that he has whitewashed the
Boston team, and he did the same
thing early in the season to the Brook-
lyn team.

Colonel James A. Lockhart, for years
one of the most extensive cattle raisers
and buyers of southern New Mexico,
now in the cattle business with Col-
onel John H. Riley, at Colorado Springs,
Colo., was a passenger to the terri-
torial metropolis last night. He talked
his way over the city for several hours
and left this morning for the ranges of
southern New Mexico.

The Southwestern Brewery and Ice
company—one of Albuquerque's big en-
terprises—is reaching out for trade in
all parts of the southwest, and there-
fore they are going to locate a branch
there they make business for that
town. This morning Don J. Rankin, of
the company, left for Silver City, and
it is understood a branch warehouse
will soon be established there.

S. J. Apodaca, a storekeeper on
South Second street, with his wife and
two children, came very near, yes-
terday, meeting with a serious accident.
They had been across the river on a
raft, and were returning to the city.
Just on reaching the city end of the
Barranca bridge, the horse they were
driving took fright at a big pile of
trash and flying paper, and ran away.
The wagon was tipped over and the oc-
cupants dashed to the ground. Mrs.
Apodaca and the children were pretty
badly bruised, while Mr. Apodaca, who
held to the reins, was dragged along the
ground and in consequence his lips
were considerably cut and bruised.

An Epidemic of Diarrhoea.
Mr. Sander, writing from Cococac-
not Grove, Fla., says there has been
quite an epidemic of diarrhoea there.
He had a severe attack and was cured
by four doses of Chamberlain's Colic,
Cholera and Diarrhoea Remedy. He
says he also recommended it to others
and they say it is the best medicine
they ever used. For sale by all drug-
gists.

Knock-Out Drops

"I am a saloon-keeper, and used to think
that rock and rye, or whiskey and quinine
were proper remedies for colds and
colds. Most of my acquaint-
ances were of the same opinion. Now I know
something else.
I was in Acker's
English Remedy for
Coughs and Colds, a
good while ago I began
to cough and found out
that rock and rye
was no good. I got worse
and I was beginning to
think that the trem-
ble would run into consump-
tion. I didn't take
any other kind of medicine,
but somehow or other I tried Acker's English
Remedy. It was better than the houses for
me—knocked that cough out completely—
and it has never come back again. There is
never a day passes that I don't say a good
word about this wonderful medicine. I ad-
mire it for its power to return the body to
flesh and bone, and I am stronger and
fresher now, since taking the remedy, than
I was before the cough began. I write this
letter voluntarily and cheerfully and am
glad to do it. (Signed) Chas. Evans,
Saloon-keeper, Peaslee, Idaho.
