## PROSPERITY DAY!

### Republican Convention at Philadelphia.

### Chairman Hanna Calls Convention To Order.

### Senator Edward O. Wolcott, of Colorado, Temporary Chairman.

#### HE MAKES ELOQUENT SPEECH.

Convention Hall, Philadelphia, June 18.—The convention was called to order at 12:30 p. m. by Hon. M. A. Hanna, chairman of the national committee.

Hon. E. O. Wolcott, senator from Colorado, was designated by National Chairman Hanna as temporary chairman at 12:52 p. m.

The crowds were slow in gathering in the convention hall, but after 11 o'clock they poured in steady streams until they blackened the acres of seats.

The long gallery was packed with humanity and the floor from wall to wall was a living sea of people.

Senator Hanna put in his appearance at 11:45 and got the first cheer. General Grover, the white-headed veteran, also got a cheer.

Occupying prominent seats upon the platform were four of the fourteen men living who were delegates to the first convention of the republican party held at Philadelphia, July 17, 1856. All were members of the regular Ohio delegation.

At 12:07 Governor Roosevelt came in through the main entrance and moved down the center aisle. He wore his Rough Rider hat and was instantly recognized. Heavy cheers greeted him.

Men jumped upon chairs and women flattered their handkerchiefs. The delegates crowded forward to greet Roosevelt as he moved through the press and his entrance, theatrical though it may have been, was like that of a conquering hero.

The band broke into the strains of "The Star Spangled Banner." Governor Roosevelt was first on his feet in response to the national anthem. His Rough Rider hat came off, and he stood with his head uncovered. Instantly the cheering began as he stepped forward to shake hands with the delegates.

Ten thousand people stood while the stirring air was played and applauded as they took their seats. Chairman Hanna remained standing.

Exactly 12:25, Chairman Hanna remained standing with bowed head, while Rev. Dr. James Gray Bolton of the Hope Presbyterian church of Philadelphia offered prayer.

As the prayer closed, Senator Hanna said: "The secretary of the national committee will now read the call for the convention." Colonel Dick read the formal call, the whole council of welcome. "In bidding you welcome," he began, "I also wish to congratulate you on the magnificent representation from the republican party."

"There was a round of applause as Hanna rolled out the words 'republican party.' There was no mistake in bringing the convention to Philadelphia," Hanna went on. "Here was the cradle of liberty, the birth place of the republic. Here also had the republican party seen its birth, and here, too, was the center of that throbbing life—protection to American industry."

Another wave of applause swept over the convention at this mention of the protective principle and as it subsided Hanna proceeded: "We are on the eve of another great struggle. Already we are beginning to form our battalions under the leadership of our great statesman, General William McKinley."

The convention broke forth in a whirlwind of enthusiasm. The men and women sprang to their feet, animated by a common purpose to do honor to the president. Hanna looked down in smiling satisfaction at the

## TEMPERAMENTAL DEMONSTRATION.

### Flashes and handkerchiefs were waved everywhere in billows of color. For more than a minute the demonstration kept up, then with a wave of his hand, the national chairman bid the assemblage resume their seats and let him proceed.

"I was about to give the order for the assemblage to move, but you interrupted me," said Hanna jocularly, and applause was turned to laughter. Again Hanna evoked a demonstration when, in speaking of the approaching campaign, he declared: "And with such splendid support as a cause, there is no such word as fail." As Hanna closed his speech with a tribute to his colleagues on the national committee, and made reference to the close of his chairmanship, he spoke of the sterling service of the senator from Colorado, Wolcott, to his party, and presented him as temporary chairman. Senator Fairbanks moved that the selection of Wolcott as temporary chairman be approved, and the delegates so voted.

The appearance of the Colorado senator set the convention off like a rocket. He wore a blue sack suit with white waistcoat and tie, and with a step as he bowed low to the convention and there was something about him which suggested his mountain home. With a pleasant nod of acknowledgment to Chairman Hanna, he turned and addressed the convention.

Wolcott has a clear resonant voice, which penetrated to the furthest recesses of the hall. He speaks, however, with great rapidity and this perhaps somewhat spoiled the effect of his speech. But the thousands before him were in thorough sympathy with him and no difficulty in striking a responsive cord. When he mentioned President McKinley's name he could not proceed for a minute owing to the demonstration. When he said the old name of the democrats was dead and the new was born, he had been almost anxious to precipitate the convention rose at him, but the outburst was even greater when he declared that division among the republicans of the east and west on the financial issue was a thing of the past, and those who left the party four years ago in the west were returning on the issue of expansion. Probably the greatest demonstration occurred when Wolcott said we would establish law and order in the Philippines and the last thing to be considered was to give up the islands.

He spoke an hour and ten minutes. As his brilliant peroration closed there was another enthusiastic demonstration of approval. Wolcott received many hearty handshakes from those about him and then turned to the business of the convention, announcing long lists of secretaries and officials previously agreed upon.

There was a momentary lull and Wolcott said: Governor Taylor of Kentucky is recognized. Taylor moved up the aisle to the platform, receiving a cheer as Wolcott advanced to greet him. In a piping voice Taylor seconded the nominations of the various officers announced. The nominations were unanimous. The rules of the last convention were adopted. The roll call of states for submission of members of various committees was then begun. It proved tedious and the convention was handed in recess as the names were read.

While the lists were being brought to the stage Governor Roosevelt was holding a regular levee in the pit. Delegates swarmed toward him from all directions. The New Mexico delegates, with broad sombreros climbed over the seats in their eagerness to get to him and shake his hand. People leaned over the rails of the pit watching every movement.

When order was restored after the confusion incident to this scene, Wolcott announced that the secretary would read the list of the various committees, which he announced, could meet immediately after the adjournment of to-day session.

Rev. Edgar M. Levy, who delivered the invocation at the first republican convention in this city 44 years ago to-day, was the white-haired, feeble old man who delivered the benediction, and exactly at 3 o'clock the convention adjourned until to-morrow.

Working on Platform.—The probabilities now are that Senator Fairbanks of Indiana will be chairman of the committee on platform. Senator Foraker has done a great deal of the preparatory work of putting the platform in shape. A resolution probably will take shape in the condemnation of bimetallism "except by international agreement." The extreme gold men demand even this implied concession shall not be made.

## VICE PRESIDENT!

### Roosevelt Will Probably be Nominated.

### Senator Fairbanks Chairman on Platform.

### Four Thousand Russian Troops Ordered to Taku, China.

#### CHINESE INTERRUPT TELEGRAPH LINES.

Philadelphia, June 18.—The friends of Governor Roosevelt find fault with his pronouncements. Said one: "He looks like Wolcott for vice president if Roosevelt continues to decline. Platt, Quay and others will spring him."

TROOPS FOR CHINA.—Japan, Russia and Great Britain sending troops to Peking.

London, June 18.—From German official dispatches it is learned that American ships took no part in the bombardment of the Taku forts on Saturday morning. No news has as yet been received here of the relief of the legations at Peking.

Berlin dispatches intimate that Germany will not object to Japan sending eighteen thousand troops, while Great Britain will endorse the plan with avidity, though perhaps only the secretary of the Japanese legation in London has official information of the dispatch of 3,000 troops. The British are dispatching six native regiments, besides artillery, from India.

The revolt is spreading in western China. Representatives of Pritchard Morgan, M. P., at Cheng Tu wires that he and party are detained there owing to the revolt, though perhaps only the secretary of the Japanese legation in London has official information of the dispatch of 3,000 troops. The British are dispatching six native regiments, besides artillery, from India.

Cable dispatches from Shanghai report a number of Chinese cruisers anchored in sight of the foreign settlements, which are only guarded by the small Japanese gunboat. A thousand Chinese troops, with two forty-nine ton guns, still hold the forts outside the town.

The victory of Woo Sung is reported to have assured the consuls that the foreign settlements at Shanghai will not be attacked. An agency dispatch from Shanghai, dated June 18, says the latest news from Peking is that the dowager empress is greatly concerned at the capture of the Taku forts and that wholesale degradations in the Chinese army, including Governor Sun Ching and Pung Fu Siang, governor of Peking, and other high officials, who promised Tung Li Yamen to accomplish the expulsion of foreigners, has taken place. Three of the Taku forts, it is added, were completely destroyed, and most of the garrisons killed or wounded by the charge of the sailors.

HONORABLE REPUTATION.—At the Leading Music House of New Mexico and Arizona is the Aim of Hall & Learned.

To those unfamiliar with the Chickering Bros. piano sold by Hall & Learned, we would state that they are made under the direct supervision of Mr. Clifford C. Chickering, who for twelve years studied piano making in its most minute details in the factory of that famous company of like name. This training, combined with the inherent determination to make nothing but the best, has given Mr. Chickering an enviable reputation as a practical piano maker of extraordinary ability. The excellent material used in the construction of Chickering Bros. pianos, and the careful workmanship employed, give Hall & Learned perfect confidence in their superiority. It is therefore, with earnestness, they invite your careful attention to the Chickering Bros. piano, believing in its merit and fairness of comparison. Write for terms and catalogue. Temporary quarters, 214 Walter street.

A fine new colonial style Chickering Bros. piano will be used at the Normal Oratorical society's concert at Las Vegas, June 20 and 21.

## COSTLY FIRE!

### Bloomington, Ill., Badly Burned.

### Destructive Fire at Pierce, Arizona.

### Carpenters and Builders Warned to Keep Away from Chicago.

#### DEATH OF MRS. BEVERIDGE.

Bloomington, Ill., June 18.—Fire was discovered at 12:30 this morning, which swept five blocks in the business section of the city. The losses are estimated at over \$2,000,000. As every effort to check the flames proved futile, the blowing up of buildings with dynamite was resorted to. The wind made the work of the firemen extremely difficult.

Forty to fifty business houses were burned out. The court house, which was destroyed, cost \$400,000. The records were saved. Engines from Peoria and Springfield arrived at about 6 a. m. and were greeted with cheers by the great multitudes in the streets. The pumps at work failed seriously for two hours after the fire broke out and the supply of water was inadequate. The wind had died down and there is now some hope of checking the conflagration.

Two firemen are missing. Robert Louis Schmidt, aged 19, died from a shock occasioned by the noise of the explosion of dynamite.

Destructive Fire.—Tucson, Arizona, June 18.—A Star special from Pierce, Arizona, says that on Saturday afternoon the entire plant of the Commonwealth Milling company was destroyed by fire. The fire caught from oil used as fuel. Loss, half a million dollars. Negotiations are pending for the sale of the mines to an English syndicate.

Warned from Chicago.—Chicago, Ill., June 18.—New life has been injected into the strike and lock-out in Chicago by the action of the National Building Trades Council, which has sent a warning everywhere to builders to keep away from Chicago to builders to keep away from Chicago and other places where strikes are on.

Talk of Extra Session.—Chicago, Ill., June 18.—A special to the Tribune from Washington says: "President McKinley is about to call an extra session of congress to take measures to send troops to China."

Death of Mrs. Beveridge.—Indianapolis, Ind., June 18.—Mrs. Beveridge, wife of United States Senator Albert Beveridge, of Indiana, died in a sanitarium at Danvers, N. Y. This morning, of heart failure.

Canton is Quiet.—Hong Kong, June 18.—It is understood Li Hung Chang leaves Canton for the north on June 20. Canton is quiet. The viceroys of the provinces bordering on the Yang Tze Kiang are believed to be strongly opposed to the revolutionary movement.

Capt. Lee Drowned.—Washington, June 18.—General MacArthur at Manila to-day, reported that Captain Orson Lee, of the Forty-fifth infantry, was drowned off the coast of Albany on the 16th inst. He was 41 years old, born in Shelbyville, Ind., and entered the service in 1858 as captain of the Eighteenth Indiana volunteers.

ALBUQUERQUE — JUNE 19, 1901

Philadelphia is the political center of the United States this week.

The Opie of June 11 published the temperance address of Mrs. M. J. Jordan in full.

The people who have a taste for war and rumors of war ought to be satisfied now.

The demand for Roosevelt is so persistent that it almost certainly will be the republican nominee for vice president.

O. A. Larralde of Las Vegas, announces that he is willing to accept the democratic nomination for delegate to congress. This of itself is convincing proof that Larry is a brave man.

The business men of Alamogordo have raised the necessary funds to secure the building of a Baptist college. A seven thousand dollar building will be ready for occupancy by September first.

Reports from South Africa state that President Kruger's health is somewhat impaired. It was noticeable, however, that Mr. Kruger was able to carry \$2,000,000 when he made his escape from Pretoria.

The city census of Chicago, taken by the school board, shows that there are about 340,000 school children in that city, from which it is inferred that the total number of inhabitants is about 2,000,000.

In the electoral college there are 44 votes; 22 are necessary to elect. In the presidential vote in 1896 McKinley received 273 electoral votes and Bryan 176. McKinley received over Bryan 30 electoral votes. Where can Bryan gain a vote?

Announcements are frequently seen of cigarette smokers becoming insane. Doctors now are divided in their opinion as to whether cigarette smoking produces insanity or whether it is a streak of insanity in one's system that causes cigarette smoking.

President McKinley having signed the bill for opening the Kiowa, Comanche and Apache Indian reservation in Oklahoma to settlement and homestead entry, the bill will be sent to the disposal of homesteaders.

It is not always that a rolling stone fails to gather moss. The story is told how Mr. W. J. Bryan could make a living by an occupation which is so expensive to most people—the occupation of traveling, is partly explained by the fact that he has just received a check for \$25,000 from Mr. McLean, the Ohio newspaper man.

Germany has decided to build an immense navy. The new fleet will consist of fifty-seven battleships and fifteen large and sixteen small cruisers. This addition to the German navy will bring it up in effectiveness and armament to that of any other navy in the world, excepting, always, the sea establishment of Great Britain. It is said that the ships will cost nearly 2,000,000,000 marks, and that the building will consume a period of sixteen years.

COMING THIS WAY.  
Work is in progress on the extension of the Choctaw railroad from the Texas border to Amarillo, Texas. The new road will be in operation to the Texas town some time next winter. A party of surveyors are at work on the proposed line of road from Amarillo to Albuquerque, and a letter received this morning by a gentleman in this city from a prominent official of the Choctaw company says it will not be many months before the whistle of their engines will be heard in Albuquerque.

DOING THE TASK.

The characters cover about twenty square feet on the face of a perpendicular cliff, and some represent men, deer, hearts, stars and other things.

Some other profane vandals had taken away all the pottery and other things, had left the skeletons, a dozen or more, still there in all their ghastliness.

Hewage of Ointments for Catarrh that Contains Mercury.  
As mercury will surely destroy the sense of smell and completely derange the whole system of circulation, it is essential that the patient should never be subjected to prescriptions from reputable physicians, as the damage they will do is irreparable. The good you can possibly derive from such a cure is only a temporary relief, and the cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly on the blood and mucous surfaces of the system. In buying Hail's Catarrh Cure, be sure you get the genuine. It is taken internally and is made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists, price 75c per bottle.

J. W. Edwards, the undertaker, has subscribed \$40 toward the hospital fund.

Jacob Gainley and wife left this morning for Miami and the sulphur Hot Springs, and will be away several days.

W. T. McCreight, business manager of The Citizen, is confined to his room with sickness, but hopes to get around in a few days.

Mike Mandell, of the popular firm of Mandell & Grunfeld, is busily engaged preparing for his trip east on July 1st, and is carefully reviewing a list of the many lines of novelties he intends buying for his fall trade. In the meantime, the inventory sale is attracting the public, with gratifying results to all concerned.

At the Young Men's Festival this evening there will be many attractions. Brockmeyer's photograph will surely be on hand and there will be songs and recitations by Misses Gattin and Heron and Master Quiliver; violin solo by Miss Harris, accompanied by Miss Palladino, and the various games. Come and knock one of Scott Knight's nigger babies down and get a good cigar. Grounds open at 7:45.

W. H. Clark, a printer who arrived in the city about a week ago from El Paso, suffering from consumption, is very low. When he arrived here he was without any means of support, but the local Typographical union has been providing for his wants. Application for Mr. Clark's admission to the printers' home at Colorado Springs was made, but he sank so rapidly in the last few days that he is now too weak to stand the trip.
