BOERS DEFEATED!

General Buller's Army Wins a Victory.

Reports of Boer Victories Not Confirmed.

San Francisco Board of Health Raise Chinatown Quarantine.

GREAT NORTHERN TRAIN DERAILLED.

London, June 12.—The war office posts the following dispatch from Gen. Buller: "Headquarters, Natal, June 11.—We forced Almond's Nek. It is not marked on the map, but is the last defile to the Charleton Plate. The enemy were in considerable force, with several guns in position. The front of the fighting fell upon the Second Dragoons, who carried the position at the point of the bayonet, and third cavalry brigade, who were heavily attacked on our right front from the very brink of country around the last mountain. I hope our casualties are less than 100, considering the extreme length of the position is much less than I expected. The whole attack, was directed by Hildyard, whose dispositions were extremely good. The artillery, tenth brigade and third brigade did most of the work."

FALSE REPORTS.

Boers Claim Victories Which Could Not Be Possible.

London, June 12.—According to reports through Lorenzo Marques, Gen. Dewet with 13,000 burghers is marching on Johannesburg; the Boers have retaken Bloemfontein, where President Steyn again occupies the presidency; the British sustained a severe defeat at Mafeking and lost 750 killed, and wounded, and 150 prisoners in a fight at Vrededorp. Nothing from any other source lends color to these stories, with the exception of the last, which is probably a Boer version of the disaster to the militia battalion of the Derbyshire regiment at Mafeking.

In regard to President Steyn being at Bloemfontein, a dispatch from Maseru, Basutoland, dated June 1, says that President Steyn was then at Vrede, 200 miles from Bloemfontein.

Gen. Buller appears to be making substantial progress, and ought soon to be occupying the railroad at Charletonville, the southern extremity of Natal, whence presumably, he will advance on Heidelberg and effect a junction with Lord Roberts.

Among the members of the Yeomanry killed at Lindley, was W. T. Power, proprietor of the Canon ranch in north Texas and a son of Sir W. T. Power.

Great Northern Train Derailled.

Spokane, Wash., June 12.—News has reached here that the Great Northern eastbound passenger train was derailed on the summit of the mountain. It is supposed that the accident is the result of a broken rail. Two engines and four coaches are reported to have gone into the ditch. A score or more passengers are injured, but none killed outright.

Chinatown Quarantine Raised.

San Francisco, June 12.—The board of health has decided to raise the quarantine on Chinatown within twenty days from date of such discovery.

Deadly Duel.

Dallas, Texas, June 12.—At Livingston, Polk county, Tex. Bruce Boudin and Douglas Hinson fought a duel to the death with pistols. It was the result of a quarrel. Eleven shots were exchanged and both men died in their tracks.

Cabinet Meeting.

Washington, June 12.—The cabinet meeting today was devoted to discussion of the Chinese situation. Secretary Hay laid before the cabinet dispatches from Minister Conger, which indicated the situation as critical. It was decided to stand by the

policy of pushing measures for the protection of lives and property of American citizens and acting independently as far as possible. It may be that in accomplishment of this result, the forces of the powers will have to act in unison for the protection of all the foreign residents in the disturbed districts, but this is to be the extent of American activity.

African Explorer.
London, June 12.—Dr. Donaldson Smith, Philadelphia explorer, who recently reached Cairo in good health, had a remarkable journey from Barbaria to Lakes Rudolf and Stefanie. From Uganda he was conveyed down the Nile to Khartoum in an Anglo-Egyptian gunboat, the first vessel to traverse the upper Nile for some time. Dr. Smith accomplished much interesting work in the hitherto unexplored regions.

News from Methuen.

London, June 12.—The following dispatch was received at the war office from Gen. Forester-Walker, in command of the lines in South Africa: "Cape Town, June 12.—The following is from Kelly-Kenny: 'June 11.—No communication from Methuen since June 6. We are fighting on June 6 to the north of Vetchkop. Steyn is near Retz. The British prisoners sent to Vrededorp well treated.'

Boers Defeated.

London, June 12.—The war office has received the following from Gen. Kelly-Kenny: "Bloemfontein, June 12.—Our troops from the north are at Honingpruit (South Rodeval), where the Boers cut the British lines of communication having defeated the enemy. They will be at America siding tomorrow and Gen. Knox will move out from Kroonstad to intercept the enemy."

On Trial.

Chicago, June 12.—Capt. Geo. Wellington Streeter, whose cohorts recently took possession of the "District of Lake Michigan," and defied the whole local police force, was to-day held in the criminal court charged with conspiracy and assault. "District of Lake Michigan" is the name given by Streeter to the land formed by dumping in lake off shore.

Republican Nomination.

Council Bluffs, Ia., June 12.—Judge Walter I. Smith was nominated by the republicans for congress in the Ninth district to succeed Smith McPherson, who becomes a judge of the federal court.

Oppose McLean.

Columbus, O., June 12.—Anti-McLean men are trying to organize to control state democratic convention to-morrow and select delegates large to the Kansas city convention.

Professional Strike Director.

St. Louis, June 12.—Edward G. Rogers, president of the American Federation of Labor, telegraphed President Mahon that he will arrive in St. Louis this week. He will exercise a supervisory direction of the strike.

Chicago Grain Market.

Chicago, June 12.—Wheat—June, 72 1/2 cents; July, 73 1/2 cents. Corn—June, 25 1/2 cents; July, 25 1/2 cents. Oats, June, 21 1/2 cents; July, 22 1/2 cents.

Money Market.

New York, June 12.—Money on call nominally at 2 per cent. Prime mercantile paper 3 1/4 per cent. Silver 60c. Lead, 32 1/2.

Bill Passed.

Berlin, June 12.—The Reichstag today passed the navy bill.

Wool Market.

St. Louis, June 12.—Wool quiet; easy; unchanged.

FIRST-CLASS GALENA ORE.

The "Unknown" Mine Showing Well—

Owners Reside in Albuquerque.

Yesterday afternoon R. H. Greenleaf exhibited at this office some first-class samples of galena ore, which he had taken from the "Unknown" mine located in Coyote canyon. The mine has been worked to a depth of forty feet, and several first-class veins of galena encountered. The property is owned by R. H. Greenleaf, John Greenleaf, N. W. Alger and James Wilson. It is understood that the owners are so well pleased with the property that they intend to thoroughly develop it, and make preparations for the shipment of the ore to some smelter.

YAQUI INDIANS!

They Defy the Armies of Mexico.

Injunction Issued Against the Associated Press.

Capture of Two More Important Filipino Insurgent Generals.

SITUATION IN CHINA IS CRITICAL.

El Paso, Tex., June 12.—William G. Stephens, general agent in Mexico for an eastern manufacturing company, returned to-day from a tour of the state of Sonora, having visited the headquarters of Gen. Torres at Torreon. The Indians, he says, occupy the impassable Bacanete mountains, a range fifty miles in length, and it requires the utmost vigilance on the part of Torres and 6,000 troops to hold them in check. In a brush on Tuesday the Indians lost twelve men, and the Mexicans had fifteen killed and several wounded.

INJUNCTION GRANTED.

Associated Press of New York Enjoined From Use of Name.

Chicago, June 12.—Judge Gibbons issued to-day a temporary injunction on complaint of the Inter-Ocean Publishing Co., restraining "The Associated Press of New York," from doing business under the name of "The Associated Press." The Inter-Ocean publishing company as shareholder of the Associated Press of Illinois, objects to the organization of the new Associated Press on the ground that its only object is to succeed to business of the Associated Press. A temporary injunction restrains defendants doing business under the name of "The Associated Press," and from interfering or attempting in any manner to injure or destroy the business of the Associated Press of Illinois and from interfering with the business thereof or endeavoring to cause any party, firm or corporation to annul or cancel or break his or its contract with the Associated Press of Illinois and from sending out any circular to members of the Associated Press of Illinois, or in any other manner soliciting or asking them to become members of the Associated Press of New York.

DEMING.

From the Headlight.

The order for the moving of the custom house from Deming to Columbus has been received by Collector Hudson.

The people will regret to learn that Rev. Houston, of the Presbyterian church, will soon resign his charge. Ill health is the cause.

Rev. Sanders, a former Methodist minister of Deming, is the happy father of a baby boy. The little one first saw the light of day in Albuquerque.

The supper given last Tuesday evening for the cemetery fund was a success from every point of view and all those who had the management of it are correspondingly happy over the results.

An unidentified Mexican boy, about 20 years of age, was run over near Canyon by a freight train on the S. F. road last Thursday night, and both legs were practically amputated near the body. The poor fellow died soon after he was placed on the train.

The old Presbyterian church building was on Wednesday removed from the corner on which it has stood for so many years, to the lots owned by the library association, just west of Clark & Co.'s corner on Pine street. The erection of the church will be completed at once, and pushed to rapid completion.

Thomas Hall and George Leonard left this afternoon for Bear canyon, where they will remain over night and return to the city to-morrow afternoon.

Cole Harvey has done his work and recognizing that the day of the note of his deeds is past, he has bought a farm in Arkansas where he intends to settle down.

It will be a farce to run a gold democrat for president. The democrat who is too nice to vote for Bryan or Debs can vote for Mr. Barker, or he should winter his vote.

One reason assigned for Bryan's self-imposed period of silence is that he has made the discovery that his anti-expansion views and his admiration for Jefferson are violently antagonistic.

New Jersey is the home of the trusts. This year the new just incinerates 5,715 companies against which there is assessed a tax of \$154,126. This is \$150,000 more than the amount of the corresponding schedule filed last year.

The report of railroad traffic for May shows a material increase over the large traffic of last year. In democratic eyes these are proofs of a calamitous state of affairs in the country, to be remedied by electing William J. Bryan president.

The International Mining congress, which is to convene in Milwaukee, June 15th and remain in session until the 23d, will doubtless far surpass the hopes of the most sanguine of its supporters in point of the success awaiting the undertaking.

The studio of the late Rosa Bonheur of Paris is proving a mine of wealth to the dealer. In three days the sale of her studies and sketches have brought in \$150,000, and there were some eight hundred "bidders" left for the people who are crowding the auction room, most of them artists.

Aside from the personal preference of the reader for the success of either Boer or British, one cannot but rejoice that the unequal struggle in the Transvaal is about to be terminated. British arms, of late, have been surprisingly triumphant and it is to be hoped that a reign of peace and prosperity and tolerance is about to be inaugurated.

The Chicago exposition in size of buildings, grandeur of architecture and wonders of landscape gardening, not only surpassed all that had been done by any other nation hitherto in the exposition line, but it set a mark that no other people can hope to measure up to for decades to come. To the most of the American visitors, therefore, their first sight of the Paris exposition has been a shock of disappointment, and their letters home have divulged the fact that it wasn't what they expected.

Manila, the Philippine insurgent's secretary of state, now a prisoner in Manila, makes the sensational declaration that the state papers recently found by General Purnell's men in Luzon fail to include some communications that were sent to General Purnell for safekeeping, and that among these were letters from W. J. Bryan and Senator Hoar, in which those insurgents were bidden to fight on and take courage, as they would soon have the active support of the opponents of the administration in the United States.

A suspicion is gaining ground that the numerous strikes, which afflict cities in turn each season, are the result of other than natural causes, that they are fomented by organizers, or rather disorganizers, who for their own selfish purposes make the rounds of the communities and stir up strife between the employers and the employees. The list of the cities thus afflicted is now long and continues to grow. The nation upmost in the minds of many citizens is whether there is no means to prevent these recurrent visitations of riot and murder, costing great fortunes and crippling the local industries.

TROPICAL PRODUCTS.
The people of the United States are paying a million dollars a day for tropical products used in manufacturing or food and drink, and most of which are produced in greater or less degree, or can be readily produced in the islands which have the right American relationship with the United States through the events of the past two years. The April Summary of Commerce and Finance, which has just been issued by the Treasury Bureau of Statistics, shows that in the ten months ending with April, our imports of tropical products have been over \$96,000,000 in value, thus averaging a million dollars a day and indicating that for the full year they will reach \$365,000,000. Indian rubber, fibers, raw silk, cotton, gums, cabinet woods, indigo, ivory, and inadequate showing of lines of chemicals make up the share of this vast sum which the manufacturers alone take and require in constantly increasing quantities.

ASIATIC TRADE.
In the east and southeast of Asia are countries containing a population of over 80,000,000, with an area exceeding that of Europe and the United States combined, which the greater to the United States by a thousand miles or more than they do to Europe. These countries, in a commercial sense, are "our meat," and if we let Europeans get away with the bulk of the trade it will be because our government and our merchants and manufacturers are sadly lacking in enterprise.

The present commerce of the trans-Pacific countries was recently estimated at \$2,000,000,000 annually. We import from those countries \$1,000,000,000, an insignificant and inadequate showing. Only a little more than 2 per cent of the oriental trade coming across the Pacific to its natural market, most of the remaining 98 per cent going to England, France and Germany, on the other side of the world.

NEGROES DISFRANCHISED.
The democratic Louisiana have succeeded in eliminating the negro from politics in that state. The amendment to the constitution of that state and a recent statute has virtually disfranchised all colored voters. If they did have to bar some of the whites from the polls in order to do so. Now it appears that those in control of the state government are not only afraid of the supreme court some day passing on

that law and then seeing the representation of Louisiana in congress would be cut down, but are trembling lest the negro should become numerous sufficiently to enable him to comply with the requirements of a voter and this was made manifest in the legislature of that state the other day. A member had introduced a bill providing for compulsory education and the way it was buried was a caution. "Why that means educate the negro and then he can vote," cried an excited member.

Armed with a something of a bar as well as a spritzer of international respect, the United States has captured and returned to the Americans guns captured in front of Manila by the Spaniards from the American troops has been officially refused by American officers who were on the ground.

The bond proposition to erect a viaduct on Chicago street has undoubtedly carried, with almost the unanimous vote of the tax payers. This carries with it the proposal of the Santa Fe company to erect here a big hotel and a commodious passenger and freight depot.

One of the best evidences in support of the theory of de la Harpe, that the war in the Philippines is at an end is found in the fact that every time a rebel general is captured his "army" is found to consist of from three to a dozen men.

This city will give liberally to both the Chicago and Denver & Rio Grande railways when they build their lines here. Both these roads are looking to extend their lines to this city.

This city is going to be the railroad center of New Mexico.

The Twentieth Century.
When a few more months shall have passed, then stand at the very threshold of the twentieth century, and the nineteenth will be a thing of the past. It will, however, be known as the century of invention and discovery, and among some of the greatest of these we can truthfully mention Hostetter's Stomach Bitters, the celebrated remedy for all ailments arising from a disordered stomach, such as dyspepsia, indigestion, constipation and biliousness. It has been one of the greatest blessings to mankind during the past fifty years as a health builder. Many physicians recommend it. Take Mr. Pinkham's advice, try a bottle and be convinced, but be sure to get the genuine with a private revenue stamp over the neck of the bottle.

Would Not Suffer So Again for Fifty Times Its Price
I awoke last night with severe pains in my stomach. I never felt so badly in my life. When I came down to work this morning I felt so weak I could hardly work. It certainly is the finest thing I ever used for stomach trouble. I shall not be without it in my home hereafter. I should not care to endure the sufferings of last night again for fifty times its price.—G. H. Wilson, Liverman, Burgetstown, Washington, Co., Pa. This remedy is for sale by all druggists.

OVER THE BARRIERS
Death of J. L. Strain at Harvard Hill—He was a brother of W. T. Strain.
W. F. Strain, a well-known railroad engineer of this city, has received copies of newspapers published at Harvard, Ill., giving account of the recent death of his brother, J. L. Strain, which occurred at Harvard. The Independent, in a lengthy obituary on his death, says:
Mr. Strain was a hustler in business life and was considered one of the best buyers that visited the Chicago wholesale stores. He was a close student of the business and his advantageous buying and cash dealing gave him a wide reputation. He conversed readily in German as in English and could care for as many people as two or three ordinary clerks. Socially he was very popular. He never refused a call for charity and gave freely at all times. He was honest and generous to a fault. It was a pleasure to transact business with such a man. With all his kindly ways, Mr. Strain's personality was strong and his will inflexible. "No" with him was always "No." His judgment was keen and unerring. As a friend, as a man, as a citizen, nothing good could be said of him. Harvard has lost one of its best men and on all sides are heard expressions of regret for his untimely death. We sympathize deeply with the bereaved ones, for they have lost a loving, indulgent husband, father and brother.

Of late years he had been doing odd jobs at the case in Los Angeles, pulling hard against the tide for a livelihood. Did you ever See a Snow Storm in Summer?
We never did; but we have seen the clothing at this time of the year so covered with dandruff that it looked as if it had been out in a regular snow storm.
No need of this snowstorm. As the summer sun would melt the falling snow so will

Ayer's Hair Vigor
melt these flakes of dandruff in the scalp. It goes further than this; it prevents their formation. It has still other properties: It will restore color to gray hair in just ten times out of every ten cases.
And it does even more: It feeds and nourishes the roots of the hair. Thin hair becomes thick again; and short hair becomes long hair.

We have a book on the Hair and Scalp. It is yours, for the asking.
If you do not obtain all the benefits and extend the life of your hair, write the doctor about it. Prescribe a hair which will grow daily and keep it healthy.
