## OOM PAUL!

Transvaal President  
Leaves Capital City.

General French Had Skirmish  
With Boers.

Cape Colony Congress Not Friendly  
to Great Britain.

GEN. CALVILL OCCUPIES HEILBRUN.

Lorenzo Marques, June 2.—President Kruger yesterday was still at Machadodorp, about half way between Pretoria and the Portuguese frontier on the railroad between the Transvaal capital and Delagoa Bay. The Boer command totaling about 10,000 men, held on Thursday all the positions and hills around Pretoria. Another large command was at Bronckhorst's Spruit, about forty miles from Pretoria, on the railroad leading to Delagoa Bay. Telegraphic communications with the Transvaal is closed to the public. Fervent excitement prevails here owing to the almost total absence of news from either side. The object of the trip here of Fritsch Roff, President Kruger's son-in-law and Dr. Heyman, the president's physician, appears to have been to place a large amount of gold in safety.

CAPE COLONY CONGRESS.

Favors Independence of the Several South African Republics.  
Grandinlet, Cape Colony, May 31.—The people's congress opened here today. Of those present many were Dutch clergymen, commoners and bondsmen. Mr. Devilliers, brother of Chief Justice Devilliers, presided. Mr. Pretorius, member of the legislative assembly, offered a resolution declaring that in the opinion of the majority of the Cape Colonists, the chief immediate cause of war was the unwarranted and intolerable interference of the military in London in international affairs of the South African republics. A member, speaking in support of the resolution said it would be impossible to hold out the hand of friendship after the war and asked: "Can we take the English hand that perhaps is stained with the blood of my brother?"

The chairman advised moderation in all speeches. The resolution was adopted unanimously. Other resolutions presented affirmed if the republics were annexed the peace and prosperity of the country would be irretrievably wrecked and in order to insure the lasting friendship and prosperity the settlement must include restoration of unqualified freedom and independence to the republics and that the colonists be allowed a voice in the appointment of the governor of Cape Colony, thus obviating the necessity for keeping a standing army, as the republics would be prepared to assist the colonists to repel any foreign inroads in South Africa, unity would be insured and loyalty to Great Britain cemented.

A delegation was appointed to visit Great Britain, Canada and Australia to explain the views of those represented in the congress.

Boers Surrounded.  
Maseru, Basutoland, May 31.—General French has practically surrounded the Boers five miles outside of Ficksburg. The only open side for retreat is the Basutoland border, where thousands of Basutos, under Chief Jonathan, are awaiting for them.

Basutoland Work.  
St. Louis, June 2.—An attempt was made last night to throw up with dynamite the St. Louis Transit company's tower at Easton and Prairie avenues, in which 150 employees and a number of policemen were asleep. Little damage was done by the explosion.

Democratic Nominee.  
Rushville, Ind., June 2.—The democrats of the Sixth congressional district today nominated David W. McKee of Connors, vice for congress.

French Had a Fight.  
London, June 2.—Lord Roberts reports the following from Johannesburg: "French's report of his operations."

## MARINES AT PEKING!

by Marines.

Several Foreigners are  
Massacred by "Boxers."

Democratic Committee Investigate  
Charge of High Hotel Rates.

WEEKLY BANK STATEMENT.

Tien Tsin, June 2.—The French consulate has received information from priests at Pe-Tu-Pu that thirty foreigners, including six ladies and six children, had already had a marked effect upon the bearing of the Chinese toward foreigners. Excitement in the adjacent country is much allayed, but many Christian refugees are still flocking into the city. Unfortunately no leaders of the "Boxers" have been arrested, though their capture would be easy. All the government has done has been to occupy scenes of disturbances, but no real repressive measures have been adopted.

Massacred in China.

Peking, June 1.—American and other foreign guards numbering 349, arrived here in the midst of the dragon festival. The streets were unusually crowded, but no manifestation of hostility was made. The presence of the guards has already had a marked effect upon the bearing of the Chinese toward foreigners. Excitement in the adjacent country is much allayed, but many Christian refugees are still flocking into the city. Unfortunately no leaders of the "Boxers" have been arrested, though their capture would be easy. All the government has done has been to occupy scenes of disturbances, but no real repressive measures have been adopted.

ALBUQUERQUE — JUNE 2, 1900

Get ready to answer correctly the  
questions of the census enumerator.

Up to March 31, \$116,250.00 was the  
cost of the English war against the  
Boers.

This city will be represented by a  
large attendance at the Santa Fe capitol  
dedication next Monday.

If anti-expansion is to prevail in the  
United States the churches should disband  
their missionary societies.

With Col. Bryan and Venustus both  
quiet, the world may be said to be ex-  
periencing a season of freedom from dis-  
agreeable eruptions.

Indications are that the total foreign  
trade for the fiscal year ending June 30  
next will be \$200,000,000 larger than in  
the year ending June 30, 1899.

Congress has amended the bill set-  
ting the title to the Albuquerque land  
grant, so that owners of lots in this  
city will be enabled to perfect titles at  
small cost.

It now requires three columns of the  
Manufacturers' Record to tell about the  
new cotton and woolen mills and the  
enlargement of existing plants  
throughout the south.

There is to be constructed from Da-  
marcus to Mecca a railway in which  
pilgrims may be saved from a sea  
voyage. It is proposed that the line  
shall be built by soldiers.

Of the 55,000 voters in Havana only  
about 25,000 had registered for the  
coming elections. At last reports, 80,000  
in the popular government will be  
needed in Cuba before a full vote may  
be expected.

A bill by Representative Jones, of  
Washington, providing that no new  
forest reserves shall be created, or ad-  
ditions made to existing reserves, un-  
less by act of congress, was favorably  
reported by the public lands committee.

Oklahoma is making great prepara-  
tions for the second annual reunion of  
Roosevelt's Rough Riders July 1, 2, 3  
and 4 next. The reunion, which is  
gathering will be quite like the opening  
of the Cherokee strip a few years ago.

The Colorado Springs Telegraph says  
that the opportunities in Colorado are  
wonderful. A young man who came to  
the state a few months ago now holds  
one of the highest positions in the  
state—being dog catcher up in Lead-  
ville.

Reports for the month of May show  
that the Cripple Creek mines alone paid  
dividends amounting to \$279,000, at the  
rate of better than \$100,000 a year.  
This information coupled with the an-  
nouncement that Stratton's Indepen-  
dence mine will pay a June dividend of  
at least \$250,000.

A favorable report was also made by  
the public lands committee on the bill  
of Representative Vriebe of California,  
authorizing the secretary of the interior  
to grant rights of way through forest  
reservations and other public lands  
for electrical plants, telephones,  
telegraph and pipe lines.

Gov. Otero deserves great credit for  
not interfering in the Ruiz murder case.  
Heavy pressure was brought to  
bear upon the governor to commute the  
sentence to imprisonment for life,  
and he examined the records very  
carefully, but could find nothing to  
justify executive clemency.

Senator Carter of Montana, offered  
an amendment to the sundry civil bill  
largely increasing the appropriation for  
the investigation of the water flow in  
western streams. The increase was  
from \$50,000 to \$250,000, and was adopted  
by a vote of 34 to 24. This probably in-  
sures its retention in conference.

The total disbursements for the fiscal  
year up to and including May 25  
were \$450,561,737.21, leaving an excess  
of receipts over expenditures amounting  
to \$2,444,180.84, exclusive of the  
\$100,000 gold reserve. The excess of  
receipts over expenditures on April 29  
was \$45,490,205.95; on March 31 the ex-  
cess amounted to \$54,322,150.34.

In the United States the annual con-  
sumption of borax is about 12,000 tons a  
year. Prior to 1884 consumers were  
dependent on Europe for their supplies.  
In that year the Nevada borax works,  
which were discovered in 1874, yielded  
24,304 pounds, which sold at 9 cents a  
pound. With increased production  
prices declined somewhat, so that when  
the Nevada district was discovered in  
1872 prices had fallen to 32 cents.

**LAPSED INSURANCE POLICIES.**  
A decision of the highest importance to  
life insurance companies has been  
made by the supreme court of the  
United States, affirming a Missouri  
court decision. A policy holder, after  
paying insurance in the New York  
Life for several years, allowed it to  
lapse by the non-payment of premiums.  
Upon his death his wife sued to recover  
the amount of the insurance, con-  
tending that notwithstanding the non-  
payment of the premiums she was en-  
titled to recover the face of the policy  
by applying the reserve upon the policy  
for this purpose. She was beaten in  
the lower court, the supreme  
court of Missouri, to which she ap-  
pealed, reversed the lower court and gave  
her judgment. The insurance company  
then carried the case to the supreme  
court of the United States and the de-  
cision of that tribunal sustains the  
Missouri supreme court.

The effect of such a decision will be  
to bring up millions of dollars of  
claims upon insurance companies from  
beneficiaries of persons whose policies  
had been allowed to lapse, as in this  
case, and which were supposed to be  
dead and uncollectable.

**CREED REVISION.**  
Creed revision has come before the  
Presbyterian general assembly earlier  
than was expected. The chairman of  
the committee on bills and overtures  
reported that overtures for revision  
had been made by between twenty-five  
and thirty Presbyteries, but there are  
such differences in their recommen-  
dations that no clear line of action is  
indicated. Some favor a new creed, others  
a revision of the confession with a  
new doctrinal statement added, but

the majority evidently prefer leaving  
to the assembly the particular form in  
which the matter shall be brought up.  
Judging by reports, the majority of the  
commission favor a reference of the  
whole question of revision back to the  
Presbyteries for a more complete ex-  
pression of opinion. The Presbyterian  
vote so far recorded naturally creates  
the desire to know whether a majority  
of clergy and laity are behind it, and  
on that account decisive action by this  
assembly is not expected except it be  
to refer the question back to the Pres-  
byteries. This state of things is be-  
lieved to have anticipated vigorous ac-  
tion by either party.

From the United States Great Britain  
has purchased 18,000 mules and 8,000  
horses for service in the Transvaal.  
The average price for the mules was  
about \$60, and for the horses \$75. The  
war in South Africa has been the  
means of turning loose among the farm-  
ers and stock raisers of the west and  
south \$1,450,000 for mules and horses,  
not to speak of the purchase of Amer-  
ican mules and horses to supply the  
troops in the field.

**Great Plays—Great Company.**  
The new play of Roy Crawford  
Stock company opened this morning at  
9 o'clock and from all indications this  
coming week will be one of the most  
successful ever played here by a strictly  
theatrical company. Monday June 4th  
will be ladies free night—one lady and  
gentleman or two ladies will be ad-  
mitted on one paid 20 or 30 cent ticket.  
The following is said of the company by the  
St. Paul Herald. The company is play-  
ing there this week to standing room  
nightly.

The Roy Crawford company last  
night completed a week of genuine ar-  
tistic triumphs. It is certainly the  
strongest aggregation of actors ever  
appearing at popular prices in this city.  
The costumes elaborate and ex-  
tremely in the case of the ladies of the  
organization, dainty and fetching. This  
well balanced organization will appear  
again next week in an entirely new  
batch of plays.

**Potatoes in Potatoes.**  
The public becoming excited over  
the statement recently made that po-  
tatoes contain a poison called solanine,  
it is announced that new potatoes con-  
tain much less than old ones, but those  
which have commenced to sprout are  
quite dangerous. This may be true  
but it seems odd that people have lived  
and thrived for centuries upon them  
and that their danger has just been  
discovered. It is safe to assert that  
any one with whom potatoes do not  
agree has stomach trouble, and any  
one who has indigestion, dyspepsia,  
constipation, biliousness, or liver and  
kidney weakness needs Hostetter's  
Stomach Bitters at once. This medi-  
cine does more than promise, it cures.  
Avoid substitutes and insist upon hav-  
ing the genuine. Try it.

**A TEMPERANCE TALK.**

Meeting at Residence of Mrs. Harding—

Yesterday afternoon the Women's  
Christian Temperance union met at the  
home of Mrs. J. W. Harding on Fourth  
street, and after the transaction of some  
business of interest only one of the  
those present were favored with the  
reading of an interesting paper by Mrs.  
G. E. Wilson on the subject of "Press  
Work."

"The most important factor in the  
world's progress today is the daily  
newspaper, reaching as it does all classes  
of people in all classes of environments  
and occupations. Modeling as it does  
public opinion its value is too frequently  
underestimated in reform work. The  
Women's Christian Temperance  
union has a department devoted exclu-  
sively to the publishing of leaflets and  
tracts. These are excellent in their way,  
but too often fail in their mission, be-  
cause the class they are intended to  
reach do not read them. We temperance  
people read and enjoy, but the drinking  
man reads them, not even reading the  
hourly news. Now, every lady reader  
of the newspaper, while throughout this  
broad land there is scarcely a home so  
improved or so primitive which has  
not a weekly or daily visitor at least  
once a week, it is my duty to devote  
one-half a column devoted to bright  
temperance talks in our daily papers  
accomplish more good than all the tracts  
ever written. Wonderful is the power  
of the press for good or for evil."

"After calling attention to the drink habit  
and the terrible death it brings in Albu-  
querque, Mrs. Wilson continued her re-  
marks as follows:

"Now I realize that I am in the po-  
sition of the preacher who had to ex-  
plain to the people why he should do  
the preaching, but I know of no remedy  
to suggest unless it be that we, each  
and every one, talk temperance, live tem-  
perance, and when snatched down upon  
New Mexico, we all bring being equal, we  
vote temperance."

There were about thirty-seven members  
of the union present, and they gave Mrs.  
Gilbert, closed.

The next meeting of the union will be  
held at the local avenue Methodist  
church on June 5.

a miniature flag pinned on his breast,  
conducted the religious services. The  
foreign born citizens showed more pa-  
triotism in observing the day than did  
the natives of America. Evidently our  
own people are so used to the privileges  
American citizens enjoy that they don't  
appreciate them.

"There is but one small chance to

operation," was the awful prospect set  
before Mrs. I. B. Hunt, of Line Ridge,  
Wis., by her doctor after vainly trying  
to cure her of a frightful case of stom-  
ach trouble and yellow jaundice. He  
didn't count on the marvelous power of  
Electric Bitters to cure Stomach and  
Liver troubles, but she heard of it, took  
seven bottles, was wholly cured, avoid-  
ed surgeon's knife, now weighs more  
and feels better than ever. It's pos-

Liver and Kidney troubles, and never  
disappoints. Price 50 c at J. H. O'Neil

UNIVERSITY NOTES.

Yesterday closed the school year for  
99-00. The oratorical contest to-night  
at the opera house was the first of the  
series of closing exercises.

The normal students yesterday present-  
ed Prof. Hodgins with a fine photograph  
of themselves, mounted on one large  
card, and surrounding the pleasant  
picture, a number of verses, poems,  
These students are all girls, and  
the professor declares that 16 to 1 is the  
proper ratio.

During morning the examinations for  
the master's degree was passed suc-  
cessfully by Prof. Messenger and Mr. Bond-  
man. Prof. Messenger received the A. M.  
degree and Mr. Bondman the M. S.  
Prof. George Coghill will give for the  
out on this evening's train.

The tennis preliminaries have been ex-  
tremely interesting. Yesterday's final in  
Singles was a victory for Miss  
Johnson over Mr. Fry and for Miss Rita  
Holloman over Miss Mabel Hunt. Final  
in men's doubles and mixed doubles are  
to play Monday, Field Day, on the cam-  
pus.

There are no charges for admission to  
any of the University exercises of com-  
memoration week, and we shall feel  
encouraged if our friends will  
bring the stimulus of their presence be-  
ginning to-night at the opera house with  
the oratorical contest.

You may as well expect to run a  
steam engine without water as to find  
an active, energetic man with a torpid  
liver and you may know that his liver  
is torpid when he does not relish his  
food or feels dull and languid after  
eating, often has headache and some-  
times dizziness. A few doses of Cham-  
berlain's Stomach and Liver Tablets  
will restore his liver to its normal  
function, renew his vitality, improve  
his digestion and make him feel like a  
new man. Price 25 cents. Samples  
free at all drug stores.
