EL PASO AND NORTHEASTERN STRIKE

Machinists, Boilermakers and Helpers in the Shops at Alamogordo Went Out Because of the Discharge of the Foreman.

SMALL RIOT AT COUNCIL BLUFFS. BLUFFS WITH ONE ARREST

Special to the New Mexican.

Alamogordo, May 7.—The machinists, boilermakers and helpers in the El Paso and Northeastern shops in Alamogordo went out on a strike yesterday morning. The strike was precipitated by the discharge of the foreman of the shops, Jacob Merle, by Superintendent of Motive Power Parsons. A committee from the shops called upon Mr. Parsons and demanded the reinstatement of the foreman and when they made their report back to their fellow workmen the men all walked out.

About 250 men are out.

RIOT AT COUNCIL BLUFFS.

Council Bluffs, Ia., May 7.—A small riot occurred on Main street today as the result of striking teamsters attempting to force a non-union driver to return to the barn with his team. The driver's team was stopped three times by a large crowd of strikers who finally forced him from his wagon and clubbed him. Another driver drew a revolver and was arrested.

AWAITING THE RESULT.

Omaha, Neb., May 7.—All the larger firms in the city affected by the strike of teamsters and their sympathizers, prepared to get their business started today under protection of the injunction issued last night by the federal court. At a meeting of the Business-men's Association last night, it was decided to wait the result of the injunction before taking further action. The restaurant men also held a meeting and it was given out that they could do nothing until they could move supplies and provisions. None of the large restaurants were open this morning and they will probably remain closed today.

FIVE THOUSAND ARE OUT.

Indianapolis, Ind., May 7.—Five thousand union workmen are on a strike around Bedford and the stone industry there is completely tied up. The strikers include planers, saw operators, engineers and quarry men. The men ask to have their wages equalized at all the quarries.

SCENES WERE AFFECTING.

Five Hundred Physicians of New Orleans Gathered to Watch Dr. Lorenz.

New Orleans, April 7.—Five hundred doctors gathered at the Charity Hospital today to witness a demonstration by Dr. Adolph Lorenz of his method of bloodless surgery. There was an unusual attendance of crippled children and their parents, the latter anxious to have their little ones selected as subjects. Some of the scenes were affecting.

TWENTY PERSONS INJURED.

Detective Running Car Caused Two Street Cars to Come Together.

Chicago, Ill., May 7.—Twenty persons were injured, a few seriously, in a collision between two southbound Halstead street electric cars at Forty-third street early today. One woman is believed to be fatally hurt. The conductor on the rear car was thrown through the window and sustained serious injuries. The collision was due to an accident to the running gear of the forward car.

COWBOY SHOT.

Revolver Fell From His Pocket While He Was Loading Cattle.

James Heller, a cowboy, in the employ of the Lyons-Campbell Cattle Company, accidentally shot himself in the leg Monday at Silver City, while helping to load cattle for shipment. He dropped the weapon and it was discharged in falling.

SANTA FE PRESBYTERY MEETS

Delegates Were Elected to the General Assembly and the Revision of the Confession of Faith Was Favored.

BRILLIANT ADDRESS BY DR. CHARLES L. THOMPSON

The Presbytery of Santa Fe convened yesterday afternoon at 2:30 at the Presbyterian church. The opening devotional exercises were conducted by Gabino Rendon of the Spanish Presbyterian church of this city. Those present were: Ministers, Norman Skinner of East Las Vegas, Manuel Magill of Raton, R. M. Craig of Albuquerque, W. M. Buell of Taos, J. M. Whitlock of Lumberton, Manuel Madrid of Mora, Gabino Rendon and W. Hayes Moore of Santa Fe. Elders, F. P. Crichton of Santa Fe, Jefferson Reynolds of East Las Vegas, Miguel Rodriguez of the Spanish Presbyterian church of Santa Fe, J. G. Sanchez of Las Vegas, Manuel Barcelon of Ocate, V. F. Romero of Taos, R. Cordova of El Quenado, Felipe Trujillo of Las Truchas, Lucas Martinez of Las Tusas, A. Aguirre of Rincones, and J. P. Quintana of Chimayo.

Two new churches were reported as organized and they were enrolled. They are at Las Truchas and Chimayo and under the pastoral charge of Mr. Rendon. The most important business of the afternoon was the election of commissioners to the general assembly of the Presbyterian church which will be held in Los Angeles, May 21. The election resulted as follows: Ministers, Norman Skinner of Las Vegas, principal, and R. M. Craig of Albuquerque, alternate. Elders, Charles L. Bishop of Santa Fe, principal, and J. R. Guens of Raton, alternate. A committee consisting of Rev. Norman Skinner of East Las Vegas, and Rev. W. Hayes Moore of this city, was appointed to draft suitable resolutions concerning the death of the late Rev. Warner Curtis of Las Vegas.

The evening session was addressed by Rev. Charles L. Thompson, D. D., of New York, secretary of the Board of Home Missions. His subject was "Our Growing Country and its Needs." He very forcibly traced the religious history of America and pathetically related the struggles of the pioneer religious workers.

The service was well attended and Dr. Thompson was listened to with marked attention.

The formal session was resumed this morning at 8:30 with devotional exercises conducted by Evangelist V. F. Romero of Taos. The greater portion of the morning was taken up in hearing the reports of the committees. These indicated large interest and greater activity in church work. Many of the churches showed an unusual advance toward self support and much new work is being planned and pushed. The overtures from the general assembly concerning the Confession of Faith, were answered in the affirmative. F. P. Crichton was the only one voting in the negative. A majority of two-thirds of the membership of the Presbytery denominated has voted for the revision which insures its adoption. The revision will remove many infelicities of expression in the old confession which have subjected it to much criticism. Rev. C. E. B. Ward of Colorado, and Rev. Dr. Charles L. Thompson of New York City, attended the morning session.

THE TRANSVAL LOAN.

Will Be Kept Together Until Tomorrow Morning at Least.

Minneapolis, Minn., May 7.—The jury in whose hands lies the fate of former Mayor Ames, accused of bribery, was still out at noon. This morning it sent a written communication to Judge Elliott asking for light on certain points. The court will keep the jury together at least until tomorrow morning if no agreement is reached sooner.

ANNUAL ENCAMPMENT.

Members of the Grand Army in Session at Albuquerque.

The 20th annual encampment of the Department of New Mexico, Grand Army of the Republic, which was in session yesterday at Albuquerque, was a great success. The encampment met in Knights of Pythias hall and was presided over by Department Commander J. W. Edwards of Albuquerque. In his annual report, Commander Edwards referred to the services rendered the country by the members of the Grand Army. He spoke of the passage of the bill by the last legislative assembly providing that indigent soldiers should be buried at public expense and paid a high tribute to the work of the Woman's Relief Corps. In reporting his official visits and inspections during the year, he stated that Carleton Post of this city is a live and energetic organization.

After the reports of the other department officers were read, the following officers were elected for the ensuing year: Department Commander—J. W. Edwards, Albuquerque.

Senior Vice Commander—T. W. Hemm, Tucuman.

Junior Vice Commander—Smith Simpson, Taos.

Chaplain—Thomas Harwood Albuquerque.

Delegate to National Encampment—Jacob Weltmer, Santa Fe.

Alternate—S. C. Meek, Socorro.

Council of Administration for Department—J. A. Brown, White Oaks; S. S. Beatty, Santa Fe; Leverett Clarke, Albuquerque; David Denham, Albuquerque; Lee H. Rudisill, White Oaks.

The re-election of Department Commander Edwards was a deserved compliment as was the re-election of Thomas Harwood as chaplain. This will make the 21st year in which the latter has served as chaplain. The newly elected officers were installed last evening by Past Department Commander E. S. Stover, after which a banquet was served by the Woman's Relief Corps. Those present from this city were Colonel George W. Knaebel, John P. Victory, S. S. Beatty, Valentine Herbert and D. P. Demarest.

IN THE GOLD-EN STATE

President Roosevelt's First Stop in California Was at Barstow.

MOODY IS AT REDLANDS

All Towns of Importance Have Made Great Preparations for the Reception.

Barstow, Calif., May 7.—President Roosevelt, who entered California last night, made his first speech in this state here this morning. The stop here was for ten minutes and the President's address was brief. Secretary of the Navy Moody and Benjamin Ide Wheeler, president of the University of California, will join the President at Redlands today and go through the state with him. Governor Pardee also will meet the President at Redlands and will formally welcome him to the state.

PLANS FOR CALIFORNIA. Los Angeles, May 7.—At every town of importance from Needles, where the presidential party entered California from Arizona to Los Angeles, preparations for the reception of President Roosevelt are complete. The President will spend barely 48 hours in the southern part of the state, departing from Los Angeles early Saturday morning. Every hour of this time will be fully occupied, the floral and electrical parades in this city on Friday being the chief features of the program. At Pasadena, President Roosevelt will probably visit the widow of the late President Garfield at her home.

PERPLEXED CORRESPONDENT

Trouble Which Grew Out of the Christening of Theodore Roosevelt Armijo in This City.

Metropolitan newspapers have their troubles and are prone to make mistakes and their correspondents worry themselves gray haired at times trying to figure out instructions. Such was the experience of the representative of one of the New York dailies who is on the presidential train. It all grew out of the christening of the infant son of Assistant Postmaster George W. Armijo in this city. This pleasing incident of the president's visit in this city was telegraphed from here by the correspondent to his paper. Interest was at once aroused in the New York office and when the train arrived at Albuquerque the correspondent was handed a telegram which was intended to read "Mail at once pictures of Theodore Roosevelt Armijo and his parents, with history."

Owing to mistakes made in transmission the telegram actually received read "Mail at once pictures of Theodore Roosevelt, army and parents with history." The correspondent pondered long and deeply on the meaning of the telegram and finally consulted with his fellow-workers. They came to the conclusion that the paper wanted pictures of the Rough Riders who live in New Mexico and some history of their native territory. It was a huge contract but the correspondent undertook it and for two hours he was the hardest working man in Albuquerque. He wired his paper, "Can send 15 pictures from Albuquerque. The rest are scattered all over New Mexico."

The editor must have been amazed to be informed that there were 15 pictures of Theodore Roosevelt Armijo in Albuquerque and "the rest were scattered all over New Mexico" and must have believed the president had gone into the god father business on a wholesale scale, for with extraordinary speed came a confirmation of the telegram as it was intended to have been sent.

TWELVE MEN BURNED.

A Caboose Attached to a Tie Train Left the Track and Took Fire.

St. Paul, May 7.—A Winnipeg, Manitoba, special says. Twelve men were burned to death and eight slightly injured in a train wreck fifty miles west of Port Arthur, Ont. A caboose attached to a tie train left the track and the car was overturned and took fire, with the above results. Owing to a heavy wind storm the wires are in bad shape today and the rails are meagre.

School of Mines. The scientific name is blodite. It is a hygroscopic double sulfate, of magnesium and sodium. It is probably very valuable as a source of commercial soda. It occurs in a thick bed covering an area of over three square miles. The mineral is of the beautiful crystalline variety. Single crystals, like cut glass, occur three inches long and an inch in diameter.

Carl Edward Magnusson, R. E. E. M. S., Ph. D., has been appointed to the newly established chair of physics and electrical engineering in the school. He is a graduate of the University of Minnesota in the department of electrical engineering, and of the University of Wisconsin. In the last named institution he was a fellow in physics.

WARS AND MANY RUMORS OF WARS

Captain Pershing's Column Has Defeated and Captured the Sultan of Ampuruganos With a Strong Force of Moros.

BULGARIA HAS A CHIP ON ITS SHOULDER

Manila, May 7.—Captain Pershing's column has defeated the sultan of Ampuruganos' strong force of Moros in the Taraca country on the east shore of Lake Lanao, Island of Mindanao. The Americans captured ten forts. One hundred and fifteen Moros were killed, thirteen wounded and sixty were made prisoners. The Moros captured included the sultan. Two Americans were killed and seven were wounded.

REBELS VICTORIOUS.

Melilla, Morocco, May 7.—The rebels have defeated the imperial forces after ten hours fighting near Fez and have captured the positions held by the sultan's troops, all their tents and much loot. Both sides lost heavily.

NOTE WAS OFFENSIVE.

Constantinople, May 7.—The Bulgarian government has returned the

Portes note on the subject of the incursion of Bulgarian bands into Macedonia and the importation of explosives into Turkey from Bulgaria, to the Ottoman commissioner at Sofia, in consequence of what the government of Bulgaria describes as "its offensive terms." The mustering of Turkish troops continues in Macedonia and Albania where soon 165 battalions will be distributed.

ing other pranks at places where he was not known.

Charles Wagner, the funeral director, is now a licensed undertaker and embalmer. In accordance with a law passed by the 35th legislative assembly requiring that all undertakers and embalmers in the territory must take out a license or pay a fine, Mr. Wagner applied to the territorial board of health for a license several days ago and received it yesterday.

Many complaints are being made against the city police force on account of the non-enforcement of the city ordinance, providing that stray animals found within the city be taken up and impounded. Many burros are allowed to wander over town at will and to destroy trees, shrubs, flower bushes and lawns. Mayor Sparks ought to see to it that the police force enforce the city ordinance in such matters. Property owners and tax-payers want some return for the money they pay out for city taxes.

M. F. Sena et al have filed in the 1st judicial district court of this county, suit in ejectment against the American Turquoise Company, the mines of which company are located near Turquesa in the southern part of this county. Sena et al claim ownership to the lands upon which these mines are located. The company has had possession of them for many years. It will be remembered that Sena et al claimed to be owners of the tracts under title conferred by the Jose de Leyba land grant and that the claim in question, after examination and hearing, was rejected by the United States court of private land claims, which decision was affirmed by the supreme court of the United States.

THURSDAY, MAY 7.

Japan and Russia seem to consider war inevitable and American gun and ammunition manufacturers had better prepare for rush orders.

Under the operations of the new New York state liquor license law, some 700 saloons in Gotham are going out of business. This is tough on Tammany Hall, but it is very pleasing to the decent people of the state.

It is not the Republicans who are worried by the talk of the fourth nomination of ex-President Grover Cleveland by the Democrats, but it is the Democrats who exhibit the greatest sign of uneasiness.

The political situation in the neighboring City of Albuquerque is, as they say in diplomacy, in a very "tentative" condition at present. But the fight will be kept up and there are others ready to join it at the proper moment.

The President of the United States felt very good and was highly pleased with the reception accorded him in this city on Tuesday last. The people of the territory and citizens of Santa Fe feel exactly the same way. Therefore, all is well that ends well.

There is an increasing demand in Europe for manufactured articles bearing the mark "Made in the U. S. of America." They may fuss and fume over there and denounce the Monroe Doctrine as much as they please, but they buy American manufactured articles and goods in increased amounts. This is very satisfactory to this country.

Throughout the great west and especially in the Rocky mountain region, public sentiment is becoming strongly in favor of the establishment of forest reservations and the protection of game and fish. The New Mexican is gratified to note, that this is also the case in New Mexico and that public sentiment in those directions is increasing very noticeably. President Roosevelt's speeches, delivered during the past few days in Colorado and in New Mexico, are aiding and fostering this sentiment.

The Las Vegas Optic appears in an enlarged and improved condition. There is every reason why the paper should be successful and prosperous, and the New Mexican believes such will be the case. The business men of the Mead-City are liberal and public spirited citizens and believe that a daily home paper in their town should be liberally sustained and patronized and they carry this belief into active effect daily and all the year around. They know that the better and the more liberally they support their home paper, the more beneficial for the town, its growth and advancement. The enlarged Optic will be a distinct gain to Las Vegas, to San Miguel county, and to the territory. In every respect, the change is one for the better and very satisfactory all around.

While the United States does not fool itself into the idea that the acquisition of the Philippines was as great a master stroke as the acquisition of the Louisiana territory, yet, it has nothing to be ashamed of in the course it pursued and the comparative successes it has attained in governing the islands. The Philippines have had a better government and greater prosperity under American rule than they have ever had before and as to the effect upon the United States of the acquisition of the islands, it has not been detrimental, for prosperity, peace and unity reign at home. Therefore, the campaign started by the London Daily Mail in Great Britain, of mudslinging against the American administration in the Philippines, will have little effect, even if it does proclaim that the occupation of the Philippines is the greatest failure in American history.

The duty of the state to reform habitual drunkards and criminals is made very clear by statistics just published by a German professor who traced the posterity of habitual drunkards. He found 334 descendants of one woman who had been addicted to whisky and a lone moral life and whose life came to an end in 1799. Of these 334 descendants 143 of the men were beggars and 64 more lived on charity, and among the women 181 lived disreputable lives and there were in the family 76 convicts including 7 murderers. The professor still has the lives of 125 of these descendants to investigate as thus far he only traced the lives of 709 of the 834 descendants. In 75 years this one family has cost the German government in almshouses, law courts, prisons and other institutions about \$1,250,000. How much cheaper it would have been to take care of the ancestor so that her evil influence could not have poisoned future generations.

Civil Service rules are being extended pretty much over the entire Civil Service of the country. Despite this, it is patent, that there is a great deal of humbug in what is called "Civil Service Reform." Rotation in office is not a bad thing and in a republic, it is quite the natural course.

In reading the report of the investigation committee of the Illinois House of Representatives as to charges of boodling by certain members of that body, one is convinced that the legislators, so charged, declared emphatically that they were innocent. The committee took the honorable gentlemen at their word and so declared. What else could be expected?

It is reported from the Republic of Colombia that the president of that country and his administration are making haste slowly in ratifying the Panama canal treaty with this country. They are evidently of the stripe of the average Democratic legislator of the State of Missouri. Before acting favorably, they would like to receive a number of crisp, new one thousand dollar bills as a "douceur."

The Washington Post has coined a new word. It may be slang, but it is very expressive. It is the word "boodocracy." It appeared in a recent issue of that paper in the following editorial item: "The good people who are predicting that Missouri will go Republican next time forget that St. Louis has already re-elected her bunch of boodlers to office. Boodocracy is strongly entrenched out there."

Denver and Colorado Springs have had the third wind storm registering a velocity of 45 miles an hour, this spring. They caused considerable damage to property and much discomfort to healthseekers. The abnormally high winds in other parts of Colorado and certain parts of the Southwest are one reason that will gradually cause Santa Fe to supplant Denver, Colorado Springs and other points as a health resort.

The immigrants, who are now coming to the United States, are of better moral, mental and physical fibre than for many years past. They also bring more money per capita. This is probably due to the improved immigration laws of this country and partly to the fact that there is too much restraint upon and too small a chance for betterment for the middle classes of the over-peopled and harshly governed countries of Europe.

It seems the British army officers have not benefited very much by the experiences of the British army during the Boer wars. In Somaliland, some fearful disasters have overtaken the British contingent there in the field and the advance had to be checked until strong reinforcements could be secured. Tommy Atkins is alright as a soldier and as a fighter, but he certainly needs better and more expert commanding officers.

The Texas Bryan Democrats do not want to shake hands across the bloody chasm with the Cleveland reorganizers. Nevertheless and notwithstanding the State of Texas may safely be put down in the Democratic columns in the 1904 presidential elections. Even with a racket on between the aforesaid factions, there are enough Democrats in the Lone Star State to go around. The Republican politicians in the State of Texas are very good hands at holding federal offices, but as to carrying the state, they are "not in it."

A week has elapsed since the report of Lieutenant General Miles on conditions in the Philippine Islands has been given to the public. Judging by the tone of the press during that time, it was not at all received with favor, quite the contrary. It has received much unfavorable comment. Better things were expected of General Miles; he has pleased the pussy cat anti-imperialists and no one else. The sentiment of the people as a whole does not approve his actions, his opinions and his conclusions in the matter.

The outlook for prosperity this year in New Mexico is bright. A good supply of water on the ranges and for farm purposes for the next two months seems assured. Grass on the ranges is growing and improving. From reports, so far received by this paper, the lambing season this spring has been favorable and about 85 per cent of lambs have been saved and the entire increase of the flocks is nearly up to expectations. Cattle are doing well and business is reported good. Business failures are extremely few and in all respects the territory is advancing. As it looks at present there is but one thing necessary to the territory in its march of advancement, and that is single statehood for New Mexico in 1904.

The reporters who are accompanying President Roosevelt on his trip, do not really report his speeches at all, though millions of people do so suppose, says the New York World. Every editor having the Associated Press service had upon his desk, before the President left Washington, all the important speeches that he has since made. They were all prepared at the White House, carefully printed in good type, closely revised and put in proper numerical order. It was, of course, stipulated that no newspaper should use any of these speeches until "released" by the news of its delivery; and no editor would have dreamed of violating this condition. In a word, the speeches were not speeches at all, but compositions carefully written, carefully revised and doubtless, carefully read by cabinet members and political leaders, and criticized by them as to matters of which they had special knowledge. The audience of 1,000, 2,000 or 4,000 people who actually hear one of these addresses is insignificant compared with that audience of millions who read it by the help of the press. Nor has any king or premier or president in time past ever had the advantage of such

Your Wife

can be provided with an annual income for life, in event of your death, at less cost than you can make the same provision for your children.

The low rate makes very attractive this form of contract, devised and introduced by The Mutual Life Insurance Company of New York.

On August 7, 1899, a young business man of New York took out Policy No. 1,065,742 in favor of his wife. He paid three premiums of \$25.00 and in September, 1902, he died. The Company at once paid his widow \$3,000 and will continue to pay her that amount annually as long as she lives.

In writing for terms, state the amount of annual income you would like to provide for your wife, the amount of cash you would like returned and give the ages of both.

means of prompt appeal to his nation and to the world as is afforded by the modern press through the reporter, whose duties are so important that statesmen everywhere seek means of reaching them and through them reach the great American public.

The New Mexican Printing Company has the best bookbinding in the southwest and the only modern bindery in New Mexico. It turns out superior blank-books, cash-books, journals and ledgers, and also loose-leaf ledgers and blank-books of all descriptions. The work done by it is first-class and at very low rates. Bankers and merchants in New Mexico should not send their book binding work out of the territory, but should patronize this very deserving home manufacturing institution.

Gold in the Black Hills.

The Burlington Route has recently issued a 48 page booklet bearing the title "Mines and Mining in the Black Hills."

The book is one which should be read by every mining man in Colorado. It gives more information about the mines of the Black Hills than has ever before been placed between two covers. A copy will be mailed free on application to the undersigned.

The Black Hills need Colorado men and money. Several of the shrewdest men in this state have already invested heavily in the hills. The results so far have been more than satisfactory. The completion of the Burlington's new line to the Northwest brings the Black Hills within a night's ride of Denver. You can leave Denver tonight and be in Deadwood or Lead City tomorrow afternoon.

Colonist Tickets - California

Will be on sale at the Santa Fe ticket office daily to June 15, 1903, at rate of \$25.00. These tickets will be honored on fast trains carrying free chair cars and Pullman tourist sleepers. Liberal stop-over privileges in California accorded. The same favorable rates will be made to many intermediate points in Arizona.

If you contemplate locating in California, this is your opportunity to go there comfortably and economically. Irrigated farms, orange and lemon groves and other branches of agriculture have yielded competencies to other persons. Why shouldn't you be as successful?

I have illustrated descriptive literature about California, as well as of the country intervening. Other books describe the equipment of our California trains. If interested come and get copies, or write me and I will mail them to you.

OJO CALIENTE HOT SPRINGS.
These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and 30 miles from the Santa Fe and Denver & Rio Grande Railroad, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90 to 123 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,386.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, a Female Complaints, etc., etc. Board, Lodging and Bathing, \$1.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:00 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. THURSDAY, MAY 7.

PERSONAL MENTION

Rev. R. M. Craig of Albuquerque, is in the city attending the Santa Fe Presbytery.

Miss Beatrice Hersch, daughter of Mrs. Joseph Hersch, left yesterday for Pagosa Springs.

John McDermott of Denver, left for that city this morning after an extended visit in this city and at Albuquerque.

V. A. Morey of Denver, Colo., left for the north this morning after spending a day in Santa Fe. He is superintendent of bridges and buildings for the

Denver and Rio Grande railroad system, and was in this city on official business.

T. D. Burns, Jr., of Tierra Amarilla, left for that place this morning after visiting friends in this city and attending the Roosevelt reception.

General Francis Torrance and party of Pennsylvania capitalists will arrive at Torrance on May 10 and will proceed to Antelope Springs to spend several days.

Evaristo Lucero and family have gone to Albuquerque where they will spend a week visiting relatives. From there they will go to El Paso for a short visit.

William Fraser, manager of the Fraser Mountain Mining Company, arrived from the headquarters of the company at Twinning last evening. He is here on business.

Elias Brevoort left this forenoon for St. Louis where he will spend the next

few months undergoing treatment for kidney trouble. Mr. Brevoort is 81 years of age and one of the old timers in New Mexico. Despite his age he is still robust and active.

Dr. Samuel Locke of Taos, spent today in this city, arriving from the south this noon and will continue his journey home tomorrow morning.

Colonel George W. Knaebel, who was one of the party who went to Albuquerque Tuesday afternoon on the presidential train, returned home last night.

Mrs. Pedro M. Lobato and son who have been in the city for over a month visiting relatives and friends, returned to their home at Albuquerque this afternoon.

Jose M. Cruz of Tremontina, is in the city in attendance at the Presbytery at the Presbyterian church. He is a guest of his brother-in-law, J. S. Candelario while in the city.

Laura Whitlock, who has been a pupil in the Presbyterian mission school during the term which will close on next Tuesday, left for her home at Lambertton this morning.

Dr. Mera of Detroit, Mich., who has been sojourning at St. Vincent's Sanitarium in this city, departed for his home this morning much improved in health by his stay in this climate.

Mrs. Felipe Valdez returned to her home in Chamita this morning after a brief visit in this city with the family of Jose Valdez. Mrs. Jose Valdez returned home with her for a few days' visit.

Dr. Charles L. Thompson of New York City, who has been attending the Santa Fe Presbytery, left this afternoon for Albuquerque, where he will attend the Presbytery of the Rio Grande.

Juan Santistevan of Taos, who has been in the city attending to legal business and to view the incidents of the President's reception on Tuesday, was a passenger for his northern home this morning.

F. E. Simonton and wife of Canon City, Colo., arrived in Santa Fe last evening and will visit for a month or two at the home of Judge and Mrs. A. J. Abbott. Mrs. Simonton is a daughter of Judge and Mrs. Abbott.

Samuel G. Cartwright left yesterday for Iowa where he will join Mrs. Cartwright and children who have for some time been visiting Mrs. Cartwright's parents. Mr. Cartwright expects to be gone about three weeks.

E. A. Plater of Washington, D. C., left this morning for Denver. He has secured employment with the United States Geological Survey in that state. Mr. Plater has been sojourning in this climate for some time and has been benefited in health.

Jefferson Reynolds of Las Vegas, who came to Santa Fe early in the week to attend the reception to the President, has remained here as delegate to the Presbytery now in session. He is the guest of his son, Territorial Secretary J. W. Reynolds.

Sylvano Roybal and wife of Chamita are in the city. Mrs. Roybal is here for medical treatment. Mr. Roybal is superintendent of the public schools of the county of Rio Arriba, and took part in the ceremonies attending the President's reception on Tuesday last.

H. C. Schrodt of Alamosa, Colo., returned to that town this morning after taking in the Roosevelt celebration in Santa Fe Tuesday. Mr. Schrodt was formerly a conductor on the Denver and Rio Grande railroad, but of late has been engaged in the hardware business at Alamosa. He disposed of his business a short time ago.

Mr. and Mrs. Fred Riddle of Alamosa, Colo., will return to that city tomorrow morning after a few days' visit in this city with the family of Mr. Riddle's brother, George Riddle. They came to Santa Fe to witness the Roosevelt demonstration here Tuesday. The brothers are both engineers in the Denver and Rio Grande railroad.

A jolly party who had come to view the incidents of the reception to the President and visit other points of interest, returned to Las Vegas last night. Those in the party were Miss Esther Budde, Miss Edith Davidson, Messrs. Renner, Curry and B. G. Jones. They visited the points of historical interest in the city and yesterday went to Tesuque. While here they were escorted by Edward Shields.

Samuel Eldott, former territorial treasurer, now engaged in the mercantile business at San Juan, and Mrs. Eldott, returned to their home this morning after a few days' visit in this city with Mr. Eldott's brother, Marcus Eldott and wife. They were accompanied by Mrs. Frederick Warschauer of Antonio, who will be their guest for a few days.

F. E. Dunleavy of the Dunleavy Brothers' Mercantile Company of Trinidad, Colo., is in the city today on business with General Manager Hopewell of the Santa Fe Central Railway. The Dunleavy Brothers' Mercantile Company recently purchased the stores of the Pennsylvania Development Company at Kennedy, Moriarty, Willard and Torrance on the line of the Santa Fe Central Railway and has taken charge of them. The company has organized under the laws of the territory of New Mexico and will hereafter conduct these mercantile establishments. It is very likely that Mr. Dunleavy and family will settle in Santa Fe. They will be a very welcome addition to the business and social circles of the Capital.

PAINE'S CELERY COMPOUND

Best Authorities in Medicine Declare It the Only True Spring Remedy.

The sleeplessness, nervous prostration, weakness, general debility, functional irregularities and despondency from which thousands of women, young and old, suffer, can be quickly removed by properly feeding the nerves and replacing the unhealthy blood by a fresher and more highly vitalized fluid. The happy change from ill-health and misery, to true womanhood and happiness, can only be effected by the use of Paine's Celery Compound.

The present spring demand for Paine's Celery Compound, woman's friend and life giver, is enormous in every state of the Union. This fact alone, amply proves that the great Compound possesses virtues and powers unknown to other remedies. Dear wife and mother,

do not procrastinate; listen today to the voice of reason, and the pleadings and testimony of the thousands of your sex who have been made well and strong. Mrs. Jennie Harris, Marlow, Indian Ter., joyfully writes about the medicine that makes women well; she says:

"I have used one bottle of Paine's Celery Compound, and am satisfied that one bottle of this medicine has done me more real good than any other medicine that I have ever taken. I had rheumatism of long standing, kidney disease and female troubles, but since taking Paine's Celery Compound I feel altogether a different person. I have used lots of other medicines, but never received any benefit until I used Paine's Celery Compound."

RIO ARRIBA LUMBER INTERESTS.

Two Saw Mills Cutting 75,000 Feet Per Day, at Work on the Trampas and Montes y Vilil Land Grants.

The lumbering and saw mill business is quite active in southern Rio Arriba county these days. The Truchas Mining Company has been organized with George B. Brady, C. L. Pollard and Benjamin Bookhimer. The company has obtained control of the timber on the Francisco Montes y Vilil land grant. It has placed a saw mill of 45,000 feet capacity thereon and has been at work about six weeks. A force of 50 men is employed and the mill is running to its highest capacity. It is located a mile from the little town of Truchas and 12 miles from Velarde station on the Denver and Rio Grande railroad, where a planing mill will be put up. The New Mexican's information is to the effect that this company has already sawed about \$10,000 worth of lumber and has this amount ready for shipment. It is reported that most likely a spur will be run from the main line of the Denver and Rio Grande to the planing mill to be erected by this company.

Bond and Jones are actively at work cutting timber and sawing lumber on the Las Trampas land grant, which property was purchased two months ago by G. W. Bond and Brothers of Espanola, at a very low figure. Their saw mill is located a distance of about 20 miles from the main line of the Denver and Rio Grande railroad. It is in a magnificent timber country and is also kept up to its maximum capacity. The force of men in both mills will be greatly increased within the next few weeks and the cutting of timber and manufacture of lumber, as well as the making of doors, blinds, sash, shingles, bridge timber, etc., promises to become an important industry in that part of Rio Arriba county and to remain so for some years to come, and as the timber on both grants, if properly managed and handled, will hold out for years to come and can be replenished by observing the laws of forest and tree growing and giving the young trees a chance to grow.

Did you notice the new iron fences in town? Did you notice the improvement in the looks of the property? They are cheaper than wood. Davis and Spooner, the Sanitary Plumbers.
