## AWFUL DISASTER!

### Mine Explosion in State of Utah.

### Two Hundred Men Lose Their Lives.

### The Injured Being Taken to Salt Lake City.

#### CAUSE OF THE DISASTER.

Salt Lake, Utah, May 2.—Two hundred more lives were lost by an explosion of the mine of the Pleasant Valley Coal Co., at Scottfield, Utah. One hundred and thirty-seven bodies are already recovered. The work of rescue is still progressing, although there is no hope that any of the men unaccounted for escaped death. The cause of the disaster is not outside of this place on the line of the Rio Grande and Western railway. The explosion which occurred in the winter quarters of the mine is attributed by some to the blowing up of a number of kegs of blasting powder. The company has two mines, Nos. 1 and 4. The explosion occurred in No. 4.

A special train was sent from Salt Lake bearing Superintendent Sharp, of the Coal company, Superintendent Welby, of the railroad company and some doctors. As fast as the bodies were reached they were taken to the boarding houses and other company buildings, where they were dressed and prepared for the coroner's inquest. The buildings are numerous and in each are ten to thirty bodies laid in long rows. To those identified are attached tags, with the name and address. These await the coming of their relatives or friends. Two hundred coffins have been ordered from local undertakers to be sent at once to the scene of the disaster. A special train bearing the seriously wounded started from Scottfield for Salt Lake.

The first news of the Scottfield disaster received in Salt Lake gave the list of killed as twenty-five, but it was not until evening that the full extent of the tremendous calamity was understood. It appears to be one of those accidents that are common to very best regulated mines and against the best endeavors of the most competent superintendents.

Salt Lake, Utah, May 2.—A special to the Desert News, from Scottfield, says: Two hundred and one bodies have been recovered. It is now known that between three hundred and four hundred men entered the mine, a great majority of whom have been killed. All night lights were kept burning at every home in Scottfield and the moans and piteous cries of many orphans were heartrending. The two camps always have been conspicuous for the large number of married men employed. This fact makes the disaster all the more appalling and far-reaching in results. Several families have been robbed of all male representatives. In the Hunter family seven are missing. Among the dead are about twenty young boys who acted as couplers and trap boys. Just how the catastrophe occurred probably never will be definitely known as various reasons are being attributed to it. At Provo a mass meeting has been held for relief of the families of the victims and \$3,000 subscribed.

## SHARP FIGHT!

### Boers Hold Hills at Houtnek.

### British Trying to Hem in the Boers.

### Bloemfontein People Think the War Will Soon End.

#### DEWEY DAY AT CHICAGO.

Thaba N' Chu, May 1.—Gen. Hamilton's division was engaged yesterday and today forcing a passage northward. At Houtnek the Boer front head the line of hills commanding the sides of Nek. The Canadians and Jordans attacked the hill on the left of the Shropshire and Marshall's horse supported by a battery also attacked the general movement of the conference. The Boers have three guns on the hill, eastward of this place outside of range of the British artillery. The Boer shelling is not doing any damage. The British are not attempting to dislodge them. Gen. Hamilton by reaching Houtnek after a full day's fighting secured the Thaba N' Chu-Bloemfontein road.

While Generals French and Rundle are holding the Boers at Thaba N' Chu, General Broadwood's cavalry has been pushed on to Houtnek in the hope of intercepting the federal convoys between Ladybrand and Winburg. A General Botha has been re-inforced there is every prospect of sharp fighting. The new means of operations and general movements of various columns are taken to indicate that Lord Roberts is deploying his army preparatory to beginning the northern march. It seems likely that it is the commander-in-chief's intention to advance simultaneously from Kimberley, Bloemfontein and Ladysmith, with a view of preventing the Boers from concentrating their forces at any given point.

A dispatch from Bloemfontein dated yesterday, chronicles the prevailing opinion among the townspeople that the war is not likely to last more than six weeks, unless the British advance begins. General Carrington has arrived at Arandellas, whence a flying column will be dispatched in a direction not made public.

Try to Hem in the Boers.  
London, May 2.—It is difficult to unravel the tangled stories coming from the neighborhood of Thaba N' Chu, but apparently the British are engaged in a movement having for its object the hemming in of the Boers still in the district.

Lincoln, Neb., May 2.—Lincoln auditorium was packed with 1,000 delegates and nearly 3,000 spectators when at 2 o'clock this afternoon State Chairman Orland Taff called the republican state convention to order. Nebraska Canal Bill.  
Washington, May 2.—On motion of Hepburn, Iowa, in charge of the Nebraska canal bill, a general debate upon the bill was closed in the house and the bill was read for amendment under the five minute rule. The Nicaragua bill passed the house; yeas, 225; nays, 25. Fortifications clause was struck out, 154 to 104.

Death of Miss Maude Shuman.  
It is with much regret that we announce the death of Miss Maude Shuman, who, since last November has been a resident of this city. She died of tuberculosis at 11 o'clock this morning at No. 417 West Silver avenue. She was 18 years old and was very popular with the young people of this city. Her home is in Nottingham, Ohio, to which place the remains will be accompanied by the mother on Friday night.

This afternoon at 2:30 o'clock the members of the local orders of the Woodmen of the World and the Fraternal Union of America, accompanied by the Ladies Auxiliary, marched from their hall on West Gold avenue to the residence of the late Dr. John C. Berry on Roma avenue. The funeral services at the residence were conducted under the auspices of both orders of which the deceased had been a member for a long term of years. At the conclusion of these services the procession followed the remains to Fairview cemetery where an appropriate

Manila, May 2.—The American garrison at Catubig, island of Samar, consisting of thirty men belonging to the Fourth-third regiment, have been attacked by the rebels. Twenty Americans were killed and the remainder rescued.

Manila, May 2.—The Americans were quartered in Catubig church, which the enemy, numbering several hundred, fiercely attacked. The Americans fought two days; then the rebels managed to take the roof of the church and it burned away and finally fell upon those inside. The walls remained intact, however, and were used as a shelter by the besieged Americans. Three days longer, the enemy attacking the building on all sides at once. The Americans continued firing from the windows and doors of the church and did good execution among the Filipinos. It is estimated that over 200 of the latter were killed, many dead bodies being removed from the scene of the fighting. After five days resistance by the Americans, a lieutenant and eight men arrived from Laon and engaged the besiegers who thereupon retired. The fortunate arrival of these reinforcements prevented the annihilation of the American force entrenched in the church, who repeatedly declined to surrender when ordered. The ten survivors were without food and had little ammunition and were exhausted when relieved. This fight encouraged the Filipinos who are now acting in an aggressive manner, threatening that section of the coast, particularly the town of Calapan, whence the garrison will be withdrawn to Laon.

Chicago, May 2.—The Chicago celebration in honor of Admiral George Dewey practically closed to-day with an excursion by the admiral and the members of the general committee of the Dewey celebration down the Chicago drainage canal as far as the controlling gates at Lockport. Dewey showed keen interest in the canal connecting several times on its immense possibilities. At Lockport an enthusiastic crowd was given the admiral by a large crowd gathered along the banks of the canal.

North Carolina Republicans.  
Raleigh, N. C., May 2.—The republican state convention was held here to-day with a large attendance. Strong pressure was brought to bear last night upon Senator Pritchard to accept the nomination for governor, but he has not yet consented.

Death of a Stranger.  
At a rooming house on North First street this afternoon occurred the death of a stranger. He was about 25 years old. Letters on his person revealed his name, but nothing is known regarding his relatives or home. A postal card under date of April 1899, was among the papers and was mailed at Reading, Pa., by a nephew, but no other signature was visible. There was also found \$105 in money, a pocket knife, a bottle of pain-killing medicine and a comb in the pockets of the clothing. The man was probably 60 years of age. The body was taken to the undertaking rooms of A. Simpler, and will be held for further identification.

Methodist Conference.  
Large Gathering of Distinguished Delegates at Chicago.  
Chicago, May 2.—The twenty-ninth annual conference of the Methodist Episcopal church convened to-day and will last a month. It is expected to be the most important since the memorable one of 1844, when the south branch of the church severed relations with the main body over the slavery question. The venerable Bishop Thomas Bowman, spoke of the importance of the conference, counseled conservatism, and then declared the conference open. Devotional services followed. Bishop S. M. Merrill took the chair, the first move made in the business conference. Grave questions, confronting the gathering, lay delegates demand vote to vote with the clerical representatives and there are one hundred and forty-one provisional lay delegates awaiting action by the conference. A determined effort will be made to raise the ban on dancing, card-playing and theater-going, and arguments are advanced for consecration of bishops with limited jurisdiction, dropping the time limit on pastors and referring the election of conference editors, secretaries and book agents to a committee governing the different societies. It is also expected that steps will be taken looking to re-uniting the south branch of the church with the main body.

The Methodist Episcopal general conference by unanimous vote decided to admit to equal lay representation all Methodist conferences. The Methodist general conference this afternoon voted to admit the provisional delegates.

Jose Concho, the Indian who was injured at the stone quarry near Laguna several days ago, and was brought to the Santa Fe railway hospital at this place for treatment, died last evening at 5:30 o'clock. The body will be buried to-morrow morning in the hospital burying grounds.

The Albuquerque Land and Irrigation company, operating the Rio-Los-Alamos ditch, are paying off the employees this afternoon. President Heesenden, of the company, who has just gotten up from a sick bed, states that all the debts contracted up to date will be met.

Mr. and Mrs. Oreste Bachochi thank this method of extending their thanks to their many friends and neighbors for the sympathy expressed on account of the death of their little daughter.

ALBUQUERQUE, — MAY 2, 1905

The first wool of the season reached  
Las Vegas on Monday from the Pecos  
river country.

The New Mexico Baptist, edited and  
published by Rev. C. C. Walker, of Albu-  
querque, has just made its appearance.

A physician of Battle Creek, Mich.,  
gives it out that the hamburger is  
"fairly alive with microbes," it  
is as though it were dead with them.

Admiral Dewey has decided to go be-  
fore the Kansas City convention with-  
out putting forth any manifesto in re-  
gard to his principles and to ask the  
convention simply on the ground of  
his naval services to the country.

There were 500,000,000 fowls in the  
United States last year, and the num-  
ber of eggs laid was estimated at  
about 1,400,000,000, or a total of 17,  
400,000,000. The value of these fowls  
and the products is set down at \$425,  
000,000.

The republican party has brought  
prosperity not only to the people, but  
also to the government. There will be  
a surplus in the national treasury at  
the end of June of \$10,000,000, despite  
the unprecedented heavy expenses of  
the government during the past two years.

The president has signed a bill ex-  
tending the benefits of the act of Janu-  
ary 1, granting increase of pensions to  
soldiers of the Mexican war, to all  
survivors of that war who are now  
living on existing pension laws, and  
who have become or may hereafter be-  
come wholly disabled for manual labor  
and in such destitute circumstances  
that \$5 per month is insufficient to  
provide them the necessities of life.

The Pan-American conference, which  
will meet next year at the City of Mex-  
ico will consider the establishment of  
a permanent international court of  
arbitration for claims of citizens of  
one American nation against another.  
When a claim of this kind is presented  
it is seldom settled upon the basis of  
equitable basis, the amount of dam-  
ages collected usually depending upon  
the influence of the claimant with its  
government, and the power of that  
government to enforce its demands.

## AZTEC RUINS.

The committee on public lands, to  
whom was referred the bill for the  
preservation of the prehistoric monu-  
ments, ruins and objects on public  
lands, has reported that there are  
located in Colorado, Utah, Arizona and  
New Mexico, a large number of monu-  
ments and cliff dwellings, which are  
the work of prehistoric man. The bill  
proposes to set apart and reserve from  
sale, reservations containing these  
monuments to the extent of not exceed-  
ing 320 acres to each reservation, and  
provides that each reservation shall  
be surveyed. It places these reserva-  
tions under the care of the secretary  
of the interior, who shall make rules  
and regulations relative to the same.  
The various archaeological societies are  
very much interested in the preser-  
vation of these ruins, and the only  
practical way they can be preserved is  
by creating reservations of the land  
surrounding each ruin, and providing  
a penalty for any destruction of the  
same.

## GOOD IDEA.

Tree planting for an unusual purpose  
has been recommended to residents of  
the western irrigation districts by W.  
L. Hall, assistant superintendent of  
tree planting of the division of forest-  
ry, who has recently been in New Mex-  
ico on an investigation. Agriculture  
in that region depends largely on  
irrigation, and the streams and reser-  
voirs are much depleted by evaporation  
due to the heat and dry winds. Mr.  
Hall recommends that belts of trees be  
planted along every ditch and reser-  
voir not only to shade them, but to  
shelter them from wind. The problem of  
preventing evaporation is very im-  
portant, not only on account of the  
loss of water, but because the per-  
centage of alkali in the quantity re-  
maining becomes excessive.

## DEMOCRATIC PLATFORM.

The Santa Fe New Mexican pub-  
lishes a lengthy review of the platform  
adopted by the democrats of this terri-  
tory, and shows up the fallacy of the  
whole document. The New Mexican  
says of the three planks of the plat-  
form relating to territorial affairs:  
"What they term the nominal duties  
of a worse than useless office were  
created and provided for by the  
democratic legislature of 1892, the  
first incumbent of the office being S.  
Hart, who was appointed by Govern-  
or Thornton. He defaulted in the of-  
fice to the amount of \$5,137.17, for  
which the collector general obtained  
judgment against him on the 24th of  
May last. The amendment complain-  
ing of his failure to pay the money  
of was only to the effect of giving  
the officer all the fees that might be  
received by him; and if the office is,  
as stated in the resolutions, a worse than  
useless one, it is the democratic party  
of the territory which is responsible for  
it."

"In regard to McKinley county, it is  
a matter of public knowledge as well  
as of record, that the people of Glau-  
dap have for years been clamoring for  
a new county, and the only objection  
to the present law relating to the  
county is the area included within it."  
"The assessment and taxation of  
railroad property by a board of equal-  
ization is the universal method in all  
the states and territories of the union  
for uniformity of taxation, and has been  
adopted in this territory under the  
law of 1882, providing for a territorial  
board of equalization, when the board  
consisted of the governor, the attor-  
ney general and auditor. The law was  
amended in 1889, '90 and '97, each of  
which amendments tended to curtail  
the powers of that board, as previous  
to the amendments the board had the  
power to fix values on all classes of  
property as well as of railroads."

## NEW MEXICO LEADS.

New Mexico has overtaken Montana  
as to the number of sheep in that  
state and it is now the leading wool  
producing commonwealth in the United  
States. According to the latest offi-  
cial statistics compiled at Wash-  
ington, New Mexico is credited with 2,575,  
354 head of sheep. Montana follows with  
2,280,180; Ohio fourth with 2,239,490;  
Idaho fifth with 2,038,052. Only a few  
years ago Texas and California led the

# Throat Troubles

"Hardwell, Ky., where I live, is in the ex-  
treme west part of the state and only a  
few miles from Cairo, Ill., where the Ohio  
empties into the Mississippi River. It may  
be that throat troubles are common here be-  
cause of location, but, whatever the reason, I find  
it wise to constantly keep a supply of  
Ackers' English Remedy for Consumption  
on hand. It is the best thing I ever came  
across for coughs, colds and throat troubles,  
and I have used it in my family for years. I  
suffered here on the subject of throat troubles  
so I am writing this letter to W. H. Hooker &  
Co., 23 Broadway, N. Y., to order a dozen bottles at a time. My wife is  
suffering lately with sore throat and difficulty  
breathing, but just as soon as the dozen bot-  
tles get here, I will give her a few doses, and  
she will certainly be well again. I expect to  
write another letter in a short time saying  
my wife is cured, for I feel absolutely sure  
it is what she needs." (Signed) T. A. WHITE.

## The Acme of Perfection

Is a description which is but slight praise when speaking of our Shirt Waists. They are ideal, embodying as much honest and intrinsic value as is capable of being crowded into any one garment. Their style is chic; their fabric novel; their workmanship the best, and their fit perfect. This is not only our opinion, but that of the wearers of these garments. Accompanying cuts portray but two representative styles. Space does not permit of more.

This is the representation of one of our most popular shirt waists—Our \$1.25 Waist. It comes in most handsome patterns, is made with plain or bias French back. It is a sterling value. We have at least a dozen numbers at this price for your selection.

**FANCY LINEN WAISTS.**  
Our line of White India Linen Waists is immense. Special prominence is given this season to those made of fine all-over embroideries, of which we have a vast assortment. Above cut shows a very fine India Linen Waist, with four rows of Swiss insertion, the entire back being of very narrow tucking, and the sleeve an elaborate dress sleeve. It sells for the low price of \$2.25. We show a very pretty line, ranging from 90c to \$3.00.

Lovers of the street and only national game ought to get together and organize a team of players for this season. Plenty of good material here to make up a championship club.

To-day, F. H. Kent, the third street real estate agent, sold to Fred D. Lewis two lots on west Railroad avenue, just beyond the E. S. Stover residence. Mr. Lewis has the plans and specifications for a modern five-room cottage drawn up, which he expects soon to have erected on his lots. It is understood that Rose Merritt and Felix Lester will also build modern cottages in the same block. These lots are located on the south side of the street railway track.

Three young men appeared before Judge Crawford yesterday and related their stories concerning the Schmitt-mack bicycle case. The Albuquerque Brick company, of which W. C. Butman is president, has just burned a kiln of 200,000 bricks and the samples he showed around this morning proved the assertion that good brick can be manufactured in this valley.
