BOILER MAKERS' STKIRE SETTLED

Differences on the Union Pacific Have All Been Satisfactorily Adjusted and No Sympathetic Strike Will Be Ordered.

MONTREAL STREET RAILWAY EMPLOYEES OUT

New York, May 23.—John McNeil, grand president and organizer of the Brotherhood of Boilermakers and Iron Shipbuilders of America, in a statement today says the strike of boiler-makers on the Union-Pacific, inaugurated June 19, 1902, has been settled. The men being granted a substantial increase and other questions having been arranged satisfactorily to both parties. All men now out are to return to work. The men struck for an increase in wages and the establishment of shop rules. A sympathetic strike was ordered on the Southern Pacific when, through the influence of

E. H. Harriman, a conference was arranged and conducted in this city during the last few days. McNeil has gone to Pittsburgh to hold a conference with the employers of boiler-makers in that city looking to a settlement of the difficulties existing there.

STRIKE AT MONTREAL.

Montreal, May 23.—Employees of the Montreal Street railway went out on strike again at an early hour today and the road is completely tied up. When the ballot on the question was taken at 2:30 a. m., only about half a dozen out of some 1,500 men voted against striking.

W. P. Gould of Hobart, is in the city today on business. He is a fruit ranch at Hobart. Mr. Gould reports that there will be plenty of apples and pears on his ranch this season but that peaches have been damaged considerably by the frosts and the late spring.

An exceptionally clear and fine picture was taken by Crausby of the scene at the Capitol while President Roosevelt was delivering his address. The picture is large, at least 16x24 inches, and those sitting on the stand are easily recognized. The picture shows the Cleveland Grays and other organizations which were drawn up in line and is extraordinarily clear.

Postmaster Paul A. F. Walter today received word from J. E. Erwin of San Francisco, superintendent of the Free Delivery Service, that he is making preparations to hold examinations for letter carriers and clerks at the Santa Fe postoffice, but that in the meantime the numbering of houses in the city should be completed. Thus far about one-tenth of the houses in the city have been numbered and since the contract was given out five months ago, it will at that rate take about five years to complete the job which is a little too much manna even for Santa Fe. All residents are also urged to become accustomed to use street name and house number in their correspondence so that the free delivery system will prove a success from the start in this city. The examinations will probably be held in July and free delivery is to be established on September 1.

Dr. Charles A. Wheeler, the osteopath, who recently located in this city, is establishing a good practice. Osteopathy is a complete curative system and successfully treats all diseases, acute or chronic, without medicine. It is purely mechanical and deals with the bones, muscles, tendons, nerves, etc. A set of contracted muscles in a patient's back or a small misplacement of the vertebrae may so interfere on the nerve supply to some abdominal organ as to cause a derangement in its function and disease results. Osteopathy seeks to remove the cause of disease. Mrs. Foraker, wife of the distinguished Ohio senator, in speaking of osteopathy says: "The system has

made it possible for women to escape most of the ills which she has been supposed traditionally to suffer. Osteopathy will do more for all kinds of chronic troubles than any other system." Dr. Wheeler has pleasant office rooms at 103 Palace Avenue, and takes pleasure in explaining his method of treatment to anyone interested.

PUBLIC SCHOOL COMMENCEMENT

An Enjoyable Program Given Last Evening by the Pupils Before an Audience Which Crowded Gray's Opera House.

FLEDA SMITH WAS THE ONLY GRADUATE

Gray's opera house was crowded last evening with the friends of the public schools, to attend the annual commencement exercises. The program commenced promptly at 7:45 as so many little children participated in it. The prettiest feature of the evening was the opening number, the Kindergarten year in song, by the little tots from the Kindergarten. The little girls were dressed in white and the boys wore white sailor suits. Their singing and action was splendid and their number was highly enjoyed. The pupils of all the rooms acquitted themselves with great credit and the entertainment was one of great gratification and pleasure to all concerned. The only graduate was Fleda Smith who delivered a most creditable oration on "Monuments." The diploma was presented by President T. B. Catron, of the Board of Education. The program was as follows:

1. The Kindergarten Year in Song—Sept. 1. Greetings: October's Party; Nov. to Grand-mother's Day; Christmas Bells; Jan. The Little New Year; Feb. Washington's March; March, Easter Lilies; Butterfly; April, Froebel's Birthday; May, The Queen of May; June, The Daisies, The Rose; July, Columbia; Three Sisters; Aug. Jack Tat.
2. "Little Red Riding Hood,"—by pupils of Miss Berger's Room.
3. "The Sowers"—by pupils of Miss Boyle's Room.
4. "The Reapers"—by pupils of Miss Marsh's Room.
5. Declarations—"Our Flag"—Benito Rael, "Be Kind"—Anastacio Sena, by pupils of Mr. Padilla's Room.
6. "Delsarte Drill" and a recitation by pupils of Miss Madole's Room.
7. Music—Instrumental, by pupils of the grammar and high school.
8. Declaration—"Mount Blanco"—Estella Williams.
9. Oration—"Monuments"—Fleda Smith, Fourth Year Graduate.
10. Music—Instrumental.
11. Awarding of Diploma, Hon. T. B. Catron, Pres. Board of Education.
12. "The Japanese Girl" and a recitation, by pupils of Miss Schnepfle's Room.
13. The Dairy Maids' Drill, by pupils of Mrs. Hall's and Miss Patterson's Rooms.

Good Night.

The words sung in "The Sowers", by pupils from Miss Boyle's room, were original and as follows:

THE SOWERS.

Maidens so happy and merry,
Singing glad songs all the day,
Sowing the grain in the Springtime,
Raking the pebbles away.
Brightly we laugh as we labor,
Working away with a will,
Chatting each one with her neighbor,
Working and frolicking still.

Winter is over, so hasten
Sowers to scatter the grain,
Rake up the earth and prepare it,
Make it all ready for rain.
Warmly the sun is shining,
Bringing the summer so near,
Work and ne'er dream of repining,
Soon will the flowers appear.

Come now the planting is over,
Water the seeds in the ground,
Watch them and care for them ever,
Days, weeks and months rolling round,
Soon will the green blades be peeping
Up from the warm, mellow soil,
Soon will our brothers be reaping
The harvest, the end of our toil.

TOWN WIPED OUT.

Incendiaries Burned the Highest Incorporated Place in the United States.

Cripple Creek, Colo., May 23.—The town of Altman, located at the apex of Bull Hill and the highest incorporated city in the United States, was practically wiped out by incendiary fire early this morning. The loss will reach at least \$75,000 and the insurance is not more than \$10,000. Five persons have been arrested charged with starting the fire. The entire business section and most of the residences are in ruins. The fire broke out in the Altman hotel and, assisted by a stiff wind, made a clean sweep. The fire plugs had been tampered with and water could not be obtained for an hour after the fire was discovered. Large quantities of dynamite were used, but had little effect in staying the flames.

EXPLOSION OF GAS.

It Is Believed Two Steerage Passengers Were Blown Overboard.

Quebec, May 23.—The steamship Co. of the Black Diamond line from Sydney C. B., for Montreal, which passed inward off Matane light yesterday, signalled that an explosion of gas had occurred on board which completely destroyed the saloon and blew up the poop deck. Three iron beams were also broken in the lower deck. A waiter was killed and two steerage passengers are missing and it is thought they were thrown overboard by the explosion.

CYCLONE SEASON ON

Kansas is to the Front With the Regular Quota.

MANY PEOPLE WERE KILLED

Storm With the Hailstones, as usual, Large as Hens' Eggs, Accompanied the Wind.

Kansas City, May 23.—A special to the Star from Manhattan, Kas., says a cyclone passed over the western part of Riley county last evening, traveling in a northwesterly direction. At Bala, on the Rock Island road, two people were killed and twelve injured, several, it is thought, fatally. Railroad traffic was blocked for some time on account of great trees and debris being blown on the track. The storm was accompanied by a heavy rain and hail storm, stones as large as hens' eggs falling. Many dwellings and out-buildings were wrecked.

TWO FATALLY INJURED.

Eureka, Kas., May 23.—A severe tornado dipped down on this city at 11 o'clock last night, fatally injuring Mrs. J. H. German and Mrs. Frank Sample, and seriously injuring half a dozen others. A score of houses were destroyed while trees were clipped off as though they were straw.

On their farm, 10 miles southwest of Eureka, Frank Massett and his wife were injured seriously, their house being wrecked.

WAS NEAR DODGE CITY.

Dodge City, May 23.—Last evening a tornado struck this county nine miles southeast of here, killing a herd, name unknown, and fatally injuring Mrs. Tibb Shans. The house, barn and windmill of John Beelman was blown away and a herd of Warren Brown's blooded horses was killed. Two hundred head of cattle are reported killed.

DICKINSON COUNTY DAMAGED.

Kansas City, May 23.—In the northwestern corner of Dickinson county, where eight dwellings were wrecked by a tornado, Ex-State Representative Harvey and wife, and Miss Ellen Young were badly injured, but all will recover. It is estimated \$30,000 damages was done to crops alone in Dickinson county. At Augusta, Kas., the roof was blown off a school house, the Methodist church was damaged. The tornado struck Whitehead, Okla., demolishing ten stores and several dwellings. No lives were lost.

UP IN MINNESOTA.

St. Charles, Minn., May 23.—At midnight a tornado wrecked the race track and buildings and killed five horses in training here. Many windmills and barns were blown down.

PLANTS SUFFERED SERIOUSLY.

Luverne, Minn., May 23.—A heavy rain and wind storm visited this section last night. Incomplete reports indicate a heavy loss in farm buildings throughout the country. In this city the heaviest damage was to shade trees. The telephone and electric light plants suffered seriously.

ONLY ONE INJURED.

Estherville, Ia., May 23.—A severe wind and rain storm passed over this place last night doing much damage to buildings, barns, etc. Mrs. Hensinger, so far as known, is the only person injured.

KILLED BY LIGHTNING.

Clarinda, Ia., May 23.—During an electrical storm last night, John Coons of this city, was struck by lightning and instantly killed. His 7-year old son was severely shocked and it is feared he will not recover. Several other occupants of the house were rendered unconscious but soon recovered.

ROOSEVELT ON THE WATER.

Magnificent Weather for His Ride from Tacoma to Seattle.

Tacoma, Wn., May 23.—A magnificent day, with a clear sky and delightful air, favored the President's trip on Puget sound. The Presidential party left the Tacoma hotel shortly before 9 o'clock for a drive to the wharf, accompanied by an escort of police and cavalry and band of music. All shipping in the harbor was gay with flags and streamers. The steamer Spokane, which conveyed the Presidential party, had flags floating from every mast. The President is due to arrive in Seattle at one o'clock.

THIS IS NO JOKE.

Mark Twain, His Wife and Two Daughters Are All Ill.

New York, May 23.—Samuel L. Clemens (Mark Twain) who with his wife and two daughters is ill at his residence at Riverfront on the Hudson, issued the following bulletin today: "I hope to be out in a few days. My wife is slightly improved. Miss Clara is better, although still seriously ill. Miss Jean is convalescent and is able to enjoy short drives. Mrs. Clemens has been suffering from nervous prostration since August. Mr. Clemens had a severe attack of bronchitis and the two daughters are ill with measles."

KILLED BY A MYSTERIOUS STRANGER

Thomas Delaney, a Section Foreman on the Denver and Rio Grande Railroad, Was Murdered in a Snow Shed.

SKULL CRUSHED WITH A COUPLING PIN.

Special to the New Mexican.

Antonio, Colo., May 21.

Thomas Delaney, section foreman on the Denver and Rio Grande Railroad on the section between Los Pinos section and Cumbres section, was murdered yesterday afternoon in a snow shed at the lower end of the section. The murder was committed between 3 and 4 o'clock in the afternoon. Delaney had gone to the next section below to bid farewell to a foreman who had resigned his place on the next section. He left the men on the adjoining section at 3:15 p. m. and was afterwards seen by his own men as he was returning. He was seen to talk with a stranger just before entering the snow shed on his way back. Delaney did not put in an appearance at quitting time so his men went to the section house. This morning as he was still missing they went to search for him and at 6 o'clock found his body in the dark part of the snow shed. His skull has been crushed with a coupling pin. Delaney's watch and pay check were found on the body.

The mysterious stranger was seen by Delaney's men as they were about to start for the section house and they waited for some time, thinking it was Delaney. The stranger evidently followed them towards the section house and then went on over the Cumbres range toward Chama and Durango. It is supposed that the intention of the stranger was to merely stun Delaney and then rob him, but finding that he had killed him, he became alarmed and left without carrying out his intentions to rob. Efforts are being made to trace him.

THIRTEEN WERE CONCERNED.

Elevator Dropped Fifty Feet and Four People Were Killed.

Pittsburg, May 23.—It was almost noon before all the victims of last night's frightful elevator accident at the Donnelly building, during the electro-mechanical institute ball last night, were identified. The accident was caused by the breaking of a wire cable, causing the cage to drop 50 feet. There were 13 people in the elevator at the time. The dead are: Miss Marie Curtin, 18 years old; Miss Susie Flannigan, 19; Rayden P. Flohr, 28; Nellie C. Sweeney, aged 16. Every person in the elevator was cut and bruised but with the exception of an unidentified man, who is unconscious at the hospital, all are expected to recover. The coroner's jury met in the court room at the morgue building this morning and a rigid investigation was at once started.

FOUR FATALITIES.

Storms and High Water Cause Much Damage in Nebraska.

Lincoln, Neb., May 23.—Storms and high water are responsible for four fatalities and much damage in Nebraska. At Sterling, an attempt to cross the Nebraska river on a weakened bridge caused the drowning of Frank Harns, a farmer, his sister, Mrs. Edward Hulseke, and her six-year old child. At Lewis-ton, during an electric storm, John Bowen, a railroad employee, was struck by lightning.

ANOTHER CONVICTION.

A St. Louis Alderman Whose Vote Was Worth \$2,500.

St. Louis, May 23.—After being out 55 minutes the jury in the case of Emil Hartman, former member of the house of delegates, indicted for bribery, returned a verdict this afternoon before Judge Ryan, finding Hartman guilty and fixing his punishment at six years in the penitentiary. Hartman, several witnesses testified, was one of a number who received \$2,500 for his vote.

BUCKET SHOP RAIDED.

Wild Excitement Was Caused on the Board of Trade.

Chicago, May 23.—The offices of Geo. T. Sullivan, No. 259 La Salle Street were raided by the police today and fifty men who were speculating were placed under arrest. Sullivan is charged with operating a bucket shop and swindling his patrons. The raid caused wild excitement in the vicinity of the board of trade and the open board.

HONORABLE ACQUITTAL.

Mani'a, May 23.—The verdict in the court martial of Captain F. Hartmann, signal corps, charged with embezzlement of government property, is full and honorable acquittal.

The loose leaf ledgers which are on sale at the New Mexican office, are rapidly growing in favor. It is the best patent that has been issued and the saving to the business man in not carrying a book of dead pages is considerable. For convenience and economy and for keeping the book up to the mark with live accounts only, the loose leaf ledger is the best arrangement yet issued.

INHUMAN AND BRUTAL TREATMENT

Scandalous and Grave Charges Made Against the Management of the Territorial Insane Hospital at Las Vegas.

THOROUGH INVESTIGATION ORDERED BY GOVERNOR OTERO

Grave charges are made against certain officials of the Territorial Insane Asylum at Las Vegas and it is claimed that patients have been brutally and inhumanly treated. The rumors to this effect became so numerous and persistent that the board of directors conducted an investigation. The only statement thus far made by the board as the result of the investigation is that the rumors and reports were explained by the superintendent.

The Las Vegas Advertiser charges that efforts are being made to suppress the facts and to avoid publicity. The charges made by the Advertiser are that patients are forced to work from 8 to 13 hours a day and are frequently punished for refusal to work when threats prove of no avail. A common method in the department for females is to get behind a patient, throw her to the floor and then have four or five other patients sit on her while the matron holds her hand over the patient's mouth to prevent screaming. The patient is so held until a promise to be good is given.

The Advertiser says that patients have been strapped in bed for hours as punishment and have been forced to go without dinner. Another form of punishment is to strap a patient to a cell door and force him to stand erect, back to the door, until almost exhausted. Ice cold shower baths are frequently used to strap a patient to a cell door and force him to stand erect, back to the door, until almost exhausted. The "water cure" in vogue is said to consist of turning the fire hose directly on the patient who is strapped to a steam pipe to prevent the force of the water from knocking him down. Another method is known as the "Ferry wheel." When this is adopted, the patient is stripped, his hands are crossed in front of his knees which are drawn up and then strapped. A broom stick or rod is then passed under the knees and above the arms and this is placed across a bath tub. The tub is filled with cold water and all is ready. The patient is then revolved on the rod as a pivot. The head is kept under water as long as possible and then he is half turned again. For patients who exasperate, a gag is provided. The bedding is not warm enough and one patient who destroys his bedding is given a pile of straw to sleep on without blankets or covering of any kind.

The employees have many grievances, according to the Advertiser. They are on duty from 4:45 a. m. to 7 p. m., and the only time they have to themselves is from 7 to 8:30 p. m., and they are not permitted to leave the grounds. One day in the week they are given from 10 a. m. to 5 p. m. The meals served are poor and there is no variety.

A gruesome story is related by the Advertiser. It states that a few weeks ago some of the directors heard that human bones were scattered around the asylum yard, that they drove out to investigate and found it was true. The bones were then gathered up in a sack and put in the basement of the institution. Under one end of a fence the pelvis of a female was found and to it were attached eight or ten ribs. The lower jaw, with teeth, was found and the top of the skull and bones of fingers, toes, arms and legs were scattered promiscuously about. The bones were those of a patient who died in 1900 and the body was placed in the morgue. An official had a physician who was a patient, prepare the body so he could have the skeleton. The bones were placed in a barrel of water so the flesh could decompose and the barrel placed in the yard. It was neglected until it dried up, fell apart and the bones became scattered. It is known who the patient was and all particulars about her. It is charged the patients receive no treatment for their mental condition except that when noisy, they are given a quieting mixture. When physically sick they are given treatment.

GOULD SAYS NO.

Is Not Interested in Any Project West of Ogden.

New York, May 23.—George J. Gould, in an interview here, denied he was secretly interested in a project to reach the Pacific coast by an independent line from Salt Lake. He also said he had not a dollar invested in any railroad project west of Ogden and was not identified with David H. Moffatt, or the Denver, Northwestern and Pacific, which is being built through the mountains of northwestern Colorado from Denver to Salt Lake City.

SANTA FE NEW MEXICAN

THE NEW MEXICAN PRINTING COMPANY
Entered as Second Class matter at
the Santa Fe Postoffice.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

SATURDAY, MAY 23.

Right along it is being more fully demonstrated that "Water is King" in New Mexico.

Ice is sold at Manila at fifty cents a hundred and it seems strange that more has to be charged the people in a much colder climate.

Senator Quay is again to lead the fight for statehood for New Mexico, and this time with better chances for success. Good enough.

There is this advantage in the continued cold weather, that it preserves the snow in the hills for the warm days that are coming.

Single statehood for New Mexico is what the people of this territory desire. Combined statehood with Arizona may be accepted, but only as a last resort.

In accordance with the Governor's proclamation and with universal custom throughout the country, Memorial Day should be fully observed in the Capital of New Mexico.

Pittsburg has thus far received \$18,804,000 worth of Andrew Carnegie's charity. Perhaps, that is what is lacking in Santa Fe—an Andrew Carnegie.

Kansas now has 777,000 acres in alfalfa and begins to fear crop failures much less than formerly. New Mexico should also greatly increase its acreage in alfalfa. Alfalfa is king in the arid West.

Civil Service Commissioner Foulke has finally made up his mind to go abroad for six weeks. Stony hearted man. How is it possible for this country to get along without him for that length of time?

Andrew Carnegie now announces that it is his ambition to die poor. If that is really so he might gratify it speedily. Just let him get into a Missouri legislative hold-up and it will be "Good-bye Andy dear."

The Associated Press dispatch that Grover Cleveland has finished his fishing trip reminds the American people that the fact that Cleveland is a good fisherman is the first thought that suggests itself whenever they think of the ex-president. Such is fame.

It has been a little cool and windy in these parts during the past few days, but that condition of the weather was more bearable than the torrid temperature of Philadelphia. New York and eastern cities at the same time, which report quite a number of deaths from heat prostration.

The butchers, the bakers and the candle stick makers as well as the restaurant waiters have been amusing themselves with a strike during the past few days in Denver. It may have been rather amusing to them but it was rather tough on the traveling public. The Queen City of the Plains will not benefit by this occurrence.

The Grover Cleveland presidential tow line is not as strong as it might be. In Massachusetts for example, the Mugwumps and the gold Democrats favor Richard Olney for the Democratic presidential nomination for 1904, but keep "mum" when the name of the "Veiled Prophet of Princeton" is mentioned.

In St. Louis they have been selling American citizenship to foreign immigrants at the rate of \$100 per immigrant. Yet, there are newspapers published at St. Louis which deny the fitness of New Mexico citizens, who were born and reared in this country, to the rights which are sold at St. Louis for so small a sum to people who landed from Europe only a few months before.

With proper and energetic work on the part of the commission having charge of the exhibit from this territory at the St. Louis World's Fair, such exhibit can be made very extensive, interesting, diversified and large. Local claims should have no consideration. The interests of the territory as a whole must and should be looked after by the members of the commission.

The White Czar is ambitious to inaugurate a policy of disarmament all over the globe except at home. There his officials distribute arms to hired ruffians wherewith to kill a lot of inoffensive and good people because they happen to disbelieve in the tenets of the Russian church. The recent massacres at Kishineff and other Russian points are certainly strong pointers in that direction.

Manila newspapers do not deny that there are assassins and ladrone in the Philippine Islands, but these papers call the attention of the Louisville Courier-Journal and its gifted editor to the fact that things in Manila and indeed in the Islands, are not in as bad a shape as they are in the sovereign state of Kentucky. At any rate, say they, lawyers are reasonably safe in the court house at Manila and other towns.

On Monday, June 1, elections for school directors in county school districts will take place throughout this territory. If the people of New Mexico would have good public schools in the country districts, they must elect intelligent, honest and good citizens, friends of the public school system, to these positions. There is the foundation. If the foundation is strong and good, the rest will follow as a matter of course and will prove very satisfactory and beneficial to the people.

Judging by the way that the Santa Fe Board of Education has been stormed by applications for positions on the teaching force of the Santa Fe schools, the occupation of teacher is much more overcrowded in this territory than that of carpenter, bricklayer, coal miner or laborer. There were four to five applicants for almost every position and some of the applicants were willing to work for less than what a day laborer receives in working on railroad construction or in the mines.

Cartoonist McCutcheon in the Chicago Record-Herald recently had a laughable cartoon of President Roosevelt in the Grand Canon. The Atchison, Topeka and Santa Fe railway is making capital out of it by labeling the cartoon: "Reached only via the Santa Fe." The Grand Canon is a splendid drawing card for the Santa Fe out of which it is bound to make increased profits right along. If the Santa Fe management is wise, it will realize that the City of Santa Fe is and can be made just as powerful a drawing card, especially when it is considered that the cliff dwellings near here and the many historic and natural attractions of this city and surroundings, would prove even a greater drawing card to the average tourist than is the Grand Canon, if Santa Fe was advertised by the railway management as the Grand Canon is advertised.

The Interdenominational Council of Women is after the political scalp of United States Senator Reed Smoot of Utah. Senator Smoot is a member of the Church of Jesus Christ of the Latter Day Saints; he is not a polygamist and he is a citizen of good reputation and some ability. Why the United States senate should unseat Mr. Smoot because he is a Mormon and for no other reason is not exactly clear to the minds of good, unbiased and liberal citizens. The United States senate should take no heed whatever of the cranky appeals to it to give Mr. Smoot the "grand bounce," and it looks as if the senate will pay no attention to the frantic shrieks of some people who may be very sincere but who really do not know, why Mr. Smoot should not hold his seat in the senate, to which he was honestly and justly elected. It would be a very dangerous and unwholesome precedent were the senate to do anything but to leave Mr. Smoot undisputed in the seat to which he is fully and justly entitled by right, by law, by an honest election and by precedence.

The statehood question will be the dominant factor again at the next session of congress. No question can be considered settled until it is settled right. The New Mexican hopes, that, at least, from the side of the statehood advocates there will be no extravagant claims and dubious exaggerations about the resources and the conditions of New Mexico. It is believed that extravagances on part of statehood advocates have hurt the statehood cause more than any other factor, for it is so easy to disprove a lie about a matter of fact, and to disprove one claim of a statehood advocate is apt to cast a doubt upon any other statement he may make. Let it be understood that New Mexico averages up no better and no worse than the average American commonwealth; that the imaginary division lines between the states to the north and to the east do not separate one kind of a people from another kind and one tract of land differing from the other as far as resources go. The claims of New Mexico to statehood are good enough and righteous enough to stand upon their own merits and it is not necessary to boost them with statements about population, wealth and character, that the facts will not sustain.

NOT AS BAD AS IT MIGHT BE.

There are many features of the Missouri state government which are not at all commendable, but it must be remembered that Missouri is only an average American commonwealth, with its advantages as well as drawbacks. The following figures give the bright side of the administration of the commonwealth. Missouri is out of debt. Its tax rate is among the lowest being only one and one-tenths of a mill on the dollar; assessments are only one-third of the real value of property; the state has refunded its bonds at three and a half per cent, commanding even at that low rate a good premium in financial markets; every Missouri town and village has fine modern school houses; the state has by wise enactments aided its counties to pay off their enormous debts and to restore their credit; its railroads are assessed at \$100,000,000; it has provided by law that the fees and earnings of its state officials as well as the interest upon public monies shall be paid into the state treasury; it has in a few decades increased the state institutions from eight to twenty-one; its permanent public school fund has been increased to \$4,500,000; it distributes annually out of the state treasury \$1,170,000 to the public schools, giving one-third of the entire state revenue to that purpose and since 1873 has paid \$21,778,000 of bonded indebtedness as well as \$22,402,092.48 interest thereon. As soon as Missouri has cleaned out its bondholders and gets down to changing the politics of its state administrations every once in a while, it will be in a fair way of being an example to every other state and territory in the United States.

Young Milwaukee Society Woman.

Wine of Cardui is certainly "worth" out women's best friend and I am glad to give my experience with it. A few months ago I caught a severe cold, having been out in inclement weather, which settled all over me, particularly in the abdomen. I was in almost constant pain. I consulted a physician and took his medicine for a month and without any relief. I then decided I would try my medicine and it was a lucky day for me when I did so. I noticed a change in a few days and felt encouraged to continue taking Wine of Cardui, and my patience was rewarded, for in two weeks my pains had left me and I felt like a new woman.

The woman who has suffered from female weakness should do anything within reason to secure health. Wine of Cardui is the medicine that appeals to reasonable women—women who hold operations and cutting in low esteem—women who know that Nature is the best physician. Wine of Cardui gives women back their health by giving Nature a chance to build up the wasted and diseased tissue. Wine of Cardui regulates the menstrual flow and Nature, when relieved of the drain or of the poisons in the system, makes the functional organs strong and healthy again.

Any woman who is silently suffering untold pains because she is too sensitive to undergo a physician's examination and treatment can find no easier far not securing relief when Wine of Cardui is offered to her. There is no publicity to deter her. She can take Wine of Cardui in the privacy of her home, with as much assurance of a final cure as though a dozen doctors recommended it. Many physicians do recommend Wine of Cardui to their patients.

Why not get a \$1.00 bottle of Wine of Cardui from your druggist today?

A million suffering women have found relief in Wine of Cardui.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barranca Station, on the Denver & Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 98 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,586.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrhs, La Grippe, A Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:05 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. SATURDAY, MAY 23.

SOCIAL AND PERSONAL

Hon. Amado Chavez has returned from a visit at Albuquerque and Las Cruces.

Associate Justice John R. McPhee was a visitor in Silver City and Deming this week.

Territorial Auditor W. G. Sargent left this morning for a few days' visit at Chama.

Mrs. T. P. Martin returned to her home in Taos this morning after a brief visit in this city.

Joseph Jarrell, an Espanola liveryman, returned to that town this morning after spending a few days in this city.

Mrs. Montgomery of Alamosa, Colo., who has been at St. Vincent's Sanitarium, left this morning for her home.

Mrs. J. Kahn was at home to a few of her friends Tuesday afternoon complimentary to Mrs. A. C. Nasse of St. Louis.

B. M. Thomas, who graduated from the New Mexico Military Institute at Roswell this week, returned to Santa Fe last night.

Dr. J. A. Massie is in Toronto, Canada, the guest of relatives. He will attend the wedding of a brother which will occur this week.

Solicitor General E. L. Bartlett is at the National Capital on business. He is at the New Willard Hotel and will remain until about June 8.

Judge and Mrs. B. S. Baker of Albuquerque, who are now in Omaha, Neb., expect to return to the Duke City during the first week in June.

Hon. L. Bradford Prince went to Albuquerque last evening to attend to legal matters connected with the partition suit of the Cololleta land grant.

District Attorney E. C. Abbott left this morning for Trinidad, Colo., to attend to legal business there. He will return to Santa Fe tomorrow evening.

The Rt. Rev. J. B. Pitaval, auxiliary bishop of the Santa Fe archdiocese of the Roman Catholic church, was in the Meadow City on church matters during the week.

Governor Otero will visit Albuquerque on Monday on official business. From the Duke City, he will likely proceed to Las Vegas to attend to official business there.

Miss Gertrude Medole, one of the public school teachers in the city, left this morning for Yankton, S. D., that town being her home, and where she will spend her vacation.

George Marsh, who has been attending the New Mexico Military Institute at Roswell, returned to his home in this city last evening to spend the summer vacation with his mother.

Hon. Amado Chavez will leave tomorrow evening for Albuquerque, where he will be during the coming week, looking after legal and land grant matters in which he is attorney.

Professor Clinton J. Crandall, the efficient superintendent of the United States Indian Industrial School in this city, returned yesterday from an official visit to California and Arizona.

Rev. Albert of the Order of Francis, who has been in this city for the past two months, for the benefit of his health, left this morning for his home in Denver. The climate has benefited him.

Miss May Spitz, who has been a student at Swarthmore College near Philadelphia during the past year, is expected to return home early in June to spend her vacation with her parents in this city.

Charles H. Randall and wife and two children of Buckfield, Me., spent last night in this city, departing this morning for Tres Piedras. They will take up their residence on a ranch near that place.

PAINE'S CELERY COMPOUND

THE ONE REMEDY THAT WILL REALLY MAKE YOU WELL.

Years ago when a great public demand arose for a remedy for nervous ailments as well as a reliable blood purifier, Dr. Edward E. Phelps, professor of Materia Medica and Medical Botany, of Dartmouth Medical College, gave to diseased and suffering men and women his great discovery, Paine's Celery Compound. The success of this wonderful prescription has been phenomenal. No other remedy known to medical science enjoys such a widespread reputation today.

In this month of May when so many are sick, Paine's Celery Compound makes people well. It is the one true specific prescribed by eminent practitioners for diseases arising from a debilitated nervous system; it is a positive cure for sleeplessness, wasting strength, rheumatism, neuralgia, dyspepsia, liver, and kidney troubles, and

all blood diseases. Mr. J. H. Lewis of Denver, Colo., one of the most prominent life insurance men in the United States, writes as follows:—

"After an attack of Grip, I found myself broken in nervous vigor, and with bowels and kidneys seriously deranged. As time brought no improvement, but rather an increased nervous prostration, I was induced to make use of Paine's Celery Compound. Before the first bottle had been used, I found a marked improvement, and its use was discontinued after I had finished the second bottle. After doing without the Compound for over a month, I find myself with the same springy step and usual vigor as before my illness, all the former lassitude and nervous disarrangement having disappeared, and difficulty with bowels and kidneys have been corrected."

Notice of Stockholders' Meeting.
