## BRITISH LOSS!

**Five Hundred Captured by Boers.**

**English Capture 700 Boer Insurgents.**

**Boers Gathering in force at Town of Wepener.**

### WEEKLY BANK STATEMENT.

London, April 7.—Lord Roberts reports to the war office the following: Bloemfontein, April 6.—The casualties at Redersburg were: Officers killed—Captain P. G. Carson and Lieutenant C. R. Barclay, both of the Northumberland, wounded; 2 captured; 8 Non-commissioned officers and men killed; 8 wounded; 22 rest were captured. Our strength was 167 mounted infantry, 429 infantry. The enemy was said to number 3,200 with five guns.

Reports reach Maseru almost hourly of Boer activity in the Orange Free State. The latest unofficial dispatch from Bloemfontein, dated Thursday, Thursday, says: "Boers continue to show great activity. Numbers of British troops are arriving daily."

Army people at Bloemfontein are depending on water drawn from wells. The afternoon newspapers are unflattering in criticism of the military position, permitting 500 men to be isolated and captured.

Though Lord Roberts has lost nearly 1,000 men this week, he is still relatively stronger, as four times as many men have been landed at Cape Colony. Special to Citizen.

**Boers Gather in Force.**

London, April 7.—The Boers are in force at Wepener, north of Smithfield, Orange Free State, and are threatening General Buller's column division of the main body, which, with the artillery, is at Wepener. A telegram which left Maseru, Basutoland, north of Wepener, at midnight, describes the Boers as being in great force, and endeavoring to turn the British position by crossing the Basuto frontier on the road skirting Caledonia.

**Irish Newspaper Seized.**

Dublin, April 7.—Commenting upon the seizure of the United Irishman, which contained coarse allusion to the queen the Dublin Independent condemns the action of the authorities as "stupid and inopportune."

**Will Appeal the Case.**

Frankfort, Ky., April 7.—Governor Bradley and other attorneys for Republican Governor Taylor will go before Chief Justice Hazarding this afternoon with a motion for a writ of error to the supreme court at Washington.

**Boer Prisoners Escape.**

Cape Town, April 7.—A determined attempt to escape was made today by Boer prisoners at Simonstown, and it succeeded in getting away.

In the confusion one prisoner was killed and another was wounded.

**African Tribes at War.**

Accra, British Gold Coast Colony, April 4.—A Coomassie runner reports that the Ashantee tribes are in arms, the king of Bekwai alone remaining loyal.

**Bank Statement.**

New York, April 7.—Capital received, decrease, \$1,931,250; loans, increase, \$12,554,000; specie, increase, \$2,452,409; legal tender, decrease, \$74,000; deposits, increase, \$14,639,000; circulation, increase, \$42,500. The banks now hold \$7,904,600 in excess of requirements.

their way to that place, have been captured by the British troops. The Canadian artillery has returned here from Van Wyck's View.

**DISTRICT COURT.**

Perilla Padilla and Mariano Alacon Found Guilty Yesterday Afternoon.

Late in the afternoon yesterday the jury agreed to hear the case of the Territory vs. Perilla Padilla and Mariano Alacon, returned a verdict of guilty. The defendants were convicted of having held up the store of one B. Bertoni in the southern portion of the city last January. Witnesses for the prosecution testified that the defendant, Padilla, was seen to enter the store at about 12 o'clock at night, with his face disguised with some kind of blacking, and demanded money from the proprietor, and upon the latter's refusal to comply with the request the would-be robber shot him in the back. Alacon was also identified as a party to the crime, he having stood at the door as a guard while his partner perpetrated the hold-up. Both defendants have unenviable records. At the last term of court Alacon was indicted for selling liquor to Indians, and Padilla for having held up a citizen of Albuquerque about a year ago, both men escaping on a technical error made in the indictment. W. C. Heacock, representing the defendant, has made a motion for a new trial and pending its disposition the prisoners were remanded to jail.

The following new suits were filed in the office of District Clerk Owen today:

Edward Grunfeld vs. Romulo Valles; suit on promissory note for \$116.  
Spencer Brown vs. Arnold & Stinson; promissory note on \$720.

Case of the people vs. Jose de Baca, for taxes, the same was compromised in the sum of \$60.

The case of the First National bank vs. John A. Lee, executor of the estate of William E. Talbot, the defendant prays for an appeal to the supreme court, which was allowed.

The Territory vs. Wm. C. Mason, a fine of \$10 and costs was rendered for assault and battery.

Charles Chapman, who was charged with grand larceny, was allowed to enter a plea of guilty to the charge of petit larceny, and was sentenced to six months in the county jail.

During the day District Clerk H. P. Pen turned over the treasury \$661.10, few collected for the quarter ending March 31.

The district court was adjourned this morning until next 10 o'clock next Monday.

## FLOODS IN TEXAS!

**All the Rivers Out of Banks.**

**Gen. Miles Wants to be President.**

**Mining Man Shot by Apache Indian Troops in Pursuit.**

### GEN. OTIS COMING HOME.

Austin, Tex., April 7.—The country southwest of here was visited by a heavy rain last night. The rivers rose, and other streams were converted into raging torrents that overflowed thousands of acres of growing crops. The Southern Pacific railroad bridge at Los Rios was washed away and several miles of track is under water.

Dallas, Tex., April 7.—A disastrous rain storm has prevailed the last three days. The worst results have been in Western and Central Texas. Water Valley, on the Concho river, Tom Green county, is reported entirely swept away. The 300 inhabitants fled to farmhouses on the hills, and considerable property losses were sustained on cattle ranches by the overflowing of the Concho. The Brazos, Colorado and branches are all rising.

About 100 houses were swept away. The occupants barely escaped. Ten men on a sand bank just below the dam were precipitated in the river and swept away. Over one hundred houses have been counted passing here since 10 o'clock. It is feared the reports from above will bring news of great loss of life and property.

Dallas, Tex., April 7.—This afternoon City Marshal Love of Taylor, a few miles north of Grinnell, telephoned: "Express train wrecked near McNeill. All men and women drowned. The bridge is down and no relief will be able to reach the train."

Dallas, Tex., April 7.—A bulletin from Taylor, Texas, this afternoon, says that the town of Grinnell was "swept away." The place had about 100 inhabitants. It is feared that some were drowned.

Austin, Texas, April 7.—A cloudburst occurred today and the entire country is inundated. The Colorado river here rose 10 feet in three hours and is still rising at the rate of three feet an hour. The storm was the most terrific ever known in this section. The bridges on the International & Great Northern railroad, 17 miles north of here, was washed out, wrecking the St. Louis south bound cannon ball train.

The engine, mail car, one passenger car and one sleeper were drenched. A number of people are reported burned, but the list of casualties is not obtainable. The damages from the storm in this section of the state are estimated to hundreds of thousands of dollars. Another flood is feared as the cloudburst is in the path of the immense flood of last spring, which wrecked millions of dollars worth of property. The Austin & Northwestern railroad, operating northwest from here along the Colorado river ridge is a serious loss as the result of four bridges being washed away and much track washed out. No trains are being operated today. Unconfirmed rumors say that a family of six negroes, living on Shoal river, west of here, were drowned. People living in the bottoms had to leave their homes. The water has flooded them to a depth of three feet. It is feared that this city's million and half dollar water works, built by the city and dam will suffer, for the water is now within two feet of the danger mark.

Dallas, Texas, April 7.—The Brazos river, which has risen ten feet today and is still coming up; also the Trinity at Dallas. Rain is still falling over the state. All telephone and telegraph lines are in trouble and railroad trains everywhere are delayed or tied up. A bulletin received from Bastrop at noon says:

"The Colorado is very high. Water is running over the railroad at Fayetteville and washing away much property. At German the Leon river is as high as during the flood of July 4, 1899. The Brazos and other small streams are going up rapidly."

Shot by Apaches.

Tucson, Ariz., April 7.—A mining man by the name of J. D. Mack was shot by Indians in East night at Finney's mine outside of the Apache reservation and camp at Planer. Mack dragged himself to the ranch of Miss Rhoda Briggs, four miles away. Miss Briggs reached by Port Grant, where she notified the army officers, who detailed a detachment of troops to the scene of the shooting. Miss Briggs organized a band of cowboys and herself took the trail of the desperadoes and followed the Indians into the mountains.

Gen. Miles Wants to be President.

New York, April 7.—The World says: General Nelson A. Miles is willing to be the democratic nominee for president. He has stated so to his many friends.

Gen. Otis Coming Home.

New York, April 7.—According to the Washington correspondent of the Herald General Otis will leave the Philippines for the United States in April.

ed interesting. The affirmative was represented by Miss Coons and Mr. Halloran, while the negative was sustained by Miss Halloran and Harry Herrick. The negatives won. Correction Requested and Made.

The Citizen has been requested to make a correction as to the location of the fire which was observed and put out by Policeman Harris on Thursday night. In the report, as published by the Journal-Democrat, the fire was located in the rear of H. L. Dodson's bicycle store in a box of rubbish. This is a mistake altogether—first, Mr. Dodson keeps no rubbish in the rear of his store and second the fire did not occur in his yard. Policeman Harris discovered the fire burning brightly in some rubbish from the second-hand store of Metcalf & Steller, the senior member of the firm being absent on business and Mr. Steller in charge. It was at midnight, and the timely discovery of the policeman, who pulled down the fence and extinguished the blaze, prevented a serious conflagration seemingly from some one's carelessness.

### POWERS GIVE NOTICE TO CHINA.

Washington, April 7.—The republican members of the house have decided not to allow a protracted debate on the motion to censure in the amendments to the Puerto Rican bill next Wednesday. A special rule will be framed, which will bring the motion to a vote after several hours' debate. Both sides are using their utmost endeavors to get every absentee to Washington. The opposition will make their first fight on the adoption of the rule, but the republicans, causing the situation, express great confidence in their ability to put through the program agreed upon at the republican caucus on Thursday by a larger majority than was secured for the original bill.

ALBUQUERQUE, — APRIL 7, 1900

Admiral Dewey has finally declared  
that he is a democrat.

Nearly all the large cities went re-  
publican at the recent elections.

American money is the best in the  
world. It is not discounted anywhere.

Judge McFie is making life a burden  
to the violators of the Sunday law in  
his judicial district.

The United States coined during  
March in gold, \$12,596,249, silver \$4,341,-  
275, minor coins, \$128,072.

The public debt, March 31, 1900 less  
cash in the treasury, was \$1,112,256,256  
decrease for March of \$6,629,761.

Politics has already made strange  
bedfellows in this city, and next fall  
the mix up may be much greater.

The circus crop will be a great suc-  
cess this summer. The season's peanut  
yield is estimated at 4,500,000 bushels.

Admiral Dewey is the only man in  
the United States who has announced  
his candidacy for the office of president.

One week from to-day Mr. Bryan  
will be here, and a big crowd of vis-  
itors will be present to greet the distin-  
guished orator.

People who are forever complaining  
that this earth is not a paradise should  
reflect that the first thing in the mak-  
ing of a paradise would be the abol-  
ishment of grumblers.

The democratic party denies politi-  
cal rights to the negroes of the south,  
but waits in chorus about the republic-  
ans not giving political rights to the  
Porto Ricans.

The heaviest snow of the season fell  
at Santa Fe this week. On Thursday  
morning it lay seven inches deep on  
the level. This ensures a bountiful  
water supply in the Rio Grande for ir-  
rigation purposes.

Sailors are not supposed to be land-  
wise, but it appears incredible that  
Admiral Dewey could have said that  
the office of president is an easy one to  
fill, and largely in the nature of a con-  
gressional clerkship.

Commander Boston Schroeder, the  
new governor of Guam, was executive  
officer of the battleship Massachusetts  
during our war with Spain. He was a  
classmate of Commander Walcott  
at the naval academy, both men hav-  
ing received their appointment from  
President Lincoln in 1864.

In 1899 the production of silver showed  
an increase of about one and one-  
quarter million ounces, the total being  
166,295,572 ounces, against 164,073,172 in  
1897. In 1899, 17,000,000 ounces are es-  
timated to have been produced. Mexico  
led with 56,738,000 ounces; the United  
States second with 54,438,000.

**VICTORIA'S VISIT TO IRELAND.**  
After an interval of 39 years Queen  
Victoria revisits Ireland this week. It  
is her fourth visit since her accession  
to the throne, 62 years ago. Ireland has  
been slightly by the royal family more  
than any other part of the united  
kingdom. Scotland has, on the other  
hand, been specially favored by the  
queen's presence. Much of her time has  
been spent each year at Balmoral. Ab-  
sentee royalty, like absentee landown-  
ers, has thus done much to keep re-  
gional bitterness alive in Ireland and to  
modify Irish loyalty.

**RECKLESS IN THE RECORD!**  
The Chicago Record is the record!  
New Mexico and Arizona. That paper  
says: "The bulk of the population in  
both territories is composed of Mexican  
peons. Probably 90 per cent of these  
Mexicans cannot read or write in any  
language. Over half the Mexican popu-  
lation cannot speak English." This is  
absolutely false. There are no Mexican  
peons in either of the territories. The  
Record mixes Old Mexico with New  
Mexico. The peon system does not ex-  
ist in either New Mexico or Arizona.  
The Mexican inhabitants of New Mex-  
ico are about one-half of the total popu-  
lation. Arizona has a very small  
Mexican population. In New Mexico  
the majority of the Mexicans can speak  
and read and write the Spanish lan-  
guage, and a large percentage can  
speak, read and write the English lan-  
guage. The native people of this ter-  
ritory are conservative and law abiding.  
They are more capable of self-govern-  
ment than the best foreign population of  
Chicago. The Record should send  
Mr. Curtis to New Mexico and author-  
ize him to thoroughly investigate and  
report. It is not in accord with the  
usual fairness of the Record, which is  
one of the great newspapers of the  
United States, to recklessly denounce  
the people of two territories, who are  
striving to reach a higher plane of de-  
velopment by securing statehood.

**SACRIFICING THE BIRDS.**  
The announcement that contracts  
have been made in Delaware for the  
bodies of 80,000 birds that are to be  
killed for military use in New York is  
a bad piece of news. The slaughter of  
the birds for this purpose is continued,  
notwithstanding the protest against it  
for the reason of its cruelty and on ac-  
count of the material injury done by  
the reckless removal of the most effec-  
tive agents in the destruction of in-  
sects that prey upon vegetables. The  
Delaware contract for this bird sacri-  
fice, that is to serve no other end than

the profit of the milliner, and the  
gratification of female vanity, is made  
to appear the more abhorrent by its  
inclusion in its ruthless and bloody  
stipulation such members of the feather-  
ed tribe as live birds and meadow  
larks, besides other birds less charming  
but equally entitled to protection for  
their insectivorous usefulness.

In Colorado the origin of placer gold  
is ascribed to glaciers that mined the  
gold bearing rocks on a gigantic scale  
carrying the debris into the canons and  
dumping it in their moraines along the  
side, where, subsequently, floods and  
streams sorted and rearranged those  
pieces, the gold being distributed through-  
out the mass of material by gravity, find-  
ing its way down to bedrock.

Every resolution calling for informa-  
tion that the democrats have asked  
congress to adopt has furnished an ad-  
ditional reason for the reelection of  
President McKinley.

**The Latest War News.**  
The latest war news is eagerly  
sought after. So some it brings hap-  
piness, as they read of valiant deeds ac-  
complished, while to others, the same  
message brings sorrow, when they  
note the death or capture of their  
loved ones. There is also much sorrow  
throughout our own country by those  
who have been captured by their  
enemies—dyspepsia. For this, how-  
ever, there is a remedy and that is  
Hood's Sarsaparilla. Bitters, which  
also cures indigestion, constipation,  
biliousness, nervousness and insomnia,  
and as a preventative for malaria,  
fever and ague it is unequalled. I  
have a record of 150 years of cures to  
back it up and a trial will convince you  
that your case is not incurable, as you  
will find after taking a few doses your  
stomach will be strengthened.

## Dyspepsia 20 Years

**Could Eat Only Stale Bread—All  
Else Caused Distress.**  
"I have derived so much benefit  
from Hood's Sarsaparilla, after having  
been a sufferer for more than 20 years  
from a bad stomach trouble, that I  
would like to tell about it. For years I  
was obliged to live on stale bread and  
the juice of beets. I had a great deal  
of inflammation and gastric trou-  
ble and was twice at death's door. A  
friend told me of Hood's Sarsaparilla  
and I decided to try a bottle. I  
derived so much benefit from it that I  
got three more, and after taking them  
felt that I was entirely cured. I am  
now 85 years old and enjoy excellent  
health for one of my years, but every  
spring I take a bottle of Hood's  
Sarsaparilla and feel strong and well during  
the summer, and I recommend it to  
anyone who suffers from indigestion  
or indigestion." Mrs. A. G. MARSH,  
12 Mason Street, Salem, Mass.

**All Run Down—Torpid Liver.**  
"Every spring I suffer from torpid  
liver and the debilitating influence  
of the change from cold to warmer  
weather. Last spring found me un-  
usually run down, having nursed  
four of my children, unassisted,  
through a siege of scarlet fever. I  
took Hood's Sarsaparilla and passed  
through the trying months without  
any inconvenience whatever. I be-  
lieve for persons having an inactive  
liver and poor blood Hood's Sarsapa-  
rilla is a good medicine." Mrs. E. B.  
GROSS, Findlay, Ohio.

It is because Hood's Sarsaparilla is  
peculiar to itself that it effects such  
remarkable cures. Try it.

**INDIAN LANDS FOR ALLOTMENT.**  
Mesquero Apache Reservation in New  
Mexico to be Opened.

The house committee on Indian af-  
fairs has made a favorable report upon  
the joint resolution which provides for  
the allotment of lands in the Mesquero  
Apache Indian reservation in New  
Mexico for the use of the Indians on  
the reservation, and providing for the  
sale of the residue of the lands in the  
reservation for the use of the Indians.  
The committee states in its report that  
there are only 444 Mesquero Indians on  
the reservation, which is situated in  
Doña Ana county, New Mexico, and  
that the reservation contains 42,420  
acres of land. After giving each of the  
dividual Indian an allotment of 160  
acres of land, aggregating 72,000 acres,  
there would be a surplus of 403,-  
200 acres of land to be thrown open  
for sale for sale and settlement.

The El Paso Northeastern railroad  
has recently been built to this reserva-  
tion and this large body of land is in  
demand for settlement and is abso-  
lutely necessary for the development of  
that part of New Mexico. The moun-  
tains on the reservation contain valu-  
able timber and minerals, and the  
other lands are valuable grazing lands.  
The committee reports that the in-  
dians are sufficiently advanced in  
civilization to have their lands allotted  
to them. Out of this tribe of 444 in-  
dians, there are enrolled in the schools  
108 children, with an average attend-  
ance of 97, there are 86 houses on the  
reservation occupied by these Indians.  
One hundred and forty-two members  
of the tribe speak the English lan-  
guage. They own 1,000 horses, mules  
and burros, 4,000 sheep and  
200 goats.

The resolution provides that the sec-  
retary of the interior shall order an in-  
spector sent to the agency to allot the  
lands among the Indians and to nego-  
tiate with the tribe for the relinquish-  
ment of all interest of its members  
in the unallotted portion of the reserva-  
tion. A provision in the resolution  
recites that the United States shall  
make no payment for the relinquish-  
ment of title by the Indians until the  
survey of the lands has been com-  
pleted, and as fast as the lands open  
for settlement are sold, the money re-  
ceived from such lands shall be covered  
into the United States treasury and  
placed to the credit of the Indians.

**Robbed the Grave.**  
A startling incident, of which Mr.  
John Oliver, of Philadelphia, was the  
subject, is the subject of the following  
story: "I was in a most dreadful condition.  
My skin was almost yellow, eyes  
sunken, tongue coated, pain continually  
in the back and chest, and I was  
gradually growing weaker day by day.  
Three physicians had given me up.  
Fortunately, a friend advised trying  
"Electric Bitters," and to my great joy  
and surprise the first bottle made a  
decided improvement. I continued  
their use for three weeks and am now  
a well man. I know they saved my  
life, and robbed the grave of a victim."  
No one should fail to try them.  
Only 25 cents, guaranteed at J. H.  
O'Reilly & Co.'s.

**August Flower.**  
"It is a surprising fact," says Prof.  
Houston, "that in my travels in all  
parts of the world, for the last ten  
years, I have met more people having  
used Green's August Flower than any  
other remedy for dyspepsia, deranged  
liver and stomach, and for constipa-  
tion. I find for tourists or sailors, or  
for persons filling office positions,  
where headaches and general bad feel-  
ings from irregular habits exist, that  
Green's August Flower is a grand re-  
medy. It does not injure the system by  
frequent use, and is excellent for sour  
stomachs and indigestion." Sample  
bottle free at J. H. O'Reilly & Co.'s.

**A Big Colony.**  
The associated institutions under the  
faithful management of the Sisters of  
Charity in this city form quite a col-  
ony of people. The numbers are as fol-  
lows: At St. Vincent's sanitarium, 36  
guests; in hospital, 21 persons; inmates  
of the orphanage and industrial school  
46 children; Sisters in charge, 13; total  
under the roof of St. Vincent, 126.  
The number of guests at the sanitarium

is about as many as can be accommo-  
dated and application for rooms are re-  
ceived almost every day.—New Mexi-  
can.

**Cost of Paris Trip.**  
The cost of making a trip to the  
Paris exposition has been put down to  
these figures: One hundred and eighty-  
five dollars and fifty cents, first-class  
fare; 137.50 second-class, and 122.50  
third-class. These rates include first-  
class railroad accommodations to the  
northeastern seaports, 80 cents; the  
train fare to Montreal and give advan-  
tages of the St. Lawrence route.

**IMPORTANT LEGISLATION.**  
It Affects Territorial Cities of More than  
Ten Thousand People.

A favorable report has been brought  
by the committee on territories on a  
bill to amend an act to prohibit the  
passage of local or special laws in the  
territories. In its report the committee  
says:  
"The bill amends the act of July 30,  
1890, which prohibited the passage of  
local or special laws of the territories  
of the United States, so as to permit  
authorities and legalize the issuance of  
bonds of chartered municipal corpora-  
tions having a bona fide population of  
10,000 or more, for the purpose of erect-  
ing a city building and purchasing the  
ground for the same. It appears that  
there are several cities in the territories  
where the people are desirous of erect-  
ing city buildings, and it is provided  
that from doing so by the act of 1890,  
inasmuch as the proposed amendment  
requires that two-thirds of the voters  
shall vote affirmatively for the issu-  
ance of said bonds, this bill is consid-  
ered to be a measure which should be  
qualified to vote except he is in all  
respects a qualified elector and owner  
of real or personal property subject to  
taxation within the municipality. In  
the opinion of your committee the  
bonds would be properly guarded and  
no extravagance would result. The rate  
of interest is not to exceed 5 per cent  
and on bonds are to be sold at less  
than their face value. This bill is sim-  
ilar to the act passed at the second  
session of the fifty-fifth congress, au-  
thorizing the issuance of bonds by mu-  
nicipal corporations having a popula-  
tion of not less than 1,000 persons for  
the construction of sewers, water  
works and street improvements."

The committee suggests that the bill  
be amended so that no city under the  
bill shall issue bonds in excess of \$30,-  
000.

**AN OLD ADAGE PROVEN.**  
A Thief Gets in his Graft White Hand  
People were right a week while the  
last Tuesday night and the male  
population busy combating the flames  
someone entered the residence of Rev.  
G. S. Madden and stole a pocket watch  
containing some \$60, says the Herald.  
The method of entrance was pre-  
sumably through the front door, as  
it had been left unlocked by the pas-  
senger's family. The watch was found  
in the residence of J. C. Crowger, where  
they could get a better view of the con-  
flagration. The peculiar part of the  
robbery is that it was unknown until  
the watch was found in the hands of  
the thief. The fact that nothing  
else was disturbed is conclusive evi-  
dence that the thief was a family  
friend. The thief's habits, knew the  
money was in the house and where to  
look for it.

"I used Kodol Dyspepsia Cure in my  
family with wonderful results. It  
gives immediate relief, is pleasant to  
take and is truly the dyspepsia cure  
of the age," says E. W. Grove, Over-

fail to cure. J. C. Berry and Cosmopolitan

**MANAGER PEGUE PLUGGED HIM.**  
One of the Trio of Hobos Gets Abusive  
and is Properly Chastised.

Last Tuesday night a trio of hobos  
blew into camp to see the sights and  
panhandle as many drinks as possible.  
After getting pretty well filled up one  
of the trio got strong and abused and  
insulted the party and the manager of  
course of perignation he wound up  
at the Trimble stage office and pro-  
ceeded to repeat his previous perform-  
ance. Manager Pegue who is not a  
man of extraordinary proportions, re-  
sented the fellow's impudence in such  
a manner that the exhibition of gall  
was brought to a speedy termination.  
While we witnessed the engagement  
between the two parties, we are of the  
opinion that the blow which Manager  
Pegue landed on the tramp's solar  
plexus is the one which won him the  
contest, likewise the punch. The fellow  
has since shown up at Cerrillos, where  
some of the accommodating citizens  
took him through the same course of  
sprouts.—Bland Herald.

## OFFICIAL NOTES.

**Territorial Funds—Rafael Valdez Pardoned—**  
Adverse Application Filed.  
**TERRITORIAL FUNDS.**  
Territorial Treasurer Vaughn yester-  
day received remittances from H.  
P. Owen, district clerk of the Second  
judicial district, of \$965.10 for fees of  
the quarter ending March 31, and from  
John E. Griffith, clerk of the Fifth ju-  
dicial district, \$253.35 for fees for the  
first quarter of this year.

**PARDON GRANTED.**  
Rafael Valdez, who was recently  
convicted in the district court at San-  
ta Fe of carrying deadly weapons and  
sentenced to pay a fine of \$50 and  
costs and stand committed to the  
county jail until such fine was paid or  
served out, was yesterday morning  
pardoned by Acting Governor Wallace  
on the recommendation of Judge Mc-  
Fie and others cognizant of the facts.  
Valdez resides at Capitan, about 15  
miles above Antonio, in Colorado, and  
his offense consisted of carrying an  
unloaded and broken pistol to a public  
dance on the Teague. He showed  
the weapon to several persons at the  
dance, but made no threats of any  
kind. He has already served about  
ten days in the county jail, and this  
punishment was regarded as sufficient.  
The young man left immediately  
for his home in Colorado.

**ADVERSE FILED.**  
William A. Anderson yesterday filed  
an adverse in the United States land  
office at Santa Fe against the applica-  
tion of the Copper Hill Mining com-  
pany, operating in the Copper Hill min-  
ing district of Taos county, near Em-  
borg, for patent of the Ariz, Sunset,  
Champion and Oxide King mill sites.  
The ground of the adverse and protest  
is that the land is mineral, and that  
the claims were improperly surveyed.  
A. B. Benchesman represents Anderson.

**Rev. W. E. Sitzer, W. Canon, N. Y.,**  
writes: "I had dyspepsia over twenty  
years, and tried doctors and remedies  
until I was weary. I was persuaded to  
use Kodol Dyspepsia Cure and it helped  
me from the start. I believe it to be  
a panacea for all forms of indigestion."  
It digests what you eat. J. C. Berry  
and Cosmopolitan drug stores.

**Special Bryan Train.**  
It is probable that a special train  
will be run from Las Vegas to Albu-  
querque on Saturday morning, April  
14, making close connections with the  
morning train from Santa Fe, for the  
accommodation of all who desire to  
hear Hon. William Bryan speak at the  
Dulac city on the day mentioned. An

**BLAND AND ALBEMARLE.**  
The people of Bland and Albemarle  
are clamoring for a postoffice, and they  
are entitled to such consideration from  
the authorities at Washington.

A rich strike has been made in the  
W. J. B. mine. The property belongs  
to Messrs. Abbott & Buck.

With the turning of the electric  
power at the Albemarle, that company  
will commence to sink to the eighth  
level.

The dime social which was held at  
the residence of Mrs. John Hart by the  
Ladies Aid society the other evening,  
proved a big success.

Capt. H. B. Baylow, the new tele-  
graph operator, is proving very accept-  
ing to the Bland people. He is all  
right.

Deutscher & Co. have disposed of  
their saloon, the Albemarle club, to  
Jack Creighton.

Mrs. T. S. Abbott received a tele-  
gram announcing the death of her  
father, John Shannon, at Joliet, Ill.  
The deceased was 85 years old.

Dr. W. E. Sitzer, of New York, has  
been a successful dentist, is holding forth  
at Bland for a short time.

Harry Cooper, whose barn was de-  
stroyed by fire recently, has commenced  
to rebuild.

The Benham Lumber company has  
just completed a contract for the Al-  
bemarle company of 32,000 feet of lum-  
ber.

George Greff, a brother of Mrs. David  
Norman of Albemarle, died at Thorton  
the other day.

A Simpler and his little daughter,  
of Albuquerque, visited Bland the other  
day. O. F. Farley has charge of Mr.  
Simpser's undertaking interests at  
Bland.

Dr. Benham has removed his family  
from Bland to his sawmill in Media  
Dix canyon.

It is rumour "at Albemarle that Har-  
vey Miles died of pneumonia at Cripple  
Creek a short time ago. He was for-  
merly shift boss in the Albemarle  
mine.

Telephones are being put in a num-  
ber of houses in Bland and Albemarle.

**A Thousand Tongues.**  
Could not express the rapture of An-  
nie E. Springer, of 1125 Howard street,  
Philadelphia, Pa., when she found that  
Dr. King's New Discovery for Consump-  
tion had completely cured her of  
hacking cough that for many years  
had made life a burden. All other re-  
medies and doctors could give her no  
help, but she was cured by this Royal Cure.  
"It soon removed the pain in my  
chest and now I
