GREAT LOSS!

Kansas City Auditorium Burned.

British Armies Waiting for Supplies.

Department of Justice Hands Down Important Opinion.

PETITION FROM CUBANS.

Kansas City, Mo., April 4.—The auditorium in which the democratic convention was to have been held on July 4, burned to the ground by fire that started at 1:10 p. m.

The fire started over the furnace room in the rear end of the building and before the first engine arrived the fire was beyond control. The loss is estimated at \$250,000, apportioned as follows: Convention hall, \$225,000; Second Presbyterian church, \$20,000; Lathrop school, \$25,000; row of residences on Twelfth street, \$60,000. The hall will be rebuilt in time for use for the democratic convention.

At 2:25 the fire was pronounced under control.

Boers Near Bloemfontein.

Springsburg, O. E. P., April 2.—Information is received that the Boers are hovering in the neighborhood of the railroad running from this place to Bloemfontein, and General Gatacre is preparing to take strong measures to cope with any attempt to cut off Lord Roberts' line of communication to that point.

Quiet at Bloemfontein.

Bloemfontein, April 4.—General Col. V. A. division and General French's cavalry have returned here. Everything is quiet.

British Forces Inactive.

London, April 4.—The enormous superiority of British forces in every part of the war field, waiting yet, probably for the accumulation of material for a swift advance on the Transvaal frontier. London military commentators and the public to some extent are irritated and confused by the situation.

Details received of the action on Green Market square, Cape Town, Tuesday, when Premier Schreiner encountered an English demonstration, show that the Premier, fearing personal violence, sought refuge in a restaurant. He was surrounded and tried to reach the parliament house protected by police. The people shouted "traitor" but he succeeded in reaching the house. Finally the people again sang "God Save the Queen." He raised his hat amid cheers and was heard to say: "Reserve your judgement."

The persistent bridge at Modder river station has been finished. The first train passed over it Tuesday.

Petition from Cubans.

Washington, April 4.—Stewart presented a petition in the senate from citizens of Cuba representing \$50,000,000 of capital "praying" congress to enact a law prohibiting the use of United States military power to prevent the landing of a competing cable from the United States," which was ordered printed.

The chair laid before the senate a resolution declaring Quay not entitled to a seat from Pennsylvania. After an hour's debate the case went over until tomorrow. The Alaskan bill was then taken up.

Queen at Dublin.

Dublin, April 4.—The queen landed in Ireland this morning for the first time for thirty years. The commander of the forces in Ireland, the Duke of Connaught, and Earl Cadogan and staffs greeted her majesty. The ride from Kingston to Dublin commenced in splendid weather before huge crowds. The queen expressed herself as very much gratified at her reception.

Hawaii.

Washington, April 4.—The house resumed consideration of the bill to establish a territorial government for Hawaii.

Dewey Talks English.

New York, April 4.—Washington dispatch to the Evening Telegram quotes Dewey as saying: "I have every reason to believe that there is a popular desire for my nomination. I decline to say whether I am a democrat or a republican."

IMPROVEMENTS!

Depot, Hotel and the Viaduct.

Proposition of City Council Accepted.

General Manager Mudge Gives Cheerful News.

WILL COMMENCE WORK SOON.

Last evening H. U. Mudge, general manager of the Santa Fe system, and Division Superintendent J. E. Hurley, of the same road, arrived in the city in their private cars, each gentleman being in possession of some cheerful and valuable information to impart to the residents of Albuquerque.

In an interview with Mr. Mudge at his car, The Citizen representative was at once informed that the railway company had decided to accept the proposition as made by the city council to President Hixley a few weeks ago.

It is estimated that the cost of the new viaduct across Coal avenue will not be less than \$200,000, and the city will pay 50 per cent of the amount involved and stand responsible for its future maintenance.

Ford Harvey an dthe company architect will be in this city next Saturday to offer some plans and arrangement for the new hotel which will be quite different and larger than the Castaneda in Las Vegas.

The depot to be erected here is designed to be a little superior in size and elegance to the one in the Meadow City.

As mentioned in The Citizen a couple of weeks ago the exact location of these new buildings has not been fully determined upon by the company, but it is safe to state that they will occupy sites on the right of way between Railroad and Coal avenues.

It is expected that the work of clearing away the tracks for the structure and parks surrounding will be under way in about a month, and that it will require about six months to complete the proposed improvements.

The company, realizing the exorbitant prices for steel and building material at the present time, will not require the city to take any move in the construction of the viaduct now, but leaving that prices will be much lower in six months or immediately after the depot and hotel are finished.

At noon to-day Mr. Mudge and his estimable wife, in their private car, accompanied by Division Superintendent Hurley, left on a special train for Las Vegas, where they will remain for a day. To-morrow the Mudge party will resume their journey to Topeka.

Death of an Aged Resident.

In old Albuquerque this morning at 7 o'clock occurred the death of Mrs. Patronilla Candelaria at the age of 65 years. The deceased was one of the oldest residents of the county and was highly esteemed by a large circle of acquaintances. Five children are left to mourn their loss. They are: Juan Martin, Jose, Francisco, Blenit, and one married daughter. Funeral services will be conducted Friday morning at 9 o'clock at the San Felipe de Neri cathedral, and burial will take place in Santa Barbara cemetery.

Paid in Full.

Edward Henry, insurance agent and adjuster, returned to-day on train No. 22 from his adjusting trip to Grants, in connection with the loss sustained by the R. H. B. mercantile company, which occurred on the 26th ult. This firm had \$15,000 insurance on their stock of merchandise and \$1,000 on the store building and warehouse. The loss, both was hopelessly total, and settlement was made pleasantly, and the insurance, \$16,000, was paid in full—O. P. C.

What's News.

The election of Mr. Marron for mayor yesterday means that he will be one of the delegates from this territory to the national democratic convention, and puts him in line as the delegate democratic candidate for delegate to congress.

CITY ELECTIONS.

Mostly Carried by the Democrats.

Las Vegas Elected Democratic Ticket.

Kansas City Went Democratic and Has Other Troubles.

DEMOCRATS CARRY SANTA FE.

Millwaukee, April 4.—Complete returns from the municipal election give Mayor David S. Rose, democrat, a plurality over H. J. Baumgartner, republican, of 2,275. Two years ago Rose's plurality was 1,787. The new board of aldermen is twenty-one democrats, ten republicans and two populists. The board of supervisors is largely republican.

Kansas City, Mo., April 4.—Full returns of the election give James A. Reed, democrat, for mayor, a majority of 2,127 over P. S. Brown, Jr., republican. Jones, republican, was elected two years ago by a majority of 1,420. The democrats elected their entire ticket with the exception of five members of the lower houses by pluralities of 8 to 1,007.

Reed, Jaggard and his estimable wife have made many warm friends in this city, and they, with the members of his congregation and The Citizen, wish them well in their new field of labor at Marquette.

Since becoming identified with the religious work of Albuquerque, Rev. Jaggard and wife have suffered from the high altitude, and the transfer was made for health alone, for both are well pleased with Albuquerque and the good people of their congregation.

HE IS "DANGEROUS."

A Handsome Specimen of the Genus Homo at Large.

H. W. Ellerhew, who arrived in the city last night from St. Joseph, Mo., and registered at the Hotel Highland, was called this morning by the Journal-Democrat "a handsome specimen of the genus homo." The visitor is a very mild-mannered man, but in St. Joseph, but when The Citizen representative looked like a tiger ready to devour any person who dared call him "handsome" or a "genus homo," and was busily engaged in searching the leaves of a Webster's Unabridged to find out what kind of a tribe of people, animals or plants he belonged to.

ALBUQUERQUE, — APRIL 4, 1909

Let's get in line to build up Albuquerque.

This city needs more parks, and this is a good year to get them.

It is safe to assert that Marshall McMinn will be retained.

Mayor Marron can now ride at the head of the democratic procession on April 14.

The election forecasters are already at work and have assigned to Debs 1,000,000 votes.

Down in Mexico they have decided to execute all the Yaqui Indians they capture in future.

Admiral Dewey has consented to run for president. Here is a chance for some party in need of a candidate.

One of the most urgent demands upon congress at this session is the erection of a territorial government in Alaska.

The last bulletin of the department of labor shows that of nineteen necessities of life only three have advanced in price since 1890.

The new Carnegie steel combine will doubtless result in encouraging the forwarding of supplies from towns in need of public libraries.

A look about Albuquerque at this time ought to convince anybody with money to invest that the city is better than to place his capital in real estate in this city.

The German war authorities have duplicated all the bridges in France. If, in case of war, any of these bridges were destroyed, they could be replaced in six hours.

The democrats favor free trade with Puerto Rico not because of their love of the Puerto Ricans, but because they regard it as an entering wedge to free trade with all the world and its consequent reduction of the pay of American wage earners.

The republicans elected five members of the school board, two members of the council, and the treasurer. The democrats elected the mayor and clerk, and two members of the council and one member of the school board. It is "horse and home."

Lord Curzon says the losses to India by drought this year are \$3,000,000 to \$10,000,000 on the wheat crop, cotton crop \$1,000,000, and the oil seed crop usually covering \$10,000,000, is practically non-existent. It is difficult for the mind to grasp the untold misery and death that this means.

Estimates made by shipping men show that about 15,000 men are intending to reach Cape Nome by the first steamer from Puget Sound and Dawson. Two-thirds of this number will go from Tacoma, Seattle, San Francisco and the balance will go down the Yukon river from Dawson and other Yukon towns.

The type foundry of the country have sent notices out of a reduction in all discounts of type, which means advance in the price of everything pertaining to the mechanical department of newspapers. What with the paper trust, the type trust and the "trust" given dead beats who never pay a printer's bill the country newspaper man is "hoising a pretty rocky row" these days.

FORESTS AND STREAMS.

The division of forestry has selected Southern California as the field for an exhaustive series of measurements and investigations for the purpose of securing accurate knowledge of the extent of forests to the run-off streams. The question has become an exceedingly important one in many parts of the United States where lumbering is extensive, and has caused much diversity of opinion among scientific men. After examining many watersheds and securing the advice of a number of hydraulic engineers, the division of forestry has chosen the watershed which embraces the sources of the Mohave river, in the San Bernardino mountains, as the best center for experiments.

RAILWAYS OF THE WORLD.

It is within the memory of many of the older men in this country when the first railway locomotive was put into service, says the Railway Journal, yet within that scope of time and the development of the railroad has become an enormous fact that its aggregate figures almost stagger the mind of the most ardent statistician. In this country there is no other industry outside of that of agriculture, that employs as great an army of men as the railroads.

In the United States there are 188,522 miles of railroads, Germany, 29,944; France, 25,882; European Russia, 23,257; Great Britain, 23,534; British India, 21,542; The United States has 36,746 locomotives; Great Britain, 19,802; Germany, 16,842; France, 10,952; Russia, 8,745; and British India, 4,250.

PUBLICITY.

Question seems to have arisen in the minds of many as to the best means for enforcement of any law that might be enacted to bring about publicity of the affairs of great combines or trusts so that the people and capital may gain an insight into profits and losses, and ascertain if undue return is being made upon investments. It so happens that just at this moment the whole country is about to have an experience with enforced publicity, which will come through taking of the census. Figures on manufactures will occupy a prominent place in the returns to be made and in the publications to be issued. The government proposes that these figures shall be accurate. To that end the law providing for the census contains a specific section about just this matter. Any act of congress of March 2, 1899, says:

"Every president, treasurer, secretary, director, agent or other official of every corporation and every establishment of industry, whether conducted as a corporate body limited company or by private individuals, from which answers to any of the schedules, inquiries or statistical interrogatories provided for by this act are herein required, who shall, if thereto requested by the director, supervisor, enumerator or special agent, willfully neglect or refuse to give true

and complete answers to any inquiries authorized by this act, or shall willfully give false information, shall be guilty of misdemeanor, and upon conviction thereof, shall be fined not exceeding \$10,000, to which may be added imprisonment for a period not exceeding one year."

POSITION OF THE PARTIES.

In an address a few days ago Secretary of the Navy Long asked what the democratic party has done in the last four years to entitle it to the government and declared that it had done nothing. On the other hand, the republican party has faithfully carried out the principles of the platform upon which it was restored to power. The tariff, said Mr. Long, has been wisely adjusted, revenue has been ample, industrial interests were never so prosperous, and labor was never so well rewarded. The question of the currency and the money standard has been settled and settled right, and the whole country breathes with a sense of relief and of content.

It is true the democratic party is not in power, but it stands to-day precisely as it did four years ago in regard to all the issues of that time. It still adheres to every doctrine and principle of the platform which the people there repudiated. Its leader and assured candidate for the presidency this year is as zealous in his advocacy of the free coinage of silver as he has ever been; he is still engaged in arraying class against class and industry against the spirit of sectionalism; he continues to appeal to popular passion and prejudice. The democratic party still stands for an economic policy that would halt American industrial development and prove disastrous to American labor. It is now, as it has always been, the party of obstruction, and reaction. As to the new issues, its outcry against trusts is accompanied by no practical plan for remedying the evil, while in regard to the foreign policy of the nation, it would, if we may judge it by the course of some of its representatives in congress, abandon the traditional policy of our government and involve it in complications menacing to our peace and welfare.

HAS A SOFT JOE.

Did it ever occur to you that William J. Bryan, "the idol of the people," had not done a day's work in years, and has not earned a dollar since you knew him? He poses as the friend of the laboring man, and yet all the time he has been living in luxury off the dollars he has taken from the pocket of the laboring man. He hasn't even held an office for a long time, and when he did, he left it in a poor man. Now he is wealthy, in spite of the fact that his expenses must be enormous. Who has contributed the money to make up that? The man who works honestly and hard and earns it. He gives to Bryan in order that he may hear Bryan say the giver is a hopeless slave. A great many men have given more to Bryan than to the octopus.

HOW HUNTINGTON STARTED.

C. P. Huntington is now rated at fifty times a millionaire. He was recently asked by a reporter how he made his money, and he replied that he had made it by the stock of the Erie canal. This he traded for a lot of one thousand and old fashioned eight-day clocks. He shipped the timepieces to various points along the Erie canal and then following them up sold the entire lot at \$5 apiece.

PATENT APPLIED FOR MINES.

The commissioner of the general land office at Washington, recently made request on the officials of the United States land office in Santa Fe for a complete list of applications for mineral rights made prior to January 1, 1899, on all the lands of the United States. The purpose thereof is supposed to be the cancellation of all such claims on the ground that long protracted delay in perfecting patents applied for is prima facie evidence of bad faith.

The republicans lost about forty voters by the action of the registering boards in cutting their names from the rolls in the hands of election judges. Such well-known citizens as Judge Ribble, C. W. Haines and others were thus disfranchised. These votes would not have changed the result, but it does not mitigate the venality of the action.

Theatrical managers say that the present season is by far the most prosperous in the history of the American amusement. Theaters have spent no less than \$2,000,000 to theatrical and operatic managers.

The bonded indebtedness of this country will be refunded at four per cent interest. This will make a saving to the country in interest of over \$4,000 a year.

In Ward Four yesterday 67 republicans scratched Grunwald for mayor and voted for Marron, and exactly 67 democrats voted for Grunwald.

There was so much money in circulation here yesterday that it brought on a much needed rain.

Another trouble trends upon the heels of yesterday's election disaster. It is the Easter bonnet season.

The country will continue in a saved condition until the November election.

Spitting Blood

"I used to cough a great deal and spit blood, and my neighbors in Dayton, Ohio, where I had a coughing and trying different sorts of medicines, but nothing seemed to reach my trouble until I got a bottle of Ely's Cream Ointment. I prayed for health all the time, and my prayers were answered as soon as I began taking this celebrated Ely's Cream Ointment. Since my recovery I have had hundreds of sufferers from coughs and colds, and I have refused to be cured. There ought to be a law compelling consumptives to take Ely's Cream Ointment for their own lives, the public's welfare should be considered. Don't you think so? I hope such a law will soon be enacted."

A New Santa Fe Incorporation—Two appointments by the Governor.

COMMISSIONER OF DEEDS.

Governor Otero has appointed Henry W. Mitchell, of New York, a commissioner for New Mexico.

PENITENTIARY COMMISSIONER.

Governor Otero has appointed Louis H. Mitchell, of New York, a commissioner for New Mexico.

NEW INCORPORATION.

Incorporation papers were filed yesterday in Territorial Secretary Wallace's office for the Santa Fe Title Abstract company, by Marcelino Garcia, Atanacio Romero and J. L. Laughlin, who are also directors of the company, and who each hold 200 shares of stock. The capital of the company is \$10,000, divided into 1,000 shares. The object of the company is to make, own and furnish for sale correct and perfect abstracts of title to any and all kinds of property.

The Latest War News.

The latest war news is eagerly sought after. To some it brings happiness, as they read of valiant deeds accomplished, while to others the same message brings sorrow, when they read the death or capture of their loved ones. There is also much sorrow throughout our country by the loss of a loved one. For this, however, there is a remedy and that is Chamberlain's Stomach Bitters, which also cures indigestion, biliousness, nervousness and insomnia, and as a preventive for malaria, fever and ague it is unequalled. It has a record of fifty years of cures to back it up and a trial will convince you that your case is not incurable, as you will find after taking a few doses your stomach will be strengthened.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most painful condition. My skin was almost entirely gone, and my tongue coated, pain continually in back and sides, no appetite, gradually growing weaker day by day. Three physicians had given up, and I was in a most desperate condition. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise the first bottle made a decided improvement. I continued to use it for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try this. Only 50 cents, guaranteed at J. H. O'Reilly & Co.

Beware of Outlets for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such a remedy should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly on the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and is made at Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

SANTA FE'S STEADY ADVANCE.

Director Backs Up Statement of a 5 Per Cent Dividend.

In discussing the February statement of the Santa Fe road, published a day or so ago, a director of the company remarked: "The statement is naturally very gratifying to us. It reflects the excellent business conditions existing throughout the west. We have every reason to believe that these conditions will continue to prevail, and that the extraordinary crops this year, but all present indications lead to the belief that there will be an average crop. The Santa Fe is now earning at the rate of 5 per cent on the common, and 2 per cent on the preferred. Last year we charged off \$1,000,000 to profit and loss, which was intended to cover any possible depreciation in the property. This year we have charged off \$200,000. This year we will charge off at least \$1,000,000, and then probably will show earnings of 5 per cent on the common, and 1 per cent on the preferred. We have increased the dividend rate on our preferred stock every six months from the time we started dividends, and I believe that this summer we will increase the rate to a 4 per cent basis. This should satisfy stockholders. If earnings continue to show up as at present there is no reason why dividends should not be again increased at the end of the year to a 5 per cent basis."

MEXICO'S RAILROAD BOOM.

President Harrison Predicts that Many Miles Will Be Built.

J. H. Harrison, president and general manager of the Mexico, Cuernavaca and Pacific railroad, is in Chicago on business connected with his road. Mr. Harrison said:

"The era of railway construction is just beginning in Mexico. There is now a total mileage of only about 5,000 miles. This spring fully 200 miles of road were placed in construction in different parts of Mexico, and before we get through Mexico will have 10,000 miles of railway. We could use that much for we are getting the tail end of the great commercial and industrial boom which the United States is enjoying."

MARRON AGAIN!

Defeated Alfred Grunfeld for Mayor.

Medler Re-elected to Office of City Clerk.

Chamberlin Outran McRae for City Treasurer.

THE CITY ELECTION IN DETAILS.

The city election yesterday passed off quietly, and proved a Waterloo, in some of the wards, for the republican candidates, while in the Third ward, the democratic candidate, while in the Third ward, the republican party were placed, majorities were obtained for the head candidates on the democratic ticket. In the Fourth ward, always democratic, the republican workers did most excellent work and kept the democratic majorities down to small figures, while in the First ward the republicans had a clean sweep—the voters from the north Highland district coming down to the voting poll in goodly numbers and casting their votes for the candidates whose names appeared printed underneath the flag. This ward is truly the banner republican ward of the city.

Samuel Neustadt, over in the Third ward, was defeated for reelection to the council by one vote, the successful candidate being B. Sleyster.

The result of the election is told in the following table:

RECAPITULATION.

Total majorities—

Marron, D. 154

Medler, D. 112

The democrats in the First, Third and Fourth wards endorsed Don J. Rankin, Thos. M. Ramsdell and R. W. Hopkins, the republican candidates for school trustees, while over in the Fourth ward Summers Burkhardt, the democratic candidate for alderman, had no opposition.

The new council, when organized, will be as follows:

Republicans—W. C. Leonard, T. J. Wright, First ward; W. O. Hopping, Second ward; H. E. Rogers, B. A. Sleyster, Third ward.

Democrats—J. S. Heaven, Second ward; Frank McKee, Summers Burkhardt, Fourth ward, and the mayor.

The board of education, when organized, will be as follows:

Republicans—A. Keen, Don J. Rankin, First ward; T. M. Ramsdell, J. W. Glover, Third ward; R. W. Hopkins, Fourth ward.

Democrats—A. J. Lamb, Thos. Ishewood, Second ward; Edward Dodd, Fourth ward.

A number of old-time friends of H. U. Mudge and wife called on them at private car No. 215, while they were in the city, and extended their personal congratulations to Mr. Mudge over his promotion to the important position of general manager of the Santa Fe system. They are returning from Austin, Texas, where Mr. Mudge gave his testimony in the "double-header" controversy before the interstate railroad commission, and their two sons, Bert, who is stenographer to his father, and Paul, accompanied them on the trip. Paul has been quite ill for some time, and this trip will evidently prove beneficial.

A. P. Macginnis, the land commissioner of the Santa Fe Pacific and Southern California railways, passed through the city last night on his return to Los Angeles from Washington. Mr. Macginnis suffers with a very bad case of rheumatism, and was met at Las Vegas by Dr. Cornish, who administered some remedies and accompanied him to the city.

Frank Irvine, for nine months the day clerk at Sturges' European, resigned his position yesterday afternoon and expects to leave shortly for Arizona.

Frank is popular with the traveling public, and in an efficient hotel clerk.

Jay Hubbs and family have moved their residence from south high street to one of the Easterday residences on west coal avenue.

Mrs. C. M. Foraker departed on the early morning train for an extended visit with relatives in Blackburn, Ohio.
