BURIED IN THE NIGHT

Bodies of King Alexander and Queen Draga Secretly Laid Away

REPORTS ARE CONFLICTING

A Part of the Army Said to Be Marching on the Capital Prepared to Fight.

Belgrade, June 12.—King Alexander and Queen Draga, who were assassinated in the royal palace, were buried during the night in the family vault of the Brenovich in the chapel of the cemetery of St. Mark. The interment was carried on in complete secrecy between 1:30 and 3 o'clock this morning. Colonel Naumovich in the chapel was buried this morning. The city is lavishly decorated with flags and the national colors. All officers yesterday removed Alexander's cipher from the cockades of their caps. Everything is quiet thus far throughout the country, according to all official and other reports.

ANOTHER VERSION.

London, June 12.—A special dispatch from Belgrade says the bodies of King Alexander and Queen Draga were buried in a large pit dug in the village of Rakavica and that, as a mark of indignity, the bodies of their murdered relatives and those of the ministry killed, were placed above them and the common grave was filled with earth.

READY TO FIGHT.

Berlin, June 12.—A dispatch to the Lokal Anzeiger from Buda Pest says the garrison of Nish, where the late King Alexander was most popular, is, according to a railroad official who has arrived at Buda Pest from Belgrade, marching on the Serbian capital with full war equipment and artillery.

DIFFERENCE OF SENTIMENT.

Vienna, June 12.—The telegrams from Belgrade differ as to the attitude of the Serbian people. Some of them say that only the military element desires Prince Karageorgevitch to be king, others say the Serbians want Prince Miro of Montenegro to rule over them, while many of the more intelligent are in favor of a republic.

A LONG MASSACRE.

Berlin, June 12.—A dispatch to the Cologne Gazette from Belgrade today says the massacre lasted three quarters of an hour. The assailants declared the killing of the king was unavoidable because, if the queen had been murdered, the court clique would have incited the king to persecution and reprisals.

NEITHER WILL INTERFERE.

London, June 12.—The Serbian minister here has received confirmation of the sentiment that neither Russia nor Austria will interfere in the Serbian choice of a sovereign. He anticipates that Prince Peter Karageorgevitch will await summons from the Skupschina, a deputation from which will probably go to Geneva and escort the new king to Belgrade.

NO KING AS YET.

Washington, June 12.—The state department has received the following cablegram from Charles S. Wilson, secretary of the legation at Athens, dated yesterday: "No new Serbian king officially proclaimed. National assembly decides Monday."

Shamrocks Are Due.

New York, June 12.—Shamrock III, challenger for the America's cup, and Shamrock I, conveyed by the Erin and tug cruiser, are expected to arrive today. The fleet, the crews of which number 170 men, left Gourock, May 17.

Stock Markets.

New York, June 12.—Closing stocks: Atchison, 70½; Atchison preferred, 95½; New York Central, 128½; Pennsylvania, 126½; Southern Pacific, 50½; Union Pacific, 83; Union Pacific preferred, 88 bid; United States Steel, 31½; United States Steel preferred, 83½.

The Wool Market.

St. Louis, Mo., June 11.—Wool, steady. Territory and western medium, 16 @ 17½; fine, 14 @ 16; coarse, 13 @ 15.

MARKET REPORT.

MONEY AND METAL.
New York, June 12.—Money on call steady at 3/4 per cent. Prime mercantile paper 1/2 @ 5/8 per cent. Silver 53½.
New York, June 12.—Lead, quiet, 24.37½; copper, quiet, 24.50 @ 24.75.

GRAIN.

Chicago, June 12.—Close. Wheat, July, 75½; Sept., 73½ @ 74½.
Corn, June, 48½; July, 48½.
Oats, June, 37½; July, 38.

PORK, LARD, RIBS.

Pork, July, \$17.15; Sept., \$16.00.
Lard, July, \$9.85 @ 9.87½; Sept., \$9.97½.
Ribs, July, \$9.33½; Sept., \$9.27½.

STOCK.

Chicago, June 12.—Cattle, market steady.
Good to prime steers, \$5.00 @ \$5.00; poor to medium, \$4.25 @ \$5.00; stockers and feeders, \$3.00 @ \$4.25; cows \$1.00 @ \$4.75; heifers, \$2.50 @ \$5.10; canners, \$1.00 @ \$2.90; bulls, \$2.50 @ \$4.35; calves, \$2.50 @ \$7.00; Texas fed steers, \$4.00 @ \$4.50.
Sheep, steady.
Good to choice wethers, \$4.00 @ \$5.00; fair to choice mixed, \$3.25 @ \$4.00; western sheep, \$4.00 @ \$5.50; native lambs, \$5.00 @ \$6.85; western lambs, \$4.50 @ \$6.90.

GETTING ITS FULL SHARE OF RAIN

The Precipitation in Taos County for the First Nine Days of the Present Month Was 2.06 Inches.

CONTEST FOR APPOINTMENT AS POSTMASTER IS LIVELY

Special to the New Mexican.

Taos, N. M., June 10.—Taos county is getting its share of rain in June. From all over the county come reports of frequent and heavy rains. All the streams are high and there is much snow in the mountains yet.

The precipitation for the first nine days of the month was 2.06 inches, and the lowest was 40 degrees on the 2d and 3d. The mean maximum temperature is 70.3 degrees and the mean minimum is 43.5 degrees.

In May there were 22 clear days, and the precipitation for the month was merely a trace. The total precipitation from January 1 to June 9 was 7.72 inches.

The highest temperature in May was 81 degrees on the 12th and 30th, and the lowest was 26 degrees on the 1st. The mean maximum temperature for May was 71.5 degrees, and the mean minimum was 35.8 degrees. It was below freezing on four nights, to-wit: 26 degrees on the 1st, 29 degrees on the 19th and 31 degrees on the 20th and 23d.

D. A. Day of Albuquerque, and O. C. Watson of Santa Fe, both insurance men, are in Taos this week hustling for business.

A. Menett, the Las Vegas traveling man, is here on his regular trip selling goods to our merchants.

H. H. Hankins, the stage man of Cimarron, was over on business Tuesday and Wednesday. Mr. Hankins has the contract for hauling a carload of ore for the owners of the Scarlet from their mine at Red River to the railroad at Springer.

Perry Craig, deputy county clerk of Costilla county, Colo., and P. B. Albricht, stenographer in the office of E. C. van Diest, came down from San Luis, Colo., on Sunday. They came down on their wheels and encountered muddy roads, rains and high water.

This was their first visit to the Taos valley. They are bright young men and made a number of friends here who will be glad to have them return.

Mrs. Couse, who recently fell and broke her arm, is recovering rapidly, much to the gratification of her many friends here.

C. D. Weimer of Minerva, Ohio, who is a large stockholder in the American Consolidated Mines Company, whose properties are in Long Canon, in the Rio Hondo mining district, arrived in Taos on last Monday and will spend the summer in the mountains looking after his mining interests.

Mrs. C. D. Weimer, nee Elsie Gusdorf, accompanied by her husband, arrived from her Ohio home this week, and will visit with her parents, Mr. and Mrs. Alex. Gusdorf, during the summer. Mrs. Weimer was a popular belle in Taos before her marriage and her many friends in New Mexico are glad to welcome her home again.

Dr. T. P. Martin made a professional trip to Tres Piedras today.

Hugh Perry has opened a restaurant and bakery on the west side of the Plaza. Hugh is a good cook and sets a good table.

The contest for appointment as postmaster at Taos continues lively.

Dr. R. C. Brown, L. C. Puckett and Edward E. Dismuke of Waco, Texas, who have been at Red River for the last three weeks, have returned home. These gentlemen are the principal owners of the Scarlet group of lode mining claims in the Red River mining district. The Scarlet is among the best claims in the district, recent assays showing 25 ounces in gold. The owners contemplate patenting a part of their group this season.

Three families, former residents of Red River, returned to that camp last week. They "couldn't stay away."

REGULATIONS DRAFTED.

The New Act Will Make Radical Changes in the Army.

Washington, June 12.—A committee of twelve, of the general staff, of which General Tasker Bliss is chairman, has nearly completed a draft of regulations for the government of the general staff. The regulations to carry the general staff act into effect will make radical changes in the army. The chief of staff will be an all-powerful person, uniting in himself all the theoretical authority exercised by the commanding general under the present law and the powers heretofore unofficially invested in the adjutant general. The regulations, as prepared, provide that the officers so detailed, either to a department or with a division or brigade in the field, shall become the chief of staff of the commanding officer of the department or division of troops operating in the field, without regard to the rank of any other staff officer in the command. The committee hopes to submit a draft to General Young today in order that he may send it to the secretary of war before he leaves the city.

Dr. Baird Acquitted.
Boilder, Colo., June 12.—The jury in the case of Dr. Rudolph Baird, charged with poisoning his wife with strychnine, brought in a verdict of acquittal this morning, after being out all night.

IRRIGATION COMMISSION

Considerable Work Done in Getting Action by the Interior Department.

ENGINEER REED AT WORK

President Richardson Details the Progress Made and Difficulties Encountered—Surveys for Reservoir Sites Under Way.

G. A. Richardson of Roswell, president of the Territorial Commission of Irrigation, who has been in the city for two or three days on business connected with the work of the commission and to make recommendations to the Territorial Land Board, does not credit the reported setting aside of a certain amount of money by the Secretary of the Interior for expenditures in reservoir building in New Mexico.

"The commission's attention," said Mr. Richardson, "has been called to the amounts reported set aside by the Secretary of the Interior to the various states and territories which are to receive the benefits of the reclamation act, but the commission scarcely believes any such definite amount has been set aside for New Mexico. No notice of such action has been received, or at least the commission is not aware of it having been done. There is no basis on which the money could be set aside. When the announcement was made the department had no estimate of the cost of the various proposed storage reservoirs, no plans of them and the amount of water had not been determined. The commission can scarcely believe that any such division of money has been made by the department in the absence of such information."

COMMISSION NOT IDLE.
"The commission has not been idle. Some six or eight months ago the reclamation act was taken up. Communications were sent to the Secretary of the Interior by the commission calling the department's attention to sites for reservoirs and especially to the advantages of the Rio Grande valley, the Mesilla valley, the Pecos valley, the San Juan country and other parts of the territory. The attention of the chief of the geological survey was also called to the possibilities of the Rio Santa Fe. He replied promptly and his request for data was complied with at once. W. M. Reed of Roswell, has been named by the department to investigate possible and suggested sites. He has just completed an examination of suggested sites above Las Vegas in the canon of the Gallinas river, and is now in the San Juan country looking over sites and possible locations there. He will not at present investigate as to the Rio Grande and Mesilla valleys. Mr. Reed was also placed in the field to survey two or more reservoir sites in the Pecos valley. The reports to the department have been made promptly. The most advanced piece of work is on the Rio Hondo, 10 miles west of Roswell. Mr. Reed was authorized in November to survey the Hondo reservoir and finished the work and has sent to the department the results of his work and the estimated cost of construction."

RIO GRANDE VALLEY.
"The Commission of Irrigation very early took up with the department the matter of investigation of storage possibilities in the Rio Grande valley and at once was confronted with the pending suit of the United States vs. the Rio Grande Dam and Irrigation Company, or, as it is better known, 'The Elephant Butte case.' We were informed by the authorities that nothing would be done in the Rio Grande valley until that case was decided. At once the commission sent a communication to the proper department urging prompt attention to a settlement or disposition of the case. This was referred to the department of state and it was then suggested by the commission that possibly the defendant had forfeited any right which it may have acquired by the survey and maps made and filed under the act of March 18, 1891, by failure to do the work in the way of construction for more than five years. The commission further suggested that under the circumstances the rights, had any been acquired, had lapsed. The result of these communications has been the filing of a supplementary petition by the United States to cancel the survey and plats and have any rights which may have been acquired by the company, declared forfeited. The hope of the commission is that a speedy settlement of this matter may be reached and the vast quantities of flood water going to waste in the Rio Grande and its tributaries may be stored for use."

WILL CONTINUE WORK.
"The Irrigation Commission will keep the work in hand as much as possible considering that it is without means for ordinary expenses even, to say nothing of being without any money to pay engineers for the investigation of sites and collection of data desired by the department. It hoped the legislation would provide money for this necessary and important work but even if it failed to do so, we will not be discouraged but will continue the good

SUNDAY SCHOOL WORKERS LEAVE

Convention Adopted Resolutions Expressing Appreciation of the Labors of Instructors and of Courtesies Extended.

THE CLOSING SESSION WAS HELD LAST EVENING

The convention of the New Mexico Sunday School Association closed with last evening's session. The devotional exercises were led by Rev. R. A. N. Wilson, and then President McFie spoke for the association. His address was a happy effort and he profusely thanked the International Association for sending Mrs. Barnes to the meeting. He also expressed appreciation of the sacrifices made by Rev. R. A. N. Wilson to be present at the meeting. A formal vote of thanks was extended to these two as well as to all who were on the program. Rev. A. C. Geyer, as chairman of the committee on resolutions, submitted the following which were adopted:

"We, the undersigned committee, on behalf of the New Mexico Sunday School Association, express our sincere appreciation of the splendid hospitality of the Christian people of Santa Fe in opening their homes for our entertainment, which was so royally and cordially done that we are constrained to cherish the hope of a return of the convention to Santa Fe some time in the future."

"We express our thanks to the St. John's Methodist Episcopal church for opening their auditorium for the sessions of the convention."

"We declare our estimation of the valued services of the convention instructors, Rev. R. A. N. Wilson and Mrs. J. Woodbridge Barnes; of Mr. Wilson's strong and inspiring gospel messages; of Mrs. Barnes' clear apprehension of child life, its possibilities and limitations, and of her very helpful presentation of practical theories of primary work in the Sunday school. We bid them both God speed and pray that fields of increasing usefulness may open for the exercise of their consecrated talent."

"We further express our appreciation of the sacrifices so cheerfully made by Rev. W. A. Cooper, W. J. McPherson, Professor J. A. Wood and Judge John R. McFie of the local committee, in preparing for all the interests of the convention and in making every delegate feel the cordial hospitality which they so generously extended."

"We thank the Santa Fe Railway Company for the courtesy of reduced rates extended to the association; and the Santa Fe Daily New Mexican for the fair and courteous reports of the convention work."

"Finally we declare our hearty endorsement of the work of the New Mexico Sunday School Association and express our faith in its future. The encouragement and inspiration given by this convention makes us feel the loftiest optimism for the Sunday school work of the territory."

Signed: A. C. Geyer, A. J. Abbott, S. W. Clark."

Other resolutions presented and adopted ask every Sunday school in the territory to donate one average collection each year to the work of the association; and one expressing sympathy with W. V. Long of Las Vegas, in his sickness. A recess was taken in order that those present might individually bid farewell to Rev. R. A. N. Wilson and Mrs. Barnes, who left on last night's train. After the recess, Rev. A. C. Geyer of Las Vegas, spoke on "The Child for Christ." The last address was delivered by S. W. Clark on "Sabbath Desecration." Baiton has the largest Sunday school in the territory. Final adjournment was then taken.

Albuquerque was selected as the next place of meeting by the executive committee. The committee also appointed Professor J. A. Wood of Santa Fe, superintendent of the normal department; M. S. Deane of Albuquerque, superintendent of the primary department; and H. E. Fox of Albuquerque, superintendent of the home department.

WAITERS AND COOKS OUT.
Large Family Hotels in Chicago Are Completely Tied Up.

Chicago, June 12.—Union employees in the large hotels struck today. Approximately 2,000 men, chiefly waiters and cooks, are out. Large family hotels are the principal sufferers from the late strike developments, the large downtown establishments, with one exception, not being affected up to a late hour. At the Sherman house, 30 men walked out, completely tying up the dining room and bar service.

Quiet at Moresco.
Washington, June 12.—The war department has received a dispatch announcing the arrival of troops at Moresco, Arizona, and stating that all is quiet there.

Work in every way possible. The commission has fully advised with Delegate Rodey and he has promised every assistance in his power. At this time it seems that nothing more will be done until surveys of selected sites are completed, plans made, estimates of the cost of construction are submitted and the amount of water available for storage at the sites has been determined. It is probable a meeting of the commission will be called for the last of June or the first part of July to consider the present situation."

House Boat Capsized.
Clarenton, Ark., June 12.—W. B. Money-maker and wife, J. M. Clark and wife and two boys and a girl were drowned at Aberdeen on the White river by the capsizing of a house boat.

Two Men Are Dead, One Is Missing and Several Are Injured.
Tamaqua, Pa., June 12.—Two men are dead, one is missing and several injured as the result of an explosion of a large quantity of powder on the drying house of the Weldy Powder Company near Monterey today. The cause of the explosion is not known. The shock was so great that many lights of glass in houses in the city were broken and buildings trembled as though shaken by earthquake.

Paralysis Ended the Life of General Alexander McDowell McCook.

His First Service, After Graduating From the Military Academy Was in This City.

Dayton, O., June 12.—General Alexander McDowell McCook, U. S. A., retired, suffered a third stroke of paralysis at 6 o'clock this morning and died half an hour later at the home of his daughter, Mrs. Charles Craighead. General McCook came from Washington a few weeks ago and shortly afterwards, suffered a mild stroke of paralysis. This was followed a few days later with a second stroke, more serious than the first, but despite this fact, it was believed he would recover. He appeared to be steadily improving until this morning when the end came suddenly.

General McCook was well known in Santa Fe. He was a native of Ohio, and was a member of the famous family of "Fighting McCooks." After graduating from the Military Academy at West Point, his first service was in this city and he lived in the placita of the house now occupied as a residence by Hon. L. Bradford Prince and family. He took part in many Indian campaigns, against the Utes and others and campaigned throughout the southwest generally, but in his earlier days in what is now Taos county, near Conejos, Colo., and through that vicinity. During the last part of his active work in the army he was in command of this department with headquarters at Denver. He was well known here and had many warm friends among the older citizens of Santa Fe.

He was appointed to the Military Academy from Ohio and entered July 1, 1847. He was made brevet second lieutenant July 1, 1852, and second lieutenant June 30, 1854. He was made first lieutenant December 6, 1858, and captain May 14, 1861. He left the regular establishment for service with the volunteers during the Civil War and April 16, 1861, was appointed colonel of the First Ohio Volunteer Infantry. The regiment was for three months' service and was mustered out August 16 following. He was made brigadier general of volunteers September 3, 1861, and major general of volunteers August 8, 1862. He resigned from the volunteer force October 21, 1865, and resumed his place in the permanent establishment. He became lieutenant colonel of the 26th U. S. Infantry March 5, 1867, and was transferred to the 10th Infantry March 15, 1869. He became colonel of the 6th Infantry December 16, 1880, was made brigadier general July 11, 1890, major general November 9, 1894, and retired April 22, 1895.

FAMOUS WARRIOR DEAD

Paralysis Ended the Life of General Alexander McDowell McCook.

WELL KNOWN IN SANTA FE

His First Service, After Graduating From the Military Academy Was in This City.

Dayton, O., June 12.—General Alexander McDowell McCook, U. S. A., retired, suffered a third stroke of paralysis at 6 o'clock this morning and died half an hour later at the home of his daughter, Mrs. Charles Craighead. General McCook came from Washington a few weeks ago and shortly afterwards, suffered a mild stroke of paralysis. This was followed a few days later with a second stroke, more serious than the first, but despite this fact, it was believed he would recover. He appeared to be steadily improving until this morning when the end came suddenly.

General McCook was well known in Santa Fe. He was a native of Ohio, and was a member of the famous family of "Fighting McCooks." After graduating from the Military Academy at West Point, his first service was in this city and he lived in the placita of the house now occupied as a residence by Hon. L. Bradford Prince and family. He took part in many Indian campaigns, against the Utes and others and campaigned throughout the southwest generally, but in his earlier days in what is now Taos county, near Conejos, Colo., and through that vicinity. During the last part of his active work in the army he was in command of this department with headquarters at Denver. He was well known here and had many warm friends among the older citizens of Santa Fe.

He was appointed to the Military Academy from Ohio and entered July 1, 1847. He was made brevet second lieutenant July 1, 1852, and second lieutenant June 30, 1854. He was made first lieutenant December 6, 1858, and captain May 14, 1861. He left the regular establishment for service with the volunteers during the Civil War and April 16, 1861, was appointed colonel of the First Ohio Volunteer Infantry. The regiment was for three months' service and was mustered out August 16 following. He was made brigadier general of volunteers September 3, 1861, and major general of volunteers August 8, 1862. He resigned from the volunteer force October 21, 1865, and resumed his place in the permanent establishment. He became lieutenant colonel of the 26th U. S. Infantry March 5, 1867, and was transferred to the 10th Infantry March 15, 1869. He became colonel of the 6th Infantry December 16, 1880, was made brigadier general July 11, 1890, major general November 9, 1894, and retired April 22, 1895.

General McCook's war record is especially brilliant and he was breveted many times for gallantry and bravery. He received the brevet of major on July 21, 1861, for gallant and meritorious services in the battle of Bull Run, Virginia; lieutenant colonel, March 3, 1862, for gallant and meritorious services in the capture of Nashville; colonel, April 7, 1862, for gallant and meritorious services at the battle of Shiloh; brigadier general, March 13, 1865, for gallant and meritorious services in the battle of Perryville, Ky.; major general, March 13, 1865, for gallant and meritorious services in the field during the war.

JUDGE HOOK NAMED.
Has Been Selected to Succeed Judge Caldwell Who Recently Resigned.

Washington, June 12.—William C. Hook of Leavenworth, Kas., has been selected to succeed Judge Caldwell, who recently resigned the circuit judgeship of the 8th district. Judge Hook is at present a district judge.

CANDIDATE TWO YEARS.
Leavenworth, Kas., June 12.—William G. Hook has been a candidate for the position ever since Judge Caldwell first announced two years ago that he would retire soon after he had reached the age limit. Hook was appointed United States district judge for the district of Kansas by President McKinley in 1899.

POWDER EXPLOSION.
Two Men Are Dead, One Is Missing and Several Are Injured.

Tamaqua, Pa., June 12.—Two men are dead, one is missing and several injured as the result of an explosion of a large quantity of powder on the drying house of the Weldy Powder Company near Monterey today. The cause of the explosion is not known. The shock was so great that many lights of glass in houses in the city were broken and buildings trembled as though shaken by earthquake.

FRIDAY, JUNE 12.

Eastern Kansas is becoming itself again. Its people loudly assert they will not be washed out of existence.

During the past two months the New England states have experienced a severe drought. Getting a taste of the Mohave desert as it were.

The city of East St. Louis, containing about 35,000 inhabitants, is under water, and also under martial law. Rather tough this.

Uncle Mark Hanna is all right and President Roosevelt knows this. Trying to make bad blood between the President and Uncle Mark will not pay.

The trouble at the Territorial Normal School at Las Vegas is subsiding, and so are the floods in Kansas and Missouri. Calamities great or small, can not last forever.

Something more awful than the recent great floods in Missouri and Kansas is soon going to happen. Colonel Bryan has been silent for three entire days.

Buffalo must always be at something nasty. If it is not a murder trial with scandal attached to it, then it must be a fight over garbage removal or something of that kind.

A slight move in the direction of a creditable Fourth of July celebration in this city is noticeable. Push it along and make it stronger. Precious time is being lost.

The month of June is generally one of sunshine and of brides. This year in New Mexico it is one of rain and brides. But the latter do not care, as long as they get the husbands they want.

The lives of emperors, kings and princelings in Europe may very often be rosy, but at times they are bloody. This is fully illustrated by the awful tragedy at Belgrade on Wednesday night last.

The constabulary in the Philippine Islands is becoming more effective right along and is doing good work. This allows the withdrawal of regular troops from the islands. Both are good things.

Senator Scott of West Virginia, has returned from a European tour. His first act on stepping on American terra firma, was to announce himself as a strong Roosevelt man. Scott is keen-eyed in political matters.

Railroad corporations in the United States are great and powerful, but the elements are just a little bit "bigger." When it comes to a fight with them, appeals to supreme courts are of no avail.

There is too much "pistol toting" in New Mexico. The courts, grand juries, petit juries and officers of the law generally should enforce the provisions of the law prohibiting the carrying of concealed weapons, rigorously and constantly.

The Albuquerque reformers refuse to be downed even by the appellation "The Goo Goo Gang" given them by the New Mexican's esteemed contemporary, The Citizen. They propose to keep on making it hot for the "other gang." There are some stayers among them.

When they want to change rulers in Serbia, they do things up brown. They simply kill the king, the queen, a few other relatives and a lot of ministers and proclaim some other fellow, whose name ends with a "vitch" king and "there's an end on it."

United States troops are to keep the peace at the Morenci and Clifton Copper mines in Arizona. Just now Arizonaans feel that it is a good thing to be under the direct gaze of Uncle Sam. When your uncle makes up his mind to keep the peace in the territory, he manages to do so very effectively and quickly.

Much rain has fallen in Central and Northern New Mexico throughout the present week. Heavy rains also prevailed in these sections during the past week. This is unprecedented for this time of the year and has together with cold weather retarded the growth of crops materially and also killed early fruits. On the other hand this rainfall will benefit the ranges and stock interests greatly, and therefore will be beneficial in these directions. Upon the whole, however, the injury produced by this state of the weather is greater than the benefits that will arise from it.

North Carolina is lucky. A year or two ago it was thought to be the most fertile of the South. Now it is a rich deposit of tin ore has been discovered in its mountains. Luck very often comes where it is least deserved.

To all inquiries, Russia makes the polite answer, that it cares not a continental red cent for Manchuria but must protect the railroads built by the Russian empire with Russian money through that country. And now, what are England, Japan and Uncle Sam going to do about it?

Governor Beckham of Kentucky, objects to the criticism now directed against the state of Kentucky on account of the many murders and assassinations occurring there. What is the governor going to do about it? Although chief executive he is a very small potato in his own state and certainly of very little consequence elsewhere.

Some Kansas savants advocate the change of the appellation temperate zone to temperate zone. This is more than a joke for even Santa Fe has had a sample of almost every kind of climate in existence during the past two weeks, only that here the climate sooner or later settles down into delightful ways while in Kansas it never settles.

Dr. E. Benjamin Andrews now denies that he has changed his mind on the silver question, or in other words, asserts that he is as great a fool as the public has judged him to be. The professor had dropped out of sight so persistently that he probably deemed it expedient to come into print saying that he changed his mind and then follow this assertion with a denial of his first interview. A clever dodge but it will not help the professor very much.

The Interior Department has several irrigation engineers in New Mexico investigating locations for reservoir sites and irrigation systems. The Board of Trade of this city should address the Secretary of the Interior and call attention to the splendid reservoir sites in the Canon of the Santa Fe River, a few miles above this city. Were a reservoir to be constructed there, enough flood waters could be saved to irrigate 20,000 or more acres of land in the Santa Fe Valley, south of this city towards Lamy. The Board of Trade should lose no time in taking this matter up with the Interior Department, have this site inspected and reported upon.

PROFIT IN LOW GRADE ORES.

It has been repeatedly demonstrated that it is not so much the grade of ore as the quantity of it and the ability to treat it at a profit that makes a profit paying mine. Even if the ore does go but \$3 per ton, there are numerous prominent examples of big profitable mining properties where the ore averages much less, that are paying big dividends. This is made possible by the large amount of ore, the skill of the producers and the economical methods of handling. There is profit in \$1 gold ore and in one per cent copper ore under favorable conditions. In this connection it may be said that there are three classes of men required to make a success of mining, the prospector to find and partially develop the mine; the capitalist to equip and fully develop it; and the trained, practical miner to manage and operate it. In this combination lies success. Occasionally all three of these are found in a single man, but he is comparatively rare. That furnishes the answer to the question that is so often thrown at the prospector or the promoter who is endeavoring to dispose of a mining property. "If this proposition is as good as you say it is, why do you want to sell it?" The average prospector has no capital to equip and work a mine himself, and in some cases would not know how, if he had the means and disposition to do so. The prospector is indispensable to the advancement of mining, but the prospector does not represent a class of men who successfully operate mines.

MORE INFORMATION WANTED CONCERNING THE PHILIPPINES.

James A. LeRoy, who has been spending the past few weeks in Santa Fe for his health, in "Out West" for June writes interestingly and instructively on "Some Philippine Questions." Mr. LeRoy was with the second Philippine Commission from its appointment until January, 1902, as private secretary to Dean C. Worcester, now secretary of the Interior of the Insular government. Both Governor Taft and Secretary Worcester testify unequivocally to his ability, integrity, discretion and intimate knowledge of Philippine affairs. Mr. LeRoy makes some savage thrusts at several of the military commanders in the Philippines and the New Mexican is loath to believe that the strictures placed upon the military government by him are the whole truth, they are probably only one side of it. But aside from this the article is worthy of close study. It throws illumination upon points which people in the United States at present see but darkly. The criticism that the press is not keeping the people of this country well informed upon the progress that civil government is making in the Philippines, is well founded, for all newspaper comments upon affairs in the Philippines are either flippant or lack the definiteness born of certain knowledge. There is much to learn about the Philippines, and Mr. LeRoy in his article not only answers some questions but suggests many more and it is for men like him, who have the knowledge and wield a facile pen, and for men like Judge William H. Pope, who will return this month to Santa Fe, Governor Taft and others who have intimate knowledge of certain phases of the Philippine question, to enlighten the American public along lines on which newspaper correspondents fail to give satisfaction.

Notice of Meeting.
Notice is hereby given that the annual meeting of the stockholders of the New Mexican Printing Company will be held at the office of the company at 11 o'clock in the City of Santa Fe, Territory of New Mexico, in the morning of Monday, July 13th, 1903, for the election of directors and for the transaction of such other business as may properly come before the meeting.

In witness whereof I have hereunto set my hand and seal at Santa Fe, New Mexico, this 5th day of June A. D. 1903.

[Seal] C. M. STAUFFER, Business Manager.

Notary Public, Stenographer and Type writer. Translations
From Spanish into English and from English into Spanish carefully made. Office with U. S. Attorney for the Court of Private Land Claims, Federal Building, Francisco Delgado.
Santa Fe, N. M.

Maxwell Grant.

FARMING LANDS UNDER IRRIGATION SYSTEM.

These farming lands with perpetual water rights are now being offered for sale in tracts of forty acres and upwards. Price of land with perpetual water rights from \$17 to \$25 per acre, according to location. Payments may be made in ten year installments. Alfalfa, grains, fruits of all kinds, and sugar beets grow to perfection.

GOLD MINES.

On this Grant, about forty miles west of Springer, N. M., are the gold mining districts of Elizabethtown and Baldy, where important mineral discoveries have lately been made. Claims on unlocated ground may be made under the mining regulations of the company, which are as favorable to the prospector as the U. S. government laws.

Near Raton, N. M., on this grant, are located the Coal Mines of the Raton Coal and Coke Company, where employment may be found at good wages for any wishing to work during the seasons that farming or prospecting can not be successfully done.

For particulars and advertising matter apply to

The Maxwell Land Grant Co

RATON, NEW MEXICO

New Mexico Military Institute

ROSSELL, NEW MEXICO.

THE MILITARY SCHOOL OF NEW MEXICO ESTABLISHED AND SUPPORTED BY THE TERRITORY

Six men instructors, all graduates of standard eastern colleges. New buildings, all furnishings and equipments modern and complete; steam-heated, gas-lighted; baths, water-works; all conveniences. Tuition, board and laundry, \$200 per session. Session is three terms of thirteen weeks each.

Roswell is a noted health resort, 3,700 feet above sea level; well-watered. REGENTS--Nathan Jaffa, W. M. Reed, R. S. Hamilton, J. C. Lea and E. A. Cahoon. For particulars address,
COL. J. W. WILLSON, Supt.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the numerous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, lodging and bathing, \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7. For further particulars, address

ANTONIO JOSEPH, Proprietor
Ojo Caliente, Taos County, N. M.

SANTA FE HARDWARE AND SUPPLY CO.

JOBBERS AND RETAILERS

Now Open for business with the largest stock of Hardware and Supplies in Northern New Mexico.

IN making our opening announcement through The Daily New Mexican, we do not come as strangers, but as citizens of the town and county, believing in the future of our Ancient City and willing and anxious to work together with our progressive business men for the building up of trade relations throughout this section of New Mexico that has hitherto found other channels through which to divert their trade and that rightly belongs to Santa Fe. We believe by concerted effort that during the next two years Santa Fe will take its proper place as the central commercial mart of the southwest.

In order for us to succeed it is necessary for others to prosper hence we bespeak a good word for all and respectfully solicit your patronage and good will.

If you contemplate buying anything in our line step in and examine our goods. We take particular pride in showing our goods whether you buy or not. Our place of business is next door to Sellman Brothers dry goods store at the Cartwright old stand, 216 San Francisco St. We have the largest store room in Santa Fe, two stories and a basement fronting on the Plaza and extending back to Water St. giving us ample room for our different lines.

We expect to sell our goods on merit, honest goods at honest prices, our motto, but no cut throat prices. We hope to be as friendly with our competitors as with the patronizing public.

We beg the indulgence of our patrons and friends for any confusion or irregularities that may occur during the next few weeks for our stock is not yet arranged very systematically owing to recent removal of a large portion of our stock.

We have recently secured the services of Mr. Al Royce who has for the last eight years been with the big hardware store of W. D. Carroll at Antonito, Colo. he will take special pains in waiting on our Spanish speaking patrons, being an expert Spanish linguist—Just call for "Al."

Hardware and Builders' Supplies

We are completing our line of Hardware and Builders' Supplies and will be able to supply the trade with any article of every day demand. We handle every thing.

Wagons and Buggies

We have a car load of wagons and buggies en route, shipped from South Bend on May 20, that should arrive here in a few days. We expect to be headquarters for anything in the vehicle line. You can see just what you are buying.

The Studebaker Wagons

will be our leader—well known; well advertised and when you get a Studebaker you know you are getting the very best wagon that is manufactured anywhere on earth.

Nails and Barbed Wire

We have just received a car load of Nails and Barbed Wire, being the first car load received here in several years. We can surely sell you your Nails or Wire.

Harness and Saddles

We are Headquarters for Harness and Saddles. Our Harness Rack, fifty feet long, shows you the largest and most complete assortment ever displayed in Santa Fe. We can also fit you out on Saddles. Cowboy Saddles, Common Saddles and Ladies' Side Saddles all conveniently displayed and easily shown.

Blacksmith's Materials

Our Stock of Wood and Iron Material for Blacksmiths is very complete, also Anvils, Forges, Vices, Bellows, anything usually needed at the Modern Blacksmith Shop can be had at the right price.

Furniture Next

We have half a car of furniture left over from the Cerrillos Stock that we propose to sell quick. Dressers, Wardrobes, Tables, Chairs, Wood and Iron Bedsteads—All must go. We have Iron Beds as handsome patterns as can be found any place. These goods must be moved as soon as possible. The prices will suit you.

Stoves and Ranges

Our Store will be Headquarters for Stoves and Ranges. We have decided after some weeks' investigation to put in

Buck's Stoves and Ranges

knowing no other stove on the market can excel this line. These goods will not be shipped from factory until July 1, by this time we can get the latest product of the factory, with all modern improvements of 1903, meantime we have other staple lines in stock to supply immediate demands.

Samson Windmills

The SAMSON WINDMILL may not be the cheapest but it is the best. We believe in making an investment for a Windmill it pays to buy the best. We have them in stock and you don't have to wait if you need a mill. Come and see for yourself.

Other Lines

We carry Queensware, Glassware, Tinware and a choice line of Blue Delft Enameled Ware that is guaranteed not to crack or peel off. Comes a little higher than the cheap stuff but you will find it pays to buy the best.

KENNEDY & TOWNSEND

Santa Fe, New Mexico, June 1, 1903.

216 SAN FRANCISCO STREET.

STARTLING EVIDENCE.
Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Bentonville, Va., serves as example. He writes: "I had Bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing lung and throat troubles, consumption, pneumonia and grip. Guaranteed by Fischer Drug Co. Trial bottle free, regular sizes 50c and \$1.00.

HOT WEATHER WEAKNESS.
If you feel fagged out, listless and lacking in energy, you are perhaps suffering from the debilitating effects of summer weather. These symptoms indicate that a tonic is needed that will create a healthy appetite, make digestion perfect, regulate the bowels and impart natural activity to the liver. This, Herbine will do; it is a tonic, laxative and restorative. H. J. Freeland, Prop., Grand View Hotel, Cheney, Kan., writes: "I have used Herbine for the last 12 years, and nothing on earth can beat it. It was recommended to me by Dr. Newton, Newton, Kan." 50c at Fischer Drug Co.

JUDGE FOR YOURSELF.

Which is Better Try an Experiment or Profit by a Santa Fe Citizen's Experience.

Something new is an experiment. Must be proved to be as represented. The statement of a manufacturer is not convincing proof of merit. Now supposing you had a bad back. A lame, weak or aching back. Would you experiment on it? You will read of many so-called cures. Endorsed by strangers from far away places. It's different when the endorsement comes from home. Easy to prove local testimony. Home endorsement is the proof that you want. Read this case: Cipriano Chavez, county jailer of Agua Fria street, says: "I had attacks of backache for three or four years. Latterly they were of much longer duration and occurred much more frequently. For 20 days before I went to Ireland's Pharmacy there was no let up to the dull aching and nagging pain despite the fact that I used medicines and wore plaster. Two days' treatment with Doan's Kidney Pills was sufficient to let me know that the remedy was going to the root of the cause and a continuation of it for some time stopped the very severe attacks. I now know what to use in the future I notice any traces of backache."

For sale by all dealers. Price 50 cts. Foster Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

Justice of the peace blanks, in English and in Spanish, for sale in large or small quantities by the New Mexican Printing Company.

MINING NOTES.

The controlling interest in the Paxton mine on Copper Mountain, Taos county, has been sold by W. N. Lindsay and J. W. Phillips to A. J. James, J. W. Sharp and Samuel Fromhold who immediately began operations on the property.

Next week the Jayhawk mill at Red River, Taos county, will resume operations. The mill has been completely overhauled and a trial run was made on Monday. Ore has been hauled to the mill from the Jayhawk mine the past three weeks.

George Gibson has set a drill to work for water in Ancho gulch, Lincoln county and has a portable saw mill on the ground ready for work on the Ancho.

The American Placer Company at Jicarilla, Lincoln county, is overhauling and improving its plant which has a capacity of 60 tons per hour. Water is plentiful.

J. H. Hinton will add another jig to his plant at Jicarilla, Lincoln county giving his plant 120 tons a day capacity. The jigs are Mr. Hinton's patent and are successfully separating the gold from the placer dirt in Juana gulch.

W. A. McVern is opening an iron property in the Jack mountain, in Lincoln county, four miles northeast of Jicarilla.

F. A. Richardson of Colorado has resumed work on the Belle of Mexico and the Belle of Memphis, at Jicarilla, Lincoln county, the latter showing free gold. W. S. Ross has sold the Hawkeye mine at Jicarilla for \$10,000. The new owners are pushing development work on the property. William Morrison has declined an offer of \$10,000 for his free gold property at the lead of Juana gulch at Jicarilla.

O. G. Handy and F. W. Stonroad struck free gold in a well defined lead with porphyry and granite walls at Jicarilla. The lead matter is four to five feet wide.

How long will it take the man to fill the sack if he does not stop the leak? To attempt to pour the body when the stomach is diseased is like trying to fill the sack with the hole in it. When the stomach and other digestive organs are diseased, there is a constant loss of nutrition.

Enough is eaten but the body loses flesh—plain proof that the food eaten is largely wasted because it is not digested and assimilated. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It stops the leaks by which nutrition is lost, and enables the building up of the body by the nutrition derived from food. The gain in weight proves the cure.

"Three years ago I was taken sick with what the doctor called nervousness and indigestion," writes Mrs. Warren E. Parker, of Orange Street, Montpelier, Mass. "He gave me medicine for the trouble, but I could not eat even a little food or without suffering severely. In a few months I began to have distressing pains right in the pit of my stomach. I called the doctor again and he said I had catarrh of stomach; gave me medicine but it did not do any good. I lost all my weight in three months. I then began to feel better. I have taken six bottles of 'Golden Medical Discovery,' two of 'Favorite Prescription' and six vials of Dr. Pierce's Peppermint Cure. I have gained ten pounds. Can eat every thing."

Dr. Pierce's Pleasant Pellets cure constipation.

OFFICIAL MATTERS

POSTOFFICE ESTABLISHED.
A postoffice has been established at Analla, Lincoln county. It is about half way between Pico and Honda.

LAND OFFICE BUSINESS.
The following homestead entries were made yesterday: Walter W. Conklin, Colmar, 160 acres in Colfax county; James Teeny, Raton, 160 acres in Colfax county; Jose Dominguez, Sena, 160 acres in San Miguel county; Margaret E. Pendergast of Raton, 160 acres in Colfax county.

DEPUTIES APPOINTED.
Page B. Otero, territorial fish and game warden reports the appointment of the following deputies: Jose O. Rivera, Willis; Epifanio Gonzales, Maxwell City; Pablo Gonzales, Willis, all for San Miguel county.

INCORPORATIONS.
Articles of incorporation have been filed with the territorial secretary by the Jaw Bone Development Company. The incorporators are: Philip J. McKenna, of Chicago; George Gallup, of Escanaba, Mich.; Edwin B. Seward, of Tres Piedras, New Mexico. The company is authorized to carry on a mining and milling business and to acquire mining property by location or otherwise. It is capitalized at \$200,000, which is divided into that number of shares of the par value of \$1 each. The term of existence is 50 years, and the principal place of business outside of the territory of New Mexico is at Chicago, Ill., and the territorial office is at Tres Piedras.

A SPLENDID REMEDY.
Neuralgia, rheumatism, lumbago and sciatic pains yield to the penetrating influence of Ballard's Snow Liniment. It penetrates to the nerves and bone, and being absorbed into the blood, its healing properties are conveyed to every part of the body and effect some wonderful cures. Mr. D. F. Moore, Agent Illinois Central Railway, Milan, Tenn., states: "I have used Ballard's Snow Liniment for rheumatism, backache, etc., in my family. It is a splendid remedy. We could not do without it." 25c, 50c and \$1 at Fischer Drug Co.

CONSTIPATED BOWELS.
To have good health, the body should be kept in a laxative condition, and the bowels moved at least once a day, so that all the poisonous wastes are expelled daily. Mr. G. L. Edwards, 142 N. Main St., Wichita, Kansas, writes: "I have used Herbine to regulate the liver and bowels for the past ten years, and found it a reliable remedy." 50c at Fischer Drug Co.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.
Is everywhere recognized as the one remedy that can always be depended upon and that is pleasant to take. It is especially valuable for summer diarrhoea in children and is undoubtedly the means of saving the lives of a great many children each year. For sale by all druggists.

THAT THROBBING HEADACHE.
Would quickly leave you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for sick and nervous headaches. They make pure blood and build up your health. Only 25c. Your money back if not cured. Sold by Fischer Drug Co.

Chamberlain's Stomach and Liver Tablets are just what you need when you have no appetite, feel dull after eating and wake up with a bad taste in your mouth. They will improve your appetite, cleanse and invigorate your stomach and give you a relish for your food. For sale by all druggists.

TAX ON BABIES.
Extreme hot weather is a great tax upon the digestive power of babies; when puny and feeble they should be given a few days of White Cream Vermifuge, the children's tonic. It will stimulate and facilitate the digestion of their food, so that they soon become strong, healthy and active. 25c at Fischer Drug Co.

HIS LAST HOPE REALIZED.

(From the Sentinel, Goshute, Mont.)
In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his traveling about and afterwards, his camping upon his claim, he encountered much bad water, which, together with the severe heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure, and he cannot help but feel grateful. The reason for bowel disorders being at hand suggests this item. For sale by all druggists.

WORST OF ALL EXPERIENCES.
Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newton, Decatur, Ala. "For three years" she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I am completely recovered." For liver, kidney, stomach and bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by Fischer Drug Co.

"I have been troubled for some time with indigestion and sour stomach," says Mrs. Sarah W. Curtis, of Lee, Mass., "and have been taking Chamberlain's Stomach and Liver Tablets which have helped me very much so that now I can eat many things that before I could not." If you have any trouble with your stomach why not take these tablets and get well? For sale by all druggists.

DRIVEN TO DESPERATION.
Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident, resulting in burns, cuts, wounds, ulcers, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth. 25c at Fischer Drug Co.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the register or receiver at Santa Fe, N. M., on May 25, 1903, viz: Octaviano Rodriguez of Santa Fe, New Mexico, for the sec. 14, of section 11, township 14 north, range 10 east. He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Enriquez Pacheco, Cosme Carrillo, Hilario Rodriguez, Vivian Orrego, all of Santa Fe, N. M.

J. P. VICTORY

Attorney at Law and

Real Estate Agent

Upper San Francisco Street, Santa Fe, N. M.

FOR RENT.
9-room brick house with all modern improvements and pleasantly situated.

Can sell at a bargain a cosy home on Manhattan avenue, an adobe brick house, 7 rooms; fruit and vegetable garden; city water, hydrant and tank; 70 choice fruit trees; currant and raspberry bushes; lot 80 by 265 feet.

I also have a fruit ranch in a high state of cultivation, in the suburbs, with a building site overlooking the entire city of Santa Fe. On it there is an artificial reservoir, the only one of its kind in the city, 12 feet or more in depth, holding over 135,000 gallons of water, constantly replenished, from which the whole place can be irrigated daily during the summer, and which could be stocked with fish. The land contains many hundreds of young trees of the finest and most valuable varieties of apples, peaches, pears, plums, apricots, cherries and other fruits, the greater part of which already bear; a young bearing vineyard, thousands of bushes of currants and other small fruits; extensive beds of asparagus, rhubarb, and other fine vegetables. To be sold on easy terms, and for much less than it cost, owing to ill health of the owner.

Fort Marcy Heights, with its historic associations, magnificent views, and other attractive features, is destined soon to be adorned with the magnificent homes of New Mexico's millionaires, and for speculative purposes no other tract of land in the Territory today appeals to the cautious investor for immense returns in the near future. I can sell you an undivided one-half interest in this tract, consisting of about 250 acres, at a reasonable price.

I can sell you a very desirable six acre tract convenient to the penitentiary, and now used by that institution as a vegetable garden.

I have also several large and small tracts of desirable land in the neighborhood of the Government Indian School, which I can sell at your figures, perhaps.

Several small houses, some adobe, some brick, others frame, upon my books, which I would be glad to show an intended purchaser. They are desirably situated, and will be sold cheap.

FRIDAY, JUNE 12.

MINOR CITY TOPICS

Cowboy Saddles and Brides at Goe-

bel. Exchange: Charles B. Barker, Las

Vegas. Additional local on the third page of

this issue.

Normandie: O. J. Black, Denver; L.

K. Keam, Cleveland, O.

A special meeting of the Elks will be

held tomorrow evening for initiation of

candidates.

On the third page of this issue will

be found interesting mining news and

official matters.

Santa Fe Lodge No. 2, I. O. O. F. will

hold its regular weekly meeting this

evening at 7:30 o'clock at Odd Fellows'

hall. Work in the Third Degree.

Palace: G. A. Richardson, W. M.

Read, Roswell; H. S. Graham, O. F.

Weller, Denver; E. F. Rochester, L. H.

Darby, Denver; Freda Barbedette, Al-

giers.

The forecast is for showers tonight

with probably clearing weather tomor-

row and rising temperature. The max-

imum temperature yesterday was 52

degrees at 1 p. m., and the minimum

was 47 degrees at 5 a. m. The tempera-

ture at 6 o'clock this morning was 45

degrees. The precipitation yesterday

was .38 of an inch.

Advertising pays. Since placing his

real estate advertisement in the New

Mexican, John P. Victory, Esq., has

had property inquiries from Hillsboro,

Ills., San Bernardino, Calif., Port

Dodge, Ind., New York City and Al-

bany, N. Y., Denver and Trinidad,

Colo., and from many points in New

Mexico, showing the wide circulation

of the New Mexican and its value as

an advertising medium.

The statement of the condition of the

First National Bank made in response

to the recent call by the comptroller of

the currency, appears elsewhere in this

issue. The statement is of the condi-

tion of the bank at the close of busi-

ness June 9, and shows deposits of

\$446,892.35, and loans and discounts of

\$325,835.68. The bank is in first class

condition and is the soundest financial

institution in the Southwest.

Groff, Pittsburg; W. B. Smith, Las

Vegas; D. W. Harrison, New York;

Phil C. Hildreth, Colorado Springs; A.

L. McBrinnis, Ottawa, Kas.; A. B.

Jennings, Kansas.

For the past week the New Mexican

has been greatly handicapped in its

telegraph service by the weather con-

ditions. It is only at frequent intervals

that the Western Union Telegraph

Company has been able to maintain

communication with Denver, which is

the distributing point for this section

of Associated Press news. Much of

the telegraph is received after this pa-

per goes to press and this is particu-

larly the case with closing market re-

ports. The telegraph company has

been unable to keep the wires clear

and until the weather becomes more

settled, it is probable the annoyance

will continue.

Mass will be celebrated next week

for William B. Thayer, who was killed

a year ago Monday by W. W. Atchison

at San Pedro.

Trains Nos. 1 and 7 on the Santa Fe

from the east are at least 12 hours late

and no train will go out from here

tonight. The trains will probably ar-

rive some time in the morning.

Next week work on this end of the

Tesque road which is being construc-

ted under direction of J. D. Sena, will

be suspended and work will be com-

menced at the Tesque end. Two

miles and a quarter of the road at this

end have been completed and it is

within three-quarters of a mile of the

divide. The road has been connected

with the Indian road so that it is now

possible to drive over it to Tesque.

The road is level, 20 feet wide the en-

tire distance and the scenery is unsur-

passed.

Rev. R. A. N. Wilson, who has been

one of the instructors at the Sunday

school convention in this city, was once

benefited by newspaper publicity. He

went to Pueblo to take charge of the

Cumberland Presbyterian church of 18

members. He purchased \$90 worth of

furniture on credit, moved into a few

rooms and then went to the agent of

the railroad company at Pueblo, told

him he was, said his church was poor

and so was he, and he wanted work

to pay for the furniture. He was made

assistant to a car cleaner and worked

six days in the week and preached on

Sunday. A correspondent for a Denver

paper sent a story of the preacher car

cleaner to his paper and it was widely

circulated. Soon contributions from mem-

bers of the denomination and other

denominations from all over the coun-

try commenced to come in with in-

junctions to confine himself to his

work as a minister, and within a week

he received in this manner \$375. He

now has a fine church of 125 members

and is just completing a \$3,500 parson-

age.

Superintendent H. O. Bursum of the

territorial penitentiary, was a passen-

ger for southern New Mexico last eve-

ning.

J. M. Leason was a passenger for

San Francisco and other California

points today. He went to the Pacific

coast to better his health.

Paul Staab and Clarence Lindeman

left today for California where they

will remain several months for the

benefit of the former's health.

General W. H. Whiteman, adjutant

general of the New Mexico National

Guard, went to Albuquerque last night

on business connected with his office.

James Garland, formerly of this city,

but now engaged in mining in Red

River, Taos county, was a passenger

for his northern home this morning.

Henry Krick, agent for Lemps' St.

Louis beer, and Mrs. Krick and chil-

dren leave this evening for a visit at

Mrs. Krick's former home, Chillicothe,

Mo., with relatives.

G. A. Richardson, of Roswell, presi-

dent of the Irrigation Commission of

New Mexico, who has been here on

official business, left for Las Roswell

home this morning. He went via Trin-

idad.

Manuel B. Otero, who spent the past

year at college at Mercedburg, Pa.,

and his sister, Miss Anita Bergere, who

attended school at the Mother House of

the Sisters of Charity at Mount St.

Joseph, near Cincinnati, arrived home

on last night's belated train. They ex-

perienced many delays and some diffi-

culty in their travels.

W. M. Reed of Roswell, engineer in

charge of reservoir surveying work for

the hydrographic office of the geologi-

cal division of the department of the

interior, was bound for Aztec, San

Juan county, via the Rio Grande rail-

road this morning. He goes to that

place to make investigations of reser-

voir sites in San Juan county.

H. B. Hawkins and Gaston Woolver-

ton, settlers at Estancia on the Santa

Fe Central Railway, are in the city to-

day securing aid for a petition of the

settlers in that vicinity for the estab-

lishment of a postoffice at that point.

They also wanted to make entries of

the land upon which they have settled,

but as no government surveys has as

yet been extended over these lands,

this could not be done.

FOR SAFE KEEPING.

Prisoners Charged With Murder Taken From

Raton to Las Vegas.

Governor Otero took prompt action to

prevent a lynching at Raton of the men

charged with the killing of the night

marshal John Jones. Yesterday after-

noon he sent the following telegram to

J. Leahy, district attorney: "Just

learned of the serious condition exist-

ing in your city resulting from the killing

of Marshal Jones. I expect you to see the

sheriff in my behalf and have him use

every precaution to prevent any violence.

I sincerely trust that the citizens

may not resort to any act that would

cast a blot on the good name of our

territory. Our courts are strong and

well able to handle such cases, and the

citizens should show their confidence in

the courts insisting upon the law being

upheld. Mob violence would only be

adding to the crime already committed.

MICHAEL A. OTERO, Governor.

This morning the following reply was

received from the district attorney: "No

doubt, or of mob violence by Raton-citizens

but rumors that outside parties were

coming here caused the sheriff to re-

move the prisoners to Las Vegas."

AFTER COMMISSIONER WARE.

Mayor of Kansas City, Kansas Says Outside

Help Is Needed.

Kansas City, Kans., June 12.—Mayor

Gilbert has sent the following telegram

to E. F. Ware, commissioner of penitenti-

aries at Washington: "The relief committee

invites you to come to Kansas City,

Kansas, and see if you were correct in

the statement that Kansas needs no aid.

Four thousand families—20,000 people—

homeless here. Is it right for us, who

are not in need, to let our pride prevent

charity coming to those who are really

suffering when we cannot furnish it?"

FALLING AT ST. LOUIS.

St. Louis, June 12.—At 7 a. m. when

the official observation was made, the

river had fallen slightly more than an

inch since midnight and stood at 37 feet

on the government gauge. The flood is

declining very slowly, but with falling

river above and no indications of rain,

the prospects for relief to the territory

in this vicinity and north for hundreds

of miles that is covered with a great

body of water, seems near.

AFTER NEW COAL FIELDS

Twenty-Five Hundred Acres of Black Dia-

mond Locations Made in Southwestern

Valencia County—More to Follow—Eith-

er Southern Pacific or Phelps, Dodge

People Behind Them.

At the United States land office in

this city today W. N. Houser of Den-

ver, as attorney in fact, filed eleven

coal declaratory statements for 320

acres each in the southwestern portion

of Valencia county, about 10 miles

north of the Socorro line and about 15

miles east of the Arizona line. About

30 more coal declaratory statements

were offered by him, but were not filed

by the officials of the land office, there

being several errors and inaccuracies

in them. It is presumed that Mr.

Houser will return shortly with these

declaratory statements corrected and

will file them on the quarter sections

in townships 4 and 5 north of ranges 17,

18 and 19 west, containing coal. It is

presumed that Mr. Houser is acting in

the interests of parties connected ei-

ther with the Southern Pacific railroad

or the Phelps, Dodge and Company

people. The locality in question is

about 50 miles north of the Datil range

in Socorro county, also north of the

Agol range and northeast of the

headwaters of the Gila river and its

tributaries. The section is about 50

miles south of the Santa Fe Pacific

railroad. Rail communication could be

established from that point or from

Solomonville on the Southern Pacific

railroad in Arizona. It would be

quite an engineering problem to reach

these coal fields from the south, which

the Phelps, Dodge and Company peo-

ple would have to do. However, they

might run a railroad line up the Gila

river to its west fork and then creep

up the mesa, striking these coal fields

about 40 miles from the river. The

fields are quite extensive and are

shown on all land office maps and

those of the geological survey. It

seems that this part of western New

Mexico is destined to have railroad
