VOLUME 14. ALBUQUERQUE, NEW MEXICO, SATURDAY AFTERNOON, MARCH 17, 1900. NUMBER 118.

NOT CONFIRMED!

Relief of Mafeking Garrison in Doubt.

Boers Vindictive and Cross Over Defeats.

Commandant Oliver Evacuated Position Before British.

LATEST FROM SOUTH AFRICAN WAR.

London, March 17.—It is persistently reiterated that Mafeking has been relieved, but the war office has no confirmation of the rumor.

A GENERAL RESUME.

The Situation in South Africa as Seen from London.

London, March 17.—The peaceful conquest of the Orange Free State progresses so evenly it is now believed there will be little or no fighting until Lord Roberts reaches Vaal river. How soon he intends to start out with this objective is not yet hinted, but pacification of the Free State seems to be engaging all his attention. When the move comes it will doubtless be accomplished with the secrecy and swiftness which characterized all the British advances since Lord Roberts assumed command.

Meanwhile the fate of Mafeking remains unknown. The revolt of the Dutch in the north-east seems to have had its back broken, and it is likely General Kitchener will resume his place beside his chief.

The full that lets the British troops of the Natal and Free State reassemble with rest to the engineers and transport service. General, the young Canadian officer who rules supreme over the railroads, is now putting his system to the most severe test in an endeavor to pour supplies from Cape Town to Bloemfontein.

Commandant Oliver, after leaving Burgersdorp, went to Rouxville, where he is reported to be with only a small force. Dr. Leyds, the diplomatic agent of the Transvaal, has disappeared from Brussels. According to a Globe special he is believed to have come to London but nothing is known there about his arrival. It seems scarcely likely that he jumped into the lion's mouth, and the energetic Boer representative is more likely to be soon heard of at one of the other of the European capitals.

Cleared of the Enemy.

Bethulle, March 16.—General Gatacre's scouts occupied Springfield, and the country is clear of the enemy. The main column is following the scouts.

HILL EVACUATED.

Boers surrendered—A Member of Parliament arrested.

Burgersdorp, March 17.—Commandant Oliver evacuated his position on the hill in front of the British during the night. Several Boers of his force surrendered. Dr. Dewett, member of parliament and his brother, have been arrested.

Departure of Lady Roberts.

London, March 17.—The departure of Lady Roberts for South Africa to-day was made the occasion for popular demonstration.

Enthusiasm in the House.

Washington, March 17.—The house was occupied to-day hearing evidence on the late Senator Hayward of Nebraska.

St. Joseph, Mich., March 17.—The ice-bound steamer, Louisville, was rescued to-day.

The Boers' Victory.

Lady Smith, March 17.—Lord Dundonald's cavalry patrols reconnoitered the Free State border at Basutoland and De Beers pass, where a slight skirmish occurred, in which two British were wounded. The Boers were encountered in some strength at Van Breenan's pass and Tintwa's pass. Kaffirs arriving here report the Boers

THE REPUBLICANS!

Hold a Rousing Convention at Socorro.

Henry Faust Killed in Accident at Deming.

Charter Granted New Railroad at Guthrie, Oklahoma.

THE IDAHO MINE TROUBLES.

Special to The Citizen.

Socorro, N. M., March 17.—The territorial convention was large and enthusiastic, and the utmost harmony prevailed.

Ex-Governor Prince was elected temporary chairman, and R. C. Gortner secretary, and every county in the territory was represented.

The following were elected delegates to the national convention at Philadelphia: Gov. M. A. Otero, F. A. Hubbell, E. A. Cahoon, A. Alberty, Juan Santistevan, Secundino Romero.

Strong resolutions were adopted endorsing the territorial and national administrations, and selecting Solomon Luna for national committeeman for this territory.

This afternoon speeches were made by W. B. Childers and others. The people of Socorro are generally entertaining the visitors, and will close the festivities with a ball at the Garfield opera house this evening.

NEW RAILROAD.

Charter Granted to Kansas City, Oklahoma and Mexico Railway.

Guthrie, O. T., March 17.—The territorial secretary to-day granted a charter to the Kansas City, Oklahoma & Mexico railway company, with a capital stock of \$2,000,000. A. E. Stillwell leads the list of incorporators. They propose to build a line 200 miles long from Augusta, Wood county, Oklahoma, southwest across the territory to the Red river with several branches in the western counties. This will be a link in the proposed through line from the Missouri river to the western coast of Mexico.

HORRIBLE DEATH.

Henry Faust, of Young's Patent, a well-known citizen.

Deming, N. M., March 17.—While placing a curb in the well of the Young's Patent millinery store yesterday, Henry Faust came to his death. The well was forty-five feet in depth. He had finished cutting about ten feet and had erected a working platform on which to stand when the walls caved in, completely covering Mr. Faust. The accident occurred at 3:30 yesterday afternoon, and as soon as the alarm was given a number of men hastened to the scene and lent all possible aid toward rescuing the entombed man. At about 6 o'clock the workmen succeeded in raising him from the well, and the body was taken to the mortuary where it was laid out for viewing. Mr. Faust was aged 45 years and leaves a wife and four little children to mourn his death. He has been a resident of Deming for a number of years and was a member of the Methodist church.

Investigation Shows that They Were Really Killed by the Soldiers.

Washington, March 17.—The cover of the investigation continued to-day. Allen F. Gill, master mechanic of the Tiger and Poorman Mining company, of Burke, testified that he was at the mine April 25 the day the Bunker Hill mine was blown up. The town was unusually quiet. On April 30 all the men were at work, except four. They continued to work until the third or fourth of May, when numbers, including himself, were arrested by the military. He explained to the officer in charge of the troops that the manager of the mine was absent and property interests depended upon him. Major Morton replied that martial law had been declared and he would have to go to Wardner. He heard Morton order the troops to break into his house. Soldiers broke in the door. He noticed other instances of similar character. He testified to the general harsh treatment suffered by the arrested miners at the hands of the troops. There was no necessity for the soldiers, he said, as civil process could have been served.

A Surprise Party.

Yesterday was the thirtieth anniversary of the marriage of Mr. and Mrs. L. A. Nelson and last evening a number of their friends and neighbors planned a surprise party in honor of the event. The evening was pleasantly occupied with games and social converse and an elegant repast was also served. A most delightful time was had and Mr. and Mrs. Nelson proved to be splendid entertainers even though they were taken entirely by surprise. At a late hour the merry party disbanded wishing Mr. and Mrs. Nelson many happy returns of the anniversary.

LOAN OFFICE.

Simpson for loans on all kinds of collateral security. Also for great bargains in unredeemed watches. 209 south Second street, near the postoffice.

Meet me at 8 o'clock to-night at L. B.'s free turkey lunch in Melini & Eakin's retail department.

Death at El Paso.

Rev. Thomas Harwood came up from El Paso last night, bringing with him the body of Sylvester Garcia, aged 54 years, who died early yesterday morning at the above place. Mr. Garcia, a minister in charge of the Junior work of the Spanish-Methodist church,

SHAMROCK DAY!

How it Was Observed in English Cities.

Queen Victoria Wore Green Emblem To-day.

Cold Weather for March in Eastern and Northern States.

WEEKLY BANK STATEMENT.

Bank statement.

New York, March 17.—Today's bank statement is as follows: Received, decreased, \$293,950; loans, decreased, \$11,311,400; specie, decreased, \$1,403,100; legal tenders, decreased, \$1,372,000; deposits, decreased, \$15,243,000; circulation, decreased, \$62,500. Banks hold \$2,696,425 in excess of reserve.

Banker's Life Insurance.

G. H. Adams, representing the Union Mutual Life Insurance company of Portland, Maine, with headquarters at Phoenix, Arizona, and who has been here on business the past few days, will leave for Gallup to-night. John Blackett, the engineer whose tragic death occurred at Luna station on the Santa Fe Pacific on Wednesday night, carried an insurance on his life for \$2,000 in the company represented by Mr. Adams, and he goes to Gallup for the purpose of holding a conference with the bereaved wife in order that an early payment of the policy might be forthcoming.

DELEGATES FOR SOCORRO.

Bernalillo and Socorro County Delegates to the Convention.

The Bernalillo county delegates to the territorial republican convention at Socorro, with the exception of Hon. F. W. Clancy, who was detained on some legal matters, left the city for Socorro in a special Pullman coach this morning. The delegates composed the following well-known politicians and citizens: Alejandro Sandoval, E. A. Miera, F. A. Hubbell, A. A. Keen, W. B. Childers, T. A. Finical, J. Ma. Sandoval, C. M. Foraker, Thomas Hughes, Policarpio Armijo, Esquibel Baca, J. W. Hall, Sheriff T. R. Hubbard held the proxy of Mr. Clancy, and of course accompanied the delegation.

The delegations from San Miguel, Guadalupe, Taos, Rio Arriba, San Juan, Colfax, Union and Santa Fe, all northern counties, came in from the north last night and continued south to Socorro with the Bernalillo county delegates this morning.

Col. J. Francisco Chavez, of the Valencia county delegation, who was here the past few days, was also on the train southward bound to Socorro.

The attention of every voter and lover of justice is called to the subject of the sermon at the congregation church to-morrow morning, i. e., "Sunday Observance," with some timely applications to matters in our own community. In the evening, the pastor will read the account of Mr. Moody's last hours as told by his son, and will note the testimonies it gives to the Christian religion.

Congregation Albert have taken possession of their new temple, and the furnishings were moved to-day from the temporary quarters on Gold avenue into the new edifice.

A competent pianotuner can be found at Brockmeier's bicycle, kodak and music store, 216 and 212 South Second street.

Frank Lewis, who was reported seriously ill with pneumonia the other day, is much better to-day.

THE PHOENIX!

GRANT BUILDING.

OUR SPECIAL SALE OF LADIES TAILOR-MADE SUITS IS STILL ON.

While a great many have already been sold, we have still enough to supply a reasonable demand for several days. This is the handsomest line of suits ever brought to Albuquerque, and samples are always better than the real thing. If you are going to buy a Tailor-Made Suit this Spring come in and look at this beautiful Sample Line. We have them in all the new Spring Shades. Style and Fit are Perfect. If you don't get your coupon with each purchase of 50c or more, ask for it, and secure one of those ELEGANT PRESENTS WE ARE GIVING AWAY.

WASH GOODS DEPARTMENT.

Now is the time to buy your Summer Wash Goods. First—Because the stock is full of all the new and pretty things, suitable for warm weather wear, and second, by the time you get them made it will be time to wear them. If you will come in and see the beautiful assortment we are showing, such as Fen de Role, Silk Gingham, Japanese Kinkies, Irish Flannels and Organdies, also our Percales, fine Scotch Gingham, etc. You will have no trouble in being suited.

Be sure to get your coupons with each purchase of fifty cents or more.

WHITE GOODS DEPARTMENT.

We received our new embroideries only a few days ago. They are indeed pretty. A great many of them are in sets, three or four different widths of embroidery and insertion to match, just the thing for trimming fine linen underwear. The prettiest line of all over in the city.

In White Goods we can surely please you. Fine White Flannel in cords and welts, White Duck, Nainsooks, plain or checks, India Linens, Persian Lawns, Victoria Lawns, Long Cloth Dimities and Organdies in a great variety and at prices that will interest you.

Shamrocks for the asking on St. Patrick's Day.

ALBUQUERQUE, — MONDAY, 17, 1908
The British idea of civilization in
South Africa is the extermination of
the Boers.

The successful treatment of low
grade ore is what is bringing the min-
ing districts to the front.

The Topeka Capital this week has
"devil" about the establishment. He
is called the "galley boy."

Give The Citizen your job work.
Prices are as low, compared with stock
used, as can be obtained in any print-
ing office in the southwest.

The trade of the United States with
Japan, China and Hong Kong during
the fiscal year 1907 aggregated \$3,306,
000, of which \$1,515,000 were imports
and \$1,791,000 were exports.

As is well known, glycerin is a by-
product of soap and candle factories,
and something like 40,000 tons of this
commodity are made yearly. The South
African war has resulted in an increased
demand for glycerin.

General Coxey of army fame is get-
ting rich by the operation of a stone
quarry near Mason, O. His political
ambition keeps pace with his for-
tune and he may be able to buy a sena-
torship and then walk on the grass at
Washington if he wants to.

Money is getting so plenty that along
the line of the Pennsylvania railroad
it is found impossible to put out the
money in the savings fund of the em-
ployees at the old rates and interest has
dropped from 4 per cent to 3 1/2. The
rate of lower interest is gradually com-
ing in all over the country.

It is estimated that forest fires in the
state of Washington have burned over
areas that would have yielded 40,000,
000,000 feet of lumber, enough to build
the cutting capacity of all the sawmills
in the United States for two years. The
value of the trees destroyed is placed
at a low estimate, at \$30,000,000.

Senator Dewey of New York uttered
some great truths when he said: "I am
convinced that one-half of all charita-
ble efforts are productive of more
harm than good. They encourage pauper-
ism and encourage paupers to remain
as such. The worst form that charity
can take is when it pauperizes the
recipient."

If President Kruger of the Transvaal
republic had applied to the powers for
arbitration before he ordered his arm-
ies to invade Natal and lay siege to
Ladysmith and other British cities he
might have won his fight without
striking a blow. But it is too late now
to talk about intervention on any basis
except complete submission to Great
Britain.

United States Senator Elkins, of
West Virginia, says that there is no
basis for the report that he is being
considered as a possible candidate for
the vice presidency. "I have heard that
my name has been mentioned in connec-
tion with the matter," he told an in-
terviewer the other day, "but I have no
desire to be a candidate for the vice
presidency, and I do not expect to re-
main in the senate."

"There are in round numbers some
250,000 Indians in this country," said
also Bettie Reed, superintendent of
Indian schools, "and the government
has upon the various reservations
about 250 boarding and day schools, in
which over 2,000 teachers are employed.
The work is divided, a part of each
day being spent in study and a part in
industrial work. The girls are taught
to become good housewives, and are
instructed in all that pertains thereto;
while the boys are taught farming and
the ordinary industrial arts."

When President Harrison was de-
feated for reelection the country was
in a prosperous condition. Nearly all
the mills were running full time and
wages were good. It was difficult to
believe that the wage-earners in any
number would vote for a change. But
they did. The democrats piled up some
of their large majorities in sections
dotted with mills and factories. A
great many wage-earners listened to
promises that times for themselves and
everybody else might even be better,
and they voted to usher in a condition
of things, which, instead of helping
them, swamped everybody.

STANDARD OIL LOBBY
The Standard Oil company is said to
have a powerful lobby at Washington.
The Standard is carrying on a fight
first, to have the French reciprocity
treaty ratified; second, to have Quay
seated, and third, to have Clark re-
tained in his seat.

The Standard favors the treaty be-
cause it provides for a reduction of 50
per cent on American oil imported
into France, the present duty being al-
most prohibitive.

Under the new treaty a great market
would be opened to the Standard. The
statement has been made that the
company would profit to the amount of
\$5,000,000 a year.

FOR MAYOR
The republicans of this city will nomi-
nate Mr. Alfred Grunsfeld for mayor.
He is one of the pioneer merchants of
the city, a reliable and enterprising
man. In his younger days he was a
democrat but three years ago came out
for McKinley, protection to home in-
dustries and sound money. Mr. Gruns-
feld if elected will favor public im-
provement, and there will be his share
toward building up the city by erecting
a \$30,000 business block to be used by
his firm for their wholesale business.
Mr. Grunsfeld will favor the building
of the Coal Avenue bridge, and in re-
gard to appointments will be guided by
the caucus of republican aldermen and
the best interests of the city.

AMERICAN ROYAL
Prof. Sumner, of Yale college, takes
his pen in hand to tell the readers of
an eastern magazine that 90 per cent
of American families are unhappy, and
that if they could have their lives to
live over again this great majority of
men and women would not marry.

As a matter of fact, there is no ex-
cuse for making such assertions as
these. When the American home, with

EVERYBODY IN THE DISTRICT HAPPY.

Work is being pushed on the Victor
group. Development work has been com-
menced on the T. S. K.

The Victor group and T. S. K. are
under lease and bond to W. C. Fletcher
Smith has disposed of the Dory Elliott
and Ajax, situated in
Media canyon, to W. C. Woodard.

Jacob Tazewell has transferred a
claim to A. Kornhub. Consideration
not made public.

The statement comes from unques-
tionable authority that the Crown
Point deal was not consummated last
week, as was mentioned in various sec-
tions of the territory.

While making the rounds Saturday
morning we were shown some good
specimens of lead and copper taken
from mines near Socorro by Judge S.
W. Young, who with a party of friends
was down in that district last week.

This morning we saw some of the
Lone Star mine and cross-cut tunnel.
Rock has been broken and extracted
for a distance of over 370 feet in the
working tunnel. Fifty feet of shaft
has been sunk from the lower level and
will soon connect with the cross-cut
tunnel.

The work of stretching the electric
wire from Madrid to Albemarle is be-
ing pushed as rapidly as possible, and
unless failed is caused by a scarcity of
material the line will be finished
next week. A large part of the new
machinery has been adjusted in the
mill and it is expected to be in op-
eration by the 15th of April the entire plant
will be in operation by means of electric
power.

The Northland claim, situated in
Perita canyon, has been transferred
by George Ostrander to a party of
Cripple Creek capitalists. The rock
now being taken out is said by min-
ers to be the same as was worked at
Cripple Creek. Development will
commence at once. The discovery
caused quite a little excitement in min-
ing circles. Indications point to a great
future for the mine.

The latest of the big enterprises re-
cently projected in New Mexico by
eastern capitalists is that of the Co-
chiti tunnel. The purpose of the pro-
jectors is to follow the main vein,
which averages fifty feet in width, into
the center of the mountain, and
thence to the surface at a point near
the mine. The company expects to
before \$10,000 has been expended the
tunnel will pay its own way, from the
big veins and numerous spurs, some of
them being very rich in silver. The
work will go to the eastern cities to
further interest in the big scheme.

The island mill is in the midst of a
test run, concentration of the tailings
being the main item under consid-
eration. This run, as well as the re-
cently made by the Navaho Gold Mining
Co., is for the purpose of determining
the best method to be used in the treat-
ment of ore in the new mill which will
be under construction.

The company began this test on the
6th of the present month and will con-
tinue until the 21st, after which a
leaching test will be made. The ore
from each level of the Lone Star mine
are mixed and when the tests are com-
pleted the company will be able to de-
cide which process of treatment will
be installed in the new 100-stamp mill.
Last Saturday the Cochiti Reduction
and Improvement company purchased
the Iron King mine in Pino canyon.
There were several bids made. The
price paid by the above company was
\$24,000. This mine is among the first
to be developed in the district, while
a great amount of development work
has been executed the values obtained
from numerous assays show remark-
able returns. Manager W. C. Wynkoop
of the Cochiti Reduction and Improve-
ment company, was in the district
part of this week and let a contract
to parties to run a 200-foot drift in a
southerly direction from the bottom of
the shaft in the Iron King. The ore
thus extracted is being hauled to the
mill plant at Woodbury, which will
be used for the purpose of testing the
machinery in constant operation. The
company stands ready to pay the
Cripple Creek schedule for all cus-
tomers.

On his claims in Media Canyon
Olive Springer has accomplished a
considerable amount of development
work. He is the owner of three good
mines, the Elliott, Ockee and the
Rodeo. About 50 feet of tunnel has
been driven from the Elliott, and during
the last few feet a splendid looking
quartz was encountered. It resembles
in color the ore taken from the famous
Lone Star, and all probability when
the owner has driven about 150 feet in
this tunnel the owner will have reached
a vertical depth of 600 feet. Mr. Springer
has sunk a shaft on the Occidental
about 50 feet and the value of the mi-
nerals increase very materially with
depth. At a point several feet north of
the shaft and at a depth of less than
two feet from the surface, the owner
uncovered some fine specimens of
quartz. This strike was made about
five weeks ago, and several specimens
of the rock were immediately shipped
to experts for investigation. Nothing
more was learned until a few days ago
when Mr. Springer received the cheer-
ing information that the specimens as-
sayed \$145 in gold and three ounces
silver. The jubilant owner is very much
encouraged by the results and
anticipates the possibility of com-
mence operations at that point with a
force of practical miners.

Mr. J. E. Lilly, a prominent citizen
of Hannibal, Mo., lately had a wonder-
ful deliverance from a frightful death.
In telling of it he says: "I was taken
with typhoid fever, that ran into
pneumonia. My lungs became hard-
ened. I was so weak I couldn't even sit
up in bed. Nothing helped me. I ex-
pected to soon die of consumption,
when I heard of the New Dis-
covery. One bottle gave great relief.
I continued to use it and now am well
and strong. I can't say too much in
its praise. This marvelous medicine
has cured me and I feel that it is the
world for all throat and lung trouble.
Regular sizes 50 cents and \$1.00. Trial
bottles free at J. H. O'Reilly & Co.'s
drug store. Every bottle guaranteed.
