TALK OF PEACE!

Boers Routed and Discouraged by Defeats.

Presidents Kruger and Steyn at a Battle.

British Naval Brigade who Defended Ladysmith, at Durban.

SENATE WILL AMEND TREATY.

London, Mar. 9.—From various sources come signs of the possibility of peace in South Africa being shortly within the bounds of practical politics. All dispatches from Lord Roberts' headquarters indicate the lack of a guiding spirit among the Boers, and individual demonstration, pending disintegration unless speedily stemmed. The flight of the burghers from Poplar Grove, according to all accounts, was wholly unimportant. A Times dispatch from Poplar Grove, under yesterday's date, asserts that the rout of the Boers was complete, that the submission of the Free State is being demanded by the burghers from an unwilling president, and it is expected that submission will be made within a week. The correspondent adds: "Probably the Boers' worst course was flight, but as it was most unadvised, it is certain to cause consternation at Bloemfontein. There is a growing outcry against further identification of the Free State with the Transvaal's interests."

Dispatches from the Boer camp at Glencoe depict President Kruger donning a bandolier, seizing a rifle, and inviting volunteers to accompany him, as he wished to have a shot at the enemy himself. Kruger is also quoted as having declared in an address to the troops that he "did not know whether arbitration or intervention would end the struggle, but that it would end quickly, within the next month, he strongly believed."

Pretoria Preparing for Siege.
London, Mar. 9.—Lord Roberts has moved ten miles nearer Bloemfontein, evidently with a view of utilizing the railroad, possibly to reach the Free State capital in three or four days, whence he may begin repairing the railroad southward, meeting the British advance from Cape Colony, which may be expected to be hastened soon as General Buller takes control. The British occupied Janse van Rensburg, March 8, and the Boers are reported retreating beyond Allival North, so that Cape Colony is practically clear of armed Boers.

Reinforcements from Natal are going to Lord Roberts. General Warren's division and some artillery have already been ordered to join the commander-in-chief, so the latter is preparing for all eventualities of a possible desperate opposition to his crossing the Vaal river and the siege of Pretoria, where thousands of natives are reported to be employed in the construction of defensive works, concerning which secrecy is maintained, no one being allowed to walk or drive on the outskirts of the town.

Boers Routed.
London, Mar. 9.—The war office has received the following dispatch from Lord Roberts:

Poplar Grove, Friday.—Presidents Kruger and Steyn were both present at the fight March 7, and did all in their power to rally their troops. The rout, however, was complete, the men declaring they could not stand against British artillery and such a formidable force of cavalry."

British He.
Durban, Mar. 9.—The naval brigade of 200 men from Ladysmith arrived to-day in command of Captain Lamberton. They were enthusiastically received.

Fears Fanned.
London, Mar. 9.—Late this afternoon it is learned that the peace rumors are founded on the fact that President Kruger has expressed to Lord Salisbury for a cessation of hostilities, offering at length by cable the terms he is willing to accept. These, however, are not taken seriously, as they include practically nothing more than what Transvaal government offered prior to the issuing of the British ultimatum. Official circles here regard the proposition merely a ploy to gain time, and do not consider that Kruger is yet ready to consider the sweeping demands Great Britain will make as reimbursement for the loss of life and great expenditures. It is understood that Kruger's advances met emphatic rejection at the hands of Salisbury, who is believed to have said that no such attempt to retain the independence of the Transvaal can be considered for a moment by the British government.

NICARAGUA CANAL.

Senate Will Amend Treaty With Great Britain to Protect Canal.
Washington, Mar. 9.—The senate committee on foreign relations today agreed on the report of the Hay-Puncoforte treaty amending the Clayton-Bulwer treaty with an amendment granting authority for the defense of the canal by this country when constructed.

The foreign relations committee was practically unanimous in favor of the amendment. Some objection was made by Senator Morgan (Alabama), but he will accept the change in order to hasten action of the senate. A quite elaborate report has been prepared by Morgan, which will be submitted to the senate at the executive session when the treaty is reported. It is the opinion of members of the senate that the change will cause but little delay. The amendment simply provides that the restrictions of the treaty shall not operate to prevent the United States from using its own forces for defense of the interests of the United States and maintenance of order.

Announcement to the Ladies.

Owing to the limited space of my store-room, I have concluded to force the usual enjoyment of a spring millinery opening this season. Last spring fully demonstrated the impracticability of doing justice to all the display of my exquisite stock of millinery and pattern hats, and in order that each and every lady may have the same opportunity this spring, I concluded to take this method. My goods, constituting, without exaggeration, the finest and best ever brought to this city, are now arriving direct from the east, after a personal visit and inspection of the latest styles of a possible desperate opposition to his crossing the Vaal river and the siege of Pretoria, where thousands of natives are reported to be employed in the construction of defensive works, concerning which secrecy is maintained, no one being allowed to walk or drive on the outskirts of the town.

The case of Patrocinio Chavez against Pablo Munoz, on the charge of assault with a deadly weapon was aired this afternoon in Judge Crawford's court. Testimony was heard from a number of witnesses. The complainant alleged that the defendant threatened personal violence at a dance in Rancho de Atencio last Tuesday night, but there was not sufficient evidence produced to justify the assertion. The judge dismissed the case.

PUERTO RICO AID!

Bill Donating Custom Dues of Island.

House Considering Many Private Pension Bills.

Ameer of Afghanistan Offers to Help the British.

NEW BRITISH WAR LOAN.

Washington, March 9.—Allison, Iowa, reported from the committee on appropriations the hour bill making appropriations of the customs dues exacted from Porto Rico for October 15, 1898, to January 1, 1900, amounting to \$2,000,000, and gave notice that he would call it up tomorrow. He said as a measure well understood he hoped it would lead to no extended debate.

Mason called up his motion to discharge the foreign relations committee from further consideration of his resolution expressing sympathy for the Boers.

Davis, chairman of committee on foreign relations, moved that the doors be closed and the senate went into executive session.

Considering Pensions.

Washington, March 9.—Under the new rule adopted yesterday setting aside the second and fourth Fridays of each month for consideration of private pension bills, the chairman of the committee on invalid pensions moved that the house go into committee of the whole for consideration of private pension bills. Talbot, N. C., made the point of no quorum. Many absentees arrived during the call, which showed 218 members present. This house in committee of the whole then proceeded to consideration of private pension bills.

Will Help the British.

London, Mar. 9.—The Ameer of Afghanistan has authorized his agent in London to publish the following statement of the policy of Afghanistan towards Great Britain and Russia. After saying that he had devoted much anxious thought to the possibility of Russia taking advantage of the Transvaal war to advance through Afghanistan and India, his highness said:

"I have come to the conclusion that Russia feared Afghanistan, as war with the Afghans would mean a general rising of all Islam, which would spread through Russian Asia. Russia had not troops enough to combat such rising. Her hold on the Musulman countries she has conquered is insecure. They hate her, and with ten times her power, Russia could not fight Afghanistan and India successfully. The Afghans prefer death to slavery, and their women and children being made by Russia. I am always saying that he is willing to send numerous troops to help Great Britain in the Transvaal, but adding that the Afghans are unacquainted to the Ameer adds: 'But England's troubles are always my troubles; her strength is my strength, and her weakness is my weakness. England must remember that I am always ready to fight for her on land, here or in India.'"

Money for Guns.

Frankfort, March 9.—The senate today passed the Triplett resolution appropriating \$100,000 for the purpose of equipping the state militia and recovering the arms and equipments removed to London.

After being in secret session nearly two hours, the senate proceeded again to open legislative session.

Lindsay (Ky.) made a speech in opposition to the Porto Rico tariff and government bill.

Valencia County Killing.

This morning Juan Mestas was taken to Los Lunas by Deputy Sheriff Eliseo Barea and Equitania Romero. Mention was made in The Citizen the other day regarding the killing of Samuel Sandoval, and the capture of his companion, Juan Mestas, but the entire particulars were not learned. It now appears that Sandoval and Mestas were engaged in a quarrel with residents of Atarque, a village some seventy miles from Grants station, which ended in a shooting affray, and when the participants were called upon to surrender by the officers, they renewed the battle. When the smoke cleared away it was learned that Sandoval was killed and several persons were injured. Mestas will probably be given a trial at the present term of court.

Arbor Day.

Arbor day was most generally observed in this city today. A holiday was given at the New Mexico university, and the students put in the morning and afternoon hours in planting trees on the University grounds. At the public schools the morning hours were devoted to Arbor day exercises, while a holiday was given in the afternoon and the pupils indulged in the planting of trees and vines at the various schools. Mrs. J. S. Wroth, Mrs. E. S. Stover, Mrs. G. L. Brooks, Mrs. P. H. Kent and others furnished the scholars with a large number of plants and vines, for which they received the thanks of both scholars and teachers. Parents of the public school scholars also sent plants and vines.

Fine Entertainment.

Several hundred people went over to Orchestra hall last night to attend the entertainment as given by the Estrella society. A splendid program had

been arranged and the players acted out their parts in a thorough theatrical like fashion. Every player appeared at his or her best, and the entertainment was really beyond all expectations. The cast of characters were as follows: Tom Lawrence, the major's nephew, Joe Scott; Major, Edward Hart; the major's daughters, Misses Larkin and Hazeldine; the niece, Miss Edgings; Peggy, the housemaid, Miss Elizabeth Hughes; Dr. Briggs and Dr. Crosby, by Louis Becker and Loma Shields; and James, the butler, Harvey Ritter.

A beautiful piano duet was rendered by Misses Hart and Krawinkel. Mandolin and guitar duets were played between the acts by Misses Hill and Butts.

SURSEY HERE.

The New Severy Has Arrived and is in Position.
The special car containing the scenery for the new theatre came in attached to No. 17 last night. It was immediately unloaded and hauled to the theatre, where Stage Carpenter West and his crew started to place it in position at once. When the great main drop curtain was in position it was pronounced by several gentlemen who had gone to the theatre to see it, as the finest piece of work in the art of scenic painting that they had ever seen. Everything will be in readiness for Saturday evening.

Through the appropriate observance of Arbor Day, the planting of trees on the campus, is impracticable at present on account of the water supply, the University, in accordance with our governor's proclamation to the schools of the territory, observes it as a holiday.

ALBUQUERQUE, — MARCH 9, 1909

Since the close of the civil war \$100,000,000 has been spent in the South for negro education.

There are many indications that the city will double in population within the next two years.

The Republican conventions held in this territory this year have all declared for statehood.

The Republicans held a harmonious meeting last evening and began arrangements for the city campaign.

Both parties are urged to select their very best men for city officers. They will have much to do the coming year.

The estimated cost of the projected memorial bridge across the Potomac at Washington is \$1,000,000 to \$2,000,000.

The average number of horses killed in Spanish bull fights every year exceeds 1,000, while from 1,000 to 4,000 bulls are sacrificed.

A large majority of the people of this city are opposed to Sunday theatricals, and managers of shows should arrange their dates accordingly.

It is estimated that there are 50,000 settlers more than last year in Manitoba and the British territories, and of these about 15,000 are Americans.

The manufacture and use of false teeth is undoubtedly a practice of much antiquity. The ancient Egyptians were no mean dentists. Jawbones of mummies have been found with false teeth in them, and also with teeth filled with gold.

The nation's stock of gold and silver certificates has increased 61 per cent since the inauguration of President McKinley. In view of the present state of the country a free silver speech is as sounding brass or a tinkling cymbal.

Mormonism is bearing fruit in western Valencia county, where a colony of the saints have located. One of the Mormon wives of the village of Ramah tried to run away with a gentile. This has led to two murders in that neighborhood within the past few days.

The city Republican central committee will hold a meeting next Monday evening at the law office of F. W. Clancy, to issue a call for primaries and convention to nominate city officers. Republicans of the city are invited to attend the meeting of the committee on Monday evening.

It is computed that the interest payments that became due March 1 amounted to \$11,776,968, against \$11,252,367 last year, and dividend payments during March \$14,470,597, against \$10,381,573 last year. Including pension and miscellaneous payments, the disbursements for March aggregate about \$25,000,000.

Rural free mail delivery will be greatly simplified and cheapened by a device just introduced in Maryland. It is a sort of cross roads postoffice. The carrier does not stop at the farms off from the main road, but at convenient places he leaves the mail in cases containing a number of lock boxes. The back of the case is opened by the carrier and each farmer's mail is put in to the proper box. Then the farmer goes over to the place at his convenience, unlocks his individual box and takes out his mail. One carrier can accommodate a large district with the aid of a few of these "cross roads automatic postoffices."

FILL THAT DITCH.
A few days ago The Citizen strongly urged the filling up of the ill-smelling open ditch in the center of the city, which has been a menace to health for many years. The suggestion met with general favor, and this morning the Journal-Democrat has an article voicing the sentiment of the community. It is estimated that it would cost less to fill up this open sewer than it does to try to keep it clean during a single season. Half the sickness in the city can be traced directly to this foul ditch. Let's elect a city council who will forever dispose of the nuisance.

CANNOT BE DENIED.
According to Alderman Burkhardt, who has carefully studied the subject, the drainage ditch through the city cannot be filled up. In 1881, the New Mexico Town company contracted with the owners of the Las Alamos aqueduct to dig a drainage canal and straighten the irrigation ditch through the city. The present ditch is used by the irrigating company as an outlet for the water used by them. The Town company sold the lots and the ditch subject to this contract. When the city was incorporated it assumed the obligation to maintain this drainage ditch. Mr. Burkhardt informs The Citizen that all the members of the city council would be glad to fill up the ditch if they could legally do so. It has been their intention to build a brick sewer the entire length, but the financial condition of the city has prevented this work.

Throat Troubles

"Barwell, Ky., where I live, is in the extreme western part of the State and only a few miles from Cairo, Ill., where the Ohio empties into the Mississippi River. It may be that throat troubles are common here because of location, but, whatever the reason, I find it wise to constantly keep a supply of Chamberlain's Cough Remedy on hand. It is the best I have ever used for coughs, colds and throat troubles, and I have used it in my family for years. No throat trouble can be depended upon to be cured, but just as soon as the throat begins to get sore, I will give her a few drops, and she will certainly be well again. I expect to write another letter in a short time saying my wife is cured, for I feel absolutely sure it is what she needs." (Signed) T. A. WHITE, Sold at 25c.
