SMART FIGHTING!

Gen. Brabant's Army Engaged the Boers.

Gen. Gatacre Enters Stormberg With His Army.

Boer Position at Osofontein Described as Weak and Untenable.

BRITISH PRAISE COLONIAL TROOPS.

Dordrecht, March 5.—General Brabant engaged the Boers today with advantage. There was some smart fighting this morning. The British losing five or six men and capturing a Boer fort, thus vastly covering their position. The Boers fought tenaciously, contesting every inch of the ground, but ultimately retreated suddenly, carrying off their guns and wagons. A mounted force pursued them, but the result is not yet known. The British casualties during the two days were twelve or thirteen killed and thirty wounded. The Boers' loss is unknown. Throughout the severe fighting, colonial have behaved splendidly.

Severe Storm Near Ladysmith.

Ladysmith, March 5.—Three regiments of cavalry recouplinging northward today saw a body of Boers behind Popworth hill. Two long trains ready to leave promptly moved before the troops reached them. The Boers blew up a culvert behind them as they went. The British pressed a large body of Boers in the vicinity of Popworth. The Boers opened a heavy rifle fire and did not press the attack and the Boer fire ceased on the British retreating.

Boer Position at Osofontein.

Osofontein, March 5.—The Boer position has been fairly located about four miles to the British front, extending about eight miles. The Boers' right consists of a high, steep mountain on the north side of the river, which General French shelled this morning. Apparently the space between the mountain and river has been entrenched. South of the river the Boers have more ground. A few days ago their left rested on high kopjes standing in the middle plain. They have now extended two miles further south, while six small kopjes stand in the plain between the center and left and the center and the river, forming a ridge behind which the Boers move unseen. The weakness of the whole position, however, is that it can easily be turned in either direction.

Natal Cleared of Boers.

London, March 6.—The war office has received the following dispatch: From Lord Roberts, "Osofontein, March 6.—General Gatacre occupied Stormberg yesterday. The lines of railroad northwest will now be repaired. General Clements is at Johannesburg, a station beyond Colenso. Duke Marlborough with the Oxford company of the Imperial Yeomanry has left Cape Town for Naauwpoort. General Buller reports Natal now peaceful. The line of the enemy and he cannot hear of any formed body of them anywhere. The Boers left some ambulances full of their sick, from which the Boers had been taken for transport service."

British Enter Stormberg.

Stormberg, March 5.—General Gatacre entered Stormberg unopposed today. The Boers destroyed the railroad approach, but the station is intact. Boers are retreating from Cape Colony. London, March 6.—The Boers in northern Cape Colony are in full retreat to the Orange Free State. The possession of Stormberg puts General Gatacre in railroad communication with General Clements at Colenso; for, though the Boers partially wrecked the railroad, it is understood that it can be quickly repaired and thus entrance of additional British troops into the Free State will be greatly facilitated. The position gained by General Brabant at Dordrecht is reported to be exceedingly strong. According to a Times correspondent, the Boers numbers alone enable them to retreat from Dordrecht unharmed. He also reports that the Boers deliberately fired at close range on a stretcher party. General White's garrison has begun to arrive at Mool

SEVERE STORM.

Several States Visited by Snow and Rain.

Yaqui Indians Lay Siege to a Mexican Town.

Kentucky Democrats Sustain the Infamous Goebel Election Law.

COLLEGE PROFESSOR COMMITTS SUICIDE.

Chicago, March 6.—For thirty-six hours the states of Illinois, Minnesota, and Wisconsin experienced storms remarkable for severity. The center of the storm appears to have been through Wisconsin and Illinois, along Lake Michigan, where the heavy snow changing to hail, then to rain, accompanied by a gale, resulted in the partial demoralization of the telegraph service and badly crippled the railway service. Today the Ohio valley and the lower lake region is being drenched with rain, driven in perfect fury by a fierce wind. There is some danger of Chicago's water supply being partly cut off as all the intakes are hemmed in by a perfect mountain of ice.

Yaqui Indians Besiege a Town.

Potomac, Mex., March 6.—Yesterday the Yaqui laid siege to Cocorit and captured Yegua, a mile below. They will attempt to burn Cocorit if it holds out beyond tomorrow. Mail communication between Potomac and Guaymas has been stopped. Today twenty-seven Yaqui fired upon 200 Mexican soldiers on the road between Potomac and Torin and then disappeared. Between Potomac and Torin, fifteen miles distant, fifteen bodies are hanging to trees, fourteen being Yaqui, and two Mexicans. An expedition of 600 men has left Potomac to open the road to Cocorit and great fighting is expected.

Case of Quay.

Washington, March 6.—Simon, (Oregon) called up in the senate his resolution on seating former Senator Quay. He addressed the senate in answer to the speech of Carter, delivered yesterday, in which the Montana senator had referred to reasons which induced him to vote against Quay, who was the appointee of the governor of Oregon. He said that Carter made the distinct charge that Quay had corrupted the legislature and defeated the desire of the people of Oregon. He could not, he said, permit this "unjust and untrue charge to go unchallenged."

Treaty With France.

Washington, March 6.—The senate committee on finance today discussed at some length the policy to be followed in reference to the French-American reciprocity treaty, and reached the conclusion to support Aldrich's motion in reference to the treaty to that committee before the senate acts upon it. The committee will ask for opportunity to consider the document solely on the ground that it deals with the question of revenue.

Kentucky Democrats Sustain Goebel.

Frankfort, Ky., March 6.—The house by a party vote killed the bill introduced by Representative Hawell, Rep., in which he proposed the repeal of the Goebel election law.

Trial of Alleged Assassins of Goebel.

Frankfort, Ky., March 6.—The court house was packed today at the examination trial of Harry W. Whitaker, on the charge of assassinating Governor Goebel. All the witnesses today were those participating in Whitaker's arrest, including detectives.

College Professor Commits Suicide.

Bangor, Maine, March 6.—Prof. F. L. Harvey, of the Bangor university, shot and killed himself today. He was suffering from mental troubles resulting from overwork.

British Ambassador.

London, March 6.—The Associated Press learns that the British government has decided that Lord Pauncefoot shall remain ambassador at Washington indefinitely.

Price of Sugar Reduced.

New York, March 6.—The American Sugar Refining company reduced the price on all its sugars 10 cents per hundred pounds. This brings the price of standard granulated sugar from 5.20 to 5.10 cents a pound.

Alabama Election Case.

Washington, March 6.—The house consideration of the Aldrich-Robbins contested election case from the fourth Alabama district, Robbins, sitting member, Democrat, took the floor for an hour in defense of his right to the seat.

Back from Hell Canyon.

F. H. Kent and wife, who enjoyed Saturday and Sunday in the Hell canyon mining district, sorting out gold nuggets from the commodore's placer fields, returned to the city yesterday. Mr. Kent states that the city is steadily progressing on half a dozen good claims in the above district, and that some extra good ore is being brought to the dumps. He is well pleased with his properties, and is arranging to expend considerable money this year in the thorough development of them. Mr. Kent is an insurance agent, and was caught for some politics in the
