DESPERATE FIGHTING.

Constant Engagements in the Hills About Ladysmith.

Boers Holding Their Trenches Under Terrific Fire.

Fire of Fifty Big Guns on General Cronjé's Army.

BULLER ADVANCING ON LADYSMITH.

Hoofsaiger, Ladysmith, Feb. 21.—There was heavy fighting all Monday and Tuesday and it still continues since early this morning. Our officers hope to dislodge the British from their position. Last night a body of British troops tried to cross the river, but were beaten back with heavy loss. Our loss slight.

ALARMED.
Lorenzo Marquez, Delagoa Bay, Feb. 22.—The Transvaal government is reported seriously alarmed over the defeat of the Boers at Kimberley, and the retreat of General Cronjé. The newspapers are most reticent, but the Standard and Diggers News claims that Cronjé's movement is beneficial, as it increases the mobility of the burghers army, enabling it to conduct more effective operations on a carefully prepared plan. There are persistent reports that the seat of the Free State government is being moved to Wynburg. It is said 6,000 burghers have been sent from Ladysmith to Bloemfontein.

REVEALS SKIRMISH.
Arundel, Feb. 22.—Colonel Henderson's squadron, Inniskillins, with two guns, reconnoitered westward to Moolfontein farm on the direct road to Colenso and Hanover. They got close to the Boers in the hills and were fired on. They quickly got the guns in position and shelled the hills. Eventually the Boers were driven out, retreating northward, when they came under the fire of two other guns supported by a company of Australians, near the British western post on Dragon Hill. Colonel Henderson proceeded to Moolfontein farm, which he now occupies. British patrols from Hanover also came out that far. The Boers are not in great force. They have been persistently followed all day and have withdrawn considerable distance northward.

CRONJÉ MUST SURRENDER.
London, Feb. 23.—Every hour is expected to bring news of Cronjé's surrender. With fifty guns bearing upon his devoted band, within a terribly short range, 3,000 yards, surrender or utter annihilation can be the only result unless all reports of the strength of the Boer reinforcements are wrong. Even an unexpected strong attack on Lord Roberts' lines of communication could scarcely, according to experts, materially alter the result.

The severe losses incurred by General Kelly-Kenny on Sunday has produced some adverse criticism, but it is pointed out that had he fought less furiously he would have given the Boers an opportunity of entrenching themselves and perhaps effect further flight to a more advantageous position.

Buller's progress toward Ladysmith is now so slow that it scarcely appeals to the public interest. General White appears to be endeavoring to assist Buller by vigorous bombardment. Advice received at Cape Town yesterday said it was reported that the British were gradually driving the Boers out of northern Cape Colony.

CHOSSED THE TUGGLE.
Colenso, Natal, Feb. 21.—The British crossed the Tugela over a pontoon bridge north of Hlangwana, and now occupy Fort Wylie. While the naval brigade was bombarding Gribbler's kloof, the Boers big crescent gun replying, yes, today after the occupation of Colenso, a small party of Thorneycroft's horse crossed the river but were driven back by fire from the trenches. The Boer guns are still shelling the relieving force from the hills.

PUERTO RICO TARIFF.

House Debating Revenue Bill For the Island Colony.

More Testimony Produced in the Idaho Mine Troubles.

Defense in the Clark Case Rest For the Present.

TAQUI INDIAN PRISONERS.

Washington, Feb. 23.—The debate on the Puerto Rican tariff bill was resumed today. Payne (N. Y.) the leader of the majority gave notice that on Monday he would move to close the general debate. Richardson (Conn.) minority leader, and Payne (N. Y.) agreed that for more time Richardson said it was impossible for him to do so. Payne said he would express his views this week. Powers said it was exceedingly important that there should be ample time to debate this important measure. For himself, he desired more light upon the subject before he voted.

Payne replied that there had been a general understanding that debate should run a week.

Jones (Va.) member of the insular committee, was the first speaker to-day. He discussed the conditions which existed in Puerto Rico, which led to the insular committee's recommendation of free trade for her goods, and quoted from the testimony before his committee to prove that the conditions were far worse now than when the president made the recommendation. He declared that only immediate relief could prevent actual starvation of many of the inhabitants. Speaking of the real motive of the bill he charged that it was disclosed by Moody, of Massachusetts, yesterday when he declared that he was unwilling that 10,000,000 Americans should enjoy the immunities of citizenship of the United States, which had been his birthright as an American citizen.

Maddox (Ga.) followed in opposition to the bill. He had read a long letter from former Representative Turner, of Georgia, for many years upon the ways and means committee, denouncing the "new theory of the constitution," upon which the pending bill was based.

Bartholdi (Rep. Me.) supported the bill and said: "Expansion is the shibboleth of the house. It has taken hold of men's minds. As lawyers and as statesmen, we wish to thank their many friends for their kind assistance and loving remembrance during the dark hours of their unexpectable sorrow."

LOAN OFFICE.
A force of carpenters and painters are at work putting on the finishing touches on the Railroad avenue building which was recently leased by L. Komenchuk. It is expected that Mr. Komenchuk will begin the removal of his stock of merchandise to the new location the first of next week, and the building he vacates will be rented by a gentleman from Denver who will conduct a merchant tailoring establishment there.

The faculty and students of the university celebrated Washington's birthday and have taken a recess until Monday next, when all members will again settle down to their school work.

CLARK CASE.
Defense Rest Their Case Before Investigating Committee.
Washington, Feb. 23.—When the senate committee on elections met to-day Mr. Faulkner, for the defense in the Clark case, declared that he had determined to rest for the present. Attorney General Nolan of Montana, was placed on the stand in rebuttal of the testimony adduced by witnesses for the defense.

Clark Nolan said he had become acquainted with Marcus Daly in 1896. Daly had never in any way attempted to interfere with the performance of his duties. Referring to the grand jury proceeding, Nolan said he told the court that the \$20,000 used by Whitehead in the exposure was evidence that it was either conspiracy on the part of Whitehead or bribery on the part of Whitehead and he insisted on a finding one way or the other.

MINE TROUBLES.
Testimony Showing That Arrested Men Were Ill Treated.
Washington, Feb. 23.—Investigation of the action of the military and civil authorities in the Cour d'Alme riots was continued by the senate committee on military affairs. Mr. W. H. Stairs, of N. Y., stated that he had been as to life in the "bull pen," and where the accused miners were incarcerated. His description was supplemented with photographs showing the prison enclosure, consisting of shanties, surrounded by a wire fence. The "bull pen" was very dirty. The men all off the ground and the food was bad. There were practically no sanitary arrangements. Witness said the mail was to be treated. Stairs also told of the guard house where he and others were held most of the time. Daly beat through and the inmates were often making well. Stairs had been transported into the ground and the officers in charge of the United States forces refused to allow Daly to be brought in. Many drunken soldiers were put in the guard house with the accused. An army officer he said ordered a corporal to take a flag from the witness and when the latter threw the flag down, the officer reduced the corporal to the ranks for not snatching it. An officer ordered the men to be treated. With severity. A heated discussion occurred among the members of the committee over the efforts of Lentz and Sulzer to introduce a newspaper into the mine with Bartlett Sinclair, senator of Idaho. The committee finally voted not to admit that as testimony.

Paris, Feb. 23.—In the senate, sitting as high court to-day, Deputy Marcel Habert, charged with inciting soldiers to insubordination at the time of the funeral of President Faure, was sentenced to five years' banishment.

CASE OF QUAY.

Senate Crowded to Hear Debate On the Question.

Anti-Imperialists Hold a Conference And Oppose Expansion.

President of Senate Presents Petition From People of Quezotzaco.

DEMOCRATIC CLUBS TO MEET.

Washington, Feb. 23.—In anticipation of a lively debate on the question of the right of Quay to a seat, spectators crowded the galleries to-day. The president pro tem, Freyre, laid before the senate the following cablegram addressed to him as president of the senate, from San Juan de Puerto Rico: "Commissioned by the people of Puerto Rico, attending a celebration in commemoration of the anniversary of the birth of Washington, request that for humanity's sake, a solution be adopted of economic problems. Every day represents considerable loss, leading to total ruin."

At the request of Pettigrew, who had been absent several days on account of illness, his resolution expressing sympathy with the fibers was placed on the calendar without discussion. The senate decided to take up the Quay case by a vote of 34 to 28.

HAWAIIAN BILL TAKEN UP.
Washington, Feb. 23.—At the conclusion of Daniel's speech, in favor of seating Quay, the Hawaiian governing bill was taken up. Morgan resumed his speech.

Washington, Feb. 23.—The conferees of the instant bill agreed, and the report was taken up. Morgan resumed his speech.

Anti-Imperialist Conference.
Philadelphia, Feb. 23.—The second day's session of the eastern conference of anti-imperialists was characterized by the adoption of a strong resolution condemning the expansion of the policy administration. During the discussion, President McKinley was severely criticized and held personally responsible for "criminal aggression in the country."

The resolution was adopted reciting the cable report from Manila that insurgents hereafter be treated as bandits and executed. This action was compared with the policy of General Weyler. Demand was made that congress immediately investigate, and if proved true, to take summary measures to prevent it.

Will Meet at Indianapolis.
Washington, Feb. 23.—The executive committee of the national association of democratic clubs to-day decided on holding the next annual meeting of the democratic clubs at Indianapolis, February 6.

"Ticket Air," Variety girls' entertainment. When you hear this don't say no, but take one, or more.

GRAND SURPRISE.

Mr. and Mrs. H. E. Fox Celebrate Their Twenty-Ninth Wedding Anniversary.

A pleasant surprise was given Mr. and Mrs. H. E. Fox at the home of their daughter, Mr. and Mrs. A. H. McElaffey, in honor of their twenty-ninth wedding anniversary. Yesterday, being Washington's birthday also, the affair was arranged that both events were honored at the same time. Progressive hearts were the guests which occupied a greater portion of the evening. The cards were colored red, white and blue, and score cards bore the picture of Washington. The first prize, a colonial hat in blouse, was won by Miss Margaret Kent, and Mrs. Dr. Wroth was awarded the second prize, a colonial orange spoon.

R. W. D. Bryan and C. K. Newhall were the victors among the gentlemen contestants, and carried away a pair of solid gold cuff buttons and a silver pocket knife respectively. At the conclusion of the card game the guests were entertained by the rendition of a few choice musical selections by Prof. Di Manno's orchestra. Refreshments were served.

Among the guests in attendance were: Messrs. Koen, Wroth, Emerson, R. W. D. Bryan, Newhall, A. Taylor, Bryan, Hathaway, Lester, and their wives, Mrs. Ferguson, Miss Kent, and Messrs. Alger, Mattson and Hamer.

Mrs. Seashell's Opinion.
The scale the Sterling piano is perfect in its regularity and evenness and in every respect a first-class instrument for the artist.

Mr. and Mrs. H. E. Fox are well known in the city and have been selling them at prices much lower than you pay for inferior goods. You will find a nice selection at our store at Broadway, 8 and 10 street, where we are permanently located.

THE MONTELEONE FIANO CO.,
Card of Thanks.
Mrs. Bowden and daughter, Beulah, wish to thank their many friends for their kind assistance and loving remembrance during the dark hours of their unexpectable sorrow.

To the Gentlemen Dressers of Albuquerque:

FASHION DICTATES that the first Spring Season of the new Century shall inaugurate many radical changes in the cut of men's garments and the textures from which they will be made. Instead of the narrow shouldered, loose-fitting garments of the past, those who aim to dress properly will wear them broad shouldered and very close-fitting. The trousers will also be an extremely different cut. The popular vest will be double-breasted with a collar. The tailoring house that we represent is on Broadway in New York City and they cater to the fine retail trade of that city and with our system of measurement it stands to reason that the most fastidious dressers can be pleased. Another thing: In our fine goods we remove the sample after an order which makes it impossible to duplicate. Our Spring Samples have arrived; also fashion plates by America's style dictator.

ALBUQUERQUE, — FEB. 23, 1900

The republicans of this territory
should get together and pool their differ-
ences.

The Cubans all have the town fever
and the planters are finding it difficult to
get enough farm laborers.

The New Mexico Insults that old Fort
Marcy is the proper place for a big mili-
tary point in New Mexico.

In addition to his other troubles, Sena-
tor Clark, of Montana, is threatening to
sue THE CITIZEN for libel.

Now that \$45,000,000 worth of water
has been squeezed out of the whisky
trust, the consumer is likely to find
more of it in the whisky.

The passion play will be enacted at
Oberammergau twenty-seven times dur-
ing the coming summer, the first per-
formance occurring May 24. A new audi-
torium accommodating 4,000 persons
has been built.

The Optic is bitterly opposing Gov-
ernor Otero, but admits that the friends of
the governor are clearly in the majority
in Las Vegas.

The Las Vegas Optic is jumping on
Governor Otero with both feet, and the
Otero followers will try to get even by
downing Catron.

In Malaga there are at least 200 days
in the year when there is not a cloud in
the blue sky. The only country in the
Western hemisphere that can equal that
record is New Mexico.

The Simon pure populists, tired of be-
ing treated as cattle by the fusion crowd,
to be delivered as occasion requires to the
politicians, have split off from the fusion-
ists and will nominate a national ticket
of their own.

PRESIDENT McKinley is going ahead
with the formation of a new Philippine
commission, to be composed of civilians,
with all the confidence of a man who
knows what he is about, and that the
country is behind his policy.

SENATOR PLATT, of New York, in an
interview relative to the coming national
campaign, gave a word of warning that
it is worthy of full consideration, and it
was that republicans should not become
over-confident. That is good advice under
any circumstances, and in the coming
campaign not more nor less than in any
campaign.

The Journal-Democrat has the only
reporter now on earth who has ever ad-
mitted that he made a mistake. When a
newspaper reporter makes a mistake he
always lays the blame on the com-
positor or proof reader. The Journal-
Democrat reporter is the president of the
Christian Kadozor society, and has to
go to bed.

The postoffice department will have
ready for issue within three months
books of postage stamps. The book will
be of convenient size, that it may be
carried in the vest pocket and will be issued
in three classes, namely, books of twelve,
twenty-four and forty-eight stamps, re-
spectively. The cover will give the pos-
tal rates in the United States and foreign
countries. Paraffine paper will be used
to separate the stamps so as to prevent
adhesion.

WHO IS CORRECT?
A Santa Fe correspondent informs
this paper that the republican primaries
in that city were not fairly conducted.
He says:

"The sheriff and his armed deputies
took possession of the doors of each hall
and let no one in except such as suited
their will. They excluded scores of repub-
lican ticket holders who had voted the republican
ticket all their lives. A number of boys
were admitted to some of the meetings
who would support them. No effort was
made to have a fair convention in any
sense. The anti-ring party would have
carried each convention without any
trouble if it had been a free, open and
fair fight, but they were arrested and
thrown into jail on any slight pretext.
They were initiated and threatened
even after they were in the convention
hall and everything done to get their un-
fair votes. Of course the ringers have
carried every precinct in the city and
have got the county. They had control
in both of the precincts outside of the
city. Those conventions were called
secretly and no notice was given of them
and a half dozen or so men got together
and held them. The delegation which
will go from this county will not rep-
resent the republican party."

The New Mexican published a list of
delegates elected in each precinct in
Santa Fe, and our correspondent cer-
tainly is at variance with that paper,
which says that everything was fairly
and honestly conducted. The republi-
cans of the territory have a right to
know if things were conducted in Santa
Fe, as alleged in the above extract. The
territorial republican committee is urged
to fully investigate this matter. The re-
publicans of New Mexico cannot afford
to tolerate any sort of fraud on the ballot
and on the rights of the people.

THE GOBEL LAW
The utter rottenness of the recent Ken-
tucky election by which through the
gross frauds a legally elected govern-
ment was declared defeated and William
Goebel, who was to profit by the fraud
was shot dead, is fully exposed in the
correspondence just published between
Henry Watterson, editor of the Louis-
ville Courier-Journal and August Belmont,
chairman of the board of directors of
the Louisville & Nashville railway.
Mr. Watterson, before swinging his pen
into the democratic lie, denounced the
Goebel law as the sum of infamies
because it was intended to defeat the
will of the people if Goebel candidates

were not elected. Owing to bust em-
ployed, Mr. Watterson in the late
election, a special Goebel. On June 30
last he wrote to August Belmont stating
that the opposition of the Louisville &
Nashville railway to Goebel would in-
jure its property and made this remark-
able statement months in advance of the
election: "The democratic state ticket
just nominated will certainly be elected.
Under the operation of the Goebel law
the result is not left to chance." He
therefore advised the railroad company
to cease opposing Goebel whose friends
were making a campaign assailing that
corruption.

The election took place. Half the
democracy of Kentucky voted against
Goebel and in favor of Taylor. The re-
turning board doing their best and
throwing out thousands of votes still
found a majority for Taylor. Then the
legislature, the final resort, under the
Goebel law, threw out enough republi-
cans to give the democrats a majority
and declared Goebel, a twenty thousand
minority candidate, elected. How well
Henry Watterson, six months before,
knew that "under the operations of the
Goebel law the result is not left to
chance."

Such a condition is a travesty on a re-
publican form of government. What
wonder that in its operation the chief
conspirator met his death on the day
that the death of a free ballot was of-
ficially announced in Kentucky.

WHAT ARE THE FACTS?
The New Mexican accuses THE CITIZEN
of abusing Santa Fe. This paper has no
such intention. The day before the pri-
mary the New Mexican published a
number of paragraphs hinting that trou-
ble was liable to occur at the republican
meetings, which were copied in this
paper. In this issue we publish an ex-
tract from one of the leading republicans
of that city, claiming that gross frauds
were practiced. In the New Mexican of
yesterday the following statement is
made by that paper: "The republican
primaries here went off peacefully and in
an orderly manner, fully as much as
did those in Albuquerque."

If our correspondent has slandered his
own town and the republicans of his city,
we want to know it, and wish to get at
all the facts.

MILITARY POST.
There is not much hope of securing the
passage of a bill to locate a military
post in Albuquerque. Mr. Ferguson
wrote to Mayor Marron that Delegate
Pera declines to introduce the bill,
claiming that it cannot be passed. Mr.
Ferguson will try to get some other con-
gressman to introduce the bill, but with
our own representative in opposition,
there is no hope of its passage. THE
CITIZEN much regrets the stand taken
by Delegate Pera in this matter. It is
charged that he is opposed to Albuque-
que, and will not introduce the bill on
that account.

THE municipal campaign will be in
progress in a short time and it is hoped
that strong candidates will be selected
for the various positions.

THE republican county convention will
be held in the court house to-morrow at
10 o'clock a. m.

If we must build that viaduct, let's do
it gracefully and in a workmanlike man-
ner.

Another Big Ocean Liner.
It is rumored that another big ocean
liner is to be built, which will rival even
the famous Olympic in size. As usual,
American enterprise is at the head of the
project. America's standard determi-
nation is the greatest, whether it be steam-
ship, air, inventions or medicine. Take
Hossett's Stomach Bitters as an ex-
ample of what has been accomplished in
medicine. It has proved to be worth-
while over fifty years of stomach dis-
eases. There is nothing like this famous
remedy for indigestion, biliousness, con-
stipation and nervousness. It also cures
liver and kidney trouble, and prevents
malaria, fever and ague. Be sure you
get the genuine, with private revenue
stamp over name of bottle, or you will
not be benefited.

Hand Made Harness.
To thoroughly equip that driving outfit
you should secure one of those home-
made buggy, surrey or carriage harness
of J. Korber & Co., and when you do you
will have a complete and up to date turn
out for your horse, and will be given prompt
and careful attention.

Robbed the Grave.
A startling incident, of which Mr. John
Olivier, of Philadelphia, was the subject,
is narrated by him as follows: "I was in a
most peculiar position. My skin was almost
yellow, eyes sunken, tongue cost-
ed, pain continuous in back and sides,
no appetite—gradually growing weaker
day by day. Three physicians had given me
up. Fortunately a friend advised me
trying 'Kielectric Bitters,' and to my great
joy and surprise, the first bottle made me
feel better. I continued their use for three
weeks, and am now a well man. I know they saved my life, and
robbed the grave of another victim." No

UNIVERSITY NOTES.

We are all glad to have Miss Turner
with us again.
Misses Signe Skoog and Lucy Haz-
el have begun their work in the train-
ing school.
Miss Elizabeth Hughes is substituting
for Miss Coitroune during the latter's
absence from the model department.
Mr. Coome has been doing some good
