HOMEMAKER-- SPECULATOR

**Fear That Bulk of Arid Lands Will
Be Gobbled Up by Greedy
Individuals.**

MAY TIE UP CONGRESS

**President Sees Danger Ahead and Has
Recommended Repeal of a Number
of Land Laws.**

Shall the nation's great domain of western arid lands and the nation's money be used to enrich a comparatively few greedy individuals, or shall they be used to furnish security and happiness for millions of men, women and children?

Uncle Sam is still rich enough to give us all a farm. And an irrigated farm, at that. It is not a dream but a fact that the present population of the United States can be duplicated on the public domain in the west.

This can be done without making new competitors for those already engaged in agricultural pursuits in the east and in the south. On the other hand, this wonderful act of planting a new nation in what is now all but an unbroken wilderness will confer enormous benefits on those sections which are already covered with farms, factories and towns.

The subjugation and settlement of the great empire of public lands means that every factory wheel in the United States must whirl faster, that every banking house must handle more money, and that every railroad must transport more passengers and freight. This in turn, means a larger and busier population in every eastern and southern town, and that, of course, will quicken and enlarge the demand for all the products of the soil in the older sections of the country.

In the meantime, that which is grown from the soil to be conquered by irrigation in the west will go almost exclusively to the feeding of new home-makers to be created within the arid region itself and to the satisfaction of unlimited demands in the Orient and in the frozen north.

Congress has decreed that the great policy of national irrigation shall be entered upon without delay. Already the engineers and surveyors are doing their work and five great projects have been reported favorably to the Interior department. Only about \$7,000,000 are required to carry all five to completion and the money is in the treasury awaiting the call. But upon the threshold of the greatest constructive policy to which this nation ever set its hand, a new and appalling obstacle is encountered.

Almost every acre of these lands which the nation is about to prepare for the swarming of a home-building population may, under existing laws, be stolen and used as the basis of a profitable speculation. And those who desire to secure these lands for speculative purposes are strong enough to tie the hands of congress until the deed shall have been done. This, too, in spite of the fact that the president of the United States has urged the repeal of these iniquitous land laws as something which is vital to the success of the national irrigation policy.

Shall the nation's land then, and the nation's money be used to enrich a comparatively few greedy individuals, or shall they be used to furnish security and happiness for millions of men, women and children?

This is the question which must be answered when congress meets again. The answer, depends absolutely upon the will of the people as it shall be made known to their representatives at Washington. No power on earth, except the power of an aroused and indignant public opinion can save the arid region from falling prey to the speculators who are alive to their opportunity while the people are asleep.

In his last message the president recommended the repeal of the desert land law, of the commutation clause of the homestead law, and of the timber and stone act. These are the provisions of existing statutes under which absolutely the most valuable property now owned by the American people is being systematically absorbed into private ownership by those who cannot use it, but who propose to sell it at enormous profit to real homeseekers when the nation shall have multiplied its value a hundred-fold by means of irrigation.

The nation has land for every man who will make his home upon it in good faith—who will break the sod, plant crops, build a house, and settle down to support his family from the soil. But the nation has no land—at least, it ought to have none—for the man who merely seeks to forestall the actual settler and sell out to him at a profit, or

become a landlord collecting income from his tenants.

Under present land laws millions of acres are being taken by those who have no thought of breaking the soil, planting crops, or building homes. They are mere adventurers and speculators.

The desert land law gives them a chance to obtain for a song, without residence and without cultivation, 320 acres of the richest soil on earth—enough for sixteen families. The commutation clause of the homestead law gives them a chance to take up 160 acres with but the barest pretence of residence, and that for only fourteen months. The timber and stone act enables them to acquire forests and quarries for a bagatelle and to hold them for speculative advances.

Frank Stockton left the hero of his famous tale hesitating before two doors. If he opened one, it meant life and happiness; if the other, death. And the question was never answered—"the Lady or the Tiger?"

Uncle Sam stands at the door of the arid region. His foot is on the threshold, his hand is at the latch.

Shall it be the homemaker or the speculator? Shall it be life and happiness for millions, or a riot and a carnival of speculation at the expense of the people?

There is but one way to answer the question in the interest of the nation's welfare. That is to repeal the vicious provisions of the existing land laws, in accordance with the president's recommendation.

PAINTING THE INTERNATIONAL FENCE

El Paso, Texas, Aug. 3.—The repairing and painting of 1,500 iron monuments marking the boundary line between the United States and Mexico has just been completed. The fence was originally built consisted of fifty monuments of stone—marble and granite—each eleven feet high, set at regular intervals along the international boundary line. Lately other new monuments have been added until the total is 2,458 monuments, some of them along the 700 miles of boundary recently added. Inspection of the monuments was made by General L. W. Barlow of the United States engineering corps, and Senor Jacob Blanco, representing Mexico. The result of the inspection was the ordering of paint for the iron monuments.

KAW RIVER FALLING.

Lawrence, Kans., Aug. 3.—Water in Kaw river has fallen about a foot since last evening. The wash against the north bank of the new channel has caused much damage by reason of the swift current and the streets and building in North Lawrence have again been endangered by the constant caving in of the banks. The North approach to the bridge is so badly undermined that crossing by wagons is impossible today. Repairs will be made at once to restore communication between the two parts of the city.

FUGITIVE CONVICT LOCATED.

Sacramento, Cal., Aug. 3.—A special to the Bee from Folsom says that two bands of convicts, one of two five and the other of three, are definitely located and it is believed will soon be captured. The other convicts have gone off by themselves and it is believed will eventually be captured in some town.

THIRTY KILLED IN WRECK.

Berlin, Aug. 3.—A dispatch from Breslau reports a serious disaster on a railroad bridge between Sucha and Kalvaria, Austria-Silesia. A train consisting of eleven cars collided with a passenger train. Thirty passengers are said to have been killed and 53 injured.

KANSAS RIVER RISING.

Salina, Kas., Aug. 3.—The worst of the flood resulting from last week's heavy rain is over although Mulberry rose several feet last night and the lower part of town is submerged. The Salina river is also rising. East-bound Union Pacific trains are stalled here.

FIRE IN CONSTANTINOPLE.

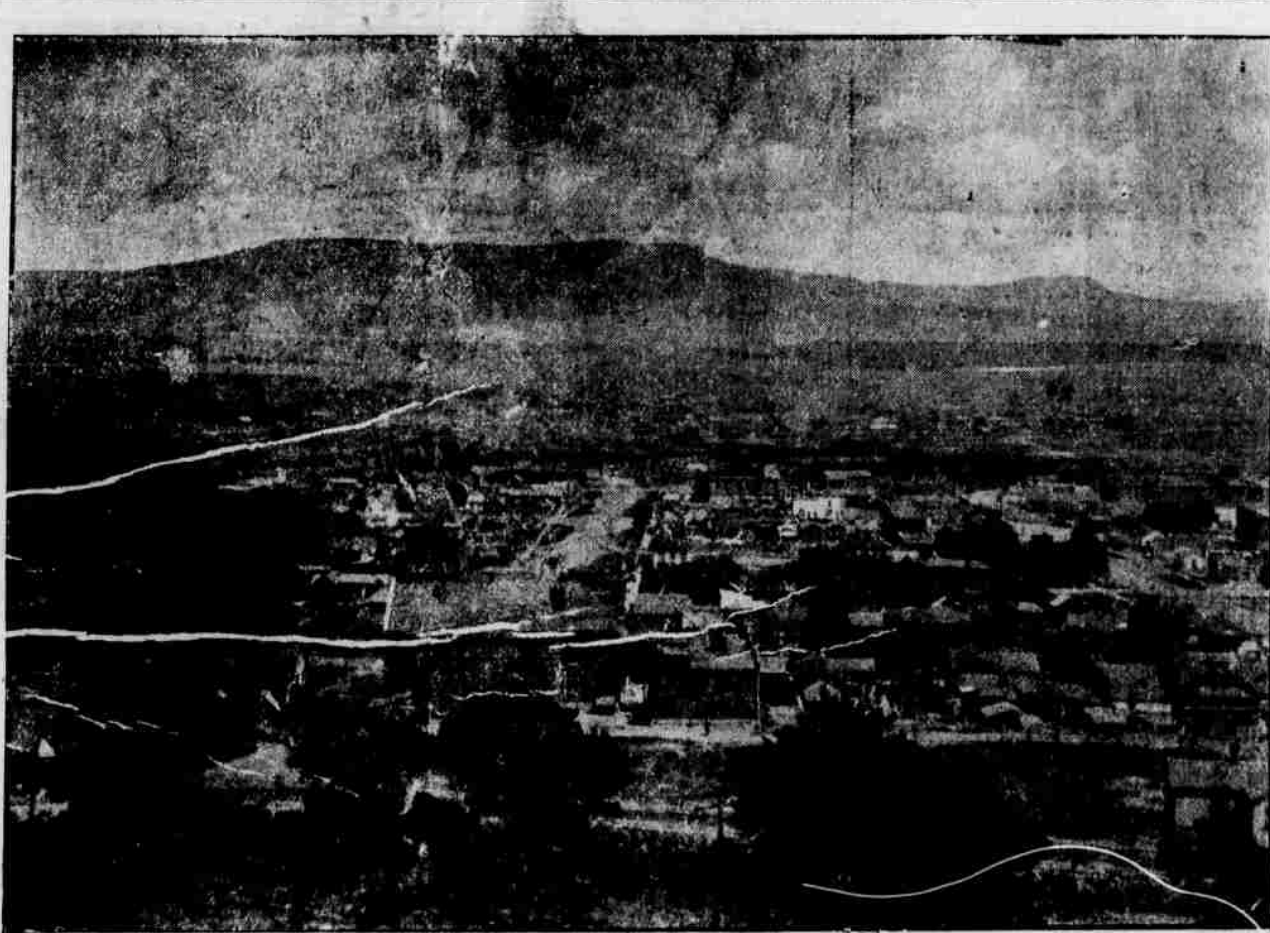

Constantinople, Aug. 3.—A conflagration has devastated the town of Armeke, Asia Minor. The mosque, public buildings, 400 shops and sixty houses were destroyed. The population is in great distress.

SIXTEEN INJURED.

Hartford, City, Ind., Aug. 3.—Sixteen persons were injured in a head-on collision today between the west-bound Pan-handle freight and the east-bound passenger. The accident was caused by a heavy fog.

Buffalo Workmen Riot.

Buffalo, Aug. 3.—A riot broke out today between the employees of the Niagara Elevator company and Italians who are employed at the plant of the Buffalo Union Furnace company. It is said that it was provoked by an employee of the Niagara Elevator company who shouted derisive epithets at the Italians. No one was hurt, although scores of shots were exchanged. Forty-five Italians were arrested.

WAIT ON GOVERNOR

**Miners Who Were Expelled From Idaho
Springs Apply for Protection to
Colorado's Chief Executive.**

WRITE TO SHERIFF SANDBERG

Denver, Colo., Aug. 3.—President J. C. Craig of the Citizens' alliance said today that no radical or unlawful action will be taken at the meeting of the alliance called for tonight, but he believed the action of the Citizens' alliance at Idaho Springs in expelling the union miners who were accused of complicity in the blowing up of the Sun and Moon converter would be commended.

"It is not our intention," said Craig, "to drive any one out of Denver. But in Idaho Springs the situation was different, for these men and others had been making threats for months and finally resorted to dynamite. I believe the community not only saves itself considerable expense but also prevented the sacrifice of many lives by its action and therefore it should be commended."

President Craig said further that a resolution would be introduced tonight asking that the police rigidly enforce the law against carrying arms. He added that his own life had been threatened, but he had no fear of violence.

A communication was received this morning from Sheriff Sandberg of Idaho Springs by the committee of miners who were expelled from that town. It is in answer to a letter sent the sheriff by the men in which they stated that Governor Peabody had told them to apply to the local authorities for protection. Sheriff Sandberg says in answer that he intends to maintain law and order in that county without favor or partiality toward any person or class, and adds "that all American citizens will receive protection from my office in so far as the duties of my office under the law can afford them protection." The committee will wait on the governor this afternoon with the answer of Sheriff Sandberg.

Governor Peabody's answer to the miners was that they must seek redress through the courts at Idaho Springs and also that under the constitution and laws of the state he is not vested with the right, power or authority to act in the matter.

-THINKS HE WAS HER HUSBAND.

Las Vegas, Aug. 3.—Recently there died here a telegraph operator by the name of G. W. Patterson, who had lived for months by means of food taken into his stomach with a tube. When Patterson came here he brought a woman and young child with him. A letter has been received in Las Vegas from Mrs. Louise Patterson, of Cleveland, Ohio, who believes that the dead man was her husband who left her fifteen years ago. If she can prove his identity and death she will receive a heavy life insurance. The description she furnished of her husband tallies closely with that of the Patterson who died here.

MINE MANAGER MISSING

Albuquerque, Aug. 3.—C. C. Cotton, manager of the Nabco Copper Company's mines near the Santa Fe cut-off in the Manzano mountains, has been missing since July 18. He left home on that date for Albuquerque, where he was going to consult a doctor about an old wound in his head which was giving him considerable pain. A searching party has been sent out. It is thought that Cotton met his death in the Manzano mountains.

It is an admitted fact that real estate, financial men and merchants all say that quickest and best results are obtained by advertising in the "New Mexican."

HORSE THIEF JAILED

**Sheriff Kinsell and Deputy Huber Arrest
Sanovio Sanchez on a Ranch Near
Moriarty Station.**

STOLEN ANIMAL IS RETURNED

Sheriff H. C. Kinsell and Deputy Sheriff R. C. Huber were advised Saturday that a horse thief had stolen a horse from Moriarty ranch, and that the man was somewhere in that vicinity. The officers left for the scene, for both are fond of chasing a real old-time horse thief, and they were soon on the ground. The thief was not in sight, so a weary search was commenced for the man, who was employed on another ranch in the same locality. At last he was located and was brought to the county jail here, where he is now.

The horse stolen was located and returned to the Moriarty ranch, near Moriarty station on the Santa Fe Central. The warrant issued charges Sanovio Sanchez with the theft, and Sanchez is the man now in jail.

It was after dark Saturday night when the officers returned to the city with their prisoner.

LEHMAN VS. MORRISON.

**Stockholder in Insolvent Corporation Liable
to Extent of Unpaid Stock.**

Associate Justice John R. McFie handed down an opinion Saturday in the case of Henry W. Lehman, receiver vs. Alexander L. Morrison et als. Some years ago a corporation was formed here for the purpose of building railroads and for other purposes, the capital stock of which was fixed at \$10,000,000. Two of the defendants, George Detweiler and E. B. Bary obtained a concession from Mexico, conditioned upon their building certain railroads and transferred the concession to the company for the entire capital stock of the company. The concession provided of no value and being forfeited by Mexico, the whole enterprise was abandoned. Quite a large amount of indebtedness was incurred and the creditors and stockholders had the company declared insolvent and the plaintiff appointed receiver. There being no assets of any kind the court ordered the receiver to proceed against the stockholders, which is the suit decided now. The suit having been dismissed as the resident stockholders, Morrison and others, who answered that their stock was a gift, certain of the non-resident stockholders denied that there was any stock liability in New Mexico. The court held that where the corporation is insolvent the stockholder is liable to the extent of his unpaid stock to the creditors, therefore rendered judgment in favor of the plaintiff.

BRITO VS. BRITO.

In the case of Brito vs. Brito—divorce—the plaintiff was ordered to pay the defendant \$25 to enable her to defend the suit, and further proceedings were suspended until the money is paid.

REFEREE'S REPORT.

The referee's report in the case of Reyes Gonzales et al. vs. J. Patriello Chaves, in the partition suits in the Plaza Colorado grant, has been filed in the office of the district court for Santa Fe county. This land grant is situated near Abiquiu, A. B. Renehan, Esq., of this city, acted as referee in this suit.

LOCKOUT IN PITTSBURG

**Sixteen Thousand Men Out of Work—
Cardinals Continue to Ballot
Without Result.**

New York, Aug. 3.—According to the police, Mrs. John Henry Ketcham, wife of the congressman from the 18th New York district, was dangerously injured by a thief whom she discovered in her apartments at her residence here on returning from a shopping expedition and her assailant hurriedly escaped without completing the robbery. He took a small amount of money and some jewelry. A heavy poker was used by the robber. Mrs. Ketcham's collar bone was broken, a deep gash was cut over her left temple and she was nearly strangled with a handkerchief.

LOCKOUT IN PITTSBURG.

**Sixteen Thousand Men Thrown Out of Work
and More to Follow.**

Pittsburg, Pa., Aug. 3.—As a result of the Builders league lockout 18,000 men were thrown out of employment at noon today and the officers of the league say that by evening the number will be increased to 24,000, or the total number of men affiliated with the Building Trades Council. Work has been stopped on nearly all buildings in course of erection in the city. Trouble is anticipated if contractors bring in non-union men.

STILL BURNING BALLOTS.

Rome, Aug. 3.—Today's first ballot apparently resulted in no election. Smoke was observed issuing from the Sistine chapel chimney at 16 minutes after 11 this morning, indicating the burning of ballots.

Looks Like a Deadlock.

Rome, Aug. 3.—The sixth ballot was held this afternoon and proved fruitless. Smoke announcing the fact was seen rising from the Sistine chapel at 6:25.

THE TEACHERS' INSTITUTE.

New and Interesting Features will be Introduced—Examinations for Certificates.

The Teachers' Institute, which is to convene in the High School room in this city Monday morning, August 17, promises to be well attended and very interesting. Professor H. A. Owen, the conductor has been visiting the Grand Canon, Los Angeles, Catalina Island, Bakersfield, Calif., and, in addition to the regular work of the institute, is preparing to give the teachers the benefit of his summer travels and investigations.

Arrangements have been made to have Professor Dunlavy, late of King's School of Oratory, Pittsburg, Penna., in the institute a short time and give the teachers a free reading. On the evening of August 24 he will give a humorous entertainment, to which a small admission will be charged. Professor J. A. Wood will also work in the institute.

It will be well for all teachers to take note that no credit for attendance will be given for a shorter period than five days, and that no certificate will be issued unless the applicant has attended the normal. The first week the normal will be held six days and the second week four days, followed by the two days' examination for third-grade certificates. Heretofore third-grade certificates have been granted without an examination in physiology and hygiene. The law emphatically says: "No certificate shall be granted to any person to teach in the public schools who has not passed a satisfactory examination in physiology and hygiene."

It is hoped that all who can do so will attend the institute and pass the examination, as there are many who have been teaching in the county who will not be able to secure certificates under the new law.

Saturday the thermometer registered as follows: Maximum temperature, 84 degrees, at 3:55 p. m.; minimum 56 degrees, at 5:15 a. m. The mean temperature for the 24 hours was 70 degrees. Mean daily humidity, 27 per cent.

The New Mexican Printing Company has on hand a quantity of tablets made from ledger, linen, flat and book papers which they will close out at 10 cents per pound, suitable for school purposes and businessmen, also useful for the home. Only a limited supply.

MONDAY, AUGUST 3.

The Capital City of New Mexico is growing slowly, but steadily. This is the right kind of growth.

The Cuban Republic wants to borrow \$35,000,000. It seems to want money and as the Texas cowboy wanted his gun.

Storm clouds are gathering around the head of a federal official who holds a very good office in New Mexico. The storm is liable to burst forth at any time. "He who reads may run."

Before another twelve months roll around the Santa Fe Central Railway is very liable to have four or five connections with the Rio Grande divisions of the Santa Fe system. The more the merrier. New Mexico cannot have too many railroads.

There is some political sagacity in the suggestion of the Springer Stockman that it would be well for the cause of statehood if the Democrats were to oppose it. Such action would perhaps induce the Republicans in congress to make statehood for this territory a party measure which would assure its success. There is such a thing as banking on the perversity of human nature.

It is stated that Americans in the City of Chihuahua, Mexico, desire a new American consul in that place. If a change is made by the administration a New Mexican man should be appointed. The New Mexican knows of several citizens of this territory who would fill the position as consul at Chihuahua efficiently, ably and honestly, with honor to the government and credit to themselves.

By the reports of the boodle scandals of the Missouri state legislature it is fully established that most of the members of that body worked on shares. A share of the pay and emoluments was received by them from the state treasury and a larger share from the railroads and other corporations and other trusts that had soft snaps in Missouri and wanted to make them still softer and more merrier.

A passenger and traffic agreement between the Denver & Rio Grande railroad, the Santa Fe Central railway and the El Paso & Rock Island railroad will prove of great benefit not only to the roads concerned but also to the cities of Denver, Santa Fe and El Paso and intervening country. There are excellent chances that such an agreement will be arrived at between the roads named in due course of time.

The territorial statutes concerning the safe-keeping of public funds and accounting for the same are stringent and if thoroughly enforced the territory and the counties could suffer no losses. The better these are administered and the more careful territorial officials, charged with the duty of enforcing them are, the better in every direction for the honest taxpayers and the credit of the territorial administration.

The New Mexico Board of Managers of the Louisiana Purchase Exposition has commenced work in earnest. It is never too late to mend. From this date, appearances indicate, that members of the board will work hard and faithfully to carry out the provisions of the law under which they were appointed to have a creditable and large exhibit at St. Louis in 1904. The New Mexican will do all in its power to aid in this laudable undertaking.

The extension of the Santa Fe Central railway from Torrance, its southern terminus on the El Paso & Rock Island to Roswell, the county seat of Chaves county, a distance of ninety-five miles through a country offering no obstructions to railroad building, is very probable. The capitalists who have built the Santa Fe Central railway are examining closely into the matter and the New Mexican believes that a favorable decision will be arrived at by them at an early date and that the extension will be built and be in operation within twelve months. It cannot come any too soon.

Denmark has refused to give up the Danish West Indies. The time for notification of the acceptance of the treaty by Denmark has expired. However, Uncle Sam will not relinquish his efforts to secure the islands which are nothing but a source of expense and vexation to the Danes while to the United States they are of strategic importance in controlling the destinies of the West Indies and securing their markets for the trade of this country.

A grand jury has been convened at Denver to look into the political and moral nastiness that are a stench in the nostrils of all decent citizens of the Queen City of the Plains. It is not a mere suspicion that grand juries could do a great deal at Santa Fe and at Albuquerque in letting the light into some recent transactions that are being discussed by the public and even by the press, but which somehow grand juries have a habit of ignoring.

In Idaho mining property is assessed at its full market value and yet more capital goes into Idaho mines than into New Mexico mines, which are not assessed at all for taxation, only the improvements on the mines being taxed and these only at a small per cent of their actual value. Whether this is because Idaho is a state and New Mexico a territory, or for some other reason, is hard to fathom, but capital often seeks a devious way for investment.

The financial condition of the territorial treasury is better than ever before in the history of New Mexico. Much of this very gratifying state of affairs can be justly and properly ascribed to the provisions of the traveling auditor's law enacted by the 35th legislative assembly and the careful, efficient and honest work of Traveling Auditor Charles V. Safford. In two years a most wonderful change for the better will be the result in the financial administration and bookkeeping of every county of the territory.

An interesting comparison of summer climate at Denver and at Santa Fe is afforded by the data issued by the United States weather bureau at those two points, the records of the Denver office being back thirty-one years and those of the Santa Fe office twenty-nine years. The maximum temperature in August at Denver has been 105 degrees, at Santa Fe 97 degrees, indicating that the August weather of Santa Fe is eight degrees cooler at its maximum than is that of Denver, 400 miles farther north. The normal temperature for the month at Denver is 71 degrees, while at Santa Fe it is only 68 degrees, or 3 degrees lower, which may mean a good deal in comfort on a hot summer day. The average number of cloudy days at Denver during August is five, at Santa Fe only four. The maximum wind velocity at Denver during August was 52 miles, at Santa Fe 12 miles less or only 40 miles. Thus taking it all around, delightful as is the summer weather at Colorado Springs and at Denver, it is far more delightful right here in Santa Fe.

RAILROAD BUILDING IN NEW MEXICO.
The end of railroad building in New Mexico is not yet in sight. The Raton Range insists that the New Mexico and Pacific railroad will be built and that the first link it will construct will be from Raton to Taos via Elizabethtown. The trip of President Ripley of the Atchison, Topeka and Santa Fe through the Vermejo country from Dawson to Terico, Colorado, despite denials, seems to indicate that the talk of extension of the Dawson railroad from Dawson to Trinidad, Colo., will be made by someone else if the Edly people do not built it. The Las Cruces Progress says that a new survey is being run for the proposed short-cut from Alamogordo to Deming via Las Cruces, while the Silver City Enterprise has inside news that the proposed extension of the El Paso & Southwestern Railway from Deming to the mining camp of Fierro will be an accomplished fact before many months have passed.

It is also certain that if the Phelps-Dodge people do not build the surveyed Colorado-Gulf line from Durango to Clifton, the Southern Pacific will build a road from some point in Arizona to the coal fields in western Valencia and Socorro counties. The Santa Fe Central is certain to extend to Roswell and from there to Big Springs, Texas, there to connect with the Gould lines. It will also build immediately a line into the Hagan coal fields and a line to connect these with the coal fields of San Juan county. Thus it will be seen that the railroads already planned and most of them surveyed, will add many more miles to the railroad mileage of the territory and as to the railroads not yet planned, it must be remembered that this railroad age is one of surprises and that New Mexico stands ready to be pleasantly surprised any time by the coming of a new railroad that had not been planned and talked of many years before such a surprise, for instance, such as was the building of the Santa Fe Central.

From one dozen to twenty copies of the New Mexican are sent out daily to enquiries and applicants concerning Santa Fe. This is the very best kind of advertisement and is bearing good fruit, as the large number of tourists and healthseekers in the city abundantly shows.

NOT OVER-WISE.

There is an old allegorical picture of a girl scared at a grass-hopper, but in the act of heedlessly treading on a snake. This is paralleled by the man who spends a large sum of money building a cyclone cellar, but neglecting to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of cyclones a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by all druggists.

Alfalfa, grains, fruits of all kinds, and sugar beets grow to perfection.

GOLD MINES.

On this Grant, about forty miles west of Springer, N. M., are the gold mining districts of Elizabethtown and Baldy, where important mineral discoveries have lately been made. Claims on unlocated ground may be made under the mining regulations of the company, which are as favorable to the prospector as the U. S. government laws.

Near Raton, N. M., on this grant, are located the Coal Mines of the Raton Coal and Coke Company, where employment may be found at good wages for any wishing to work during the seasons that farming or prospecting can not be successfully done. For particulars and advertising matter apply to

TERRITORIAL PICKINGS

COLFAX COUNTY.

A Railroad From Dawson to Tercio Spoken
of—The New Mexico and Pacific
Railroad to be Built.

The fact that President Ripley and
daughter accompanied by a young lady
friend and Mr. Van Houten, president
of the Maxwell Land Grant Company,
last week drove overland from Dawson
to Tercio through the beautiful Verme-
jo country, has given rise to the story
that the Atchison, Topeka and Santa
Fe will build the contemplated exten-
sion of the Dawson railroad from Daw-
son to Tercio in Colorado. This is how-
ever denied by President Ripley.

The Raton Range says that it has
assurance that the New Mexico and
Pacific railroad will be built from Ra-
ton to the Taos valley via Elizabeth-
town. This road is but a link in a much
more extensive enterprise.

The Raton Range last Thursday cele-
brated its 23d birthday. Under its new
management it has become one of the
nearest and newest of New Mexico
weekly newspapers.

Work was suspended on the Raton
oil well last week on account of the
illness of the head driller, but another
man has been employed to assist in the
heavy part of the work and drilling was
resumed last Wednesday. All casing
is now on the ground.

Today the telephone line from Raton
to Las Vegas was completed connecting
the Meadow City with the Colorado
long distance telephone system. Many
ranchmen around Maxwell City and
other Colfax county points have put
in telephones. The line runs via Daw-
son and at some future day will be ex-
tended to Albuquerque and El Paso.

The Johnson's Mesa people are mak-
ing big preparations for their annual
harvest home picnic on August 14.
Many people from Raton and other
nearby places will attend.

Last Wednesday at Raton, Miss Dov-
le Johnson was married to Edward
Brown at the residence of the bride's
parents, Rev. J. O. Willett of the Bap-
tist church performing the ceremony.
Mr. Brown owns a pretty ranch fifteen
miles from Springer where the couple
will make their home.

A baseball game at Raton on Sunday
between the Raton and Van Houten
teams resulted in a victory for Raton
by a score of 17 to 4.

On last Friday evening a big cowboy
dance took place at Porter's Opera
house at Springer.

John H. Majors who had his head-
quarters at Santa Fe during the past
two weeks relieving J. E. Wood as
railway postoffice clerk, returned to
Raton and has accepted a position in a
grocery store.

Work was commenced today on the
abutments of the stone arch bridge
across the Railroad arroyo at Raton.

The county commissioners of Colfax
county are asking for bids for the in-
stallment of steam heating facilities in
the court house at Raton, the bids to be
opened on August 17.

Floyd of Iowa. This party will visit
Elizabethtown and the Taos valley
camping out for three weeks. The Old
Maids' Club, consisting of the Misses
Nettie and Effie Macabee, Grace and
Emma Rathbun, Marie Dolman and El-
va Stearns, with their guests, Messrs.
Segner, Sproull, Schenck, Denton, Pil-
ot, Holdeman and Whittaker, enjoyed a
trip from Raton to Blossburg at which
latter place they were entertained by
Mr. and Mrs. Benjamin Rodda.

J. Smith and family and William Ed-
wards and family of Raton, who have
been camping on the Conejos for sev-
eral weeks, returned home bringing
with them rainbow trout weighing
three to four pounds apiece.

The Misses Icie Pickel and Elva
Stevens left Raton today for California,
Miss Stevens going to San Francisco,
where she will spend a month before
returning home. Miss Pickel will go to
San Diego, there to spend the remain-
der of the summer and the winter.

The Raton Confectionery Company
which manufactures candy, is building
up a considerable export trade supply-
ing Las Vegas and several other towns
with sweets.

Mrs. Sandusky of Raton, entertained
last week in honor of her guest, Miss
Norton of New York. Whist was the
game and Mrs. Chase and Mrs. Mendel-
sohn won the prizes.

George W. Pease and Miss Minnie A.
Carter, both of Dorsey, were married
at the Southern hotel at Springer on
Saturday. They will reside at Dorsey.

On Friday, Fidel Martinez and Miss
Eusebia Lopez were joined in wedlock
at Springer.

T. J. Hill has bought the home of
Charles Fox at Raton.

M. M. Dawson purchased the Bran-
nin property at Raton, and will there-
on build a two-story modern residence.

J. A. Carter and family, Mrs. R. Cline
and children, Mrs. G. A. Langworthy
and son Harold, Mrs. Ruby and chil-
dren, G. E. Hays and wife and the
Rev. Willett and Miss Willett com-
posed a camping party from Raton to
the Sugarite canon last week.

Work has been begun on the enlarge-
ment of the Atchison, Topeka and Santa
Fe roundhouse at Raton. Then stalls
are to be added.

Miss A. Gertrude Massure of Cam-
bridge, Mass., and Nathaniel A. Strat-
ton, a mining man of Pueblo, Colo.,
were married at Raton on Saturday by
the Rev. Magill of the Presbyterian
church. After making a tour of the
principal cities of the United States,
Mr. and Mrs. Stratton will be at home
at Cambridge, Mass.

Johnson's Mesa had refreshing rains
last week.

The New Mexican Printing Company
has the best bookbinding in the south-
west and the only modern bindery in
New Mexico. It turns out superior
blank-books, cash-books, journals and
ledgers, and also loose-leaf ledgers and
blank-books of all descriptions. The
work done by it is first-class and at very
low rates. Bankers and merchants in
New Mexico should not send their book

Mrs. F. H. McElroy will occupy Mrs. J. E. Wood residence on the south side during the latter's absence in California.

Colonel Venceslao Jaramillo, of El Rito, secretary of the territorial board of equalization, is in town on official business.

F. H. Pierce, president of the board of penitentiary commissions, is in the city and presided over the meeting of the board today.

H. B. Pain, of Kansas City, Mo., who has been here for a week on a visit to Colonel and Mrs. Frost, left this morning for his home.

Judge Henry L. Waldo, of Las Vegas, went to Kansas City Saturday night. He will return to New Mexico in about two weeks.

Traveling Auditor C. V. Safford left yesterday for Raton on official business. He will visit Union county before returning to Santa Fe.

Misses Nellie Griffin and Edith Hamble have returned from Albuquerque, where they visited a week with their friend Mrs. Jean Reynolds.

Donald Harold, of Pueblo, engaged in the tombstone and monument business, is visiting the capital partly on business and partly for rest and recreation.

Judge W. H. Newcomb, of Silver City, arrived on the noon train and was in attendance at the meeting of the board of penitentiary commissioners, of which he is a member.

Louis Ilfeld, of Albuquerque, member of the board of penitentiary commissioners, arrived from the Duke City yesterday and was in attendance at the sessions of the board today.

T. Lee Clark, treasurer of the Pennsylvania Development Company, has gone east with his family from Estancia, having been summoned suddenly by telegram on urgent business.

Louis Mohrman and wife, of Cleveland, O., are tourists visiting the interesting points in Santa Fe. Mr. Mohrman is connected with the mechanical department of the "Big Four" at Cleveland, O., and is on his vacation.

Colonel R. E. Twitchell, assistant attorney for the Santa Fe railway, was in town today from Las Vegas, attending a meeting of the board of directors of the Cerrillos Coal Railroad Company.

Mrs. Daniel Baum, mother of Mrs. J. W. Reynolds, who has been visiting here for some months, will leave tomorrow for San Francisco, Cal., where she will remain for several months on a visit to a sister.

Hon. Thomas Hughes, editor of the Albuquerque Citizen, passed Lamy yesterday for Glorieta, whence he went for a two weeks' vacation on the Lewis ranch near Windsor postoffice on the Pecos Forest Reserve.

Dr. R. C. Hutchinson and wife and daughter, Miss Ida, accompanied by Mrs. Easby, have left for their home in Philadelphia. They spent some three months in Santa Fe and were greatly pleased with the salubrious climate here.

Malaguas Martinez of Taos, and Juan Navarro, of Mora, members of the penitentiary commission arrived from their respective homes yesterday and today attended to their official duties at the session of the board. Mr. Navarro is also secretary of the board.

Page B. Otero, territorial game and fish warden, left this morning for the Upper Pecos to spend the next ten days with his family, now there. Miss Grace Kennedy, stenographer in the Sunmount office, accompanied him and will be the guest of the Otero family for the next ten days or two weeks.

Thomas Whalen, of Cerrillos, owner of the Whalen group of mines in Hargry Gulch, Cerrillos mining district, here and made final proof on three mining claims in the group owned by him. Mr. Whalen has been in the Cerrillos mining district for twenty-three years, and has great faith in its mineral resources.

H. W. Stevens, who has been connected with the mechanical department of the New Mexican for seventeen years, left today for Albuquerque to take the place as foreman of the Citizen news office. Mr. Stevens is a very competent printer and a good citizen. The New Mexican takes pleasure in commending him to his new employers.

Mr. and Mrs. J. L. Smith, of Little River, Kansas, who have been at Sunmount for the past two months for the benefit of Mr. Smith's health, left this morning for their home via Denver, where they will visit relatives and friends for a week. Mr. Smith has regained his health during his stay at the Tent City and gained fourteen pounds in seven weeks.

Hon. Charles A. Spleen, president of the New Mexico board of managers of the Louisiana Purchase Exposition, who has been in Silver City on legal business, also attending to matters connected with the New Mexico exhibit at St. Louis, arrived from the south last evening. Today he attended a meeting of the Cerrillos Coal Railroad Company, of which he is a director.

B. W. Robbins, general passenger and freight agent of the Santa Fe Central railway, returned Saturday evening from a visit to Denver where he was in consultation with the Denver and Rio Grande railroad officials concerning interchange of passenger and freight traffic with that road. The matter has been taken up by the Denver and Rio Grande railroad officials

and will be arranged as soon as possible. As far as passenger traffic is concerned, satisfactory arrangements have been made and will be carried in to effect as soon as regular passenger trains are run over the Santa Fe Central.

O. A. Budd, of the Santa Fe Central office force, has just returned from three days spent at Torrance and other points down the line. He says that at Estancia especially there is great activity in all lines of business. The road is employing a large force of men in constructing roundhouses, train sheds, repair shops and other works, and new people are going to the town to settle and open business, while preparations are being made to put into cultivation considerable farming land, and the prospects of future prosperity for the Estancia section, as well as many other sections along the line, are particularly bright.

THE BEST DINNER
In the city will be served at the Bon-Ton Restaurant Sunday between the hours 12 m. and 2 p. m. Give us a call, we will treat you right.

Real Estate Agent

112 San Francisco Street, Santa Fe, N. M.
CITY PROPERTY.

I have a nice cottage (double) six rooms on one side, 4 on the other; owner occupies 4 rooms and the rest rent for \$25 a month; good neighborhood; ample space to erect other buildings on same street; stables and other outbuildings; the price asked is very low.

Can sell at a bargain a cosy home on Manhattan avenue, an adobe brick house, 7 rooms; fruit and vegetable garden; city water, hydrant and tank; 70 choice fruit trees; currant and raspberry bushes; lot 80 by 265 feet.

I can show you a tract of land west of town, 40 acres, with two adobe houses, one with 4 rooms, the other 2; 15 acres in alfalfa; 800 fruit bearing trees; 2 wells; alfalfa sold for \$300 last season; very cheap.

I also have a fruit ranch in a high state of cultivation, in the suburbs, with a building site overlooking the entire city of Santa Fe. On it there is an artificial reservoir, the only one of its kind in the city, 12 feet or more in depth, holding over 125,000 gallons of water, constantly replenished, from which the whole place can be irrigated daily during the summer, and which could be stocked with fish. The land contains many hundreds of young trees of the finest and most valuable varieties of apples, peaches, pears, plums, apricots, cherries and other fruits, the greater part of which already bear; a young bearing vineyard, thousands of bushes of currants and other small fruits; extensive beds of asparagus, rhubarb, and other fine vegetables. To be sold on easy terms, and for much less than it cost, owing to ill health of the owner.

OUTSIDE PROPERTY.

Examine a 23-acre tract east of the Wileland place, and then ask me its price; you will be surprised.

I am authorized to dispose of the Congregational Church, on the south side, convenient to the contemplated Union Depot. It stands upon two lots, and will be sold cheap, or the building will be repaired and leased to responsible parties.

On lower San Francisco St., east of the railroad track, I can sell you properties desirable for homes or business propositions; these will bear examination. I will take pleasure in showing prospective investors desirable building sites in the neighborhood of the Capitol, and in the vicinity of the Presbyterian Church, which in a few years will be worth double the present asking price. About two blocks west of Guadalupe church, on De Vargas St., I can sell you three small homes.

At El Cuervo, 10 miles from the Rock Island road, I can sell you about 640 acres; patented; excellent grazing land.

Convenient to Las Vegas, I have for sale several large tracts of desirable land which I am permitted to sell at very low figure. One tract contains about 3,500 acres, and is located about three and one-half miles southwest of Las Vegas; nearly all of it is under fence; good grazing and water for stock; some timber. Another tract of 550 acres, 7 miles from Las Vegas; timber and grazing, with an excellent stream of water passing over it. Still another tract of 350 acres of farming, grazing and timber land, 8 miles west of Las Vegas, with running water upon it.

MERCANTILE PROPOSITIONS.

To those desiring an investment in a good mercantile business located in a thriving town in Rio Arriba county I can suit them with the chance of their lives; general merchandise, large stock; store, two cottages, stables, and other buildings; large tract of land, with big orchard, producing the last season \$1,400; merchandise business pays from \$2,500 to \$3,000 a year and can be increased; fine fishing, boating and bathing; with horses, wagons, etc., 20 varieties of choice roses and other flowers in abundance; owner will allow prospective purchaser to thoroughly investigate before buying; good reason given for selling.

I have several other commercial and business propositions to submit those desiring to enter mercantile life and to grow up with the new era of prosperity now coming in with the Santa Fe Central, and an eight page daily, who says that the world don't move, and our city with it.

HOUSES TO RENT.

One 9 room house, with all modern conveniences, excellent neighborhood. A new 6 room cottage, bath, stationary range and all modern conveniences. Also the building corner of Water st. and D & R G railroad track lately used as a saw mill.

Several small houses, some adobe, some brick, others frame, upon my books, which I would be glad to show an intended purchaser. They are desirably situated, and will be sold cheap.

UNFURNISHED ROOMS.

I can rent several rooms in the Hersch building on lower San Francisco street, or will lease the whole building. I have 3 or 4 rooms, and stable, that I will rent, on De Vargas St., two blocks west of Guadalupe church.

FOR RENT—FURNISHED ROOMS.

I can rent you 3 furnished rooms in a desirable location on the south side, water in the house, and yard; or I can sell you the house 6 rooms at a bargain if you would rather have it so.

FARMS & RANCHES.

I have inquiry from outside party for ranch in the Espanola valley; also for ranch in the district between Tesuque and Espanola; price must be reasonable.

MINOR CITY TOPICS

Granite measuring cups at Goebel's.

There is an undelivered telegram at the Western Union for George R. Buck. George Hunter and wife, of Las Vegas, are in the Capital City for a short visit.

Amos W. Clark, of Rico, Colo., is in the city for a business visit of a few days.

Ventura Barros, of Galisteo, is in the city today purchasing supplies for the ranch.

A number of Indians are in town today disposing of their wares and purchasing goods.

J. Hollingsworth, the Denver traveling man is talking to Santa Fe merchants today.

Edward Walsh, Fred Holmes, and M. Burns, of the Hagan coal fields, are in the city on business.

F. J. McDonough, of Lincoln, Neb., is in the city on business matters and a pleasure trip combined.

A. C. Padley, of Kennedy, is a guest at the Claire. He is looking after business matters in the Capital City.

The Santa Fe train from the south and the west, due at 11:35 a. m., did not arrive until six o'clock last evening.

The Lake Peaks and some of the lower mountain summits east of town were covered with snow yesterday afternoon.

It is understood that Charles W. Diltz will put in new bowling alleys at Las Vegas. He is operating the alley in this city.

A new awning graces the front of the business house occupied by Dudrow, Kennedy and Townsend, on the west side of the Plaza.

J. B. Hayward, of Spirit Lake, Tenn., is on a short visit in Santa Fe. He will see the attractions before continuing his journey westward.

Wenborn and Eggleston have been awarded the contract for the carpenter work on the Walter and the Renahan residences on Upper Palace avenue.

The Spokane Cigar Store moved Saturday to the new stand at 257 San Francisco street, the store room formerly occupied by Davis the plumber.

The dust was very disagreeable on the business streets yesterday owing to there being no sprinkler in service and the wind blowing very strong at times.

No services were held in the Presbyterian church yesterday forenoon. The congregation had assembled, but Rev. W. H. Moore, having been taken seriously ill suddenly, no services were held.

George D. Stetson and wife, of Chicago, are guests at the Palace. They are making a tour of the southwest, and are not passing any of the attractions at Santa Fe without taking a look at them.

Mr. and Mrs. Vicente Carillo, residing at Agua Fria, a village five miles west of this city, are bearing a very great misfortune. Within the past ten days their three young children, aged 9, 7, and 3 years, have died of serious children's maladies.

The concert last night was interrupted by a shower which occurred about the middle of the program, but many people who sought shelter nearby again went to the plaza, and enjoyed the music which was taken up by the band when the rain had ceased.

Many chinch bugs of the genuine old Kansas type were noticed on the grass next to the curbstones and on the fire hydrants along San Francisco street early this morning. As to whether the town is now to have a chinch-bug pestilence remains to be seen.

Traffic arrangements have been made between the Santa Fe Central railway, the El Paso and Northeastern railroad and the Rock Island system for the handling of freight and passenger traffic between Santa Fe and El Paso and between Santa Fe and the Missouri river and the freight and passenger tariffs will be published immediately.

General Manager W. S. Hopewell, of the Santa Fe Central railway, is contemplating the running of an excursion for the business men of this city from here to Torrance, the southern terminus on completion of the road. As soon as the line between this city and Torrance is completed and in running order he will make the necessary arrangements.

President F. H. Pierce, of the penitentiary commission, who presided at the meeting of the commission this morning received a dispatch about 11 o'clock announcing the dangerous illness of his wife's sister at Louisville, Ky., and calling him to Las Vegas, as Mrs. Pierce desired to leave for Louisville on the first train. He accordingly left at 11:50 this forenoon for the Meadow City.

The predictions are for probable thunder showers tonight or Tuesday, with warmer weather tonight. The maximum temperature Saturday was 84 degrees at 2:55 p. m., and the minimum was 56 degrees at 5:15 a. m. The maximum on Sunday was 82 degrees at 2:20 p. m., and the minimum was 55 degrees at 4 a. m. The precipitation yesterday was .01 of an inch. The temperature at 6 o'clock this morning was 60 degrees.

Charles G. Closson has purchased in Denver a fine five-glass landau, and one nice coupe, which are expected to arrive tomorrow. They are of the Thomas Connolly make, equipped with all the latest improvements, having

rubber tires, and will be among the nicest turnouts in the city.

In four weeks more the days of school vacation will be over and the public schools in this city will again open.

The Santa Fe Supply Company is receiving a consignment of steel and iron pipe from Cerrillos.

Some of the new crop of wheat is being sold here today. It is all of fine quality and brings the top of the market.

The bowling alley is getting a very fine floor put down and the place is being given a neat and new appearance by the workmen.

The bids for supplies for the penitentiary were received and awards made this afternoon. The lists of successful bidders will be given by the New Mexican.

Santa Fe train No. 8 from the west on the main line was over eight hours late last night and did not reach Lamy junction until this morning. The delay was caused by a wreck in California.

William D. Barron has moved his grocery store from Lower San Francisco street to Upper Palace avenue just east of the Arroyo Salis. He expects to do a good business in his new location.

Stephen Elkins, Jr., who was written up by some of the big dailies last week as being madly in love with an actress, was at one time a resident of Santa Fe. He is a son of Senator Stephen B. Elkins.

The city council will meet tonight in regular monthly session, provided a quorum can be obtained. The city board of education should also meet this evening in regular monthly meeting.

The second crop of alfalfa in the Espanola and other hay-growing valleys has been saved in fine shape, and is said to be of the very best quality. Quite a lot of this crop has been disposed of in Santa Fe at fair prices.

The base ball game at the college grounds yesterday afternoon attracted one of the largest crowds that has witnessed a ball game in a long time on the college diamond. The players were picked up and could not be said to represent any particular nine. The playing was not what it should have been, even with the nines that played, and when the final balance was drawn it was found that the nine picked mostly from the Santa Fe Central men was one score to the good. The fact that one nine came from the Santa Fe Central workmen gave the impression to many that it was the Santa Fe Central team playing, but this was erroneous.

It is said that the Santa Fe Central boys will cross bats with the Las Vegas team on the college diamond next Sunday. Negotiations to that effect have been in progress for some time and it was at one time thought the game would be pulled off here yesterday.

Summer Tourist Rates to Colorado Points. On sale daily via the Santa Fe from June 5 to October 31, good for return passage until October 31, to Denver and return \$22.55. Pueblo and return \$17.55. It's Your Liver! Your appetite is poor, your heart "flutters," you have headaches, tongue is coated, bad breath, bowels constipated, bad taste in the mouth? If not all of these symptoms, then some of them? It's your liver.

Herbine is a natural vegetable remedy, containing no mineral or narcotic poisons. It will correct any or all symptoms, make your health, appetite and spirits good. At druggists, 50 cents.

MINES AND MILLS

SOCORRO COUNTY.

El Republicano of Socorro county, reports that there is great mining activity at Magdalena, Cat Mountain, Chloride, Mogollon, Ocuras, Water Canon, Rosedale, San Andreas and San Lorenzo camps. Mills and reducing plants have been erected and at Magdalena especially the production of zinc will be very large. During the first seven months of this year there were filed in the office of the probate clerk at Socorro 241 mining locations.

Nathan Hall at Water Canon, is working double shifts on his 2,000-foot tunnel on the Little Baldy group. Of this, 850 feet have been completed, passing through a strata of lime rock in which there was a good showing of gold. The main lead will be cut before the 2,000-foot mark is reached.

El Republicano speaks of a new mining camp that is being established across the river from Socorro, the leading propositions being the Jenkins and Bell mines which will soon be producing.

The new mill of the Mogollon Gold and Copper Company at Mogollon has a capacity of fifty tons per day which will save 80 to 92 per cent of the value in the ore. The mine is lighted by electricity and will be tracked and piped. Pneumatic machine drills will be installed, the contract having been given to the Sullivan Machine Company. The Queen vein and several others of the rich veins are visible at the surface. Where the vein crosses Mineral Creek the straight, well-defined layer of mineral juts up in a rocky pinnacle twelve or fifteen feet above the ground.

The big steel stamp at Cat Mountain twelve miles from Magdalena, is in full operation. It is one of the largest in the territory and was purchased by the Socorro Gold Mining Company from the Timber Peak Company. It is a large steel frame building covered with iron sheeting and contains twelve stamps. It employs a large force of men. Cat Mountain has become quite an important mining camp and new ore discoveries are being announced right along. George A. Byron is the superintendent of the Cat Mountain mines.

SIERRA COUNTY.

Hon. Warner Miller, ex-United States senator of the state of New York, and president of the Sierra Consolidated Mining Company, is at Hillsboro, looking over the company's properties. His company recently purchased the Snake and Opportunity mines

near Hillsboro and about twenty adjoining properties. A new stamp mill and pumping plant are to be erected on the properties, work on the stamp mill to begin immediately. R. H. Hopper is the manager and he has planned to install an electric plant to be erected on the Rio Grande river which will furnish the power. Between \$150,000 and \$300,000 worth of ore have been located in the Snake mine.

A 100-ton run of fine ore from the Empire mine is being made at the Porter mill at Hillsboro.

A. S. Gubbs has arrived at Hillsboro from San Francisco to take charge of the Hillsboro Gold Mining and Milling Company's mill.

Work on the Great Eastern near Hillsboro is now 225 feet under cover. The South Percha Gold Mining and Milling Company operates the mine. There are 2,000 tons of 48 ore on the dump. A new mill and machinery will be installed by September 1.

Two carloads of concentrates and high grade ore have been shipped by the Silver Monument from Hillsboro. There is a body of high grade ore in sight on the mine.

A good body of high grade ore is being developed on the Columbus near Hillsboro.

The machine drills of the Indiana Mining and Development Company in the Apache mining district, were started last week.

Work is to be resumed on the Confidence at Fairview. A force of men under Thomas Seales is rebuilding the road to the mine.

TAOS COUNTY.

At a cost of \$1,000 a road has been constructed from Red River to Placer Creek. It opens up a valuable section of mineral land.

The Jayhawk owners at Red River commenced hauling ore this week over the new road from their mine to their mill.

Mr. and Mrs. J. B. Maurer of Pueblo, Colo., have taken up their residence at Red River where Mr. Maurer is interested in the Golden Treasure.

A. F. Hohenbeck of Trinidad, Colo., and H. L. L. Anderson and J. Anderson of Trinidad, Colo., are at Red River looking after their mining property.

A. B. Smith and N. L. Addis of Trinidad, Colo., have arrived at Red River to do their assessment work on a claim on Pioneer Creek which they located a few weeks ago while visiting and prospecting in that section.

JETT AND WHITE ON TRIAL.

Brother and Sister of the Murdered Man Testify for the Prosecution.

Cythiana, Ky., Aug. 3.—In the trial of Jett and White for the murder of J. B. Marcum, today, Edward Marcum, brother of the deceased, corroborated the testimony of his sister, Mrs. Johnson, in her statement about the armed men being placed in the rock quarry near Marcum's house, and also concerning the reception of threats by his brother and that his brother remained in his home for at least a year before his death on account of these threats. Calloway Strong testified that he asked White to drink with him before the shooting and White said he "was looking for a man to come out." Both witnesses located both Jett and White at the court house before the shooting and in a crowd of people after the shooting.

Goodloe Combs, one of the witnesses for the prosecution in the Jett and White case now on trial here died today of appendicitis. He was one of the most expert rifle and pistol shots in the mountains of eastern Kentucky. He was sentenced to life for killing Mr. Rose at Clay City, but was pardoned after serving some years.

Says He Is Not Guilty.

Ironton, Ohio, Aug. 3.—Assistant Postmaster M. W. Abele, who was arrested last night charged with embezzling government funds through contract for livery hire, today gave bond for his appearance here on August 11, before Commissioner Thompson. Abele says he will be able to prove his innocence.

And Still They Come.

New York, Aug. 3.—Six thousand more aliens entered the United States through this port last month than during the same month in last year. The total for July of this year was 42,000, compared with 36,000 for July, 1902, and 28,000 in the same month in 1901.

PUTS AN END TO IT ALL.

A grievous wall oftentimes comes as a result of unbearable pain from overtaxed organs. Dizziness, backache, liver complaint and constipation. But thanks to Dr. King's New Life Pills they put an end to it all. They are gentle but thorough. Try them. Only 25c. Guaranteed by Fischer Drug Co.

DYSENTERY CURED WITHOUT THE AID OF A DOCTOR.

"I am just up from a hard spell of the flux" (dysentery) says Mr. T. A. Pinner, a well known merchant of Drummond, Tenn. "I used one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take. For sale by all druggists.

THE DEATH PENALTY.

A little thing sometimes results in death. Thus a mere scratch, insignificant cuts or puny boils have paid the death penalty. It is wise to have Bucklen's Arnica Salve ever handy. It's the best salve on earth and will prevent fatality, when burns, sores, ulcers and piles threaten. Only 25c at Fischer Drug Co.

HERBINE

Restores the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and the over-indulgence in food and drink. Herbine acts quickly, a dose after meals will bring the patient into a good condition in a few days.

G. L. Caldwell, Agt. M. K. and T. R. R., Checotah, Ind. Ter., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." Fifty cents at Fischer Drug Co.

The bridegroom is never of so much importance as the bride, and she is not of so much importance as her clothes.

END OF BITTER FIGHT.

"Two physicians had a long and stubborn fight with an abscess on my right lung," writes J. F. Hughes of Du Pont, Ga., "and gave me up. Everybody thought my time had come. As a last resort, I tried Dr. King's New Discovery for Consumption. The benefit I received was striking and I was on my feet in a few days. Now I've entirely regained my health." It conquers all coughs, colds and throat and lung troubles. Guaranteed by Fischer Drug Co. Price 50c and \$1. Trial bottles free.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, lodging and bathing, \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

THE GIGGLING GIRL.

If you tell her she's modest or tell her she's vain,
She'll giggle.
She heeds not the fact that it gives her a pain,
That giggle.
Though you may address her in serious key,
Make speech that presents no occasion for glee,
Or even for smiling, her answer will be
A giggle.
She runs to the door when her Chawley boy rings
And giggles.
While helping him take off his cold winter things
She giggles.
When seated for sparking within the bright rays
Of dollar per gas or the grate's cheery blaze
She answers the sugary things that he says
With giggles.
In church if she catches a girly chum's eye,
She giggles.
There's no provocation, she doesn't know why,
Just giggles.
She'll arch up her eyebrows like back of the cat
That stands off the dog in the rear of the hat
And give her eyelashes a humorous bat
And giggle.
If called to the bier of a dead, silent friend,
She'll giggle.
If Gabriel's tramp should bring time to an end,
She'd giggle.
If up to the great judgment bar she were led
To list to her fate with the quick and the dead
She'd think it was funny and shake her fool head
And giggle.

How William Strengthened His Memory

MR. WILLIAM THOTLESS is a pleasant, amiable, rather absent-minded man, with a chronic tendency toward forgetting to mail his wife's letters. If that was as far as his forgetfulness extended he might have borne it with humility. But when it reached the degree of making him ridiculous he began to despair.

It was such an insane thing to have a man ask him where his hat was, only to discover he had been walking for blocks without it, or to take his wife to the races and then drive home without her—forgetting, in fact, all about her. That was a dreadful day for Mr. Thotless, and it took him weeks to live it down.

But the crisis came all in one evening. They had a pretty, comfortable home on Sixtieth street, about three blocks from the elevated. It was raining, and Mr. Thotless conceived the happy idea of pleasing his wife by investing in some fine hot rolls at the bakery, a few blocks from his home.

He smiled as he lowered his umbrella to climb the elevated steps, and continued to smile as he bought his ticket. When the train came to a standstill he gallantly allowed a lady precedence and then politely boarded the train, first trying to raise his umbrella, with the absent-minded smile still on his face. But instead of raising the umbrella he knocked off the hat of a stout German, poked an elderly lady in the ribs, and got all tangled up in the blonde hair of the lady standing just ahead of him.

There was a general look of astonishment on the faces of the other passengers, which turned into a laugh, and Mr. Thotless suddenly awoke to the fact that he was making himself ridiculous.

But the rolls were still uppermost in his mind. On the corner stood a drug store and beside it the bakery shop he sought. He marched cheerfully into the first door he came to, and, addressing a superior-looking young man behind a soda water counter, said:

"Give me half a dozen fresh rolls, please, and I want them very hot."

The young man looked puzzled. He had heard of a good many drinks in his day, but this one was entirely new to him.

"Would you mind repeating your order?" he asked. "I didn't quite catch it."

"Rolls, man, rolls!" shouted Mr. Thotless testily. "Don't you know what rolls are? Bread! Hot bread!"

The young man resumed his superior attitude. "Oh," he said, airily, "we don't make them here. We leave that to the bakery next door."

Then Mr. Thotless awoke from his trance to realize for the first time that he was in the drug store. He meekly apologized and went out. But when did his misfortunes ever come singly? He walked in the next door and again gave his order for rolls, this time to a pert young woman behind a wire screen.

"Say, mister, this is a drug store," she giggled. "We don't sell hot rolls; we sell the cure for the indigestion you get after eating them," and she laughed again joyfully at her own wit.

As Mr. Thotless made his hasty egress he heard the voice of the superior young man say: "That dern fool has just been in this door asking for those same rolls," and their jeering laughter followed him all the way home.

But his troubles were not yet over. Armed with the rolls at last, he walked peacefully on until he reached Sixty-first street. There was one thing he never forgot to do; that was to look at the number of the house in order to avert any tendency toward mistakes, for he was well aware of his weakness. It was the right number, so he pulled out his key and thought of the rolls so hot and snug under his arm and of Maria's pleasure, and chuckled indulgently to himself.

It occurred to him that the hall

looked queer and that he had never seen that hat rack before, but his wife had always been a great hand at changing things about. But he could have taken his oath that that paper always had been red. "Strange," he thought, "how little a man can really be relied upon to remember these details."

"Marie!" he called gleefully. "Where are you, pet?"

"An' who be you, to be addressing me thus?" came a voice from the basement.

"A new girl," sighed Mr. Thotless. He remembered now that Maggie had given notice.

"I'm calling your mistress," he said, with dignity. "Where is she?"

"An' share, why should I be telling the likes of ye?" came the rather uncivil answer as Marie's red head and arms akimbo appeared at the top of the steps.

"Who let you in?" she shouted, with rising fury. "An' state your business, quick."

Mr. Thotless began to grow angry. "Where do you come from?" he shouted back.

"Where do I come from, indeed! An' what business is it of yours where I come from? I come from the County Cork, if ye must know, an' I'm an honest woman as has had her place for 14 years and knows an honest face when she sees it, which is not yours, sir, a-coming into the houses of decent people like 'the sneak thief which ye are!' and she paused, not from lack of words, but from lack of breath. "Ef ye don't git out of here in double-quick time I'll throw ye out meself. I'll have the whole police force down on ye," she added, threateningly, and looked quite equal to the purpose.

"Isn't this No. 77?" asked Mr. Thotless, beginning to feel a horrible misgiving.

"Yis."

"Isn't it Sixtieth street?" with more assurance.

"Indeed it is not. It's Sixty-first street you're in, and I reckon ye knows it pritty well, too. But mark ye, if I be a hearing of ye a breaking into any houses on Sixtieth street—"

But she got no further. Mr. Thotless made a bold dash for the door and was down the street as the faint echo of the threat sounded in his ears.

That was why the very next day, when a young man came into his office with a book giving rules on how to strengthen the memory, Mr. Thotless dropped his work at once and gave four dollars for the volume.

"You see," said the young man, in explanation, "all you have to do is to follow the rules and memorize these numbers. Why, sir, at the end of the week you'll find you can remember whole lectures if you want to."

"How delightful," said Mr. Thotless. "I don't care so much about the lectures; the practical things are what I'm looking for."

"Oh, that's all right," said the young man, glibly. "Naturally, if you can remember one thing you can remember another," he explained, vaguely. Then he departed, leaving Mr. Thotless in blissful possession of his memory strengthener.

All day he forgot things—forgot to write a letter, forgot to send a telegram, forgot to send over to the bank in time before it closed—forgot, in short, pretty much everything he had wanted to remember, but he was buoyed up with the hope that soon all this would be changed. He was even cheerful after he had gone into a shop, and, putting his cane on the counter, took up the feather duster which was lying near it and jauntily carried it for a block before he discovered his error.

At last the day was over. He took his book in one hand and his overcoat on his arm and boarded the homeward train. And really that book was splendid. Before he had reached Fifty-ninth street he had mastered a whole page of intricate numbers. He was jubilant, and walked home with the elastic tread of a boy.

"Marie," he said, showing his treasure to his wife, "I have the finest memory strengthener you ever saw. All you have to do is to study according to this method and you can remember anything you want in five minutes. No more forgetting of letters, eh, my love?" he queried, playfully.

But Marie was not listening attentively. She was looking him over critically and he felt instinctively that something was wrong.

"William," she asked, reproachfully, "where is your new overcoat?"

And then William dropped his book and set up a great cry: "I left it on the train," he said, sadly. "I was reading this fool book and forgot it completely."

Since that day Mr. Thotless has let bad enough alone, and he is willing to give that memory strengthener to anyone who wants it. But Marie finds it useful when she has letters to mail, for she just shows it to her husband, and somehow he never forgets her letters.—N. Y. Times.

The Great West

has been made since the first Studebaker wagon was made. Indeed the Studebaker wagon helped to make the West. It has been one of the most efficient aids to the advancement of civilization by making transportation easy for the pioneer. Many of the first men in the West took the Studebaker with them. They are still buying Studebakers, having learned their value by experience. The Studebaker is better to-day than ever before.

Studebakers also make a full line of all kinds of vehicles, harness, etc. They control entire output of the World Buggy Co. and make the "Liner Line" of vehicles. All dealers handle Studebaker goods. Write us for catalogues, etc.

Mr. and Mrs. Western Bascome of St. Louis, will arrive in Santa Fe during the first part of this month.

On August 19, Mrs. Bascome will present to the Historical Society, a life-sized painting of her father, the late General Stephen W. Kearney, the first American Governor of New Mexico, and the man who marched into Santa Fe and took possession of the town without the shedding of a drop of blood, and who really wrested the vast Mexican cession from Mexico.

The exercises on this occasion will be most interesting and appropriate.

Many of the heroes who were with General Kearney on this expedition will be present from different points in the territory, and the United States. Speeches, appropriate to the occasion, will be delivered and nothing will be left undone toward making the event a memorable one.

Colonel J. Frank Chaves, who for so many years has been president of the council, and who is now the superintendent of public instruction, has interested himself in the movement and has lent much aid toward bringing about conditions that will help to make the occasion of the presenting of the portrait of General Kearney all that it should be. Colonel Chaves himself will have many interesting and patriotic experiences to relate.

The presentation will be under the auspices of the Historical Society.

LAND SCRIP.

By the use of so-called land script, title can be obtained to government land without cultivation or residence thereon. All you need to do is to give description and show the land to be of the proper kind; we do the rest. By reason of the exhaustion of the supply which has been quite limited the price is advancing. We have a small amount yet on hand to sell, that is fully guaranteed. We also deal in real estate, loans and investments.
