WAR IN KENTUCKY.

Republicans Trying to Organize Legislature at London.

Railroad Men Indicted for Man- slaughter Because of Wreck.

Hemp Ports Being Opened in the Islands South of Luzon.

BRYAN SPEAKING IN MASSACHUSETTS.

Frankfort, Ky., Feb. 3.—Chairman John Barrett, of the republican joint caucus, has issued a call for a session of the legislature Monday at 4 p. m. This is taken to indicate that there will be an attempt to organize the legislature and elect new officers. To make a quorum it will be necessary for troops to be sent and bring to London enough demerit for that purpose. A leader of the republican party says: "We will elect all the legislative officers and elect Gov. Bradley to the United States senate, thereby getting the contest in the senate which will bring a decision from competent authorities."

GOEBEL WARRS.
Frankfort, Ky., Feb. 3.—Dr. E. K. Hume came from Governor Goebel's room a few minutes before 9 o'clock, and reported his patient a little worse. The condition of the patient the doctor described as extremely dangerous, with chances in favor of death.

GOEBEL HAS RELAPSED.
Frankfort, Ky., Feb. 3.—Shortly after 10 o'clock, Governor Goebel suffered a severe sinking spell, and grew worse so rapidly that it was thought the end was not far off. Stimulants were hastily administered, and the patient responded slowly. His condition is alarming.

GOEBEL, FEB. 3.—At 12 o'clock, Dr. Hume made the following statement: "I am sorry to say Goebel is decidedly worse. He is very restless, and apparently losing strength. Should we succeed in restoring his stomach to normal condition, so the governor can receive some nourishment there are hopes for him. The morning the governor was shot he was sick at the stomach, and went to the state house without breakfast. He has had practically no nourishment since."

GOEBEL NEAR DEATH.
At 2:35 p. m. Goebel was very low, and is kept up by oxygen pumped into his lungs.

GOEBEL'S PHYSICIANS HAVE
abandoned all hope. Efforts are being made to keep him alive until his brother arrives from Arizona on a special train due at 4 p. m.

DISPATCH FROM DEBOW.
Chicago, Feb. 3.—A special from Washington says that United States Senator Debow, of Kentucky, sent a brief telegram to Governor Taylor advising him to allow the state legislature to meet in Frankfort.

SUSPECT ARRESTED.
Frankfort, Feb. 3.—Authorities at Louisville telephoned to County Judge Moore to-day asking if James Lester Sutton, who was arrested and taken to Louisville last night on the charge of having shot Goebel, should be held. Judge Moore replied to hold Sutton for the present.

INJUNCTION ISSUED.
Frankfort, Feb. 3.—Judge Cantrell has issued a temporary injunction restraining Governor Taylor from interfering with the legislature and removing the seat of that body to London, Ky.

The temporary injunction is to remain binding until February 8, when a hearing to make it permanent will be held before Judge Cantrell, at Georgetown, Ky. No attorneys for defendant were present. Judge Cantrell instructed Sheriff Suter to make no effort to present the order of the court to Taylor. The judge directed that it be allowed to remain binding without service because of the danger threatening the man who should undertake the task and results that might ensue owing to the excited state of the public mind.

Sensor-elect Blackburn arrived from Washington this morning, and held a consultation with ex-Congressman Hendrick, Lieut. Governor Beckham, J. Andrew Scott, J. A. Pryor, Attorney McQuown, Representative Cantrell, G. W. Hickman and Speaker Trimble. The determination of the federal government not to interfere with the course of events in Frankfort until actually necessary was evidently gratifying to the democratic leaders. Blackburn strongly urged the necessity of preserving the peace at all hazards and allow matters to proceed to a conclusion in the courts.

EXODUS FROM FRANKFORT.
Frankfort, Ky., Feb. 3.—Republican headquarters at Frankfort are practically deserted. Campaign Manager Seabee has gone to his home at Henderson, and with the exception of the capitol guard, the democrats have the city to themselves. There was a general exodus of republican representatives and senators this morning in the direction of London. Several cases of rifles and a large quantity of ammunition was forwarded to London last night by Adjutant General Collier. He says he expects no trouble, but wishes to arrange matters for any emergency. Governor Taylor has, for the time being, at least, given up the idea of going to the republican seat of government, and will remain at the executive building at Frankfort.

COMMITTED SUICIDE.
Unknown Man Kills Himself With Poison at Hand.

Special to Citizen.
Hend, Feb. 3.—An unknown man committed suicide last night. Two bottles of laudanum were found, and a pawn ticket from H. Simpson's loan office, bearing the name of P. S. Elise. The man resembles Robert Allen, the missing Longmont, Colo., man. He is about six feet high; no marks on person; well dressed.

Train Men Indicted.
New York, Feb. 3.—As a result of the wreck of the Buffalo train, the grand jury of the court of quarter sessions at Paterson, N. J., found indictments against the officials and employees of the Delaware, Lackawanna & Western railroad, charging them with manslaughter. The indictments are the outcome of the wreck on the Lackawanna road near Paterson depot, on Thanksgiving evening, when seven persons were killed, and thirty-five injured.

Bryan Speaks.
Holyoke, Mass., Feb. 3.—William J. Bryan addressed large audiences to-day at Chicopee and Springfield. He will make a speech before a mass meeting here to-night.

Opening Hemp Ports.
Washington, Feb. 3.—General Otis' latest report of military operations in the Philippines shows that rapid progress is being made in opening up the hemp ports of the islands south of Luzon. Col. March is in command of the expedition into the islands of Samar and Leyte, and reports the capture of three of the most important towns in the islands and large quantities of hemp.

Carpets: Carpets: Carpets!!!

A meeting of the Commercial club is called for this evening at 8 o'clock. Considerable business is to be transacted, and a proposed amendment to the by-laws is to be acted upon. Therefore, every member is urged to be present.

Albuquerque lodge No. 336, I. O. B. B., will meet to-morrow at 11 o'clock sharp. All members are requested to attend. H. N. Jaffa, secretary.

Emil Kleinwort, the well-known butcher, came in from the south last night, bringing with him 187 head of fine cattle.

V. B. Crosby, deputy district court clerk, who was on the sick list the past few days, was up and around this morning.

WAR IN SOUTH AFRICA

Boer Loss at Ladysmith 1,600 Killed and Wounded.

General Buller Supposed to be Advancing With His Army.

Senate Committee Begins Testimony for Defense in Clark Case.

WEEKLY BANK STATEMENT.

Starks Spruit, Feb. 3.—Commander Oliver, of the Orange Free State, in a speech to the Boers at Ladysmith, said his men were almost surrounded at Stermberg, and unless reinforcements were forthcoming they would be compelled to abandon their position. He admitted that in the recent fight at Ladysmith the Boers lost 1,100 killed and 600 wounded. Many of the colonists who fought at Stermberg have gone back to their farms and refused to return to active service, though threatened with death. Among those who are some conspicuous Boers who originally invited the Free States to invade Cape Colony.

NOTHING FROM BULLER.
London, Feb. 3.—2:30 p. m.—The war office is silent in regard to General Buller, but there is every reason to believe that he is continuing his movement upon Ladysmith. Those in a position to know confirm his reported retreating of the Tugela river, and believe he was engaged yesterday. A message from Ladysmith, Thursday, saying that the Boer forces are leaving again and that the besieging force is considerably diminished, tends to confirm this.

Field Marshal Lord Roberts has notified the war office that forty Highlanders, previously reported killed at Magersfontein, are prisoners in Pretoria.

BOER ARMY AT TUGELA.
London, Feb. 3.—Major Bathurst, who was wounded at the battle of Colenso, arrived at Southampton to-day. He says there are 20,000 Boers at the Tugela river, but that General Buller can get through if prepared to sacrifice 5,000 or 6,000 men.

REPORT DENIED.
Berlin, Feb. 3.—The German foreign office denies that Dr. Leyds, diplomatic minister of the Transvaal, is attending the meeting of the League of Nations in London.

Weekly Bank Statement.
New York, Feb. 3.—The weekly bank statement shows a surplus reserve increased of \$1,592,200; loans, increase, \$11,249,800; specie, increase, \$5,002,600; legal tenders, increase, 338,000; deposits, increase, \$15,391,200; circulation, increase, \$225,800.

The banks hold \$30,871,275 in excess of requirements.

WAR IN MEXICO.

Gen. Torres Defeated and Killed by Yaqui Indians.

Santa Teresa With Indians, Who Are Well Armed.

D. M. Burns Withdraws From Senatorial Race in California.

GEN. TORRES DEFEATS FILIPINO INSURGENTS

Blanco, Ariz., Feb. 3.—A dispatch was received here last night from Guaymas conveying the news that Gen. Lorenzo Torres, commander of the Mexican forces in the Yaqui war, was killed at Bacolet mountains. Later advices are also that a battle was fought between the Yaquis and Mexicans on January 27, the Mexicans then being under command of General Torres. The fighting occurred on the Guaymas desert, fifty miles east of Guaymas. The Yaquis withdrew and were not pursued. The number engaged was 2,000 on the Mexican and 3,000 on the Yaqui side. Nine Yaquis, thirty-one Indian women and twenty-six Indian children were taken into captivity by the Mexicans. General Torres lost eighty-nine killed, 210 wounded and ten missing; while the Yaqui loss is put at ninety killed and wounded. The Yaquis still hold the mouth of the Yaqui river and the line of steamers between the river and Guaymas is not in operation.

Santa Teresa, in with the Yaquis at that point and has with her 3,000 fully equipped men. The Guaymas desert, in which Torres was repulsed by the Yaquis, is seventy-five miles wide. He western limit being within twenty-five miles of Guaymas. This is the only time of the year when the desert can be crossed with safety, owing to the fierce heat. If the Yaquis had succeeded in crossing the desert, Guaymas would have been at their mercy. Four hours delay saved the town.

Associated Press Afternoon Telegrams.
Official Paper of Bernalillo County.
Largest City and County Circulation
Largest North American Circulation

ALBUQUERQUE, N. M., FEB. 8, 1909

SELF-GOVERNMENT is having a severe test in N. Mexico.

THE REPUBLICAN PARTY has an easy victory in this territory next fall.

THE TERRITORIAL REPUBLICAN COMMITTEE is in session this afternoon at Santa Fe.

THAT GREAT RELIGIOUS PAPER, the Las Vegas Optic, announces the formation of a Bible tract.

THE COCHISE MINING DISTRICT is becoming known all over the United States, and plenty of capital will be secured to develop the rich gold mines of that district.

THE GOLD OUTPUT OF CRIPPLE CREEK, Colorado, mines for the month of January fell little short of \$2,500,000. This means an annual production of almost \$30,000,000.

SENATOR GORDON presents that rare anomaly in a Kentucky citizen of a total abstainer from intoxicants and tobacco. This is not so surprising when it is known that he was born in Pennsylvania. His claim to blue grass citizenship, however, has been thoroughly established since he killed an opponent in a street duel.

FLOODED WITH BILLS.

Twenty years ago the total number of measures introduced in both houses of congress during the long first session of the forty-sixth congress was 3,300, a number already beyond the possibility of intelligent consideration, even in committee. Ten years later, during the first session of the fifty-first congress, the enormous number of 17,013 bills and resolutions were introduced during the first session. Probably not one in fifty of them received a moment's consideration from anybody after it was introduced. This year, in four weeks, at the beginning of the session, the number of measures introduced exceeded 9,500, and the end of next week it will probably exceed the total number introduced during the entire session ten years ago, enormous as that was.

RURAL MAIL DELIVERY.

While rural free mail delivery is at present in the experimental stage it is evidently coming to stay, and will doubtless be placed on a permanent basis by the present congress. The demand for the continuance and extension from the farmers and suburban residents is unmistakable, and it is regarded as the most popular innovation introduced in the postal service in many years. The demand of the people is finding expression in congress from many senators and representatives. The system, as at present conducted is admirable, and seems to meet with general satisfaction wherever inaugurated, but the department officials have under consideration several suggestions designed to improve the efficiency of the rural free delivery, which will be put in force as soon as funds are made available for the purpose.

HARD TO REGULATE.

The grounds on which Judge Kohlman declared the Illinois anti-trust law unconstitutional—as special legislation since farmers were excluded from the operation of it—point out most clearly the defects that may almost every effort to regulate combinations in restraint of trade. Whenever any such legislation is proposed some interest, some element, comes to the front with strong influence and insists on the measure being so arranged that it will not operate against it. Thus it comes that in almost every act passed by a state legislature some exception is made whereby the application of the law is not universal.

BRITISH ARMY.

An official statement to the house of commons asserts that within a couple of weeks Great Britain will have 150,000 regulars in South Africa. 7,000 Canadian and Australian and 26,000 South African volunteers. Of this total of 213,000 troops, with 402 guns, all are now there with the exception of about 18,000 absent. Beyond comparison this is the largest force Great Britain ever put into the field. At the end of the Crimean war she seraped together 80,000 men. Wellington at Waterloo had 25,000.

THE TWO LITTLE REPUBLICS in South Africa are certainly facing fearful odds. Up to date they have met the invaders and worsted them in a half dozen pitched battles, and forced General Buller to retreat across the Tugela river. At Spionkop they inflicted on the British a loss of over 2,000 in killed, wounded and captured. Such people may be whipped by overpowering numbers, but they can never be conquered.

STATEHOOD FOR NEW MEXICO.

The Colorado Springs Daily Mining Record says that Colorado rejoices at all times in the progress being made by her neighboring commonwealths. The development in the mining industry in New Mexico, Arizona, Utah or Wyoming is watched with a friendly eye by all Coloradans. There are good mines in all these territories and states and it is largely Colorado capital and Colorado push that is bringing them to the front. The profits in mining therefore will come in a measure back into Colorado pockets. There is no reason for this state to stand aloof from her neighbors. It is for the latter reason that all Coloradans watch with interest the progress being made by New Mexico in the matter of statehood. The commonwealth which lies along the southern border of Colorado is a growing one and is desirous to enjoy the rights of statehood. It is probable that this boon will be extended to her people before long and when it is conferred it may be expected that all branches of industry, mining, manufacturing and agriculture, will receive an impetus. This will be true of

mining to a marked degree as it will, among other things, enable the establishment of a state department of mines similar to that now existing in Colorado, which is doing yeoman service for the chief industry of this state. New Mexico has great deposits of gold, silver, copper and iron, which are only awaiting the turn of the capitalist to develop them. With statehood conferred, New Mexico will present an attractive field for investment of outside capital.

REQUIRED BY DESERT ACT.

Proof of Expenditures Under the Law Must be Made Annually.

In a desert land contest in Idaho, a woman who expends the necessary \$1 per acre for improvements failed to make annual proof of such expenditures. The local and office officials ruled that she could not hold the land, but Commissioner Hermann reversed the ruling and allowed her to keep the land. But he now announces that he has by this action established no precedent, and says:

"The law which requires the expenditure, and the making of proof thereof, of \$1 per acre each year in desert land entries, is to be found in section 6 of the act above referred to. It is a plain provision, and it is the duty of the decision in the case of Thornton vs. Helms."

"To comply with this act, it cannot be doubted there are two things to be done: To make expenditure to the amount of \$1 per year for every acre sought to be reclaimed, and to make yearly proof of such expenditures."

"I do not hesitate to advise entrymen under the desert land act to take care to comply fully with each and every requirement of the law under which they seek to obtain their title, and I am of the opinion that failure, without sufficient excuse, to make yearly proof of expenditures is not less apt to be fatal than is failure to comply with the law in any other respect."

Man in the Future.

Many men of learning devote much time to the study of the man of the future. They all agree that he is to be very superior to the present generation. Great physical strength is prophesied, but this at least is within the reach of everybody. Hostetter's Stomach Bitters will bring health and strength to anyone who uses it faithfully. It cures constipation, indigestion, dyspepsia, biliousness, malaria, fever and ague, and liver and kidney troubles. It makes rich red blood, and with pure blood comes health. It builds up the whole system, putting vigor into the nerves and blood, drives into the muscles and health into the bowels. Give it a trial, and see that a private revenue stamp covers the neck of the bottle.

DRESS MAKING.

I am prepared to do all kinds of dress-making on short notice and guarantee every garment to be satisfactory. My work is Matchless in Style, Perfect in Fit, Reasonably Priced.

A cordial invitation is extended to the ladies of Albuquerque to call and see me.

Lewis Dennis, Salem, Ind., says, "Kodol Dyspepsia Cure did me more good than anything I ever took. It cures what you eat and can not but cure dyspepsia and stomach troubles. Berry Drug Co."

"Evil Dispositions Are Early Shown."

Just so evil in the blood comes out in shape of scrofula, pimples, etc., in children and young people. Taken in time it can be eradicated by using Hood's Sarsaparilla. In older people, the aftermath of irregular living shows itself in bilious conditions, a heavy head, a foul mouth, a general bad feeling.

It is the blood, the impure blood, friends, which is the real cause. Purify that with Hood's Sarsaparilla and happiness will reign in your family.

Blood Poison. — "I lived in a bed of fire for years owing to blood poisoning that followed small pox. It broke out all over my body, itching intensely. Tried doctors and hospitals in vain. I tried Hood's Sarsaparilla. It helped. I kept it and was entirely cured. I could go on the houseboat and shoot about it." Mrs. J. T. Williams, Carbondale, Pa.

Scrofula Scars. — "My baby at two months had scrofula sores on chest and arms. Local applications and physicians' medicine did little or no good. Hood's Sarsaparilla cured him permanently. He is now four, with smooth fair skin." Mrs. S. S. Wooten, Farmington, Del.

Hood's Sarsaparilla Never Disappoints

Hood's Pills cure liver bile, the non-irritating and cathartic to take with Hood's Sarsaparilla.

Louise M. Brehany.

Seldom has an artist grown into prominence with the rapidity of this lady. Although she has been a member of many notable organizations, her appearance as a star covers only two seasons; and yet in that time her name has become almost a household word all through the south and west, and this season she and her clever company have been the recipients of wonderful praise and attendance everywhere.

Louise Brehany, in addition to being a great singer, is a very beautiful woman, and her charm of manner possesses that wonderful fascination that brings her at once into close sympathy and harmony with her audience and to hear her render a song or ballad is to feel all the thrill and emotion of the song. There is no one in America that can approach her as a ballad singer. This year, at last, she has surrounded herself with a company of clever musicians, embracing W. Guil-

laine Saviet, that great pianist, whose charming work is always delightful. In little Olga Scholl, Mr. Thaurie has brought to public notice a wonderful young artist; her violin playing is really very unusual. She is the happy possessor of herself's Amati violin.

Miss Josie Monroe is a good contralto singer, and Louis J. Mintz, a young tenor of good voice and presence, who has had the advantage of studies abroad.

Forest D. Carr, that splendid basso cantante, who has been heard with the Sousa band and the De Vere International Opera company, make up the assisting artists.

In addition to a regular concert program, Miss Brehany and her company, do the Farm Songs from Martha, beautifully costumed, with Miss Brehany as Martha. Miss Brehany believes in beautiful dresses, and her costumes are the acme of the dressmaker's art, and she is the possessor of many rare and beautiful jewels.

Mr. Thaurie is beginning to reap a rich financial reward for his work, and his oft repeated assertion that the people will soon discover that Louise Brehany is the best concert and ballad singer America has produced in many years is being rapidly recognized by the concert manager, the public and the press. Keep your eye on the Louise Brehany ballad and opera concerts. Artists: Louise M. Brehany, soprano; Josie Beatrice Monroe, contralto; Miss Olga Scholl, violinist; Louis J. Mintz, tenor; Forest D. Carr, basso cantante, and the eminent pianist, W. Guillaume Saviet.

This company has been secured by the boards for February 12.

Th. Sauter.

The sunflower has lately come into extraordinary prominence, a valuable alkaloid (active principle) is obtained by a hybrid variety by a special process which is causing great interest to the medical profession. It has a powerful influence upon the blood. First tested in malaria, chills were promptly and permanently averted. Tested as a prophylactic (preventing disease) it was proven that no germ disease could get a foothold where immune tablets were occasionally used. Light subjects after taking them were inoculated with contagious diseases and escaped infection. Long standing malignant blood diseases, and even cancer, has yielded to this new preparation. The immune tablet Co., Washington, D. C., have sole control of this drug, and are forming a stock company for the dissemination of immune tablets. Southwestern Chilli Capsules, and other preparations all over the country. Shares (\$25) can be secured now at "ground floor" advantage. Profits cannot be estimated, but will be exceptionally large, so this product is a rival in pharmacy. They want stockholders who will watch their interests in different sections of the country liable to outbreaks of typhoid, yellow and other contagious fevers.

UNIVERSITY WON.

The Champion Guards' Team Defeated by the University.

Never was a crowd more surprised than last night, when the University boys defeated the Guards' champion basketball team in a hotly contested game at the Armory hall.

The first half was rather slow playing, but the second half was intensely exciting. The Guards played well, but had to give up. The score was 5 to 6, in favor of the University. After the game a delightful dance was enjoyed by all.
