NUMBER 80.

BULLER IN A TRAP.

**His Army to Be Cut Off from
Base of Supplies.**

**Boer Shell Factory Reported De-
stroyed Beyond Repairs.**

**Queen Victoria Speaks to the Assembled
British Parliament.**

BOMBARDMENT OF KIMBERLEY.

New York, Jan. 30.—A London dispatch to the Evening World says: Buller's danger is now forcing itself on military experts. The committee of national defense is gravely considering it. Lord Roberts, it is reported, called the committee that Buller and his forces arrive safely from their present position to the south of the Little Tugela river, they will be in imminent danger of having communications cut. Roberts pointed out that Buller has with him an immense transport train, carrying ammunition and supplies. This interferes with the mobilization of his forces.

Buller's main force is about twenty-two miles from his base at Pietermaritzburg. It is between the Big Tugela river, over which it retreated, and the Little Tugela river over which it has retreated, in order to begin its march to the base.

Littleton's brigade may still be on the north side of Tugela at Potgieter's Drift, though it is generally believed that it too retreated over the river. It will take several days for Buller's army to get back to its base. Meantime the Boers are in force on the Tugela, only a few miles away from that base. Last Tuesday they crossed the river and made a reconnaissance of the British camp, apparently with a view of ascertaining the strength of the force Buller left behind to guard his base and communications. The party that crossed came into contact with Buller's rear guard and killed several British. The reconnaissance showed a purpose on the part of the Boers to cut off Buller. Should they hurl an overwhelming force over the Tugela and crush the British at Chieveley they would have Buller in a trap.

SHELL FACTORY DESTROYED.
London, Jan. 30.—A special dispatch from Durban says that a refugee who arrived there from Johannesburg says that the destruction of the Boer shell factory at that place on January 20, was accomplished. The loss, it is added, is irreparable.

SKIRMISHES AT COLSBURG.
Pretoria, Jan. 27.—A dispatch from Colmsburg, Cape Colony, says that Commandant Delany reports that a large body of British advanced on January 26 and attacked them, causing the British to retire after suffering severe loss. The Boer casualties were two men slightly wounded.

General Grobler reports heavy fighting since daybreak, with the British in great force, endeavoring to surround the Boer positions. General Schoeman hastened to the assistance of General Grobler. Schoeman returned this evening and reports that the British were repulsed. The Boers held their position. The Boer loss, four men slightly, one severely wounded. The British loss not known, but must have been severe.

The bombardment of Kimberley continues. Other Boer forces are reported quiet.

QUEEN'S SPEECH.
London, Jan. 30.—The queen's speech at the re-assembling of parliament today contained the following: "In re-consideration of my South African colonies by the South African republic and the Orange Free State my people responded with devotion and enthusiasm to the appeal which I made them and the heroism of my soldiers in the field, and my sailors and marines who were landed to co-operate with them, has not fallen short of the noblest traditions of our military history. I am

deeply grieved that so many valuable lives should have fallen as a sacrifice, but I witnessed with pride and with heartfelt gratification the patriotic eagerness and spontaneous loyalty with which my subjects in all parts of my dominions came forward to share the common defense of my imperial interests. I am confident I shall not look to them in vain when I exert them to sustain and renew their exertions until they have brought this struggle for maintenance of the empire and assertion of its supremacy in South Africa to victorious conclusion."

WILL VISIT RUSSIA.
St. Petersburg, Jan. 30.—The newspaper announce that Dr. Leyds, diplomatic representative of the Transvaal, will spend a few days in this city next week.

SHELLING KIMBERLEY.
Kimberley, Jan. 30.—The wholesale bombardment which lasted all yesterday was resumed this morning. The Boers fired 300 shells into all parts of Kimberley. There were several casualties, including a woman and child. The favorite target appears to have been the hospital. A shell exploded close to the hospital, and a shell burst into the cemetery during a funeral.

NO NEWS.
London, Jan. 30.—2:52 p. m.—There is almost a complete absence of news from the British sources in South Africa up to this hour. The only reliable dispatch of any importance is the confirmation of the report that General Kelly-Kennedy, commanding the sixth division, has occupied Tugela, about midway between General French, at Renburg, and General Buller, at Sherkston. From this it is deduced that a junction of the three forces is being made, preparatory to bringing a plan of advance on Bloemfontein.

The Associated Press learns that Littleton's brigade is still in its original position at Potgieter's Drift, showing that part of Buller's forces are still north of the Tugela river.

BRITISH LOSSES.
London, 4:55 p. m.—General Buller reports casualties non-commissioned officers and men in action January 20 and 21, were seventeen killed, 233 wounded, twenty-seven missing.

Governor of Island.
New York, Jan. 30.—Capt. W. C. Neville, commander of the marine corps of the Brooklyn navy yard, has been appointed governor of the island of Tutuila, and received orders last night to prepare to go to the Samoan islands at once. It has been decided to establish a coaling station at Tutuila. A company of marines will sail with the Nashville to garrison the station.

Chicago Grain Market.
Chicago, Jan. 30.—Wheat—January, 65½; May, 67½.
Corn—January, 30½; May, 32½.
Oats—January, 22½; May, 23½.

Special Notice.

Will Go East.
Jacob Weinmann, of the Golden Rule Dry Goods company, will leave tomorrow evening for New York, where he will purchase the spring and summer stock of goods for the big establishment of which he is manager. Mr. Weinmann states that he will be absent until the first of March.

We have discovered almost 100 dozen odd shirts, worth \$1.25 to \$1.75, which are being closed out at 95 cents. Call and see them. Simon Stein, the Railroad avenue clothier.

GOEBEL ASSASSINATED.

**Kentucky Excited Over Shoot-
ing of State Senator.**

**He Was Shot From a Window and
Fatally Wounded.**

**John Whitaker, a Butler County Farmer,
Arrested for the Crime.**

GOVERNOR OF SAMOA ISLAND.

Frankfort, Ky., Jan. 30.—Senator Goebel was shot, and perhaps fatally wounded, at 11:10 this morning. The shooting was done by some man at present unknown. Goebel was walking up the sidewalk leading to the senate chamber, when a man in a second story of a building immediately to the east of the capitol fired upon him. Five shots were fired and Goebel fell fatally wounded. He was at once carried to the Capital hotel. Within ten minutes the streets were filled with men carrying rifles and revolvers. A guard was instantly thrown around the building from which the shots were fired in order to prevent the escape of the assassin. Men dashed into the building and up to the room from which the shots had been fired, but could find no one. The guard was redoubled. Adjutant General Collier, an ardent political opponent of Goebel, took charge of the work of finding the man who fired the shots.

The ball struck Goebel in the right side and passed through the body, coming out below the shoulder blade. At noon a report from Senator Goebel's room said that the wounded man is resting easy. Dr. McMurray and other Louisville specialists have been telegraphed for to assist in caring for the wounded man.

"They have assassinated Senator Goebel," was shouted into the home door as an instant after the shots rang out. Members rushed pell-mell over one another down the steps to the front of the building, coatless and hatless. In five minutes hundreds poured into the state house yard. It looked as if a riot would result. Cooler heads advised surrounding the building from which the shots came, and in less than three minutes fifty special police surrounded it and a detail began the search of the interior.

Goebel, in company with Col. Jack Chinn and Warden Eph. Lillard, was walking up the sidewalk to the capitol building. Goebel being on the right of the three. When two rods distant from the street to the capitol, a shot was fired from the third story of a building occupied by the offices of the governor, secretary of state, and other leading officials of the state. The ball struck Goebel in the side. He instantly dropped to the pavement. Chinn and Lillard seized him, Chinn saying as he did so: "I guess they have got you, Goebel." "Yes," replied the wounded man, "I guess they have got me sure."

While Chinn was holding the wounded man, supporting his head in his arms, four more shots were fired at both men. All struck close, making the dust fly. Both Chinn and Lillard stuck to their friend, neither moving from his side until the firing ceased, when Lillard ran for help.

Barland Whitaker, of Butler county, governor Taylor's home county, was arrested while trying to escape from the building from which the shots were fired. He was caught by John K. Miles, a man past 75 years of age. When searched three pistols were taken off his person. He loudly protested his innocence, declaring that he was a democrat. A heavy guard of police surrounded him on the way to the county jail, followed by hundreds. Cries of "Mob the assassin!" were heard all along the route.

Ex-Mayor Ira Julian was early on the scene advising the crowd to disperse. "Let the blood be on the head of the assassin," he said. "They openly boasted for months that Goebel never would be governor. They always intended to prevent it in this way. Let us have no rioting; if we do they are prepared to rush in federal bayonets."

Soldiers who have been on duty two weeks rushed from the arsenal already uniformed, within a few minutes after the attempt at assassination, to the state house. Guards were placed on all entrances and no one allowed to pass in.

SERIOUSLY WOUNDED.
Goebel's condition is not so good. He himself is calm, and insists that he will not die.

CROWDING OF THE CLANS.
There was talk on every side of placing

under arrest every man in the building where the shots were fired, even including Governor Taylor. He expressed himself immediately after the shooting as extremely sorry that such a thing had happened. Assistant Secretary of State Davidson said: "There has been about forty men, more or less, sleeping in the upper part of the building nearly a week. They were allowed to spend the night there and took their meals elsewhere. We do not know their names. We are more than anxious to lead every possible aid to the authorities in finding the assassin."

Members of the legislature died messages to their constituents. Within half an hour replies began pouring in, the general run of them being: "We are coming." It is expected that fully 5,000 men will arrive in Frankfort before tomorrow. All the military strength of the state will be called out and hurried to Frankfort.

The democrats are keeping exceedingly close watch over J. C. W. Beckham, contestant for the position of lieutenant governor. They declare that if Goebel dies there will be no governor but Beckham. It was reported at 1 o'clock that Speaker Trimble, of the house, declared that the legislature would be removed to Covington and that Goebel would be declared governor.

CALLING OUT MILITIA.
Louisville, Ky., Jan. 30.—Orders have been issued for a special train to be made ready at Lexington this afternoon presumably for transportation of the militia to Frankfort. The second regiment, Colonel Williams commanding, is stationed at Lexington.

ORDERED TO FRANKFORT.
Nicholasville, Ky., Jan. 30.—The troops that were here guarding the Kendall were ordered to Frankfort on a special train this afternoon, leaving ten soldiers to guard the jail.

ALLEGED ASSASSIN ARRESTED.
Frankfort, Jan. 30.—John Whitaker, a farmer of Butler county, was arrested on the charge of shooting Goebel.

DEFLORE THE ASSASSINATION.
Washington, Jan. 30.—The news of the shooting of Goebel, democratic contestant for governor of Kentucky, was received at the White House while the cabinet was in session. The president and all the members of the cabinet agreed that it is a most lamentable occurrence.

MONEY MARKET.
New York, Jan. 30.—Money on call nominally 2½ per cent. Prime mercantile paper 4½ per cent.

Silver and Lead.
New York, Jan. 30.—Silver, 59½; lead \$4.45.

DOINGS OF CONGRESS.

**Historic Naval Cannon Given to
the City of Nashville.**

**British Consul at New Orleans De-
clares Reported Interview.**

**Irish Nationalists Trying to Unite Their
Parliamentary Forces.**

REMAINS OF LAWTON AND LOGAN.

Washington, Jan. 30.—The bill providing that the cannon on the gunboat Nashville, from which the first shot was fired in the Spanish-American war, be condemned and presented to the city of Nashville, was passed.

Kelly (Miss.) rose to a question of privilege, calling attention of the house to the fraudulent representations made by alleged agents of a set of books known as "messages and papers of the presidents of the United States." Kelly (Miss.), who compiled the volumes upon order of congress, explained that congress voted him copyright of the volumes for his labor, and he made a contract with the publisher, from whom he received a small royalty. He was much opposed to fraudulent representations to any one.

Kelly disclaimed any intention of reflecting upon Richardson.

SENATE.
Hoar offered a resolution directing the committee on rules to consider whether some suitable plan could not be adopted for enlargement of the capitol, providing for the transaction of public business other than legislative business elsewhere so there may be sufficient space provided for convenient transaction of the business of the two houses of congress. After debate, the resolution was agreed to.

The resolution offered yesterday by Pettigrew calling upon the president for information whether the people of Samoa were consulted on the treaty recently made in relation to the islands and whether any protests had been received from Samoa, the treaty was laid before the senate. On motion of Davis the resolution was referred to the committee on foreign relations by a vote of 39 to 23.

Pettigrew asked unanimous consent to have printed as a public document the statement by Aguinaldo, giving the history of the Philippine revolt against the Spaniards. He said it was a document of great interest to the senate and the country, but on objection the question went over.

Bacon (Ga.) addressed the senate on the Philippine question.

British Consul Denies.
Washington, Jan. 30.—The state department anticipated action by the senate in the matter of the alleged criticisms of members of the body by Mr. Von Stittart, the British consul at New Orleans. Before the subject figured at all in the senate, the state department made inquiry into the matter. The result was a complete repudiation by the consul of the sentiments attributed to him. It is expected that this denial will be submitted to the senate committee of foreign relations, which was charged with inquiry into the matter yesterday.

Remains of Lawton and Logan.
San Francisco, Jan. 30.—The transport Thomas, bearing the bodies of General Lawton and Major Logan was sighted off Point Reyes.

IRISH UNITE.
Irish Nationalists Combine Their Forces in English Parliament.

London, Jan. 30.—All sections of the Irish nationalist were absent from the opening session of parliament, owing to their attendance at a meeting, at which Timothy Harrington, member of the harbor division, Dublin, is president.

Those in attendance included Dillon, Healy, John Redmond and many of their followers. Harrington and Redmond urged that the time had come to restore unity to the ranks of the parliamentary representatives of Irish nationalism. Redmond described the prestige of Great Britain as practically shattered, and said this is the time for promoting Irish union upon sound enduring basis, coupled with a policy of unity in combat and entire independence of all English political parties. He then moved a resolution declaring at an end division of Irish nationalist representatives and that henceforth they should act together as one united party.

The resolution carried unanimously. On Healey's motion three whips were elected for the united party.

ALBUQUERQUE, — JAN. 30, 1920

Meeting of Republican Territorial Central Committee.

Hughes, Rep. Com. of N. M.,
Jan. 30, 1920, 1920.

A meeting of the Republican Territorial Central Committee of New Mexico is hereby called to meet at the state of the secretary of the territory in the city of Santa Fe at 10 a. m. on Saturday, February 6, 1920, for the purpose of electing the delegates to the national convention of the Republican party to be held at Philadelphia, Pa., June 10, 1920, for the purpose of nominating candidates for president and vice-president of the United States, and to transact such other business as may properly be brought before the committee.

JOHN S. CLARK, Chairman.
MAX FROST, Secretary.

NEW MEXICO is for Senator Ekins for vice president.

DELEGATE FERRIS has favored this office with a copy of the congressional directory.

TO MAKE this city a manufacturing center, cheaper railroad rates must be secured on coal.

The democratic party of New Mexico has always pulled back against any public enterprise.

The Chama Tribune has been revived by W. H. Hildreth. May it live and prosper is the wish of THE CITIZEN.

The politics of the new paper to be established at Silver City is in controversy. The same may be said of the Silver City Tribune.

There are indications that New Mexico is entering upon a lively political campaign, and the law against "toting" pistols should be vigorously enforced.

Those who are opposing statehood for New Mexico should bear in mind that Montana received 37,000 additional citizens the first year after statehood was conferred.

The courts are deciding that nearly all the laws of the states intended to control trusts and corporations, are unconstitutional. It may become necessary for the people to wipe out a few of their constitutions.

We have probably been giving the Continentals too much credit for whipping the British in the Revolution. If a few Dutch farmers in South Africa could so easily twist the tail of the British lion, any first-class nation could whip that country inside of a week. Uncle Sam will take no more bluffs from John Bull.

The bill which is pending in congress to reclassify the railway postal clerks and to provide for an increase in the salaries of members of certain classes should become a law. At present the clerks are divided into five classes, and their salaries range from \$800 a year to \$1,400 a year. In case the bill referred to becomes a law, there will be ten classes, and the salaries will range from \$800 to \$1,800 a year.

An Illinois miner, named Ryan, who talked back to Chairman Bogie at the joint convention between operators and miners at Indianapolis, apologized to the convention assembled by saying: "I say that I had sufficient provocation to say what I did and make this statement in open convention. This is my apology to the convention." The Irishman who remarked that if he had said anything to be sorry for he was glad of it, is not in it with Mr. Ryan.

The occupation of Cuba by United States soldiers is likely to be a long one, if the erection of costly military barracks is any criterion. For instance, orders have recently been sent to expend \$70,000 in erecting a number in the province of Puerto Principe, where our soldiers have for a long time been quartered in tents. The best construction is authorized and there is nothing of a temporary character about the buildings. The cost is to be paid out of the island revenues.

The Native American, published by the people of the Indian school at Phoenix, A. T., says: "A white man, provided he behaves himself, is as good as an Indian." This is not so, the Indian is supposed to be better, because the government provides free education for the children of the Indian. He has special rights that the white man must respect. He has an agent provided that government expense to see that his rights are respected. The Indian pays no taxes, and cannot be forced to bear arms in defense of the country. He is a favored individual, and in a legal way is much better than the white American citizen.

ABOUT PATENTS
In a recent interview Commissioner of Patents Dillard said: "The shortest period in which a patent can be secured is seven weeks and it can be done in that time only by the attorney for the claimant conceding practically all the objections of this office. The work of this bureau is far closer up than ever before, but it is still about one month behind on original, and two weeks behind on amended applications. Ninety-five per cent of applications are returned to the attorneys to be amended, because they make too broad claims. This is proper, of course, because the value of a patent lies in the breadth and it is an attorney's duty to his client to fight for this. If he does not, the patent may be of little value when granted."

THE TARIFF
Signs are already given that in the coming campaign there is again to be a controversy over the tariff, that the industrial system of the country is to be disturbed again by the injection of talk for free trade, than which there is in the world no more dead issue. It will therefore be well for voters even thus early to give thought to what protection has done for the United States. Since 1875 until

the present time, with an interval of not quite three years, the nation has been committed to the policy of a protective tariff. The year first given is arbitrarily taken merely for convenience in the use of statistics. Since 1875 American exports have gained 103 per cent in volume, while those of the United Kingdom show an increase of barely 15 per cent. In 1890 we sent abroad products to the value of \$1,333,485,000, while England's trade of the same amount amounted to \$1,257,871,031. Twenty-five years ago the figures were \$497,253,717 and \$1,087,497,000 respectively.

MORE ROADS NEEDED.

The Santa Fe New Mexican says that this territory needs a straight north and south railway. When the Denver & Rio Grande, which comes straight down from Colorado, and the El Paso & North-eastern, which heads out from El Paso, are linked by the extension of about 150 miles which it is believed the former road will make from the capital city down through central Santa Fe county, the great mining interests being developed there, and thence due northward to the White Oaks country, the entire territory will be united much more closely. The probability is that this work will be done by the Denver & Rio Grande within a year or two. By that time the gap from Roswell to the Lincoln county coal fields and a road from the Texas Panhandle to Albuquerque will be built in all probability, and then one may reach any portion of the southern end of New Mexico in a day's ride, instead of having to travel twice the distance between the towns in the territory and around through Colorado or Texas to go from one place to another in New Mexico. Mora and San Juan counties can easily be reached by railroads. Then the people of the territory will mingle more, establish closer business relations, and work more in harmony for their mutual interests. The time is coming, if not so quickly as anticipated above, when such railway lines will be built, because resources will justify construction and traffic be created thereby.

THE PAPER TRUST.

The United States supreme court has sustained the action of the lower courts in regard to the paper trust, and has entered a decree allowing the foreclosure and sale of the thirty-nine paper mills belonging to the trust. The court speaks harshly of the "inexcusable conduct" of the promoters of the trust, but holds nevertheless that the innocent purchasers of the trust's bonds must be protected and are entitled to foreclose. The promoters fixed the stock of the trust at \$5,000,000 with the idea that thirty-nine mills would join. When only thirteen mills did so, they concealed this fact, issued \$2,788,000 of stock to the thirty-nine mills and divided the remaining \$2,212,000 among themselves, apparently in payment for their services in organizing the trust. The whole affair shows the ease with which the owners of properties absorbed by trusts can be deceived as to the facts, and defrauded.

GOTHAM'S UNDERGROUND RAILWAY.

A comparison of New York's proposed underground railway with those of other cities gives the best idea of its immensity. The New York Rapid Transit tunnel will be twenty-one miles (approximately) and cost \$35,000,000. It will take three years to build.

The Boston subway is two and one-half miles long and cost \$5,000,000.

The Paris, France, underground railway system is one and one-half miles long and will cost \$1,800,000.

There are three underground railway systems in London.

The metropolitan and district railways are almost 101 miles long and cost from \$1,000,000 to \$5,000,000 a mile to build.

The City and South London system is three and one-fourth miles long and cost \$1,199,850.

The Brooklyn bridge cost \$18,000,000.

Man in the Future.

Many men of learning devote much time to the study of the man of the future. They agree that he will be very superior to the present generation. Great physical strength is prophesied, but this at least is within the realm of possibility. However, the stomach of the future man will bring health and strength to anyone who uses it faithfully. It cures constipation, indigestion, dyspepsia, biliousness, malaria, fever and ague, and liver and kidney troubles. It makes rich red blood, and with pure blood comes health. It builds up the whole system, putting vigor into the blood and strength into the muscles and health into the bowels. Give it a trial, and see that a private revenue stamp covers the neck of the bottle.

Death of an Esteemed Lady.

Mrs. Ralph E. Twitchell died at Las Vegas yesterday afternoon at 6 o'clock. She was the beloved wife of Mr. C. O. Twitchell and had passed peacefully away. Mrs. Twitchell was an invalid for several years, and everything was done by her devoted husband to prolong her life.

Beware of Quack Remedies for Coughs that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and is made at Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c per bottle.

Kansas City Market.

Kansas City, Jan. 30.—Cattle—Heifers, 9,000 head; steady.

Native steers, \$3.05@3.05; Texas steers, \$3.00@3.30; Texas cows, \$2.50@3.50; native cows and heifers, \$2.00@3.25; store and feeders, \$1.50@2.50; bulls, \$3.00@4.00.

Sheep, 3,000 head, strong.

Lambs, \$5.35@6.25; muttons, \$4.00@5.25.

J. I. Berry, Logan, Pa., writes: "I am willing to take the oath that I was cured of pneumonia entirely by the use of One Minute Cough Cure after doctors failed. It also cured my children of whooping cough. Quickly relieved lung troubles, colds, grippe and lung troubles. Children all like it. Mothers endorse it. Berry Drug Co."

Corduroy and leather leggings for boys, jersey leggings for girls, corduroy bicycle leggings and ten-button beaver leggings for men and women at the Popular-Priced Shoe Store of C. May, 208 West Railroad avenue.

COCHITI MINES.

Latest Notes About the Mines of the Cochiti District.

WORK BEING PROSECUTED.

From the Bland Herald.

Thomas Abbott, the Cochiti canyon mining man, visited with his family in Bland a few days.

Richard Meyers came up from Albuquerque and will enter the employ of the Cochiti Gold Mining company.

Superintendent F. M. Johnson and wife, who have been in California for a couple of weeks past, returned to Albuquerque.

O. F. Posey, the popular and well-known mining man, came down from Utah and was inspecting the workings in the great milling and mining plant at Albuquerque.

The Summit is the name of a new claim which was located by John Hart and S. W. Young on Tuesday last week. The property is a northern extension of the Uncle Joe, a claim belonging to the Lone Star group. Situated as it is, and surrounded by some of the best paying mines in the territory, the owners have every reason to be jubilant over their recent discovery.

Rumors were afloat in Bland that W. C. Wynkoop, manager of the Cochiti Reduction and Improvement company, had secured a bond on the Hopedale, Good Hope, Allerton, Posey and Black Bird mining claims in Blue canyon. At the present writing we are unable to affirm or deny the report. No particulars could be secured regarding the transaction.

Electricians and machinists are busily engaged adjusting the machinery in the new 1,800 horse power plant at Madrid for the Cochiti Gold Mining company, and in all probability the great milling and mining plant will be in operation by electricity within a month or six weeks. Along this electric light and power line will be strung a telephone and telegraph line which is to connect the company's office with the power station at Madrid.

Excellent work is being vigorously prosecuted by a force of workmen on the tunnel which is to connect the Lone Star mine with the tramway. The air drills have not been started as yet, owing to several unavoidable delays. The engine and boiler room have been completed and a fire has been started under the boiler for the purpose of drying the brick and stone masonry. The air pipe line is extended to the various levels of the mine and all will be in readiness to begin operations with the new machine drills in a few days. It is also expected that work on the tramway on the hillside will be resumed in a short time, when all the little mine in the district will find employment thereon.

Extensive development work is being carried on by the Union Mining company on their property, under the able management of M. J. Church. Since the Union mine was purchased two months ago by this company, the property has undergone a great many changes, and the ore extracted has shown up well in the assays. Fifty-five feet of new work has been accomplished in the north and south drifts, and the work is being pushed as rapidly as possible. At the present time a force of men are engaged in timbering and leveling the old shaft, preparatory for hoisting ore. When the timbers are adjusted the shaft will be about 447 feet in the clear. In addition to various other improvements on this property, a new barn is in course of erection and will be completed in a few days.

Size doesn't indicate quality. Beware of counterfeit and worthless imitations of DeWitt's Kidney and Bladder Pills. DeWitt's is the only original. An infallible cure for piles and all skin diseases. Berry Drug Co.

A Dickens Night at the Orchestra Hall. We congratulate Manager Chas. F. Higgins upon a notable engagement that of Miss Jane Coombs, one of the world's greatest actresses, who will appear here on Thursday, February 2. In her marvelous creations of Lady Dedlock and Hortense in Charles Dickens' masterpiece "Bleak House" supported by her superb company. Seats at Matson's.

Brookmeier has received a stock of the improved graphophones and records, among the latter being all the latest music. Drop in and hear them.

When in Bland, eat and lodge with Myers & Smith. They are the well-known hotel and restaurant keepers of the Cochiti district.

Gentlemen! Do you want good shoes? \$1.50 and \$2.10, all our \$3.50 and \$4.50 shoes, at Galtney & Co.'s shoe sale. R. L. Washburn.

The largest graphophone ever brought to Albuquerque is on exhibition at Brookmeier's. Free concert daily.

SOCORRO POINTERS.

Batch of Personal Paragraphs from the Gem City.

Socorro, Jan. 29.—The second semester of the School of Mines began today. Two new students have joined the institution last week. They are Herbert Fielder, from Silver City, and Ed. Channey, from Shipley, Ontario, Canada.

Professor Herrick, of the territorial university, visited Water Canyon last week to look after some mining interests there.

W. H. Byrds is putting down a four-inch well on his place west of town. If the well turns out to be successful, Mr. Byrds will plant a large number of fruit trees this spring.

Kiango Baca has received \$407.80 in settlement for the damages which he sustained from fire a few weeks since. Jos. K. Smith is the local agent who made the adjustment, and Mr. Baca is well satisfied.

Joseph Price left for New York Saturday morning. He will lay in a supply of spring and summer goods, and visit his two daughters while there.

J. J. Leeson is very sick with pneumonia. Mrs. Leon B. Stern, of Albuquerque, visited friends in this city last week.

Dr. Swisher, formerly of a hospital, has removed to this place, where he will follow his profession. The doctor is residing at the Bismarck house.

Mrs. R. C. Dougherty and her grandson, Master Harry Bent, of Denver, are visiting at the home of Attorney H. M. Dougherty. The lady is the mother of Mr. Dougherty, and formerly resided here.

Chas. Harrower, of Peace Dale, R. I., spent a couple of days in Socorro last week. Mr. Harrower is a friend of Attorney Fitch, and will engage in the sheep business near Magdalena.

T. M.

YOUR FACE
Shows the state of your feelings and the state of your health as well. Impure blood makes itself apparent in a pale and new complexion, pimples and skin eruptions. If you are feeling weak and worn out and do not have a healthy appearance you should try Ayer's Cherry Pectoral. It cures all blood diseases where cheap sarsaparilla and so-called purifiers fail. Knowing this, we sell every bottle on a positive guarantee. J. H. O'Reilly & Co.

The Sunflower.
The sunflower has lately come into extensive cultivation here, and is a valuable addition to the list of crops. It is a hybrid variety by a special process which is causing great interest to the people here. It has a powerful influence upon the blood. First tested in malaria, chills were promptly and permanently averted. Tested as a prophylactic (preventing disease), it was proven that no germ disease could get a foothold where Immune Tablets were occasionally used. Light subjects after taking them were inoculated with contagious smallpox and escaped local infection. Long standing malignant blood diseases, and even cancer, has yielded to this new preparation. The Immune Tablets are sold by all druggists, and are under the control of the U. S. Government. They are a safe company for the dissemination of Immune Tablets, Sanfounder, Chas. Caplan, and other preparations all over the country. Shares (\$25) can be secured now at "ground floor" advantages. Price not estimated, but will be exceptionally large, so this product is without a rival in pharmacy. They want stockholders who will watch their interests in different sections of the country liable to outbreaks of smallpox, yellow and other contagious fevers.

G. H. Appleton, Justice of the Peace, Clarkburg, N. J., says, "DeWitt's Little Early Risers are the best pills made for constipation. We use no others." Quickly cure all liver and bowel troubles. Berry Drug Co.

HEADQUARTERS FOR
Leather, heavy work harness, buggy harness, express harness.

Saddles, collars, sweat pads, saddlery, hardware, etc.

Oak and hickory cut outs, Diamond Bronz shoe nails, etc.

O'Sullivan's rubber heels, Whale axle grease, castror oil, axle grease, coach oil, harness oil, etc.

Buggy whips, price to \$1.50.

Devon's ready paint, cheap paints cover 300 square feet, Devon's covers 300 square feet under any conditions, two coats.

Our prices are lowest market rates. Our motto, "We will not be underbid."

THOS. F. KELLEHER.
406 Railroad avenue.

Aker's Dyspepsia Tablets are sold on a positive guarantee; cures heart-burn, raising of the food, distress after eating or any form of dyspepsia. One little tablet gives immediate relief; 26 cents and 50 cents. J. H. O'Reilly & Co.

Talking and Dressmaking.
Mrs. H. E. Sherman has opened dressmaking and ladies tailoring rooms at New Armijo building, room 14, where the ladies are invited to call.

Notice to Stockholders.
A special meeting of the stockholders of the Co-operative Building and Loan association will be held in the office of the secretary on Tuesday, Jan. 30, 1920, at 8 p. m., to take action on proposed amendment to the by-laws.

CALVIN WHITING, Secretary.

Better Than Wealth
Is sound, rugged, robust health. But this cannot be had without pure blood. Upon the purity and richness of the blood depends the healthy condition of every organ. Hood's Sarsaparilla is the One True Blood Purifier. It has power to give good health.

Hood's Pills act harmoniously with Hood's Sarsaparilla. 25c.

At Your Service.
B. J. Parker, the new real estate man, is now prepared to give you bargains in vacant and improved property in our enterprising city. Call and see him. Office, No. 215 South Second street.

Generously Patronized.
Mrs. McFarland informs this paper that she is very grateful to the generous public for their kindness, and trusts that they will help her make the Albuquerque Floral park the prettiest spot in the city.

The homestead contest case of the Cerrillos Townsite Company vs. Camille Maras was heard yesterday forenoon by Hon. M. R. Otero, register of the federal land office in Santa Fe. Mr. Maras claims that a portion of land within the boundaries of the Cerrillos townsite is a homestead owned by him.

The Rowell Register says: "Karl A. Snyder, the attorney, and family arrived here this week from Albuquerque and are comfortably domiciled in their cozy home on Fairview addition, bought of J. R. Dudley."

Major W. H. H. Llewellyn has returned to Las Cruces from the east, where he was in a Boston hospital several months battling the Cuban fever out of his system. He says he is now in good health.

We consider our \$75 winter suits the greatest bargain ever offered in this city. Call and see them. Simon Stern, the railroad clothier.

Just a Cough

Not worth paying attention to, you say. Perhaps you have had it for weeks.

It's annoying because you have a constant desire to cough. It annoys you also because you remember that weak lungs is a family failing.

At first it is a slight cough. At first it is a hoarse "see." At last, extremely difficult.

quickly conquers your little hacking cough.

There is no doubt about the cure now. Doubt comes from neglect.

For over half a century Ayer's Cherry Pectoral has been curing colds and coughs and preventing consumption. It cures Consumption also if taken in time.

Keep one of Dr. Ayer's Cherry Pectoral Plasters over your lungs if you cough.

Shall we send you a book on this subject, free?

Our Medical Department.

If you have a cough, cold, croup, whooping cough, or any other lung trouble, write to the doctor free. You will receive a valuable remedy. Write to J. H. O'Reilly & Co., Albuquerque, N. M.

Visiting Mexico.
Page B. Otero, brother to the governor of New Mexico, and at present special agent in the New Mexico land office, also a lieutenant in the Cuban war, was in the city today on his way to San Rosalia, Mexico.—El Paso News.

All druggists guarantee every bottle of Chamberlain's Cough Remedy and will refund the money to anyone who is not satisfied after using two-thirds of the contents. This is the best remedy in the world for a gripper, cough, cold, croup and whooping cough, and is pleasant and safe to take. It prevents any tendency of a cold to result in pneumonia.

Edgewood Bottled Goods.
Silva Helmann, of the Edgewood Distilling company, Cincinnati, Ohio, spent the day here, and closed a contract with W. Faxon, president of the Edgewood Distilling company, in Lincoln county, Kentucky, distillery No. 76. Anybody wanting bottle pure whiskey, ask for Edgewood.

Lewis Dennis, Salem, Ind., says, "Kodol Dyspepsia Cure did me more good than anything I ever took." It digests what you eat and can't help but cure dyspepsia and stomach troubles. Berry Drug Co.

Leather, heavy work harness, buggy harness, express harness.

Saddles, collars, sweat pads, saddlery, hardware, etc.

LOCAL PARAGRAPHS.

Fresh home made mince meat, three pounds for 25 cents. SAN JOSE MARKET.
S. M. Ashenfelter, attorney of Silver City, was a passenger for the north this morning.
H. A. Hubbell, the county school superintendent, was a passenger for Alamosa this morning.
Fred Rankin, who was called to the city to attend the funeral services of his father, Major W. A. Rankin, left this morning for Roswell.
Cade Selvy, the well-known officer in the special service of the Santa Fe Pacific, is in the city to-day on business connected with his department.
Clement Highwater, who spent yesterday in this city, was a passenger for the territorial capital this morning, where he goes on some business with the governor.
The Kirsler Bros., the well-known cigar manufacturers of South Second street, will erect a new residence on the vacant lots on the east side of their business place.
Spend a few moments of your time with us and be convinced that we are in a position to offer you a selection of carpets and home furnishings goods unequalled in this territory.
C. K. Ballston, the railway cattle inspector with headquarters and home at Rincon, is registered at Sturges' European. He is here to consult with G. L. Brooks, the railway live stock agent.
Charley Metzger, who has served the San Jose market as carver for the past several years, expects to leave Saturday night for San Francisco, where he will take a Pacific coast steamship agent.
Postmaster Armijo informs THE CITIZEN that, for the accommodation of the people, the letter carriers of the city are authorized to receive and accept for registered letters. This will prevent the usual rush at the postoffice between 5 and 6 o'clock p. m.
George W. Shutt, of the Shutt Improvement company, with the civil engineer P. K. Harroun, left this morning for Algodones, the present official camp of the low line ditch. Mr. Shutt states that H. M. Fox, who has the contract for building the dams and flumes of the ditch, has arrived from Colorado, and is now on the ground arranging to commence his work.
J. P. Keeler, who was in the employ of W. L. Trimble & Co. up to a few months ago, has returned to the city and is planning to get back. He left here a short time ago to engage in mining in the state of Chihuahua, Mexico, and after landing there found that the climate and other necessary adjuncts to good health did not agree with him. Under the care of an Albuquerque physician and a rest-up in this climate he expects soon to regain back his health.
Prof. J. C. Carreras, of Las Cruces, is in the city, registered at the Grand Central. He has been on a tour to the towns north of the metropolis in the interest of a big mineral exhibit from this territory to

Rappe for Bs.

Over the Automatic Phone.
Hello Central! What's the matter with my phone?
I'll find out. What do you want?
Hahn's coal yard. I rung them up several times.
Oh, the phone's all right, only it's the bestest one in town taking orders for Cerrillos coal, and you'll have to call again in a little while.

MONEY TO LOAN

On diamonds, watches, etc., or any good security; also on household goods stored with me; strictly confidential. Highest cash prices paid for household goods.
T. A. WHITTEN, 114 1/2 South Second.

QUALITY COUNTS.

Cerrillos coal is in a class of itself—unapproached by any other coal mined in New Mexico. Sold by W. H. Hahn.
No State or City.
In the coal purchased from F. D. Marshall, 128 East Railroad Avenue.
LOAN OFFICE.
Simpson for loans on all kinds of collateral security. Also for great bargains in unclaimed watches. 209 South Second street, near the postoffice.
Special Sale.
Trimmed and untrimmed hats, at Mrs. L. H. Shoemaker's, all this week.
