SPECIAL TO TORRANCE

Santa Fe Central Placed Train at the Disposal of Editor Burke Sunday.

GROWING COMMUNITIES

Towns Along the Line of the New Road Building Rapidly and All Prospering.

A special train was run over the Santa Fe Central between this city and Torrance yesterday. The train was placed at the disposal of W. S. Burke of Albuquerque, and the party was in the personal charge of J. H. Harris, superintendent of the Santa Fe Central. The members of the party were W. S. Burke and Mrs. Burke, Miss Clara Olsen, private secretary to Governor Otero, W. H. Bartlett of the land office, and A. I. Livingston of the Daily New Mexican. The party was joined at Kennedy by C. C. Keyes of the superintendent's office, and at Estancia by W. P. Clark, land and industrial agent of the Santa Fe Central. W. N. Townsend went as far as Estancia and joined the party on the return. The run was made through Torrance and while there the members of the party were entertained at the home of Mr. and Mrs. Keyes.

The train left Santa Fe yesterday morning at 8 o'clock and was composed of one of the handsome new coaches recently received by the Central, besides a tank car. The train was in charge of Conductor James Carlisle and Engineer S. S. Marshall. Brakeman Clarence Palmer and Fireman Charles Gutterman were the other members of the crew. The first stop was made at Kennedy; the party while there visited the extensive establishment of the Dunlavy Mercantile company. Kennedy is quite a promising location and is the junction point of the Santa Fe Central and the Atchison, Topeka & Santa Fe systems. Considerable work that has been done in the way of platting a town site.

At Picture Rocks, a short distance beyond Clark a stop was made and the quaint markings that almost cover the smooth face of the cliff were examined. These strange characters were the work of the Indians many years ago and this has been a point of interest for years though known to comparatively few outside of the immediate locality. There is not known to be in existence any complete deciphering of these hieroglyphics. They are mostly ideographs and through the ravages of time some of the rocks have become displaced and have fallen to the base of the cliff. The markings however, can still be plainly traced, while those on the face of the cliff are very plain and easily followed. It is not altogether improbable that the Santa Fe Central will make this strange and valuable relic of the earlier life of the red man one of the attractive and interesting points that are to be found along the line of the new road.

To the top of the divide which separates the Galisteo and the Estancia plains the grade is heavy but the view is one of the finest that is to be had. The broad and fertile prairie is now dotted with the squatter settlements, these have suddenly sprung into existence within the past twenty months. There are quite a number of homesteaders located all along the line and more are daily arriving. The majority of the settlers just now are coming from Texas, and yesterday there arrived at Estancia a caravan consisting of fifteen wagons. At Willard there are some locators at work having in view the establishing of a colony of desirable settlers in that neighborhood. There is no reason why this region should not become the Mecca for the homesteader as water is to be easily had and there are all the conveniences in the way of obtaining goods and affording an outlet for the product of the ranch and farm that could be desired. One of the very notable facts is the question of fuel, and this is no longer a question but one that has found an easy solution. It is established that the Santa Fe Central will tap vast coal fields of excellent quality, sufficient to supply all the demands of the road. The great timber tracts that are stretched all along the line of the road and are so easy of access allow no discussion as to the obtaining of lumber and building material. The Jackson-Galbreth Lumber company of Alamogordo will establish at once extensive lumber yards at Estancia.

At Moriarty the outlook is most promising and there has already been much work done in the laying out of a town with the idea of making it quite a prominent point as the junction of the Santa Fe Central and the Albuquerque Eastern, which is now under construction. The physical connection of the two roads has been made and the track for some distance is already laid. There are now about sixteen miles of grading done and the water-

ONE KILLED-ONE HURT

Serious Smash-Up on the Chicago & Rock Island Saturday Near Logan.

Special to New Mexican.
Logan, N. M., Aug. 31—There was a serious wreck on the Rock Island between this point and Tucumcari Saturday night and one man is thought to be buried under the wreckage. Another was seriously injured and was taken to El Paso for treatment. Both men were tramps and were stealing a ride on the freight when the train left the track. The freight was running at a high rate of speed and suddenly left the rails, but from what cause it has not yet been learned. There were seventeen cars piled in a mass along, side of the embankment and the track was blocked for a number of hours. All traffic was greatly delayed and the Chicago-El Paso trains were held for more than eleven hours. The names of the injured man and his companion could not be learned.

TURKISH MINISTER SEES SECRETARY OF STATE

Washington, Aug. 31—Chorib Bey, the Turkish minister, had a long interview today with Secretary Hay. He assured the secretary that the Turkish government would use every endeavor to protect the Americans residing in Turkey. He discussed the insurrection in Turkey and said that the Turkish government was not responsible for any of the disasters that had occurred. There is no intention of changing the orders to the European squadron at present.

COLDEST SUMMER EVER KNOWN IN NEW YORK

New York, Aug. 31—The summer of 1903 passes into history as the coldest ever recorded by the weather bureau. The average temperature for June, July and August was 69 degrees, three-quarters of a degree lower than any previous record.

REMEDY WAS GOOD BUT THE MAN DIED

Pratt, Kan., Aug. 31—Judge J. C. Ellis, one of the best known lawyers of western Kansas, died today. He fasted 37 days to cure dyspepsia.

ial for the work is being rapidly delivered on the ground. The first passenger train to have been run over any part of the Albuquerque Eastern was the special of yesterday which was run over the finished part.

At Estancia the work of making it one of the most attractive towns in New Mexico is going rapidly on. The town site has been laid out and the work of grading the streets will be begun this week. There are now more than 200 squatters in the immediate vicinity and Estancia will become the business center for this section. The Santa Fe Central has donated to the town a site for a court house, as it is purposed to make Estancia the county seat of the new county of Torrance, and also a site for a school house. There are about 150 children of school age now in the town and it is hoped that the temporary school building will have about 25 sleeping rooms. The establishment of a weekly paper is only a matter of a few weeks and negotiations have already been closed with Trinidad parties for the opening of a printing office at this point. The company has finished the ploughing of the park which will have an area of 42 acres and in the center is a very pretty lake. The whole park area will contain about 50,000 trees. The Santa Fe Central will have good sized yards at Estancia and nine side tracks are now being put in. There will also be a roundhouse with a capacity of eleven engines and shops and warehouses. The work of grading the yards has been completed and the tracks are now being put down. In the town itself there are under construction ten houses and work on others is being delayed because of the inability of the builders to obtain material rapidly enough. The hotel will be under the management of Mrs. Jennie Stepp who will also have charge of the eating house at Torrance.

At Torrance the plans for the new union station of the Santa Fe Central and the El Paso & Northeastern are completed, and work will soon begin. The station and grounds will be located between the tracks of the two roads at the foot of Pennsylvania avenue and will cover a tract of 600 by 100 feet. The building will be of brick and will contain all that is best in the way of conveniences and improvements. The architectural design will be most attractive and the plans call for the making of small park and gardens on the depot grounds.

At Blanca improvements are planned, and also at various other points along the line. At Progresso tanks are being erected and at Clark there have been placed dumps and bins to facilitate handling the coal that is brought to that point from the mines. All along the line of the road there is to be found the air of general prosperity and progress is the watch word.

A 400,000 ACRE FARM

Orchards Laden Each Year With Luscious Peaches, Nectarines, Oranges and Other Fruits.

A FRAUD AND A HUMBUG

The Stupid and Wicked Desert Land Law Made Possible This Immense Ranch.

Among the very big things in California is the greatest irrigated farm in the world. It consists of 400,000 acres, nearly all of which is under actual cultivation.

This princely estate is the property of a single firm, or close corporation, practically composed of only two persons or families.

Flowing through the heart of this vast property is a splendid river—one of the best in California—which takes its rise in the highest peaks of the Sierra Nevada. Without the use of this stream the estate would be a desert. With it, the property is converted into a paradise.

The land is fertile almost beyond belief, for it is a delta which the stream has been building for ages. Here are wonderful fields of alfalfa, yielding five or six crops every season and furnishing rich pasturage beside. Here are vineyards bearing the famous raisins and wine-grapes of the San Joaquin valley. And here are orchards laden each year with luscious peaches, nectarines, and prunes, and other orchards of almonds and walnuts. Oranges are not produced in commercial quantities, but are found in the dooryards with the other rich offerings of the semi-tropical climate. It is literally a land "flowing with milk and honey."

And this greatest irrigated farm in the world is now a private estate. It is, yet only a few years ago every acre of this opulent soil, together with the precious stream which waters it, belonged to the people of the United States. The soil, the water, the mountains, the forests and the snows which lie in their embrace—all these formed a part of the heritage of our children and mine.

Carved Out of the Public Domain.

How, then, did all this land and water pass into private ownership? The thing was done by means of the preposterous land laws of the United States. It is strange that these laws were ever placed upon the statute book—stranger yet that thus far they defy all efforts to effect their repeal. No one ever dared to go before Congress and respectfully request the passage of a bill entitled "An act to Enable Rich Men and Corporations to Acquire Lordly Estates from the Public Domain." Of course, no one would think of proceeding in precisely that way.

What is actually done is to ask Congress to assist them in making "homes for the homeless and in furnishing land to the landless." And the method proposed is the notorious desert land law. This was a fraud and a humbug from its inception. It is a sort of anaesthetic administered to the people to put them to sleep while some millions of acres are painlessly amputated from the public domain.

This stupid and wicked law originally invited every man and woman in the United States, over twenty-one years of age, to take up 640 acres as a homestead. They were required to pay \$1.25 per acre and to swear that they had provided a means for irrigating a certain portion of the land. The law was loosely administered and frequently evaded in its most essential details. A few years ago the amount of land which one individual could acquire under this statute was reduced to 320 acres.

As a rule, the desert lands lie in large bodies and are only to be reclaimed by costly works of irrigation. In the case of the great farm under discussion, the works are said to have cost \$4,000,000.

How could any poor settler, or any number of poor settlers who could be brought together under ordinary circumstances avail themselves of the privilege of getting homes by using this law in good faith? They could not do so. They did not do so. The law was designed as an instrument to rob the people of their lands. And, with rare exceptions, it has been used strictly in accord with that design.

Room for Forty Thousand.

Ten acres of good irrigated soil in the semi-tropical valleys of California will support an average family in comfort. Four hundred thousand acres would, then, support 40,000 families or 160,000 persons if the families consisted of four each. This is the number of landed proprietors who might now be in possession of the greatest irrigated farm in the world if the national irrigation law had been passed twenty-five years ago and if the land

IS DOING GOOD WORK

Spends \$80,000 Annually to Support Mission Schools in New Mexico and Arizona.

IN CHARGE OF DR. CRAIG

The Presbyterian Teachers' Institute Has an Especially Interesting Program for the Day.

Today's session of the Presbyterian Teachers' Institute was one of especial interest and the program contained many features that were particularly enjoyable. The program for the day was as follows:

Devotional Exercises, Rev. Gabino Rendon; Primary Number Work, Miss Olinde Meeker; How to Secure Punctuality and Regularity in Attendance, Miss A. Brengle; Teaching Forms, Miss Alice Hyson; Recess. How to Interest the Boys While the Girls Are in the Sewing Class, Miss Alice Blake; Physiognomy—Child Study, Prof. Henri Deschamps. Noon. How to Hold Our Pupils When They Are Desirous of Leading a New Life and Their Parents Are Not in Sympathy With Them, Miss Alice Blake; David and Goliath, Dr. H. C. Thomson; How to Teach Drawing in Primary Classes, Miss Bertha Little; Method of Teaching Spelling to Beginners, Miss R. Meeker; Recess. Geographical Nature Study, Miss Elizabeth Craig; Revival of 53, Rev. Gabino Rendon; Physiognomy, Prof. Henri Deschamps.

There are few other than those in close touch with the Presbyterian mission schools, who are familiar with the work or cognizant of its extent. It should be remembered that the Presbyterian Board of Home Missions spends over \$80,000 annually in the support of these schools and for the furthering of the work in the territories of New Mexico and Arizona. There are schools located at various points all through the territories and there are about forty teachers engaged. The whole work is under the direction of Rev. Robert M. Craig, the medical missionary and superintendent of the Presbyterian schools in New Mexico and Arizona. Mr. Craig was born in Oxford county, Ontario, Canada. His collegiate course he completed in Toronto university, and his theological studies in Knox college in 1883. The same year he was licensed by the Presbytery of Huron, and also (a rather unusual circumstance) was ordained to the ministry that same year by the Presbytery of Whitby and began his pastorate of six years in the church at Dunbarton, Ontario. The six succeeding years he was pastor of the Presbyterian Church of Fergus, Ontario. While there he was secretary of the board of education, and also member of the senate of Knox college.

In 1895 he retired from the Queen's dominions and came to New Mexico. For two years he was pastor of the First Church in Santa Fe, and for one year he was the chaplain of the legislature. Since 1897 he has been Synodical Missionary. A large number of new churches have been organized, and are now enjoying regular services in their own neat edifices that owe much of their prosperity to his fostering care. Many flourishing schools have been in the same way brought into successful operation by his unwearied exertions. He has made an heroic effort to double the capacity of manual schools and a handsome new \$10,000 building is now in progress of erection at Albuquerque.

The work in this city is under the direction of Miss M. Bertha Leasingham. Miss Leasingham is a native of New York State, having been born at Hammond, and after completing her course in the New York State Normal and Training school, taught in the schools of New York City. Later she took a course in the Washington Kindergarten and Primary school at Washington, D. C., and then spent one year in work among the Indians at Talequah. Last September she entered the field of mission work in New Mexico and was stationed at Embudo. Last April she succeeded Miss M. L. Allison as superintendent of the Allison school in this city. Her success has been marked and under her efficient management there is no doubt that the work in this city will progress most rapidly.

The Allison school is an institution for the education of girls and for their instruction in the domestic arts. The buildings have undergone thorough renovation and with the re-arrangement made during the past summer, there will be accommodations for some eighty pupils. The faculty consists of eight teachers who with their respective departments are: Miss O. Meeker, principal; Miss Harriett Woodward, primary department; Miss Bessie Read, music; Miss A. Brengle, matron; Miss Emma Brown, cooking, and Miss M. Morrow, laundress. The seamstress will be appointed later on. The Allison school with its executive

BRAKEMAN KILLED.

Catches Foot on Depot Platform and Legs Are Almost Crushed Off at the Hips.

R. W. Hostetter, a brakeman on the Santa Fe was run down by a freight train at Lamy yesterday morning at 4 o'clock and received injuries from which he died at St. Joseph's sanitarium in Albuquerque a few hours later. Hostetter was running alongside the moving train and was about to swing himself up, but in the darkness of the early morning failed to see the low platform that extends out in front of the station. His foot caught and he fell beneath the wheels. The train passed over both legs, crushing them almost off at the hips.

The accident was discovered at once, the train was stopped and a special composed of caboose and engine made up. The injured man reached Albuquerque at 6 o'clock. Dr. James H. Wroth met the special and an operation was performed almost immediately on reaching the sanitarium in the hope that the victim's life might be saved. The injury however, was recognized as fatal from the beginning and the man died at 9:30 o'clock.

Little is known of Hostetter. He had been working in the yards in Las Vegas and had only been on the road for about a month. He came to Las Vegas from Cedar Rapids, Iowa. His family at that place have been notified.

DISTINGUISHED SCHOLAR DIES IN DENVER.

Denver, Aug. 31—Gen. Don Carlos Hasselton, a distinguished scholar and linguist, died today at his home in this city. He was born in New Orleans in 1825 of Spanish parentage. His great-grandfather was governor-general of all the Spanish possessions in the New World. General Hasselton was a graduate of Miami, Yale and Heidelberg universities. He entered the Confederate army as a major, was captured as a spy and sentenced to be shot, but escaped. After the war he studied engineering and was a member of Commodore Porter's staff.

SENATOR HANNA ABLE TO SIT UP.

Cleveland, Ohio, Aug. 31—Senator Hanna was so much better today that he sat up several hours.

MURDEROUS HOLD-UPS

Begin to Shoot Without a Word of Warning in Chicago Street Railway Barn.

KILL TWO, WOUND TWO

Eleven Suspects, One a Former Employee of the Company, Have Been Arrested.

Chicago, Aug. 31—Without a word of warning two men were killed and two others wounded by hold-ups at the barn of the Chicago City Railway company at Sixty-first and State streets at an early hour Sunday morning. The shooting was done by three men who escaped after securing \$2,000. Three of the men shot were working in the cashier's office and the other was a motorman who was asleep in the outer office. The men in the office were shot before they were aware of the robbers' presence and the motorman was killed as he was rising from a bench where he had been sleeping.

Of eleven suspects arrested following the murder of Frank Stewart and John B. Johnson, employees of the Chicago City Railway company, and the looting of the company's safe, seven are being held. One prisoner is John Sleuder, a former employee of the company, who is known to have been in the vicinity at the time. The two men who survived the fire of the robbers can give but a meager description of their assailants.

PATTERSON SAYS ALASKA NEEDS ROADS AND LAWS.

San Francisco, Aug. 31—United States Senator Patterson of Colorado arrived here en route from Alaska to his home in Denver. He is a member of the committee selected by the Senate to visit Alaska and report its legislative needs. "The most urgent need of Alaska," said Senator Patterson, "is good roads. Another crying need is for laws. The mining laws need to be reformed and courts appointed with power to regulate the territory."

work is the outgrowth of the small mission school that was established in this city by Miss Allison more than 22 years ago.

WIND WAS TOO LIGHT

Breeze Died Down and Reliance Could Not Finish Within Time Limit.

SEA ROUGH & CHOPPY

The Yachts Got an Even Start But the Defender Gradually Drew Away.

New York, Aug. 31—At 8:30 this morning the wind off Sandy Hook registered ten mile an hour. There are prospects of a good race.

Committee boat signalled course 15 miles to windward and return.

Wallowing in a Heavy Sea.

New York, Aug. 31—The autumnal storm which kept the Reliance and the Shamrock for 47 hours within the shelter of Sandy Hook bay subsided sufficiently this morning to enable the two racers to venture once more into the open sea for the races for the America's cup. The gale, however, had left a heavy swell so that the two boats, when they turned the point of Sandy Hook, began to roll and wallow like a couple of coal barges. Dark clouds seemed to threaten rain at any moment. The decision to start the race was accepted with favor on all sides as interest in the races had been well dampened.

Yachts Started Even.

New York, Aug. 31—The starting gun was fired at 11:45. The starting time, official, for both yachts was 11:45:26.

Bulletins.

12:35 p. m.—The Reliance is a quarter of a mile to the windward of the Shamrock.

12:50 p. m.—The yachts are still holding off the shore on the port tack, sailing not more than four miles an hour in a light breeze.

1:20 p. m.—(By Marconi)—Half way to the outer mark the Reliance was leading by half a mile. Both boats are pounding badly.

2 p. m.—The Reliance has apparent lead of a mile and a half.

By Marconi—Four miles from the turn the Reliance is leading by about two miles.

The Reliance turned the outer mark at 3:00:45; the Shamrock turned at 3:21.

4:05 p. m.—The Reliance has covered about one-half the distance to the finish line. The wind freshened somewhat and there is a chance that the Reliance will finish within the time limit.

4:30 p. m.—The Reliance is leading by a mile and a half.

4:20 p. m.—The Reliance has dropped her spinnaker and is heading for the finish under her large balloon jib. It looks as if she had about two and a half miles to go. The contest between her and time is exceedingly close.

5 p. m.—The Reliance is still one and a half miles from the line. It is a close but almost hopeless race against time.

Race is declared off. The boats were unable to finish within the time limit. The time expired at 5:15:26 with the Reliance half a mile from the finish line.

RUNAWAY FREIGHT TRAIN MAKES RECORD TIME.

Colorado Springs, Colo., Aug. 31—A runaway Colorado Midland freight train of sixteen loaded box cars, engine and a caboose, which got beyond the control of the crew five miles west of Colorado City up Ute Pass at 5 o'clock this morning and plunged down the grade at an estimated speed of 100 miles an hour, ran into an open switch at Colorado City and was completely wrecked. The loss in rolling stock is \$18,000. Engineer Frank Watts and Fireman James Brandenburg say the air brakes failed to work. They jumped off the train. No one was hurt.

RAILROAD OFFICIALS CHARGED WITH MANSLAUGHTER.

Newark, N. J., Aug. 31—President Cassatt and six other members of the executive committee of the board of directors of the North Jersey Street Railway company, appeared today in the Essex County court for trial on an indictment charging them with manslaughter, based on the collision of February 19 between a Clifton avenue trolley car and a Lackawanna train, in which nine Newark school students were killed.

SECRETARY CORTEYOU DELIVERED AN ADDRESS.

New York, Aug. 31—The fourth international congress of actuaries met in this city today. Secretary Corteyou of the bureau of commerce and labor, who is an honorary member, was delegated by the President to open the congress and he delivered an address. The session will continue a week.

SANTA FE NEW MEXICAN

THE NEW MEXICAN PRINTING COMPANY, PUBLISHERS

MAX. FROST, Editor
PAUL A. F. WALTER, Associate Editor
CHARLES M. STAUFFER, Manager

Entered as Second Class matter at the Santa Fe Postoffice.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

Governor General Taft is indeed famous. He has had a 5-cent cigar named for him.

We might brew Sir Thomas some Lipton tea in that cup, but we could not think of letting him take it home with him.

Those fitting themselves for war correspondents at the school of journalism will probably serve their apprenticeship at our army and navy sham battles.

Col. William Jennings Bryan rejoices that "Tom" L. Johnson is the Democratic nominee for governor of Ohio. So do the Republicans of the Buckeye State.

Several grave and revered United States Senators are junketing in Alaska at the expense of the United States. It is a nice thing to have the people pay for one's summer vacation.

Some of the rich men of Chicago certainly have cobwebs in their bellies. One of them proposes to give \$12,000,000 for the endowment of a college to teach purity in politics.

New Mexico has enemies enough outside of her own borders that she has to fight in order to obtain her rights, without being torn by internal factions. The people ought to remember this, and rise up in their might and help the statehood cause next winter.

During the lull between postoffice scandals, prize fights and yacht races, our energetic telegraph service finds time to inform the world that Mr. Bryan has purchased a "spanking" pair of chestnuts, that Mr. Hearst has a "brand new" buzz wagon, that Mr. Cleveland has another baby carriage and that Plux X smokes a pipe.

Uncle Sam and the Unspeakable Turk are having a slight difficulty just now over the recent attempt to murder the American vice-consul at Beirut, Asia Minor. The Sublime Porte will do well not to arouse the old man's anger too much. The American fleet is strong, in good fighting trim and ably commanded.

The New Mexican trusts that Pulitzer's college of journalism in New York will do all that its founder hopes, but desires to remark that it will do well not to teach too much journalism, but pay attention to some practical newspaper business. Journalism alone may do in the effete East, but in the West newspaper business is rather of more importance.

The Roswell extension of the Santa Fe Central railway must come, and that within twelve months. Chaves and Eddy Counties must have direct connection with the central part of this Territory. The exigencies of the situation demand this and the line from Torrance, the terminus of the Santa Fe Central railway to Roswell, will pay as soon as constructed and in operation.

The mining columns of the New Mexican are attracting much favorable attention throughout the Territory and with capitalists and miners not only in New Mexico, but throughout the States. The New Mexican aims always to present the best side of New Mexico and is certainly doing so in giving a daily resume of the important mining happenings in the Territory.

One of the strangest anomalies in modern times is the attitude of the people of Massachusetts on the question of statehood for the territories. All of the circular letter opposition to statehood in the Fifty-seventh Congress against the territories came from Massachusetts church and business organizations; yet Massachusetts is the seat of all the "holier than thou" opposition to the Philippine policy of the administration. Even Senator Hoar, the man who would not make a speech at the exercises on McKinley's death in his state because of the latter's Philippine policy, was against statehood for the territories.

Western New Mexico will within two years have a northern and southern railway running through Durango, Colo., to the counties of San Juan, Sandoval, McKinley, Valencia, Socorro and Grant to Bisbee in Arizona. That portion of the Territory is almost a terra-incognita, but nevertheless is very rich in minerals, coal, grazing lands and agricultural possibilities.

Within the next five years the future Sunshine State will make such great strides in advancement as to astonish even its best friends.

MANUFACTURERS LEAVING LARGE CITIES.

It is becoming established that many large manufacturing establishments in the great cities of the country are preparing to move to smaller towns in order to have less interference and more liberty in their conduct. This tendency cannot but be of benefit to the people at large. It is best for the commonwealth that the smaller communities should be built up and become prosperous rather than that great cities should increase and become more and more powerful by great aggregations of capital and people. The Washington Post discusses the question in the following editorial very sensibly:

"It is officially announced from Chicago that six of the largest manufacturing plants in that city will be removed to smaller towns at once, owing to the inability of the manufacturers to meet the exactions placed upon them by the labor unions, through their walking delegate representatives. One of these firms, Rand, McNally & Co., employs 5,000 laborers every day in the year and pays out more than \$6,000,000 annually in wages. Poole Bros. and the Conkey company, also large publishing houses, have decided to leave Chicago, and several manufacturers in other lines have made arrangements to remove their plants to smaller towns in Illinois and Indiana.

"In each case it appears that these manufacturers have had no trouble with their immediate employees, but have had their business stopped and their trade injured by sympathetic strikes, in which their employees have been called out to aid dishwashers and waiters and other organizations of unskilled employees in urging claims for increase of wages or for the adjustment of some grievances in which organized labor can have no direct concern. The entire trouble, according to reliable information, has been due to the mistake of the unions in carrying on the battles of organizations formed purely for the purpose of securing shorter hours and larger wages, without in any manner involving the issues and principles for which genuine and honest trades unions are formed.

"The action of the Chicago manufacturers will cause a loss of labor, necessitated by the change of residence and expense of adjusting itself to new conditions. It will also have a material effect upon the revenues of the city of Chicago and an appreciable effect upon the trade of the merchants who have been supplying the laborers in these factories. Chicago, of course, is large enough to not suffer materially from such withdrawals from her industrial circles, but the effect may be far reaching, should the change solve the labor problem, and thus cause a general removal of manufacturing plants to smaller towns. The result of the experiment will be watched with keenest interest by manufacturers throughout the nation, with whom the labor problem has become a paramount one within the last few years. If it lessens the opportunity of the agitator and the walking delegate and results in the employers and employees adjusting their differences without the interference of outside influences, it will be a good thing for all concerned."

THEY ALL SAY SO.

Not Only in Santa Fe But in Every City and Town in the Union.

If the reader took the time and trouble to ask his fellow residents of Santa Fe the simple question given below, he would obtain one answer. If he would read the statements now being published in Santa Fe which refer to this answer it would surprise him to note that they number so many. As many more could be, and may be published, but in the meantime ask the first person you meet what cures backache? The answer will be, Doan's Kidney Pills. Here is a citizen who endorses our claim:

Florentino Sena of Agua Fria, says: "I had attacks of pain in my back for several years, not continually, but one seized me when quarrying stone for the Santa Fe railroad. A friend of mine, Ruperto Martinez, advised me to use Doan's Kidney Pills. I had to try something for I had stopped work and gone home and was unable to return. I could not walk and resorted to the use of plasters, but they rendered little if any service. I did as my friend advised, tried Doan's Kidney Pills, and in three days after I commenced to use them, I was in the quarry again as if nothing had ever happened."

Just such emphatic endorsement is plentiful in Santa Fe. Call at Ireland's Pharmacy and ask what all his customers, and they are "numerable, who have used Doan's Kidney Pills report." For sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Try a New Mexican want "ad."

TIME TABLE.

(Effective June 4, 1903.)

Malaria

Is a veritable dragon of ill-health. It leaves in its path more physical wreckage than probably any other one disease peculiar to Americans.

WHY? Simply because upon the first indication of the malarial system is usually scourged with quinine, or that deadly mineral—calomel.

Don't Do It. It's Dangerous. It isn't at all necessary either. We positively guarantee

HERBINE

TO PREVENT AND PERMANENTLY CURE ANY FORM OF MALARIA. It is purely herbal. It attacks the quinine and calomel—some of their deadly effects. It corrects all liver, kidney and stomach troubles. 50c per bottle. All Druggists.

MINES AND MILLS

OTERO COUNTY.

The mineral resources of Otero County are varied and rich. It is principally in the White mountains and in the Jarillas that the prospecting and development work has been done. The White mountains are formed of granite, schist and other metamorphic rocks, interspersed with dykes of porphyry and veins of mineral bearing quartz and spar. Rich leads would long ago have been developed but for the fact that ownership by the Mesquero Apaches has kept prospectors away. However, a few prospectors have managed to locate claims, the ore from them assaying as high as \$600 to the ton in gold and silver and other ores carrying 50 to 70 per cent lead. The finding of copper and at the Ruidoso of promising galena leads is reported.

The Jarilla mining district is at present the most important mineral field in Otero county. Since the railroad passes near the district, development work has been carried on extensively and shipments have been or are being made from the Nannie Baird, the "Luck" and other properties. Good placer diggings have also been opened, some yielding as high as \$8 per day per miner with the simple machinery, this is employed. The well known DeMues turquois mines have led to large copper deposits. The mines are now worked for their copper ores. The main shaft of the Philadelphia Copper mine has exposed a good body of copper and gold ore.

There are vast quantities of 4 to 7 per cent copper ores in this camp. All the necessary fluxes, coke and coal are near at hand for a smelter, which will undoubtedly be erected either at Alamogordo or at Jarilla at some not distant day.

The entire district is mineralized and in the contact and blanket veins shows immense outcroppings of iron under which exploration has developed large copper deposits carrying a liberal supply of the precious metals, as in the Lucky, in which the vein matter attains a thickness of over 30 feet and the Nannie Baird in which the vein is over 9 feet wide.

The veins of the Jarillas carry iron and copper sulphides, with occasionally some sulphides of lead and zinc; and more or less quartzose and gold bearing in character. Another characteristic cropping is what is popularly termed garnet and epidote, which occurs in veins in the sedimentary and contact formations. This peculiar outcropping is considered a certain indication leading to copper bearing ores. Drill holes to a depth of 250 feet have shown the existence of 4 blanket veins in the sedimentary rocks. The dykes of diorite porphyry called by the miners of this district, trachyte dykes, which intrude through the Plutonic belt, are penetrated by veins of mineral bearing quartz. Some of these dykes are thoroughly impregnated with copper and afford a rich shipping ore. In the Amalillo mine is a large mineralized dyke on the western side of which is a well-defined fissure vein.

The occurrence of very rich placer deposits as well as of nuggets of native copper, indicate the existence of extremely rich deposits in place. Veins of argentiferous galena in talc-spar gangue are found in the lime and slate contacts.

The eruptive range known as the Jarillas lies in the center of the Sacramento valley which stretches for over 100 miles north and south, with the Organ mountains on the west and the Sacramento mountains on the east. This valley was once the bottom of a sea. The Jarillas are about 9 miles long and 4 or 5 miles wide, composed of hills averaging about 300 feet above the surface of the plain with valleys and small flats between. From time immemorial the Apache Indians had a village there as it afforded a splendid outlook across the plain in every direction against hostile approach. Their pottery, corn grinding implements and other utensils are still found in quantities on the site. For ages past this little range has also been celebrated for its turquois, the Aztecs having mined it extensively, as well as the more recent Mexicans under the regime of Spain and Mexico. The whole range is intersected with mineral veins. On the south end the principal mineral is copper which often carries gold in large amounts.

Near the head of La Luz creek about ten miles from Alamogordo, a ledge of gold quartz has been discovered in ore specimens from which wire gold was discernible. Quite extensive mining operations have been prosecuted on Tularosa creek. One carload of ore has been shipped giving high returns. The ore is copper, carrying good values in silver.

Near Alamogordo exist quarries of the finest limestone to be found in New Mexico excepting Santa Fe. It commands 15 cents per barrel more in the markets to which it is shipped than the Texas limestone. Beautiful marble susceptible of a high polish, as well as onyx, which is shipped as far as Germany, exists in large quantities near Alamogordo. Deposits of lithographing stone have been discovered not far from Alamogordo and indications to petroleum and gas have been discovered a few miles from there.

AMERICAN MINING CONGRESS. Deadwood and Lead, S. D. Sept. 7-11. For this occasion the Santa Fe will sell tickets to Deadwood at one fare plus \$2 for the round trip, (\$34.55) tickets will be sold Sept. 2d to 6th, good for return until Sept. 30, 1903. H. S. Lutz, agent, Santa Fe, N. M.

STOP THAT COUGH!

When a cough, a tickling or an irritation in the throat makes you feel uncomfortable, take Ballard's Horehound Syrup. Don't wait until the disease has gone beyond control. Mr. and Mrs. J. A. Anderson, 354 West 5th St., Salt Lake City, Utah, writes: "We think Ballard's Horehound Syrup the best medicine for coughs and colds. We have used it for several years; it always gives immediate relief, is very pleasant and gives perfect satisfaction." 25c, 50c, \$1.00 at Fischer Drug Co.

Trans-Mississippi Commercial Congress, Seattle, Wash., August 18-20, 1903.

For the above occasion the Santa Fe will sell tickets to Seattle, Tacoma and Portland at a rate of \$48.75 for the round trip, dates of sale August 2nd to 15th, good for return until October 15th, stop-overs allowed. For particulars call on any agent of the Santa Fe. H. S. LUTZ, Agent, Santa Fe, N. M.

NOT OVER-WISE.

There is an old allegorical picture of a girl scared at a grass-hopper, but in the act of heedlessly treading on a snake. This is paralleled by the man who spends a large sum of money building a cyclone cellar, but neglecting to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of cyclones a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by all druggists.

AMERICAN BANKERS' ASSOCIATION.

San Francisco, Calif., Oct. 20-23, 1903. For this occasion the Santa Fe will issue tickets to San Francisco and Los Angeles and return at one fare for the round trip, Los Angeles, \$38.45, San Francisco \$43.05. Dates of sale October 9th to 18th, final return limit November 30th.

H. L. LUTZ, Agent, Santa Fe, N. M.

SOVEREIGN GRAND LODGE, I. O. O. F.

Baltimore, Md., Sept. 21st 28th. For this occasion the Santa Fe will sell tickets to Baltimore and return at a rate of \$55.50 for the round trip, dates of sale from New Mexico points Sept. 16th, 17th and 18th, good for return passage until Oct. 3d, 1903.

W. J. BLACK, G. P. A., Topeka, Kas. H. S. LUTZ, Agent, Santa Fe, N. M.

Mrs. Mollie Allen of South Fork, Ky., says she has prevented attacks of cholera morbus by taking Chamberlain's Stomach and Liver Tablets when she felt an attack coming on. Such attacks are usually caused by indigestion and these tablets are just what is needed to cleanse the stomach and ward off the approaching attack. Attacks of bilious colic may be prevented in the same way. For sale by all druggists.

TERRITORIAL FAIR.

Albuquerque, N. M., Oct. 12th to 17th, 1903. For this occasion the Santa Fe will sell greatly reduced rate tickets from all points in New Mexico and Colorado to Albuquerque and return. The rate from Santa Fe will be \$2.65 for the round trip. Dates of sale Oct. 11th to 16th, good for return passage until Oct. 19th. H. S. LUTZ, Agent.

CURES SCIATICA.

Rev. W. L. Riley, L.L.D., Cuba, New York, writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment; the first application giving me first relief and the second entire relief. I can give it unqualified recommendation." 25c, 50c, \$1.00 at Fischer Drug Co.

Summer Tourist Rates to Colorado Points. On sale daily via the Santa Fe from June 5 to October 15, good for return passage until October 31, to Denver and return \$22.55, Pueblo and return \$17.55, Colorado Springs and return \$19.55, Glenwood Springs and return \$28.65. Stopovers allowed at and north of Pueblo. For particulars call on any agent of the Santa Fe. H. S. LUTZ, Agent, Santa Fe, N. M.

SUICIDE PREVENTED.

The startling announcement that a preventive of suicide had been discovered will interest many. A run down system, or despondency invariably precede suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self destruction take Electric Bitters. It being a great tonic and nerve will strengthen the nerves and build up the system. It's also a great stomach, liver and kidney regulator. Only 50c. Satisfaction guaranteed by Fischer Drug Co.

PERSONAL MENTION

W. N. Townsend of this city was in Estancia yesterday.

Dr. Mary E. Esser of Philadelphia, is a guest at the Palace.

John Wilson and Robert Taylor of Estancia are at the Bon Ton.

J. C. Bridge, connected with the Cerrillos smelter, is in the city.

Dr. William Sparks, a ranchman on the Pecos forest reserve, is in the Capital on business.

A. F. Spiegelberg has returned from a business trip to Denver and other Colorado points.

Colonel J. Franco Chaves Territorial superintendent of public instruction, left yesterday for Los Lunas.

J. W. Records, and wife of Estancia, are in the city. Mr. Records is the master mechanic of the Santa Fe Central.

A. W. Parks and wife of Topeka are at the Claire and will spend a few days here seeing the sights of Santa Fe.

Mrs. John Pratt, formerly Mrs. John Symington, is in Albuquerque on a visit to her sister Mrs. John Borradale.

Miss Gertrude Guhrsen, who has been in attendance at the Santa Fe County Teachers' institute has left for her home at Espanola.

Colonel Venceslao Jaramillo of El Rito, has returned to the city and is at the Sanitarium. Mrs. Jaramillo will join him during the week.

Dr. J. Frank McConnell of Las Cruces, who has been on a visit to his old home in Toronto, Canada, for some time returned home Saturday last.

Mr. and Mrs. P. F. McCanna and children of Albuquerque, returned Saturday night from a six-weeks' visit at their old home in Oswego, N. Y.

W. S. Burke, editor of the Journal-Democrat of Albuquerque, and Mrs. Burke have returned to the Duke City after a week's sojourn at the Sanitarium.

Mr. and Mrs. Amado Chaves left this afternoon for the Acoma Pueblo in Valencia County, where tomorrow they will witness the feast of the Acomas.

United States Deputy Marshal Fred Fornoff of Albuquerque, is in Santa Fe and is at the Claire. He has returned from a trip up the Pecos on official business.

Mrs. Walter C. Hadley and daughter, Caroline, formerly residents of this Territory, who have been visiting friends in Las Vegas, left Saturday for their eastern home.

Miss Hilma Osterholm and her sister, Mrs. A. G. Swanson, who have been at the Sanitarium for the past few weeks have returned to their home in Red Oak, Iowa.

Professor Fayette A. Jones of Albuquerque, who is in charge of the New Mexico mineral exhibit at the St. Louis exposition, is in Taos County in the interest of the exhibit.

General Manager W. S. Hopewell of the Santa Fe Central railway left for Albuquerque yesterday evening on official business. He is expected to return to Santa Fe this morning.

John Koury, dry goods merchant at Cerrillos, is in the city. It is understood that he will move his mercantile establishment from that town to the Capital as soon as he finds a location.

B. F. Adams of Albuquerque, grand chancellor of the Grand Lodge of New Mexico, Knights of Pythias, has just finished an official tour through Lincoln and Otero Counties in the interest of the order.

John D. Harper of Durango, superintendent of irrigation for the Pueblo Indians in New Mexico, arrived in Santa Fe last night from the east and left this morning for the north over the Rio Grande.

Dr. W. S. Harroun and J. H. Gerdes returned Saturday night from a three-weeks' visit to the Sulphur hot springs in Sandoval County, at which place they were for the purpose of taking the baths.

Mrs. George Kilmer of Chicago, daughter of Mr. and Mrs. G. A. Rothgeb of Las Vegas, who has been visiting her parents in the Meadow City for the past few weeks, left yesterday for her home in the Windy City.

Mrs. E. F. Sidebottom left last night for Harrisonville, Mo. Her son, Earl Sidebottom, of Alamogordo, arrived in Santa Fe yesterday and accompanied her as far as Torrance. Mrs. Sidebottom went east via the Santa Fe Central and the Rock Island route.

Traveling Auditor Charles V. Sanford returned on last night's delayed Santa Fe train from the south. He has visited the counties in the southern part of the Territory on official business during the past three weeks and has been quite busy.

B. W. Robbins, general passenger and freight agent of the Santa Fe Central who has been in Chicago, Kansas City, Topeka and Denver during the past two weeks on business for his company, returned home last night.

Walter S. Sharpe of Eldorado, Kan., a contractor for the new stone bridge across the Rio Santa Fe on Don Gaspar avenue arrived here yesterday. Mr. Sharpe has just recovered from an attack of pneumonia but is ready to go actively to work.

A. J. Loomis, U. S. deputy internal revenue collector, has returned from

a trip over the southern and eastern portions of the Territory and reports that matters are rather quiet now that the busy part of the season is past. He came from Logan and Tucuman direct. He has been away from the city about three weeks.

Governor Otero, Territorial Secretary J. W. Reynolds and Superintendent H. O. Bursum of the penitentiary returned this morning via the Santa Fe Central railway from a visit to the sheep ranches of the Salado Sheep company in Leonard Wood County. They express themselves as greatly pleased with the line of the Santa Fe Central railway and say that traveling over the new road is really a pleasure on account of the easy riding and comfortable coaches furnished by the company.

Henry Pollard, son of C. L. Pollard, of Espanola, left this morning for Roswell where he will enter the New Mexico Military Institute.

Miss Laura Davis visited her friend, Miss Harney, in Cerrillos, Saturday and Sunday.

Mr. and Mrs. A. M. Bergere and Edward M. Otero who spent Saturday and Sunday in Albuquerque, have returned.

Mrs. Hymner and daughter, who have been spending the summer in Santa Fe, have returned to their home in Decatur, Ill.

The singing of little Miss Francis Hinojos, who appeared in the cantata recently given under the auspices of the Woman's Board of Trade, has been most favorably commented upon.

H. B. Cartwright, president of the H. B. Cartwright & Bros. Co., returned Saturday from a three-weeks' visit to his old home in Iowa and also from a business trip to several of the large cities in the east.

Mr. and Mrs. Frank W. Clancy arrived yesterday from Albuquerque and will remain here during the week. Mr. Clancy is the efficient territorial attorney for the second district and has business before the Territorial Supreme court.

THE SANTA FE CENTRAL

Work on the New Union Depots in This City and Torrance in Progress.

Work on the new union depot of the Santa Fe Central and the Denver & Rio Grande in this city on the south side has commenced and Contractor Antonio Winsor says that he will have the depot ready and turned over to the companies in strict accordance with the contract which sets its completion within four months from today. Material for the foundation and walls is already being hauled.

The new two-story union depot and eating house of the Santa Fe Central and the El Paso & Northeastern railroads at Torrance is going up already and will be ready for occupancy within four weeks. It is a frame structure and will be very handsome and commodious. The increased business of these roads demands a large depot. At present one of the Queen Ann cottages of the Santa Fe Central is being used as an eating house, but this is found to be too small for the purpose.

Surfacing of the new line of the Santa Fe Central between this city and Torrance is nearly completed and but a few miles of track remain to be gone over. Quite a number of the men on the construction forces were discharged today. One construction gang will be kept on to finish surfacing and to construct switch tracks and sidings wherever needed along the line. One of the spurs is now being built at Torrance to the new union depot in course of construction there.

Travel over the Santa Fe Central is increasing. No one seems to know exactly where it comes from, but certainly the passengers are on the trains. As soon as mail facilities are established on the line and freight tariffs go into operation the road is sure to do a good business.

Orders from the management of the Denver & Rio Grande railroad officials to have trains of that road run to the new union depot on the south side upon arrival here are expected daily. Division Superintendent H. E. Whittemberger has fully investigated the situation and has made his report in the premises which it is understood is favorable.

TAMPERING WITH U. S. MAILS.

Toribio Gonzales Arrested on Serious Charge at Pecos.

Toribio Gonzales has been arrested by Deputy United States Marshal Fred Fornoff on a charge of tampering with the United States mails. Gonzales was a mail carrier between Pecos and Willis and was arrested on complaint of H. Westerfield, who claimed that he had two boxes of cigars sent to him, but which were not delivered. Gonzales admits receiving such a package as Westerfield describes, but claims that he deposited it in the mail box. Gonzales was arrested Saturday at Pecos and was given a hearing this afternoon before United States Commissioner John P. Victory.

Both economical and luxurious — Schilling's Best — at your grocer's; and moneyback.

IMPOSSIBLE!

— and then they'd have laughed —

That's just what people would have said and done a few years ago if you had told them

That we are going to give away Five Dozen Corsets ABSOLUTELY FREE.

And people to-day will exclaim, IMPOSSIBLE! when we say that we have a plan whereby we can give them SOMETHING FOR NOTHING.

But that's just what we CAN do and what we ARE GOING TO DO.

To every lady who will bring to our Corset Department a purchaser for one F. C. or American Beauty Corset at the regular retail price of \$1.00 we will present the corset of the same make in any style or color absolutely FREE OF CHARGE.

This is a bona fide offer, made to introduce these goods, and will positively not be repeated.

SALE COMMENCES AUGUST 31ST, 1903, AT 10 A. M.,

And the offer will be withdrawn when the quantity named above has been given away.

SELIGMAN BROS. CO., Wholesale and Retail Dry Goods,

P. O. Box 434.

PRESERVING.

Do you want yellow free peaches or Bartlett PEARS for preserving? If so, now is your time.

20 pound box Yellow Peaches... \$1.25
40 pound box Bartlett Pears... 2.00

MEADOW GOLD.

We are still selling large quantities of Meadow Gold Butter. It keeps better, and longer than any brand of which we have any knowledge. Per pound... .30

Keystone is as good a grade of butter as is made in Colorado. It is equal to any brand of butter that we have ever handled except the Meadow Gold. Per pound... .25
Special prices in quantities.

FRESH EGGS.

Many grocers are now suffering great grief because they cannot get fresh eggs. We are not troubled that way. "Select" eggs, selected for quality and size, dozen... .30
"First" eggs, selected for quality, but not for size, dozen... .25
Ordinary eggs, dozen... .20

IMBODEN'S IMPERIAL.

The products of the Imperial Mills have been sold in Santa Fe, by our firm for many years. They are better now than they have ever been in the past. New machinery, better methods and intelligent management have al-

ways kept the products of these mills at the front.

2 packages Imperial Breakfast Food... .25
10 pound sack Imperial Graham... .35
10 pound Imperial Health Flour... .40
50 pound sack Imperial Wheat Flour... \$1.25

MEAT MARKET.

The steady patronage of many of the most discriminating buyers in Santa Fe and the surrounding towns has confirmed us in the belief that it is possible to successfully conduct our market on the plan of furnishing none but the highest grade corn-fed beef and the best in all other items. The packing houses have found by experience that a cut price will not induce us to use the poorer grades of meat. None but the best is our motto. Swift's Premium hams and bacon give satisfaction. Honeysuckle brand is of high quality and somewhat more moderate in price.

FRESH VEGETABLES.

We are now receiving Egg plant, green corn, celery, beets, squash, etc. Something new and fresh nearly every day.

MELONS.

Take advantage of the low prices we are now making on Watermelons and Cantaloupes. Express shipments almost daily.

SANTA FE, N. M.

J. P. VICTORY

Attorney at Law and Real Estate Agent

112 San Francisco Street, Santa Fe, N. M.
Money to loan upon real estate security on easy terms.

Something choice: First class properties on San Francisco street paying more than 8 per cent net on rentals.

Have upon my books excellent fruit ranches in the Espanola valley, large and small ones, plenty of water.

Furnished rooms on Palace avenue.

IMPORTANT TO LIVERYMEN.

I can sell you the finest and best equipped livery stable in the Territory at two-thirds of its real value; includes fee of land and commodious brick barn, together with the good will of a flourishing business, 30 horses, busses, hacks, picnic wagon, buggies, and all the other vehicles that go to make up an up-to-date livery barn, and all practically new. Good excuse for sale. In a live and growing city. Write for particulars.

I have a nice cottage (double) six rooms on one side, 4 on the other; owner occupies 4 rooms and the rest rent for \$25 a month; good neighborhood; ample space to erect other buildings on same street; stables, and other outbuildings; the price asked is very low.

Can sell at a bargain a cozy home on Manhattan avenue, an adobe brick house, 7 rooms; fruit and vegetable garden; city water, hydrant and tank; 70 choice fruit trees; currant and raspberry bushes; lot 80 by 265 feet.

I can show you a tract of land west of town, 40 acres, with two adobe houses, one with 4 rooms, the other 2; 15 acres in alfalfa; 800 fruit bearing trees; 2 wells; alfalfa sold for \$300 last season; very cheap.

I also have a fruit ranch in a high state of cultivation, in the suburbs, with a building site overlooking the entire city of Santa Fe. On it there is an artificial reservoir, the only one of its kind in the city, 12 feet or more in depth, holding over 125,000 gallons of water, constantly replenished, from which the whole place can be irrigated daily during the summer, and which could be stocked with fish. The land contains many hundreds of young trees of the finest and most valuable varieties of apples, peaches, pears, plums, apricots, cherries and other fruits, the greater part of which already bear; a young bearing vineyard, thousands of bushes of currants and other small fruits; extensive beds of asparagus, rhubarb, and other fine vegetables. To be sold on easy terms, and for much less than it cost, owing to ill health of the owner.

Examine a 23-acre tract east of the Wilelandy place, and then ask me its price; you will be surprised.

I am authorized to dispose of the Congregational Church, on the south side, convenient to the contemplated Union Depot. It stands upon two lots, and will be sold cheap, or the building will be repaired and leased to responsible parties.

On lower San Francisco St., east of the railroad track, I can sell you properties desirable for homes or business propositions; these will bear examination. I will take pleasure in showing prospective investors desirable building sites in the neighborhood of the Capitol, and in the vicinity of the Presbyterian Church, which in a few years will be worth double the present asking price. About two blocks west of Guadalupe church, on De Vargas St., I can sell you three small homes.

OUTSIDE PROPERTY.
At El Cuervo, 10 miles from the Rock Island road, I can sell you about 640 acres; patented; excellent grazing land.

Convenient to Las Vegas, I have for sale several large tracts of desirable land which I am permitted to sell at very low figure. One tract contains about 3,500 acres, and is located about three and one-half miles southwest of Las Vegas; nearly all of it is under fence; good grazing and water for stock; some timber. Another tract of 550 acres, 7 miles from Las Vegas; timber and grazing, with an excellent stream of water passing over it. Still another tract of 350 acres of farming, grazing and timber land, 8 miles west of Las Vegas, with running water upon it.

MERCANTILE PROPOSITIONS.

To those desiring an investment in a good mercantile business located in a thriving town in Rio Arriba county I can suit them with the chance of their lives; general merchandise, large stock; store, two cottages, stables, and other buildings; large tract of land, with big orchard, producing the last season \$1,400; merchandise business pays from \$2,500 to \$3,000 a year and can be increased; fine fishing, boating and bathing; with horses, wagons, etc., 20 varieties of choice roses and other flowers in abundance; owner will allow prospective purchaser to thoroughly investigate before buying; good reason given for selling.

I have several other commercial and business propositions to submit those desiring to enter mercantile life and to grow up with the new era of prosperity now coming in with the Santa Fe Central, and an eight page daily, who says that the world don't move, and our city with it.

HOUSES TO RENT.

Several small houses, some adobe, some brick, others frame, upon my books, which I would be glad to show an intended purchaser. They are desirably situated, and will be sold cheap.

Also the building corner of Water st. and D & R G railroad track lately used as a saw mill.

UNFURNISHED ROOMS.
I have 3 or 4 rooms, and stable, that I will rent, on De Vargas St., two blocks west of Guadalupe church.

A 400,000 ACRE FARM

Continued From Page One.

had been reserved for the people under a genuine homestead law.

The great issue of the hour is this: Shall we have on the remainder of the public domain the land monopolist or the multitude of small proprietors? Shall we have the two families or the 40,000? Shall we give the public domain away, or shall we put it into the hands of those who claim it as a birth right—of those who will build their homes upon it and use it for the support of their children.

These burning questions can be evaded no longer. When Congress meets again they must be answered once and for all. While we are talking about it the lands are being absorbed by those who know their value only too well and who propose to sell them at enormous profit to the real homesteaders, or to hold them as great private estates.

In his last message the President urges the repeal of the desert land law, of the commutation clause of the homestead law, and of the timber and stone act. But this great measure of reform did not even get out of the committee room of the House of Representatives. And it will never pass except at the behest of an imperious and irresistible public opinion. Every patriotic American should lend his voice and influence to the making of such a public opinion before Congress meets again.

WILLIAM E. SMYTHE.

MINOR CITY TOPICS

Little Brown Jug Filters \$1 at GOEBEL'S.

New goods latest styles in fall and winter millinery at Miss A. Mugler.

Born, to Mr. and Mrs. Octaviano Rodriguez Saturday afternoon a boy baby. Mother and child doing well.

The smelter at Cerrillos has closed down temporarily for repairs. It is not known when it will re-open for business.

A boy baby arrived at the residence of Mr. and Mrs. Ramon Garcia on the south side this morning. Mother and child are well.

The Territorial Supreme court will meet in this city tomorrow forenoon at the Supreme court chambers in the county court house.

The local lodge of Elks has installed in their lodge room a handsome new piano and automatic player. It has been the pleasure of many of the Elks and their friends to hear one of the delightful concerts.

The funeral of Carlos Dominguez, who died Saturday morning, took place from the Cathedral this morning. Interment was made in San Rosario cemetery. A large concourse of friends and relatives attended the funeral.

Train No. 1 on the Santa Fe railway was several hours late this afternoon and the Lamy branch train will leave this evening at 7:10 in time to make connection at Lamy with Nos. 1 and 7. Washouts in Kansas are reported to be the cause.

Eslavio Vigil, the county superintendent of schools of Bernalillo County, is in charge of the County Teachers' institute which is in session at Albuquerque. Father M. Mandalari and Nestor Montoya are examining the candidates. Superintendent A. B. Stroup of the city school, M. E. Hickey and Nestor Montoya were the lecturers yesterday.

It is reported that several cases of diphtheria prevail in the town of Cerrillos, twenty-two miles south of here and that one child died of this disease there yesterday. The authorities of this city should take prompt and energetic measures to keep the disease from spreading to this city. Streets, alleys and back yards should immediately receive a thorough cleaning up and should be kept clean.

The Albuquerque City Teachers' institute convened in that city this morning in the Central school building. Superintendent Stroup is assisted in the regular work of the institute by Principal J. A. Miller. At the different sessions throughout the week there will be talks given by representative business and professional men of this city and by representatives from the Territorial institutions of higher learning.

The predictions are for partly cloudy weather tonight and Tuesday with local showers, warmer Tuesday, and cooler in the southern portion of the Territory tonight. The maximum temperature Saturday was 78 degrees at 3:10 p. m. and the minimum was 57 degrees at 6 a. m.; the maximum yesterday was 80 degrees at 4:35 p. m., and the minimum was 56 degrees at 5:55 a. m. The temperature at 10 o'clock this morning was 59 degrees.

The powerful 300-horsepower Corliss engine at the Territorial penitentiary started this morning in fine shape and everything worked like clock work. Assistant Superintendent W. E. Martin takes much pride in the new machinery as he had much to do with its setting up and getting into shape. Brick making will commence at once and the penitentiary authorities expect to turn out about 30,000 brick per day within a few days.

The Capital City band will give a concert and dance at the opera house Thursday evening. There promises

to be a large attendance and the program that will be rendered will be above the ordinary high standard of those rendered by the well known organization and will include "Hiawatha," "Dixie Girl," "Sporty Maid," "Fan-Tan," Chinese music; "Pokey Pete," "Calanthe," Waltzes; Hungarian Mazurka, "La Tzane," "Anona," "Intermezzo," "Florodora," "Operatic," "Nigger in a Barnyard," descriptive, and other popular selections.

Scholars commenced to arrive at St. Michael's college today and are being classified. The number of arrivals at noon was eighteen and many are expected tonight and tomorrow. The regular term commences tomorrow.

There has been filed for record in the office of the probate clerk and ex-officio recorder for Santa Fe county the following marriage certificate: J. H. Luke of Salda, Colo., and Anna E. Shade, of Jackson, Mo., married August 29, by Jose Ma. Garcia, justice of the peace. The witnesses were Alberto Garcia and Pearl Dowdall.

Suit has been entered in the first district court for Santa Fe by Ramonita Montan de las Rivas who asks absolute divorce be granted her from her husband Julio de las Rivas on the ground of desertion.

SANTA FE --- ROSWELL

Engineer Farewell of the Santa Fe Central Left Torrance Today With Surveying Corps.

A surveying corps of fourteen surveyors, chainmen, flagmen, teamsters and a cook, under the command of J. R. Farwell one of the engineers in the employ of the Santa Fe Central Railway company, left Torrance this morning for the purpose of surveying a temporary and permanent line for the Santa Fe Central railway from that point to Roswell.

The distance is estimated as between 95 miles as a minimum and 110 miles as a maximum. Engineer Farwell has already made a reconnaissance of the route. A preliminary survey at the rate of about two miles per day will be run to Roswell and a permanent survey at the rate of about one and a half miles per day will be made on the return trip from Roswell to Torrance. The time consumed in this work will be between five and six months. There will be no interruption as work during the winter can go on right along. The difference in altitude between Torrance and Roswell is twenty-eight hundred feet and this will give a grade of about one half of 1 per cent per mile. The country between the two points contains no water along the route so far taken, but in several of the arroyos, it is believed water can be had by digging. There is no timber along the route, but the grass is excellent and the range is fine. There are some arroyos of considerable extent to be crossed at the lower end of the line towards Roswell, but upon the whole, the building of the road will be had at a very reasonable cost and quite easy.

OFFICIAL MATTERS.

Returns Assessment Rolls.

Territorial Auditor W. G. Sargent has returned the 1903 assessment rolls of Mora County to the assessor of that county for correction, there being several material errors found therein.

MINISTER LEISHMAN TELLS

OF CONDITIONS IN TURKEY.

Washington, D. C., Aug. 31—Late dispatches from Minister Leishman at Constantinople give in detail the conditions in Turkey. He has made no request for the withdrawal of the American ships from Turkish waters, as reported in some quarters. The Turkish minister made no request upon Secretary Hay at the interview today regarding the movements of the United States war vessels.

FATHER CUSHING DENIES

SENSATIONAL REPORT.

Louisville, Ky., Aug. 31—Father John Cushing today denied the report emanating from Denver that he had been ordered to Gethsemane to remain practically a prisoner for life because of his long fight upon Bishop Matz. Father Cushing has been sent into retreat at the Trappist monastery for a month or less by Archbishop Falconio and thereafter will return to Denver.

PHILIPPINE VETERANS

MEET AT ST. PAUL.

St. Paul, Minn., Aug. 31—The veterans of the Philippines are arriving on every train. It is expected that by evening full 3,000 will be in the city. At 2 o'clock a business session was held at which Gen. Irving Hale, president delivered his annual address.

UNITED STATES CRUISERS

BOUND FOR BEIRUT.

Genoa, Aug. 31—The United States cruisers Brooklyn and San Francisco, which sailed from Genoa yesterday evening are bound for Beirut not Port Said as was previously cabled.

THE LAST

rites PERFORMED.

London, Aug. 31—The remains of Lord Salisbury were interred today beside those of his wife in the burial grounds of the Cecils at Hatfield.

Loose leaf ledgers at the New Mexican Bindery.

PROMINENT OHIO MAN

DIES AT ADVANCED AGE.

Cincinnati, Ohio, Aug. 31—John Carlisle, one of the most prominent and formerly one of the wealthiest men of Cincinnati, died today, aged 67.

SUNDAY DINNERS

Now being served at the Bon-Ton have become quite popular, and are proving good drawing cards. Everything served that the market affords.

TERRITORIAL PICKINGS

COLFAX COUNTY.

M. Keenan of Springer claims that he has discovered a large deposit of tin within two miles of the town. He is exhibiting a fine line of specimens of that mineral.

The Colorado Telephone company began to string its wire near Springer last Tuesday and expects to reach Wagon Mound early this week. The line from Springer to Cimarron has been completed.

Miss Victoria Dunaway gave a very pleasant party at her home in Springer Thursday evening. Games, music and other popular amusements were the order of the evening, and an elegant repast was spread.

The little 6-year-old daughter of Mr. and Mrs. George Wilson of Colmer, was lost in the mountains last week and wandered around for nearly a week and traversed twenty-five miles before she was found. The little one had subsisted on fruits and berries, and her only complaint when found was that she was hungry.

Chris. Turpin, son of William Turpin, suicided at the home of Lobato Francisco on the Vandoritas last week. He was eating his supper and got up from the table before he had finished, walked out to the back of the house, pulled out a six-shooter, placed it to his head, pulled the trigger and ended his earthly existence. He had failed to find employment and is supposed that despondency was the cause of his rash act.

J. Cornelio Gonzales, a brother-in-law of Mrs. Cipriano Solano, was killed by that woman last Thursday night. She and her two children had retired and about 10:30 some one tried to open the front door. Her husband being absent, she asked who was there, but received no answer. Failing to get into the house by the front door Gonzales went to a side window, which he could not open. He then went to the back door, and finally broke in a back window. Mrs. Solano awaited the intruder with an upraised ax. Getting no response to her inquiries as to who was trying to enter she struck the man a terrific blow on the head with the ax, knocking him down and then hit him six times more. She at once informed the neighbors of what had occurred and medical aid was summoned. Gonzales lived about two hours. The coroner's jury brought in a verdict of self-defense.

RHEUMATISM.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop. Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c, \$1.00 at Fischer Drug Co.

LAND SCRIP.

By the use of so-called land script, title can be obtained to government land without cultivation or residence thereon. All you need to do is to give description and show the land to be of the proper kind; we do the rest. By reason of the exhaustion of the supply which has been quite limited the price is advancing. We have a small amount yet on hand to sell, that is fully guaranteed. We also deal in real estate, loans and investments.

HUGO SEABERG,
Springer, N. M.

DYSENTERY CURED WITHOUT THE AID OF A DOCTOR.

"I am just up from a hard spell of the flux" (dysentery) says Mr. T. A. Pinner, a well known merchant of Drummond, Tenn. "I used one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take. For sale by all druggists.

D. & R. G. CHANGE OF TIME.

Until further notice the Denver & Rio Grande train arriving here in the evening will be run as an extra from Espanola to Santa Fe, arriving at Santa Fe about 5 p. m.

J. B. DAVIS, Agent.

When you want a physic that is mild and gentle, easy to take and certain to act, always use Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

THE DEATH PENALTY.

A little thing sometimes results in death. Thus a mere scratch, insignificant cuts or puny boils have paid the death penalty. It is wise to have Bucklen's Arnica Salve ever handy. It's the best salve on earth and will prevent fatality, when burns, sores, ulcers and piles threaten. Only 25c at Fischer Drug Co.

The New Mexican Printing company is headquarters for engraved cards de visite and wedding invitations in New Mexico. Get your work done here and you will be pleased in every particular.

HERBINE

Renders the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and the over-indulgence in food and drink. Herbine acts quickly, a dose after meals will bring the patient into a good condition in a few days.

G. L. Caldwell, Agt. M. K. and T. R. R., Checotah, Ind. Ter., writes, April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, when my druggist advised me to use Herbine. It has made me sound and well." Fifty cents at Fischer Drug Co.

The Academy of Our Lady of Lourdes will open Monday, August 31. Mr. and Mrs. M. W. Porterfield celebrated their wooden wedding last Friday evening.

GRANT COUNTY.

It is probable that the September term of court for Grant County will be postponed until some time in the fall or winter.

Miss Ruth Hinman has left Silver City for Chicago where she has entered the Western Conservatory of Music for the coming year.

The Silver City Gun club will give a picnic and barbecue at the Pines' cottage resort in the Burros September 5.

John L. Burnside has purchased the Bantz residence in Silver City. This is one of the handsomest houses in the town and belonged to the Bantz estate.

Annie Woods, aged 23 years, died suddenly in Silver City on the 27th inst. She was born in Pinos Altos, where her parents resided for many years.

William H. Card, son of John Card, of Silver City, has received an appointment as a cadet from Grant County to the New Mexico Military Institute at Roswell.

Capt. Bert Gilbert, son of Mr. and Mrs. H. B. Gilbert of Silver City, who is a student in the military academy at West Point, left for that place Saturday evening, after spending his vacation with his parents.

Miss Bella Gaddis, for several years a teacher in the public schools of Silver City, and who was elected in May for the coming term, has resigned her position and will go to Clifton where she will have charge of one of the grades in the public schools of that place.

Attorney W. A. Hawkins, well known in Silver City, where he has lived for a number of years, and was a representative in the Thirty-fifth legislative assembly, will move to Chicago, where he will be the general counsel for the El Paso & Northeastern railroad.

SOCORRO COUNTY.

The recently appointed postmaster at Jornada has decided not to open the office and has notified the second assistant postmaster-general to that effect.

The 7-year-old daughter of Section Foreman Rapp at Lava was bitten by a rattlesnake last Thursday. Dr. Cruickshank treated the little sufferer and it is thought that she will recover.

Joseph E. Smith has purchased the Howell stock of drugs at Socorro and the drug business will form a part of the general business conducted by the Socorro Drug and Supply company.

Tom Bush, a youthful horse thief, has been lodged in jail at Socorro. There are a number of charges against him and his chances to spend a term of years in the pen are very good.

F. A. Katzenstein, an old and respected citizen of Socorro, died at the home of his son, A. F. Katzenstein, August 28. Old age was the cause of death and the old gentleman passed away peacefully and quietly. He was

born in Wertenburg, Germany, in 1815, and came to the United States in 1870. His wife died at Socorro in 1897. Two children survive him. A. F. Katzenstein of Socorro and Mrs. J. C. Carrera of Las Cruces.

Jock Harlan and Eddie Nichols of San Marcial and Conrad Hilton of San Antonio are on their way overland to Roswell where they will take the examination for admission to the military institute.

The San Marcial Bee says that the opening of the Santa Fe Central railroad has caused unusual business activity in certain parts of New Mexico, and that as a result of the construction of the road the Territory will receive considerable development.

Myriads of beetles about three-quarters of an inch in length are devouring peaches and pears at a rate that promises to soon relieve the orchardists of the trouble of gathering the products of their labor. A score or more of these voracious insects will light upon a peach or a pear and in a very short time there is nothing left of the fruit.

The Socorro County Teachers' institute closed a two-weeks' session last Thursday. The enrollment was large and the interest manifested was very great. Professor Dunlavy of the Normal school at Silver City lectured to the teachers and entertained the members of the institute with his readings. The meeting was a pronounced success.

END OF BITTER FIGHT.

"Two physicians had a long and stubborn fight with an abscess on my right lung," writes J. F. Hughes of Du Pont, Ga., "and gave me up. Everybody thought my time had come. As a last resort, I tried Dr. King's New Discovery for Consumption. The benefit I received was striking and I was on my feet in a few days. Now I've entirely regained my health." It conquers all coughs, colds and throat and lung troubles. Guaranteed by Fischer Drug Co. Price 50c and \$1. Trial bottles free.

Cheap Rates to New York.

The Mexican Central has recently placed on sale tickets to New York and return going via the Mexican Central to either Vera Cruz or Tampico; thence via the famous Ward Steamship Line to New York. The return will be by rail over any line to El Paso. The entire trip covering thousands of miles, can be made for \$122.50. A more delightful trip cannot be planned as stop over privileges are allowed and the tickets are good for one year from the date of sale. The trip includes the City of Mexico, the "Paris of America," Havana, Cuba, and its famous Moro Castle, Newport and a dozen of the largest cities of the United States. Further information can be secured by addressing W. S. Mead, C. R. Hudson, general passenger agent, or W. D. Murdock, assistant general passenger agent.

PUTS AN END TO IT ALL.

A grievous wall oftentimes comes as a result of unbearable pain from overtaxed organs. Dizziness, backache, liver complaint and constipation. But thanks to Dr. King's New Life Pills they put an end to it all. They are gentle but thorough. Try them. Only 25c. Guaranteed by Fischer Drug Co.

GOLD IN THE BLACK HILLS.

The Burlington Route has recently issued a 48-page booklet bearing the title "Mines and Mining in the Black Hills."

The book is one which should be read by every mining man in Colorado. It gives more information about the mines of the Black Hills than has ever before been placed between two covers. A copy will be mailed free on application to the undersigned.

The Black Hills need Colorado men and money. Several of the shrewdest men in this state have already invested heavily in the Hills. The results so far have been more than satisfactory. The completion of the Burlington's new line to the Northwest brings the Black Hills within a night's ride of Denver. You can leave Denver tonight and be in Deadwood or Lead City tomorrow afternoon.

G. W. VALLERY,

Gen'l Agent, Burlington Route, Denver, Colo.

Scratch Paper.

Made from ledger, linen flat and book papers at 10 cents per pound at the New Mexican. This is scrap paper put up in pads and is less than the paper originally cost. Only a limited supply.

A small gasoline engine, new, for sale by the New Mexican Printing company. Call or write and get prices.

CHICHESTER'S ENGLISH PENNYROYAL PILLS

Nothing has ever equalled it. Nothing can ever surpass it.

Dr. King's New Discovery

For CONSUMPTION, Coughs and Colds

A Perfect Cure for All Throat and Lung Troubles.

Money back if it fails. Trial Bottles Free.

FARMING LANDS UNDER IRRIGATION SYSTEM.

These farming lands with perpetual water rights are now being offered for sale in tracts of forty acres and upwards. Price of land with perpetual water rights from \$17 to \$35 per acre, according to location. Payments may be made in ten year installments. Alfalfa, grains, fruits of all kinds, and sugar beets grow to perfection.

GOLD MINES.

On this Grant, about forty miles west of Springer, N. M., are the gold mining districts of Elizabethtown and Baldy, where important mineral discoveries have lately been made. Claims on unlocated ground may be made under the mining regulations of the company, which are as favorable to the prospector as the U. S. government laws.

Near Raton, N. M., on this grant, are located the Coal Mines of the Raton Coal and Coke Company, where employment may be found at good wages for any wishing to work during the seasons that farming or prospecting can not be successfully done.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, lodging and bathing, \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

ANTONIO JOSEPH, Proprietor

Tom Cornwiler's A Tumble A A

By L. G. Bates.

"I BELIEVE that boy has climbed every tree in the township, leastwise the worst ones," said Mrs. Cornwiler.

"Deary me! I should be afraid he'd break his neck," said Mrs. Millwaite. "I don't see where he got it," said Mrs. Cornwiler.

"He got it from you, that's plain," said Mr. Cornwiler, boldly.

"From me! Why, just climbing a fence makes me almost dizzy!"

"Your father was a sailor," said Cornwiler, "and his father was top-man in the navy under old Commodore Preble. Tom's inherited their climb from you."

While this discussion was going on indoors Tom was going off outdoors. Mrs. Millwaite's visit gave him a chance to go fishing. He put a hook and line in his pocket, intending to cut a fishpole on the way, and trusting to find fat, white bait grubs in old logs. He owned a sharp one-hand hatchet, which he thrust under his buckskin belt.

A quarter of a mile from the river he came to a familiar tree-stub. It had been a forest giant, but some storm had broken off its top, leaving its great trunk 30 feet high. Forest fires had consumed the fallen top and deeply charred the huge trunk. Tom struck it with his hatchet head. To his surprise it sounded hollow—a mere shell. He was immediately curious to know if it was hollow all the way up, and the only way to ascertain was to climb it.

A more uninviting stub to climb could not be found. It was very grimy, and too smooth and large to be clasped by either arms or legs; but Tom sought a thicket and cut the largest tough withe he could find. He wrapped this about the stub and fastened its two ends securely to his belt with strips of strong bark, making a hoop somewhat larger than the tree. Leaning well back, he walked his moccasined toes right up, raising the hoop by quick jerks.

The tree was hollow. Tom sat on the edge, with his feet dangling outside, as steady of nerve as if upon the ground. When his curiosity was satisfied he slipped off the hoop to refile it more to suit him. An incautious movement broke a bit of the edge and disturbed his balance. He made a violent move to recover himself. More edge crumbled inward, and down he went inside, head and heels together, like a shut jackknife. One hand held to the hoop, pulling it after him. Head, back, hips and legs scraped down the long tube, carrying fragments of rotten wood and a dusty cloud.

Tom struck on a deep, soft pile of debris, into which his doubled-up body plunged breast and knee-deep. The concussion shocked him breathless and set his nose bleeding copiously and the dust and blood hindered the recovery of his breath. Although he was not quite unconscious, it was long before he stirred. The back of his head had been severely raked and rotten wood was ground into all his lacerations.

When at last he began to try to move he found himself wedged in. Vainly he wiggled; he could hardly stir, and could neither lift himself nor get his legs down. His hips, back and all the muscles of his legs ached and prickled intolerably from strain and checked circulation. He could not resist crying; but, being a lad of good courage, endurance and resource, he soon began a systematic effort for release, packing the loose debris down as firmly as he could with his hands, at the same time pressing it away all around with his body. This exertion caused greater ache, but he persisted resolutely. By and by he got his hatchet out of his belt, and struck it, after a dozen efforts, so firmly into the wooden wall that he could hang his weight to it with one hand while he worked the debris under him with the other. He gradually enlarged his space sufficiently to allow the bending of his knees. After that he was not long in getting his body up and feet down, so as to sit cramped on one hip, with both feet nearly level.

Exertion, pain and the pressure of returning circulation made his pulses throb and his head swim, and he lapsed into semiconsciousness. How long this lasted he knew not, but when he began to struggle again he was in black darkness. A few stars shone calmly down his wooden well, but he could work only by feeling about with his hands. He felt exhausted, hungry and weak, but he kept on working until he managed to stand erect. Then, after feebly kicking and pushing debris to fill up the hole where he had been, he curled himself as comfortably as he could and slept a blessed though troubled sleep.

After a long time he stretched out. His sore heels hit one wall, his sore head the other. This time the pain roused him to a renewed sense of his situation. He sat up, stiff, lame all over, weak, gnawed by hunger and thirst, but still undismayed and resourceful. A little thought and a trial convinced him that, weak and sore as he was, it would be a vain waste of strength to try to climb up the difficult inside of his prison.

"There's always more than one way to skin a cat," he reflected. "I've got to get out of this somehow; that's all there is to it." He ran a thumb over the edge of his hatchet. "Pretty sharp yet. Too light to chop easy,

and no room to swing it, but it'll cut a hole, give it time."

Scraping away the rotten wood, he selected a place where the wall seemed thin, and began hacking. Progress was slow. At first his stiff muscles and sore body hurt acutely, but this pain wore away as he went on. The wood, charred outside and very dry, was hard and tough. Although it was a sunny day and his eyes had adjusted their vision to the dimness of his pit, he could hardly see where to strike. He dared not pry out large slivers, for if the edge or handle of his hatchet should break he might never get out. His awkward position and the one-hand work tired him rapidly, and he suffered occasional cramps.

During one of his frequent rests he heard Ban barking loudly outside.

"Good dog! I'm coming!" he shouted.

When Tom did not appear for supper, Mrs. Cornwiler began to fret, but not much, for he was often late. After supper, with no Tom to do the chores, Mr. Cornwiler grumbled, but did them himself, saying:

"Come, now, wife, the boy probably has a good excuse. He's pretty regular, considering."

By bedtime Mrs. Cornwiler was anxious.

"I'm sure he's lying hurt somewhere in the woods, fallen from a tree; or maybe he's got lost."

"Pshaw, now, Edith! Tom couldn't lose himself anywhere in this county the darkest night that ever was; and he doesn't know how to fall from a tree. He'll be home all right pretty soon. Likely he's hindered by something he thinks important."

At ten o'clock Mrs. Cornwiler was insistent and Cornwiler less confident. He proposed to take the dog and search.

Ban, being told to "Go find Tom!" set off joyfully, wagging his tail. He led Cornwiler straight to the charred stub and barked, leaping against it. Cornwiler looked the stub all over. There were no signs of Tom. He called, and fired his rifle. There was no reply. He supposed the stub solid, but thumped it. Unfortunately the blow struck where the shell was thick and where Tom had packed the debris hardest inside. It sounded solid. Mr. Cornwiler thought that Ban had foolishly tracked a squirrel up it, or perhaps a coon and been there and gone. He dragged the dog away, ordering him again to "Find Tom!" Ban instantly ran back to the stub and whined and scratched, but Mr. Cornwiler pulled him away.

Mr. Cornwiler searched a long time, but found no trace of Tom, and Ban seemed puzzled and not much interested. After midnight Cornwiler began a terribly anxious inquiry, rousing neighbor after neighbor. No one had any tidings. Mr. Millwaite dressed, took his rifle and accompanied Cornwiler. Mrs. Millwaite, notwithstanding her depreciation of Tom, went to cheer and comfort his mother all she could.

Millwaite suggested going first to the charred stub. "You know Tom's been there," he said, "and it's the right point to start from." As soon as they arrived Ban began whining and scratching about the stub. Cornwiler sternly ordered him off, and the poor dog, probably supposing it was all right, reluctantly obeyed. Both men believed the stub solid, and that Tom had merely come and gone. The news of the lost boy spread, and by sunrise a dozen men and boys were scouring the woods.

After getting breakfast and doing the housework, Clara Millwaite, who had been thinking, concluded that Tom must, after all, be at or near the charred stub. "A dog never mistakes in such matters; men do," the sensible girl reasoned. She would go and take a look for herself.

"If Tom is there he'll be hungry and thirsty," she thought, so she put a generous breakfast and a bottle of new milk in a bark basket.

Thinking Ban of no service, Cornwiler left him at the house, and the dog immediately returned to the stub and resumed his barking. Clara heard him and hurried to reach the spot and judge for herself of the dog's behavior. She arrived just as Tom drove a long sliver through, and put out his fingers for Ban to lick.

In a few moments more he had the aperture sufficiently enlarged for Clara to pass in the bottle and slices of food. Tom drank first—a long, thirsty pull. Then now he did eat! with the appetite of a starved wolf, and the gratitude of a generous-minded boy. Clara bade him give her the hatchet, and while he ate she hacked with the skill and strength of a pioneer girl. As the wall was now pierced they could chop the edges of the shell and make faster progress. In half an hour Tom was able to squeeze through.

What an object he was! Bloody, grimy and covered with rotten wood from head to heels! Even his hair was plastered with gore and dust. Clara gathered leaves and helped him clean it off as well as he could, but it would require several severe scrub baths and a week's healing to make him presentable.

While they walked home she rallied him about his appearance, suggesting that half the township, especially the ladies, would be on hand to meet him. But Tom said he guessed that as long as she had seen him in this condition, he could stand being looked at by the other ladies.

As for Ban, he was so absorbed that evening with the unusually large bone given him that he quite failed to hear Mr. Cornwiler's compliment.

"I allow," said Mr. Cornwiler, "that when it comes to woodcraft, I haven't got half the sense of that dog."—Youth's Companion.

THAT SPECIAL SALE

Last week we sold nearly every article advertised at a specially reduced price, which convinced us that our "ad" is largely read and that the people of Santa Fe appreciate bargains when they can get them.

This week we are offering special bargains in Dishes and Kitchen Furniture. Let us convince you.

COME AND SEE OUR NEW FURNITURE

Make your home comfortable during the hot weather. With the many conveniences we offer you can convert your home into a summer resort. We aim to provide something newer, something different, something better than other stores, and at lower prices.

AMERICAN
WASHING MACHINE
—Best on Earth—

A Wagon's First Cost

is not all there is to it. There are a plenty of low priced wagons (mighty dear in the end), that actually look well—at first. You can't see the paint-covered wood—pithy, "dead," the defective axle-wood, or foresee the shrinking, rattling, loosening of spokes, the tire setting and constant repairs, that will rise up to trouble you in time. All said and done, it pays to buy once for all a dependable wagon.

STUDEBAKER WAGONS

are that kind. That is a matter of common knowledge—testified to by every man who ever bought one. Built on honor by master mechanics out of selected and perfectly seasoned materials. Definite, sterling worth in each job of Vehicles and Harness, that result in longer and better service than you have a right to expect. You don't make mistakes if you pin your faith there.

Studebakers in Your Town.

The undersigned are the local sales agents. We carry a generous stock, we'll order and quickly get anything you want. You see the goods and know what you are buying. We stake our reputation on pleasing you. Always ready to show you. Give us a call.

OUR MOTTO:
LIVE, AND LET LIVE!

CONSTRUCT NEW DAM

Water Company's Old Reservoir Will Be Cleaned and Pipes Thoroughly Overhauled.

The Santa Fe Water and Light company is contemplating improvements that will add much to the efficiency and result in the betterment of the service. General manager W. H. Fritchman will continue his thorough investigation and inspection of the company property and his recommendations will be at once forwarded to the New York office. It is the intention of the company to thoroughly cleanse the reservoirs and to ultimately construct a new one. The probabilities are that the old tunnel will be abandoned and that an open ditch will be substituted for it. The pipes of the water company in the city will be overhauled and the whole will be put on a much improved condition. In speaking of the present muddy condition of the water Mr. Fritchman said that the irrigation of lawns and similar plots was done only in the morning and the evenings that the condition of the water would be found greatly improved. The supply is not very great at present owing to the lack of rain.

As to the recent action on the part of John L. Zimmerman in homesteading the reservoir site Mr. Fritchman said that he had nothing to say other than the situation was in the hands of the representatives of the company and that he felt positive that the outcome would not be unfavorable to the company.

CARLETON POST, G. A. R.

Makes Arrangements to Receive Commander-in-Chief Black.

Carleton Post, G. A. R., held a well attended special meeting Saturday evening. Post Commander McFie gave a very interesting account of his trip to San Francisco to attend the annual encampment of the order.

An executive committee was appointed by the post to make all necessary arrangements for the suitable entertainment of the new commander-in-chief, Gen. John C. Black, who expects to visit Santa Fe upon his return from the coast. This committee consists of Judge John R. McFie, Col. George W. Knaebel, Gen. John P. Victory, Gen. E. F. Hobart and Dr. D. E. Demarest. The committee has full power to appoint all sub-committees. It will meet tonight at the office of Colonel Knaebel to perfect an organization.

TELLURIDE MINE STRIKE

MAY BE SETTLED.

Telluride, Colo., Aug. 31.—The outlook for a settlement of the troubles between the mine managers and the Miners' union is improved. The union has modified its demand and is willing to accept a reduction in wages for an eight-hour day. The mine operators will meet this afternoon to consider the unions offer.

MILL OWNERS REFUSE

EIGHT-HOUR DAY.

Silverton, Colo., Aug. 31.—The San Juan Mining association decided to refuse the eight-hour day for the 350 mill men of this district and will suffer a strike they say before they will concede the point.
