JOBBER AND RETAILERS

Dunlavy Mercantile Company Has Stores Established All Along the Santa Fe Central.

YEARS OF EXPERIENCE

Before Coming to the Territory the Dunlavy Brothers Were General Merchants in Trinidad.

With stores established at the Santa Fe Central towns of Kennedy, Moriarty, Estancia, Willard, Progresso and Torrance, and another at the town of Hagan in the coal fields in Sandoval county, the Dunlavy Mercantile company has come to the Territory of New Mexico to stay. F. E. Dunlavy, the general manager of the company, and his brother, J. P. Dunlavy, assistant general manager, with headquarters at the principal warehouses in Torrance, together with another brother, Melvin T. Dunlavy, who is still in Trinidad, Colo., were engaged in the general merchandise business, both wholesale and retail, in Trinidad for the past seventeen years.

With such a business experience, it is safe to predict that the Dunlavy Mercantile company has not only come to stay, but that the firm will meet with success in the Territory, and along the line of the Santa Fe Central, both as jobbers and retailers. F. E. Dunlavy, the general manager, is at the present time sending out the following communication through the various channels of trade:

"Dear Sir and Madam—We have recently purchased all the stores of the Pennsylvania Development company, which are located at the towns of Kennedy, Moriarty, Estancia, Willard, Progresso and Torrance on the Santa Fe Central railway, the new line of railroad running from Santa Fe to Torrance, N. M., and also the one at the Hagan coal fields making seven stores in all. We are doing a general merchandise business, handling everything to be found in a general store, from a paper of pins to a silk dress for the wife, a bonnet for the baby, or furniture for the home.

"As this is a new country to us and we are new to you, we would like to give you some ideas of our stores and the scope of our business plans. For the past seventeen years we have been engaged in the wholesale and retail merchandise business in Trinidad, Colo., and throughout the whole of that period enjoyed a very large trade. In coming to the Territory of New Mexico and the new country opened up by the Santa Fe Central to do business, we bring with us these seventeen years of experience in buying and selling goods.

"At the present time we are buying as cheap as any jobber in New Mexico large quantities of all staple and heavy goods in car load lots, for we get them at the best jobbing prices. Since purchasing the Pennsylvania Development company's stores we have enlarged our stock, and reduced the selling price on all merchandise to as low a figure as can be obtained anywhere in the great Southwest.

"We would solicit your trade for we can furnish you with as good goods, and at as low prices as any firm in the Territory, and if we cannot, we will not ask the continuance of your trade. We invite you to call and see our stock and get our prices. We will also buy all marketable produce, hides, pelts and wool, also grain and feed, as we will have a large market for all commodities raised and sold in this section.

"We wish to thank you in advance for calling at any of our stores, for goods you need in our line.

Very truly yours,

"DUNLAVY MERCANTILE CO." At Torrance the company has two stores, 40x90, which is the source of supply for the stores along the line of the Santa Fe Central. In the warehouses are to be found most everything, from the necessities of life in the eating line, to furniture for the homes, the company having just received a consignment of furniture, including folding beds, bedroom suits and sideboards.

At Willard the company's store is at present in the depot, but ground has been broken for a 25x75 foot store-room with cellar. At Progresso the company has a small store in the depot. At Estancia the company is still holding forth in the depot, but the walls of a 25x75 foot store room and dwelling are already up and the building will be under roof before winter.

At Moriarty, the store is in the depot, but on October 1, the company will move into the 25x70 foot store room erected just opposite the depot by M. T. Moriarty. At Kennedy the company has two stores, 40x90 feet, alongside of the depot.

The store keepers along the line are as follows: J. P. Dunlavy, assistant general manager, is at Torrance; (Continued on Page Five.)

ULTIMATUM TO MILITIA

Unless Cripple Creek Prisoners Are Turned Over to Sheriff Court Will Hear Cases.

Cripple Creek, Sept. 22—This morning counsel for the military made the statement in court, that at 2 o'clock this afternoon, they would present three affidavits against three prisoners, for crimes against the law. They further added that they would make affidavit against other prisoners in a few days. The prisoners were not present this morning and Attorney Crump asked that a motion to quash be taken up, as to the legal points, without the presence of prisoners.

The court refused to waive the right of the prisoners, and said that an adjournment would be taken until 2 o'clock, when consideration of the argument to quash would again be taken up. There was no military display this morning.

Attorney Crump said today when asked his reason for not bringing the prisoners into court:

"The defendant, General Sherman Bell, sends word to your honor that in his best judgment, had the prisoners been brought here today at the hour named by the court things might have occurred which your honor, Mr. Murphy, myself and all of us would have regretted. There will be no step taken by us in disobedience to this or any other competent court."

The court ruled that unless the prisoners were turned over to the sheriff by 2 o'clock, he would proceed with the hearing of all four cases.

ANOTHER FOOTBALL VICTIM.

Gustave Becker of Belen, Suffers Broken Spinal Column in Chicago.

The latest victim of football is Gustave Becker, son of Mr. and Mrs. John Becker of Belen, who returned to Chicago last week, to resume his studies at the Lake Forest academy, in that city.

On Saturday last, during a practice game, the young man suffered a broken spinal column, which resulted in his lower limbs being paralyzed. His chances of recovery hang by a very slender thread. Mr. and Mrs. Becker left immediately for their son's bedside.

GOOD WATER NOW INSURED

Manager W. H. Fritchman Authorized to Proceed to Work On Open Ditchway.

TO BEGIN IMMEDIATELY

Contract Will Be Let If Possible—Reservoir to Be Cleaned and Enlarged.

"Your are hereby authorized to proceed at once with the ditch."

The foregoing is a copy of the telegram received today by Manager W. H. Fritchman, of the Santa Fe Light and Water company, from the New York syndicate which controls the water works of the Capital City. In discussing the telegram, and what will be the outcome of his authority to proceed with the work on the open ditchway, Mr. Fritchman said:

"I shall immediately begin the work of taking out the old tunnel, and establishing an open ditchway to the reservoir. If I can let the contract in Santa Fe for this work I will do so, otherwise I will hire the necessary teams and a force of men, and personally superintend the work.

"I am negotiating at the present time for two or three of the dump cars that belonged to what was to have been the Santa Fe Electric railway, having taken up the matter with parties in Aurora, Ill., who own them. I have further negotiations pending with General Manager W. S. Hopewell of the Santa Fe Central, for rail on which to operate the dump cars, in taking out the tunnel and constructing the open ditchway. These negotiations, however, are as yet in an embryo state.

"Within the next three weeks I shall let all of the water out of the large reservoir, and thoroughly cleanse it, and also somewhat enlarge it. With a fresh supply of water, and its future supply filtered through the open ditchway, Santa Fe will have as clear and as pure water as any section in the Territory or Southwest.

"When the contemplated improvements are completed, which will necessitate an outlay of \$10,000, Santa Fe will have as fine a little water works system as could be desired."

FIRE LADDIES GET

AN INCREASE. At the meeting of the Albuquerque council last evening, an ordinance was passed, giving to the fire laddies a raise of \$10 a month in their pay.

RESOURCES OF LUNA AND DONA ANA COUNTIES

Irrigation Needed to Carry on Agricultural Pursuits in Former. While the Latter is a Great Farming District.

SURVEY FINISHED FOR A SHORT LINE OF RAILROAD

The counties of Luna and Dona Ana, which it is fondly expected will shortly be connected by a short line of railroad, running from Deming, the county seat of Luna, via Las Cruces, the county seat of Dona Ana, to Alamogordo, the seat of Otero county are widely diversified in their natural resources. While irrigation would be a blessing to Luna county, and materially enhance its opportunities to derive a revenue from agricultural pursuits, which would be only limited to the area of the county, Dona Ana is one of the greatest farming districts in the Southwest, and during the past two years has had more water than usual. The resources of Dona Ana also extend to mining and stock raising, the latter constituting the chief resource of Luna county. Both counties are experiencing a steady growth, although in Luna little or no land is being taken up on account of the arid conditions, while in Dona Ana there is very little public land left.

Irrigation Needed in Luna.

"Irrigation would prove a manifold blessing to the county of Luna," said J. A. Mahoney of Deming, at the Palace hotel today. Mr. Mahoney is a prosperous merchant at Deming, the seat of Luna county, and has been identified with the interests of that section since 1881. He is an ex-member of the Legislative Assembly, and is at present a member of the Territorial board of equalization.

"Cattle raising is at the present time the principal source of revenue in our county," continued Mr. Mahoney. "A limited water supply places us beyond the pale of agricultural pursuits, the extent of which would be practically limited to the area of the county with irrigation. About 50,000 head of cattle are raised yearly for the market, the fall market being California, while during the spring we ship to Colorado, Kansas and Nebraska.

"The county of Luna which has a population of 5,000, and Deming, the county seat, with upwards of 2,000 inhabitants, are experiencing a steady growth. Not much public land is being taken up, as we are handicapped on water supply. A survey has recently been taken for a short line of railroad to connect Deming and Alamogordo. The survey is supposed to have been made in the interest of the Rock Island system, and if built, the railroad would materially benefit us, as I believe the centers of civilization cannot have too many railroads; for they are a potent and predominant factor in civilization and commercial progress.

"The establishment of a short line of railroad from Deming to Alamogordo will also materially benefit the cattle raisers, as it will afford them a direct route for making their shipments in the spring to the markets of Colorado, Kansas and Nebraska."

IRISH LAND ACT.

Many Natives of Emerald Isle Now in Uncle Sam's Domain Interested in Outcome.

London, Sept. 22—Interest has been evoked here by a letter from Secretary O'Callahan, of the United States Irish League of America, to Mr. Condon, M. P., saying that since the passage of the Irish land act, many evicted tenants now residing in the United States, have been making anxious inquiries regarding the possibility of reacquiring their former holdings.

Mr. O'Callahan expressed the belief that should a large proportion of the inquirers be able to do so it would go far towards solving the question of emigration, and turn the tide back to Ireland.

The New Mexican Printing Company employs superior workmen in its several departments. Consequently it turns out superior work and should receive the patronage of those desiring "something above the ordinary," at simply a consistent rate for the character of the work turned out.

Farming Resources of Dona Ana.

"Dona Ana county is one of the greatest farming districts in the Territory," vouchsafed Martin Lohman of Las Cruces, when approached on the conditions of his section. Mr. Lohman is a wholesale and retail merchant at Las Cruces, the seat of Dona Ana county, and also a banker in the town. He has been active in politics, having held the office of sheriff and collector of his county. Subsequently he was a member of the cattle sanitary board, and is at present a member of the Territorial board of equalization. He has been in the Territory for the past 28 years, and is practically a self made man.

"The resources of Dona Ana county with its 12,000 inhabitants, and Las Cruces, the county seat, with a population of 3,000, are farming, mining and stock raising," continued Mr. Lohman. "The principal crops raised are alfalfa, wheat and fruits. The past two years have proved very prosperous. We have had more water than usual, and the farmers have made considerable money, particularly out of alfalfa."

"There is very little suitable public land to be taken up in the county at the present time. The population is mixed, those of Mexican descent predominating, but they are of the thrifty farmer class. While none of us know what the exact plans are, there has been a surveying corps in the field, making a survey for a railroad between Alamogordo and Deming, via Las Cruces. It is generally understood, however, that a road will first be built from Las Cruces to the Organ mountains, which is the mining district of the county.

"The United States government has also a surveying corps, with head also a surveying corps, making a survey of the entire valley. The government also has a drilling corps at the Elephant Butte dam site.

CHARTER ELECTION.

Everything Passed Off Quietly in the Capital City of "Centennial" State.

Denver, Sept. 22—The charter election is passing off quietly and with the exception of two or three precincts there has been no violence or evidence of fraudulent voting. In the eighth precinct, Fifth ward, it is reported that 175 fraudulent votes were cast before 8 o'clock. Very few arrests have yet been made.

The injunction of Judge Johnson, restraining the election judges from interfering with the watchers, is being generally obeyed, and there are watchers of the charter campaign committee in every precinct. The vote cast up to noon is heavier in the residence wards than in the lower wards of the city.

It is an admitted fact that real estate, financial men and merchants all say that quickest and best results are obtained by advertising in the "New Mexican."

THAT PANAMA CANAL

No Dispatches Bearing on the Situation Received at the State Department.

Washington, Sept. 22—The state department up to noon today had no dispatches bearing upon the Panama canal situation, either from Minister Beaupre or through Herran, Colombian charge d'affaires here, and nothing is looked for during the day, which will keep the treaty alive after midnight tonight. There is no intimation in official circles here as to what will follow.

HONDURAS MAY DECLARE WAR AGAINST NICARAGUA.

New Orleans, Sept. 22—Advices of the expected invasion of Nicaragua by soldiers of Honduras, to enforce that country's contention that Nicaragua in giving a concession to a Pittsburg, Pa., syndicate, granted rights in territory belonging to Honduras, reached here by steamer today. Unless a settlement of the boundary dispute is effected there is a strong probability that war will be declared.

TWO KILLED BY FOUL AIR IN MARY MURPHY MINE.

Buena Vista, Colo., Sept. 22—Colonel B. F. Morley, manager of Buena Vista smelter and of Mary Murphy mine, at Romley, and Adolph Abrahamson, superintendent of the mine, were killed by foul air, while making inspection of the mine workings last night. Their bodies were recovered today.

BUGGIES COLLIDE.

Rev. Henry W. Moore, pastor of the Presbyterian church at El Paso, a frequent visitor here and brother of Rev. W. Hayes Moore of this city, on Sunday evening was injured in a buggy collision at El Paso. He was driving home with his wife and baby after church services when another buggy ran into his team from the rear, throwing Mrs. Moore and baby to the ground. Mr. Moore was dragged several yards by his horse which started to run away. Mr. Moore was badly bruised about the arms and knees but neither he nor Mrs. Moore or baby were seriously hurt. The buggy was badly twisted and broken and had to be sent to the shops for repairs.

CARDINAL GIBBONS

American Prelate of the Roman Catholic Church Arrives in New York.

WELCOMED BY PRIESTS

Spoke in Terms of the Greatest Enthusiasm When Referring to Pius X.

New York, Sept. 22—Cardinal Gibbons arrived here today on the Kaiser Wilhelm der Grosse. A delegation of priests and laymen from Baltimore, went down the bay on the revenue cutter to greet him and welcome him home. Heading the delegation were the Rev. Dr. J. D. Stafford of Washington, and the Rev. B. Singleton of Baltimore, and R. B. Tibbitt of Baltimore, supreme president of the Catholic benevolent lodge.

The cardinal will remain in this city a guest at the home of Mrs. Kelley of Brooklyn, until Friday, when he will accompany the delegation to Baltimore. When the welcoming party boarded the Kaiser Wilhelm off quarantine, Mr. Tibbitt made an address of welcome to which the Cardinal briefly responded. Another reception awaited the Cardinal when he went ashore at Hoboken.

This afternoon the Cardinal will go to Brooklyn. He had a pleasant voyage and he said the ocean trip had recuperated his strength, which had been greatly taxed by the severe spell of fever he suffered, due to the intense heat in Rome during the progress of the conclave.

Of the new pontiff the Cardinal spoke in terms of the greatest enthusiasm. He said the choice of conclave had been most happy from an American viewpoint, as Pius X was deeply interested in the development of the church in this country, and was singularly familiar with American institutions.

The Cardinal had several lengthy interviews with the Pope regarding church affairs in this country. The Cardinal was not inclined to discuss the probable policy of the new papal regime, but said that no radical changes in American church administration would ensue.

JUMPED TO DEATH FROM TRAIN.

Ross Powers of Fremont, Neb., jumped from a moving Santa Fe passenger train at Las Vegas, and met instant death.

A CITIZEN'S GREAT VALUE

Discussed By Governor Odell Before Farmers' National Congress, Niagara Falls.

FARMING INTERESTS

Declared to Be the Duty of the Government to Aid in Development of the Soil.

Niagara Falls, N. Y., Sept. 22—The Farmers National congress assembled here today for the twenty-third annual session, which was called to order by President Flanders of Albany. Governor Odell delivered the address of welcome.

Governor Odell after a few preparatory words said:

"The recognition which has been given by the National and State governments to the farming interests of our country, might at the first glance appear to be in the direction of paternalism, yet it is as important in its effect as any legislation which can be adopted for the benefit of the people as a whole. It is as much the duty of the government to aid in the development of the soil of the country as it is to protect its artisans against discrimination, or unfair competition at home or abroad, to aid in promoting the material welfare of its citizens, as it is to stamp out disease or epidemic, which may threaten the lives of individuals.

"This encouragement which the government extends does not lead to a dependent spirit, but rather makes our citizenship more self-reliant and more patriotic."

Discussing the qualities that go to make good citizens, Gov. Odell summed up the subject as follows: "A good citizen is a product of the greatest value to the country. His culture and development is as necessary as the cultivation of our fertile fields and valleys. The vicious, uneducated man is the center around which revolves those whose ideas are antagonistic to civil, religious and individual rights. One of the first duties, therefore, of our country is to fight unceasingly and energetically against all classes who defy the law and whose principles are a menace to society. We do find such people all over the country. The farmer, the mechanic, and the professional man are responsible for such conditions, when they exist, if they have made no effort to place within the reach of all these penury-stricken people, these dwarfed intellectualities, that which is the basis and foundation of contentment, that is, in decent homes, fair remuneration of toil, that will permit of social and intellectual enjoyment."

Governor Odell entered a plea in behalf of politicians and public officers whose efforts are directed to the people's good, and protested against carrying criticism and assumption, that because a man is a politician that he is necessarily dishonest. In conclusion he said: "It is your duty to use your influence and your power to better these conditions, and to win back to useful membership in so far by the force of example, those whose environment has not been such to make of them good citizens, to use the power which you possess in the halls of legislation to correct abuses which may exist, and to aid in the fight which is being made by philanthropic and benevolent people against the disease and crime among those to whom God's bright sunlight is almost unknown, and to try means, that understanding so misconception of what liberty in our country is, and to enjoy the advancement to good citizenship."

COURT PROCEEDINGS.

Jury Failed to Agree in the Case of Monica Arango.

The jury in the case of the Territory of New Mexico, vs. Monica Arango, who was tried yesterday afternoon for assault and battery, before Judge McFie, failed to agree upon a verdict, and was discharged by the court after several hours deliberation.

Grand Jury Discharged.

The Territorial grand jury was discharged this morning by Judge McFie. The report of that body showed that it had considered 33 cases during its sittings, examined 78 witnesses, and returned 21 true bills. In two cases no indictments were returned on account of lack of evidence.

The committee appointed from among the members of the grand jury to investigate the jail and county offices, found all in good condition, except the vaults in which the county records are stored. This was reported as being too small, with a recommendation that it be enlarged for the use of the county clerk.

SANTA FE'S SCENIC SURROUNDINGS.

There is many an old timer in Santa Fe who knows very little about the city and its surroundings. On these autumn days, one must press close about the hills of some of the greatest scenic beauties. I have never so much better than driving, or need not follow beaten paths to the ground, stoop to waders, linger to look down at the turf and gaze at the sky, lie under tall grass and hear the wind touching the harp of bough and homeward upon untrodden paths, or pebbles or viewing the wondrous panorama that spreads out from every hill and crag that crowd upon the city on every side. Follow your nose for two, four or eight miles in any direction from Santa Fe and you will come upon scenic beauties for which you may claim the right of discovery and which are the equal of anything that you have seen before. After taking twenty or thirty of such rambles every year for about a decade or two you will get some idea of the vastness of the mountain masses, of the scenic beauties which lie undiscovered at the door of every home in Santa Fe.

MODEL CITIZENSHIP.

President Roosevelt has pointed to Jacob Riis as the model citizen of the United States. It will be to the interest of every citizen therefore to ponder upon the latter's words on municipal reformers, for these words are applicable to Santa Fe as well as to New York. Says Mr. Riis: "What New York City needs just now above all else is an armful of common sense and resolution, to act on it, to go where it points."

"In the abstract we all of us wish our city well. In the particular case we are too lazy or indifferent to see that it has the chance we wish for it. That is, when things are quiet."

"We think we have done enough for a while, and that there ought to be virtue enough in the republic to run itself and to run the city without our shoeing on all the time."

"Well, it won't."

"What we need in the first place and in the last is grace to get mad and keep mad. Never mind the English. It is the thing we need be after."

"That is citizenship on the move, as it were."

"Citizenship that lies down, content to let itself be robbed, abused, made a byword of, is a bad citizenship."

"I prefer the company of the man who does the robbing and the abusing any day to that of the fellow who tamely submits to it."

The Republicans of Hawaii in convention assembled have passed resolutions asking for statehood for the Sandwich Islands. Here's hoping that they will not have to wait as long as New Mexico has been waiting.

"It is stated in Republican circles in this district that Jerry Leahy is to be the party's choice for the council next year."—Springer Stockman. For the good of the Republican party and of the people of the district, it is hoped that the above statement will be borne out for next year's campaign. Mr. Leahy would be elected by a handsome majority and would represent the people of his district creditably and honestly in the coming assembly.

"There seems to be much railroad smoke to the east of us. With so much smoke there certainly must be a little live fire. What is Roswell going to do about punching up this fire?" Daily Roswell Record. Yes, what is Roswell going to do? The town ought to be stricken itself and blow the fire into a great blaze out of which is to come speedy rail connection via the Santa Fe Central between the capital of the Territory and the county seat of Chaves county.

It is said that Raton is soon to have a daily newspaper. The town is thriving, progressive and growing and indications seem to point that a fair sized daily newspaper would find the necessary support in the Gate City.

The Albuquerque Citizen pertinently remarks as to the best location for the Soldiers' home in the United States: "The people of Santa Fe are trying to get a soldiers' home established there. The capital city is the best place in the United States for such a government institution."

Although Antonito is more than twice as far away as Las Vegas or Albuquerque, yet it seems just as near to Santa Fe. It may be that because Santa Fe and Antonito are on the same railroad while Las Vegas and Albuquerque are on the main line, of which only a branch comes to Santa Fe, or there may be some other reason but the friendship of Antonito is worth while cultivating.

The New Mexican is under obligations to the Revista de Taos for the following editorial item: "The New Mexican is doing some excellent work for New Mexico and it is not forgetting the great mineral section of Taos county. Such work by all the Territorial papers would do more for statehood than all other kind of talk. We have the resources which need developing to make our commonwealth one of the foremost in the union." Honest appreciation is good for the soul.

It is not only railroad companies that are holding their employees to a stricter moral accounting. Uncle Sam too is getting very strict, especially in the lower grades of employment. Says the Postal Bulletin received last night: "A railway mail clerk of class 4, in the Kansas City district, has been removed for alleged immorality and apparent deceit, under promise of marriage." If this moral code is now extended to those occupying higher places, the national capital may yet become a model of morality as it is a model in many other respects.

The name of the men who complain that newspapers do not publish all the news is legion. The editor of the Springer Stockman has just run across a specimen of that part of the human family and this is the way he dresses him off: "Some people say the Stockman doesn't publish all the news. Oh Lord-y, no! of course it don't. If some people had their outward kick gratified in this respect the editors of newspapers would always be in danger of being assassinated. For the sake of decency don't ask your local paper to publish all the news. If he did the paper would be unfit to enter any home. If you have anything of that kind tell it to the sheriff, don't roar at the local paper for not publishing all the news."

Democrats assert and there are few to deny them at this time that the price of living is higher at the present than it ever was before. That there has lately been a decline has been noticed by a few but it is a fact nevertheless. Dun's index number of prices, from which an idea of the cost of living can be formed, was \$97.891 on August 1, in comparison with \$99.546 a month previous and \$100.177 a year ago. On the other hand wages are advancing steadily, largely due to the protective tariff. If what a man now includes in the term of living is taken into consideration, the cost is much less than it was a generation and still less than two generations ago. Men of moderate means procure as necessities what in former times were considered luxuries even by the rich. Apart from that consideration, however, what today costs \$97.891, cost \$115.191 in 1860. It cost \$148,781 in 1870 and \$108,655 in 1880.

How long will it take the man to fill the sack if he does not stop the leak? To attempt to nourish the body when the stomach is diseased is like trying to fill the sack with the hole in it. When the stomach and other digestive and nutritive organs are diseased, there is a constant loss of nutrition.

Enough is eaten but the body loses flesh, plain proof that the food eaten is largely wasted because it is not digested and assimilated.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It stops the leaks by which nutrition is lost, and enables the building up of the body by the nutrition derived from food. The gain in weight proves the cure.

"Three years ago I was taken sick with what the doctor called nervousness and indigestion," writes Mrs. Warren E. Parker, of Orange Street, Nantucket, Mass. "He gave me medicine for the trouble, but I could not eat even a little toast or oatmeal without suffering severely. In a few months I began to have distressing pains right in the pit of my stomach. I called the doctor again and he said I had catarrh of stomach; gave me medicine but it did not do any good. I lost 25 pounds in three months. I then commenced taking Dr. Pierce's medicine and soon began to feel better. I have taken six bottles of 'Golden Medical Discovery,' two of Favorite Prescription' and six vials of Dr. Pierce's Pellets. I have gained ten pounds. Can eat everything."

Dr. Pierce's Pleasant Pellets cure constipation.

Scratch Paper.

Made from ledger, linen, flat and book papers at 10 cents per pound at the New Mexican. This is scratch paper put up in pads and is less than the paper originally cost. Only a limited supply.

The New Mexican Printing Company has the best bookbinding in the southwest and the only modern bindery in New Mexico. It turns out superior blank-books, cash-books, journals and ledgers, and also loose-leaf ledgers and blank-books of all descriptions. The work done by it is first-class and at very low rates. Bankers and merchants in New Mexico should not send their book binding work out of the territory, but should patronize this very deserving home manufacturing institution.

MINES AND MILLS

RIO ARRIBA COUNTY.
J. E. Scully of Chicago, accompanied by his wife, is at Tres Piedras. He is president of the Jaw Bone Mining company operating in the Bromide district and will remain a month to observe prospect work with a diamond drill on the Jaw Bone.

Southwest of Tres Piedras, about fourteen miles, is a very large deposit of mica, three claims having been located, the Cribberville, the Sandoval and the Petaca. An option on these three claims has been given to L. G. Carpenter.

Application for patent has been made by Daisy B. Ashton upon the Juniper, Greenstone and Jefferson claims in the Bromide district.

A valuable ore discovery is reported from Bromide. It was made by Harry Raymer. The outcropping was hidden by a thicket of scrub oak. The vein is ten feet in width and carries carbonates and sulphides of copper.

The Mining Reporter published at Tres Piedras in its first number gives the Headstone and Bromide districts a write-up from which the New Mexican makes the following abstracts:

"The first discovery of mineral in the district was made in 1880 at Good Hope, 22 miles west of Tres Piedras, by J. M. Bonnett, who is still a resident of Hopewell, and two other men named Morgan and Field who were cutting ties. The find was made in dirt along the Tusas creek at Hopewell. For several years the little valley was panned with great success. It is claimed that fully \$200,000 in nuggets was taken out. The gold was very coarse. Five dollar nuggets were plentiful and one nugget was sold at Tres Piedras for \$94, but its real value was much more. An attempt was made several years ago to wash the dirt with hydraulic pressure but the bed rock was so broken up that the gold could not be saved.

Lode prospecting was begun only a few years ago. The ore is free milling and is found in large bodies but is too low grade as far as development has gone to admit its being shipped at a profit, the district having no railroad.

A diamond drill is being put to service in the camp by the Jaw Bone Development company, which company is thoroughly prospecting its holdings.

Among the oldest prospects in the district are the Emerald and the Hidden Treasure owned by Reynolds and McKinney. Webb Lumpkins is now working the property under bond and lease. Two shifts are at work.

The Jaw Bone belongs to Chicago parties and E. B. Seward of Tres Piedras. J. E. Scully is the president and is at present in the camp to oversee the work of the diamond drill.

The Sixteen to One is a silver proposition, the ore running very high in the white metal. G. F. Hall is the manager for the owners who live at Loup City, Neb.

The Danbury group belongs to J. P. Rinker and has been developed to a considerable extent.

The Royal Purple group consists of six patented claims belonging to W. H. Ashton of New York. About 400 feet of tunneling has been done on the property.

The Elliott belongs to the Pennsylvania Mining and Milling company. However, it is in litigation and no development work is being done. It has a 100-foot shaft and a drift of 250 feet. F. A. Elliott is president of the property.

The Buck Horn is owned by Du-luth, Minn., parties and has a small mill erected several years ago. At present both mine and mill are idle.

The Good Hope is owned by Nebraska parties who have done some sinking on the vein with a whim.

The Freeport and Cinnabar group is owned by C. H. Brickenstein, W. A. Braiden and others of Conejos county, Colorado. The richest ore found in the camp thus far has been taken out of this mine. However, the property is idle at present. It has a shaft of considerable depth.

Development work on the Strawberry is progressing under two shifts. The mine has a steam hoist. It belongs to the New Mexico Gold and Copper Mining company, R. Cole being president.

The Whale is lying idle at present. Considerable development work has been done on the property. It belongs to Judge A. Royce of Pueblo, Colorado. It is to be patented this fall.

A deal is on to consolidate the Pay Roll with the Bromide and therefore no work is being done on the former. It is the property of the Keystone Copper Mining company of Bloomsburg, Pennsylvania. It shows both gold and copper. Extensive work has been done on the property.

The Tampa belongs to the Tusas Peak Mining company of Manistee, Michigan. It is being worked day and night. A steam air drill and a steam hoist have been installed. Frank Bolton is the resident manager of the company.

The Sardine belongs to the St. Michaels Mining and Refining company, Charles Taylor being in charge. There is a steam hoist on the property. Work on the mine is to be resumed in the near future.

The War Eagle is also in charge of Mr. Taylor. It is owned by the Mexican King Gold and Copper Mining company of Milwaukee, Wisconsin.

The Mineral Point Group is owned by Cincinnati parties. E. C. Sterling is the resident manager. A Gardner electric drill has been installed and the 1,000 feet of shaft, drifts and levels have exposed \$100,000 worth of concentrating ore, taking the average dump assay of \$2.17 per ton.

The Bromide district lies half way between Hopewell and Tres Piedras. It is mainly a copper camp although also showing gold and silver. The first strike was made when the district was supposed to be within the boundaries of the Petaca land grant. The Bromide was worked several years and was a shipper but the owners of the Petaca grant drove the owners out. After the court of private land claims had established the boundaries of the grant, the Bromide was restaked, being outside of the grant limits. This was in 1889 when William M. H. Ashton of New York, organized the district.

FEARFUL ODDS AGAINST HIM
Bedridden alone and destitute. Such in brief was the condition of an old soldier by name of J. J. Havens, Versailles, O. For years he was troubled with kidney disease and neither doctors nor medicines gave him relief. At length he tried Electric Bitters. It put him on his feet in short order and now he testifies, "I'm on the road to complete recovery." Best on earth for liver and kidney troubles and all forms of stomach and bowel complaints. Only 50 cents. Guaranteed by Fischer Drug Co.

D. & R. G. CHANGE OF TIME.
Until further notice the Denver & Rio Grande train arriving here in the evening will be run as an extra from Espanola to Santa Fe, arriving at Santa Fe about 5 p. m.

From now until further notice the regular train will leave Santa Fe at 10 a. m.

A REMARKABLE RECORD
Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many million bottles have been sold and used. It has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during all this time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the child becomes hoarse or even as soon as the croupy cough appears, it will prevent the attack. It is pleasant to take, many children like it. It contains no opium or other harmful substance and may be given as confidentially to a baby as to an adult. For sale by all druggists.

"The Grand Canon of Arizona," a superbly illustrated volume of 124 pages. Fifty cents a copy. Apply to H. S. Lutz, city agent of the Atchison, Topeka and Santa Fe Railway in the Car-ton Block.

A BOY'S WILD RIDE FOR LIFE.
With family around expecting him to die, and a son riding for life 18 miles, to get Dr. King's New Discovery for Consumption, Coughs and Colds, W. H. Brown of Leesville, Ind., endured death's agonies from asthma; but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like marvelous cures of consumption, Pneumonia, Bronchitis, Coughs, Colds, and Grip prove its matchless merit for all Throat and Lung Troubles. Guaranteed bottles 50c and \$1. Trial bottles free at Fischer Drug Co.

BEAUTIFUL WOMEN.
Plump cheeks, flushed with the soft glow of health and a pure complexion, make all women beautiful. Take a small dose of HERBINE after each meal; it will prevent constipation and help digest what you have eaten. 50c. Mrs. Wm. M. Stroud, Midlothian Tex., writes, May 31, 1901: "We have used HERBINE in our family for eight years, and found it the best medicine we ever used for constipation, bilious fever and malaria." Sold by Fischer Drug Co.

DENVER AND RETURN \$17.40.

NEW COOKING COAL FIELDS

The Shaw-Gibson Mining Co. and
Tony Neis Working Fine Claims
in San Marcos Canon.

AT ALBUQUERQUE FAIR

Santa Fe County Will Have a Fine Exhibit of Coal and Mineral Products.

Tony Neis, who has been a resident of this county for twenty-five years, and who lived at Cerrillos for some years, has recently made a strike of a valuable vein of coking coal, situated about two miles north of Cerrillos, on the east side of the San Marcos canon. He has run an incline tunnel into the vein about fifty feet, the vein widening constantly and the coal improving in quality and quantity.

The vein is now a little over three feet wide and Mr. Neis expects that it will develop into a five foot vein before one hundred feet of the work has been done. In this vicinity right opposite to the Tony Neis property, on the west side of the San Marcos canon, is located the coal property owned by the Shaw-Gibson Mining company.

This company has been prospecting and working for coal in that locality for about two months, and has so far driven a tunnel about forty feet in length into it and has developed a coal which is getting better and has been the finest coking coal same character as the Tony Neis property.

These facts clearly establish that in that locality an extensive coal field will be opened, which promises to be the finest in this county, although there is more or less coal throughout the southern part of the county as clearly proved by past events in the coal production line.

Large blocks of the black diamonds of these two properties will be exhibited at the Albuquerque fair and thereafter sent to the New Mexico exhibit at the St. Louis exposition. A. R. Gibson, who is in charge of the Santa Fe county mineral exhibit yesterday received a beautiful specimen of coal from the Tony Neis property which weighs about one hundred and fifty pounds, and shows unequivocally that the character of the coal is of the very finest for heating, steam and coking purposes.

Mr. Gibson is now getting similar specimens from the property owned by the Shaw-Gibson Mining company for exhibition purposes. He is also hard at work on the general mining exhibit from this county and believes that he will make the same a success.

James Lamb, superintendent of the Colorado Fuel and Iron company at Madrid has informed Mr. Gibson that his company will be pleased to supply the Santa Fe county exhibit with superior specimens of the anthracite and bituminous coal mined in the Madrid coal fields. The collection of minerals containing gold, copper, silver, lead and zinc from this company is also growing apace, and by the time of the holding of the fair, it will have assumed very respectable proportions.

B. F. Adams of Albuquerque, who was elected supreme representative of the grand lodge, Knights of Pythias of New Mexico, at its recent meeting at Alamogordo, returned yesterday from Alamogordo, via the Santa Fe Central.

Mr. and Mrs. John Becker of Belen, have gone to Forrest Lake, Ill., where their son, Gustav, is attending a military academy. While playing football Saturday last the young man was seriously injured and a telegram summoned his parents to the Illinois town.

Willard V. King, vice president of the Continental Trust company, of New York City, who is touring New Mexico and Arizona, spent the day in the Capital City. He is a warm personal friend of Manager W. H. Fritchman, of the Santa Fe Water and Light company.

August Reinhardt, superintendent of bridges and buildings, of the Santa Fe Central, left for Torrance last night, where he will erect a water tank similar to the 50,000 gallon tank just completed at station 425. Mr. Reinhardt spent Sunday in the Capital City with his family.

O. A. Budd auditor for the Dunlavy Mercantile company, has returned from a trip over the Santa Fe Central, to the several stores of the company, and will remain in the general offices of the company in the Catron building until the first of the month, when he will invoice out Roy Stamm, as manager of the store at Moriarty, and install a new manager, Mr. Stamm having resigned to go in business with his father in the "Duke City."

Colonel J. P. McGrorty of Deming was an arrival in the city yesterday. The Colonel is one of the oldest and best known citizens of Luna county, as well as highly respected. He is here as a member of a committee to revise the constitution and by-laws of the

SKIN AND BLOOD PURIFICATION

Cuticura Soap, Ointment
and Resolvent

Cleanse the Skin, Scalp
and Blood

Of Torturing, Disfiguring Humours with Loss of Hair

WHEN ALL ELSE FAILS

Thousands of the world's best people have found instant relief and speedy cure by the use of Cuticura Resolvent, Ointment and Soap in the most torturing and disfiguring of itching, burning and scaly humours, eczemas, rashes, itchings and inflammations.

Thousands of tired, fretted mothers, of skin-tortured and disfigured babies, of all ages and conditions, have certified to almost miraculous cures by the Cuticura remedies when the best medical skill had failed to relieve, much less cure.

Cuticura Treatment is local and constitutional—complete and perfect, pure, sweet and wholesome. Bathe the affected surfaces with Cuticura Soap and hot water to cleanse the skin of crusts and scales and soften the thickened cuticle, dry without hard rubbing, and apply Cuticura Ointment freely to allay itching, irritation and inflammation, and soothe and heal, and lastly take Cuticura Resolvent to cool and cleanse the blood, and put every function in a state of healthy activity.

More great cures of simple, scrofulous and hereditary humours are daily made by Cuticura remedies than by all other blood and skin remedies combined, a single set being often sufficient to cure the most distressing cases when all else fails.

Sold throughout the world. Cuticura Resolvent, 50c. Cuticura Soap, 25c. Cuticura Ointment, 50c. Total, 1.25. Depot: London, 27, Charterhouse St., E.C. 4. Paris, 2, Rue de la Paix. Boston, 12, Columbia Ave. Potter Drug and Chem. Corp., Sole Props. Send for "Skin and Blood Purification."

ABCESS.

W. H. Harrison, Cleveland, Miss., writes, Aug. 15, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment; I got a 50c size, and it cured my leg. It is the best liniment in the world. ABCESSSES, with few exceptions, are indicative of constipation or debility. They may, however, result from blows or from foreign bodies, introduced into the skin or flesh, such as splinters, thorns, etc. Sold by Fischer Drug Co.

BUCKLEN'S ARNICA SALVE.

WHAT IS LIFE?

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular liver means derangement of the organs, resulting in constipation, headache and liver trouble. Dr. King's New Life Pills quickly readjust this. It is gentle yet thorough. TERRITORIAL PICKINGS

COLFAX COUNTY.

Oris Doggett cut his hand badly with a circular saw while at work in the Santa Fe yards at Raton a few days ago.

The New Mexico Oil and Gas company has reached a depth of 1,489 feet in the well it is drilling ten miles southeast of Raton.

Rev. M. Boesel of Baltimore, Maryland, has been chosen to serve as pastor of the Evangelical Lutheran church at Raton and at Trinidad.

The work of redecorating, repainting and repairing the court house at Raton has been completed. A. L. Hobbs is now installing a steam heating plant in the building.

M. S. Palmer of Fort Madison, Iowa, came to Raton this week to take charge of the remains of his son, whose murdered body was found in a box car at the Gate City. The body was exhumed and was prepared for shipment to Fort Madison.

Bert Creed was arrested at Raton by Sheriff Littrell on the charge of horse stealing, the arrest being made upon the telegraphic request of the sheriff of Willbarger county, Texas. The Texas sheriff arrived later and took Creed with him. Bert Creed had come to Raton to visit his brother Edward Creed, who resides on the ranch of Mrs. A. H. Carey.

O. M. Kinney of Gallup, a clerk for the Colorado Fuel and Iron company, died on train No. 2 of the Santa Fe, near Springer. He had fallen out of a carriage at Gallup while on a picnic trip and had his neck broken. Realizing that his injury was fatal, Dr. J. J. Pattee, the company physician, started with Kinney for his parent's home at Des Moines, Iowa. The remains were embalmed at Raton and then sent to Des Moines.

Paul Murphy and Ernest Smith of Raton, aged nine and eleven years, respectively, have been arrested there for attempting to wreck passenger train No. 2 at Hillside. They had placed a rail across the track to see the fun of an engine jumping the track. The train ran into the rail and the lead engine did jump the track but fortunately no one was injured. The boys were held for the grand jury, their parents furnishing the necessary bond.

Henry Koehler president of the Germania Trust company; Dr. Karl Vollmer, A. W. Lambert, Captain H. S. Carroll, railroad contractor, and Thomas B. Harlan, all of St. Louis, arrived at Raton on Monday and on Tuesday, in company with J. Van Houten and L. S. Preston left for Van Houten, the new coal camp. From thence they proceeded to Elizabethtown and from there to Taos and possibly further west. The visitors are interested in the New Mexico & Pacific Railroad company and are making a final examination of the route as surveyed from Raton to Elizabethtown.

M. Craig, the oil well contractor, who sank a hole in the ground for the first oil development company to organize at Raton, is tearing down the derrick at the well and is getting the boiler, engine and other machinery in readiness to ship to the oil fields of southeastern Kansas. The Raton Oil and Gas company made Mr. Craig a deed to the 100 acres of land on which the well was drilled and also made him a bill of sale to the \$5,000 drilling outfit to satisfy a debt of \$2,500 due him by the company for drilling the well. Says the Raton Range: "Prospecting for oil is rather expensive, especially when a high salaried and extremely learned geologist manages operations."

CAN'T KEEP IT UP.

Can't Deceive Santa Fe People Very Long--They Learn Quickly.

It is sometimes an easy matter to fool the public, but you can't keep it up very long. They are sure to find you out; and every time a man is fooled another skeptic is made. We are naturally skeptical when reading a published statement given by some stranger, residing in a far-away place, but the circumstances are entirely different when home endorsement is presented. The testimony of local citizens renders deceit impossible. It is so easy for you to investigate. Read this case:

Eusebio Escudero, hack driver, of Griffin st., says: "I cannot exactly say how long it is since I first noticed that I was subject to back ache, but it must be nearly three years. It never was sufficiently painful to lay me up, but it worried me considerably every now and then. Noticing Doan's Kidney Pills advertised to stop backache and other symptoms of kidney complaint, led me to reason if this remedy performed half what it promises, it might at least help and I went to Ireland's Pharmacy for a box. It fulfilled its promises to the letter, for the backache stopped."

For sale by all dealers. Price 50 cts. Foster Millburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

Summer Tourist Rates to Colorado Points

On sale daily via the Santa Fe from June 5 to October 15, good for return passage until October 31, to Denver and return \$22.55, Pueblo and return \$17.55, Colorado Springs and return \$19.55, Glenwood Springs and return \$28.65. Stop-overs allowed at and north of Pueblo. For particulars call on any agent of the Santa Fe. H. S. LUTZ, Agent, Santa Fe, N. M.

LAND SCRIPT.

By the use of so-called land script, it can be obtained to government land without cultivation or residence thereon. All you need to do is to give description and show the land to be of the proper kind; we do the rest. By reason of the exhaustion of the supply which has been quite limited the price is advancing. We have a small amount yet on hand to sell, that is fully guaranteed. We also deal in real estate, loans and investments.

HUGO SEABERG,

Cheap Rates to New York.

The Mexican Central has recently placed on sale tickets to New York and return going via the Mexican Central to either Vera Cruz or Tampico; thence via the famous Ward Steamship Line to New York. The return will be by rail over any line to El Paso. The entire trip covering thousands of miles, can be made for \$122.50. A more delightful trip cannot be planned as stop over privileges are allowed and the tickets are good for one year from the date of sale. The trip includes the City of Mexico, the "Paris of America," Havana, Cuba, and its famous Moro Castle, Newport and a dozen of the largest cities of the United States. Further information can be secured by addressing W. S. Mead, C. R. Hudson, general passenger agent, or W. D. Murdock, assistant general passenger agent.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver and Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, lodging and bathing, \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m. and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

TWO ANCIENT OLLAS.

Believed to Be Two Centuries Old as They Differ From Modern Pueblo Pottery.

Two ancient ollas, or water jars, which on account of their unusual size and historical association possess great interest to lovers of ceramic art, were recently brought to light near Santa Fe by a Mexican in the employ of Captain C. A. Deane of Denver, and the two relics are now in the possession of that gentleman.

One of the jars has a diameter of 24 inches and is 23 inches in height, and holds 24 gallons; the other is 27 inches in diameter, with a height of 19 inches and a capacity of 25 gallons. In outline, they are apparently as true as if made on a potter's wheel, and on the hard burned surface are numerous painted, curved and geometrical designs, different from those found on modern Pueblo pottery. There is no way in which their age may be determined, but they were in use more than two centuries ago is quite certain.

In 1541 Coronado, the first European who explored New Mexico, found an Indian pueblo, later known as San Ildefonso, in the valley of the Rio Grande, about twenty miles northwest of the city of Santa Fe. In 1580 Juan de Onate settled a Spanish colony at that place, and about that date other colonies were established in New Mexico and Arizona. In 1680 the several native tribes revolted against Spanish rule, and all who escaped death were driven beyond the Rio Grande, del Norte, at what is now the city of El Paso.

In 1692 a Spanish army subdued the insurgents, and the native races were subjects of Spain, or Old Mexico, until they came under the control of the United States by the terms of the treaty of Guadalupe Hidalgo, made at the close of the Mexican war in 1848.

When attacked in 1692, the pueblo residents of the San Ildefonso made a stubborn resistance, and inflicted much loss on the Spaniards, but their weapons of defense—the bow, stone spear and war club—could not long oppose the artillery, firearms and swords of those who fought in coats of mail or quilted cotton. Their walls of sun dried brick were destroyed, and the survivors were compelled to build another west of the Rio Grande, where their descendants now live.

While making excavations in these old ruins in search of relics, the Mexican in the employ of Captain Deane, found the two large ancient ollas, or water jars, buried level with the clay floor, as receptacles for water.

During the past 35 years Captain Deane has sojourned among nearly all the pottery making tribes of New Mexico and Arizona, and has made a close study of their productive industries, but he has never seen other articles of pottery nearly as large, or having similar ornamentations, to those on the two ancient ollas.

FARMING LANDS UNDER IRRIGATION SYSTEM.

These farming lands with perpetual water rights are now being offered for sale in tracts of forty acres and upwards. Price of land with perpetual water rights from \$17 to \$35 per acre, according to location. Payments may be made in ten year installments. Alfalfa, grains, fruits of all kinds, and sugar beets grow to perfection.

GOLD MINES.

On this Grant, about forty miles west of Springer, N. M., are the gold mining districts of Elizabethtown and Baldy, where important mineral discoveries have lately been made. Claims on unlocated ground may be made under the mining regulations of the company, which are as favorable to the prospector as the U. S. government laws.

Near Raton, N. M., on this grant, are located the Coal Mines of the Raton Coal and Coke Company, where employment may be found at good wages for any wishing to work during the seasons that farming or prospecting can not be successfully done.

GOLD IN THE BLACK HILLS.

The Burlington Route has recently issued a 48-page booklet bearing the title "Mines and Mining in the Black Hills." The book is one which should be read by every mining man in Colorado. It gives more information about the mines of the Black Hills than has ever before been placed between two covers. A copy will be mailed free on application to the undersigned.

The Black Hills need Colorado men and money. Several of the shrewdest men in this state have already invested heavily in the Hills. The results so far have been more than satisfactory. The completion of the Burlington's new line to the Northwest brings the Black Hills within a night's ride of Denver. You can leave Denver tonight and be in Deadwood or Lead City tomorrow afternoon.
