GATES OF THIRTY-SIXTH  
ANNUAL STATE FAIR ARE  
THROWN OPEN TO CROWDS  
THAT BREAK ALL RECORDS

FIRE WORKS, POLITICAL AND OTHERWISE, FEATURE DOINGS ON THE FIRST DAY OF BIG WEEK

Judge D. D. Woodmansee and A. A. Jones Discuss National Issues to Crowded Stand; and Are Repeatedly Cheered by Their Adherents; Putney Makes Formal Address of Opening as Representative of Governor McDonald; Boxes Filled With Notable Men From All Sections of New Mexico; Perfect Weather Conditions Mark Auspicious Beginning of Greatest Enterprise People of State Ever Attempted.

Under perfect weather conditions and to the largest crowd that ever paid admission to the grounds on an opening day, the thirty-sixth annual New Mexico state fair was formally opened yesterday at 4 o'clock. Robert E. Putney, making a brief address in honor of the event as the personal representative of Governor McDonald, who was unavoidably prevented from being present. It was the most auspicious beginning that any state fair has ever had and gave positive assurance that at the end of the week a triumphant success will have been recorded by President W. F. Southard and his assistants in the management of the enterprise.

The show presented on the grounds to the spectators in every way up to the third annual fair, but the fair of

for the next fair, the people of Albuquerque must desire to subscribe, and to make drives for advance sale of tickets, thus giving of their time, their money, their energy and good faith, if they hoped to make the fair a permanent success.

Mr. Putney referred to the great good that had come from the fair last year in the promotion of intrastate traffic. He told how the people of the Pecos valley had found an outlet for their registered stock in the Grande valley; and how, on the recommendation of Dr. A. D. Crile of Roswell, he had bought some registered pigs for his Sandoval county farm, and that, according to the usual rule of increase of such hogs, Sandoval county in a few years would not be able to raise all the hogs it would have from the present modest beginning.

times, when for the first time the people of New Mexico declared that they would discard the cheap extrinsic programs that had characterized previous so-called fairs and give a real exhibition of the resources and development of the state. Practically every

The next event on a crowded program was an Indian pony race, which was followed by a couple of stirring songs by the "Killarney Girls." And the "Killarney Girls" can sing. Notwithstanding the handicap of open air singing they were cheered to the

entertainment, and Dr. Joyce constituted a veritable band of amateurs. Both of the new young, talented and able physicians of national scope, free from any suspicion of mind-boggling—the sort of speeches that intelligent voters shun to reach a con-

It was not in any sense a joint debate, but a presentation of the relative merits of Theodore E. Burton and Clara City Clerk Thomas E. Hughes, and many others.

A few minutes after Mr. Putney had concluded his address, Hon. A. A. Jaffe, democratic candidate for United States senator, accompanied by Hon. Nell D. Field, democratic

William Wilson was the president of the United States. Politicians and notable public men from every section of New Mexico were in the house and listened with great attention to the addresses of both speakers, while the masses of applicants that went under the

## WOMAN HAS AS MUCH SENSE AS BAR ROOM BUM

Pro Candidates Declare That Universal Suffrage Is Inimicable; She Can Vote as Intelligently as the Men.

**SPECIAL CORRESPONDENCE TO MORNING JOURNAL.**  
Gallup, N. M., Sept. 25.—Wet New Mexico gave the prohibition national campaigner friendly receptions today when they invaded the state for two meetings after closing the Arizona campaign with speeches at Flagstaff and Winslow. An hour's meeting was held at Gallup this afternoon, and the dry special went to Albuquerque for a night meeting. Batches will be visited tomorrow before Colorado is entered.

Gallup's meeting had a picturesque setting. In the center of the ring of spectators who circled about the rear

platform of the train was the town sprinkling cart. At one end of it were several Navajo Indians, who are denied liquor by federal statute, garbed in their gay robes. At the other end was a spectator who having imbibed freely indulged the dry speeches with loud comments. Scattered in other parts of the ring were Mexicans, negroes, half a hundred school children dressed in white, and a small band of suffragists. Flanking the rim of the circle were several saloons.

Many miners were in the audience and Frank Hanly took occasion to criticize the manner in which the Adamson eight-hour day bill was enacted.

"The prohibition party is for the eight-hour day," he said, "but it is for an eight-hour day that shall be won by the free game of justice in the heart of the American people and not by a bludgeon held as a threat in the city of Washington."

Landrith aroused applause at every stop today by declaring that universal suffrage was imminent. Women do not vote here.

"I believe a woman has as much sense as a bar-room bum, or as some of the colored persons who cannot read nor write when you northerners save the label," he said, "and when she gets the vote, good bye booze. If you want to have a drink five years from now, you'd better begin to lay it in."

No direct prohibition proposal will be voted on in New Mexico this fall, but the drys hope to bring the ques-

## DEMOCRATS HAVE HOPES OF CARRYING NEBRASKA

**BY MORNING JOURNAL SPECIAL LEADERS WIRE.**  
Chicago, Sept. 25.—Congressman Scott Fergus, director of the organization bureau at western democratic headquarters, said today that reports received from Nebraska indicated that Wilson and Marshall may carry that state in November. A report received from Congressman Daniel C. Stevens, of Nebraska, reads in part:

"I have just finished a trip through the western end of my district, and find the Wilson sentiment is constantly growing."

Congressman Charles O. LaRue writes:

"Everything looks very promising for President Wilson in Nebraska."

**Chronic Dysentery.**

"An old gentleman of this town who was almost at the point of death with chronic dysentery some time ago and had given up all hope of recovery was induced to try Chamberlain's Colic, Cholera and Diarrhoea Remedy. One dose stopped the dysentery, and after taking a few more doses he was completely cured," writes J. L. Baer, West Manchester, Pa. "Many residents of Baer's Station can testify to the truth of the above and were aware of the old gentleman's condition." Obtainable everywhere.

## PERSHING IS TO BE MADE MAJOR GENERAL SOON

Secretary Baker Announces That the Commander of the American Punitive Expedition Will Succeed Mills.

**BY MORNING JOURNAL SPECIAL LEADERS WIRE.**  
Washington, Sept. 25.—Secretary Baker announced today that the president would nominate Brigadier General Pershing, commander of the American expeditionary forces in Mexico, to be a major general to fill the vacancy created by Major General Mills.

Colonel Eben Swift, of the general staff; Francis H. French, of the Twenty-first infantry; Edwin S. John Greble, of the Sixth field artillery; and Charles Treat, of the general staff, will become brigadier generals succeeding Brigadier General Pershing, who is promoted to major general, and Granger Adams, Montgomery McComb, and F. W. Shiley, who are to be retired. General Pershing's promotion does not affect his assignment as commander of the expeditionary force in Mexico.

Announcement of the promotions was made by Secretary Baker upon his return from Baltimore, where he talked over the elections with President Wilson. The secretary's recommendations were approved by the president, who will send the nominations to congress in December.

## DETENTION OF POLAK BEING INVESTIGATED

**BY MORNING JOURNAL SPECIAL LEADERS WIRE.**  
Washington, Sept. 25.—Official state department advices today reported the seizure of the Dutch steamer *Prins Hendrik* by German warships, did not say on what charges. American removed from the vessel was being held. The department is investigating further.

Much significance is attached by officials to Germany's seizure of mail aboard the steamer. Some time ago Germany claimed the right to censor letters sent on the basis that the Atlantic convention, declaring the "inviolability" of such mail had been rendered inoperative by failure of several of the belligerent nations to ratify it, but more recently the practice apparently had been discontinued.

**FIRE IS RAGING IN THE COLORADO BLACK FOREST**

**SPECIAL CORRESPONDENCE TO MORNING JOURNAL.**  
Colorado Springs, Colo., Sept. 25.—Edgar Payton left this afternoon with ten men for Eastonville, twenty-five miles northwest of here, in response to a summons from the forestry service. A fire is raging in the Black forest and the town of Eastonville is threatened. The loss of timber is already serious.

**Troops Start on Hike.**

El Paso, Tex., Sept. 25.—Headed by Major General Charles M. Clement, commanding the Seventh division, Pennsylvania national guard, 11,700 troops left their camps near here today for a four days' practice march. The troops were in heavy marching order and will go to Anthony, N. M., a distance of nineteen miles, from there through Anthony pass to Newman, N. M., a distance of about twenty miles and back to their camp. Stages will be made for camp each night.

## RAID OF VILLA ON CHIHUAHUA NOT IMPORTANT

Mexican Members of Joint Commission Treat the Matter Lightly; Americans Do Not View It Optimistically.

**BY MORNING JOURNAL SPECIAL LEADERS WIRE.**  
New London, Conn., Sept. 25.—Additions to the already large mass of information regarding Mexico's internal conditions, were made at a conference of the Mexican-American joint commission today. The outstanding feature of the first meeting of the fourth week, however, was the repetition of the failure of the Mexican representatives to bring about an agreement on the withdrawal of the American troops.

The Mexicans produced reports calculated to show that the attack on Chihuahua by Villa forces was of no great importance. The reports discounted the likelihood that Villa would become a menace to peace along the border.

The American commissioners were in receipt of reports that placed the situation in a less optimistic light. Until all doubt is removed as to the ability of the Mexican army to control the situation along the border, and especially along the Chihuahua frontier, it appears improbable that the Americans will enter into an agreement for the withdrawal of General Pershing's army.

Mexican representatives today admitted the existence of typhus and other contagious diseases in many of the more important cities in Mexico.

## TEXAS COUNTY VOTES WET, IS INDICATION

**BY MORNING JOURNAL SPECIAL LEADERS WIRE.**  
Fort Worth, Tex., Sept. 25.—With approximately 9,000 of an estimated vote of 12,000 counted early tonight, Tarrant county apparently had voted "wet" by a majority of 1,400 in today's local option election. A majority of the county precincts voted "dry," but Fort Worth piled up a big "wet" vote.

In Fort Worth, of 7,140 votes counted, 4,748 were recorded "wet."

**Some Canadian Advice.**

Efforts in the United States to expand the regular army are not meeting with any great success. The necessary laws have been enacted by congress, but the men do not come forward. A soldier's life is hard, not only conditions but little attraction for the average American boy, for that matter, does it appeal much to the citizen of any democratic country.

Neither is the experiment of calling upon the state militia for service along the Mexican border answering fully to expectations. The young fellows without dependents like it well enough for a while, as an experience and an adventure, but the men who have to leave their families or to sacrifice positions in the business world regard it as an imposition. They do not see why this burden should be placed upon them when other citizens are exempt.

At the same time it is noticeable that when a real war is in sight the American is ready enough. More of them are in the Canadian army than have volunteered to serve their own country since their troops were ordered to the southern frontier. There would be many thousands more of them enlisted here were it not for the operation of the neutrality laws.

The truth is that democracy, and especially a well fed democracy, will not consent to waste time in the half idle and almost wholly useless life that is a soldier's lot in peace time. A comparatively few can be found to do it, but the endeavor to keep a standing army of any size does not appeal to the people.

The United States must follow the British plan of establishing a large navy which will insure safety from invasion and also time for getting together an army when the need arises. All they require on land is a nucleus for training purposes and for extraordinary police work on occasion.

**Preparing Alibi.**

Columbus, N. M., Sept. 25.—Army intelligence agents are making an investigation of a report that adherents of Villa were here to secure information to prove that Villa was not at Columbus on March 5, but that the raid was led by Pablo Lopez, who was executed in Chihuahua City because of the alleged leadership at the Santa Ysabel massacre when eighteen Americans and other foreigners were massacred. In this connection it is reported that Villa is preparing a manifesto disclaiming responsibility for the Columbus raid and placing the blame on Lopez.

**Funston Expresses Regrets.**

Washington, Sept. 25.—Major General Funston advanced the war department today that he had ordered an expression of regret to the Mexican authorities for the action of Corporal Rogers, B troop, Texas cavalry, in entering into Mexico with a patrol of seven men September 21, and had directed Colonel Dugan, commanding in the Big Bend district, to try the corporal for disobeying orders. The patrol was fired on by Mexican soldiers and returned to the American side with a loss of one horse. No release for the corporal has been given.

## FIRST NATIONAL BANK ALBUQUERQUE, NEW MEXICO

### Rumanian Peasantry Described

Washington, D. C.—A vivid picture of the Rumanian peasantry is presented in a communication to the National Geographical society from James Howard Tate.

"A Rumanian village looks its best in the spring. At Easter the cottages have been whitewashed and the doors and window frames freshly painted in bright colors. The thatched roof has been put in order, and in its entirety the cottage calls to mind the blackened country girls with their clustering strings of multicolored beads around their necks.

"While wheat is the great staple of this agricultural country, the soil is equally adapted to corn (maize) and would be called upon for greater crops if the demand should justify it. The climate is not so mild as might be expected from the low latitude of the land, it being the same as that of northern Italy. Coming under the influence of the Mediterranean on the west and the mountains to the north and east the kingdom is subject to the extremes of a sub-tropical summer and a winter of the Hungarian plains.

"The Rumanian is not a tradesman, and his main interest lies in farming. Even the selling of the surplus grain usually takes place at his farm, to the itinerant buyers, for he seems to be wary of the town merchant, and rarely trusts himself to the wiles of the city, except on the occasion of the annual fair.

"The higher classes in Rumania—the descendants of the Boyars, the landed aristocracy and the rich village owners—are the French language, preserving the Rumanian tongue for those cases where it is proscribed by law—in the parliament and in the law courts. As this restriction does not affect the women, those of higher rank take but little interest in the native melodious Rumanian and would not deign to write the least important note in the language.

"One of the economic weaknesses of Rumania arises from the fact that

the rural population which works so ardently during the summer, has practically nothing to do in winter."

### GERMANY NOT WORRIED OVER LOSS OF ZEPPELINS

**BY MORNING JOURNAL SPECIAL LEADERS WIRE.**  
Berlin, Sept. 25 (6 p. m., via London, Sept. 26, 2:50 a. m.)—The Berlin newspapers and public appear to accept philosophically the loss of two Zeppelins in the raid on England.

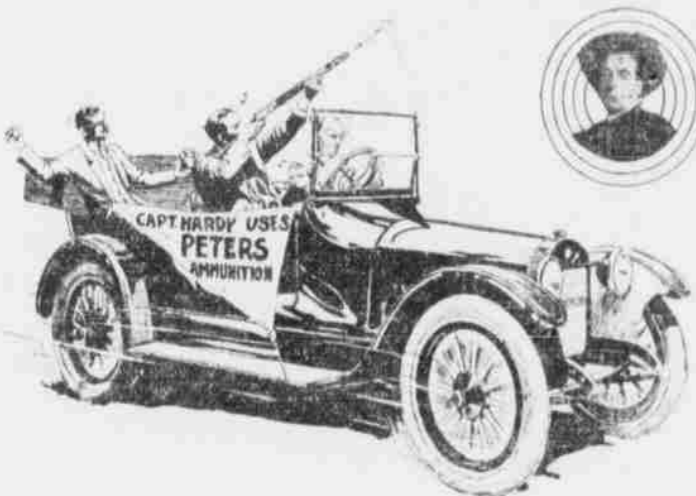

The *Kreuz Zeitung* discusses briefly the possibility that the British might be able to copy the Zeppelin from the airship they brought down which was not completely destroyed. It dismisses this, however, in view of the fact that France, which has long had possession of a completed Zeppelin, has never been able to duplicate it.

**Combing Won't Rid Hair of Dandruff**

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get above four ounces of ordinary liquid arvon, apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and itching of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

## Why Did Captain Hardy Select a Buick "Six" for His Shooting Act?

It's Easy!! Here Is the Answer

His success, to a great extent depends on the smooth and easy riding qualities of a car, one that is free from vibration—all of these qualities are found in a BUICK.

To prevent the jar, Use a Buick Car.

### GONZALES HERE WITH SAN MIGUEL COUNTY EXHIBIT

Agricultural Expert Who Has  
Revolutionized Farming in  
One Part of New Mexico,  
Here for Fair.

For the purpose of assisting in placing the San Miguel county exhibit to the best advantage at the state fair grounds, and to tell of San Miguel county as an agricultural county, M. B. Gonzales, the man who has done a great deal of work to advance New Mexico farming, is in Albuquerque to remain for the week. Mr. Gonzales is the county agent in San Miguel, operating under the joint direction of the New Mexico Agricultural college and the federal department of agriculture. His work in that county has brought wonderful results, especially

### Indoor Life Makes Fat

TRY OIL OF KOREIN TO KEEP  
WEIGHT DOWN OR TO IN-  
CREASE SUPERTHINNESS.

People who are confined within doors and who are deprived of fresh, invigorating air and exercise, must take precaution to guard against overindulgence in food. Indoor life is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air is said to weaken the oxygen carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of supertthinness and unhealthy fat in the result.

If you are 15 or 20 pounds above normal weight you are daily drawing on your reserve strength and are constantly lowering your vitality by eating this excess burden. Any person who is satisfied in their own mind that they are too stout are advised to go to Bluff, Ind., or any good druggist and get a box of oil of korein capsules and take one after each meal and one just before retiring at night.

Even a few days' treatment has been reported to show a noticeable reduction in weight, improved digestion and a return of the old energetic, robustness. The oil of korein is a healthy and a danger to the vital organs of the body. Lack of exercise in the fresh air is said to weaken the oxygen carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of supertthinness and unhealthy fat in the result.

**A Skin Like Velvet**

## BANKERS PLAY: TO GET DOWN TO BUSINESS TODAY

Financial Experts Enjoy Kansas City Hospitality Preparatory to Beginning Their Active Business Sessions.

**SPECIAL CORRESPONDENCE TO MORNING JOURNAL.**  
Kansas City, Mo., Sept. 25.—(Golf motor car trips and an informal reception at convention hall, took up most of the time this afternoon and tonight of the thousands of bankers who are here to attend the annual convention of the American Bankers' association, the first meeting of which were held today. Practically all of them were of a business nature, and few attended the day being spent primarily in sightseeing preparatory to the active business sessions that will start tomorrow.

Committee meetings today were preparatory to a meeting tomorrow morning at which the session of the federal reserve act relating to electric clearings will be taken up.

## FOREIGN CROP REPORT IS ISSUED FROM ROME

**BY MORNING JOURNAL SPECIAL LEADER WIRE.**  
Rome, Sept. 25.—A conference called this afternoon from the International Institute of Agriculture at Rome, Italy, gave the following estimates of this year's crop production: The total production of wheat in Spain, England, and Wales, Ireland, Italy, Switzerland, Canada, United States, India, Japan and Tunis, is estimated at 1,520,000,000 bushels or 65.3 per cent of the production in the same countries last year, and 92.8 per cent of their average production in the five years 1909-13. The production of rice in Spain, Italy, Switzerland, Canada and the United States amounts to 32,202,000 bushels, being 95.7 per cent of last year's crop and 112.4 per cent of the five years average.

The production of barley in the same countries as given for wheat, less India, is 470,583,000 bushels, or 95.7 per cent of last year's crop, and 109.6 per cent of five years average.

## CANADA MUST FURNISH ADDITIONAL RECRUITS

**BY MORNING JOURNAL SPECIAL LEADER WIRE.**  
Ottawa, Sept. 25.—More systematic recruiting methods are to be put in force in Canada, it was announced today, to bring the dominion's contribution to the allied armies up to the half million quota promised Great Britain. The present methods have raised 400,000 men. There is to be an additional service band to increase enlistments with Sir Thomas Duff as director general.

Sir Robert Borden announced today that the national service board's duties would be to stimulate recruiting and to determine whether the service of any person is more valuable to the state in his present employment, or in military service. The board also is to issue licenses to persons honorably discharged from military service to those exempt from physical reasons, and to those who are held to be more valuable in existing employments. Stock of labor is to be taken in each military district and the employment of women attracted for.

## TRIBUTE IS PAID TO CITIZENSHIP OF JEWS

**BY MORNING JOURNAL SPECIAL LEADER WIRE.**  
New York, Sept. 25.—Describing America as "a real home in which all forces work together for justice and fair dealings," President Wilson has written a letter for publication in the coming special Jewish New Year number of the American Hebrew, it was announced by the publishers here today, paying a high tribute to the citizenship of the Jews, and assuring them of his interest in their "fellow citizens of Hebrew extraction."

## DRAYMAN PULLS OFF A STUNT ON THE BRITISH

**BY MORNING JOURNAL SPECIAL LEADER WIRE.**  
Washington, Sept. 25.—An enterprising drayman executed a stunt at the British embassy today which fastened the keenest attentions on the staff and netted him a wagon load of structural iron, purchased by his master's government for use on a new embassy annex.

Under the eyes of a large force of attaches and clerks, chatting sociably with the special policeman assigned to guard embassy property, he leisurely loaded his wagon and drove away.

The theft was discovered hours afterward.

## WHITMAN ASKED TO TAKE HAND IN NEW YORK STRIKE

Members of Legislature Urge Governor to Convene Legislature to Deal With Situation; Both Sides Defiant.

**SPECIAL CORRESPONDENCE TO MORNING JOURNAL.**  
New York, Sept. 25.—With labor leaders continuing their efforts to bring about a general suspension of work as an aid to the striking carmen in this city, members of the state legislature from the metropolis, at a meeting late today, decided to urge Governor Whitman to convene the legislature in extraordinary session to deal with the strike situation.

The governor arrived in the city tonight and it was expected a committee appointed by the legislature would wait upon him tomorrow.

Nearly 40 per cent of the 300,000 union workers in New York and vicinity, have owed their intention of putting their places Monday, according to Hugh Frazer, organizer of the American Federation of Labor. Discussion in labor circles not in sympathy with the plans of conference leaders, took the form today of favoring a forty-eight hours demonstration rather than a general strike.

The first accident on a subway line since the transit strike began, September 6, occurred today. Thirteen persons were injured, two seriously, in a rear-end collision at 26th street station, where subway trains run on an elevated structure.

## GREAT BRITAIN SORRY FOR SEIZURE OF GOODS

**BY MORNING JOURNAL SPECIAL LEADER WIRE.**  
Washington, Sept. 25.—Informal expressions of regret have been made by Great Britain to the state department for seizure at Hong Kong of American-owned goods consigned to Manila on board the steamer Chinese Prince Kater and America. It was learned today that in response to a vigorous protest by the United States, the British action first was explained on the ground that the goods were consigned to blacklisted firms. Later it was claimed that several of the firms were run by Chinese in a joint allied to be seeking to cause a rebellion in India.

## CARRANCISTA KILLED BY AMERICAN TROOPER

**BY MORNING JOURNAL SPECIAL LEADER WIRE.**  
El Paso, Sept. 25.—A Carrancista sergeant, who shot and killed Friday night by an American trooper of the Fifth cavalry, who is being held prisoner, according to a report brought to Columbus, N. M., from El Paso. The Carrancista commander at El Paso refused to surrender the prisoner after Gen. J. J. Pershing sent a messenger requesting release of the American.

According to the report eight members of the Fifth cavalry entered a saloon at El Paso. Seventeen Carrancista soldiers entered later with submachine guns. During the drinking the Mexican sergeant is said to have proposed a toast to the United States, which was objected to by the Americans. The shooting is reported to have followed.

The troopers fled through windows and doors, but missed one of the Carrancistas when they reached camp. They reported having seen soldiers carrying a wounded American away.

Following an investigation, General Pershing sent Capt. William Reed to confer with the Carrancista commander. Unconfirmed reports say the latter refused to release the trooper and is holding him incommunicado on a charge of murder.

## Nervous Periodical Headaches

This trouble commonly called "sick headache," is said to be due to tension of the system. Often it is caused by a poor condition of the blood is a cause of these headaches, or that it is a nervous condition, and in certain cases, no doubt, this is true.

Where treatment is demanded, it is more for the pain than anything else, and Dr. A. F. Schellheim of Louisville, has found Santal Midy capsules to give prompt and satisfactory relief. "That should be insisted upon," he says, "and the patient should be kept in bed, the room, and all the attendants and family should be as quiet as possible. An emetic will sometimes shorten the attack. The bowels should be kept open with 'Catharine's' or a hot bath and a thorough rub-down with a coarse towel, often give grateful relief. Two anti-kagema tablets, which the first signs appear, will usually prevent the attack. During an attack, one tablet every hour or two will shorten the attack and relieve the usual nausea and vomiting." These tablets may be obtained at all druggists. Ask for A-K Tablets. They are also useful for nervous headaches, neuritis and all pains.

## GIGANTIC PROGRAM OF HIGH-CLASS FIREWORKS At the Fair Grounds Tonight

Beginning at 8 o'clock

A change has been made in the program for tonight. It was first arranged to have the "Aerial Engagement" between the airships of Germany and Austria on one side and Great Britain and France opposing them for tonight, but W. T. McCreight, who is in charge of this part of the fair, received a number of letters asking that the pyrotechnic spectacle, "The Battle of the North Sea," be given instead. Therefore, in order to please, Captain Willson will put on tonight the great naval battle. It will be one of the most wonderful fireworks displays ever seen anywhere. Mr. Willson also will give, during the week, exhibitions of the armored cars now used by Great Britain in the war, and displays of the poisonous gases used by Germany, shooting the bombs up in the air so the fumes will not come over toward the crowd.

### PROGRAM NO. 1—TUESDAY

- 1.—Signal Guns for commencement of display.
- 2.—Prismatic Illumination of the grounds by 24 tri-colored beacons of 8 minutes duration.
- 3.—Volley of Pastel Bombs.
- 4.—Rockets of the newest hues.
- 5.—SET PIECE—The Loco Wheel, the craziest device extant, 12x12 feet.
- 6.—Pan-American Batteries, an effective display of glittering silver jewels, interspersed with emeralds.
- 7.—Repeater shells making twin displays.
- 8.—Tourbillions or Table Rockets.
- 9.—HUGE SET PIECE—THE MOSAIC EMBLEM, 1000 feet square, an extensive grouping of fixed and revolving radiants, so arranged as to form an immense Mosaic design.
- 10.—Volley of 6 shells of glittering gold.
- 11.—Flight of 6-6lb. rockets, displaying pendants of jewels.
- 12.—HUGE PROJECTILE—'24', producing an aerial flower garden, an acre in extent.
- 13.—Pyroplanes, a great novelty, defy the laws of gravity.
- 14.—SET PIECE—THE PYRIC CASCADE, a pouring torrent of highly luminous liquid fire, 50x50 feet.
- 15.—Triple Octopus Shells.
- 16.—Batteries of jewels with interlacing effects, 60 feet long.
- 17.—CHERTIER'S GREAT WHEEL—A huge REVOLVING DEVICE. A combination of three great wheels on which eighteen lesser wheels revolve in opposition, producing a revolving device 25 feet in diameter.
- 18.—Huge Willow Plume Battery in four parts, 60 feet long.
- 19.—Flight of 6 Musical Rockets.
- 20.—Flight of 6-13 "Milky Way" Shells.
- 21.—An Artificial Thunderstorm produced by a flight of 3 special 16" shells.
- 22.—COMEDY IN FIRE—Ungrateful Jumbo accompanied by trainer, who takes the elephant to the pump to drink. The keeper is seen to work laboriously at the pump. When Jumbo's thirst is satisfied, the ingrate raises his trunk and showers his benefactor with fiery water.
- 23.—Rockets with Shooting Electric Star effects.
- 24.—Neapolitan Shells making 5 distinct displays.
- 25.—Shells displaying ringlets of fire which change to waterfalls.
- 26.—Volleys of squirming reptiles.
- 27.—SET PIECE—THE DOVE COTE, from which fiery doves fly hither and thither, some ascending in bird-like manner, returning and ascending repeatedly.
- 28.—Cometopia Rockets—4 lbs.
- 29.—Shooting Star Rockets.
- 30.—The Harlequin Shell, an aerial laugh-getter.
- 31.—Weeping Willow Shells.
- 32.—Volley of 3-16" Military Searchlight Shells.
- 33.—AN AERIAL MASTERPIECE—A single shell making 10 displays.
- 34.—Volley of 6-16" Magnesium Star Shells.
- 35.—Poppies in a cornfield—An extensive battery device in which sheaves of golden corn are portrayed in vivid fire with the red poppies intermingled.
- 36.—THE CUTLEFISH SHELL, with many fiery tentacles reaching and twisting in a life-like manner.
- 37.—Volley of 6 Pearl meteor shells forming a milky way effect.
- 38.—Flight of Hanging Chain Rockets.
- 39.—SET PIECE—A beautiful floral device representing a bunch of tuchias.
- 40.—Musical Rockets, emit different musical notes, ascending and descending.
- 41.—Shell displaying pendants of jewels changing to silver waterfall.
- 42.—Grondolas, a clever combination of science and mechanism.
- 43.—Huge Shell displays an acre of jewels.
- 44.—Aerial Harlequinade Shell, comedy where least expected, performing acrobatic feats in the clouds.
- 45.—Klondike Battery, a great curtain of glittering gold nuggets.
- 46.—An Aerial Thunderstorm produced by firing a volley of special shells.
- 47.—Huge Canister Shells displaying a multitude of parachutes.
- 48.—30 in. spherical shells displaying a torrent of silver rain.
- 49.—Flight of Mammoth Rockets of various effects.
- 50.—Volley of squirming reptiles.
- 51.—PYROTECHNIC SPECTACLE—THE BATTLE OF THE NORTH SEA. A moving fireworks picture in which the Dreadnaught and Destroyers, Torpedo Boats and Submarines of opposing forces are seen in deadly conflict—hundreds of shells with destructive effect—looks and sounds like the real thing.
- 52.—SET PIECE—ADIOS.
- 53.—BOUQUET OF 100 ROCKETS.

## CALOMEL SELDOM SOLD HERE NOW

Nasty Drug Salivates, Makes You Sick and You Lose a Day's Work.

Every druggist in town—your druggist and every body's druggist, has noticed a great falling off in the sale of calomel. They all give the same reason. Calomel is dangerous and people know it. While calomel is a powerful purgative, it is also a powerful salivator. It makes you sick and you lose a day's work. It is a nasty drug. It is a drug that is no longer sold here now.

## AN UNEXAMPLED COMPLIMENT IS PAID SERGEANT

'Camp Owen Biene' Is Christened in El Paso After Soldier of That Name Shot by Texas Ranger in Saloon.

At El Paso, Tex., Sept. 25.—An unexampled compliment was paid to the memory of an enlisted man today when, by order of Brigadier General Bell, the camp occupied here by troops of the Tenth provisional division was named "Camp Owen Biene." The name was chosen in honor of a soldier who was killed in action at the battle of El Paso.

**What Mothers Say**

The experience of those who have used "Mother's Friend" should merit respectful consideration at this time.

**Mother's Friend**

Was the means of handling morning sickness and relieving constipation before you.

**Mother's Friend**

"Proved its great value during delivery by the absence of the severe pain occasioned by such an event."

**Mother's Friend**

Being an external remedy is of the greatest assistance in preparing the system for such a change. Mrs. Your druggist sells it. Write for free and interesting book on Mother's Friend. The Bradford-Regulator Co., 208 Lamar Bldg., Atlanta, Ga.

## 'JOY BELT' IS JAMMED WITH A HUMAN MASS

The state fair "Joy Belt" had to be let out by the last notch and even then the inside merely burst, so great was the throng of people within its confines last night. Throngs started pouring when the "belt" opened at 7 o'clock and kept up until a late hour.

The kids ran wild and to their hearts' content at Third and Central, while all along Central avenue were other carnival excitements, such as hot-burgers and waffles, ice cream and peanuts, in plenty.

The Albuquerque band, of which Fred K. Ellis is bandmaster, supplied music in large quantities and of quality. The band had an instrumentation of thirty and is strengthened by the addition of eight members of the band of Denver, and one clarinet from the Crestview band.

Indians in full paint and feathers, drew a big band all along the line of march with their dances and vocal accompaniment. Representatives of various tribes competed in the dances.

Patrick and Francisco, doing novel, rube caricature stunts on a wagon, drove through the crowd and added much to the hilarity.

## MOUNTAIN MAN, RUN OVER BY TRAIN NEAR ABO, DEAD

Victor H. Campbell, who lost both legs under a freight train two miles east of Abo last week, died here yesterday afternoon. Campbell was rushed to Albuquerque in an automobile shortly after the incident in the hope of saving his life.

Campbell had come to Abo from Minneapolis, his home, on business. Having finished the business, which took him there, Campbell did not wish to remain until the next passenger train reached the little mountain town, so he boarded a freight. He pulled off the train a short distance beyond Abo and fell on the track under the wheels of the train.

The body was taken to C. T. French's undertaking rooms. Funeral services will be held here.

## Note that Capt. Hardy does his shooting acts from a "Buick-Six."

## "Only 'Gets-It' for Me After This!"

It "Gets" Every Corn Every Time. Painless. Nothing More Simple.

"I'll tell you what, I've quit using foot-powder for corns. I've quit rubbing a package out of my toes with hand-saw and contraptions—just digging with knives and scissors. Give me 'GETS-IT' every time!"

When You See These Pretty Girls in Your Druggist's Window It's a Good Time To End Your Corns.

That's what they all say. The very first time they use "GETS-IT." It's because "GETS-IT" is so simple and easy to use—put it on in a few seconds—because there is no work or corn-picking to do, no pain that shoots up to your heart. It gets your corns off your mind. All the time it's working—and then, that little, old corn peels right off, leaves the clean, corn-free skin underneath—and your feet are gone! No wonder millions prefer "GETS-IT." Try it tonight.

"GETS-IT" is sold and recommended by druggists everywhere, 25c a bottle, or sent on receipt of price by L. Lawrence & Co., Chicago, Ill.

Sold in Albuquerque and vicinity by the world's best corn remedy by Dr. J. B. DeLoach, Jr., Highland Pharmacy, Butte Drug Store, Inc., and Alvarado Pharmacy.

## KEEN RIVALRY AMONG COUNTIES FOR THE PRIZES

Good Showing Made Under Big Tent by Public-Spirited Citizens Bent on Displaying Resources of New Mexico.

Which one of the sisterhood of counties will pull down the thousand dollar prize offered by the state fair management for the best county agricultural display? Which will come second and which third?

These questions just in passing are absorbing the attention of several hundred enthusiasts who are gathered in Albuquerque in charge of different phases of the county agricultural work—public-spirited men who are bent on developing the resources of New Mexico as much as possible and who realize the benefit to come in their respective counties from making first money in such a keen competition as is now being held under the big tent out at Frazer park.

The good advertising that came to Roosevelt county last year from the winning the first prize has resulted in a large increase in population for that county, as well as a substantial improvement in the methods of farming employed in that section. It is estimated that the county will continue to feel the benefit derived from that achievement for many years to come, and all the other wide-awake counties of New Mexico, bent on securing a like benefit for themselves, have entered the contest this year with renewed vim and determination and with the wisdom born of last year's experience.

**Contest Is Close.**

That the contest this year will be exceedingly close is evident from the greatly improved showing made by all the counties and by the careful manner in which exhibits are being placed so as to show them off to the best possible advantage. This year's fair in placing exhibits has been responsible for some delay in getting ready. Late yesterday afternoon there was considerable confusion under the big top on the fair grounds, but workmen were busy all night last night, and the exhibit would be in place and looking its best this morning.

That the county exhibits this year are more elaborate and diversified than a year ago is the general opinion of those who have looked over them. Last year the contest was more or less experimental, and committees in charge of exhibits were not entirely clear as to the points that would count most in awarding the prizes. This year everybody went in with a better understanding of the conditions of the contest and there is a feeling of greater confidence on the part of exhibitors.

**Chaves County.**

In a review of the exhibits that are most nearly complete that of Chaves county, in charge of Claude Simpson, of Roswell, attracts immediate attention. The Chaves county booth is most artistically arranged, a display of maintenance forms expended from the ceiling of the booth being especially effective, while the name of the county spelled in bright red peppers is a most excellent advertisement of the exhibit.

**Grant County.**

The mineral wealth of southwestern New Mexico is displayed most effectively in the Grant county exhibit, in charge of Judge Porterfield, of Silver City. In fact, no attempt to make an agricultural exhibit was made by the committee in charge, it being considered advisable to concentrate on the feature for which the county is best known.

**Copper County.**

Copper, silver, gold, lead and zinc predominate in the exhibit, the mineral wealth of the county being the feature of the display. A large piece of ore about the size of an ordinary wheel is shown, which contains silver in the value of more than \$1,000. Literature explaining the economic and commercial advantages of the county is to be had at the booth, while most advertising placards tell of the many points of interest and profit regarding the county. (By Silver City.)

**Eddy County.**

Eddy county, winner of second prize in last year's contest, is showing a strong bid for first money this year. Cotton is again put forward as one of the products raised in the county, which attracts great attention, and the display of cotton seed and hay products reminds one of the agricultural south. Many varieties of apples, peaches and alfalfa contribute to complete a most effective exhibit.

The exhibit is in charge of W. E. McElroy, who has an especially happy faculty of explaining Eddy county resources to all and sundry who visit the booth where the exhibit is shown. (By Lincoln County.)

The diversified products of Lincoln county are shown in the fact that the exhibit in the county tent comprises fruit, vegetables and minerals. A splendid display of apples, peaches, peaches, plums, quinces, apples, beets, cucumbers and radishes, all grown by dry farming, is a sight to behold. Tomatoes, copper, silver, lead, manganese and iron combine to make a most effective mineral display. The exhibit is one of the most interesting of all at the fair grounds.

**Valencia County.**

The splendid advantages of Valencia county as an alfalfa producing section is emphasized in the exhibit of that county, but the exhibit of alfalfa is also a display of alfalfa. Grains and vegetables are shown in a most effective way and attention is called to the fact that the county this

## CAPTAIN HARDY SECURES A BUICK LIGHT 'SIX' CAR

From Which to Make His Fancy Shooting Stunts as the Car Speeds at Good Pace Around Track.

Capt. A. H. Hardy, the expert shot, who is representing the Peters Cartridge company, with headquarters at Denver, Colo., arrived in the city yesterday and was introduced at the Journal office by N. M. Cadahue, president of the Albuquerque-Buick company. The captain uses a Buick "Six" in his fancy shooting stunts, and thinks there is no car made that suits his fancy and purpose like the Buick "Six."

Here are three letters, all about this wonderful little car that are well-kept treasures.

**Hardy Wants a Buick.**

Albuquerque, N. M., Sept. 18, 1916.

N. M. Cadahue,

President Albuquerque-Buick Co., Albuquerque, N. M.

My Dear Sir:—I will be shooting at the state fair at Albuquerque all next week, doing one or more stunts from a speeding automobile. I desire to use a Buick light "Six" for my car, and if you people care to furnish the car free of charge I will be very grateful. I have one of these little cars in Los Angeles, having bought some of the Peters Cartridge company, who are personal friends of mine.

I will arrive Sunday evening and be at the Combs hotel and will call on you Monday morning, so if you are interested, have a little car turned up and we will do the rest.

Very truly yours,

CAPT. A. H. HARDY.

September 18, 1916.

**Lane After Buick Car.**

September 18, 1916.

N. M. Cadahue,

President Albuquerque-Buick Co., Albuquerque, N. M.

My Dear Mr. Cadahue:—Capt. A. H. Hardy, who is to do some fancy shooting at the fair, informed me that he will require the use of an automobile for one of his stunts. He is riding in the auto and amusing spectators with the auto with a rifle.

He stated he prefers to use a Buick light "Six" on account of the smoothness of the machine and on account of the steadiness of the body.

He has asked me to take the matter up with you and see if I could obtain one of these cars for the use of the fair. He said he would like to have the Buick car a number on the car advertising that it was a Buick light "Six" and was preferred by him for these reasons.

Will you please advise me about this as soon as possible that I may make arrangements to secure a car elsewhere if you do not care to furnish one? Yours very truly,

J. B. LANE,

Assistant Secretary.

**Cadahue to the Rescue.**

September 22, 1916.

D. H. Lane,

Asst. Sec. State Fair Ass'n., Albuquerque, N. M.

Dear Sir:—We are this day in receipt of your letter of the 18th relative to A. H. Hardy, who is to do some fancy shooting in the fair, who states that he prefers Buick light "Six" and wishes to know if we can be counted upon to furnish this car for his performance. We are glad to state that we are in receipt of a letter from Mr. Hardy, who states that he will be at the Combs hotel Sunday evening and will call upon you Monday morning, and we will have a car ready and subject to his orders.

Thinking you had Mr. Hardy for your letters and assuring you that we will co-operate with you all in 1917, we are,

Yours very truly,

N. M. CADAHUE.

**KILLARNEY GIRLS GIVE CLEVER PERFORMANCE**

The Killarney girls played last night at the Combs hotel in a very clever and clever way. They were dressed in very attractive costumes and their performance was very clever and clever.

**Krumbs' tantalizing flavor is due to the new Kellogg method of cooking and toasting, which brings out the full richness of the wheat.**

# POLITICAL BANKING

## SACRED SCHOOL FUNDS

## A Chapter From the Public Record of the McDonald Administration

### A Certain Political Note Was Found Among the "Assets" of the Wrecked First State Bank of Las Cruces

This note was given by Morgan O. Llewellyn, J. H. Paxton, former county chairman of the Democratic party in Dona Ana county, ex-chairman of the Democratic state central committee of New Mexico, T. H. R. Smith, head of the wrecked bank, and one Hugh Clary.

This note represented the contribution made by the First State Bank to the Democratic campaign fund of 1911 in which campaign William C. McDonald, the Democratic candidate for governor, was elected.

This note was to be paid, and actually was being paid off, by crediting thereon the interest upon the sacred funds of the State Agricultural College of New Mexico.

## Upon These Facts All Are Agreed

Governor William C. McDonald appointed J. H. Paxton and Morgan O. Llewellyn to the Board of Regents of the State Agricultural College.

Paxton was made chairman of the board; Llewellyn its secretary and treasurer. Llewellyn deposited all the funds of the college in the First State Bank and into the worthy hands of banker Smith.

Paxton and Llewellyn both signed this note to pay back the bank for its contribution to the campaign fund of the Democratic party for the election of 1911 in which election McDonald was elected governor.

Both these appointees of McDonald knew that this political note was being paid off by the interest upon the sacred school funds in their custody.

Governor McDonald, with full knowledge of the insolvent condition of the First State Bank, kept still and took no action of any kind for the protection of the College funds or the funds of the depositors.

In the light of the uncontroverted facts stated above read the sworn testimony from the public records of New Mexico here quoted:

From the testimony, under oath, of Morgan O. Llewellyn then treasurer of the State Agricultural College by appointment of Governor William C. McDonald, and at the same time attorney for the First State Bank of Las Cruces, at a salary of \$50 a month, having deposited all funds of the State Agricultural College in that bank; and to which bank, at the time of its collapse, Llewellyn owed \$13,000, on his personal notes.

Question: My Llewellyn, I want you to sign sworn to yourself, I, H. O. Smith, of Las Cruces, who was at the time you were in the city, that you were the treasurer of the State Agricultural College, and that you were the attorney for the First State Bank of Las Cruces, at a salary of \$50 a month, having deposited all funds of the State Agricultural College in that bank; and to which bank, at the time of its collapse, Llewellyn owed \$13,000, on his personal notes.

Answer: Yes, I was.

Question: And you were the attorney for the First State Bank of Las Cruces, at a salary of \$50 a month, having deposited all funds of the State Agricultural College in that bank; and to which bank, at the time of its collapse, Llewellyn owed \$13,000, on his personal notes.

Answer: Yes, I was.

Question: And you were the treasurer of the State Agricultural College, and that you were the attorney for the First State Bank of Las Cruces, at a salary of \$50 a month, having deposited all funds of the State Agricultural College in that bank; and to which bank, at the time of its collapse, Llewellyn owed \$13,000, on his personal notes.

Answer: Yes, I was.
