HOPEFUL OF STATEHOOD

Delegates Rodey and Wilson Sanguine of Success During the Present Session.

OKLAHOMA GOES ALONE

Appropriation of \$200,000 Asked for the New Federal Building at Albuquerque.

Special to the New Mexican.

Washington, Nov. 16.—Delegates Rodey of New Mexico, and Wilson of Arizona, are very hopeful over the prospect of securing statehood for the territories during the coming session of Congress. Rodey thinks that the bill will pass in the House without any difficulty, but he anticipates trouble in the Senate as before.

The bill for the admission of New Mexico is the same as that introduced last year, except that it now provides that the state shall have two representatives in the Lower House. The Arizona bill is the same in every particular as the one introduced last session.

Delegate Maguire of Oklahoma has prepared a bill for the admission of Oklahoma without considering Indian Territory, and providing for four representatives in the House.

Those opposed to statehood, realizing that they cannot prevent the consideration of the question, have concentrated their efforts upon trying to have admitted only two states, which will mean the consolidation of New Mexico and Arizona into one state, and Oklahoma and Indian Territory into another.

This action will retard matters considerably, but Mr. Rodey predicts that New Mexico will be admitted and that Arizona will follow as soon as the population in that Territory reaches 200,000. The delegates from all the territories are on the most friendly terms, and are doing all they can to assist each other. The hopes of those working for statehood center in Senator Quay. He is said to be in favor of admitting New Mexico and Arizona as one state.

At the request of Delegate Maguire, the leading Republicans of Oklahoma have been called by Central Committee Chairman Charles Cade, to meet in Guthrie for the purpose of electing a delegate to Washington, to assist Maguire in his campaign for separate statehood for Oklahoma. William Grimes, national Republican committeeman for Oklahoma will attend a meeting of the national committee in Washington on December 11.

The bill for the erection of a public building in Albuquerque, introduced in the House by Delegate Rodey, calls for an appropriation of \$200,000. Senator McCumber of North Dakota, has framed and introduced a bill which provides that the funds raised from the sale of public lands in the states and territories of the arid regions, should be kept intact for use in the state or territory in which they were raised, until the secretary of the interior shall have ascertained definitely whether the funds are needed for irrigation works within those states or territories.

Senator Warren of Wyoming has introduced a bill granting 50,000 acres of the non-mineral lands of Wyoming to the state for the benefit of the Soldiers' and Sailors' Home of Wyoming. Senator Teller has introduced a bill providing for the adjustment of certain claims of the Confederate Bands of the Ute Indians in southern Colorado.

Representative Lacey of Iowa, has introduced his grazing bill of last session. It gives homestead settlers the right to lease public lands for the purpose of grazing, the rental to be from one to six cents per acre.

Senator Hansbrough of North Dakota, has introduced a bill providing that every applicant to enter, select, locate or purchase any of the public lands shall file an affidavit, verified by one or more persons, showing that the lands sought are of the description named in the application.

DEAD FROM EXPOSURE.

Body of Juan Nieto, a Sheep Herder of Mediera, Found Near Moriarty.

The lifeless body of Juan Nieto, of Madiera, a sheep herder in the employ of George Davis, was found yesterday morning by a Santa Fe Central section gang about eight miles north of Moriarty. Death was due to exposure Tuesday night as the body was still warm when found.

An inquest was held by Justice of the Peace C. J. Moriarty of Moriarty, who found no marks of violence on the body. Lawrence F. Montenie, funeral director for Dudrow & Townsend left this morning for Moriarty to take charge of the remains and bring them to Santa Fe for interment.

TAKING PLACE OF STRIKERS

A Force of Men Sent from Raton to the Willow Creek Mines.

The Willow Creek, or Van Houten mines near Raton, Colfax County, operated by the Raton Coal and Coke Company, are being worked by a force of between 75 and 100 men sent from Raton to take the place of the striking miners. They are for the most part unskilled laborers. The men are paid good wages and are guaranteed protection by the company.

Dr. J. R. Cunningham, an officer in the Raton Coal and Coke Company, says that the miners in that section had no grievances but went out in sympathy with the Colorado miners. He also states that the Blossburg mines will remain closed.

MOROS ARE IN A STATE OF UNREST.

Manila, Nov. 14.—The situation in Jolo indicates several weeks of fighting. The Moros generally are in a state of unrest. Sixty-five prisoners escaped at Cagayan. Among them were a number of desperate characters.

CARRIE OF HATCHET FAME

Wanted to See President Roosevelt and Refused to Leave the White House.

COST HER AN EVEN \$25

Nothing Daunted She Went to the Senate Gallery and Was Ejected from There.

Washington, Nov. 19.—Mrs. Carrie A. Nation appeared in the principal role of a sensational scene in the White House today. Her request to see the President being refused, she became violent and had to be taken from the executive offices by two police officers. As she was being escorted from the building she shouted at the top of her voice, gesticulating violently, "I am going to pray for a Prohibition President and we will have one, one who will represent the people and not the distillers and brewers. You may put me out of the building but if a brewer or a liquor dealer were here he would have been admitted at once."

Mrs. Nation was taken from the capitol to the police court where she was arraigned for disorderly conduct found guilty and sentenced to a fine of \$25. This she promptly paid. She acted as her own attorney.

The President knew nothing of Mrs. Nation's presence until some time after. Mrs. Nation went direct to the capitol after leaving the White House and appeared in the Senate gallery. She announced her intention of making a speech to the Senate but when told she could not do so she acquiesced readily and took her departure. She went to the marble room and talked to Senator Cockerill. She complained sharply at her expulsion from the White House, saying she did not deserve to be put out.

Soon afterward she re-appeared at one of the doors of the ladies' gallery and raising her right hand above her head shouted: "Saloons, anarchy, saloons, treason, and conspiracy." She was preparing to go on when the door-keeper pushed her out of the door.

The incident created a ripple of excitement in the chamber and corridors.

LIFE IMPRISONMENT.

Sentence of Two Prisoners Received at the Penitentiary Today—Three Short Terms.

Deputy United States Marshal John M. Wiley and Deputy Sheriff Charles C. Closson this morning delivered five prisoners at the New Mexico Penitentiary, two of whom received a life sentence. The entire quintet was sentenced in the Fourth Judicial District Court, convened in Las Vegas yesterday, Chief Justice W. J. Mills, presiding, for the crime of postoffice robbery.

George Cook and Witt Neal, the leaders in the robbery of the Fort Sumner postoffice, in Leonard Wood County, were each sentenced to life imprisonment; George Massague, who turned state's evidence got off with a five year sentence; J. W. Smith, also received a five year sentence, while Toribio Gutierrez received a sentence of one year in the United States jail for unlawfully tampering with the mail, and although received at the penitentiary, will not have to wear the prison stripes.

FREE DELIVERY FOR SANTA FE

Postmaster General Payne Has Issued an Order for the Establishment of the Service February 1, 1904.

The local postoffice received the following official instructions in regard to the establishment of free delivery of mail: "The Postmaster General has issued an order for the establishment of city free delivery service at your office on February 1, 1904, with three letter carriers, one substitute carrier and 20 street letter boxes. The Civil Service Commission has been requested to take the necessary steps to organize the civil service board at your office for the examination of applicants for appointment as letter carriers. As soon as the examination is held and a list of eligibles is furnished by the commission, the Postmaster General will appoint the carriers. You will defer locating the street letter boxes until a day or two before the inauguration of the service."

The other employees of the postoffice, excepting the assistant postmaster, will also be placed under civil service rules and tenure of office. Ample notice will be given of the civil service examinations. Letter carriers will receive \$600 the first year; and \$850 the second year on certificate of the postmaster to the efficiency and faithfulness of the candidate during the preceding year. The first appointments are made from the eligible list by the Postmaster General, but thereafter by the local postmaster.

Every applicant for appointment must be between 18 and 45 years of age, must weigh at least 125 pounds, and must be not less than five feet four inches in height. He will also be required to undergo a physical examination by a reputable physician. Every letter carrier must give bond in the sum of \$1,000. The hours of work are eight daily, overtime being paid for. Every carrier is entitled to fifteen days' vacation annually at full pay. Substitute carriers receive \$1 a year, and are paid at the rate of \$600 a year when on duty.

NO STRIKE AT CERRILLOS MINE

At a Mass Meeting the Miners Stood 92 Against Striking to 21 in Favor of It.

Conditions at the Cerrillos mine are as serene and lovely as though there was not a general strike in the coal fields. At a mass meeting the miners by a vote of 92 against 21 defeated the strike movement.

The Madrid mines, despite reports to the contrary, have not been idle a single day since the strike began.

FATAL GAME OF CARDS.

Priest and Companion Shoot Each Other at Denver—Both Will Die.

Denver, Nov. 19.—Reverend Father Felix Mariano Lepore, pastor of the Mount Carmel Catholic Church of this city, and Joseph Sorice of Pittsburgh, Pennsylvania, who shot each other after a game of cards in the priest's apartments in the rear of the church last night are both reported in a dying condition this morning.

In an ante-mortem statement made to Judge Sales of the District Attorney's office, Father Lepore said that he believed the assailant had been sent to Denver for the purpose of killing him. Sorice refused to talk.

Before coming to Denver in 1892 Lepore conducted a banking business in New York where, it is said, he failed for a considerable amount. Among his creditors was Giuseppe Pasquel, a partner of Sorice, who came to Denver with the latter a month ago. It is stated that Pasquel demanded money from Lepore which demand was not met.

TWO BANKS CLOSED.

Comptroller of Currency Acts in Cases of National Institutions in Indiana and Texas.

Elkhart, Indiana Nov. 19.—The Indiana National Bank of this city has been closed by the comptroller of the currency. National Bank Examiner C. S. Bosworth has been ordered to take charge of the bank.

Washington, Nov. 19.—The Farmers' National Bank of Henrietta, Texas, has been closed by the direction of the comptroller of the currency. Miller Weir, a national bank examiner, has been appointed temporary receiver.

FILED PETITION IN BANKRUPTCY.

Kansas City, Nov. 19.—T. S. B. Sotham, a Hereford breeder of Chillicothe, Missouri, today filed a petition of bankruptcy. He placed his liabilities at \$128,318, assets \$196,269. His assets include a claim of \$100,000 against E. B. Martindale of Indianapolis, who in October brought an attachment suit against Sotham's Chillicothe property to protect a note for \$10,000 held by him.

The officers of the San Juan County Racing Association are J. T. Green, president; Joseph Prewitt, treasurer; M. B. Scott, secretary; Frank Baker, M. Springer and M. B. Scott, committee on sports.

BELUCOSE TONE IN THE JAPANESE PRESS.

St. Petersburg, Nov. 1.—A dispatch from Port Arthur notes a renewal of the bellicose tone in the Japanese press. It says that Japan's agents appear to have met with some success in China and reiterates the report that Chinese viceroys and governors have been instructed to collect funds and troops with all haste because of the possibility of a rupture of the diplomatic relations with Russia and adds that some of the viceroys have been instructed to take precautionary measures for the protection of the coast "so as to avoid the mistakes of past years."

SOVEREIGNS WELCOMED

King Victor Emmanuel and Queen Helena Guests of Lord Mayor and Corporation.

London, Nov. 19.—The welcome of King Victor Emmanuel and Queen Helena of Italy to London, as the guests of the Lord Mayor and the corporation today, was of a remarkably cordial character. The royal procession passed beneath one long canopy of bright colors enhanced here and there by triumphal arches. Each side of the route was fringed with troops, behind whom thick masses of people gave the royal guests a splendid reception. At the Italian embassy the visitors held a reception.

Subsequently the cortege was reformed and the Italian King and Queen after half an hour's procession through the bedecked streets, reached the Guild Hall where they were greeted by a distinguished gathering, including the Prince and Princess of Wales. The corporation's address was presented in a gold casket and a banquet was served at which the Lord Mayor toasted the King and Queen of Italy. King Victor Emmanuel replied to the Lord Mayor.

RENEWAL OF HOSTILITIES

Follow Failure of Attempt at Arbitration Between Chicago Railway Company and Employees.

EFFORTS OF MAYOR FAIL

Tie-Up on Halsted Street Broken by Placing in Commission Five Cars.

Chicago, Nov. 19.—A renewal of hostilities between the City Railway Company and its employees began promptly today, following the failure of the attempts at arbitration. The first development of the warfare was a strike of all the teamsters in the employ of the company, in obedience to a command from the Teamsters Joint Council. It is the intention of the teamster union if possible, to prevent the delivery of coal and supplies to the company and the operation of its repair wagons. In all 60 drivers quit work.

The tie-up on the Halsted Street line was broken today by the placing in commission five cars. This is the fourth line to be opened. A limited service on Wentworth, Cottage Grove and Indiana Avenues was maintained today with little trouble. Police details accompanied each car and tram sent out.

All the efforts of the mayor to secure arbitration of the differences between the Chicago City Railway and its striking employees have failed. This announcement was made today, following a series of conferences between Mayor Harrison and his mediation committee of aldermen, and committees representing the company and the strikers. It was stated that today's meeting developed no common meeting ground for the opposing sides and for the present there is no sign of an amicable settlement.

DYNAMITE EXPLOSION.

As a Result Three Men Were Killed and Three Seriously Injured in Michigan.

Kalkasha, Mich., Nov. 19.—By an explosion of dynamite and the burning of a store at Sharon today, three men were killed and another fatally injured.

The dead are: Roy Dimes, blacksmith. August Wanglan, scaler. William Sharp, night watchman. George McClellan was fatally hurt.

ARRESTED BY

EMPEROR'S GUARD.

Yokohama, Nov. 19.—As the Emperor was returning to the palace at Tokio today from the army maneuvers, he was approached by a young Japanese, who, presumably, intended to present his Majesty with a popular petition. The man was immediately arrested by the guards. The petition brought the Emperor to take decisive action on the Manchuria question. The incident caused some excitement, but the petitioner proved to be a sane, calm student of the Linguistic School.

FOUND DEAD WITH 21

STILLETO WOUNDS. Minneapolis, Nov. 19.—With 21 stiletto wounds the frozen body of Salvador Battalla was found early today on the Franklin Avenue bridge. It is evident that robbery was not the motive. There is no clue.

CALL FOR U. S. TROOPS

Governor Peabody, of Colorado, Asks President Roosevelt to Extend Aid if Necessary.

REQUEST WAS DENIED

Decided That the Resources of the State to Keep Peace Had Not Been Exhausted.

Washington, Nov. 19.—President Roosevelt received a dispatch from Governor Peabody of Colorado, asking that General Baldwin, commanding the department of Colorado, be instructed to supply such troops as may be necessary to preserve order in the Telluride mining district.

After a consultation between the President and the secretary of war, Governor Peabody was advised that it did not appear that the resources of the state to keep peace had been exhausted, therefore, the request for troops was denied.

If Governor Peabody follows out the statements accredited to him the refusal of President Roosevelt to send troops to Telluride at his request, will not change his intention to have a military force stationed there. It is stated that he is arranging to have the state troops sent at once.

GREATLY APPRECIATED.

Are the New Bulletins on Roosevelt County Issued By the Bureau of Immigration.

The Bureau of Immigration has just published 5,000 copies of a bulletin descriptive of the resources, conditions and climate of the new county of Roosevelt, in southeastern New Mexico. One thousand copies of this bulletin have been sent to Don A. Sweet, traffic manager of the Pecos Valley lines of the Santa Fe Railway System at Amarillo, Texas, for use in distribution; 1,000 copies to the advertising department of the Santa Fe in Chicago, and 1,000 copies to W. E. Lindsey, the well known attorney at Portales, and county clerk of Roosevelt County. Mr. Lindsey in acknowledging receipt, writes as follows:

Portales, N. M., Nov. 19, 1903. Secretary of the Bureau of Immigration, Santa Fe, New Mexico:

Dear Sir—I have received 1,000 copies of the bulletin on Roosevelt County. "They fill a long felt want," and for the present, answer every requirement. I have many inquiries concerning this region of country, that I can answer by forwarding a copy of this bulletin, so relieving me of much tedious repetition. I sincerely thank you in this matter. Should your bureau at any time decide to print other matter concerning Roosevelt County, I shall be glad to render you any assistance in my power.

Yours truly, W. E. LINDSEY.

MAIL SERVICE ON THE CENTRAL

Delegate Rodey Writes That the Matter is Under Consideration By Assistant Postmaster General.

Delegate B. S. Rodey writes this paper as follows upon the question of railway mail service on the Santa Fe Central Railway between this city and Torrance:

"Editor New Mexican: "Answering yours of the 9th instant, have to say: the establishment of railway mail service over the Santa Fe Central is now before the proper official of the department for immediate action and I will be able to let you know about it in a few days. The record is all made up and the matter submitted to the third assistant postmaster general."

SUICIDED WHILE TEMPORARILY INSANE.

Chicago, Nov. 19.—"Suicide while temporarily insane" was the coroner's verdict today regarding the death of Mrs. Lulu W. Brannen of Denver, who was found unconscious at the Del Prado Hotel from the effects of chloroform and died later at the Chicago Hospital. The body will be taken to Denver.

Mrs. Brannen was the wife of Robert S. Brannen a well known insurance man of Denver, and the daughter of Judge and Mrs. E. T. Wells. She was a society favorite when she was married in 1890. She was afflicted with an illness which was believed to be incurable.

CONSIDERING ALL—HOLD THE CONVENTION IN LAS CRUCES.

The New Mexican has received a communication from Las Cruces signed by several leading Republicans and friends of this paper approving its course in urging the holding of an early convention for the election of six delegates and six alternates to the Republican National Convention next year, and who ask that this convention be held in Las Cruces and not in the Meadow City. These Republicans would be very glad to have one of next year's conventions held in Las Vegas, but are of the opinion that the first should be sent to their own town. They argue that no Republican convention has been held in southern New Mexico for many years, the 1902 Republican gathering which re-nominated Delegate Rodey was held in Raton and that it will be policy, and beneficial to the party were the coming meeting held in southern New Mexico preferably in their own town. They believe that this would be satisfactory to Republicans in general and would be glad and willing to support Las Vegas for the second convention. The New Mexican is not at all opposed to a change as it favors any and every measure that will prove beneficial to the Republican party. The sentiment of the Republicans of the Territory is strongly in favor of a very early convention and is gaining strongly in that direction. Sensible and practical party men are convinced of the obvious necessity for such a course. When this paper started upon this crusade, it advocated an early convention either at Las Vegas or at Las Cruces. If the latter suits best for the time being, and it seems it would suit if weather conditions were taken into consideration, then Las Cruces should be selected by the Territorial Central Committee for that purpose. To be sure, weather conditions in the first three months of the coming year, will be nicer and more pleasant in Las Cruces than they will be in Las Vegas, where during these months, snow and wind are frequent, while in the southern town it will be pleasant, mild and warm.

The New Mexican suggests that immediately after the calling of the National Republican Convention on the 11th of December, the Republican Territorial Central Committee should be convened and fix the date and place for the holding of the next convention. The date should be early in the coming year and the place should be, considering all the phases of the situation of the town of Las Cruces, the county seat of Dona Ana in the beautiful Mesilla Valley.

It is not reasonable to suppose that the laboring men who engage in long strikes at the dictation of the presiding officers of labor unions and walking delegates, ever count the great cost to them as individuals especially when the strike is for an increase in wages. Let us suppose for the sake of the argument that men are receiving \$3 per day and that they strike for an advance of 10 per cent in their wages. If they are out 100 days, losing their wages during that time, the cost to each man is \$300. Suppose that then they secure the advance of 10 per cent, which amounts to 30 cents a day. To make up the loss of \$300 the wages they would have earned, they must work 1,000 days at the increased rate. In other words, they must give more than three years of labor, not counting Sundays in order to get even. At the expiration of three years they will be where they would have been at the expiration of the 100 days if they had continued to work instead of going on a strike. It puts the situation correctly and in a nut shell.

The Canadians are still in a state of irritation at the Alaskan boundary decision. They will get over this, however, in due course of time.

THE THEBES OF AMERICA.

Herodotus, the great Greek historian, writes of the Labyrinth in Egypt as follows: "The Labyrinth surpasses the Pyramids. There are twelve placitas, all covered with a roof and all connected, around them all being a wall. The rooms in the Labyrinth are double, 3,000 in number, 1,500 above ground, and 1,500 under ground. The upper I visited myself, into the lower the priests would not admit me." Twenty to thirty miles west of Santa Fe are prehistoric remains fully as great and as wonderful as this Labyrinth, which was considered greater than even the Pyramid of Cheops, which thousands of tourists visit every year and about which scores of volumes have been written. On the Puye and other cliffs, almost within sight of Santa Fe, are the remains of communal buildings which had even more than 1,500 chambers above ground while the two tiers of caves beneath them number almost as many. Who in Santa Fe would refuse to go on a trip to see the Pyramids of Egypt if he could do so in two or three days and at the expense of only a few dollars? Yet, at our very door, are these great prehistoric remains of the Cliff Dwellers and very few even of our own people, and very few of the great traveling public of the United States have ever visited them. Of course, the day will come when the cliff dwellings will attract as many Americans and even foreign tourists as do the Pyramids near Thebes, but the interest of these prehistoric remains should certainly be appreciated to a greater extent at the present. Surely, Santa Fe is the Thebes of America, and should attract the same number of sightseers annually as does the Land of the Pharaohs.

THE SHEPHERD AND HIS FLOCKS.

The Bible often refers in touching language to the tender care of the good shepherd for his sheep, Palestine like New Mexico having been an arid country with a free range on which the stock industry flourished. But few people appreciate or have ever heard of the self-sacrifice of New Mexico shepherds taking care of flocks for a mere pittance. During last winter, eight of these shepherds were frozen to death in Union County alone. In the Estancia plains, near the Manzano Mountains, last winter, two were frozen to death, one lost both of his feet and several were otherwise crippled for life, rather than be guilty of abandoning their flocks in a snow storm that came up suddenly and lasted two days. Many similar instances of where a shepherd gave his life for the sheep entrusted to his care, not even belonging to him, are never permanently recorded and would furnish many beautiful stories of thrilling heroism. The life on the plains with the herds and the flocks is full of romance. The cowboy has a place in American literature but thus far the shepherd who sleeps with his flocks by night, fights off the wild animals, goes hungry and without sleep and at times exposes his health and gives his life for the welfare of his sheep, does not figure in song or story. With the passing of the free range, this type of the shepherd will also pass away, but the New Mexican hopes that ere that comes to pass, some sympathetic and great author will give the New Mexico shepherd an immortal place in English literature.

A SUGGESTION TO DELEGATE RODEY.

The Governor of Arizona recommends that Congress reimburse Pima County of that territory for bonds that it issued to aid the building of railroads. These bonds had been declared illegal by the United States Supreme Court but Congress afterwards validated them. Santa Fe County is in a somewhat similar pinch as Pima County. It too issued bonds to aid railroad construction and when the Pima County bonds were declared illegal by the United States Supreme Court, Santa Fe County believed that the decision also applied to the bond issues made by it under similar circumstances and ceased paying interest on it. However, Congress also validated the Santa Fe County bonds, and nothing remains for this county but to pay them or to make a compromise with the bondholders. While there should be no delay and no cessation in the work to compromise the enormous indebtedness of the county in an honorable way, there might also be made an effort to have Delegate Rodey bring to the attention of Congress the peculiar manner in which the bonds were saddled upon the county and to ask for some relief in the form of an appropriation to pay the bond issue and interest full or in part. There can be no harm in such a step and it might be productive of considerable good.

Judge W. H. Pope was on Tuesday confirmed by the United States Senate as associate justice of the Supreme Court of the Territory of New Mexico. This is accepted with gratification by the good people of the Territory and especially by those of the Fifth Judicial District over the courts of which the new judge will preside.

Gloomy thoughts become habitual to the dyspeptic. He looks on the dark side of things and every mole hill becomes a mountain. His condition affects his business judgment and mars his home relations.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the organs of digestion and nutrition. It gives buoyancy of mind as well as health of body because it removes the physical cause of mental depression. It enables the perfect digestion and assimilation of food, and the body is strengthened by nutrition which is the only source of physical strength.

"I was afflicted with what the doctors called nervous indigestion. Took medicine from my family physician to no avail," writes Mr. Thos. G. Lever, of Lever, Richmond Co., S. C. "At night would have cold or hot feet and hands, alternately. I was getting very nervous and suffered a great deal mentally, thinking that death would soon claim me. Always expected something unusual to take place; was irritable and impatient, and greatly reduced in flesh. I could scarcely eat any thing that would not produce a bad feeling in my stomach. After some hesitation, I decided to try a few bottles of Dr. Pierce's Golden Medical Discovery and 'Pellets.' After taking several bottles of each, found I was improving. I continued for six months or more, off and on. I have to be careful yet, at times, of what I eat, in order that I may feel good and strong. I fully believe if any one suffering with indigestion or torpid liver or chronic cold would take Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets' and observe a few simple hygienic rules, they would soon be greatly benefited, and with a little perseverance would be entirely cured."

Biliousness is cured by the use of Dr. Pierce's Pleasant Pellets.

BECOMING A MOTHER

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of **Mother's Friend** during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does **Mother's Friend** carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. Sold by all druggists at \$1.00 per bottle. Book containing valuable information free. **The Bradford Regulator Co., Atlanta, Ga.**

MINES AND MILLS.

The fact that uranium has been discovered on Socorro Mountain makes it of interest to know that pure uranium is worth \$2 per gram, referring to the pure fused article only. Uranium oxide is worth about \$2.50 or \$3.50 per pound, or about \$500 per ton, wholesale selling price for a ten per cent ore. Uranium ores are valued according to their content of uranium oxide.

Russia produces about 90 per cent of the platinum mined in the world, a large portion of the remainder coming from the United States of Columbia, South America. In 1902, the United States produced only 94 ounces, and in 1901 about 1,408 ounces. With the production of platinum in 1902, there were also produced 20 ounces of iridium, which greatly resembles platinum and associated metals may be separated from the gravel and sands of placer mines by placing a grizzly in the sluice way, permitting the fine material to pass through onto an inclined table called an "undercurrent," this table being covered with burlap or canvas. The heavy minerals collect on the table, the greater portion of the lighter passing over into the tailings. To clean up, shut off the water from the sluice and sweep the concentrated material into a launder placed at the foot of the table. When collected, the platinum may be separated from the sands by careful panning or a concentrating machine.

Mexico, being directly south of New Mexico and its mineral districts being practically a continuation of those in New Mexico, a review of the mining conditions in that country are certainly interesting and are proof that New Mexico offers fully as many advantages to the prospector and to the capitalist as does Mexico. Says the Mining and Scientific Press: "Many investors are now looking toward Mexico with a view to acquiring mining property there. While undoubtedly there are many opportunities in that republic, it must be remembered that good mines, by which is meant mines that can be profitably worked, are probably not more numerous in Mexico than in the United States. The Mexican mining laws, which on the whole, are good and equitable laws, differ materially from our own, and no American citizen should make mining investments in Mexico without being fully informed concerning the Mexican mining code. There is a system of procedure which must be rigidly adhered to, or the concession may be lost to the investor, and it is needless to say that the more valuable his mine proves to be, the greater danger to his title if every particular be not observed. If a large investment in a plant is considered, it is more important that all the formalities of the law be complied with, and that the system of taxation be fully understood and provided for. In former years, before the revision of the mining laws, foreign investment often proved disastrous for other reasons than the lack of value in the mines; but more recently a large amount of English and American capital has gone into Mexico, and some large and successful operations are the result. There are many new districts that are the favorite field for the investor. There are many mines in New Mexico which have been successfully worked by native miners in the past, some of them a century or more ago, but the encountering of water, or base ores, or some other hardship, usually resulted in a cessation of all operations, while the owner would devote his attention to another vein in the same or some other district. The chief cause of stoppage was generally the working of the vein to the water level. In such mines the new investor doubtless stands the best chance for success, though equipment would call for a larger investment than would be required if it were a tunnel proposition. Many years of experience have proved that the Mexican miner can work a mine by means of a tunnel as well as any one else, in his own peculiar way, and he has also demonstrated his ability to operate successfully a dry mine by means of shafts, the ore being carried up hundreds of feet through the workings on the backs of half nude men who, barefooted, climb the notched posts, called by American miners, "chicken ladders," until they reach an adit level, through which they pack ore to daylight. There is no phase of mining in dry, good standing ground, with which the Mexican miner is not familiar, except timbering by the square set method or some of the other more modern schemes for stopping such as caving and filling. In view of these facts, the investors should approach with caution old Mexican mines which are idle, but which are represented as still being of fabulous value, for the mine which a Mexican could not make pay with his low costs for labor and methods requiring a minimum of supplies, is likely to prove a financial burden in the hands of American investors, who put into the enterprise large capital with modern equipment and methods. There are doubtless many exceptions to be found, but this word of caution is certainly not misdirected, for the Mexican miner has shown that his judgment of mining property is excellent. Those mines, which are in operation and profitable under native management, should under a competent management continue to pay,

and those mines which have been good above the water line would doubtless prove valuable below it. It is these latter classes of mines that form the best class of mine investment in Mexico, possessing fewer elements of failure than the untried propositions of those which have failed."

DON'T CHASE SHADOWS. Not Necessary to Do So in Santa Fe. The substance is what you want. Let the shadow alone. Stranger's testimony is a shadow. You want other endorsement to convince.

Positive endorsement of friends and neighbors. Removes the shadow of doubt. Florentino Sena of Agua Fria says: "I had attacks of pain in my back for several years, not continually, but one seized me when quarrying stone for the Santa Fe railroad. A friend of mine, Ruberto Martinez, advised me to use Doan's Kidney Pills. I had to try something for I had stopped work and gone home and was unable to return. I could not walk and resorted to the use of plasters, but they rendered little if any service. I did as my friend advised, tried Doan's Kidney Pills, and in three days after I commenced to use them, I was in the quarry again as if nothing had ever happened."

Just such emphatic endorsement is plentiful in Santa Fe. Call at Ireland's Pharmacy and ask what all his customers, and they are innumerable, who have used Doan's Kidney Pills report.

GOLD IN THE BLACK HILLS.

The Burlington Route has recently
issued a 48-page booklet bearing the
title "Mines and Mining in the Black
Hills."

The book is one which should be
read by every mining man in Colo-
rado. It gives more information about
the mines of the Black Hills than has
ever before been placed between two
covers. A copy will be mailed free
on application to the undersigned.

The Black Hills need Colorado men
and money. Several of the shrewdest
men in this state have already invest-
ed heavily in the Hills. The results
so far have been more than satisfac-
tory. The completion of the Burling-
ton's new line to the Northwest brings
the Black Hills within a night's ride
of Denver. You can leave Denver to-
night and be in Deadwood or Lead
City tomorrow afternoon.

HEALTH SEEKERS LIVING IN TENTS.

A community of health seekers and
their families living in tents, has
sprung up within the city limits of al-
buquerque, much to the annoyance of
the residents of that city. The tents
about a hundred in number, are pitch-
ed on vacant lots and have neither
sanitary improvements nor sewerage
connections. It is feared that unless
the city authorities take the proper
steps, that when warm weather re-
turns, this tent community will be the
breeding place of disease.

Real Estate Agent

112 San Francisco Street, Santa Fe, N. M.
REAL ESTATE LOANS.

Money to loan upon real estate security on easy terms.

HOMES.

I have a nice cottage (double) six rooms on one side, 4 on the other; owner occupies 4 rooms and the rest rent for \$25 a month; good neighborhood; ample space to erect other buildings on same street; stables and other outbuildings; the price asked is very low.

Can sell at a bargain cozy homes on Manhattan avenue, one a new stone house with all modern improvements; the other an adobe-brick house, 7 rooms; fruit and vegetable garden; city water, hydrant and tank; 70 choice fruit trees; currant and raspberry bushes; lot 80 by 265 feet. The stone house will be rented.

ORCHARDS.

I also have a fruit ranch in a high state of cultivation, in the suburbs, with a building site overlooking the entire city of Santa Fe. On it there is an artificial reservoir, the only one of its kind in the city, 12 feet or more in depth, holding over 125,000 gallons of water, constantly replenished, from which the whole place can be irrigated daily during the summer, and which could be stocked with fish. The land contains many hundreds of young trees of the finest and most valuable varieties of apples, peaches, pears, plums, apricots, cherries and other fruits, the greater part of which already bear; a young bearing vineyard, thousands of bushes of currants and other small fruits; extensive beds of asparagus, rhubarb, and other fine vegetables. To be sold on easy terms, and for much less than it cost, owing to ill health of the owner.

CHURCHES.

I am authorized to dispose of the Congregational Church, on the south side, convenient to the contemplated Union Depot. It stands upon two lots, and will be sold cheap, or the building will be repaired and leased to responsible parties.

THERE ARE OTHERS.

Several small houses, some stone, some brick, others frame, upon my books, which I would be glad to show an intended purchaser. They are desirably situated, and will be sold cheap.

PLAZA PROPERTY.

To those wishing to catch the cream of Plaza real estate I can offer blocks at figures that will double themselves in less than three years.

SAN FRANCISCO STREET.

I have several business blocks for sale on this great mart of trade, some of them producing more than eight per cent, net, on purchase price asked.

IMPORTANT TO LIVELYMEN.

I can sell you the finest and best equipped livery stable in the Territory at two-thirds of its real value; includes fee of land and commodious brick barn, together with the good will of a flourishing business, 30 horses, busses, hacks, picnic wagon, buggies, and all the other vehicles that go to make up an up-to-date livery barn, and all practically new. Good excuse for sale. In a live and growing city. Write for particulars.

OTHER BUSINESS CHANCES.

I have several other commercial and business propositions to submit those desiring to enter mercantile life and to grow up with the new era of prosperity now coming in with the Santa Fe Central Railway.

OUTSIDE PROPERTY.

At El Cuervo, 10 miles from the Rock Island road, I can sell you about 640 acres; patented; excellent grazing land.

Convenient to Las Vegas, I have for sale several large tracts of desirable land which I am permitted to sell at very low figure. One tract contains about 3,500 acres, and is located about three and one-half miles southwest of Las Vegas; nearly all of it is under fence; good grazing and water for stock; some timber. Another tract of 550 acres, 7 miles from Las Vegas; timber and grazing, with an excellent stream of water passing over it. Still another tract of 350 acres of farming, grazing and timber land, 8 miles west of Las Vegas, with running water upon it.

COAL AND TIMBER LANDS.

I can sell you large tracts of land suitable for mining coal or the production of timber.

CATTLE AND SHEEP RANGES. In all parts of the Territory, and one in Wyoming.

ROOMS: FURNISHED OR UNFURNISHED.

Furnished or unfurnished rooms in all parts of the city. Single, or en suite for light housekeeping. Some of them within five minutes walk of Plaza.

I will take pleasure in showing prospective investors desirable building sites in the neighborhood of the Capitol, and in the vicinity of the Presbyterian church, and other localities of the city which in a few years will be worth double the present asking price.

In the change of advertisement of the Cartwright-Davis Company today, this enterprising firm of grocers who believes in a free and liberal use of printers' ink, call attention to the large and complete stock of Thanksgiving delicacies they have laid in for their patrons and the public at large.

Julian Baca yesterday afternoon completed a bake oven which he had been building with brick at his home on Galisteo Street. As he was removing the props from under it the structure collapsed and he was buried under the debris. Neighbors rescued him from his awkward position. He escaped serious injury, excepting a broken arm and many painful bruises.

The city water was turned off for several hours this forenoon and as no notice had been given many people thought the water pipes were frozen. Quite a number of people built brush fires around their hydrants and many a housewife spent a strenuous hour or two trying to thaw out water pipes. At the Federal building the janitor dug up a pipe and built a fire over it because he thought it was frozen.

J. Muralter, the tailor, did good work in putting on the chevrons and stripes on the blouses and trousers of the non-commissioned officers and musicians of Company F, First Regiment Infantry, National Guard of New Mexico.

Miss Stella Sloan yesterday afternoon shot a large chicken hawk which was flying over the yard in the rear of her home on Lincoln Avenue. The hawk measured 24 inches from wing to wing.

Train No. 7 from the east, due here at 9:40 last evening, arrived this morning at 7 o'clock. Train No. 1, from the east due at 5:35 last evening, arrived at one o'clock this afternoon. The train from the south this noon was one hour late.

The local weather bureau forecasts increasing cloudiness and warmer weather tonight and Friday. The maximum temperature yesterday was 38 degrees at 9 p. m. and the minimum 8 degrees at 5 a. m. The temperature at 6 o'clock this morning was 22 degrees.

The Don C. Hall Dramatic Company will appear at the opera house all next week, with the exception of Wednesday and Thursday evenings, in repertoire. The opening bill will be "Rudolph, the Cripple."

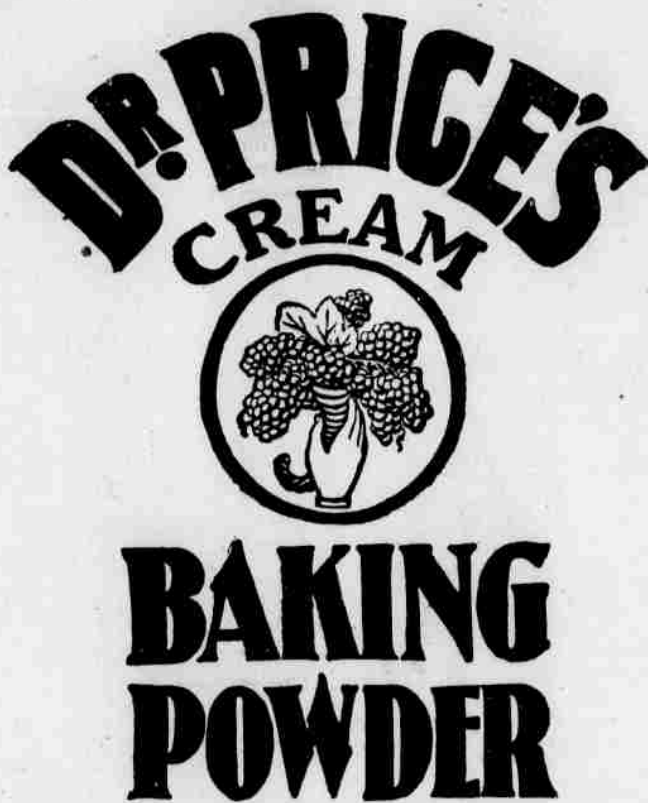

Mrs. Piedad Lujan, of Taos, died in that town Tuesday morning last at 5 o'clock at the residence of her son Tobias Lujan. The remains were interred yesterday at the Catholic Cemetery at Taos and from the Guadalupe church. Deceased was 65 years of age and leaves several sons and daughters.

A school for the non-commissioned officers of Company F, First Regiment Infantry, was held in the armory last evening, Captain James H. Nicholson being the instructor. For over two hours the class drilled in the school of the soldier, the manual of arms and the marching movements, and made very satisfactory progress. The school will assemble again tomorrow evening at 7:30 o'clock.

Mrs. Gabriella Ortega de Jaramillo, a daughter of Victor Ortega, of Chimayo, died in that town on the 11th instant in childbirth, and while giving birth to a daughter. The child is doing well. She was twenty-one years of age and was married about a year ago. Her remains were interred in the chapel of San Esquipula. Deceased was a young woman of high character and her demise caused much sorrow to her many relatives and friends in the northern part of Santa Fe County.

TERRITORIAL TOPICS.

LEONARD WOOD COUNTY.

Hilario Garcia of Santa Rosa and Miss Valeria Moreno of Logan, will be married on the 28th of this month.

In the case of the Territory vs. Jose Ma. Mendez for assault with a deadly weapon on the person of Vicente Gallegos, the defendant was found guilty and bound over in the sum of \$300 to await the action of the next grand jury.

Daniel Sanchez passed through Santa Rosa on Saturday on his way to his home at Puerto de Luna. The wife of Mr. Sanchez died last week very suddenly before her husband who was out in the Manzano Mountains with a herd of sheep, could reach her.

SIERRA COUNTY.

P. W. McDonald who fell from the scaffold while working on a new building at Phillipsburg some weeks ago, has almost entirely recovered from his accident.

Juan C. Montoya of Hillsboro, was fined \$50 and costs for shooting a deer one-half of the fine going to deputy game warden and the other half to the school fund.

Four registered Angora buck goats were shipped from Hillsboro this week by William Arner. Two of the goats went to Texas and two to Maryland. He also sold 500 goats to R. J. Stevens of Colorado Springs. Mr. Arner has gone into the fish culture business also, having recently received several hundred rainbow trout from a United States fish hatchery.

A disturbance occurred on Saturday night at a ball in Hillsboro and two of the fighters were arrested by Constable Chavez. One of them was fined \$5 and costs and the other released, upon an investigation of the affair. Just after the capture of the two men, Chavez saw some one prowling around the jail and upon his refusing to halt, he fired at him twice, neither of the shots taking effect.

ROOSEVELT COUNTY.

W. B. Motes of Bethel, died very suddenly at his home on Saturday morning. He had been at work with his son when he was taken ill with a severe pain in his chest and shortly after going into the house he died. His funeral services conducted by G. H. P. Showalter, were held on Sunday afternoon.

William Wilson, the son of Dr. W. F. Wilson, who left Portales some months ago for southern Texas, met with an accident which resulted in his death a few days ago. While working with a railroad engineering corps on a bridge over the Brazos River, near Brenham, Texas, he fell a distance of 50 feet and injured himself so seriously that he died in three hours. His body was shipped to Port Lavaca and was buried there.

George L. Clothier of the United States Bureau of Forestry, is in Portales and will probably remain for some weeks, in connection with his work for the department. Mr. Clothier says that the bureau is preparing a list of the trees best adapted to the localities where they are to be planted, and is also preparing a chart for the help of those planting out trees. The bureau no longer furnishes free trees as it was found that the indiscriminate distribution of these trees brought about no good results.

COLFAX COUNTY.

The yards of the Santa Fe Railway have been crowded for some time with stock cars which have been ordered by shippers.

A timber fire is reported in the Porter pasture on the Urraca west of Springer. It will probably continue to burn until the first snow falls.

Springer has had unusual excitement lately. One night last week there was a show at the opera house, a severe wind storm, a ball and a fire, all occurring in the one evening.

L. M. Mann of Hall's Peak was in Springer during the past week making arrangements for moving his family into town so that his children could attend the schools here. While working on a chicken house he fell and broke a rib.

A fire which started in the corral belonging to the Floersheim Mercantile Company in the north part of Springer, did considerable damage before it could be extinguished. A barn, ice house and some fencing were destroyed. It is not known how the fire originated.

The business men and property owners of Springer met last Monday evening in the office of the Colfax County Stockman, to reorganize the Springer Horse Company and to attend to any business which should come up. Steps were taken to provide better protection against fire in the town.

Sister Mary Fabiola, a Sister of Charity, and the daughter of Mr. and Mrs. Manuel Valdez of Springer, died of consumption in the convent in Trinidad, Colorado, on Wednesday of the past week. Sister Fabiola was at one time stationed at Santa Fe from where she moved to Trinidad. She had many friends who regret to hear of her death.

THE BEST REMEDY FOR CROUP.

From Atchison, Kan. Daily Globe.
This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old fashioned remedy for croup, known as hive syrup and told, but some modern mothers say that Chamberlain's Cough Remedy is better, and does not cost so much. It causes the patient to "throw up the phlegm" quicker and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by all druggists.

NOT A SICK DAY SINCE.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility." This is what B. F. Bass of Fremont, N. C., writes. Only 50c at Fischer Drug Co.

STEPPED AGAINST A HOT STOVE.

A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. In less than half an hour after applying it the child was quiet and asleep and in less than two weeks was well. Mrs. Benson is well known resident of Kellar, Va. Pain Balm is an antiseptic liniment and especially valuable for burns, cuts, bruises and sprains. For sale by all druggists.

A Cosy Car

The last car of the Chicago Special is a buffet-library-observation car. It has a lounging room twenty feet long, brilliantly lighted; and furnished with easy chairs, a writing desk, magazines, periodicals, etc., and a well-stocked buffet. In the rear is a broad platform protected by brass rails, where you can sit and watch the scenery while the Special hums over the rails at sixty miles an hour.

And there is something to see in the mountains of Colorado and the fertile plains of Nebraska, Iowa and Illinois.

The Chicago Special leaves Denver at 4:15 p. m. every day, and all lines into Denver run trains to connect with it. Another high grade flyer for Chicago leaves Denver at 9:45 p. m.

The St. Louis Special leaves Denver at 2:00 p. m., and the evening train at 9:45 p. m. Write me for particulars.

THE CHANCE OF A LIFETIME

For Prospective Purchasers
of Building Lots in Estancia

Estancia has GOOD WATER, SOFT WATER, PURE WATER, RAILROAD WATER, CLEAR WATER and PLENTY of WATER.

RUSSELL SAGE'S ADVICE,
"Young man, Buy Real Estate,"

"YOUNG MAN GO WEST!"

"If you are going to do a good thing, do it in the best way," is another maxim of which you will appreciate the force if you will either call on or communicate with **W. P. CLARKE BEFORE BUYING TOWN LOTS ELSEWHERE.**

BE WISE.
Put your money into land—Own a Town Lot and Home. Do like your fathers did—buy good property in a live town, and your children will rise up and call you blessed. It is entirely safe to presume that within a very short time the town of ESTANCIA will be one of the liveliest, largest and most substantial towns in this section of the southwest. Be sure and write for all information desired at once. **THE PRICE OF THESE LOTS WILL INTEREST YOU.**

Over a million acres of land open for Homesteaders in the ESTANCIA VALLEY—good soil and plenty of water, which can be had from eight to thirty feet.

LAS VEGAS BUDGET.

Montezuma Hotel believed to Have Been Sold to the Government—Other Matters.

Although it has not yet been officially stated, there is good authority for believing that the Montezuma hotel at Las Vegas with its large grounds, fine farm and baths, has been sold to the government.

Work on the Santa Fe extension from Las Vegas is progressing nicely. The road has now been carried three miles around the canon above the Hot Springs and has reached a point directly above the end of the Santa Fe extension. The road is well built, on a foundation of rock and goes through some of the finest scenery in the Territory.

Work on the Santa Fe extension into the Gallinas canon is progressing rapidly. Most of the rough work has been completed but some blasting and finishing still remains to be done. The Las Vegas Railway Company expects to handle all the ice output of the canon this winter and has ordered a steam engine to haul the heavy trains. Ice houses and ice dams are being built along the road.

KETCHUM MUST RESIGN

He Brought False Charges Against Contractor Wallace, his Former Employer.

Henry Ketchum, Custom Inspector at El Paso, who preferred charges against his former employer Contractor Wallace, claiming that he had taken stone from Mexico for use on the Southern Pacific cut off in New Mexico, has been asked to resign. The charges were investigated by the government department and it was found that the stone had been taken from New Mexico, therefore Collector Garrett was requested to prefer charges against Ketchum and his resignation must follow.

OLD SOLDIER DEAD.

William Minters, Formerly of Socorro, New Mexico, Passes Away in Leavenworth Home.

William Minters, a former resident of Socorro, died in the Soldiers' Home in Leavenworth, Kansas, a few days ago. John Butterworth, for whom Minters worked for many years in his saloon at Socorro and later in El Paso, bequeathed him \$10,000 shortly before his death. Minters is well known throughout the Territory and his many friends are sorry to hear of his death.

MOVED BAG AND BAGGAGE

Troopers From Fort Wingate Remove Agapito Herrera From the Nambe Reservation.

The squad of troopers from the Fifth Cavalry, stationed at Fort Wingate, which left here Monday morning in command of Lieutenant V. D. Dickson, accompanied by Superintendent C. J. Crandall of the United States Indian Industrial School, moved Agapito Herrera off the Nambe Reservation, bag and baggage Monday night. Juan Tafaya, the other squatter, had left the reservation, and has returned to his home in this city.

Superintendent Crandall expects no further intrusion, but in the event of a recurrence, the United States troops will again be called into the service.
