to make products used in peaceful trade.
"Powerful associations, such as the syndicates, grouping together different firms in the coal, metal, dyeing and weaving trades, have been formed. It is this commendable planning and foresight, of which this is only one illustration, which will make war factories, not only in France, but in Germany and England, productive after the war ends.

Must Have Protection.
"It is manifest that we cannot meet the situation which will arise at the close of the war without a sensible use of the protecting power of government. Our opponents have scouted a protective tariff. They offer a tariff commission, but tariff commissions do not legislate. It is Congress that legislates. I believe in a tariff commission, as I want all the facts carefully gathered and analyzed. We wish a tariff adjustment that is fair and reasonable.

"If the American people desire the principle of a protective tariff applied to the protection of American products, the upbuilding of American authority, and the securing of our proper economical independence, they must put in power those who believe in the protective principle. The opposing party does not believe in it.

Speaks of Soup Houses.
"Those who are seeking to make political capital out of our present war prosperity have little to say as to the conditions which prevailed less than two years ago. It was the day of soup houses and municipal relief, the day of reduced output and contracted enterprise. We cannot afford a return of that day. But it will return if we do not wisely provide against it. The democratic policy has increased imports only to decrease revenue. It has given us a war revenue.

TEUTONIC POWER UNIMPAIRED BY OFFENSIVES ON WESTERN FRONT

German Military Critic Reviews Recent Statements Made by Generals Joffre and Haig on War's Progress

POINTS WITH PRIDE TO
ATTACK ON RUMANIA

Kaiser's Armies Unable to Be Aggressors Everywhere Because of Enormous Length of Lines.

Paris, Oct. 13.—General Nivelle, commander of the French forces at Verdun, in talking with Walter Hale, an artist, and H. O. Beatty, director general of the American relief clearing house of New York, at his headquarters during the shelling of German trenches by the French on Tuesday, remarked that the French were throwing more than 100 shells to one thrown by the Germans and that soon they will be doing better than that. Then the defender of Verdun said that his army had had its bitter struggles, but that now, if there should be an attack it would be broken by the French. Beatty and Hale watched the cannonade for two hours at night from the ramparts of Verdun.

They also spent a night in the citadel at Verdun with General Petain, commander of the French forces in the Soissons-Verdun region, with whom they also had lunch. General Petain thanked Director Beatty for the gift of 50,000 francs by the American relief clearing house. The general said he intended to use the money in purchasing artificial legs and arms for the disabled soldiers of his army. The French commander said he deeply appreciated the open hearted charity of the American people.

Regarding the Zeppelin raid on London during the night of October 1-2, a British official report on October 2 said: "Police reports show that the total casualties in last night's raid were one man killed and one woman injured. The material damage was insignificant."

HEART OF BRITISH LION MUST YET KNOW FEAR
Amsterdam, Oct. 13 (via London).—Commenting on the speeches in the British house of commons by Premier Asquith, war secretary Lloyd George, in which they declared that war must be continued to a finish, the Lokal Anzeiger, of Berlin, says: "So we know it now for the hundredth time and shall take measures accordingly. We, too, must provide aid and relief for our people and shall not relax our efforts until they are guaranteed against all dangers of our enemies to strangle them."

BULGARIANS MAKE PROGRESS IN RUMANIA
Sofia, Oct. 12 (via London, Oct. 13).—Bulgarian troops in eastern Rumania have made a small advance, capturing a village, it was announced officially today. The announcement follows:

"An advanced Bulgarian detachment dislodged the enemy from Naltova and occupied the village. A squadron of airplanes, on October 10, attacked Constanta, causing great fires in the oil tanks in the harbor."

Freighter Grounded Near Seattle.
Seattle, Wash., Oct. 13.—The Osaka Shosen Kaisha freighter Hsankushima maru, outward bound with a full cargo from Tacoma for oriental ports, went ashore at West Point, a sandy projection just north of Seattle, in dense fog this morning, forty feet inside the buoy. An attempt to pull the steamer off the sand will be made today. She is in no danger.

Central Powers Endashed.
"The entente reports from time to time the assertion that Germany is exhausted, but this claim is merely empty words and advertising to affect neutrals and to stimulate their own nations and armies. The defense in the east and the west, and the energetic offensive of the central powers in Transylvania and the Balkans, prove better than words the forces and superiority of the central powers are unshaken."

STEEVER TO ORGANIZE DENVER SCHOOL CADETS
Denver, Oct. 13.—Announcement was received here today of the release from active duty of Lieut. Edgar Z. Steever, who has played a prominent part in the organization of high school cadet corps in Wyoming, and his assignment to Denver to aid in the organization of the high school cadet corps authorized recently by the Denver school authorities.

The organization is to follow the lines prescribed in the act of June 3, providing for the training of students at civil educational institutions along such lines as to fit them for service as reserve officers.

100 FRENCH SHELLS TO ONE GERMAN SHELL

Paris, Oct. 13.—General Nivelle, commander of the French forces at Verdun, in talking with Walter Hale, an artist, and H. O. Beatty, director general of the American relief clearing house of New York, at his headquarters during the shelling of German trenches by the French on Tuesday, remarked that the French were throwing more than 100 shells to one thrown by the Germans and that soon they will be doing better than that. Then the defender of Verdun said that his army had had its bitter struggles, but that now, if there should be an attack it would be broken by the French. Beatty and Hale watched the cannonade for two hours at night from the ramparts of Verdun.

They also spent a night in the citadel at Verdun with General Petain, commander of the French forces in the Soissons-Verdun region, with whom they also had lunch. General Petain thanked Director Beatty for the gift of 50,000 francs by the American relief clearing house. The general said he intended to use the money in purchasing artificial legs and arms for the disabled soldiers of his army. The French commander said he deeply appreciated the open hearted charity of the American people.

AMMUNITION BLOWN UP BY ZEPPELIN BOMBS
Berlin, Oct. 13 (by wireless to Sayville).—According to a telegram from Amsterdam under date of October 10, a neutral citizen returning from England reported that during the last Zeppelin raid a large ammunition storehouse and places where benzol factories are located near London, had been hit by bombs dropped from Zeppelins, the overseas news agency says. "Much ammunition was blown up and a large number of persons were killed."

Regarding the Zeppelin raid on London during the night of October 1-2, a British official report on October 2 said: "Police reports show that the total casualties in last night's raid were one man killed and one woman injured. The material damage was insignificant."

HEART OF BRITISH LION MUST YET KNOW FEAR

UNIDENTIFIED SUBMARINE IS REPORTED OFF NEW ENGLAND

Steamship Bovic Sights U-boat at 8 o'clock Yesterday Morning About 200 Miles East of New York.

NOT FAR FROM THE SCENE OF SUNDAY'S ACTIVITIES

Coincident With Announcement That a Fleet of British Cruisers and Destroyers Are Off the Coast.

Boston, Oct. 13.—An unidentified submarine off the New England coast was reported by the steamship Bovic today at a time when the steamship lane to Europe was dotted with munition laden ships, just released from the embargo placed on their movements after the German submarine off Nantuxet last Sunday.

The Bovic, bound from Manchester, England, for New York, did not report the submarine's nationality, but gave its position when sighted at 8 o'clock, at about 200 miles east of New York, not far from the scene of the U-boat activities of last Sunday.

The Bovic is due in New York late tonight or sometime tomorrow. The reports of the strange submarine were coincident with announcements that a fleet of British cruisers and destroyers was off the coast and that virtually the entire available destroyer fleet of the Atlantic fleet of the United States navy was on neutrally duty.

U. S. Destroyers Conducting Search.
That the American destroyers were conducting an active investigation of stories of secret submarine bases on this coast was indicated in a dispatch from Bar Harbor, Me., which said the destroyer Paulding, sent out from the Newport naval base yesterday, made an extensive search of the coast between Bar Harbor and Rockland today. At dusk, the Paulding put back to Rockland and it was understood that she had discovered nothing suspicious during the day.

Those of her men who were given shore leave were ordered to report ready for sailing at 7 o'clock tomorrow morning.

Other destroyers known to be off the coast and believed to be engaged in much the same work as the Paulding, are the McIntosh, Manning and Warrington. The McIntosh, during the evening, anchored at Eastport, in close proximity to the Canadian border.

Recalls Rumors of Wireless Stations.
The presence of these destroyers in eastern Maine waters recalled rumors that have persisted for months that Teutonic sympathizers had a hidden wireless station somewhere in the vicinity of Bar Harbor, and that there was a suspicion also that they were establishing a secret submarine base on the Maine coast. Somewhat later operating from one of the innumerable isolated coves on the Maine coast, it is pointed out, could threaten both the steamship lane to Europe and the transport ships passing out from the ports of the neighboring Canadian provinces.

The departure of a tug from New London, where there have been reports of preparations made for receiving a German submarine freighter, gave rise to much speculation as to whether the undersea boat sighted by the Bovic was a merchant submarine instead of another raider. The tug, however, put in at Vineyard Haven, and it was said there that he was going out to the Dutch steamer Bloemendijk, which was torpedoed Sunday, to see what the chances were for salvage work. The tug, with a diver aboard, was held in port tonight by a gale.

going out to the Dutch steamer Bloemendijk, which was torpedoed Sunday, to see what the chances were for salvage work. The tug, with a diver aboard, was held in port tonight by a gale.

PROMISE CHANGE IN TREATMENT OF MAILS

Washington, Oct. 13.—Radical changes in the treatment of mails on neutral ships are promised in the report of the British and French governments to the American protest against interference with mails. The changes, while short of an abandonment of the contention of the right to search for information of value to an enemy, are regarded by the allies as sufficient to meet the wishes of the United States.

Obviate the two notes which are now under consideration at the state department are devoted to an extensive academic discussion of the whole subject of the treatment of mails in time of war with voluminous quotations from the history of the American civil war and of other wars up to date.

KENTUCKY SENATOR, SIDNEY G. CLAY, SHOT

Paris, Ky., Oct. 13.—Sidney G. Clay, former member of the state legislature and a prominent member of the noted Clay family of this state and the son, was shot and killed here early today.

Lawyers of this city have been arrested charged with the shooting.

More Man-Power Behind The Job
is wanted in every factory, in every store, in every office. Man-power comes from nourishing food that is rich in muscle-making material. Shredded Wheat Biscuit contains all the body-build material in the whole wheat grain in a digestible form. A man's food for a man's job. Serve with milk or cream or with sliced peaches or other fruits.

Made at Niagara Falls, N. Y.

This rainy, cold weather a good stimulating poultry powder will do your fowls a world of good; prevents roup and all kindred diseases, and makes the hens lay. We have all sizes, 25c and 50c and \$1.00. Eggs are now worth 5 cents each. It will surely pay to take good care of the hens. E. W. FEE.

STRONG PLEA BY PRESIDENT FOR PUBLIC ROADS

Chief Executive of Nation Pictures Advantages Derived by People of Country From Good System of Highways.

President Wilson, in his good roads speech at Indianapolis, said in part: "I am here because of my interest in the cause of good roads and because of my interest in the state of Indiana. I was very much interested that this day should fall in your centennial year. It made me think of many of the processes of our national history. This country was built without any roads."

"But after all, the highways is not intended first of all and chief of all, for the pleasure traveler. It is intended for the more traveler. It is not made in order that some company of leisurely people may travel from coast to coast of this great country. It is made because we need it. It is made because we need it in all the material uses of our life."

"It is perfectly obvious that you have got to have an intricate and perfect network of roads throughout the length and breadth of this great continent before you will have realized the energies of America. Good roads are necessary for every practical aspect of our lives, to draw together, to create those arteries which may be compared to the arteries of the human body. The blood of the nation will not flow in harmonious concord unless it can flow in intimate sympathy."

"And so the argument, the material argument, the argument about markets and crops and the products of the mines sink into relative unimportance when you consider the spiritual thing that you are doing in making good roads. You know there is an old saying that the lines between sections are obliterated only by the feet that cross them. There is a very good saying of a great English writer that he never could hate a man he knew. And sectionalism is based upon the radical danger of every nation, namely, ignorance. The only thing that really binds us is not the things that we are talking about, but the things that bind a nation together is the knowledge of its several parts of each other."

"Deprecates Sectionalism. "My fellow citizens, I need not tell you that I did not come here to talk politics, but there is one thing that is pertinent in this connection which I can not deny myself the privilege of saying. Any man who revives the issue of sectionalism in this country is unworthy of the confidence of the nation. He shows himself a provincial, he shows that he himself does not know the various sections of his own country. He shows that he has shut his eyes to what is in a little province and that those who do not seek the special interests of that province are to him sectional, while he alone is national. That is the depth of anti-partisan feeling."

"And that is my interest in good roads, for my fellow citizens, my present interest is chiefly in the nationalization of America. We have created a great people. At least, if I may put it so, we have brought together all the elements, all the necessary elements, all the necessary elements of a great nation. And we suddenly find that we are face to face with the problem of assembling these elements in the sense in which the mechanic assembles the parts of a machine. And having assembled these elements, to put them together for the creation of one unquenchable force to which the world shall hereafter look for most of its forward impulse, for most of its ideal principles, for most of its example in the thing that I am more and more interested in these days is the force that make for drawing America together into a great spiritual unit."

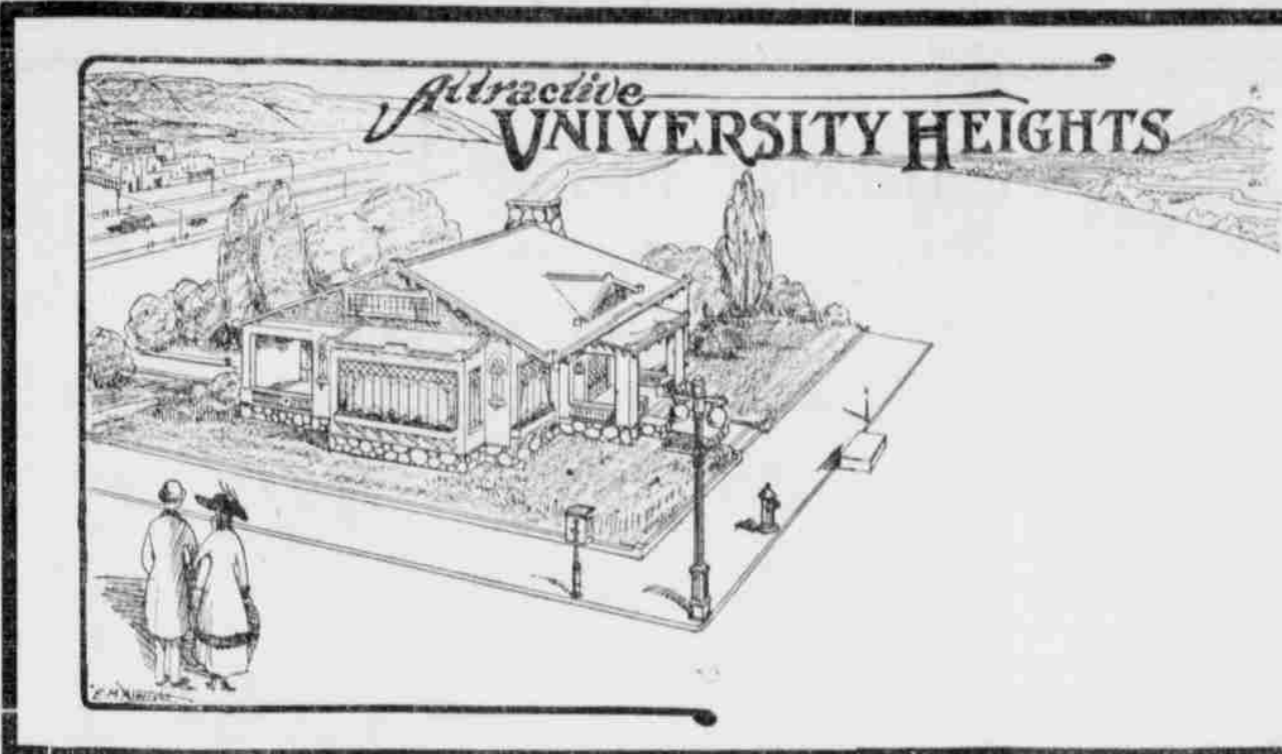

"Now, my fellow citizens, we have

AFTER 14 YEARS OF SUFFERING

This Lady Tried Cardui. Let Her Tell You in the Following Statement the Results She Obtained.

Wise, Va.—Mrs. J. M. Elum, of this place, in writing of her female troubles, says: "This trouble went on for 14 years, often I was unable to work and suffered badly at... times, when I could not be on my feet at all. Really in bad health all the time during those 14 years, and was never without pain, with awful backaching, had no appetite, was nervous, but at that time my husband's sister... recommended that I try Cardui, which I began to take... and which has caused me to be in better health ever since. In a few days I felt that improvement had begun. My back got stronger and less painful. I got less nervous and my appetite began to improve. In a few weeks my improvement was noticeable, and I got into better health than I had had for 14 years... My walking before has been very painful, and could not stand on my feet to do any good. After using these medicines, however, I could walk without pain and was able to do the work and housekeeping for an ordinary family. My back and appetite were better and also my nerves."

If you suffer as Mrs. Elum did, take Cardui. It may be just what you need.

Attractive UNIVERSITY HEIGHTS

Why Our City Is Growing

YESTERDAY WE SOLD TWO BEAUTIFUL BUILDING LOTS ON GIRARD AVENUE TO A WELL-TO-DO EASTERN NEWCOMER, WHO WILL SHORTLY BEGIN THE BUILDING OF A NEW HOME. HIS ATTENTION WAS BROUGHT TO ALBUQUERQUE THROUGH THE ADVERTISING DONE BY THE COMMERCIAL CLUB PUBLICITY COMMITTEE, AND AFTER PUTTING IN TWO DAYS LOOKING OVER THE DIFFERENT RESIDENCE SECTIONS, SELECTED UNIVERSITY HEIGHTS AS BEING THE MOST DESIRABLE AND ATTRACTIVE.

THESE DESIRABLE 50-FOOT RESIDENCE LOTS ARE NOW SELLING AT APPROXIMATELY \$175 PER LOT, MORE OR LESS, ACCORDING TO LOCATION. THOSE WHO ARE WISE AND EXPECT TO MAKE THIS CITY THEIR PERMANENT HOME SHOULD NOW SELECT ONE OR TWO OF THESE LOTS, WHILE THE OPPORTUNITY AND PRICE IS FAVORABLE.

FOR FULL INFORMATION, CALL AT THE OFFICE UNIVERSITY HEIGHTS DEVELOPMENT CO., ROOMS 3-5-7 FIRST NATIONAL BANK BLDG., OR TELEPHONE 899.

SEPTEMBER OFF COLOR IN REGARD TO THE WEATHER

Precipitation and Temperature Both Below Normal, According to Report of Bureau, Which Has Just Been Issued

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)

Santa Fe, Oct. 12.—The month just past, looking at the state as a whole, was a little off color climatically, according to the United States weather bureau. The deficiency in precipitation was general and the temperature was below normal. Here and there in the northeast part of the state, in eastern Colorado, and in the Rio Grande valley, the weather was a little above the normal. For the rest of the state, however, the rainfall was little more than half the normal. The deficiency was largest in the northeast and north counties and in the Rio Grande and Pecos valleys. The showers were so few that places near each other differed widely in the amount of moisture received. The summer rains continued until September 24. The deficiency in temperature was also general, although a slight excess occurred in the middle and lower Rio Grande valleys and at a few scattered stations in the north-west portion of the state. The month began with moderate to rather high temperatures, which continued, with little interruption, till September 25. The highest readings of the month occurred variously from the 10th to the 20th and 25th. On the other hand, a brief cool period overspread the state from the 12th to 15th and the month closed with cold weather after the 27th. The 29th was generally the coldest day of the month, and the 4th the warmest. Little frost was fairly general over the state on the 12th and over the state generally on the morning of the 29th, the latter proving severe and damaging at some of the higher northern stations. The month, as a whole, however, was favorable for the rapid maturity of the late crops, corn, alfalfa, fodder crops, silage, beans and the growth and curing of range grasses and pastures. Much winter wheat had been prepared and seeded. The harvest of beans and the cutting and topping and shocking of corn were general during the last half of the month, with good yields.

Wants Universal Competition.

"Instead of exclusive combinations, I want to see universal competition. There are good things in the air. I have not noticed how almost every great industry, every great profession every year, holds a congress of some sort. Why, even the advertising men, who we thought were the sharpest competitors in America, have a national association in which they discuss the purpose of getting ahead of each other? For the purpose of getting one another and setting up standards, and the chief standard they have adopted is the word 'truth,' and so, in profession after profession, men are getting together by way of mutual discussion. I hold this to be a happy omen. I see the growth in America of this conception of solidarity; of the interest of each being the interest of all, and the interest of each growing out of the interest of all."

"There is one field in which we are particularly backward in respect of this. I mean the relations between capital and labor. Nothing can be done in the interest of capital that is not in the interest of labor, and nothing can be done in the interest of labor that is not in the interest of capital. If men want to get rich, they must help their fellow men. That is a lesson that we have been exceedingly slow to learn, slower than any other nation of co-operation in America. I pray God that their eyes may be opened, and that they may see that the future of this country lies in their co-operation, open, candid, cordial, and not in their antagonism, and that if they will, once get together and plan in the same spirit the same things, the industry of America will go forward by leaps and bounds such as we have never yet conceived. Sometimes it is necessary in order to attract attention to pull men up with a round turn and say 'stop, look, listen.' Because presently if you don't correct the forces of society will correct the things that have gone wrong. Society is the jury. The parties are not going to settle. The nation is going to settle, and I am counsel for the nation."

Pressure.

The mean sea level atmospheric

other nations of the world in some kind of league for the maintenance of peace. Now, America was not a party to this war, and the only terms upon which we will be admitted to the league, almost all the other powerful members of which were engaged in the war and have made infinite sacrifices, are the only terms which we desire, namely, that America shall not stand for national aggression, but shall stand for the just conception of peace and for the competitions of merit alone, and for the generous rivalry of liberty."

"Are we ready always to be the friends of justice, of fairness, of liberty, of peace and of those accommodations which rest upon justice and peace? In these two trying years that have just gone by we have foreborne, we have not allowed provocation to disturb our judgments, we have seen to it that America kept her peace when all the rest of the world seemed to have lost its pole. Upon the terms of retaining that pole and using the splendid force which always comes with the pole in the history of the world which I have just now indicated. No, my fellow countrymen, build upon these new routes in the construction of which the federal government is now to play so large a part; the spirit of nationality, the spirit of co-operation, the spirit of liberty, the power which only a free people know how to exercise."

THEDA BARA

pressure at Santa Fe was 29.91 inches; highest, 30.21 on the 28th; lowest, 29.65 on the 26th. At Roswell the mean was 29.95 inches; highest, 30.46 on the 28th; lowest, 29.63 on the 26th. At El Paso the mean was 29.88 inches; highest, 30.25 on the 29th; lowest, 29.63 on the 26th.

Temperature.

The monthly mean for the state, based upon the records of 95 stations having a mean altitude of about 5,000 feet, was 63.1 degrees, or 0.8 degree below the normal, as determined from 41 stations having records for ten years or more. September, 1915, differed but little in average temperature, although higher temperatures were recorded. The highest monthly mean was 73.5 degrees at Tularosa and the highest recorded temperature 99 degrees at Chaco, Luna county on the 6th. The lowest monthly mean was 49.5 degrees at the mountain snowfall station near Winslow ranch, at the head waters of the Pecos, while the lowest recorded temperature was 19 degrees at Tularosa on the 26th. The greatest daily range of temperature was 61 degrees at Lluwater on the 25th.

Humidity.

The mean relative humidity at Santa Fe at 6 a. m., was 65 per cent; at 6 p. m., 36 per cent, and for the month, 53 per cent. At Roswell the mean at 6 a. m. was 80 per cent; at 6 p. m., 45 per cent and for the month, 62 per cent. At the Agricultural college the 5 a. m. readings averaged 54 per cent, the 5 p. m. readings 32 per cent, and for the month, 43 per cent, while a series of foreign readings at Fort Huachuca averaged 59 per cent for the month.

Precipitation.

The average precipitation for the state, based upon the records of 173 stations, was 0.37 inch, or 6.79 inch below the normal as determined from 55 stations having records for ten years or more. On September 1, 1915, 1.27 inches greater rainfall than the month just closed. The greatest monthly amount was 3.91 inches at Hobbs, eastern Eddy county, and no precipitation was recorded at the Pleasant View station, near Roswell, while four other stations had but a mere trace. The greatest amount in any 24 consecutive hours was 3.99 inches near Pearl, central Eddy county, which fell between 8:20 p. m. on the 10th and 6 a. m. of the 11th. There was an average of four days with 0.01 inch or more precipitation. No snow was recorded, although light snow fell over a few of the highest peaks.

Wind.

The total wind movement at Santa Fe was 4,575 miles, or 6.9 miles per hour; highest velocity, 26 miles from the northwest on the 15th. At Roswell the total movement was 4,415 miles, or 6.4 miles per hour; highest velocity, 23 miles from the northwest on the 10th. At El Paso the total movement was 6,987 miles, or 9.7 miles per hour; highest velocity, 25 miles from the east on the 28th. At the Agricultural college the total movement was 5,198 miles, or 7.4 miles per hour; highest velocity, 47 miles from the north on the 4th. The prevailing direction for the state was from the southwest, and comparatively few stormy days occurred.

Sunshine and Cloudiness.

The weather bureau station at San-

ta Fe recorded 78 per cent of the possible sunshine during the month, or a total of 290 hours; 21 days had 51 per cent or more of the possible amount. Roswell recorded 80 per cent of the possible sunshine, and had 26 days with 50 per cent or more of the possible amount. In the state, as a whole, there were 19 clear days, 9 partly cloudy and 2 cloudy.

Well-Expanded Lungs Not Enough.

Pure blood is indispensable to the health and strength of these organs. The delicate structure of these organs makes it necessary. When the blood is impure the lungs lose their tone, and even if they are permitted to expand freely, they have not the power fully to perform their important work. The fact is, there is nothing more necessary in our physical economy than pure blood—the kind of blood that Hood's Sarsaparilla makes. This medicine is the good old reliable remedy for diseases of the blood, scrofula, rheumatism, catarrh, and low or run-down conditions of the system. At this time, when coughs and colds are so prevalent, Hood's Sarsaparilla is an invaluable tonic. Get it today, and begin to take it at once. Accept no substitute.

Our customers tell us we have the most complete stock of hay, grain and feed that they ever saw. And that there is probably not a store in the country that handles such commodities as quickly and in as economical a way as we do. When we make a sale by our methods, it is to the advantage of the consumer as well as to ourselves. E. W. FEE.

Skin Diseases Soon Yield to Resinol

If you have eczema, ringworm or similar itching, burning, unsightly skin-eruption, try Resinol ointment and Resinol Soap and see how quickly the itching stops and the trouble disappears, even if it is a severe, stubborn case. Resinol Ointment is also an excellent household remedy for pimples, dandruff, sores, burns, wounds, chafings, and for a score of other uses where a soothing, healing application is needed.

Resinol Ointment and Resinol Soap are absolutely free from anything harsh or irritating and can therefore be used freely for babies' skin-troubles. Doctors have prescribed the Resinol treatment for over twenty years.

Resinol Soap improves poor complexions. Resinol Ointment and Resinol Soap are sold by all druggists. For sample free, write to Dept. 51-B, Resinol, Baltimore, Md.

BIG FOOTBALL GAME

AT UNIVERSITY FIELD TODAY

University of New Mexico to meet the fast Colo. School of Mines in the biggest game New Mexico ever witnessed
GAME CALLED AT 3:00 O'CLOCK ADMISSION \$1.00

NEW MEXICO U AND MINERS OF COLORADO WILL GRAPPLE TODAY

Coach F. C. Carter Says School of Mines Team Will Go Onto Field With Two Strong Men Out of Line-up.

BANKING INSTITUTIONS WILL CLOSE FOR GAME

Hutchinson Clansmen Believe They Will Make Better Showing Than They Did at Colorado Springs.

The first Colorado team ever to play on an Albuquerque football field will play the University of New Mexico at Hopewell field this afternoon. The invading eleven came from the Colorado School of Mines, reaching Albuquerque last night.

The Mines will go onto the field this afternoon with two strong players missing from the line-up. Coach F. C. Carter made this statement last night. Carter is head coach of the Mines eleven. Coach E. J. Allen-Dinger also accompanied the squad.

The weakening of the Mines naturally increases New Mexico's chances. New Mexico suffered an overwhelming defeat at Colorado Springs last Saturday, but the Tigers are looked upon as possible champions of the Rocky Mountain conference. New Mexico today will also have the advantage of playing on its home field. Manager A. E. Bruce stated that the U. N. M. players were in first-class condition.

Announcement was made last night that three banking institutions would be closed this afternoon on account of the game despite the fact that today is pay day at the Santa Fe railway shops. These banks will be closed from 1 o'clock this afternoon. Citizens, American Trust and Savings and First Savings Bank and Trust company.

The teams will line up as follows:
Mines—
Schneider, J. E.; Noth, J. T.; Hoffman, L. T.; Lee, Worth; J. G.; Langston, Young; H. G.; Wingley, Mewbiter; H. G.; Feather, Sealer, Putnam; H. Y.; Sisco, Hall, Robinson; R. E.; Brien (Capt); Evingham, Schneider; LaPrack, Williams (Capt); J. H.; Aydelotte, Peterson, Paulin; R. H.; Hoffman, Van Brugh; J. D.; Steele, McManis.

COLORADO MINERS EXPECT VICTORY ON NEW MEXICO FIELD

BY MORNING JOURNAL SPECIAL LEADER WIRE.
Denver, Oct. 13.—Three conference football teams of Colorado schools are to play out-of-state games tomorrow. The Colorado Agricultural college champions play the Utah Aggies at Logan, Utah. Denver university will meet Wyoming at Laramie and the Colorado School of Mines play an inter-sectional contest with the University of New Mexico at Albuquerque.

Three of these teams, the Denver university, Utah Aggies and the Colorado Mines players will tomorrow their initial games of the year.

The conference champions will meet at Logan an eleven of whose strength this year little is generally known. The team is said to have been greatly strengthened, but there appears to be little comparative data upon which to forecast the result of the contest. The Colorado Aggies, however, are known to be as strong this year as last, when they went through the schedule without a loss.

Coach Fiske of Denver university expects this year to be high in the running for conference honors and is confident of victory over Wyoming. Although two or three of his men have slight injuries Fiske's team is fast and well balanced.

The Colorado School of Mines goes into New Mexico with some misgivings. Although the Mines have gained a week's rest from Colorado college, they lost to one of the best eleven in the conference this year. The Mines are expecting a victory, but do not claim ability to run up an overwhelming score.

3 MISSOURI VALLEY CONFERENCE TEAMS MAY BE ELIMINATED

BY MORNING JOURNAL SPECIAL LEADER WIRE.
Kansas City, Oct. 13.—The football teams of the Missouri valley conference, excepting Drake, which has nothing on its schedule, will have their meet tested tomorrow in contests that should eliminate three of them from the championship class. All of the contests are between conference teams—Nebraska meeting the Kansas Aggies in Lincoln; Kansas playing Iowa State at Ames; and Missouri contesting at Columbia with Washington, its nearest enemy, who for the first time in many seasons, triumphed last year over the Tigers by the score of 13 to 6.

File Will of Football Star.
Minneapolis, Oct. 12.—The estate of the late Thomas L. Shevin, millionaire lumberman and former Yale football star, is valued at \$2,185,674.66 in the report of the executors, who acted as appraisers of the estate, filed in probate court here today.

WINNER'S SHARE OF SERIES GATE SPLIT BY SOX

Twenty-two Players Get \$3,-826 Each; Substitutes and Club Employees Remembered; Foster Retires.

BY MORNING JOURNAL SPECIAL LEADER WIRE.
Boston, Oct. 12.—Today the Boston Americans divided the winner's share of the world's series receipts. Full shares of \$3,826.25 each were given twenty-two players, including several who figured but little in the team's success.

The remainder of the \$27,744.47 which the team won was given to the substitutes and club employees. Heine Wagner and Veah Greck received three-quarters of a share each. Wyckoff and Pennock divided one share, and Walsh, who came to the team only in the last month of the season, was awarded \$1,911. Edward Riley, the former secretary, and Charles Green, the club trainer, were given \$500 each, and other employees were remembered with lesser sums.

The meeting of the players was marked by the farewell of Manager William Carrigan to the team, which he had piloted to world series victories in two successive years. He said he was "through with baseball for all time." President Lammie, however, said he was still hoping that Carrigan would return. George Foster, former crack pitcher, who suffered from a lame arm this season, also announced his retirement. He will develop his farm in Oklahoma, he said. Carrigan's plans are uncertain.

Some of the Red Sox will remain together for a few days to play an exhibition game at New Haven, Conn., next Sunday. Others started on today's trip to Buffalo, N. Y., in Canada, or to their homes in distant places, some in California.

TWENTY-FOUR SUPERMAN GET CHECKS FOR \$2,745

New York, Oct. 13.—Each of the twenty-four players on the Brooklyn National baseball team who was entitled to a share of the world's series receipts received a check for \$2,745.40 today. This amount divided among the players was \$67,170.98. Wilbert Robinson, manager of the Brooklyn, and Lew McCarty, catcher for the New York Nationals, who until recently was a member of the Brooklyn team, were included in the distribution.

ILLINOI TO ENGAGE IN INTERSECTIONAL CONTEST AT URBANA

BY MORNING JOURNAL SPECIAL LEADER WIRE.
Chicago, Oct. 12.—Football eleven of the central west will swing into action tomorrow in the first real test of the season.

Illinois will be the first team in the west to engage in an inter-sectional contest. The Colgate eleven of Hamilton, N. Y., will oppose the Illinois at Urbana.

Chicago and Indiana will furnish the only contest having a direct bearing on the "Big Nine" championship. This game probably will eliminate the loser for the western conference race. It is the only contest on tomorrow's schedule bringing "Big Nine" teams together.

DILLON AND GIBBONS TO FIGHT TEN ROUNDS

BY MORNING JOURNAL SPECIAL LEADER WIRE.
Chicago, Oct. 12.—A ten-round contest between Mike Gibbons of St. Paul and Jack Dillon of Indianapolis, were signed here today. The contest is to be decided in St. Paul on a date between November 10 and 12. The boxers agreed to weigh 161 pounds at a scale on the day of the contest.

DUKE CITY RIFLEMEN TO SHOOT FOR MEDAL

The Duke City Rifle club will contest for the club medal Sunday. This is an annual contest and can be won but once by a member. Last year's medal was won by Capt. G. A. Burrier, who will be in charge of the range for this shoot. The medal is furnished by the government and the shoot is open to all members. Firing will commence at 8:30 a. m. at the national guard range, south of town.

Racing at Juarez Thanksgiving.
El Paso, Tex., Oct. 13.—Word was received here today from Col. Matt J. Wyne of Louisville, who is president of the Juarez club at Juarez, that the eighth annual racing season, of a hundred days of races, will open on the Juarez track, opposite El Paso, on Thanksgiving day, November 20. For the first time in the history of racing in this part, the par-mutual form of betting will be used exclusively.

FOOTBALL RESULTS

At San Antonio: University of Texas, 14; Oklahoma A. & M., 6.

VETERAN TUFTS TEAM TO CLASH WITH PRINCETON

Interest in Eastern Football Centers in Meeting of Vanquishers of Harvard and Tigers.

BY MORNING JOURNAL SPECIAL LEADER WIRE.
New York, Oct. 12.—Eastern football will come into its own tomorrow with the playing of a number of contests which promise to be close struggles. Chief interest will center in the meeting of Princeton and Tufts, although there are several inter-sectional games on the schedule.

The veteran Tufts combination, with the victory of last Saturday over Harvard to spur it on, will attempt to repeat at the expense of the Princeton eleven. The Tigers may be expected to offer a desperate resistance against the light fire open and overhead play of Tufts, and the contest should uncover some remarkable football.

Harvard will entertain the eleven of the University of North Carolina and the southern team is expected to give the Crimson stiff opposition throughout the play. Yale will have Lehigh as an opponent.

The University of Pennsylvania will have its old-time rival, Swarthmore, at Franklin field, and the contest will give the Red and Blue supporters another opportunity to get a line on the advance made by the Quakers under the coaching of Potwell. The Navy will play the University of Pittsburgh, which overwhelmingly defeated the naval models last fall.

Holy Cross, which held the Army to a tie in 1915, will be the guests of the cadets at West Point. Cornell will have Williams as an opponent. Dartmouth will tackle the Massachusetts Aggies; Brown will play Amherst and Rutgers will meet the Washington and Lee combination, which last season was a remarkable scoring machine. In addition to these contests there are a number of other games in which closely matched eleven will meet.

TWENTY-ONE DRIVERS WILL START TODAY IN GREAT AMERICAN RACE

SPECIAL CORRESPONDENCE TO MORNING JOURNAL.
Chicago, Oct. 13.—Twenty-one speedsters will start in the 250-mile Great American automobile race at the speedway tomorrow, among the leading names being Earl Bamber, host, de Palma, and Rickenbacker. Rosta is regarded as the favorite in view of the fact that he has won every event staged in Chicago this year, owing to unfavorable weather today. The elimination trials were waived, and today, de Palma, circling the track at a clip of 102 miles an hour, Galvin did a little better than 102 miles an hour.

CIVILIAN WINS LEACH CUP AT JACKSONVILLE

BY MORNING JOURNAL SPECIAL LEADER WIRE.
Jacksonville, Fla., Oct. 12.—W. H. Richards of New Haven, Conn., a civilian, won the Leach cup, a first prize in the opening match today of the National Rifle association's tournament. Sergeant E. E. Greenleaf, United States marine corps, and Edward W. Seecamp, Pennsylvania national guard, finished second and third, with 164 points each, but with lower records on the longest ranges or on consecutive bullseyes. The contest was set, 900 and 1,000 yards, seven shots at each range. The national grandstand match was postponed until October 19.

GEOGRAPHIC SOCIETY TO MEET THURSDAY AT THE COMMERCIAL CLUB

The regular annual meeting of the New Mexico Geographic society will convene at 8 a. m., Thursday, October 19, in the Commercial club building, by the call of the president of the society, Dr. D. B. Boyd, and the chairman of the advisory board, Prof. F. A. Jones.

The society was organized a year ago with such object in view as the preservation of historic and geographical places, the collection of maps and geographical literature, the investigation and establishing of trade relations and the publication of the natural resources of New Mexico. The membership is steadily increasing, the qualifications for membership being of interest in the work as manifested by application for membership and the payment of nominal dues.

Any inquiries will receive careful attention, and references are freely permitted to the geographic library now being collected. Communications should be addressed to the secretary, New Mexico Geographic society, Albuquerque.

COLORADO U. ALUMNI OF STATE AT BANQUET

Alumni of the University of Colorado gave a banquet for Dr. Livingston Farrand, president of the university, last night in the Taft room of the Alvarado hotel. Nearly twenty alumni from Albuquerque, Santa Fe, Las Vegas and other points in New Mexico and G. S. Downer, attorney, made arrangements for the banquet.

'T. B.' MEETING LOOKED UPON AS GREAT SUCCESS

Sectional Conference Closes With Red Cross Seal Luncheon; Dr. Farrand Presides at Morning Session.

The sectional conference on tuberculosis was brought to a close with the Red Cross seal luncheon at the Alvarado hotel. The general theme of the after-dinner talks was methods of selling the stamp which are becoming widely used during the holidays.

The morning session in the Presbyterian church, presided over by Doctor Farrand, was a discussion of "Community Control of Tuberculosis." The first paper being read by Dr. George R. Hubbell, of San Francisco, on "The Nurse." In emphasizing the value of the visiting nurse, Dr. Hubbell declared that the success of the campaign depends largely upon her efforts.

Doctor Brown, of Los Angeles, dealing with specific conditions, in the second address, laid stress upon the importance of proper facilities for the care of patients, pointing out that even in the wholesome surroundings of the country the death rate from the plague was higher than in the cities on account of the lack of these facilities.

T. J. Newton, of San Antonio, spoke on hospital work. Dr. John Chase, Jr., of Denver, on "The Open Air School," and Dr. L. M. Powers, health commissioner of Los Angeles, on "The Health Department."

Then followed a general discussion of topics akin to the cause. The conference was regarded as a very successful one.

Officers Elected.
The Red Cross seal luncheon, which was held primarily for the exchange of ideas regarding the sale of Red Cross Christmas stamps was a success, both in point of attendance and in the interest displayed. The capacity of the Taft room at the Alvarado was taxed to the limit to hold the delegates and visitors.

Philip P. Jacobs, at the head of the table, introduced the speakers, Miss Edith M. Tate, committee secretary of the Tuberculosis department of the California Board of Health, spoke upon the subject of the "Mail Sale." E. J. Newton, of the San Antonio Board of Health, on "The Work Through Women's Clubs." L. E. Brown, of the Austin Texas Board of Health, on "The School Children in the Red Cross Sale," and John Tanton, editor of the Herald of Well County, upon "Publicity and Advertising."

In the election of officers of the New Mexico Society for the Study and Prevention of Tuberculosis, the following were selected:

President, Oliver L. Hyde, M. D., Albuquerque; vice presidents, Joseph J. Pines, M. D., Albuquerque; E. R. Duncan, Silver City; secretary, J. Deering, For secretary, A. J. Shortle, Albuquerque; treasurer, R. E. McBride, M. D., Las Cruces; honorary vice presidents, Governor McDonald, and Superintendent A. N. White, directors for three years, John Tomlin, Albuquerque; Charles H. Lutz, Las Vegas; Max Nordhaus, Albuquerque; for two years, W. T. Joiner, Roswell; E. H. Brunk, M. D., Fort Hays; William Murray, Silver City, for one year, John Becker, Eden, and two members of women's clubs to be appointed by the state federation.

The newly appointed continuance committee of the National Society, Southwestern Tuberculosis conference followed. Dr. J. C. Mahr, Oklahoma; Mrs. J. S. Fulton, Nevada; Mr. J. W. Peewee, Utah; Dr. Livingston Farrand, Colorado; Rev. L. Reed, New Mexico; Dr. J. Metzger, Arizona; Dr. C. M. Hendricks, Texas; Miss E. L. Tate, California.

DEDICATION OF DAM AT ELEPHANT BUTTE TO BE HELD FRIDAY

The dedication of the Elephant Butte dam, set for today but postponed, probably will take place Friday. That is the earliest date at which A. A. Jones, of Las Vegas, formerly of Albuquerque, conferring with P. E. McManis, local agent, and J. H. Banks, special agent of Salt Lake City. Mr. Peewee is one of the best known fire insurance men in the western states and one of the most prominent citizens of San Francisco. He is president of the San Francisco fire department and believes that the Golden Gate city has more adequate fire protection at the present time than any other municipality in the world.

"San Francisco's expenditures for fire protection last year reached a total of a million and six hundred thousand dollars," said Mr. Peewee last night. "We have a many firemen as we have policemen. The fire of 1906 taught us a lesson. We are now prepared for almost any emergency."

Mr. Peewee was in Albuquerque on April 18, 1906, on the day of the San Francisco earthquake, and left for his home from here immediately upon learning of the disaster. He has not been in Albuquerque since that time. "Glad to get back to this town," said Mr. Peewee. "It is a live, vigorous, progressive little city and I'm pleased to notice so many improvements in the business section. They spell prosperity and progress."

DEATHS AND FUNERALS

John C. Paul.
John C. Paul, 21 years old, died yesterday morning at his apartment. He came here two years ago from Pontiac, Mich., where he was in the shoe business. His brother, Fred, was with him when he died. Strange for burial shipment is to be made on Santa Fe train No. 2 this afternoon.

Game Postponed at Las Cruces.
Las Cruces, N. M., Oct. 12.—The football game to have been played between New Mexico Agricultural college and the Texas School of Mines here today was postponed because of wet grounds.

REFEREE WILL TAKE TESTIMONY IN G. O. P. CASE

Judge Reynolds Decides Question of Jurisdiction and Appoints Claud Hutto as Referee.

Judge H. F. Reynolds yesterday held that he had jurisdiction in the Gillenwater injunction case, brought to prevent the Baca faction's filing the list of its nominees with the county clerk of those of the republican party. The court denied the motion of James H. Moore, chairman of the Baca convention, and Elias Quintana, secretary, to dissolve the temporary injunction which was granted on Captain Gillenwater's complaint.

With the motion to dissolve the temporary injunction disposed of, the court's next step will be to decide whether the injunction should be made perpetual. This step will not be taken until the testimony of both sides is presented to the court. Judge Reynolds appointed Claud Hutto referee to take the testimony.

Having failed to put an end to Captain Gillenwater's action on the question of jurisdiction, Moore and Quintana now will have to show the court that the Baca wing is entitled to file its list of nominees as those of the republican party for Hernaldo county.

Segoviano Trial Is Begun.
The trial of Vicente Segoviano, on the charge of murder, was begun yesterday before Judge Reynolds. The state had nearly finished its case against Segoviano when the court recessed last afternoon until this morning.

The statement made by Mariano Alvarez, with murdering whom Segoviano is charged, made to District Attorney Manuel F. Vial at St. Joseph's hospital was not placed in evidence. "That is the right way of it," Segoviano was not. Under Sheriff Dick Lewis, however, testified what Alvarez had said.

WASHINGTON ATTORNEY SPEAKS IN HIGH TERMS OF RECORD OF JONES

Mr. and Mrs. Charles E. Cousul, of Washington, D. C., are registered at the Alvarado, stopping here on a trip through the west. Mr. Cousul is a lawyer, making a specialty of land and mining practice, before the interior department. When asked concerning the record made by Hon. A. A. Jones as assistant secretary of the interior, Mr. Cousul stated:

"My firm has been often before Secretary Jones on matters for western people having land matters for decision, and I know from general observation as well as from personal knowledge that Mr. Jones was regarded by the members of the bar very highly and favorably indeed. I remember one instance, when a matter was set for general discussion by the department of several mining cases involving the matter of kind of proof of discovery to be demanded of an applicant for a mineral patent. I happened to use the word 'policy' in referring to the previous decisions of the department. Mr. Jones at once stated that he disliked the use of the word 'policy,' as he deemed it the duty of the department to merely ascertain and follow the 'law,' as distinguished from individual opinions or policies."

"The decisions of the department while Mr. Jones was in charge of land matters were marked by a fair and liberal construction of the law, such as naturally tended to encourage settlement as well as to attempt compliance with land laws, confident in the belief that they would receive fair consideration at the hands of the government."

SAN FRANCISCO HAS AS MANY FIREMEN AS POLICEMEN NOW

On an inspection, tour of western agencies for his companies, John T. Fogarty, resident manager of the Pacific department, Royal and Queen Insurance companies, arrived in Albuquerque last night and will spend today in Albuquerque conferring with P. E. McManis, local agent, and J. H. Banks, special agent of Salt Lake City. Mr. Fogarty is one of the best known fire insurance men in the western states and one of the most prominent citizens of San Francisco. He is president of the San Francisco fire department and believes that the Golden Gate city has more adequate fire protection at the present time than any other municipality in the world.

"San Francisco's expenditures for fire protection last year reached a total of a million and six hundred thousand dollars," said Mr. Fogarty last night. "We have a many firemen as we have policemen. The fire of 1906 taught us a lesson. We are now prepared for almost any emergency."

Mr. Peewee was in Albuquerque on April 18, 1906, on the day of the San Francisco earthquake, and left for his home from here immediately upon learning of the disaster. He has not been in Albuquerque since that time. "Glad to get back to this town," said Mr. Peewee. "It is a live, vigorous, progressive little city and I'm pleased to notice so many improvements in the business section. They spell prosperity and progress."

DEMOCRATS LEAD IN STRAW BALLOT AT UNIVERSITY

Wilson, Jones and Walton
Have Big Margins in Vote
of Students and Faculty;
Governorship Results in Tie

If the sentiment among the faculty and students of the University of New Mexico is fairly indicative of that prevailing throughout the state, there is no doubt that Wilson and Marshall will receive the electoral vote of New Mexico in the coming election, and that the state will have a democratic representation in both houses of congress.

A straw vote of the male students and the faculty of the institution was taken yesterday, participated in by all connected with the university who desired to express a choice. The result of the voting was as follows:

For president: Wilson, 62; Hughes 27.

For senators: Jones, 65; Hubbell 17.

For representative: Walton, 62; Hornaday, 5.

For governor: De Baca, 42; Burnsum, 42.

Just why the vote between De Baca and Burnsum should have been as close when the margin in favor of the democrat for the other offices was

pronounced, is difficult to explain, except upon the theory that the vote for president, senator and representative was governed by national issues and that for governor by state issues.

As the students of the university are gathered from every section of New Mexico and come from families that are fairly representative of the sentiment of their respective communities, the straw ballot conducted there is believed to furnish an excellent indication of the drift of sentiment throughout the state and to be a good line of "dope" on the final outcome.

Yearly, in advance, \$10.00

NOTICE TO SUBSCRIBERS
Subscribers to the Journal when writing
to have their paper changed to a new ad-
dress must be sure to give the old address.

"The Morning Journal has a higher circula-
tion than any other paper in New Mexico."
The American Newspaper Directory.

THE JOURNAL takes and prints
sixty hours and thirty minutes of
exclusive Associated Press leased
wire service each week. No other
newspaper published in New Mexico
takes more than twenty-four hours
of Associated Press service during
the week.

WILSON FOR GOOD ROADS.

The Journal presents elsewhere the
admirable address of President Wil-
son on the necessity for good roads.

Preparedness is not altogether a
question of organizing bodies of
trained men, of building warships, of
insuring supplies of munitions and
war material, of perfecting coast de-
fenses. Other important factors en-
ter into the problem of preparing the
country for defense, and for prosper-
ity.

One of the chief of these factors is
good roads. In war quick mobiliza-
tion is essential. Armies, no matter
how well trained, officered and equip-
ped, are useless, except as they are
brought promptly to bear at the point
of attack. Mobilization depends on
roads—railroads and wagon roads.

One of our railroad presidents de-
clared the other day that the rail-
roads have no idea of what would be
required of them in a mobilization of
armed forces on a great scale. They
never have been consulted by the mil-
itary authorities. To remedy this
condition, the president has named an
advisory committee with a view to
bringing about a better understand-
ing by the railroads and the factories
to the general scheme of public de-
fense.

But even if the railroads were in
possession of complete and detailed
plans they would not be able to take
over the entire burden. The authori-
ties would be compelled to resort to
the wagon roads and automobile
transportation to carry a big share
of the load.

European experience shows that
this is in no previous war, is an
"auto war." The magnificent roads
of Europe made quick mobilization
possible, and now make effective
handling of troops possible. Ger-
many has thirty-six thousand miles
of government roads, and the King-
dom of Prussia alone spends thirty-
six million dollars annually for the
maintenance of her public roads,
though the whole of Prussia is just
a little larger than the state of New
Mexico.

In peace or war, good roads are vi-
tally necessary, and the nation owes
to itself to see to it that the high-
ways are ample and kept in good con-
dition. This fact is fully recognized
by President Wilson, and if he is
elected to succeed himself the con-
struction of public roads will become
more and more a national enterprise
and less and less a burden upon
sparsely populated states like New
Mexico.

The defeat of Roanoke was largely
due to the fact that he allowed the
street crossings to become unman-
ageable in time of heavy rains. Also,
people who wanted to go to the street
cars had to swim through mud. May-
or Waterhouse may have to meet some-
thing of the same sort of sentiment if
something is not done to relieve the
condition that now prevails.

A SHORT HORSE IS SOON
CURBED.

The Journal does not often reply to
false statements regarding it, for the
simple reason that usually persons
who make such willful misstatements
are not worth notice. But when in a
paid advertisement the publicity bu-
reau of the central committee of a
great political party makes libelous
statements which have no shadow of
truth in them, it becomes necessary
to depart from our worthy rule.

In a recent advertisement, the re-
publican publicity bureau says:

"The Albuquerque Morning Journal,
which has been converted from sup-
port of the republican national and
state tickets to support of the demo-
cratic national and state tickets—ev-
ernight, by those mysterious influ-
ences which work so strangely in the
organization of the Journal, asserts that
all newspapers printing advertise-
ments of the republican party are
venal."

Every reader of the Journal knows
that it has not supported any republi-
can candidate, state or national,
since New Mexico became a state. Every
reader of the Journal knows that it
has consistently supported both the
national and state democratic admin-
istrations since they came into ex-

istence. There have been particular
matters in which the Journal has tak-
en issue with President Wilson, and
there have been acts of Governor Mc-
Donald which we could not approve of;
but in no case have such differ-
ences caused the Journal to regret
whatever part it had in the election
of either the governor or the presi-
dent. There has not been a single
intimation by the Journal of support
of the republican ticket, state or na-
tional, or of any part of such ticket.

The attempt to convey the impres-
sion that the Journal had changed its
policy—particularly the attempt to
convey the impression that the Jour-
nal has been bribed by the democrats
—is the work of a morally deformed
person. Furthermore, the statement
that the Journal "asserts that all
newspapers printing advertisements
of the republican party are venal," is
merely an invention by a mind that
long since has forgotten the differ-
ence between right and wrong.

If the Journal's support of candi-
dates was for sale, it is likely that it
would be supporting the republican
party, because it is that party, and its
candidates, that has the barrel this
year. Also that party hasn't a newspa-
per and doubtless would pay well
for the support of any newspaper that
would sell to it.

Aside from legitimate advertising
and legitimate subscriptions, not one
dollar comes to the Journal, either di-
rectly or indirectly. This fact is well
known to the managers of the republi-
can state campaign.

A Kansas woman paid \$50 for a
husband, probably because she didn't
have the price of a good mule.

BURSUM SUES THE JOURNAL.

The Journal has been made de-
fendant in a suit for libel filed by H.
G. Bursum for \$50,000. The suit is
based on a front page editorial in the
Journal of October 5, under the head-
ing "Can the Leopard Change Its
Spots?" in which attention was called
to charges against Mr. Bursum's of-
ficial record as superintendent of the
New Mexico penitentiary—charges
that were made from every stump in
New Mexico during the campaign of
1911 and now made the subject of
legal proceedings by Mr. Bursum for
the first time.

It is unfortunate for the voters of
the state that it is impossible for the
suit filed by Mr. Bursum to be tried
before the election, in which he is
once more asking to be made gov-
ernor of the state. It would establish
in court whether the allegations are
true or not, and would either estab-
lish all of the charges or would exoner-
ate Mr. Bursum from some of
them not now matters of record.

In the meantime, the Journal has
no intention of trying the case out of
court.

A campaign conducted by means of
libel suits is not likely to get any-
where.

HUGHES IS SPECIFIC.

Mr. Hughes has at last been specifi-
c on what he would have done had he
been president. Replying to a ques-
tion, he said there would have been
no Louisiana tragedy, if he had been
at the head of the nation, because,
when the advertisements of the Ger-
man embassy warning people not to
take passage on the Lusitania first
appeared, he would have warned Ger-
many that any unlawful attack upon
the Lusitania would be followed by
the immediate severance of diploma-
tic relations.

In the light of experience, doubt-
less Mr. Hughes would do exactly
what he says, and so would President
Wilson. But if Mr. Hughes had been
president he would have regarded the
advertisements as a bluff, just as
President Wilson regarded them. Af-
ter a thing has occurred it is easy to
tell what should have been done to
prevent it.

Waters Says Hubbell
Knows Where He's at;
Should Go to Senate

Editor, Morning Journal.—
Your paper has asked, "What quali-
fications has Frank Hubbell for United
States Senator?"

Mr. Hubbell is qualified in a busi-
ness way, he is the biggest and most
successful man in this state, a promi-
nent fixture to this state and a
grand success, a public benefactor.
Poole and Jackalls are not a success.
And to my mind, he is the best qual-
ified man in this state for the United
States Senate.

Furthermore he has always been a
republican, and not like the Journal
a performer in acrobatic stunts, you
know where he is at.

You need a man with the business
ability of Mr. Hubbell in the U. S.
Senate, not a man that has been as-
sociated with the "Watchful Waiting"
and "Peace at any Price" adminis-
tration.

You will hear on what Mr. Hubbell
has done, if Mr. Hubbell was such a
"bold bad man" as your paper would
have your readers believe, why did
he escape punishment? A man is in-
nocent until proven "guilty" is he
not? Was Mr. Hubbell proven "guil-
ty"? Then give him the benefit of
the doubt. Yours truly,

HUGH F. WATERS.
Albuquerque, N. M., October 12, '16.

When You Take Cold.

With the average man a cold is a
serious matter and should not be
trifled with, as some of the most dan-
gerous diseases start with a common
cold. Take Chamberlain's Cough
Remedy and get rid of your cold as
quickly as possible. You are not ex-
perimenting when you use this reme-
dy, as it has been in use for many
years and has an established reputa-
tion. It contains no opium or other
narcotic. Obtainable everywhere.

With Scissors and Paste

HORSE SENSE.
What Edison among horses first
discovered the secret of co-operation
in fly brushing? You see them stand-
ing three or four together under a
tree in the pasture. They are side by
side head to head. Each horse keeps
his tail flying, as he brushes the
troublesome insects off his neighbor's
head. It is the same of intelligent
co-operation. Maybe all the horses
always knew it. And maybe some
wise old horse once discovered this
method of helping yourself by help-
ing your neighbor and told all the
other horses about it.

FOUND AT LAST.
Absolute knowledge have I none;
But my aunt's charwoman's sister's
son.

He is a policeman on his beat
Saying to a housemaid in Downing street
That he has a son who has a friend
Who knows when the war is going to
end.

ASBESTOS PRODUCTION.

(Chemical Engineering.)
Asbestos was produced in this
country in 1915 to the extent of 1-
721 short tons valued at \$74,552. This
was a gain over 1914 of 484 tons. Most
of our asbestos comes from Canada,
and on March 25, 1916, an embargo
was placed on shipments which shut
off our supply from that quarter.
This caused a great hardship, and the
embargo has subsequently been mod-
ified to some extent to allow ship-
ments to come into this country. Do-
mestic sources are being investigated,
and the encouraging outlook in Ariz-
ona, with the possible resumption of
production in Vermont, together with
an increased production from Georgia,
may alleviate the situation consider-
ably.

THE OBSTINATE HUSHMAN.

Englishmen shake their heads over
the impractical Irish, and wonder over
his hidden source of misunderstanding.
The appointment of Lord Wimborne
as Lord Lieutenant of Ireland, sug-
gests that there are sources of mis-
understanding which are neither
fantastic nor hidden. Lord Wimborne
is an estimable sporting peer, quite
capable of minding his own business
as an official, but he is not a diplomat.
A pleasant host at the castle, but
the majority of the Irish people sim-
ply do not see why a figurehead like
the Lord Lieutenant should be in a coun-
try seriously impoverished, and to them
a salary as large as that which is paid
to the president of the United States.
If the Irish people had the same atti-
tude as the Canadians, they might con-
ceivably be glad to pay for an ex-
tensive ornamental governor general.
As it is, they resent being compelled
to pay out over \$75,000 a year on a
nominalty. When will the class from
which the Wimbornes are recruited
see the evil of this kind of taxation?

TEUTON HERITAGE NO BOND.

(Robert R. McCormick in Century.)
So far as the bulk of the Americans
of German extraction are concerned,
they are glad to shine among their
neighbors with the reflected glory of
German military success. They have
the slightest idea of being part of
this country under the German yoke. Amer-
icans of German descent come from
humble ancestry, just as do those
whose ancestors were English, Scotch,
Irish, French, Norwegian, Danish or
Swedish.

The 60-year-old brewery millionaire
has driven up to the Germania club in
his \$7,000 motorcar, has not forgot-
ten the unbearable arrogance of
the riding-booted young aristocrat
who insulted him and his class with
impunity forty years ago. The young
American-born Germans are Ameri-
cans through and through; more Amer-
ican than those who know more Amer-
ican than the rich young good-for-
nothings who are accepted in Eng-
lish society on terms of near equality.
They would not know how to be
German if they wanted to, and at the
first sign of trouble the hyphen would
collapse, leaving them finally and
permanently on the American side of
the chasm.

BISMARCK AND HIS EGGS.

Personal impressions of Bismarck
and of W. E. Gladstone were given by
McClure Hamilton, the worldwide
"famous painter of great men, and
one of the only two painters to whom
Bismarck gave sittings, who was at the
Ritz-Carlton hotel, Montreal, on his
way to Boston and New York, where
he will paint the portrait of Mrs. E. H. Harriman. He said:

"Bismarck was a giant. He was
much taller than the popular impres-
sion of his height is, and except for
his wonderful eyes and eyebrows, was
not picturesque from the artist's point
of view. He was too round and pink.
The eyebrows, however, were wonder-
ful! They protruded three inches.

"I painted his portrait in the palace
at Klessingen, 23 years ago, just after
his return from the emperor. I was
waiting to see him in the salon, and
at the time the crowd outside was
clamoring for him to go out and speak
to them. Bismarck came to me in a
temper.

"Well, I was on the point of leav-
ing the palace, feeling very rattled,
when his secretary came to me and
said that it was against all the laws
of hospitality of the palace for me to
leave without a meal. I must stay
to breakfast with Bismarck. So I did
and Princess Bismarck persuaded her
husband to sit for me.

"Bismarck spoke perfect English.
He was rather vain about it and on
one occasion a poor professor who
had come all the way from Bonn to
get a word with him had to go away
disappointed as all through breakfast
the prince refused to speak any other
language. He told me that he used
to eat as many as two dozen eggs at
a meal in some form or other, as his
doctor had said he could eat as many
as he liked, and he used to consume
champagne at an average rate of
three bottles a day.

"I painted William Ewart Glad-
stone at Hawarden castle. He was
much more intimate than Bismarck,
though it really is impossible to com-
pare such different types. Gladstone
had silver hair and parchment skin
and interesting lights and shadows.
He had a wonderful range of expres-
sion and was the finest natural actor
I have ever met, and I have painted
several of the leading men and women
in the profession. Gladstone could
look like an angel, but in his disap-
robation of evil he looked satanic.

"He was quiet and simple and I had
to paint him while he was writing or
working in some other way. The por-
trait was bought by the French gov-
ernment and hangs in the Luxem-
bourg."

Miera Funeral Saturday.

Santa Fe, Oct. 13.—The funeral of
Sister Miera, a well-known Catholic
held from the Cathedral of St. Francis
on Saturday morning. The remains
arrived today from Jemez. Inter-
ment will be made in Rosario cem-
etery.

Notes of Interest
From State Museum

OFFICIAL CORRESPONDENCE TO MORNING JOURNAL
Santa Fe, Oct. 13.—Mr. and Mrs.
Henry Denhall today became mem-
bers of the Santa Fe Society of the
Archaeological Institute of America.
Warren E. Rollins, the artist, today
joined the Archaeological Society of
New Mexico.

Miss Grace Havlin, the Chicago ar-
tist, left last evening for her home
after a summer's work in Santa Fe
and Taos. In addition to the paint-
ings of the Santo Domingo and Santa
Clara dances she exhibited at the
museum, she has completed a won-
derful canvas of the dance at Taos
and a street scene in the pueblo of
Taos.

Architect I. H. Rapp has returned
from the lower Pecos valley and is
giving his time to the working out
of the final details of the museum con-
struction. Experiments in lighting
will be conducted for several weeks
to determine the best method of light-
ing the art galleries. It is the am-
bition of the building committee to
make the galleries the best lighted in
the world. Robert Henri, the artist,
is giving invaluable aid in this work.

lar member of the staff of that pub-
lication, spent yesterday afternoon at
the museum and is taking in the at-
tractions of Santa Fe.

SPANISH JOURNAL TELLS
OF AMERICAN POLITICS

From Chicago Tribune.

Cabellero Carlos Evans Hughes will
be surprised to learn that a brainy
and estimable woman, "Signora M.
Coblenz" is the candidate for vice
president on the ticket which he
heads. Certainly Senor Carlos War-
ren Fairbanks will be equally amazed.

Yet such is the information given
in the September number of the Ho-
jus, Jelebas (Chosen Leaves), a month-
ly illustrated magazine. "A Review
of the month of 'Revolutionary Pro-
gress' published in Barcelona, Spain.

This article is printed here in trans-
lation almost literal:

"The 4th of next November they
hold in the United States the election
for the presidency of the republic, as
the present president, Wilson, will
finish his term on July 4, 1917. To this
end they have already begun the elec-
tion campaign, always so exciting and
picturesque in that country because of
the vehemence with which the differ-
ent parties urge their respective candi-
dates.

Tells of Political Lineup.
"One should know that in the great
North American republic there have
only two major political factions, that
of the democrats or liberals, and the
republicans or conservatives.

"After many years of trying to win
these presidential elections, the demo-
crats at last gained strength and
pulled out a victory for their candi-
date.

"In the coming election both par-
ties are preparing for the struggle,
and the democrats, gathered in a great
convention in the city of St. Louis,
have announced as the candidate of
their party the present president,
while the republicans have placed
Charles Evans Hughes against Wilson
after discarding the candidacy of
Roosevelt.

"The republican candidate has in
his support all the North Americans
of foreign birth who, through a per-
petrity of legislation, have a double
nationality, as they preserve the for-
eign although having acquired the
North American.

"President Wilson has in his favor
the patronage, his unimpeachable
honesty, and the sympathy of the
people, who do not wish to see their
country plunged into adventures; but
in return he does not enjoy much po-
litical prestige, in the political mean-
ing of this word, and the republicans
blame him for not having acted with
force in the matter of the Lusitania
and on the Mexican question.

Woman for Vice President.
"More curious still is the candidacy
for the vice presidency of the repub-
lic, which has presented Mrs. Ricker,
an eminent practitioner of the law,
whose degree was obtained at Colby
college after studying the law course,
and who in 1891, was introduced and
admitted to practice before the Col-
lege of Advocates of the supreme
court.

"She is known in Washington by the
sobriquet of 'the friend of the pris-
oners' because of her many visits
to the jails, whose criminal population
over her many and very great im-
provements.

"Mrs. Ricker is 'later electoral' to
the candidate Hughes, of whom, as
has been said, she is a fellow prac-
titioner."

Doyle Secretary of Chamber.
Santa Fe, Oct. 13.—The Santa Fe
Merchants' association today appoint-
ed Earl Doyle, secretary of the cham-
ber of commerce; E. J. Ward and J.
H. Gans, a committee to take charge
of the preparations for the education
convention in Thanksgiving week.

SAY AMERICAN
GOODS MUST PAY
TOLL TO ENTER

London Papers Declare Neu-
tral Produce Must Not Be
Allowed to Compete With
British.

(Associated Press Correspondence.)

London, Sept. 30.—London newspa-
pers are giving increasing attention to
the subject of trade with America af-
ter the war. The Globe declares that
while England does not seek a "trade
war" with any neutral, American
goods which enter into competition
with those produced in Great Britain
must not be allowed to come in with-
out paying tax or toll. The article
says:

"One of the situations that call for
consideration after the war is that of
trade relationships with neutral coun-
tries, especially neutrals who have
been doing well out of the war, and
are thereby enabled to prepare for in-
creased trade when the war is over.
Such countries have been subject to
little or no risk, and their commercial
and industrial prosperity has been,
and continues to be, materially en-
hanced by the necessities of the bel-
ligerents. The most important neu-
tral in this respect is the United
States.

America Profiting Through Supplying
Allies.
"America is profiting remarkably
through supplying ourselves and our
allies with munitions and foodstuffs,
and partly by sending to neutral coun-
tries goods which the combatant pow-
ers at present are unable to supply
them. Being free from all serious
competition, her manufacturers are
making enormous profits, which they
are employing in laying down new
plants and erecting new workshops.
America will thus be in a better po-
sition to compete in the world's mar-
kets at the close of the war than she
has ever been before.

"In order to be able to deal suc-
cessfully with American competition,
we must develop to the full extent the
resources of the British empire. All
the needs of the empire can be sup-
plied from within its own borders,
with abundance to spare for the re-
quirements of other nations. But this
requires imperial organization and a
closer partnership between the mother
country and the dominions. One of
the principal instruments to accom-
plish this is imperial preference, the
admission of the products of the em-
pire into the mother country on better
terms than the products of foreign
countries. The dominions already
give a preference in their markets to
this country and to one another. If
only remains for us to reciprocate
that preference, and in order to cope
with American competition we must
also have a greatly extended tariff.

American Goods Must Pay Toll.
"American goods which enter into
competition with our own productions
must no longer be allowed to enter
our market without paying tax or toll.
We must treat American goods in the
same way as American treats English
goods. Such a policy will not de-
crease the volume of our trade with
America, but it will regulate it and
direct it into more profitable chan-
nels. It will give us a negotiating
power such as we do not at present
possess, which will enable us to ob-
tain better terms of entry into the
American market. Further, it will
enable us to encourage the importa-
tion of such goods as we require
which do not compete with our own,
and to discourage the importation of
goods which can be made equally well
in our own country by British labor.

"The policy indicated with regard
to our dealings with neutrals is purely
defensive. We do not seek a 'trade
war' with any neutrals. Our object is
to free our markets and those of our
allies from German domination, so
that we may trade under fair terms
of competition. We do not propose
anything in the nature of a tariff union
directed against neutral countries.
It is not our policy to exclude neu-
trals from our market, but to attract
them to it, in order that we may pay
for the goods we purchase from them
by goods made in this country.

"But it is also our policy to obtain

more favorable terms of entry for our
goods into neutral countries, and we
can only obtain this by tariff negotia-
tion. The war has taught us the
necessity of coming into line with the
civilized nations in order to pro-
tect our home industries and to raise
additional revenue. No neutral coun-
try, least of all the United States, can
object to our adopting an economic
system which they have proved to be
advantageous, nor can they imagine
that such a policy be dictated by mo-
tives antagonistic to their own trade
and prosperity."

To Investigate U-boat Base Report.
Washington, Oct. 13.—Admiral
Mayo, commanding the Atlantic fleet,
notified the navy department today
that he had ordered a survey of the
New England coast to investigate re-
ports that belligerent ships had es-
tablished a base there or that wire-
less plants were being operated in
violation of American neutrality.

RHEUMATISM GOES
IF HOOD'S IS USED

The genuine old reliable Hood's
Sarsaparilla corrects the acid con-
dition of the blood and builds up the
whole system. It drives out rheuma-
tism because it cleanses the blood.
It has been successfully used for
forty years in many thousands of
cases the world over.
There is no better remedy for skin
and blood diseases, for loss of appe-
tite, rheumatism, stomach and kid-
ney troubles, general debility and all
ills arising from impure, impover-
ished, devitalized blood.
It is unnecessary to suffer. Start
treatment at once. Get a bottle of
Hood's Sarsaparilla from your near-
est druggist. You will be pleased with
the results.

UNCLE SAM'S PHYSICAL OK
The physical test militiamen are put
through by the United States
is severe and exacting. Many a mil-
litan has been returned home, unable
to pass the rigorous examination.
Good Health is Back of Success. Whether you
are a militiaman or a "cit," your career or suc-
cess is based on Good Health. Good Health is
the foundation of all success. It is the basis of
all achievement. It is the key to all success.
If you are afflicted with any blood disorder or
any ailment, buy a bottle of S.S.S. Don't
hesitate. When purchasing, be sure to
look for the genuine. Write at once
for free books on Blood and Skin Diseases.

CARDS SIGNED BY 500 WOMEN SENT TO WILSON

Favor Re-election of President for Having Kept Country Out of War; Colonel Sellers Congratulated.

Col. D. K. B. Sellers, president of the Woodrow Wilson club, yesterday mailed to the president the first consignment of membership cards of the woman's auxiliary of the Wilson club. The cards state that the signers favor the election of the president for having kept the United States out of war.

There were 500 cards in the first package, which Colonel Sellers sent by parcel post. He mailed a letter to President Wilson at the same time, saying that 500 more cards would be sent later.

Colonel Sellers yesterday received a letter from Allen Street, in charge of Woodrow Wilson clubs, congratulating him upon the good club here. Here is the letter:

"Hon. D. K. B. Sellers, President Wilson Club, Albuquerque, N. M.:
"My Dear Mr. Sellers:—Allow me to extend my congratulations upon your good club in Albuquerque. I am sure it is a great club, and with fifteen hundred members can do lots of good work."

"I am having a shipment of literature and lithographs sent to you, and I know you will attend to the distribution of the same. Just such clubs as you have in what is going to assure the re-election of President Wilson."

"Mr. Sellers, write and tell me about some of the doings of your club. I will be interested to learn about it. If you have any suggestions or ideas to offer would appreciate them very much."

"We must do all we can for President Wilson. We owe it to him. He has been the greatest president since Lincoln. He has been true to every trust, true to the hundred million people of this country."

"Very truly yours,
"ALLEN STREET,
"In Charge of Woodrow Wilson Clubs."

NEW MEXICO MEDICAL SOCIETY HOLDS ANNUAL ELECTION OF OFFICERS

The New Mexico Medical society, which has been holding sessions for the past two days, closed its meetings yesterday. The following officers were selected:

President, C. S. Loney, M. D., East Las Vegas; president-elect, J. W. Kingsinger, M. D., Roswell; first vice president, C. A. Frank, M. D., Albuquerque; second vice president, J. H. Crail, M. D., East Las Vegas; third vice president, H. B. Fall, M. D., Roswell; treasurer, F. E. Toll, M. D., Albuquerque; secretary, R. E. McBride, M. D., Las Cruces; council, W. E. Kager, M. D., East Las Vegas; H. A. Miller, M. D., Clovis; G. S. McLandress, M. D., Albuquerque. The next place of meeting will be Las Cruces.

CHANGES MADE IN THE SANTA FE'S SCHEDULE

Changes in the time table for the Rio Grande division of the Santa Fe railway were announced yesterday. The changes affect only two trains, one leaving here for El Paso and one arriving here from El Paso. No. 816, which now arrives at 6:30 p. m., will arrive at 6:25 p. m. No. 815, which now departs at 9:55, will depart at 10:05. The new table will go into effect Sunday.
