# NEW YORK HERALD'S STRAW VOTE SHOWS DRIFT TOWARD DEMOCRATIC VICTORY

## STICKY MUD AND STILL MORE MUD PREDICTED FOR LAST FEW DAYS

Politicians in Santa Fe Looking for Republicans to Try to Make Good Threat Made by Senator Albert B. Fall.

### DEMOCRATS PREPARED TO MEET ONSLAUGHT

Reserve Force of Speakers to Be Rushed Out on Stump at Moment's Notice to Answer Any Attacks.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)  
Santa Fe, Oct. 21.—When, in key-note address for the republican state convention last August, Senator Albert B. Fall harried his hearers and the people of the state generally by the announcement that the grand old party of Lincoln and Grant and McKinley was prepared to conduct a mud-slinging campaign this year and defiantly proclaimed that the leaders of that party were in possession of a brand of mud that was guaranteed to be as effective and vicious, not to say a bit slyer, he aroused the curiosity not only of the politicians of the state but of the common reader as well.

There is a sort of fascination about mud-slinging in the political arena. We may not like to get it on ourselves, but we always stop and look at somebody else who is getting splattered, especially if that someone else is all dressed up in best blue and tuxedo and the mud happens to make a change of linen imperatively necessary to the presentation of a respectable appearance.

And so, when Senator Fall gave us his account of what he called a mud-slinging campaign with the republicans generally set up and took notice. Who was going to be the first to be all dirtied up? When was the performance to begin? Why explicit—why keep in on the tip of expectancy when he might just as well have squirted a little ooze of mud right then just by way of giving us a sample?

**Dull Up to Date.**  
The installation of republican headquarters at Santa Fe of a small but select coterie of experts who have won honorable scars as mud-slingers in past campaigns and who have what reputation of knowing just what variety of mud is best adapted to mess up all having complexions and sartorial effects, together with the most approved method of applying each brand with the maximum of damage to the victim, heightened the expectations of observant citizens and everybody drew a long breath and said, "Well, here it is, sure—it's to be a nice, sticky, oozy, sticky campaign."

Up to date, however, these campaigns have proved rather disappointing. Somehow their aim seems to be having a long breath and said, "Well, here it is, sure—it's to be a nice, sticky, oozy, sticky campaign."

There was mud a plenty in both these letters—mud aimed viciously at Mr. Burkhardt and mud aimed with equal savagery at the publisher of the Journal. But the trouble with this mud was that it didn't get the republican candidates anywhere. Neither Mr. Burkhardt nor the publisher of the Journal was a candidate for any office in this campaign, and folks said, "Shucks—when is the real thing going to start?"

**Show About to Begin.**  
It is being whistled about Santa Fe at present, however, that the two letters to which reference has been made the mud-slingers of the grand old party of Lincoln were merely trying out their little luns to be sure they were working right—that what has gone before is only in the nature of a curtain raiser, and that the real show will open up just a few days before election—too late for the democrats to get in their come-back. The knowing ones, when reminded that so far the performance has been anything but satisfactory, wink wisely and bid you be patient, for, may they, the mud will surely fly before the curtain is rung down on the final scene.

Just what sort of mud this will be and who it will be aimed at are matters that are being kept darkly secret.

### THE WEATHER

**THE WEATHER FORECAST.**  
Forecast New Mexico—Sunday and Monday generally fair, warmer Sunday, cooler northeast portion Monday.

**LOCAL WEATHER REPORT.**  
For twenty-four hours, ending at 8 p. m. yesterday:  
Maximum temperature, 65 degrees; minimum, 24; range, 41; temperature at 6 p. m., 52; southwest wind, clear.

## E. C. DE BACA HAS MADE GOOD

Much attention has been paid during the present campaign to an enumeration of the reasons why the republican candidate for governor should be defeated. Too little attention has been paid to the reasons why the democratic candidate should be elected.

Ezekiel C. de Baca is one of the finest types of American citizens to be found in all New Mexico—a man of ability, of the highest integrity and of the greatest dignity. He has been in public life for many years and not a whisper has ever been uttered against his record as a man or an official. He is truly representative of the best that there is in New Mexico.

As lieutenant-governor Mr. de Baca has been part and parcel of the most progressive administration that New Mexico has ever had. His record as presiding officer of the senate in the face of a brutal and unscrupulous majority in that body hostile to him and to the principles for which he stood was one of conspicuous fairness combined with splendid courage and strength. Through all the turmoil and confusion surrounding the sessions of the two legislatures covering the period of his administration Ezekiel C. de Baca emerged as a big figure in the politics of the state—a man to be trusted and honored and respected.

Mr. de Baca is pledged to continue in force the policies of the McDonald administration which have been of such enormous benefit to New Mexico. He has shown that he is a man whose promise may be relied on implicitly. If he is elected governor there will be no back ward ward in the march of progress in New Mexico.

E. C. de Baca deserves the hearty and unreserved support of every patriotic citizen of New Mexico.

## Count Stuerghk Austrian Premier Is Assassinated

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Vienna, Oct. 21 (via Berlin to London).—The Austrian premier, Count Stuerghk, who was assassinated while at dinner today by Ludwig Adler, a publisher, was shot three times. Count Stuerghk was dining at a hotel when the publisher attacked him. Three shots were fired, all of which took effect, the premier dying instantly.

## CAUSE OF MURDER IS NOT KNOWN IN VIENNA

London, Oct. 21.—Nothing is yet known in Vienna as to the motives for the assassination of Premier Stuerghk, says a Central News dispatch from Amsterdam. Emperor Francis Joseph was informed immediately of the death of the premier and was deeply affected. A special meeting of the government cabinet was held during the afternoon. Special editions were issued in Vienna and Budapest, the dispatch adds, announcing the murder on the streets created "tremendous excitement."

## ASSASSINATION CAUSES COMMENT IN ITALY

Rome, Oct. 21.—The assassination of the Austrian premier, Count Stuerghk, caused a deep impression here, although he was not an Italian enemy. The newspapers comment on the tragedy as a sign of the disintegration of Austria, resulting from the war.

At the Vatican, where Pope Benedict and Cardinal Gasparri, received telegraphic advices, the news caused a profound feeling, as it is thought that the tragedy may have an important bearing on the continuation of the war.

## AUSTRIAN PREMIER IS SHOT THREE TIMES

Paris, Oct. 22.—Premier Stuerghk was shot while dining in the Hotel Meissl and Schaden, in the Karlthorstrasse. Three bullets from Adler's revolver lodged in Count Stuerghk's head, killing him instantly.

That the republican central committee has something up its sleeve that they are proposing to pull at the last minute seems altogether probable—it is so thick with the men in charge of the sides, Senator Fall has promised that we shall have mud, and far be it from a United States senator to promise a thing and then not pull it out.

Democracy Prepared.  
That the democrats are expecting something in the way of a sensational move by their opponents in the last few days of the campaign is evident from the preparations that they are making. They have no idea what form the attack will take, but they form the attack will be something in the nature of the two letters already gotten out by the republicans, which have been remarkable chiefly for their forthright imagination shown in their undiscovered author—for it is general conceded that the men who were named were aimed to them had nothing to do with their composition—and they are preparing to meet whatever eleventh hour assaults may be made on that assumption.

Speakers—a special battalion of them—are being kept on hand at convenient points throughout the state, ready at a moment's notice to proceed to the point where the mud is being slung and answer the attacks. Scouts and outriders are to report at the earliest moment what mud is to be thrown, who it is to be thrown at and in what special parts of the state it is to be thrown. And the most unfortunate part of the matter, from the standpoint of the mud-slingers, is that the mud already slung has combined the minimum of truth with the maximum of malice and has impaired the adhesiveness of any mud that may be slung in future.

Anyhow, Senator Fall promised no mud, and mud is what all of us, republicans as well as democrats, are expecting. In fact we won't be happy till we get it.

**Tug Disabled in Storm.**  
Detroit, Oct. 21.—Manned only by its aged captain and two members of its crew, the tug Shaun Rhue, of Detroit, was brought safely to Pelee Island, Ontario, this forenoon. The vessel was disabled in a storm when a tug on Lake Erie last night. When a tug came to the rescue early today it was claimed that five members of the Shaun Rhue's crew left their ship and were taken aboard the rescuing tug. Capt. Robert Malnes, 75 years of age, refused to leave his tug and with his engineer and cook brought his boat to port.

## UNION LABORERS URGED TO VOTE AND WORK FOR THE PRESIDENT

Official Appeal Is Made to All Organizations to Hold Meetings and Render Effective Assistance.

## WORKINGMAN'S RIGHTS ARE NOW RECOGNIZED

Woodrow Wilson Is Credited With Maintaining Rights of Nation and Keeping Country at Peace.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Washington, Oct. 21.—Organized labor's first official appeal to its membership in behalf of President Wilson's re-election, was made public today at the American Federation of Labor headquarters. It is in the form of a circular to all officers of organized labor, calling on them to hold special meetings, if necessary, to consider all the protection and to see to it that wage earners go to the polls to protect their interests against "Wall street."

The letter is signed by Samuel Gompers, president; James Connolly, vice president; and Frank Morrison, secretary, as the federal labor movement's committee. It has been sent to the heads of all affiliated organizations. In reviewing the record of the administration, it praises the president's course in foreign affairs, declaring that without war, he has cured all the protection and to see to it that wage earners go to the polls to protect their interests against "Wall street."

## The Appeal to Labor.

"Greeting: Never at any time within the last fifty years have the workers had more at stake in any political campaign than in the one that is to be decided in the election November 6.

"During the present administration, and particularly in this campaign, there has been delivered a clear-cut issue between the workers—between the workers and the exploiters. The issue is represented in the campaign by the conflicting interests represented by labor and Wall street. During the present administration, the workers have been given an important place in considering all problems that concern the nation. Legislation has been enacted to protect the interests of wage earners and in the ideals of humanitarianism, both at home and in our relations with other nations."

Wilson prevents War.  
"Though half of the world has been involved in a terrific conflict and it seemed at times as though our nation must be drawn into the vortex of human slaughter, yet the chief executive of our land has been able to manage the affairs of our nation so that without the horrors of war, he has established and maintained protection of human life and human rights in the somewhat vague domain of international law. Without involving this nation in war, he has secured for all of the protection and all of the benefits that would have accrued from a successful international war and by diplomatic correspondence, has achieved the victory of embodying concepts of humanity in international activity, insofar as America is concerned."

## CANADIAN PACIFIC MEN THREATEN TO STRIKE

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
Winnipeg, Manitoba, Oct. 21.—Officials of the Canadian Pacific railway and representatives of the conductors and trainmen, who threaten to strike next Wednesday unless certain concessions in the way of working hours and wages are made, today marked time while Hon. T. W. Crothers, minister of labor, considered the railroad request for the appointment of a board of conciliation to investigate the dispute.

Brotherhood leaders do not favor the appointment of a board, pointing out that the points now at issue were reviewed by a board in 1914 and that the majority decision was adverse to the trainmen's claims. Resumption of negotiations there is unlikely. Ottawa dispatches today quoted Mr. Crothers as saying:

"We are still in communication with both parties and are not without hopes of a satisfactory settlement which will avert a strike."

**Spiritualists 1917 Meet in Chicago.**  
St. Paul, Minn., Oct. 21.—Chicago was chosen as the 1917 meeting place of the National Spiritualists' association, which closed its annual gathering here today. Resolutions adopted include an endorsement of criminal and urged abolition of capital punishment.

## BRITISH AGAIN SCARE HEAVILY AGAINST TEUTONS ON SOMME FRONT

Attacking Along Forty-mile Front, Troops of the Central Powers Force Their Way Through Allied Line.

## SEVERAL THOUSAND TAKEN PRISONER

On Somme Front in France Very Little Change Is Made Though Violent Encounters Have Taken Place.

(BY MORNING JOURNAL SPECIAL LEASED WIRE)  
The Germans also attacked strongly the British positions at St. Eloi, on the Somme front, after checking an offensive by the forces of Crown Prince Rupprecht of Bavaria, attacked Saturday and pushed forward from 300 to 500 yards on a front of 5,000 yards. The advance was made between Le Bars and the Schwaben redoubt, which was the scene of the earlier attack by the Germans. General Haig's men captured the St. Eloi and Regina trenches, advanced posts north and northeast of the Schwaben redoubt, and several hundred prisoners.

The Germans also attacked strongly the British positions at St. Eloi, on the Somme front, after checking an offensive by the forces of Crown Prince Rupprecht of Bavaria, attacked Saturday and pushed forward from 300 to 500 yards on a front of 5,000 yards. The advance was made between Le Bars and the Schwaben redoubt, which was the scene of the earlier attack by the Germans. General Haig's men captured the St. Eloi and Regina trenches, advanced posts north and northeast of the Schwaben redoubt, and several hundred prisoners.

## Striking the Russian and Rumanian Line in Dobruja, Field Marshal von Mackensen has renewed successfully his offensive toward the Constanta-Tebrana railway.

Along the forty-mile front, the forces of the central powers have made good progress almost everywhere. On the Danube, troops of the central powers have forced their way into the entente positions south of Ialova. Along the Black sea, on the other end of the line, the forces of the central powers have forced their way into the entente positions south of Ialova. Along the Black sea, on the other end of the line, the forces of the central powers have forced their way into the entente positions south of Ialova.

## Serbs Are Advancing.

In southern Serbia, the Serbs continue to advance. The Serbs now are four miles north of Kragujevac, and are continuing along the Transylvania-Rumanian border with successes for both the Rumanians and Teutons. The Rumanians have taken several important positions along the front in addition to more than 600 prisoners and several hundred prisoners. The Serbs have captured the town of Kragujevac, and are continuing along the Transylvania-Rumanian border with successes for both the Rumanians and Teutons.

## Count Karl Stuerghk, premier of Austria, has been shot and killed.

The shooting is reported to have been the act of a Vienna newspaper editor. A German cruiser of the Kolberg class was torpedoed by a British submarine in the North sea last Thursday. The cruiser remained afloat, although apparently severely damaged.

## GREEK EMBASSIES TO VISIT AMERICA

Salonika, Oct. 20 (12:30 noon, via London, Oct. 21).—Monsieur Cafandaris and Aristomir will be sent to the United States shortly to recruit Greek and American volunteers for the national army of defense, now being raised by the followers of former Premier Venizelos.

## BRITISH LINES ARE PUSHED SHARPLY FORWARD

London, Oct. 22.—Advancing on a line of 5,000 yards between the Schwaben redoubt and Le Bars, on the Somme front in France, British troops have pushed their line forward from 300 to 500 yards, says the official statement issued last night from the general headquarters in France. The British captured St. Eloi and Regina trenches, and took several hundred prisoners.

## ITALIANS WIN POST IN VIOLENT SNOWSTORM

Rome, Oct. 21 (via London).—A strong Austrian position in the Bolzano valley in the Dolomites region, has been captured by Italian Alpine troops at the point of the laxest, during a violent snowstorm, the war office announced today. Snow and fog have hindered operations in the Tyrol region, notwithstanding which the Italians made some progress. The official statement reads:

"On Mount Pashole, the operations were hindered by snow and fog. We made some progress, however, in the Bolzano region, taking thirty-two prisoners of the knickerbocker troops, including one officer."

## RACE FOR PRESIDENCY NOW PRACTICALLY NECK AND NECK; HUGHES IS WEAKER THAN REPUBLICAN PARTY

### WILSON MUCH STRONGER THAN POLITICAL ORGANIZATION WHICH NOMINATED HIM

Labor Vote Is Almost Solidly for President, While Business Interests Are Unit Against His Re-election; Great Middle Class Likely to Decide Contest; States Heretofore Regarded as Normally for G. O. P. Are Now in Doubtful Column; Swing of Progressive Vote Varies, Being in Some States as Much as Eighty-two per Cent While in Others It Is Near the Danger Line; G. O. P. Leaders Claim High Tide of Democracy Has Been Reached and Will Recede Until Election Day.

(Special Dispatch. Copyright 1916, New York Herald. All Rights Reserved.)

New York, Oct. 21.—The fifth installment of the New York Herald's political poll shows that the drift is towards President Wilson in a practically tied race.

Mr. Hughes' plurality is 3,727 out of a grand total of 146,064 straw votes taken by the New York Herald in thirty-six states. The Herald's introduction follows:

With election day just fifteen days off, the presidential tide is drifting toward President Wilson.

Mr. Hughes has made slight gains in states which are normally republican, but which are this year in doubt.

The president has made gains in states which are ordinarily republican but which this year are not only in doubt but are likely to decide the election.

The states in which Mr. Hughes, in the Herald's straw votes, has made gains are New York (upstate), Connecticut, Massachusetts, Montana, Idaho, South Dakota and New Jersey.

The states where the president has made gains are Illinois, Indiana, Maryland, Michigan, Minnesota, Nebraska, Ohio, Washington, West Virginia, and Wisconsin.

As was first noted in the Herald on September 24, it is a neck-and-neck race for the presidency. Mr. Hughes has had the lead because of the normal strength of the republican party and the amputation of the progressive vote by the republicans.

But he has been losing. He is much weaker than his party. President Wilson has been gaining. He is much stronger than his party. The two are now practically tied for the lead.

Using as a basis the old-time strength of the republican party and the comparative vote of Messrs. Taft and Roosevelt with that of Mr. Wilson, it was necessary at the outset of the campaign for the democrats to make huge gains to give them what would approximate an even start with the republican vote.

But they have, from all that appears in the straw vote, made these gains and are now on what amounts to an even footing with the republicans.

**What Straw Vote Shows.**  
Out of a total of 146,064 straw votes taken in thirty-six states, Mr. Hughes has a plurality of 3,727. Last week out of a total of 167,464 he has a plurality of 4,926.

In this grand total, however, there are incorporated 18,896 votes from California.

This is out of proportion to the rest of the country. California is, from all indications now discernible, the one republican stronghold which is holding true to its standard.

Therefore, it would be hardly a fair computation to include so large a group of votes from there, any more than it would to include the same number from a state like Tennessee or North Carolina, which is just as strongly democratic.

If the vote of California were cut down to include an average of two-thirds, which would make it commensurate with the rest of the states, the closeness of the contest, as revealed by the total straw vote, would be more apparent.

For instance, if just one-third of the 18,896 votes were omitted, the total tabulation would show a majority of 355 for the president.

Inasmuch as a very large proportion of the test ballots are necessarily gathered in what are presumably republican states, it is only fair that attention should be called to the California situation.

Never in the memory of politicians of today has there been a contest which approached the present one for closeness.

It is like a yacht race where an extra puff of wind, or a sophist, on the closing reach, may drive one across the finish line first.

**Labor Vote for President.**  
Labor is overwhelmingly for the president. Business is almost a unit for the republicans. The great middle class—small merchants, clerks, brick workers generally—is divided, and it is next to impossible to ascertain how it stands.

The indications obtained in the

# "The Hemco"

The HEMCO CHAIR has really solved the principal of comfort in a reclining chair. It possesses the happy faculty of pleasing all kinds of people. It has an angle for every mood and a tilt for every temper.

HEMCO CHAIRS are automatic and so adjust themselves to every occupant, and rest you automatically better than you could with the old rod adjustment.

confined to no particular region.  
The division of the progressive vote varies very substantially.

**What Percentages Show.**  
In Illinois the republicans are getting 82 per cent of it. In South Dakota they are getting 74 per cent. In other states which it is important for the republicans to carry the percentage is close to the danger line.

For instance, in Washington, it is 68 per cent; in Wisconsin, 67 per cent; in Minnesota, 67 per cent; in Montana, 66 per cent and in Rhode Island 66 per cent.

In no sense lining up the state, but to show what might take place if the states go as the present straw vote swings them, the Herald has separated those which lean to the president and those which favor Mr. Hughes. In the straw vote (which is not as yet as representative as the Herald expects finally to have it) the president has more than 50 per cent in Arizona, Colorado, Connecticut, Idaho, Kentucky, Maryland, Minnesota, Ohio, Oklahoma, Tennessee, Washington, West Virginia and Wisconsin, with a total electoral vote of 127.

To this should be added the electoral vote of Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas and Arkansas. These have 114 electoral votes.

**Close to Winning Point.**  
This would make 241 for the president, or within twenty-five of enough to elect him.

The required figure is 266. Mr. Hughes has received more than 50 per cent of the straw vote in California, Delaware, Indiana, Iowa, Kansas, Maine, Missouri, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Dakota, Oregon, Rhode Island, South Dakota, Vermont and Wyoming.

These states have an aggregate electoral vote of 179. To that number should be added thirty-eight from Pennsylvania, and four from Utah, making 221 for Hughes.

It is very apparent from the re-

ports which come to the Herald from its reporters whose inquiries are supplemented to the straw vote canvases, that the conditions just now are in a most chaotic state. The country has been "shot through" with oratory and from all that can be ascertained the fluency of voters, or a good percentage of them, are doing much thinking. The Herald is continuing with increased forces, its straw vote wherever there is a likelihood of a change, and if an eleventh-hour shift comes, it is not likely that it will escape the Herald's system.

**Managers Confirmed.**  
The campaign managers are confessedly "up in the air" and the Herald straw vote is throwing the only light to be had on the unusual situation. The party canvases are proving valueless because of the new influx of voters in the campaign and because so many voters are switching from party to party or refusing to tell how they intend to cast their ballots. The Herald's votes have been and are gathered from persons who say their minds have been made up and will not change and who assure the Herald that they truthfully reported themselves. A halfhearted canvasser separates the two enemies in some important states and it will not be possible or safe to make a definite prediction until all the test states have been tabulated and analyzed.

**Where Socialists Figure.**  
States in which neither has received more than 50 per cent (Herald's figures are Illinois, with 29 votes, Massachusetts 18, Michigan 15, Montana 4, and Nevada 3.

There are states in each of the foregoing columns in which the opinion of most political observers should be placed elsewhere. It may be that they will be in the Herald's final report.

It would seem reasonably safe from all that can be learned that Massachusetts and Michigan should be given to Mr. Hughes.

**Nearly Together.**  
It would appear that the president has perhaps a slightly better chance than the republicans to carry Nevada and Montana.

By adding those states to the Wilson column the Wilson vote is 247. Illinois then remains to be considered. The republicans are behind in the straw vote. The state is supposed to be republican. In truth, it is in doubt.

The women are inclined to favor

the president and there are more than 250,000 women voters in Illinois.

In the lists of both Wilson and Hughes states there are some which until the straw vote is finished must remain in a doubtful condition. They are Connecticut, Maryland, Ohio and

Washington, which are now giving more than 50 per cent of the test votes to the president, and Indiana, Missouri, Nebraska, New Jersey, New York and Wyoming, which are in the Hughes 50 per cent column.

In other words the states which in the old party line-up could be definitely placed long before election, are now uncertain quantities.

**Ohio Completely Switches.**  
Ohio last week showed in the straw vote a preference for the republican nominee.

This week it has completely switched front. From a small majority for Mr. Hughes it has changed to give a majority of 654 for the president.

Votes taken since the Herald's tables were closed very materially increased the president's lead.

It is now about 1,200 in a total vote for the state of 15,000. The industrial centers in Ohio are overwhelmingly for the president on the eight-hour issue. This is particularly true of Cleveland and Toledo.

**Farmers Apathetic.**  
The farmers of the state are apathetic. As it is interpreted by the politicians who had won for the republicans, but it is stated by the republicans that Ohio has looked that way before until the eve of election and then turned around and rolled up a huge republican vote in plurality.

**VILLA'S TROOPS FAIL TO FIND AMMUNITION**

El Paso, Tex., Oct. 21.—Villa's troops failed to find the arms and ammunition which had been hidden in a cache at Canyon del Royal, near Namiqah, a message from Chihuahua City, which was received by Acting Carranza Consul Eduardo Serano today.

Villa is said to have sent a force of men to the Namiqah district to recover the ammunition and arms which had been hidden there when Villa was being pursued by the American expeditionary forces. As the American troops had previously located and seized the arms and ammunition, Villa's men were forced to return to San Antonio without them. Carranza officials claim Villa's ammunition supply is limited.

**UNION LABORERS URGED TO VOTE AND WORK FOR THE PRESIDENT**

(Continued From Page One.)

act, the seamen's law and the child labor law, the latter added: "It is impossible to give the full list of remedial and protective legislation that carries its beneficial influences into the homes of millions of Americans' workers. We can only refer to that change in the spirit of the nation that is of more consequence than statutory enactment, with broader appreciation of the rights of humanity and the value of the human relationship, necessary in the re-organization which is the basis for industry and commerce."

"On November 7, election day, a decision will be made which will determine the future development of our country and the welfare of our national life for years to come."

**Should Hold Meetings.**  
"As representatives of the organized labor movement, which is the militant protective organization of all the workers, we urge that you hold meetings for the purpose of electing a national committee for the purpose of holding a regular or special meeting held by your representative."

"The meeting should be a general one, and if possible, held in the evening for the purpose of seeing that those who have so much at stake should go to the polls to protect their interests."

"There is no doubt that the interests of Wall street and their satellites are for the purpose of continuing their activity to retain the special privileges and power that they have secretly and corruptly stolen from the people."

"While property must be protected and represented, man, woman and child—human beings—must be the first consideration."

"We urge you not to lose their rights and opportunities through negligence and inaction."

**Investigate Importation of 42 Chinese Sailors**

Washington, Oct. 21.—Investigation of the charges that the alien and immigration department had imported and importation of forty-two Chinese to man the American steamer Venezuela is a violation of the contract labor law, was ordered today by Commissioner General Cammett of the immigration bureau. The charge was made by Paul J. Morgan, secretary of the California State Federation of Labor. Because details were lacking, Commissioner Cammett ordered the matter looked into by the immigration commissioner at San Francisco.

The Venezuela is owned by the Pacific Mail Steamship company.

**FOUR U. S. SOLDIERS ARRESTED IN MEXICO**

El Paso, Tex., Oct. 21.—A report was received by army officers here today that four American soldiers were under arrest on the Mexican side of the border near Juarez.

Gen. Francisco Gonzalez, commanding the Mexican troops in the north, has been asked to make an investigation of the report. It is believed that the men crossed the international boundary at some point below Juarez and are being held by the Carranza river guards.

**AMERICANS PENETRATED SOUTH OF EL VALLE**

Columbus, N. M., Oct. 21.—Scouting parties from the American punitive expedition have penetrated south of El Valle, but for protective purposes only. It is authoritatively stated here. There have been no other troop movements and therefore the expedition remains on its former lines.

**Panama Strike Virtually Over.**

Panama, Oct. 21.—The strike of the negro workers of the Panama canal zone, which began two weeks ago, is virtually over. An attempt to revive the strike in Colon disclosed that only 1 per cent of the workers was dissatisfied.

**British Have a U-boat Too.**

London, Oct. 21.—A German light cruiser has been torpedoed by a British submarine. The cruiser remained afloat although she apparently suffered considerable damage.

## CARRANZA GIVES DRASTIC ORDER AGAINST BANDIT

Preamble of Decree Issued by First Chief Is Read With Interest by American Commissioners.

ATLANTA, N. J., Oct. 21.—General Carranza's decree of October 8, suspending constitutional guarantees throughout Mexico, as translated and issued by the American representatives of the Mexican joint commission today, provides that for nearly all offenses not covered by the civil code, summary punishment may be inflicted by the military authorities. Interference with railway traffic, robbery, extortion, and assault in its various forms are characterized as crimes punishable by death, without the formality of trial, when the evidence is apparent. In no case has the accused the right to appeal.

The preamble of the decree, which sets forth the reasons for the suspension of guarantees, and which was of special interest to the American commissioners, follows:

**Preamble to Decree.**  
"Whereas, brigandage, has been developing in the country as an inevitable consequence of public upheavals which have taken place during recent years, produced by the struggle which it was necessary to carry out, first, to overthrow the usurper and has usurped the power of the republic; and, later, to suppress the insubordination of the division of the north and to exterminate the horde, which has invaded the state of Morelos."

**No Excuse Exists.**  
"Whereas, the armed bands which still remain in various parts of the republic, remnants of civil war, no longer have any political significance, standard or pretext which can justify them in their looting expeditions and raids, since it is the sole purpose of such bands to attack villages and hamlets, to rob the innocent, to commit acts of kidnapping, or to shoot up, attack, or dynamite moving trains for the purpose of robbing the cars, or burning bridges, stations, warehouses, and so forth, and to tear up the tracks and destroy the telegraph and telephone lines of federal companies and corporations."

**Interference With Trains.**  
"Whereas, railroad traffic is hindered in this way on many occasions, or is rendered uncertain since, although the government takes the greatest care to protect the running of trains and to give all possible protection to the passengers, it is unable to avoid these criminalities because of the large number of railway lines and the facility with which the malefactors elude the repressive action of the authorities, as much because of the great extent of the national territory as because of the broken character of the country, especially in the mountainous regions of the north."

**Producers Anarchy.**  
"Whereas, brigandage in all its manifestations has brought anarchy in the country districts, forcing the inhabitants of haciendas, ranches, hamlets, and other small communities, to leave them and seek safety in the regular centers of population, which is notably injurious to agriculture and commerce and other sources of national wealth, and since the consequences of the civil war have been discussing have appeared recently, even in the principal cities, for even in the capital itself persons who were working in the streets have been attacked at night, suburban trains have been held up, and the passengers robbed, burglaries accompanied by violence have been of frequent occurrence in private residences; all of which has greatly alarmed the people so that it is an urgent necessity that such a serious state of affairs be put an end to by an extraordinary measure which may be efficacious in this instance and which, in fact, had excellent results in analogous circumstances in other periods of the nation's history, as was the case after the three-year war in the time of President Benito Juarez."

**Death Penalty Customary.**  
"Whereas, measures of this kind always have consisted in the application of the death penalty to all offenders taken in 'flagrant delicto,' or whose guilt is sufficiently proven."

"Whereas, the extraordinary provisions of this law are also applicable to accomplices and accessories after the fact, as well as to not-purses, pickpockets and petty thieves in general, and further establishes the obligation under severe penalties of a great number of people to report these acts to the authorities."

"Whereas, in order that the measures embodied in this law may be efficacious, it is indispensable that they be applied promptly by the judicial authority in the place in which the crime is committed, upon occasion even without the form or semblance of a trial, when the offenders are taken in 'flagrant delicto,' or after a most summary investigation, which is not the case."

"Whereas, by these measures I, the first chief, hope soon to re-establish peace and give protection to the lives, honor and property of the inhabitants, again giving birth to safety, confidence and work."

Therefore, I have seen fit to issue this decree."

**MEDIATORS INTERVENE IN N. Y. CAR STRIKE**

New York, Oct. 21.—Federal mediators have intervened in an effort to settle the strike of motormen and conductors who were employed on New York's transit lines, according to an announcement made today by William B. Fitzgerald, general organizer of the employees union.

The mediators, Robert McQuade, John A. Moffitt and James A. Smyth, of the staff of Secretary of Labor Wilson, declined to discuss the subject, or to admit that they were trying to arrange a settlement.

**Confiscation Neutral Mail.**

Berlin, Oct. 21.—Wireless to Sayville.—The British authorities confiscated all the mail on the Norwegian steamer Kristianfjord, bound from New York to Bergen, the Overseas News agency announces.

## MR. HUGHES WON'T SAY A WORD ON LIQUOR TRAFFIC

J. Frank Hanly Declares the Republican Nominee Would Not Mention It for a Seat in Heaven.

BUFFALO, N. Y., Oct. 21.—Here in Charles E. Hughes' home state J. Frank Hanly, the prohibition candidate for presidency, charged today that the republican presidential nominee has been rendered "dumb" by the liquor traffic.

"Hughes would not say a word on this traffic for a seat in Heaven," the former Indiana governor shouted, in his first New York speech at Westfield. "He would rather take a chance on winning the presidency than do that."

"In his long west tour recently he said nothing about the liquor traffic. Was this done inadvertently? No. In state after state where men and women are engaged in a death struggle with the liquor traffic, he was not perturbed to speak, but he would not do it. His answer invariably was that he had nothing to say on that issue."

"And because of this attitude it will befall Mr. Hughes to say there is no justifiable government in connection with the liquor traffic, because he proposes to acquiesce in this traffic, which fathers invisible government."

Mr. Hanly told New Yorkers that he doubted if this state ever would go dry by its own act.

"As long as you have old Manhattan at the other end it probably will not go dry," he said, "but you won't be alone. The other states probably will have to dry up. Pennsylvania, New Jersey and several others along with you."

**HENSON REPLIES TO ROOSEVELT**

Phoenix, Ariz., Oct. 21.—Allan L. Benson, socialist presidential candidate, and George H. Gobel, addressed a large meeting in this city tonight. Mr. Benson replied to the speech of Theodore Roosevelt this afternoon on the Mexican situation, saying that he agreed with Mr. Roosevelt after the slaughter of Americans in Mexico, but he grieved more at the slaughter of Americans under the economic conditions in this country for which Roosevelt, Hughes and Wilson stand.

Benson attacked the military policy of the country, especially the Hay-Chamberlain law, to which he referred as the draft law.

Gobel touched upon local politics, saying that he approved of the measures for which Governor Hunt, candidate for re-election, stands but disapproved of the conservative efforts within the republican party, for, he said, "we have it on scriptural authority that you cannot put new wine into old bottles."

**FAIRBANKS LAMBASTS DEMOCRATIC TARIFF**

FAIRBANKS, Oct. 21.—Charles W. Fairbanks, republican nominee for the vice presidency, attacked the democratic tariff policy today, declaring that it created an American army of unemployed before the European war, equal in size to the army mobilized by the British empire for the war.

"It is vastly greater than a mere question of dollars and cents," said Mr. Fairbanks. "The question is whether our civilization can endure the strain of a readjustment under the unrestricted competition to that basis of employment in farm and factory which prevailed in Europe, the orient, and in South America before the war and which will prevail on a more keenly competitive and, therefore, lower level, when the war is over."

**Take Subscriptions for Armenians.**

New York, Oct. 21.—Subscriptions and collections will be taken throughout the United States today and tomorrow for the relief of destitute and starving Armenian and Syrian subjects of the Turkish empire, in accordance with a proclamation issued by President Wilson. An appeal has been issued to the 17,000 Sunday school children of America to contribute.

**Hughes' Remaining Tours.**

New York, Oct. 21.—Charles E. Hughes' remaining campaign tours will include trips through New England, New York state, Ohio and Indiana, winding up here with speeches at Madison Square Garden, November 4. He will resume his speech-making here Tuesday, October 24. Mr. Hughes spent today resting in Montclair, N. J.

**Wants to Make Troops Comfortable.**

San Antonio, Tex., Oct. 21.—Major Arthur Murray, retired, representative of the American Red cross, has reached San Antonio to begin an inspection of border forces with a view to ascertaining if the organization can do anything to make the men more comfortable in camp.

### FIGHT WITH VILLISTAS OCCURRED AT PALOMAS

El Paso, Oct. 21.—The fight between the volunteer troops of the expedition under General O'Leary and Villa's main band did not take place between Santa Ysabel and San Andres, as previously reported, but at Palomas, which is fifteen miles east from Santa Ysabel, according to Mexican official accounts today. While the government troops claim a victory, it was officially stated two days ago that General O'Leary left the conventional line of Santa Ysabel in the direction of San Andres, about thirteen miles to the north. In a direct line, San Andres is about twenty-five miles from Chihuahua, while Palomas is only six miles.

No details of the fight have been received here and the death in action of the bandit leader, Martin Lopez, is still unconfirmed.

**CLOSE-YELLOWSTONE**

**FORT AS ARMY POST**

Lander, Wyo., Oct. 12.—Fort Yellowstone, post of the troops who heretofore have guarded and policed Yellowstone National park, was closed as a military post yesterday and the 22nd military division there were ordered to the border. Thirty national park rangers will take the place of the troops.

The change is said to be part of the policy of the national park bureau, which will employ only civil processes to police the park, instead of the military power which has been used since the park was founded.

### Terrible Croup Attack Quickly Repulsed By Old Reliable Remedy

Well known Georgia store keeper has suffered croup and colds for his family of ten with Foley's Honey and Tar Compound.

"The minute that hoarse, terrifying croupy cough is heard in the home of T. J. Barber, of Jefferson, Ga., comes Foley's Honey and Tar Compound—there's always a bottle ready. Here's what he says: 'Two of my children, one boy and a girl, and eight and six years respectively, had terrible attacks of croup last winter and I completely cured them with Foley's Honey and Tar Compound. I have ten in family and for years I used Foley's Honey and Tar Compound and it never failed.'"

"I can't say enough for it. It's a real remedy for croup, whooping cough, colds, and all the ailments of the throat and lungs. One bottle lasts a long time—it's reliable safe—and the last dose is as good as the first. Get the genuine."

Harsh Language Features Tirade Indulged in Toward Administration by Warlike Colonel.

The Roosevelt special will leave for Albuquerque, N. M., at 7:45 tomorrow morning.

**Officially Set Forth.**

Remember always that their in-  
terests that have been committed in favor  
of Mexico have been committed in favor  
of the President Wilson. President Wilson  
has been elected President of the United  
States on June 20. In the course of his  
efforts to shield Carranza, denounce  
the truthful statement of the hideous  
conditions in Mexico as being a  
"lie in falsehood" designed to "ruin"  
the "country" of Carranza, and "our  
government," and Carranza's in the inter-  
ests of certain owners of Mexican  
properties." He made these delib-  
erate charges on March 20 last. Sen-  
ator Fall promptly challenged Presi-  
dent Wilson to name the alleged  
conspirators, and also challenged him  
to make public the documents in  
his possession. As always, when  
challenged fearlessly, President Wil-  
son promptly flinched. He has de-  
clared to publish the documents  
of the state department, and by failing  
to publish the names of these al-  
leged conspirators, thus, these al-  
leged conspirators have admitted that  
the statement was without foundation  
fact. But this is not all. His note  
June 26 is the fullest and most com-  
plete admission of all that has been  
charged and all that has been  
or palliated. The note therein  
states Carranza is "complete and ir-  
revocable condemnation of his own  
policy towards Mexico and towards Car-  
ranza."

This authoritative statement is  
by Mr. Wilson through his secre-  
tary of state sets forth the  
years there have been contin-  
ual anarchy and disorder in Mex-  
ico that Americans have been barbar-

**Notice Explicit.** Mr. Wilson's notice was explicit and emphatic. If he had meant to say so, and if he had intended to encourage a policy of the restoration of such a democratic pro-American as Andrew Jackson, he would have lived up to this notice. He would have acted at once against such a leader, whether Huerta, Villa or Carranza, or anyone else who permitted injury to American life, property or who failed to prevent it, and, necessarily, he would have sent some such man as General Leonard Wood into the country to behave precisely as we behaved in Cuba, to rehabilitate Mexico and to restore her to the people just as we did in the case of Cuba, when order and civilization again obtained. This President Wilson did not do. This President Wilson stood idle while hundreds of American lives were murdered. He has protected American lives and American property. All that he has done has been from time to time to force bandit leader against bandit leader. The Times publishes the proof of this. There are 200 American refugees in Mexico, whose lives were threatened by the Mexican revolutionaries. American gunboats were in the harbor to protect them. But President Wilson was not concerned with their protection. He was concerned with helping Carranza's friend, Huerta, and antagonizing Villa's foe, Huerta, by furnishing Villa with arms, which Villa used for the slaughter of Americans. We have it on the authority of Mr. Wilson's friends, champion, Senator Lewis, of Illinois, that Mr. Wilson actually intended to recognize Villa, the murderer, robber, and robber, as president, but

## Deafness Cannot Be Cured

By local applications, as they cannot reach diseased portion of the ear. There is only one way to cure deafness, and that is by the restoration of the mucous lining of the Eustachian Tube. When this tube is inflamed, it swells and shuts itself closed. Deafness is the result, unless the inflammation can be removed. This tube cannot be destroyed forever, since new ones are constantly being formed. The mucous lining of the tube is continually exposed to the mucus of the throat, which is continually passing down the throat. If deafness is caused by catarrh of the Eustachian Tube, it is easily cured by the use of the "Eustachian Cure," sold by Hall's Catarrh Cure. Send for literature.

## LAST OF FRONT PORCH SPEECHES ON NOVEMBER 4

Democratic Managers Claim President Wilson Will Carry New York State, but Not by Large Plurality.

(BY MORNING JOURNAL SPECIAL LEADER WIRE.) New York, Oct. 21.—President Wilson will make his last speech of the campaign at his summer residence, Shadow Lawn, Long Branch, N. J., on Saturday, November 4. It was announced at democratic national headquarters tonight. It will be "old home day," devoted entirely to New Jersey friends and neighbors of the president.

Vance C. McCormick, chairman of the democratic national committee, expects now to remain in New York until election day, he announced, to be "in the midst of the final drive for victory."

Edwin N. Harris, chairman of the democratic state committee, in a statement tonight, declared figures based on "returns which are rock-bottom," insure New York to the democrats. Governor Whitman, he said, "who is stronger than Charles E. Hughes up the state," will hardly receive a plurality up-state of more than 75,000, whereas it is expected President Wilson and Samuel Seabury, the democratic candidate for governor, will have at least 100,000 plurality in Greater New York.

Arrangements were completed tonight, it was announced, for a "whirlwind" campaign of New York state by the Young Men's Democratic League. Speakers will leave here Wednesday on an automobile tour that will take them through sixty-two counties. They will appear especially to young men voters to support the democratic ticket, it was said.

## FIVE STEAMERS SUNK; EIGHT LIVES LOST

(BY MORNING JOURNAL SPECIAL LEADER WIRE.) London, Oct. 21.—The sinking of five steamships, two British and three of neutral nationality, with the loss of at least eight lives, is announced by Lloyd's. The British steamships sunk were the *Humbly Grove*, of Newcastle, and the *Marine*, of Glasgow. The crews of both steamships are reported to have been landed.

The neutral steamships sunk are the *Athena* and *Haidar*, of Norwegian registry, and the Swedish steamer *Afrid*. Eight members of the crew of the *Afrid* were lost and the remainder were saved.

## COMMISSION WATCHES NEW MEXICO'S INTERESTS

(BY MORNING JOURNAL SPECIAL LEADER WIRE.) Denver, Oct. 21.—The state corporation commission of New Mexico filed today with the interstate commerce commission a petition for intervention in the hearing of the Colorado Fair Rates association, whenever the hearing is held, according to word received here. The counsel asked that in the event rates are proposed which might jeopardize interests in New Mexico, it be given a chance to be heard. The fair rates association recently filed with the interstate commerce commission a petition asking for reclassification of all railroad rates in western states.

## COMMERCE COMM. REPORTS ON CAR FAMINE IN NEBR.

Say Railroads Are Doing Best to Supply Satisfactory Transportation, but Demand Makes It Impossible.

(BY MORNING JOURNAL SPECIAL LEADER WIRE.) Washington, Oct. 21.—The interstate commerce commission today made public a report of its inspectors of a car famine in Nebraska, saying that the railroads are furnishing all the cars they can supply to meet an enormous demand, but that it is impossible for them to furnish satisfactory transportation under the circumstances.

The report says that the only way to prevent repetition of the shortage is to provide a considerable amount of new locomotives and car equipment, and to increase the size and capacity of railroad and elevator terminal facilities by several hundred per cent. The hearings will be conducted by Henry Thurtell, an examiner and attorney of the commission. The case, one of the most notable in the commission's docket, has involved in its various angles many decisions in the past years and grows out of the old so-called *Shokone* case. The main issue involved is the long and short haul provision of the interstate commerce law. Traffic in both directions between the two points affected, including most commodities but not the traffic in citrus fruits, which moves under blanket rate arrangement.

The commission's decision directs that the fourth section applications for exemption from the long and short haul clause requirements, respecting rates on commodities from eastern territories to Pacific coast terminal and immediate points respecting rates on barley, beans, canned goods, dried fruits and wine from California ports by rail and water through the Gulf of Mexico to Atlantic seaboard points, be required for further hearing respecting conditions that are alleged to justify other and different orders than those already entered by the commission.

## GREATEST SHORTAGE EVER EXPERIENCED

New York, Oct. 21.—Railroads of the United States are suffering from the greatest shortage of cars ever experienced at this time of the year, according to figures made public here tonight. The shortage is a result of a shortage of 41,920 cars. This compares with a surplus of 131,027 cars on October 1, 1914, and of 78,299 on the corresponding date last year.

The greatest shortage is in box cars, totaling 33,016, while coal and grain cars total 10,872. The greatest shortage of box cars is in the greater section.

Railroad men say the high point of the shortage will be reached next month.

## SOLDIERS' MAIL IN FRANCE IS ENORMOUS

(Associated Press Correspondence.) Paris, Oct. 21.—The French soldiers' correspondence now amounts to nearly four and a half million pieces per day. They receive an average of four million ordinary letters, 300,000 registered letters, 10,000 postal and telegraphic money orders, and 50,000 newspapers.

It keeps busy a staff of more than 2,000 special employees at the central post office in Paris while twenty-two clerks assisted during the first three months of the war, for an average of 100,000 letters and 40,000 packages. The present staff handles 220 tons of matter per day and it requires 44 cars of the French standard size to distribute it among the principal headquarters behind the front.

The soldiers' mail now equals the ordinary peace time postal traffic for the entire country and the letters alone are triple the ordinary distributions in the city of Paris.

## IGNORANT OF CHANGE IN AMBASSADORSHIP

(BY MORNING JOURNAL SPECIAL LEADER WIRE.) Washington, Oct. 21.—Sources of information on Mexican affairs at the state department and the Mexican embassy disclaim any knowledge of any changes in the personnel of the Mexican commission or of the ambassadorship to the United States such as are reported in Mexico City.

Eduardo Arredondo, ambassador designate, today authorized a denial of the report that Gen. Pablo Gonzalez would relieve Lina Cabrera, head of the commission, or that he was to be succeeded as ambassador by Mr. Chatter.

## VICTOR MURDOCK COMES OUT FOR THE PRESIDENT

(BY MORNING JOURNAL SPECIAL LEADER WIRE.) Wichita, Kan., Oct. 21.—Victor Murdock, former progressive leader in the national house of representatives, will announce in favor of the re-election of President Wilson in an editorial to appear tomorrow in *Mr. Murdock's* paper, the *Wichita Eagle*. The editorial charges that Mr. Hughes, the republican nominee, "has mislead[ed] the in the issue of the moment and asserts that President Wilson is more progressive than his opponent."

## Benson Reaches Phoenix

Phoenix, Ariz., Oct. 21.—Allan B. Benson, assistant secretary for president, reached Phoenix this morning from Yuma and will address a local audience tonight. The presidential aspirant declared that the socialist propaganda is growing in every state and that a vote double that of four years ago will be needed. "I expect," he said, "that after November 7 the socialist party will have to be reckoned with in national politics, but there can be no fusion. Wild oats and gambles are neither he mixed or crossed. I am glad to be here, the same day as Colonel Roosevelt, and shall attempt to expose some of his fallacies."

## Aero Club Member Dies

Hughes, Okla., Oct. 21.—E. C. Christy, of San Francisco, a member of the Aero Club of America, died here today from injuries sustained when an airplane in which he was flying crashed over in the air and plunged to the ground. Christy was pinned beneath the wreckage.

## SUGGEST MEANS OF PREVENTING WAR IN FUTURE

Establishment of International Supreme Court Having Jurisdiction Over All Nations of the World Advocated.

(BY MORNING JOURNAL SPECIAL LEADER WIRE.) St. Louis, Oct. 21.—Establishment of an international court having jurisdiction over all nations of the world, in the same way that the United States supreme court has jurisdiction over all the states of the union, was suggested in a practical method of preventing war, in a report submitted to the house of deputies of the Protestant Episcopal convention today.

The report was presented by the commission on minimizing war. Whether the cause of motion picture films shown in the United States is improving was a question raised with the submission of a resolution by Rev. E. A. Shaylor, of Seattle. This resolution directed the church social service commission to arrange conditions to form a national board of censors and originally asserted that while admitting the beneficial effects of some pictures, an increased number is being presented, showing "distorted views, suggestions of lust and license, and details which combine to develop a school of crime."

Objects to "Increasing Number." Rev. Edward S. Brown objected to the words "increasing number," asserting that is a matter of personal opinion and as a result they were stricken from the resolution as adopted.

The clergy and laity of the church are urged in a resolution adopted by the House of Deputies to the "rigid observance in all social habits of those Christian principles which make for sobriety, purity and holiness in life."

The resolution also asserted that the "awful tragedy of Europe demands a searching investigation of the standards of our individual life. It is asserted, 'as marked in a vulgar and flagrant way by ostentatious luxury and prodigal extravagance, creating false standards of living and tending to make more evident the cleavage between rich and poor.'"

## Divorce Fight Not Ended

That the fight within the church for the prohibition of the remarriage by its clergymen of divorced persons was not ended when the House of Deputies recently rejected the proposal, was evidenced today in a resolution introduced by the Rev. Lighthouse of New York, and referred to the commission on holy matrimony. This proposed amendment, which would forbid clergymen performing such ceremonies, is a new form of the rejected proposal. This reference to the commission on holy matrimony, leaders of the convention asserted, was certain to become one of the paramount issues in the 1919 general convention.

## TANK WAS JUGGERNAUT TO HELPFUL GERMANS

(By Georges Le Hir.) With the French Army on the Somme, Oct. 11.—I have just been able to approach the immediate surroundings of Chaubert. The fight has just been finished and the ground still bears the bloody marks of German defeat.

I have seen there an unforgettable sight of horror. I shall ever remember the nightmare impression of this land where death appeared under such hideous aspect.

At Soyecourt and Le Pressoir the horizon was darkened by the smoke of big shells bursting and all around me I could only see a burnt, torn, and devastated landscape. The German trenches had been completely destroyed. The battlefield was thick with holes three, five, even ten yards deep.

The noise of guns was still audible at a distance. Now and then a shell, bursting in the immediate neighborhood, made me set my teeth convulsively.

Soon the twilight brought some calm to the sinister field, but in the last rays of the sun horrible mounds of corpses, twisted in supreme convulsions, were discernible.

Through that dreadful human vegetation a few lights appeared and disappeared from time to time. They were carried by ambulance assistants, searching for some of the few wounded survivors among this infinity of dead. Now and then a groan came to my ears, seeming like a deep complaining voice of this bloodstained land.

My guide took me to the Aidaincourt road near a small valley. From here the sight was still more terrible, everything being torn to pieces. There a farm had been, in which the Germans had entrenched themselves; at least so I was told, for nothing remained to prove the existence of the farm or the Germans.

This devastation was the work of one of the tanks. This new and terrible death machine had rushed upon the farm, passing the German sentinels, who fired at it, but could hardly scratch its iron hide. It passed quickly on, crushing over the farm, crunching and dislocating everything. Walls collapsed, chimneys of the roofs were splintered, and scattered the ground was deeply furrowed and trees were uprooted.

As to the Germans they were completely torn to pieces. All that remained disappeared under the monstrous wheels of the motor car, which leveled the ground, leaving nothing but a waste, scarred with red splatters from which a leg or an arm emerged here and there, convulsed in a spasm of agony. The projectors throw a red theatrical light upon this dreadful field from which I have come back horror-stricken, but at the same time hopeful.

## Additions to San Antonio's Army.

San Antonio, Tex., Oct. 21.—The Third West Virginia Infantry and a Florida field hospital arrived here today for duty with the Twelfth division. A signal company and a field hospital, both from Virginia, and a New Hampshire signal company, are due tomorrow.

## CATTLE BARON'S ESTATE TO PAY BIG FEDERAL TAX

United States Expects to Collect Millions From Property Left by Henry Miller, of California.

(BY MORNING JOURNAL SPECIAL LEADER WIRE.) San Francisco, Oct. 21.—A federal government tax running into millions of dollars will be levied upon the estate of Henry Miller, cattle baron, who died a week ago, leaving an estate variously estimated at from \$20,000,000 to \$50,000,000. It is expected that the tax will be known here today. The tax will be levied under a provision of the federal revenue act, passed by the last congress, which provides for a graduated tax on inherited estates.

J. J. Scott, internal revenue collector here, has taken steps to assess the Miller property, it was said. He is awaiting detailed instructions from Washington.

Estimating the Miller fortune at \$40,000,000 the state and federal taxes, it was said, would bring the total tax on the cattle king's estate to a sum approximating \$5,000,000. This would be the largest assessment of its kind ever levied in the United States, in the belief of officials here.

## CONFESSES PART IN HOLD-UP OF DETROIT PAY CAR

Dallas, Tex., Oct. 21.—The police today arrested a man who gave the name of James Walton, and his address as St. Louis, Mo., who, the police said, confessed to the \$32,000 robbery of a pay car of the Burroughs Adding Machine company in Detroit, several weeks ago. The confession, the police said, implicated three other men.

Walton, who is 22 years old, was arrested in the company of his young wife. He made no attempt to resist the officers. He told a city detective tonight he realized that "it was all up with him," the detective said. According to the officers, Walton smilingly told of how the trio planned the robbery and after its consummation remained in the neighborhood of the scene several days.

"I was not alone when we did that job," he was quoted as saying. "In our hurry to get away, we left one man behind containing about \$8,000. We figured we were going to get something like \$180,000, but we figured wrong."

Walton, continuing his description of the daylight robbery, said, according to the police statement, that he believed he fired one of the shots which wounded the pay car's guard, but only after his (Walton's) companion had been wounded.

Mrs. Walton accompanied her husband to the police station. She also said he had been known as James Gordon.

When Walton was in custody the police made a search of his room in a suburb. Hidden under a chiffonier was \$400 in bills, a large number of cartridges, some electrical instruments, and a pistol. The officials also have a book showing about \$500 on deposit in a Dallas bank.

The two men at large, it is said by officers, are believed to be in this part of the country.

## WAR IS BLESSING TO FRENCH SUTLER

(Associated Press Correspondence.) Paris, Oct. 21.—The French "sutler" has shown his cunning by thus far resisting all efforts of the economic department of the army to cut down the enormous profits he makes out of the soldiers in the zone of the armies. Camembert cheese, a favorite supplement with the men near the front, and which is dear enough in Paris, brings from three to four francs a pound right up to the front at the various stations. Other luxuries bring proportionate prices in spite of the itinerant bazaars organized by the commissary department. The motor peddling cars are not swift enough to get the better of the "sutler."

The commissary department is now trying various remedies. Two immense general stores have been established at important distributing points behind the front with a view to furnishing more promptly everything the soldiers need in addition to their regular rations. Fresh stores are sufficient to supply 20,000 men and the provisions supplied from them may be more readily carried to the men than by the motor-bazaar method which required more cars than could be spared.

Each of these general stores employs 3,000 men and officers. Other stores will be established if it is found necessary.

## New Mexico to Help Armenians.

Santa Fe, Oct. 21.—Today and tomorrow, at various points in New Mexico, in conjunction with the Presbyterian church, will be held meetings for the raising of funds for the starving Armenians. In the Presbyterian church tomorrow at Santa Fe Armenian Sunday will be observed. At Roswell this afternoon a meeting was held at the Princess theater addressed by ex-Governor Herbert J. Hargraves, ex-Secretary of State Nathan Jaffa, Col. J. W. Wilson and Austin D. Cole on behalf of the Armenians. Music was furnished by the Military Institute band. Miss Maudie Mabie and Mrs. Wilfred Smith sang a selection from the *Messiah* and Dr. Charles D. Darling presided.

Lands Crew of Wrecked Schooner. Norfolk, Va., Oct. 21.—The Norwegian steamer *Avons* landed here today several members of the four-maned schooner *Fannie C. Bowen*, wrecked in mid-ocean on October 12. Captain Johannessen of the *Avons* reported the loss of Capt. John Carter, skipper, and the first mate, name not known, who went down after the rescue ship had sighted them clinging to the rigging of the wreck.

## Q-BAN REVIVES COLOR GLANDS

Darkens Gray Hair Naturally

Q-Ban Hair Color Restorer is no dye, but acts on the roots, making hair and scalp healthy and restoring the color glands of the hair. So if your hair is gray, faded, bleached, prematurely gray, brittle or falling, apply Q-Ban Hair Color Restorer (as directed on bottle) to hair and scalp. In a short time all your gray hair will be restored to an even, delicate, dark shade and entire head of hair will become soft, fluffy, long, thick and of such an even beautiful dark color no one could tell you had applied Q-Ban. Also stops dandruff and itching hair, leaving your hair fascinating and abundant without even a trace of gray. Sold on a money-back guarantee. 50 cents for a big bottle at *Butt's*, Inc., drug store, Albuquerque, N. M. Out-of-town folks supplied by mail.

## DEMOCRATS GIVE BURSUM AND FALL PLEASANT TIME

Roswell People Attend Republican Meeting and Treat Speakers With Respect; Votes, Another Matter.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.) Roswell, N. M., Oct. 21.—The republicans of Chaves county are asserting that the tour of the Pees valley by candidates for state offices is the most successful campaign ever made by a republican party in Chaves county. And as far as money goes the figures bear them out in this assertion.

At the meeting in Roswell Thursday night, H. O. Borsum, Senator Fall and W. E. Lindsey addressed the largest crowd that ever assembled for a republican meeting. A third and possibly a half of the audience were democrats, but they gave the republican candidates a respectful hearing for two and a half hours.

## Tells What He Would Do.

If there was any one thing which was especially prominent in the cordial reception the candidates received, it was the fact that the crowd approved the absence of mud-slinging. Mr. Borsum spent practically his entire time telling the people what he thought were the needs of the state and what he would do if elected governor. Senator Fall criticized the foreign policy of President Wilson and gave one of the most exhaustive discourses on the Mexican situation of the whole campaign by both parties in the county.

The republican candidates did draw good crowds, were royally treated in democratic Chaves county, but whether or not they made a single vote is another matter. The whole campaign is getting warmer and warmer, and while there are not enough republicans here to make any big difference in the ultimate result under normal conditions, there are enough to cause the democrats to get their vote out.

## Visit to Plains Country.

A democratic campaign party has just returned from the plains country east of Roswell and report they have never seen democratic prospects any brighter. The republicans polled only a dozen or so votes in that section at the last election.

The democrats polled a heavy vote there in the primaries, and they expect to poll a heavy vote in November.

Only two or three of the candidates on the republican county ticket are making a thorough campaign. For a time it seemed that a split in the party was imminent, but it is stated, this danger has passed. The Mora county democrats, however, assert that they will poll a larger vote this year than ever before. The ticket named is as follows: Sheriff, Patrick Sautches, of Mora; auditor and collector, C. E. Strong, of Mora; assessor, J. D. Medina, of Wagon Mound; clerk, Pedro A. Ortega, of Wagon Mound; superintendent of schools, Minor Rudolph, Sr., of Mora; commissioner from first district, Lavanio Maez, of Cleveland; second district, Tomas Fernandez, of Santa Fe; third district, Andres Trujillo, Solano, state representative, Frank A. Roy, of Roy, and Alejandro Arellano, of Nolan. The state senatorial nominees from the district comprising Mora and San Miguel counties is Zenobio Salazar, of Guadalupe.

## MORA REPUBLICAN CONVENTION HELD

East Las Vegas, N. M., Oct. 21.—The Mora county republican convention, after having been in session for two days and nights, adjourned at midnight Saturday morning. The ticket named, it is said, is agreeable to two rival factions of the republican party in Mora county.

For a time it seemed that a split in the party was imminent, but it is stated, this danger has passed. The Mora county democrats, however, assert that they will poll a larger vote this year than ever before. The ticket named is as follows: Sheriff, Patrick Sautches, of Mora; auditor and collector, C. E. Strong, of Mora; assessor, J. D. Medina, of Wagon Mound; clerk, Pedro A. Ortega, of Wagon Mound; superintendent of schools, Minor Rudolph, Sr., of Mora; commissioner from first district, Lavanio Maez, of Cleveland; second district, Tomas Fernandez, of Santa Fe; third district, Andres Trujillo, Solano, state representative, Frank A. Roy, of Roy, and Alejandro Arellano, of Nolan. The state senatorial nominees from the district comprising Mora and San Miguel counties is Zenobio Salazar, of Guadalupe.

## SMASH THE GILLENWATER-HUBBELL MACHINE

WHEN YOU SEE OR HEAR THE NAME

## BRENLIN

YOU IMMEDIATELY THINK

## Window Shades

But that is not all the name stands for; it also means the VERY BEST in Window Shades. Made on a heavier and more closely woven grade of muslin and without any filling of chalk or clay to fall out and leave unsightly pin-holes and streaks. They will not fade nor wrinkle, but are always bright, straight and attractive. They cost a trifle more but will wear twice as long. We are showing BRENLINS in Ivory, Mauve, Van Dyke Brown, Green and the Duplexes.

## Incorporation Election in Roy.

Santa Fe, Oct. 21.—An election for the incorporation of Roy, in eastern Mora county, has been called for November 21, at which time a mayor, four other trustees and a clerk are to be elected. There is to be a keen contest between the liquor and the dry adherents.

## Peace Advocate Resigns.

London, Oct. 21.—Arthur Bunsen, member of parliament for Sheffield, and private secretary to the late Sir H. Campbell-Bannerman, prime minister, has resigned his seat owing to the unpopularity of his advocacy of peace negotiations, some months ago Mr. Bunsen's attitude towards the government in the house of commons for allowing diplomatic efforts to stand in the way of peace negotiations.

## PACKERS HAVE PROFITED WELL IN PAST YEAR

Total Sales for the Twelve Months Show an Enormous Figure, One Billion Five Hundred Million Dollars.

That the packing industries have profited well is shown by a detailed statement appearing in the *Chicago Evening Post* of recent date. The total sales show for the year \$1,500,000,000—a figure almost beyond human understanding.

Armour & Co. declared a stock dividend of 100 per cent and increased their capital to \$100,000,000. Swift & Co. follow with a cash dividend of \$25,000,000.

It is shown that the combined capital and bonded indebtedness of this industry follow closely the world's premier corporation, the United States Steel.

According to reports, the business of Swift & Co. alone for 1916 crossed the \$500,000,000 mark. Armour is said to be doing close to a half-billion dollars a year in gross business. The other concerns' annual turnover is well up in the hundreds of millions.

Of course, not all the business is done from the stockyards. The packers have branches all over the country, and at least two of them are now reaping large profits from their plants in South America. But the business centers here, is directed from here, and the major part of the profits are distributed here.

The packing business, more than almost any other, has been a personal business. It was developed by a few men of great initiative and broad vision. It remains in the hands of the same families that built it up. Armour & Co., at least, is a close corporation. The Swift stock has become more widely distributed than any other, being listed on the New York, Boston and Chicago stock exchanges. But its control is still centered right here, in the city among the sons of the founders of the business.

## TROOPS ARE BETWEEN AMERICANS AND VILLA

(BY MORNING JOURNAL SPECIAL LEADER WIRE.) San Antonio, Tex., Oct. 21.—Chavez troops are operating in the territory between the American expeditionary command and Villa forces to the south, according to a report from General Pershing received by General Funston today. The dispatch said that definite information regarding location of the bands was lacking. Official reports have not yet reached headquarters concerning the new campaign against Villa undertaken by his faction government troops under General Obregon.

## Sheriff Given Forty Days in Jail.

Culiacan, Sinaloa, Oct. 21.—Sheriff Alonzo T. Sweeping, of Roscoe county, vice president of the American Sheriff's association and president of the Ohio Sheriff's organization, was given a sentence of forty days in the Culiacan county jail by United States Judge John E. Sater here today for permitting a federal prisoner in his custody to take long automobile rides and have other liberties. He was released on \$500 bond pending a hearing of the case on error before the court of appeals.

# SO THAT THE PUBLIC MAY KNOW

MADE IN ALBUQUERQUE

Delivered to You Fresh Daily

*Facts Concerning the Bakery Industry of Albuquerque*

MADE IN ALBUQUERQUE

Delivered to You Fresh Daily

The undersigned bakers of Albuquerque have purchased this full-page advertisement to enlighten the public of the conditions under which they supply your wants in the bakery line. Trying conditions, due to the rapid advance of the cost of flour and other necessities, have confronted every baker throughout the country. And in several places a general increase in cost to the consumer has been the result. REGARDLESS OF THE COST OF PRODUCING THE FINISHED PRODUCT THE BAKERS OF ALBUQUERQUE HAVE NOT INCREASED THE COST OF THEIR PRODUCTS.

*Albuquerque-Made Bread is the best Bread made. Fresh every day. You get it the same day that it is baked.*

You could not get any better bread if you sent to New York, and it surely would not be as fresh as the Albuquerque Bread.

Suppose all the bakeshops of Albuquerque were under one roof—they would occupy about a block on Central avenue and employ over 200 men.

Would you want to see this industry remain in the city, add to its prosperity and grow with it, or would you rather see it situated in Colorado or Arizona?

The bakers of Albuquerque are proud of their products. You can't beat their bread and pastry anywhere.

The shops are sanitary.

The goods they bake are the very best.

They employ good men.

They pay a higher average wage than most trades, and contrary to most every city in the country, although the ingredients which go to make up a loaf of bread and a cake have advanced in some instances almost 50 per cent, they have not advanced the price of a loaf of bread or a cake.

Do they deserve your patronage?

Are they in a position to serve the people of Albuquerque without the assistance of a concern situated over 800 miles distant? If so, ask your grocer for the bread and cake manufactured by the following bakers, all taxpayers and producers of prosperity for your home town.

*Demand bread from the following makers of your grocer---tell him that you want fresh Albuquerque-Made Bread and accept no other*

# THE STUDEBAKER IS LARGEST PRODUCERS OF CERTAIN CARS

D. R. Tolman, of the Albuquerque Motor company, local agency for the Studebakers, says:

"During the past fourteen months, according to information just made known, the Studebaker Corporation led the automobile industry in the production and sale of seven-passenger cars. In that period 79,000 Studebaker seven-passenger automobiles were built and shipped. Not only is this a larger number than any other maker of seven-passenger motor cars placed in the hands of owners during the same time, it is also a record number for any fourteen months' period in the history of the automobile industry.

"In addition to the seven-passenger cars, there has also been a large increase in the output of roadsters and closed cars; in fact, in all the models built by the Studebaker Corporation. "The Studebaker business has shown a 100 per cent increase during the past year, and production at present is at the rate of 100,000 cars annually. This will show a gain of 60 per cent over the output of last year, which up to that time set a new record for Studebaker. Two years ago the production was 37,000 Studebakers for the year. The dealer organization has grown from 2,000 to more than 6,500 dealers. The Studebaker Corporation is now represented in nearly every city and town in the country.

"To take care of the contemplated record production during the coming year all preparation has been made, including the purchase of a large tract of property adjoining plant No. 1 on the west side of Detroit. Construction work is under way to add 40,000 square feet of floor space during the next sixty days, and more buildings are contemplated. Contracts have also been placed for earliest possible delivery of more than \$150,000 worth of drop hammers and other machinery."

# CHARLIE CHAPLIN AND ORMI HAWLEY, PASTIME TODAY AND TOMORROW

The management of the Pastime theater announces that they have selected two extraordinary features for the attractions at this popular playhouse for today and tomorrow.

Charlie Chaplin, whose everybody acknowledges as the funniest comedian on the screen will be seen in his latest and funniest two-reel comedy, entitled "The Pawn Shop," and the way Charlie handles the three little balls will keep you laughing from start to finish.

Ormi Hawley, supported by Rockliffe Fellows will be seen in a most delightful comedy drama, "Where Love Leads." It is a photo-drama of genuine heart interest, in love, college and newspaper life.

To avoid night crowds try and attend the matinee. Time of shows will be found in another section of this paper.

## AMUSEMENTS.

"The Girl From the U. S. A." Coming Soon.

When the circus comes to town the entire population gets out on the street to welcome it, and the people are received with open arms. Not attempting to draw comparisons, we maintain that when "The Girl From the U. S. A." comes to the city, the populace act in the same manner and performers and players are given the same cordial reception which the denizens of the sawdust ring receive. This is true of so few attractions, that it is worth noticing, from Maine to California, and from the northernmost state of Canada to the Gulf of Mexico, the latest New York musical comedy sensation, "The Girl From the U. S. A." has been given the glad hand and has proven, beyond doubt, the greatest musical success of the decade. This large production, intact with the original eastern cast and famous beauty chorus, will be the attraction at the Crystal theater, Thursday night, October 26.

Social dance and card party given by Cottonwood Grove No. 2, Woodmen Circle, L. O. O. F. Hall, Wednesday evening, Nov. 1. Booster orchestra. Compl. 50c; extra lady, 25c. Refreshments.

# STOCK EXCHANGE SHOWS GREATEST TRADE IN STEEL

Another Striking Feature Was  
the Rise in General Motors,  
Which Made a Gain of 36  
Points to 825.

ST. LOUIS, Oct. 21.—(Special.)—The New York stock market today was characterized by a general advance in prices, with steel stocks showing the most pronounced gains. The steel industry, which has been the backbone of the American economy, continued to show signs of strength and growth.

## Santa Fe Society

(Continued From Page Three)

dition to a splendid voice trained in eastern conservatories, Miss Hines enters naturally into the spirit of the Spanish minuet and made her rendition a musical event. On Friday of next week, at the Wilson club meeting, Mrs. Walter will present a paper on "The Moorish Occupation of Spain" and Mrs. Frank W. Parker will read from "The Old."

### A REMARKABLE SUCCESS.

The organization of the Santa Fe society of the Archaeological Institute of America has been attended by remarkable success, although undertaken only a few months ago. The annual dues are \$10 a year and life membership \$100, and today the society has 100 members, of whom five are life members, passing the society in the great cities in membership in all but seven instances. St. Louis having one more member, Baltimore six more, while Boston and Washington, D. C., have more than 200, but are many years old. The Santa Fe society at once takes its place at the head of societies and clubs in Santa Fe. In fact in the state, as a leader in art, music, culture and the things that stand for the four ideals of life. In the new Museum building it will have magnificent quarters which will serve much the same purpose that the parlors, clubs and lounging rooms of such organizations as the famous Cosmos club in Washington, D. C., serve, as the meeting place of men and women eminent in science, literature, art, government and civic affairs and a place where notable meetings will be held by the society in which plans will be formulated for movements of this important, for lectures, art displays and all those events that lift a community and a commonwealth above the sordid and selfish ephemeral interests of the day.

### COMING AND GOING.

Mr. and Mrs. W. H. Chapman of Artes, expect to take up their resi-

dence in Santa Fe and will probably occupy the house to be vacated by Mrs. William H. Pope on East Palace avenue.

Miss Pollock, daughter of Federal Judge John C. Pollock of Kansas City, is a guest of Mrs. Harry F. Lee.

District Judges M. C. Mechem and T. C. Leach were visitors in Santa Fe this week.

Mr. and Mrs. Howard Huxy of Cleveland, Ohio, have decided to reside in Santa Fe during the winter and have taken a house on East Palace avenue.

Miss U. M. Simons, a Phi Beta Kappa college girl, and regular literary contributor to Collier's, has arrived from Santa Fe to spend the winter in Santa Fe for her health.

Irving E. Coase, member of the National Academy and of the Santa Fe-Texas art colony, together with Mrs. Coase, left Santa Fe on Thursday for their winter home in New York. Colonel and Mrs. H. J. Simons were visitors in Santa Fe this week, recalling the army days in the capital thirty and more years ago. Captain Hamilton Bowie of the Thirteenth cavalry was another visitor.

### IN HONEYMOON ROW.

T. Harmon Parkhurst and bride are expected home next week from their honeymoon trip to the Thousand Isles, Ulster and Syracuse.

Of much interest to many residents in New Mexico is the announcement that on Wednesday of this week Miss Laura Springer, daughter of Hon. and Mrs. Frank Springer of East Las Vegas, will be married at Washington, D. C., to Attorney John J. Kerr, Clerk of New York city, but for a while also a resident of Las Vegas.

On Thursday evening at St. John's Methodist Episcopal church, Miss Florence May Samuelson, and Marie Jerome Pettis were married by Rev. E. H. Hammond in the presence of 200 guests. A reception in the parlors of the church followed the ceremony. The couple left in a honeymoon visit of two months to their former home in Iowa.

### RECEPTION TO TEACHERS.

Friday evening a reception was tendered the teachers of the Santa Fe high school and of the Presbyterian mission school at the Presbyterian manse by the Christian Endeavor society. The floral decorations were pink and this color note was also carried into the refreshments.

Dr. Edgar L. Hewett and Mrs. Hewett's mother, Mrs. F. F. Jones, were found for Denver on Friday evening, Mrs. Jones going on to Red Oak, Iowa, for the winter and Dr. Hewett returning to Santa Fe on Monday to go on a reconnaissance of the Chaco canyon and the Chaco quivers to map out new summer excavation campaign. He will be accompanied by Mrs. Hewett, E. J. Ward and Paul A. F. Walter.

### SOCIETY AND CHURCH AFFAIRS.

On Tuesday afternoon, Mrs. Noyes

Weltner, who is visiting her husband's parents, Mr. and Mrs. Jacob Weltner, on her way home from Boston to Tyrone, N. M., was the honoree at a delightful tea at which the hostesses were Mrs. Jacob Weltner, Mrs. M. L. Burrows and Miss Atkinson.

The Presbyterian Aid society was entertained Friday afternoon by Mrs. Wendell V. Hall.

The Women's Guild and Auxiliary of the Church of the Holy Faith met Friday afternoon with Mrs. Frank W. Parker.

The Red Cross will meet on Thursday evening during the coming week. Mrs. Hugh Gilmore this week entertained both the Monday Auction Bridge club and the Tuesday club, the first on Monday and the latter on Friday afternoon.

### SAMUELSON-PETTIS.

A pretty wedding occurred at the Methodist Episcopal church Tuesday night at 8:15 o'clock, when the pastor, Rev. E. H. Hammond, united in marriage Miss Florence May Samuelson and Mr. Marie J. Pettis, both of this city. About 150 invited guests witnessed the impressive ceremony, which was in accordance with the complete marriage ritual and included the ring service.

At the appointed time the bridal procession entered the rear of the church auditorium to the strains of Lohengrin's wedding march, played by Miss Beckner, the church organist. The procession was led by two young lady ushers, who unveiled streamers of white ribbon on either side of the aisle as they advanced. Following them, Miss Edna Samuelson, sister of the bride, and Louis Marsh, took the left-hand side of the altar and Forest Ranger C. V. Shriver and wife took the right side. Two little flower girls, Margaret Dunwiddie and Margaret Gabriel, preceded the bride, who was escorted by her father, Mr. Jacob Weltner. The bride was dressed in white crepe-de-chine and tulle, and carried on her arm a shower bouquet of lily of the valley and Killarney roses. Her maids were attired in dresses of old rose color and wore colorful bouquets of pink roses. The color scheme of pink and white was observed in the decoration of the room, with ferns and other foliage plants in evidence.

Following the ceremony a reception was held in the league room of the church and light refreshments were served.

### About Books and Public Library

Rich man, poor man, business man, cook, Engineer, builder, fireman, look, What you want is a book. From Albuquerque Public Library.

Perhaps you did not know it. But we try to supply everyone's wants either by telephone call or at the desk as quickly and completely as we can from the material at hand. And we have about 5,000 books in the library which are not fiction, so you see we can find answers for you for quite a number of questions. Now to be real frank we have not had many new books in the last year—but books cost money—and well we hope you will

help us get more next year. But we get forty weekly or monthly magazines and we keep files of them and have an index so they are useful for up to date subjects. If the Encyclopedia Britannica does all the book agents claim for it, then in it we have a great help, for we have the new edition.

Now, lots of men think a library is a place for only women and children—well, it is a good place for them. But we don't think the men of New York city would spend \$1,500,000 a year in good round dollars keeping up the New York city public library and its branches unless they thought and had it proved to them without any question that New York city, men, women and children got value received for every dollar spent. Do you?

And another thing. Most of you know something about the canny Scotch and the hard-headed business men they make. They don't spend money unless they get their money's worth in return. Well, there is one Scotchman who has made it possible for 25,000,000 people to have free reading matter by spending \$40,000,000 to do it. He seemed to think it a good thing. But neither he nor anyone else believes in spending money for books which are not used and used by all. Now Albuquerque public library books are used—some of them about used up—but they can be used harder and by the business man, the farmer, the man who is interested in city government and what not. Last year we circulated 28,000 books in round numbers. Pretty good for the size of the library, but not full capacity. So we need your co-operation.

There are not many men who wouldn't, if they could, change a wage of \$1 a day to \$3,000 a day in fifteen years. And the man who did that must have pretty good general ideas on business, don't you think? In the October number of System, the magazine of business, which we take, he gives some of his notions of the business of the United States today. And in addition there are some articles by men who are successful in different lines on interesting phases of business. The magazine room is open from 9 to 5 o'clock daily and 2 to 6 on Sundays and forty magazines and served in the evening there. And the plan of any public library is "the greatest good for the greatest number of people."

### BEGIN AT HOME.

If thou wouldst right the world, And banish all its evils and its woes, Make its wild places blossom, And its desert deserts blossom as the rose— Then right thyself.

If thou wouldst turn the world From its long, long captivity in sin, Restore all broken hearts, Slay grief and let sweet consolation in— Then turn thyself.

If thou wouldst cure the world Of its long sickness, and its grief and pain, Bring in all-healing joy, And give to the afflicted rest again— Then cure thyself.

If thou wouldst wake the world Out of its dream and death and darkening strife, Bring it love and peace, And light and brightness of immortal life— Wake thou thyself.

—James Allen in New York Mail.

## Sunday Services at the Churches

### FIRST BAPTIST CHURCH.

C. T. Taylor, Pastor.  
Corner Broadway and Lead avenue.

**TRY THIS FOR A GOLD—IT'S FINE!**

"Pape's Cold Compound" Ends Severe Colds or Grippe in Few Hours.

You can end grippe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge of nose running, relieves sick headache, dizziness, feverishness, sore throat, swelling, soreness and stiffness. Don't stay stuffy up! Quit blowing and snuffling! Ease nose throbbing and head-ache! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.
