VILLA BANDITS ROB TRAIN AND KILL CARRANZA MILITARY GUARD

German Passenger Mistaken
for an American and Struck
Over the Head by One of
the Robbers.

BAND NUMBERED NEAR TWO HUNDRED MEN

Outlaws, in Command of Mur-
ga Brothers and Silvestre
Quevedo Carried Loot Away
in Mule-driven Wagons.

(By Morning Journal Special Leased Wire)
Chihuahua City, Mex., Nov. 1.—
(Via El Paso Junction, Nov. 2.)—
After shooting the twenty-nine Car-
ranza military guards of the south-
bound passenger train which left
Juarez Monday, Villa bandits looted
and took the clothing from the
women passengers on the train. Dr.
Haffner, a German passenger, on the
train, who was mistaken by the band-
its for an American, was struck over
the head by one of the bandits who
used his gun as a club. Dr. Haffner
was not seriously injured. The band-
its, who were in command of Mur-
ga Brothers and Silvestre Quevedo,
then abandoned the train, carrying
the loot away in mule-driven wagons.

There were approximately 200 of
the bandits in the command which
held up the passenger train as it was
approaching Laguna station. The
bandits, silhouetted against the sky-
line, could be seen plainly by the en-
gine crew and passengers before the
train was stopped, but because of the
confusion of the passengers, escape from
the train was impossible. After com-
manding the engineer to stop the
train, one of the bandits went through
the train ordering all of the passen-
gers to alight in order that they
could be searched by the others of the
bandits. The conductor of the
passenger train, whose name is not
known, was shot in the hip by a band-
it.

The twenty-nine Carranza soldiers
from the Juarez garrison, who were
traveling in the box car just back of
the engine tender, were ordered to
alight and were shot down before they
could reach the train. This military
escort was in command of Captain
Guzman, who was shot with his men.

Robbed Women of Clothing.
After the execution of the Carranza
soldiers by the bandits the systematic
looting of the train and the
robbery of the passengers started, ac-
cording to the reports made to Gen-
eral Trevino by the passengers who
arrived here on the train. The passen-
gers were robbed of their baggage
and personal belongings, even the
women passengers being robbed of
their clothing in spite of their protest-
s. Some of the passengers except
Dr. Haffner were assaulted by the
bandits.

After robbing the passengers the
express car was looted and the con-
tents carried away in wagons drawn
by mule teams. These teams were
waiting at the Laguna station indicat-
ing that the holdup of the train
was carefully planned. After holding
the train one and a half hours, the
bandits permitted it to continue to
Chihuahua City, a distance of about
sixty miles south of the scene of the
robbery and executions.

The bandit command marched away to the north
into the darkness after watching the
looted train depart. They are now
believed to have burned the bridges
between Laguna and Galeo, twenty
miles north.

A military train carrying 400 Car-
ranza soldiers was sent out from
Santitas, twenty miles north of here,
to pursue the bandits, and a work
train was sent from the railroad.

World Owes Uncle Sam Nearly Two Billion Dollars

(By Morning Journal Special Leased Wire.)
Washington, Nov. 2.—Obligations of foreign governments,
bankers and merchants now held in the United States were es-
timated by the federal reserve board today at \$1,931,000,000. They
are distributed in geographical groups as follows:
Europe, \$1,627,000,000; British America, \$212,000,000; Latin
America, \$88,000,000; China, \$4,000,000. The board's statement
points to these figures as striking evidence of the altered position
of the United States in international finance.

"Much interest," says the board, "is now centered on how the
United States will meet foreign demands for gold should such de-
mands arise after the close of the European war. In this connec-
tion, the maturities of European obligations held here are of dis-
tinct importance: Maturities in 1916, \$30,000,000; 1917, \$103,-
000,000; 1918, \$260,000,000; 1919, \$300,000,000; 1920, \$500,000,-
000; 1921, \$200,000,000; 1922, \$5,000,000; information lacking,
\$229,000,000. Total, \$1,627,000,000.

A "Vindicated" Candidate

Let the people of New Mexico forget, it is just as well to recount
the circumstances attending the "vindication" of H. O. Bursum of
charges brought against him in connection with his administration of
the affairs of the New Mexico penitentiary, for "vindication" is one of
the chief planks in the Bursum platform in this campaign.

When the Colorado Title and Trust company made an audit of the
books of the penitentiary and reported a shortage of several thousand
dollars, this amount was paid into the treasury by Bursum under
protest. Later a Bursum legislature passed a law under the provisions
of which Bursum brought suit in Socorro county to recover this
amount. Charles V. Safford—the "Dear Charles" of the multitudinous
letters written by gang politicians of that day—was appointed referee
in this case. "Wasn't it a gut shot?" was the prompt exclamation of
one of Bursum's political friends who considered that with this ap-
pointment the matter was practically all over.

"Dear Charles" did not prove a disappointment. His report
formed the basis of the "vindication" of Bursum. Exceptions to the
report, some thirty in number, were filed by Attorney General George
W. Prichard and Ormsby McHarg, special attorneys, but in the mean-
time Albert B. Fall, now representative of the gang and of El Paso in
the United States senate, became attorney general and another stone
in the structure of "vindication" was laid. It is interesting to note, by
the way, that "Dear Charles" is now private secretary to Fall.

It was at this juncture that Neil B. Field, attorney for the Colo-
rado Title and Trust company, proposed to prove that the report of his
client on the condition of the penitentiary books was true and the re-
port of "Dear Charles" as referee was untrue. Thereupon it was stipu-
lated between attorneys for Bursum and Attorney General Fall that
the report of the Colorado Title and Trust company, finding Bursum
short in his accounts, was not questioned. It was only after this stipu-
lation, which is a part of the records of the court, was made, that
the judgment in favor of Bursum was rendered.

Can New Mexico afford to elect a man governor who has to be
"vindicated" from charges of this sort? Can she afford to place a
man in power who pays such a price for his "vindication?"

WERE PART OF JOSE YNEZ SALAZAR'S COMMAND

El Paso, Tex., Nov. 2.—Government
agents received information here to-
day from military authorities in
Juarez that the 200 bandits who
held up the Mexican Central passen-
ger train at Laguna station were a
part of Jose Ynez Salazar's command
of 2,000 men which are guarding the
Mexico-Northern railroad west of
Chihuahua City.

According to the information ob-
tained by the government agents, all
passengers on the train were forced
to alight, including all of the women,
and taken by the bandits to a place
where they were searched. The source
of information stated that only the
officers in command of the Carranza
train escort were killed, as the en-
listed men all joined the bandits. It
was stated. Freight cars attached
to the train were looted of their con-
tents, consisting of flour and other
foodstuffs.

Information received by representa-
tives of the United States government
here from El Paso, Tex., stated
that Gen. Fortunato Maycotte's com-
mand had been cut to pieces by Villa
troops south of Chihuahua City and
that General Maycotte had reached
Torreon with a small band and had
arranged to send his family to El
Paso on board a special train. Shimi-
ficial reports from Chihuahua City,
which were received here today,
stated that General Maycotte, with his
main column was at Jimenez, Chi-
huahua.

A freight train left Juarez today for
the south and a passenger train is ex-
pected to arrive from Chihuahua City
tonight. This will be the first pas-
senger train from the state capital
since Sunday last.

Dr. Severin Haffner, the German
physician who was beaten over the
head with a rifle in the hands of one
of the Villa bandits at Laguna Mon-
day night when the Mexican Central
passenger train was held up, is a
resident of El Paso and is a prac-
ticing physician here. He is a native
of Germany and was practicing medi-
cine in Chihuahua City until 1913,
when he removed to El Paso. He
had been a resident of Chihuahua
City for eight years prior to that
date, going there from Bavaria, Ger-
many.

Dr. Haffner stated today that he
had received a message from Dr.
Haffner last night, saying that he
had arrived there safely. He went to
Chihuahua on private business, she
said.

Luther Wolfe Not Guilty.
Denver, Nov. 2.—A directed verdict
of not guilty was returned by a jury
in west side district court today
in the case of Luther Wolfe, charged
with the murder of Roy Smith, one of
his former employees. Smith was
killed August last. Wolfe testified
Smith had been shot by a man he would
"get him," according to the testimony.

Colonel Ilma General Bell's Guest.
El Paso, Tex., Nov. 2.—Col. M.
Ilma, military attaché of the Jap-
anese embassy at Washington, D. C.,
was the guest of Gen. George Bell,
commanding the border patrol
district, here today. Colonel Ilma
is on route to San Francisco, Calif.,
where he will sail for Japan.

Morrison, Colo., Thieves Disappointed.
Morrison, Colo., Nov. 2.—Thieves
who expected the safes in the post-
office and in the office of the Pike-
Perry Mercantile company here last
night were disappointed. The funds,
it was said, had been removed pre-
viously. Similar attempts at robbery
were made recently at Lafayette and
Lyons, Colo.

Commission Increases Demurrage.
Denver, Nov. 2.—The New Mexico
state commission today has in-
creased from \$1 to \$2 the demurrage
charges on railway freight cars, ac-
cording to a telegram received today
from Santa Fe. This action is under-
stood to be a measure of cooperation
to relieve the shortage of cars which
has been hampering the handling of
fruit crops and other urgent shipments
in Colorado. A similar increase in demurrage
charges went into effect in Colorado
last Monday.

Elected D. & R. G. Vice President.
New York, Nov. 2.—Arthur C. Mc-
Connell of this city, who represents the Dutch
holdings of stock of the Denver &
Rio Grande Railroad company, was
today elected vice president of that
company. In a statement he said his
election "emphasized the freedom of
that property from the control of any
interest" and that it will con-
tribute to be operated as an independ-
ent company.

STILL WAITING FOR GERMANY'S MARINA VERSION

Greece Says They Were No-
tified That Submarine Would
Sink Any Ship Carrying Al-
lied Supplies.

(By Morning Journal Special Leased Wire)
Washington, Nov. 2.—Conclusive
evidence as to whether Germany
violated her pledges to the United
States in sinking, apparently without
warning, the British freighter Ma-
rina, with the loss of six American
lives, is not expected by the state
department before the latter part
of next week. Secretary Lansing to-
night said information was coming
slowly and that at least a week was
expected to elapse before full evi-
dence could be had.

Pending Germany's Reply.
Even though all information desired
from British sources and American
survivors of the Marina were at
hand, any action by the United States
government would be delayed pending
Germany's reply to the informal
request for her version of the incident.

In previous instances where
such a request has been made a week
or more has elapsed before the at-
tacking submarine has come in and
several days further have been
needed to collect and transmit the
information. American officials in
England have sent only a few dis-
patches in the last twenty-four hours,
not including any affidavits or sum-
maries of affidavits.

Applies to Armed Merchantmen.
Secretary Lansing explained that
the state department held that Ger-
many's pledge not to sink merchant
ships without proper provision for
the safety of persons on board applied
as well as to unarmed vessels. Ger-
many's last specific word on armed
ships however, was her memorandum
announcing that they would be
treated as war vessels, and the fact
that the Marina carried a 4.7 inch
gun is expected to play a conspicuous
part in the exchanges that will fol-
low if it is established that she was
attacked without warning.

SIGHTS SUBMARINE OFF CAPE HENRY

(By Morning Journal Special Leased Wire)
Washington, Nov. 2.—H. H. Hirsch,
of the Norwegian freighter Osterdal,
which arrived here today from Car-
diff, Wales, reported having sighted
a large submarine which he believed
to be a German U-58 type about
400 miles east of Cape Henry.

Colonel Hirsch said he saw the
submarine about 1 o'clock at night
and that it was not more than 600
feet away.
It circled the Osterdal, he said, but
did not give any signal.

Salvador Volcano Erupting.
San Salvador, Republic of Salvador,
Nov. 2.—Reports received here from
Mexico say the volcano San Miguel
there is throwing out lava and ashes.
Many plantations in the department
of Masaya are declared to have been
ruined.

Wage Increase for Car Makers.
Detroit, Nov. 2.—One thousand
employees of the car department
of the Missouri, Kansas & Texas com-
pany of Texas have been granted
wage increases of one and one-half
cents an hour, which became effective
November 1, it was announced today.

GERMANS GIVE UP FORT VAUX TO FRENCH; VERDUN GAINS ARE LOST

Allies Take Teuton Positions in
Les Boeufs and Rancourt
Sections on Somme; Berlin
Admits Losses.

VON FALKENHAYN STILL PRESSING RUMANIANS

Virtually All Ground Taken by
Crown Prince During Spring
and Summer Has Been Lost
to Defenders.

(By Morning Journal Special Leased Wire)
Fort Vaux, one of the most im-
portant fortifications captured by the
German crown prince in his pro-
longed drive at Verdun, has been
evacuated by the Germans. The eva-
cuation is announced by Berlin today.
Shortly after Fort Donnant had
been recaptured and a wide stretch
of the front in this region remained
in the French in their sudden offensive
movement on October 25 it was point-
ed out that Fort Vaux likewise had
been put in a perilous position. The
French advanced close to the edge
of the fortification on its immediate
front in their great drive and pushed
well beyond it on each side making
its fall, in the opinion of observers at
the front, only a question of a short
time.

Evacuated at Night.
The Germans evacuated Fort Vaux
during the night, says their official
report, without hindrance by the
French and after portions of the fort
had been blown up. The French
continued to pour a heavy fire from
their big guns on the fortification.
Virtually all of the ground of pro-
nounced value taken by the Germans
on the easterly bank of the Meuse in
their winter and spring offensive at
Verdun has now, with the fall of
Vaux, been lost to them.

French troops operating in the Les
Boeufs and Rancourt sections on the
Somme front also gained ground yes-
terday in attacks on the German line.
The Paris report of last night an-
nouncing these advances is in part
confirmed by the Berlin official state-
ment today, which concedes French
gains northeast of Morval and south
edge of the St. Pierre-Vaux wood, but
declares that the main effort of the
French to move forward was sangui-
narily repulsed.

British Attack Fails.
The British likewise, says Berlin,
failed in an attack north of Courcel-
lette on the Somme front.

London last reported gains in the
Les Boeufs sector in operations in
conjunction with the French, but an-
nounced today that heavy rain was
falling and that there were no note-
worthy happenings during the night.
There is no apparent let up in the
pressure which General von Falken-
hayn is exerting along the Rumanian
front. The Russian position in general
the Rumanians are reported to be
holding him fairly well in check. No
new advances of importance are an-
nounced today by the German war
office.

SERBIANS ADVANCE ON MACEDONIAN FRONT

Paris, Nov. 2.—The Serbians on the
Macedonian front are making good
progress in the Colina river region
southeast of Monastir, reports the
Paris press.

In the region of the Cerna, the
Serbians repulsed several Bulgarian
counter-attacks and made good progress.
"On our left wing there was con-
siderable artillery activity."

TURKISH TROOPS STORM RUSSIAN TRENCHES

Constantinople, Nov. 2 (via Lon-
don).—Turkish troops fighting in Gal-
icia launched a violent attack against
the Russian positions on October 29
and stormed three successive lines of
fortified defenses, according to offi-
cial Turkish reports issued today. The
text reads:

"Galician front: On October 29
our troops violently attacked and per-
etrated three successive lines of the
enemy's fortified defenses and cap-
tured hill 407.

GERMAN POSITIONS CAPTURED BY FRENCH

Paris, Nov. 2 (via London).—Sev-
eral German supporting points on the
Somme front were captured last night
by the French, says today's war office
communication. The announcement
follows:

"North of the Somme, notwith-
standing the persistent bad weather,
we followed up during the night the
advantages gained by us between Les
Boeufs and Sully-Sabliot. Our
troops consolidated the ground won,
carried several points of support and
cleared out several machine gun em-
placements.

HUGHES MAKES NO APOLOGY FOR ATTACKS UPON ADMINISTRATION

Says Each Four Years There
Comes Time of Accounting
and for People to Express
Their Minds.

DECLARES FOR STRONGER ASSERTION OF RIGHTS

Would Extend Ample Protec-
tion to American Citizens
on Land and Sea, Candi-
date Asserts.

(By Morning Journal Special Leased Wire)
Albany, N. Y., Nov. 2.—Charles E.
Hughes told audiences in central New
York today, the last day but one of
his campaign tour, that he had no
apologies to make for his attack upon
the administration with reference
to the maintenance of American
rights, and that he proposed, if elected,
to make the American flag the sym-
bol not only of courtesy and justice,
but of firmness and consistency
in maintaining "our known rights on
land and sea."

The nominee assailed the adminis-
tration for its alleged failure to aid
in the development of American
trade abroad by upholding American
rights, characterized as "very cruel
and unwarrantable" suggestions
made for him to assume a vote for war,
and declared that in American rela-
tions with foreign nations he was
opposed to a "middle of middle."

William Barnes Presides.
At Albany, the first stop of the
day, Mr. Hughes asserted that he had
entire confidence in the result of the
election in Indiana and Ohio. In his
speech here tonight the nominee de-
clared that he was not a candidate
briefly his attitude toward the "issues
of the day." The speech at Schen-
ectady was before an audience that had
awaited his arrival for more than an
hour. Many persons were turned
away from this meeting, unable to
gain entrance to the hall.

People Express Views.
"Our opponents do not seem to like
the idea of criticism with respect to
international policy," Mr. Hughes
said in his Schenectady speech. "But
I beg to remind them that an Amer-
ican president is elected for a term
of four years and under our institu-
tions at the conclusion of that term
the American people express their
minds."

"When a matter is so important as
the maintenance of American rights,
it is highly necessary that an Amer-
ican opinion should be expressed, and
I have no apology to make in stand-
ing before you tonight. The people
briefly his attitude toward the "issues
of the day." The speech at Schen-
ectady was before an audience that had
awaited his arrival for more than an
hour. Many persons were turned
away from this meeting, unable to
gain entrance to the hall.

Not War Policy.

"That is not a policy that leads to
war. There never has been a time,
perhaps, in our history when it was
easier to keep the American nation
out of war than during the past few
years, when every man on our soil
desired strife abroad desired our
friendship and would not by reason
of any assertion of our just rights
forget that friendship."

"I desire to see American enter-
prise advanced throughout the world.
I want to see in the coming days of
peace a commercial rivalry between
the talents of the service of the
world in foreign lands. It is idle
however, to expect success in that
direction if we do not have full pro-
tection of those who represent our
interests abroad."

"I am amazed to have anyone sug-
gest that we can prosper in the ex-
pansion of American trade through-
out the world if our flag is only an
invitation to come home. Men who
before election are described as hav-
ing the best of both worlds, that of
being called servants of their own
private interests who take their lives
in their own hands for their personal
ends."

Trusts to Be Guarded.
"The dignity of American citizen-
ship of one who is lawfully follow-
ing his vocation anywhere—his rights
are recognized by our laws and con-
stitution as pertaining to American
citizens throughout the world. These
are not gifts for the administration
to bestow or withhold in its discre-
tion; rather these are trusts to be
sacredly guarded."

Mr. Hughes assailed the adminis-
tration for its Mexican policy. He
declared that the question of recog-
nizing Huerta was "beyond the mark,"
and not an issue. "And I refer to it
only because of the very cruel and
unwarrantable suggestions that an
approval of my candidacy is an ap-
proval of war," he said, "as though
our opponents had in some way ac-
quired a monopoly of peace."

"I mean to emphasize that the po-
licy of the administration has been, in
my judgment, not a policy of peace,
but rather a policy involving peace
and unjustifiable warfare, and I pro-
pose that we have a policy which
shall have as its cornerstone, first,
that we shall not have a middle of
middle, as I have said, but that we
shall have protection of American
lives and property and the prosecu-
tion of a consistent policy which sus-
tain."

THE PRESIDENT GREETED WITH ENTHUSIASM IN NEW YORK CITY

"Wall Street" Scored by Chief
Executive for Failure to Co-
operate for Good of Entire
Nation.

CROWDS LINE STREETS IN HONOR OF WILSON

Business Interests Have Been
Guarded Under Present Ad-
ministration; Nothing to
Fear.

(By Morning Journal Special Leased Wire)
New York, Nov. 2.—President Wil-
son, addressing a gathering of busi-
ness men from all parts of the coun-
try, at a luncheon here today, de-
clared that "the men who constitute
what we have agreed to call 'Wall
street,' have a subtle genius for
promising seemingly immaterial
changes," when called into consulta-
tion concerning the affairs of the
country, which would eventually lead
to the defeat of the main objects of
the legislation proposed."

"Do you wonder," said the presi-
dent, "that I do not call them into
consultation, and yet I tell you again
that they will welcome the moment
they come to co-operate, and they will
not be welcome until then."

The president assured his audience
that the business interests of the
country had been safeguarded under
his administration and would contin-
ue to be if he was re-elected.

Continues Ovation.

From the time of his arrival here
from Buffalo, this morning, the presi-
dent was given an almost continuous
ovation. Large crowds, including
many railroad employees, cheered him
as he stepped from his private train
at the Grand Central terminal. Ac-
companied by Mrs. Wilson and the
other members of his party, the presi-
dent was driven to the presidential
yacht "Mayflower," anchored off the
East Twenty-third street. He re-
mained there until 12:30, when he
left for the luncheon, given in his
honor by the Wilson Business Men's
League. Crowds again lined the
streets and cheered the president and
Mrs. Wilson. Afterward the president
visited the democratic headquarters.

Notable Guests Present.

Among the guests at the luncheon
to greet the president were James W.
W. Gerard, American ambassador to
Germany; Governor Fielder, of New
Jersey; John M. Ruhl, president of
the national democratic club; Jacob
McAdoo, United States Senator
Hughes of New Jersey and James
of Kentucky; Chairman Vance McCor-
mick of the democratic national com-
mittee; and Col. E. M. House.

The appearance of Mrs. Wilson and
the other women of the presidential
party, like that of the president, was
the occasion of much applause. As
Mr. Wilson took his seat, one of the
dinners shouted:

"These cheers for Wilson, the pro-
gressive."

Instantly the crowd was in an up-
pour, hurling their napkins into the
air and cheering again.

In his speech to business men the
president said in part:

"We are living in a very serious
period of the world's history and,
therefore, it seems to me especially
important upon us that we should,
so far as possible, search every ques-
tion to the heart, and when I think
of searching the business question to
the heart, it seems to me that there
are some very large reckonings which
have too often been left out of the
account. When you think of the ulti-
mate foundations of business you must
look at the foundations of the condi-
tions of national life, and that the
particular conditions upon which suc-
cessful vital business depends are the
conditions which touch the daily life
of the common mass of people of the
country."

Business is not a matter of organ-
izing genius. Business is not wholly
a matter of financial initiative. Busi-
ness does not altogether consist of
seeing the opportunity and trying to
avail yourself of it. It consists in
having deep sources of strength to
draw from; and the only source of
strength for business, as for govern-
ment, are to be found in the general
body of the people. Are they content?

What People Need.
"People are not contented to do not work
well. Are they living under the
proper physical conditions? A people
stunted in their growth or arrested in
its vitality or hampered in its physi-
cal growth, does not work well. Are
they confident that they are living
under conditions under which they
will get justice and the right of con-
sideration of those who are put over
them? If they suspect that they are
being put upon, used for the behoofs
of others, they will grudge every
stroke of work that they do and do
it only because they must have bread
for the mouths of those dependent
upon them. The roots of business, my
fellow citizens, lie deep in the hearts
and thoughts and daily lives of the
people who crowd about us every day
on the streets and on the country-side."

"And the thing that has disturbed
the thought of a great many men in
recent years in this country is that the
general body of the people have not
the impression that they are being
exploited, that they are being used,
that their vitality is being drawn, in
order that others might prosper and
they get the crumbs from the table."

"What I constantly remind my-
self of is that opinion is just as
much a fact as any law of physical
nature. If it has been wrongly cre-
ated it can be altered, but until it is
altered it is something to deal with.
There did not used to be any law

"The tariff commission has been
provided for by the adminis-
tration."

"I am glad," the nominee said,
"that a tariff commission has been
provided for by the administration, in-
stead of apparently a temporary one."

derworld in America. Men were not accustomed in old times in America to think that there slumbered anywhere a volcano in American affairs, but now men who go a little beneath the surface are constantly saying to you things are going on in this country based upon a profound digestion of fact which will have to be dealt with in strenuous fashion, unless the feeling upon which it rests is relieved and altered. I am not one of those who would be considered a prophet of danger in this matter, because I believe that this is the country in the world where this sort of thing can and will be relieved by the common sense of justice and the concept of action to see that the conditions that are wrong shall be made right.

Progressive Policy.
The president declared that "it was high time that we define what we mean when we say 'progressive policy.'"
Men have discovered, said the president, that these things underlie politics—these feelings, these conditions of daily life with which obscure men are struggling, these burdens that obscure men are carrying. He deplored the "intolerable burden"

Various Forms Of Headache

"It is necessary in order to treat headaches properly to understand the causes which produce the affection," says Dr. J. W. Ray, of Blackfoot, Minn. "Physicians cannot even begin the treatment of a disease without knowing what causes give rise to it, and we must remember that headache is to be treated accordingly to the same rule. We must not only be particular to give a remedy intended to counteract the cause which produces the headache, but we must also give a remedy to relieve the pain until the cause of the trouble has been removed. To answer this purpose, anti-kammit tablets will be found a most convenient and satisfactory remedy. One tablet every one to three hours gives comfort and relief in the most severe cases of headache, neuralgia and particularly the headache of women."
When we have a patient subject to regular attacks of sick headache, we should caution him to keep his bowels regular, for which nothing is better than "Actoids," and when he feels the least sign of an oncoming attack, he should take two K Tablets. Such patients should always be instructed to carry a few anti-kammit tablets, so as to have them ready for instant use. These tablets are prompt in action and can be depended on to produce relief in a very few minutes. Ask for K Tablets.

defect of the main objects of the population proposed. Do you wonder that I do not call them into consultation? And yet, I tell you again that they will be welcome the moment they come to co-operate and they will not be welcome until then.

"Why, the amount of genius that is expended in this country in resisting hopeful changes is one of the greatest indictments on the scene of waste that this country has laid itself open to. Brains have been burned out acting as brakes. I solemnly protest that that is not the right use for the best gifts of the country."

Must Keep Eye to Ground.

"I have been telling men I was associated with I have been telling men that I was not associated with, I have been telling men when it was my business and when it was not my business, that they did not understand their business until they got into the game; and, therefore, it seems to me that we have always got to put our ears to the ground, put our thoughts upon those intimate things that bind us all together as a human family."

The president, in conclusion, said he believed in political parties as the "only instrumentality by which we can manage the necessary conduct of united action, but I do not believe in parties used for partisan purposes."

"I hope that every time that a party is used for its own sake, every thoughtful man in the United States will vote against it," he declared. "But if it is trying to serve the interests of the whole people, if it really has a heart that sympathizes with the whole people, why, then, it deserves the confidence of the nation so long as it is doing that, as long as it is not seeking guidance from those who wish to control, but acting in sympathy with those who wish to live."

PRESIDENT CLOSES NEW YORK CAMPAIGN

New York, Nov. 2.—With two great rallies here tonight, President Wilson closed his campaign for reelection, except for a speech he will deliver at Shiloh Park, Saturday afternoon. From the time he arrived in the city this morning, he was greeted by cheering crowds wherever he appeared.

In four speeches here, three tonight and one at a business men's luncheon in the afternoon, he reiterated his conception of the great issue facing the United States. He appealed for principles of progress which would help the "obscure" men and women of the land, arranged the "Wall street" interests, which, he said, seek to dominate, and pleaded for equal rights to all men.

The president's campaign here, the campaign in this city for old-fashioned political enthusiasm on a big scale. Torchlights and red fire blazed in Fifth avenue as the hosts of Tammany hall, headed by Charles F. Murphy, advanced, and the square, which was besieged by a tremendous crowd before their arrival.

Two hours and a half before Mr. Wilson was due to arrive at the historical garden, police reserves were striving vainly to hold back a surging throng striving for places of vantage which would make entrance easy after the doors were thrown open. Holders of reserved seat tickets strove vainly to reach the entrances.

The seating capacity of the garden had been increased, but it seemed that after the doors were closed, and the last inch of room occupied, that the size of the throng outside had not been perceptibly diminished. In the crush about the doors, many women fainted.

Similar scenes were enacted at Cooper Union. At this point, special provision had been made for young men not of voting age, who had marched in the parade with delegations from Tammany and other democratic organizations.

Augustus Thomas presided at the Madison Square Garden meeting. The first speaker was Samuel Seabury, candidate for governor of New York. He was followed by William F. McComb, candidate for United States senator, and former Governor Martin Glynn. All of them commended the policies of Mr. Wilson, which had "brought peace and prosperity."

The Mexican members of the Mexican-American joint commission, accompanied by their wives, occupied seats on the platform.

When Mr. Wilson was recognized as he appeared on the platform, the crowd rose and cheered steadily for thirty minutes. Small American flags fluttered from thousands of waving hands. In the intervals when the dim flashlights, patriotic airs were sung.

opinion is rising, not for the purpose of destroying anything, but for floating all those happy auguries in which men may travel who know they are bound for the finest goals of human ambition. This tide of humanity swelling in America is sweet with the purposes of peace. It is wholesome with the judgments of justice, and when it has come to the flood, men will see that it is the great body meant to drive all the industries of the world by the pulse of heartbeat of men who love the world and believe in their fellow men.

"When America has found herself, then she will be able to play the part which it was destined she should play. Let all men who believe the same thing keep together; let no kind of intimidation, let no kind of vague and fruitless promises, divert us for a moment."

Let us first see that we are a united and irresistible nation, and then let us put all the force at the service of humanity in order that men may say that they know what human rights are and that they live and understand nothing but what is humanly right. That is the simple message that I have come to deliver to you.

"We have set up government in response to the opinion of the people. We have marshaled the men who think together, the men who feel together, the men who purpose together, in such harmony that they will prove invincible. I am not fearful lest any of these lines of cleavage should run so deep as to touch the heart of this people. I know what this rising tide means. It does not mean confidence in any particular man; it means confidence in the destiny of America and the confidence of the American people that they again govern their own affairs."

"So that when we look upon our politics at the present time, we should concentrate all our purpose upon keeping the men together who believe that everything is entitled to an equal chance, who believe that liberty is a reality and not a name, who believe that justice must be achieved and can only be achieved by holding together shoulder to shoulder, one body of conquering men."

HUGHES MAKES NO APOLOGY FOR ATTACKS UPON ADMINISTRATION

gether, realizing that every man's chance is only a chance for service." Cheered by crowds.

The campaign was a hot one in reaching Albany. His address here was further delayed by a street parade, many blocks long, which he headed. On his way to the hall the nominee was cheered by crowds on the sidewalks.

Introducing Mr. Hughes, Mr. Barnes said: "There is one quality the people demand in a man who would seek high office. In his responsibility to the great people he owes the obligation that he should conform with their words. That the American people have not now, but will have in Mr. Hughes."

The nominee was given a prolonged cheer when he arose.

I come to you after several days of very remarkable experience in the states of Ohio and Indiana. Mr. Hughes said. "I suppose that no candidate for the presidency ever received a more generous greeting than I received in those states. It demonstrated the interest that is felt by the people of this country in the issues of the campaign; and I believe, but beyond question the victory of the national ticket in both Ohio and Indiana, as well as New York."

We are looking forward to the responsibility of administration, and I desire to speak to you with respect to what I regard the essential conditions of national leadership to be.

"The executive is intended to be a leader, but his leadership is primarily to be with the performance of certain constitutional duties of the gravest importance to the people. He is not chosen to follow the whims of his fancy, or to indulge in a license of freedom to follow his own personal choices in any direction to which his imagination might lead him."

HARD TO EXPLAIN EVAPORATION IN PARTS OF NEW MEX.
(SPECIAL DISPATCH TO MORNING JOURNAL)
Santa Fe, Nov. 2.—Almost inexplicable are the vagaries in evaporation in various portions of New Mexico. In a bulletin issued by the United States weather bureau today it says: "The records of the evaporation stations again differed much from the previous months and showed a further small decrease."

The station at the Rio Grande dam, with a mean temperature of 22.4 degrees, wind movement of 2,246 inches, or 2.2 per hour, and 59 inch precipitation, had an evaporation of 9.11 inches, compared with 9.55 in August, 11.53 in July and 16.87 in June. The dry land experiment station near Tucuman, with a mean temperature of 69.4 degrees, wind movement of 2,286 miles (or twenty-eight days), or an average velocity of 4.9 miles per hour, and 36 of an inch precipitation, had an evaporation of 7.53 inches, compared with 4.28 in August, and 11.71 in July. Santa Fe, with a mean temperature of 59.9, wind movement of 1,667 miles, or 2.3 miles per hour, and 1.66 inches precipitation, had an evaporation of 4.48 inches, compared with 6.97 in August, 3.21 in July and 11.71 in June, while the station near Farmington, with a precipitation of only .07 of an inch, had an evaporation of 4.64 inches.

The decrease at the Rio Grande dam and at Santa Fe was small, due no doubt to the increase in wind velocity. The record at the dry and experiment station, ceases with the close of September till the beginning of the crop season next spring, but it is hoped to continue the others throughout the year, possibly adding the record of the state college about the first of the year.

GREECE NOW IN THROES OF CIVIL WAR; REVOLUTION THREATENS KING

Important Successes Are Gained by French at Verdun and by Italians Moving Toward Trieste.

GERMAN CROWN PRINCE GIVES UP FORT VAUX

Evacuation Decided Upon Because Cost of Holding Position More Than It Was Worth.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
After months of strife between the adherents of former Premier Venizelos and adherents of King Constantine in the war, a revolution of considerable proportion has broken out in the region southwest of Saloniki. Six hundred insurgents, probably followers of Venizelos, forced 150 royal troops to evacuate Katerina and retreat upon Larissa, forty miles southwest in Thessaly, where they are expected to receive reinforcements. The troops have received orders from the king to prevent at all costs the advance of the revolutionists.

Severe Fighting in Progress.
On the fighting fronts important successes have been obtained by the French in the region of Fort Vaux, northeast of Verdun; by the Italians in a further push toward the fortress of Venzelos, probably followed by the Germans in Volynia, near Witoniz, where Russian positions were stormed and captured and twenty-two officers and 1,568 men were made prisoners.

The Transylvania theater is witnessing a continuation of the advance of the Austro-Germans south of the Rothermund pass, while in the Jind valley the Rumanians are keeping up their pursuit of the "Teutons."

There is still no news concerning the operations in Dobruja, except the statement that the Russo-Rumanian advance guards are reconnoitering and that Constantia has been shelled from the sea, but without success.

Battles in Macedonia.
In Macedonia fighting continues in the lead of the Cerna river region, with small success for the Serbs. On the remainder of the front bombardments are in progress.

Although the Berlin war office has officially announced that the Germans have evacuated Fort Vaux, the placing this important strategic point once more in the hands of the French, the Paris war office as yet has made no mention of this fact. The evacuation of the fortress was due, according to unofficial advice from Berlin, to a rearranged plan, owing to the belief of the military leaders that the sacrifice of life in holding it was disproportionate to the value of its retention.

Gains by Allied Forces.
To the north of the Somme the French have made an additional gain between Log Roets and Sully-Sault-lez, and also taken 200 German prisoners—making the total of men captured Wednesday and Thursday in this region 124.

East of Verdun and on the Carso plateau near Valone, the Italians, after violent artillery preparation, attacked the Austrian line and, despite the resistance of the Austrians, captured the former sector, the eastern slopes of Tivola and San Marco, and heights east of Sclero. On the Carso plateau several wooded hills were taken and an advance of two-thirds of a mile was made to the east of Segut. During the fighting 4,751 Austrians were made prisoner and six guns, numerous machine guns and other war material were captured.

SANTA FE RY. LAYING HEAVY RAILS TO ELIDA
(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Elida, N. Mex., Nov. 2.—Heavy steel has been laid on this line of the Santa Fe railway through here to a point about six miles north of Elida. They began laying this heavy steel at the Pecos river, a few miles north of Roswell, and coming north to Elida nearly sixty miles of steel has been laid. It was the intention to cover the entire distance between Elida and Roswell this year, but Superintendent F. J. Kline says that they have been unable to get all the help they wanted and the progress has been slow for that reason.

CARRANZA MEN TO RECEIVE SILVER PAY

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
El Paso, Tex., Nov. 2.—Officers and men of the Carranza army, beginning today, will receive half of their pay in silver money and the rest in Carranza paper. Instead of the whole in paper as formerly, according to orders received by General Gonzalez at Juarez over the telegraph from General Obregon, the Mexican minister of war.

The message said this concession was made with the object of mitigating the hardships which the constitutionalists are now suffering, so far as is permitted by the economic crisis through which the national exchequer is passing, and also with the object of doing away with the rationing of food.

MAIL BROUGHT ON DEUTSCHLAND TAKEN ASHORE

Submarine Leaked Somewhat on Trip Over From Holes Made by Anchor Denting Side.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) New London, Conn., Nov. 2.—Barges of mail brought across the seas by the German undersea mailboat, *Deutschland*, which arrived yesterday, were brought ashore today.

Shortly before noon Mayor E. E. Short, president M. Miner of Chamber of Commerce, and about fifty others, constituting a committee, met at a conference at the pier and the ship was taken to the wharf by the tugboat, to be taken to the shore.

The ship was then divided into groups of five and each went on the submarine and looked it over.

Capt. T. A. Scott of the Scott's submarine, sent a diver down alongside of the *Deutschland* and he reported that there were fourteen small holes in the hull. They were probably made when the anchor dented the hull of the craft. The holes had caused some leakage on the trip over.

Activities of a varied nature centered about the German undersea mailboat, *Deutschland*, today. While the crew busied themselves behind the barriers which hide the submarine from public view in preparing to dispose of the 700 tons of valuable cargo which the *Deutschland* brought from officers prepared for the arrival to determine the status of the craft.

The *Deutschland* has been entered as a merchant vessel, but to insure that every neutrality provision has been observed, an inspection by both naval and customs officials was held upon at Washington. Commander Yates Sterling, who is head of the naval station here, arranged to go aboard with his aides, in conjunction with James McCreary, collector here. It was stated that the late of customs of this district. The late of customs of this district. The late of customs of this district.

BETTER SERVICE ON COLO. SPRINGS LINE

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Denver, Nov. 2.—An order was issued by the public utilities commission today committing the Colorado Springs Street railway system to operate on a 20 minute schedule the Washington line, except between 4 and 6 p. m., when a fifteen minute schedule is required. Street car service also was ordered extended to the toll lake.

This action is understood to close a controversy of long standing between the citizens, who made complaint to the utilities commission, and the railway company.

Senator Borah Is Much Better. Chicago, Nov. 2.—United States Senator William E. Shortage Due to Low Demurrage. Lincoln, Neb., Nov. 2.—Freight car shortage in this state is due to too low demurrage charges, according to J. W. Shortall, appearing at a hearing of the state railroad commission here as representative of a grain elevator association. Shortall declared that a material increase in demurrage charges would remedy the car situation.

SYRUP OF FIGS FOR CROSS, SICK, FEVERISH CHILD

If little stomach is sour, liver torpid or bowels clogged.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it can't cause injury. No dizziness, what ails your little one—constipation, a sore throat, diarrhoea, stomach-ache, bad breath, a member, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

REPORT PARRAL IS CAPTURED BY VILLA BANDITS

However, General Geo. Bell, Jr., States He Has Received No Information Concerning Message.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) El Paso, Tex., Nov. 2.—A message received by Americans here from Chihuahua City today reported that Parral, Chihuahua, had been taken by Villa troops. Gen. George Bell, Jr., commander of the El Paso district, stated that he had received no information of the capture of Parral. This town was given as Villa's objective when the bandit moved south from Santa Ysabel.

Gen. Francisco Gonzales, commander of the Carranza forces of the north, stated that he had received no information from Chihuahua City regarding the reported capture of Parral by Villistas, but admitted that such information might have reached the border in private messages.

Only Nine Americans There. As far as known here, there are only nine Americans employed at Parral and in the Parral district at the present time. These are T. G. Hawkins, A. W. Morris, Leslie Webb and Howard Gray, all of whom are employed by the Alvarado Mining Company. W. E. Palmer, Dr. J. Flannigan, W. E. Cowell, C. B. Smith and another American whose name is not known. Four of these men are employed at the other mines in the Parral district and Dr. Flannigan is a practicing physician in Parral, according to Americans who formerly lived there.

Parral is fifty-four miles southwest of Jimenez, Chihuahua, and 110 miles in a straight line from Chihuahua City.

Carranza Consul Eduardo Soriano Bravo denied the report that he had been taken. He said Gen. Luis Herrera had a garrison of 2,500 men in Parral and said the garrison was well supplied with ammunition, arms and artillery.

At the general offices of the Alvarado Mining and Smelting Co. here, it was stated that no information had been received in reference to the report that Villa troops had captured that town. The Alvarado company is one of the largest operating in the Parral district and its officials here are making efforts to obtain information from their representatives there by way of Chihuahua City and also by way of Eagle Pass, Tex., Torreon and Jimenez.

Concerned Over Americans. American mining men who have interests in Parral, which was reported to have been taken by Villa troops on Tuesday, are much concerned over the fate of the nine Americans known to be in Parral. This concern was increased, tonight by the news from Chihuahua City that the bandits who held up the Mexican Central passenger train Monday evening at Laguna station, assaulted Dr. Steven Haffner, a German subject, because they thought he was an American. This, they say, is an indication of what may happen to the nine Americans in the Parral mining district.

Mining men and are freighting here who are thoroughly familiar with the country in the vicinity of Parral, say that Villa probably moved on Parral from Santa Rosalia, following the Conchos river to Pilar de Concho, a distance of forty-five miles from Santa Rosalia, and then marched south forty-five miles against Parral, entering the town from the north, which is the most accessible, they say.

Report Verified. These mining men declare that the report of Villa's capture of the town of Parral had been in possession of Carranza since it was announced that he would move on Parral from Santa Rosalia.

Villa is said to have a grudge against General Luis Herrera, and Carranza commander in Parral, and to have declared that he captured Parral, he intended to kill Herrera with his own hands.

The report of Villa's capture of Parral was received here by government agents tonight and forwarded to Washington.

BANDIT LEADER TO BE EXECUTED

(BY MORNING JOURNAL SPECIAL LEASED WIRE) El Paso, Nov. 2.—Col. Juan Garcia, said to be a Villa bandit leader, was brought to Juarez to be executed. It was announced by General Gonzales, commander of the Juarez garrison, today. Colonel Garcia was captured on the Santa Ana ranch, near Namiquipa, by Carranza troops while looting the ranch, according to General Gonzales. Three of his men will also be brought to Juarez for execution, General Gonzales added. Colonel Garcia is said to have been carrying important papers to Villa from one of his commanders.

Five bandits were shot at San Buena Ventura, near El Valle, Wednesday, a report made to General Gonzales from the commander of that garrison stated.

Cuba Gives Zayas a Large Majority. Havana, Nov. 2.—At 11 o'clock this morning the official figures of the voting yesterday for president of Cuba gave Alfredo Zayas a majority of 9,000 for all provinces in the public with 820 colleges missing. Senor Zayas, who is the nominee of the liberal party and opposing President Menocal, the conservative candidate, told the Associated Press that his majority would reach 20,000. The liberals are leading in all provinces.

a whopper and that the big Armory will be crowded almost to its capacity, when in going home.

The rally is not for the men only. The ladies are also invited. They are invited to come alone, or with their husbands, on foot, horseback or in an automobile. The ladies will be welcomed, even if they can't vote on election day. The democrats of the county hope that it will not be long before the women will be voting on an equal basis with the less intelligent male contingent. Because of this, they believe that the ladies should get into the habit of attending political rallies, and that the Saturday night rally offers a splendid opportunity for a starter. There will be speeches by prominent democrats of the state, including Governor McDonald and Billy Walton, candidate for congress.

MAY USE FRENCH IN ONTARIO GRADE SCHOOLS

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Montreal, Nov. 2.—The French language may be used in the Roman Catholic separate schools in Ontario only in lower grades, the privy council of England holds, according to a cable summary of a decision by the highest court in the empire received here today. This settles a warmly contested issue over the administration of these schools, located in the eastern part of the province, where of late years the problem of language has been added to that of religion by the influx of a large French population from adjoining countries.

A regulation of the Ontario board of education providing that French be used as a medium of instruction only in the lower grades was taken to the courts by the trustees of the Roman Catholic separate schools, but now is upheld by the privy council.

Gold Exportation Excites Bankers.

New York, Nov. 2.—The curious anomaly of an exportation of \$50,000 United States gold coin in the face of the enormous gold movement in the other direction excited interest in banking circles today. The exportation was made by the Chase National bank. While officers of the bank made no explanation of the shipment, it was assumed that the transaction probably had its basis in the private sale by British interests or investors of small amounts of American securities. There have been other similar transactions lately, it was learned.

Judge McCormick Dies. Waco, Tex., Nov. 2.—Judge A. P. McCormick, of the Fifth district, United States court of appeals, died here early today. Judge McCormick was 53 years old and was appointed to his present position in 1912. The funeral will be held in Dallas.

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic salve into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Ah! how good it feels. Your nostrils are open, your head is clear, no more hacking, sniffling, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

2,000 MEN HAVE QUALIFIED FOR OFFICERS NOW

Commissions to Be Handed Out in Officer's Reserve Corps, as Recently Provided by Congress.

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Washington, Nov. 2.—Approximately 2,000 men throughout the country have already qualified for commissions in the officers reserve corps of the army, recently created by congress. The act provides that those who will be an undoubted reserve corps in time of war will be drawn from the necessary additional officers for the regular army and those for all volunteer regiments that may be authorized.

Army officials are well pleased with the progress made in this vital step toward adequate national defense. It is expected that within another year nearly 15,000 officers will have accepted and commissioned, ready for immediate active duty should the need arise.

Now Preparing Commissions. At the bureau of printing and engraving, the commissions for the reserve officers are now being prepared. They will correspond closely to those issued to officers of the regular army and will bear the signature of the president in every case.

The officers reserve corps, as distinct from the reserve officers training corps, also newly created, was designed by congress to furnish within the shortest possible time a great body of men whose ability to lead troops in the field had been tested and approved and who would be under definite obligations to respond instantly to a call to the colors. Every man must pass an examination before a board of army officers, in which his knowledge of military theory and practice is tested. When he has been commissioned, the reserve officers keep the command of the military department in which he has been informed of his movements, ready for mobilization.

Reserve officers will be named in grades up to major and are selected for the various staff corps as well as for the line. Included among them will be already many doctors, engineers, telegraph and telephone specialists, railroad engineers, contractors and the like.

Have Issued Regulations.

The war department has issued regulations governing the enrollment and training of the officers reserve corps, and the reserve officers training corps, and for the minor schools which will eventually form a feeder to the training corps as the latter will be the main source from which the reserve corps itself will be recruited.

Proposals as to regulations to govern the officers reserve corps, also newly created and including provisions for the enrollment of skilled workers in all trades and professions that would be valuable to the army in time of war are now being prepared. A series of general orders will soon be issued after which the enrollment of the men will begin.

The regulations for the reserve corps provide that any American citizen within the prescribed age limits and physically fit for military duty may apply for a commission. The general heads of the subjects in which he will be required to pass oral or practical tests are given and a full list of reference books, army regulations and the like with which he may prepare is published. The particular requirements for each branch of the service are also set forth for each available grade in rank.

Decided Into Twelve Sections. The corps has been divided into twelve sections, one for each distinct branch of the military service. These are the infantry, cavalry, field artillery, coast artillery, medical, engineering, dental and veterinary adjutant general's, judge advocate general's, inspector general's, quartermaster general's, signal, ordnance and signal.

Each officer will be liable for fifteen days service in each calendar year with troops or under instruction within the military department in which he has been commissioned. The period of training can be extended only with the consent of the board and he will receive the pay and allowances of his grade in the regular army while on training duty.

CLAIMS THREE R'S NOT FUNDAMENTALS

(BY MORNING JOURNAL SPECIAL LEASED WIRE) Denver, Nov. 2.—"Reading, writing and arithmetic are not fundamentals," Prof. J. H. Francis, superintendent of public schools of Columbus, O., told the Colorado Teachers' association here today. "Anyone who is living to the fullest capacity is educated," continued Professor Francis. "A man is educated who is into his job."

Sectional meetings were held in various buildings early today, with the principal session at the municipal auditorium this afternoon. Hundreds of teachers and educators from all over the state are in attendance.

General Lawton's Name Perpetuated. Washington, Oct. 26.—The name of Major General Lawton, famed in the annals of the American army from the time he entered the service as a volunteer in 1861 until he fell in the Philippines in 1899, has now been perpetuated in the National museum here by a large collection of his personal belongings intimately connected with his military career. Among the work, when the Spanish-American war, together with the flag of the Eighth army corps flown at his headquarters in the Philippines.

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic salve into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Ah! how good it feels. Your nostrils are open, your head is clear, no more hacking, sniffling, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

MEN FEEL TIRED, TOO.

While much is said about tired women, it must be remembered that men, also, pay the penalty of overwork. When the kidneys are weak, inactive or sluggish, when one feels tired out and miserable, lacks energy and ambition, Foley Kidney Pills are tonic and strengthening. Wm. H. Clark, Springfield, Ohio, writes: "I found no relief from kidney trouble until I discovered Foley Kidney Pills. Now I am in A 1 shape." They act quickly and surely. Sold everywhere.

MEXICAN LAWYER AT
NOGALES ARRESTED

(BY MORNING JOURNAL SPECIAL LEADERS WIRE)
Tucson, Ariz., Nov. 2.—Adolfo Minero, a Nogales, Ariz., lawyer associated with a well-known firm of American lawyers, was taken into custody late today at the border city, on a charge of conspiring with others to equip a revolutionary movement in Mexico. He surrendered to officers when he heard there was a warrant for his arrest.

Federal officers here who have been looking for General Rivera, wanted in the same connection, have been unable to locate him. Concern is expressed by officers that the premature publication of the names of the eighteen alleged conspirators here, may have materially interfered with plans for rounding up persons alleged to be implicated in the plot. The hearing of Dr. G. R. Serin at this city, and two others being held in the county jail, will be before United States Commissioner Jones Friday morning.

BIG RALLY AT
BELEN; DE BACA
AND BARTH SPEAK

(SPECIAL DISPATCH TO MORNING JOURNAL)
Belen, N. M., Nov. 2.—The largest and most enthusiastic rally ever held in Valencia county was held here tonight by the democrats. Men on foot, in wagons, automobiles and autos, formed in a large procession near the Harvey house, headed by a brass band, and marched through the principal streets, terminating at Goble's theater, where fireworks were displayed, ending in an immense confire.

The speakers of the evening were the democratic nominee for governor, Hon. E. C. de Baca, and Senator Barth. They were escorted into the theater, where a rousing reception was given them by as many as could crowd inside. The windows and doors were packed and the most prominent men and women of the town were in the audience.

There will be a citizens rally, tree smoker and dance at Goble's theater Saturday night and a big crowd is expected.

The independent democratic ticket for Valencia county is: For senator, twelfth district, Tobias Espinosa, Belen.

For representatives for first representative district, W. C. Kennedy, Seboyeta, and Charles H. Goebl, Tonne. For district attorney, seventh judicial district, Milton J. Helmick, Socorro.

For county commissioners, first district, Medardo Sanchez, Belen; second district, Arcadio Ruiz, Vazior; third district, Donatiano Pina, Belen.

For probate judge, Ramon B. Chavez, Tonne. For county clerk, Ubaldo I. Sanchez, Valencia.

For sheriff, John B. Raff, Los Lunas. For assessor, E. O. Reese, Belen.

For county treasurer, John B. Becker, Jr., Belen. For superintendent of schools, Ramon Bues y Chavez, Belen.

For county surveyor, R. G. Marmon, Laguna. Polling place for precinct No. 2, Belen, at justice of the peace office.

CUSTODY OF FOUTS
CHILDREN REWARDED;
FATHER GETS THEM

Judge Herbert F. Reynolds yesterday modified the decree, entered more than two years ago, divorcing William R. Fouts and Mrs. Nellie R. Fouts. At the time, the decree was entered Mrs. Fouts was given the custody of their two children, Lois and Harold. The modified decree, entered yesterday awards the custody of the children to Mr. Fouts.

In the original decree Mr. Fouts was required to pay \$25 a month for the support of the children. The modified decree, giving him custody of the minors, relieves him from further payments of this support money.

WALL STREET IS
MANIPULATING
BETTING ODDS

Wealthy Backers of Hughes
Are Spending Money in Lavish
Manner to Create Im-
pression.

(SPECIAL DISPATCH TO MORNING JOURNAL)
New York, Nov. 2.—Experienced observers are convinced that the election being in Wall street is being manipulated in the interest of Hughes. The change from even money, the condition which prevailed a few days ago, to 10 to 8, and even 10 to 7 in favor of Hughes, has been too precipitate to admit of any other explanation. This theory is borne out by the lavish manner in which the wealthy backers of Hughes are spending money to advance his cause, the most patent manifestation of which is furnished by the pages of advertising interests are buying in newspapers throughout the country.

Those who have had any experience at all with the betting market are convinced that it has been rigged, says the New York Globe, a republican paper supporting Hughes, in its market review tonight.

"It is, indeed, an open question whether speculative interests, which a week ago wanted to get stocks down and this week have been anxious to get them up, have not been manipulating the betting odds. There is no law against 'matched orders' in the betting ring."

Everyone who realizes what is at stake in this election knows that Wall street could well afford to spend \$10,000,000 to return the republicans to power, in the confident expectation of overturning the federal reserve act and getting the power to create panics again in their hands, to say nothing of the prospect of again imposing a monopoly tariff upon the people.

CLAIM ELECTION OF
MENOCAL IN CUBA

(BY MORNING JOURNAL SPECIAL LEADERS WIRE)
Havana, Nov. 2.—The re-election of President Mario G. Menocal, the conservative candidate at yesterday's election, was claimed by the secretary of the interior, Aurelio Hevia, in a statement issued tonight. The provinces of Pinar del Rio, Matanzas, Santa Clara and Oriente, have been carried by the conservatives. Secretary Hevia asserted, giving President Menocal 56 electoral votes out of a total of 122.

The liberal party leaders, however, continued to claim the election of Dr. Alfredo Zayas, former vice president, by a large majority.

SOLDIERS VERY
INDIGNANT OVER
MEXICAN POSTER

Sergeant John Kinney Saberes
Republican Campaign Pos-
ter While Three Hundred
Guards Cheer.

(SPECIAL DISPATCH TO MORNING JOURNAL)
New Haven, Conn., Nov. 2.—Sergeant John Kinney, recently returned from the border with the second regiment, satired a republican campaign poster, labelled as "he neglected me and mine," off a billboard opposite the armory here this afternoon.

As Kinney sailed into the poster, which shows President Wilson next American soldiers being stabbed by two Mexicans, 200 members of his regiment cheered. Kinney said the poster was an insult to any soldier who had done border duty.

After Kinney had been warned by a policeman, he appeared in vain at police headquarters to have the poster removed. Kinney, a republican, immediately said that he told him the democrats were responsible for the poster. But Kinney got a denial from democratic leaders and went back to the republicans about it.

The chief of police and the acting mayor, both republicans, said they saw no harm in the poster and it must stand.

A lieutenant ordered Kinney to remove his sergeant's stripes. The other militiamen promised, law or no law, to destroy the posters if they are still up tomorrow.

TO PROPOSE STATE
UNIT SCHOOL LAW

(SPECIAL DISPATCH TO MORNING JOURNAL)
Santa Fe, Nov. 2.—A state unit law, just as there is a county unit law in the coming legislature by friends of the public schools. Having attained a seven months school term for every rural district, the next step will be a nine months term and then a ten months term, and all the year-around rural school. But some of the counties would be unable to levy sufficient taxes to carry a nine months term.

Nevertheless, the state is as much interested to have the young people of Roosevelt county as it is to have those of Luna county attend nine months a year, even though Luna has the best of it in railway mileage and taxable. It is figured that the railroads are not county entities anyway, that the entire state is interested in them and should have the revenue from them. Similarly, the state lands are not county grants but belong to the entire state and the revenue from them should not be distributed so that the counties already immensely rich get the lion's share of them but the revenue should go to those counties that need it most.

Other states are cited as precedent for handling the school income as a whole and giving each county and each school district some quality of school facilities, whether the county happens to have many miles of railroad or none, and whether it happens to be immensely rich or is poverty-stricken.

AUTO POLO, MOST
THRILLING SPORT,
TO BE HERE SOON

President Southard Succeeds
in Getting Three Days, Nov.
9, 10 and 11, for American
and English Team Contest.

Auto polo! Of course, you've never seen it, because it is making its appearance in the southwest this fall for the first time. It is the real thing, the original and only Ralph A. Hankinson's American and English polo teams.

It is to be seen in Albuquerque, November 9, 10 and 11, at the state fair grounds. Arrangements for the exhibition were made yesterday by President W. P. Southard, of the state fair board, with C. Ray Stebbins, advance agent of Mr. Hankinson. The proceeds of the three days are to be utilized for paying off the bills incurred by the state fair under the Ely management two years ago.

Mr. Southard tried to get the show for the state fair this year, but dates conflicted. The auto polo show went to the northwest for the Montana state fair, and came from there to the Utah state fair at Salt Lake. It will stop here on its way to the Arizona state fair at Phoenix. That is how Albuquerque happens to get it. The same players have performed at twelve state fairs this year, among them the two greatest fairs in the United States—those of Iowa and Minnesota—being the second appearance at both fairs, and they are engaged for each of them next year.

What this show for Albuquerque amounts to may be judged from the following excerpts from newspapers of the country:

New York Herald—Polo played from automobiles had its initial performance here yesterday afternoon. The Madison Square Garden were treated to one of the most thrilling developments to date in the realm of sports. Take all the harum scarum, dare-devil driving of these contestants in a Vanderbilt cup race, as they make their hairpin curves and concentrate it into the limited space of the garden arena and some idea may be had of the exciting twists and turns that the rival drivers made in the contests yesterday. The work of the drivers was absolutely marvelous, and any Broadway taxi driver who would like to get a few pointers should take a view of this hair-raising sport. They turned and stopped their machines with as much skill as the equestrian polo riders, but they had the additional advantage over the horsemen of being able to run their mounts backward at full tilt. Time after time the cars stood up on two wheels, and once once of them turned completely over; the two men shot out and picked themselves up and immediately rushed back, righted the car and resumed play in twenty seconds.

New York Press—"Well! So they call this auto polo," said a spectator at the auto polo match in Madison Square Garden last night. "It is a mixture of a bull fight, derisive dance and a Gaelic football game. I can't call it anything but a good one. I'll jump through and roll over." The new sport certainly is a thriller. All a player needs is an entire absence of nerves, a clean conscience and a life insurance policy. The game is highly exciting from beginning to end and the promoters are justly entitled to the loyal support they are receiving.

New York World—Vincent Astor, a young man burdened with \$25,000,000, who was a visitor at the auto polo contest at the Garden last night, says: "I never saw cars handled with greater ease and skill. In fact, one can hardly get a conception of the game from a brief description, no matter how elaborate one may dwell upon the subject. The producers are to be congratulated for the addition of this fascinating game to the sport calendar." And he is known that Astor is some judge of driving for he can handle a racing car with the best wheelman in the country.

New York Evening Telegraph—Five thousand persons saw a thrilling contest last night, and many devotees of pony polo and members of the smart set were among the spectators and voted the new game a huge success. It requires skill, courage and strength to play auto polo, and all these requisites were on tap in the games yesterday. It is pure and simple polo as played by men mounted on trained ponies, only automobiles are substituted for the ponies. And what these automobiles are made to do during the game was a revelation. Manipulated by past master auto pilots, they raced, dodged, twisted, backed up, jumped into the air, collided and sometimes capsized, but they met every emergency as sound as a dollar after the game.

Is auto polo a bluff? No! No! No! Thrilling will hardly express the five periods as shown at the Western League park yesterday. It is a real thriller and was a surprise to even the newspaper men, who are used to unusual things. The efficiency reached in handling an automobile cannot be realized until they are seen whirling and dashing around in a polo game. It can be stated straight from the shoulder that the game is everything that has been said of it, and even more.

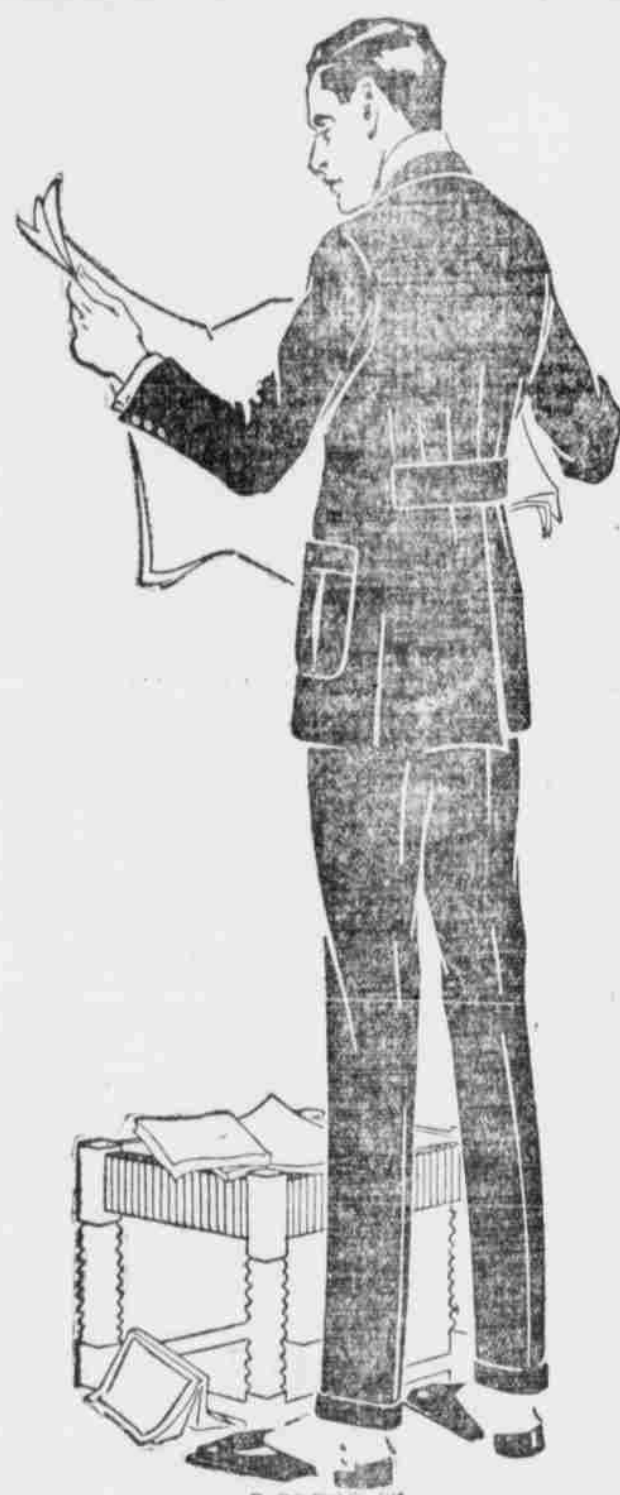

**BENNY CHAVEZ PUTS
REFEREE DOWN WITH
ACCIDENTAL PUNCH**

(BY MORNING JOURNAL SPECIAL LEADERS WIRE)
Kansas City, Mo., Nov. 2.—Benny Chavez of Trinidad, Colo., knocked out Freddy Hamann of San Francisco in the tenth round of a scheduled twelve-round match at the Municipal arena here last night. Both are featherweights. Chavez scored another knockdown in the first round, when he floored the referee with an accidental swing to the jaw, as he was being pried out of a clinch. The official was dazed but continued in the ring.

DE BACA SPEECH IN ALBUQUERQUE TO BRING FIGHT TO HOT FINISH

Whirlwind Campaign Planned for Democratic Candidate for Governor During Last Days of Present Week.

WALTON AND LUCERO TO AID IN FIREWORKS

Albuquerque Voters to Hear Juan B. Larrazola, Meteoric Young Speaker Who Has Made Mark in Contest.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL.) Santa Fe, Nov. 2.—The big rally to be held in the national guard armory in Albuquerque Saturday night, at which E. C. de Baca, W. B. Walton, Antonio Lucero and Juan B. Larrazola will address a monster gathering of Bernalillo county voters, will, so far as the democrats are concerned, bring the campaign to a close. There will be other rallies in other cities of the state on the same night, and speakers will be on the stump in different localities on Sunday and Monday also, but so far as the spectacular speech-making part of the campaign is concerned, the Albuquerque rally will be the closing fireworks.

Lieutenant Governor de Baca will have a strenuous time of it the last two days of this week. On Friday he will spend the day in Dona Ana county, making campaign speeches up and down the valley and concluding Friday night with a big rally in Las Cruces. Something of the same sort is planned for him in Bernalillo county from Las Cruces Saturday morning. He will be taken in an automobile with a number of other prominent democrats and will spend the day with Mr. Walton, Mr. Lucero and Mr. Larrazola, speaking in the outlying precincts of Bernalillo county, returning to the city in time for the big demonstration at the armory at night.

It is a feast of oratory that the voters of Albuquerque will have offered to them Saturday night. In addition to Mr. de Baca, who is recognized as one of the most forceful speakers in New Mexico, there will be State Senator W. B. Walton, the democratic candidate for congress and an orator of more than statewide reputation, and Secretary of State Antonio Lucero, whose eloquence has many times stirred the people of Bernalillo county.

Besides the candidates there will be an address by Juan B. Larrazola, son of Octaviano A. Larrazola, who has been one of the real sensations of the present campaign. Young Larrazola has perhaps attracted more attention than any other speaker on either side, with the possible exception of some of the candidates. He has spoken in almost every county in New Mexico and has been a tower of strength to the democratic candidates.

Mr. Walton and Mr. Larrazola have never been heard in political speeches in Albuquerque, and their addresses will undoubtedly prove a strong attraction to draw out a big crowd. Ralph C. Ely, chairman of the republican state central committee two years ago, but now aligned with the progressives and independent republicans of the state in the fight against the Hubbell-Bursum combination, has at last gotten into the fight actively for the democratic-progressive state ticket, and reports are to the effect that he is making a strong impression wherever he is heard.

Mr. Ely's delay in getting into the fight has been due to his absence from the state on business matters, but he is now in it as vigorously as it is possible for him to be. He will speak tomorrow night at Las Vegas, Saturday at Raton, and will wind up the campaign Monday night as the principal speaker at a big democratic rally in Alamogordo.

A. A. Jones will speak Saturday at Springer and will go, after the meeting, to his home in Las Vegas, where he will remain until after the election. It is not Mr. Jones' intention to take part in any spectacular rally prior to the election, but to spend the last two days before the balloting among his friends and neighbors at his home.

ITALIANS VIGOROUSLY ATTACK AUSTRIANS

(BY MORNING JOURNAL SPECIAL LEASED WIRE.) Rome, via London, Nov. 2.—The Italian offensive was directed against the heights east of Gorizia and a strong new line on the Carso east of Vallone. The official text follows: "On the Julian front yesterday our troops attacked powerful defenses on the heights of Gorizia and a strong new line on the Carso east of Vallone. The offensive resulted in the capture of the enemy's line." "South of the Oppanassella-Castagnavizza road the enemy's line was occupied at several points and held against incessant counter attacks."

"During yesterday 4,721 prisoners, 22 officers, and also six guns of 100 millimeters, many machine guns, transport animals and other material were captured."

"Hostile aircraft dropped bombs on several villages in the lower Isonzo. The casualties at Pavia were one soldier, a captain and four Red Cross men."

"A powerful squadron of sixteen Caproni battleplanes escorted by Nieuport machines bombed the enemy's camps in the Friulano and Viproni's valleys with two tons of explosives. In spite of heavy fire from hostile aircraft batteries all our machines returned safely."

Lassen Peak in Eruption. Redding, Cal., Nov. 2.—Lassen peak began spouting today, belching mighty balls of black smoke at intervals of from five to ten minutes. Those who have watched the mountain since it awoke out of a fifty year torpor in May, 1914, expressed the opinion that the peak's crater is bubbling cauldron, explosions. The shock of many of the year's most violent eruption of the year took place yesterday afternoon, according to observers reaching here yesterday.

TOLEDO TURNS OUT BIG CROWD FOR ROOSEVELT

Colonel Tells Them He Came to Give Reasons for the Faith That Is in Him, and Asks for Hughes' Support.

(BY MORNING JOURNAL SPECIAL LEASED WIRE.) Toledo, O., Nov. 2.—Col. Theodore Roosevelt, in a speech here today, told one of the largest crowds that ever gathered in a Toledo public hall that he came here to "give the reasons for the faith that is in him." He asked support of Charles E. Hughes for president, and aid in making the congress and senate of the United States such as will back him up.

"I am here in no partisan sense," declared the speaker. "I am appealing to all good citizens to save the country from ruin."

"I believe in certain reforms," he said, "but before we can work reforms within the nation, we have got to be sure that we have got a nation. There is another principle that we cannot too jealously guard, and that is that we see to it that our public servants mean what they say and keep their promises after election."

"We must protect ourselves from men who say one thing at one time and another thing at another time, and do none of the things none of the time."

"President Wilson has unexampled switching facilities. The first duty of any government is to protect the lives of its people. Mr. Wilson has said that he is too proud to fight. I saw the other day by a Wilson paper that he said there may be circumstances under which he might fight and the things he is willing to fight for."

"Mr. Wilson says he is going to do some fine things in the future. Do it now, Mr. Wilson, or keep still."

MOST DESPERATE BATTLES RAGE IN CARPATHIANS

(BY MORNING JOURNAL SPECIAL LEASED WIRE.) Berlin, Nov. 2.—(By wireless to Sayville.)—Combats in the Carpathian passes are being carried on with extraordinary rage. The Rumanians at the eleventh hour are trying to bar the gates of Wallachia by the engagement of rapidly concentrated reserves, says the Overseas News agency.

Mighty trenches north of Predeal, as well as positions at Azula, which consist of permanent works connected by a series of trenches, including trench systems, wolf traps and barbed wire defenses, were partly crushed by the cannon of the advancing German and Austro-Hungarian army groups, or were partly outflanked.

South of Azula, in the Teinomer pass, as well as south of Torschburg, the attacking troops slowly but irresistibly marched ahead against Campling, says the agency, which adds:

"These mountain battles are being fought through terrain filled with snow and made impassable by rain between ravines and snow covered summits. They require the utmost energy on the part of the commands and troops and belong to the most difficult but at the same time most glorious exploits of this campaign."

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.
Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphate is quickly and easily extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, biliousness, acid stomach trouble, rheumatic stiffness, others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Major General Maurice Replies to Statement Made by Hindenburg; No Effort to Break German Lines.

(BY MORNING JOURNAL SPECIAL LEASED WIRE.) London, Nov. 2.—During the course of an interview with the Associated Press correspondent today, Major General F. R. Maurice, chief director of military operations at the war office, was asked what he thought of Field Marshal von Hindenburg's statement the entente allies could not break through the western front in thirty years. General Maurice replied:

"Our recent offensive was not designed to break through. Its purpose was to relieve the pressure on Verdun and kill as many Germans as possible. I will not undertake to say whether it will take thirty years to get the Germans out of France, but the allied strength constantly is growing and the German strength constantly is declining. The effect of the allied offensive is accumulative. When the weather permits its resumption, the results will be greater than ever. Torrential rains in the past week have prevented actions of any great consequence."

"It is no doubt true that the Germans in recent fights have been short of ammunition. During the winter, with its short days, limiting the use of artillery, they will be able to replenish their stores, but despite the bad weather, we have no intention of letting up on them."

"Our offensive will continue throughout the winter when conditions are at all favorable."

Donnelly, Minn., in Flames. Donnelly, Minn., Nov. 2.—Fire swept the business section of this town early today, causing damage estimated at \$300,000 before being subdued by firemen from Morris and Herman, who were rushed here in automobiles. Only five business establishments escaped the flames.

'RAT' RUMOR IS BOOMERANG TO CANDIDATES HERE

Attempt to Put E. C. de Baca on Defensive Cleverly Blocked by Democrats in Albuquerque.

When the republican campaign managers in Santa Fe sought to discredit E. C. de Baca, democratic candidate for governor, in the eyes of union labor men by circulating a rumor to the effect that Mr. de Baca owned a non-union paper in San Miguel county, they started something with a backward kick. In other words, the rumor has proved a boomerang, as far as Bernalillo county is concerned. The charge is made by prominent union labor leaders here, in a position to know the whole truth, that La Bandera Americana, owned by Frank A. Hubbell, republican candidate for United States senator, and edited by Nestor Montoya, republican candidate for county clerk, is a "rat" paper, printed by open shop printers and pressmen.

It is estimated that the de Baca story, as sent out from Santa Fe, will cost Nestor Montoya several hundred votes in the city of Albuquerque, and that these votes will all go for Dennis Chavez, the democratic candidate for county clerk. The claim is made that Mr. Montoya has been the editor in charge of La Bandera Americana for a number of years and that he has had abundant opportunity to employ skilled labor if he had been so inclined.

Education, or Ring Politics?

J. H. Wagner is asking the votes of the people of New Mexico for the office of Superintendent of Public Instruction.

Is he appealing for support on the ground that he can better school conditions—that he will strive to improve the educational system of the state—that he will help New Mexico to advance in the march of progress and enlightenment?

He is not. On the contrary, he has issued a lengthy circular letter to the voters of New Mexico in which he appeals for support solely on the ground that he is running on the ticket with H. O. Bursum and Frank A. Hubbell. Two-thirds of his letter is given over to a eulogy of those politicians of ill repute—to a feeble and lame attempt to cover over the shameful records of abuse of official power that stand out against them.

This is the man who asks to be placed at the head of the schools—a man who seeks office not as an educator but as a Bursum-Hubbell satellite.

Could there be any more convincing proof that the return of the old republican ring to power would mean that the schools of the state would lapse back into the condition of disgraceful inefficiency that characterized them when the ring was in power before?

DO YOU WANT THE SCHOOLS KEPT OUT OF POLITICS? THEN VOTE FOR J. L. G. SWINNEY FOR SUPERINTENDENT OF PUBLIC INSTRUCTION.

STOLEN MOTOR CAR FOUND AT WINSLOW, ARIZ.

Driver, Who Gives Name as Fred Warren, Held by Officers; Will Be Brought to Albuquerque.

Handcuffed by the fact that the theft of W. C. Keim's automobile was not discovered for nearly twenty-four hours after it had been taken, Chief J. R. Galusha traced the car to Winslow, Ariz., and directed officers there to take possession of it. Fred Warren, who drove the car to Winslow, was arrested and will be brought here to face the charge of larceny.

The automobile was stolen from the garage in back of Mr. Keim's home, 514 West Central avenue, Monday night. The car, their saloon, was broken by breaking a glass pane in the door of the garage, reaching inside and unlocking it. He got the car away without disturbing any one in the house. Mrs. Keim did not know that the car was gone until Tuesday night. She reported the loss to the police as soon as she found that the car was gone.

Chief Galusha learned the following day that an Indian had been awakened at Isleta at midnight Monday by an automobile tourist who wanted gasoline. Mrs. Keim's car was this car. From Isleta the driver might have taken any one of three trunk highways.

Gets Past Gallop.

Working on this new Chief Galusha telephoned to Peralta. He ascertained that Mrs. Keim's car had been here but gone. The driver stopped there for gasoline. Efforts to locate the man by telegram were continued. The chief learned yesterday that the car had passed through Gallup Wednesday night. The owner of the garage at which the car was stopped yesterday morning and by that time the car had gone.

Chief Galusha then made an attempt to stop the machine at Holbrook, Ariz. He learned that the car had passed through that town and he tried Winslow next. The race between the car and telegraph ended there. From Winslow the chief received the wire he had been looking for. It told him that the driver was under arrest and the car held by officers. The car was in good condition.

The name of the driver, given by Winslow officers, is Fred Warren. The police know no Fred Warren of Albuquerque. They believed, however, that the car was not taken by an Albuquerque man.

Wrong Man Nabbed.

Warren will return without requisition, the police were informed, under Sheriff Dick Lewis will send a deputy shortly after him today. Mr. Keim will go to Winslow to bring back his car.

The police sent hundreds of telegrams and postcards to points on main highway in New Mexico and Arizona before the trail was picked up definitely. After receipt of one of these telegrams a tourist, who drove a Buick car—the kind taken from Mr. Keim's garage—was held by officers at Springerville. When Springerville officers obtained a complete description of Mr. Keim's car, and learned that the tourist did not have it they released him.

TAKES GUN FROM A GIRL WHO INTENDS TO COMMIT SUICIDE

Judge W. W. McCallan of the police court saved a girl wife from possible suicide yesterday by taking a loaded revolver away from her. She said she intended to kill herself. The judge saw her buying the gun in a pawnshop.

The girl, 17 years old, came with her husband, a part time shoemaker, to the Albuquerque high school in the state contest, which will be held tonight at the high school auditorium. No admission will be charged.

HUBBELL LAND VALUATION BASIS OF A PETITION

Property Assessed at Lower Rate Than Land Owned by Him, as Trustee, and Others, Says Stroup.

The district court was asked by A. R. Stroup, attorney, to reduce taxes assessed upon tracts owned by himself, as trustee, A. R. Stroup and J. M. Stroup on the alleged ground that the rate of assessment for this property is higher than that for lands owned by the Frank A. Hubbell company. Judge H. P. Reynolds denied Mr. Stroup's petition yesterday.

A. R. Stroup and J. M. Stroup own jointly 190 acres in precinct No. 11 and A. R. Stroup, trustee, 200 acres. The Frank A. Hubbell company's lands bound the 190-acre tract on the north and the 200-acre tract on the south. The Frank A. Hubbell company's land is similar in character to that of the Stroups and approximately the same proportion is in cultivation. Mr. Stroup alleges in his petition.

Mr. Stroup quotes these assessment figures on the Stroup lands: 190-acre tract, for 1914, \$9,336; for 1915, \$4,925; for 1916, \$5,090; 200-acre tract, for 1914, \$3,180; for 1915, \$2,180; for 1916, \$6,460.

Frank A. Hubbell company, says Mr. Stroup, in the owner of a tract of 1,449 acres lying north of the 190 acres, of 809 acres lying immediately south of the 200 acres, and also sundry smaller tracts having a combined area with the two larger tracts of more than 1,900 acres. All of the 1,900 acres is within the Rio Grande valley. Mr. Stroup says.

The assessment of the Frank A. Hubbell company's lands, according to Mr. Stroup, was for 1914, \$26,564; for 1915, \$16,450; for 1916, \$22,850. These assessments included not only the 1,900 acres of Rio Grande valley land but also "vast areas of non-land, extending from the Rio Grande valley to the Rio Puerco valley," according to Mr. Stroup's petition.

SPECIAL RATES FOR DEMOCRATIC RALLY TO BE HELD SATURDAY

The demonstration with which the democrats will close the campaign for Bernadillo county will not be for members of the party in Bernadillo county only. Democrats of other counties may take part. In fact, N. K. B. Sellers, who has charge of the demonstration, wants them to.

The Santa Fe railway, Colonel Sellers announced, has granted a reduced rate for the rally from points between Socorro and Santa Fe. In view of this he expects many democrats to come from Socorro, Valencia, Sandoval and Santa Fe counties to join with members of the party in Bernadillo county in the parade and rally.

Colonel Sellers announced a new feature for the parade. It is a quartet which will sing campaign songs. Robert Sewell, Stanley Selzer, Jack Lippin and Lyle Vincent made up the quartet.

STATE BANKERS WILL MEET HERE NOVEMBER 14-15

Getting Line on Number That Will Attend So That Accommodations May Be Reserved Early.

Big attendance is expected at the convention of the New Mexico Bankers' association which is to be held here November 14 and 15. Preparations being made for taking care of visitors indicate that. An effort is being made to make accommodations for all visitors as soon as possible so that no one will have to suffer inconvenience because of the expected crowd.

The association is making an effort to ascertain exactly how many persons are coming for the convention, when they will arrive, how long they will stay and what accommodations they wish. Cards have been sent to bankers throughout the state asking for this information. They are to be returned to W. A. McMillin, cashier of the American Trust and Savings bank.

The bankers' association met last year at Roswell. The executive committee was charged then with selecting the next meeting place. The committee decided upon Albuquerque. John Corbett is president of the association and J. C. Christensen secretary.
