Workers' Union.

### OTHER TELEGRAPHIC NEWS.

Washington, Sept. 25.—The gunboat Urdanata, captured with the crew at Manila, about twenty-five miles from Manila, on the bay of Manila, is a little craft not much larger than a small tug. She was captured by the navy early in the war, and has been on police duty in the bay for months past. She drew supplies from the battleship Oregon and was manned from the Oregon crew. According to last reports the boat was last May under command of Naval Cadet Wilbur Wood, but the personnel of the crew is not a matter of record, being subjected to frequent changes. Wood was appointed to the naval academy from Oregon and had passed the academic course and was performing sea service at the time of his capture.

The Urdanata Detailed.  
Manila, Sept. 25.—The United States gunboat Urdanata, captured by the rebels, is being detailed to the town of Orani, on the Orani river. She was riddled with bullets and shrapnel, and the following guns, with their ammunition were captured: One one-pounder, one 100 automatic gun, one Nordenfiet twenty-five millimeter gun. The crew of the Urdanata are prisoners or have been killed. Further details are lacking.

A Lively Skirmish.  
Buenos Ayres, Sept. 25.—A revolution has broken out at Catamarca against the local government in that province. The government re-established order in a fight, during which seven were killed and twelve wounded.

Dispatches From Oita.  
Washington, Sept. 25.—Two important dispatches from General Otis at Manila were made public by the war department today as follows:

Manila, Sept. 25.—Hughes, of Illinois, reports that Lopez and sixty-four armed men surrendered to Byrne at Castellano, Negros. The election in that island will be held October 2.

Sought conference with the chief insurgents at Panay and they wished to know what promise could be given them in case of a formal submission. They were told on one-way, and the force was disbanded.

Manila, Sept. 24.—Bates returned from Jolo on the twenty-first instant, having placed the garrisons at Siasi and Zamboanga, Tawi, Tawi Group; one company at each place. The affairs in Archipelago are satisfactory. Bates saw the chief insurgents at Zamboanga who were still anxious to receive the United States Garrison on condition of a withdrawal should Aguinaldo succeed Luzon.

The proposition was not entertained. Zamboanga is having trouble with more datus in that vicinity who raised the United States flag. Dato Cagayan, Sulu Island, visited by Jolo gave advice and desired to raise an American flag, instead of a Spanish flag on the island. The American flag will be raised there, ready

### LAST DAY'S ATTRACTIONS.

Everything combined to make the last day of the Carnival and Street Fair most satisfactory to both visitors and resident merchants. Most everyone had seen the attractions of the fair, and the grand stand attractions were reduced to a minimum during the afternoon to allow the people to take the babies, and incidentally, themselves, to the country dog and pony show. The relief, satisfied expression found in the faces of the visitors all day Saturday was characteristic. During the earlier part of the week everyone rushed about, afraid that they might miss some of the many attractions provided for their entertainment. The last day, however, they knew just where they could find what they wanted, both in the way of entertainment and in a business way. They also knew just how much money they had to spend in the metropolis—and they spent it.

The races in old town during the afternoon drew very few people from off the business streets.

The lovers of the game of lawn tennis enjoyed an exciting final day.

In the evening at the grand stand the visitors were given a last reproduction of the "Battle of Manila," there being many present to see it for the second or third time. This was followed by Miss Meyer's beautiful serpentine dance. The grace and beauty of this young lady was indelibly stamped on the memory of a great many people.

The Williams family gave another of their pleasing performances, as did also Mr. Gardiner.

The evening and fair wound up in a veritable blaze of glory. It was a general impression that Mr. Wilson had about exhausted his supply and variety of pyrotechnics, but such was not the case. Those who were fortunate enough to be there were more than repaid. Mr. Wilson did not get out of the fair until the performing elephants with the Gentry show, trotted out an elephant of his own, with whose "brilliant" movements he delighted and surprised the crowd.

Many were the expressions of satisfaction heard about town, and finally, further adjectives and exclamations failing, every one went home or to bed, saying the fair was "all right."

EXHIBITION HALL DIPLOMAS.

Diplomas to exhibitors of Exposition have been awarded by the fair association, through Superintendent Yewell as follows:

Las Cruces Agricultural college for best collection of plum, peach, pear, peaches and pears; also for best show of fresh apples and pears.

Frank Burke, of Mesilla, New Mexico, for most fancy show of apples.

Mrs. S. V. Casad, of Mesilla, New Mexico, for exhibit of peaches and apples.

R. M. Stockton, of Valencia county, for tobacco, apples and small fruit.

Miss Rita Bartlett, for geometrical dress and garment cutting charts.

Miss Mary Metz for crocheted work.

N. S. Childers for green parrot water filter.

J. J. Phelan Out of Business.

A business transaction that has been under way for several days was consummated yesterday, and is now a fact.

Dr. J. Phelan, the druggist, has sold his business to D. J. Matthews, who is now in possession of the store, corner of Second street and railroad avenue. Mr. Matthews, who is a brother of J. E. Matthews, the well-known dairyman, is no stranger here, as he was a resident of the territory for four years and was at one time professor of chemistry at the university. He is a graduate of several prominent colleges and has had eighteen years' experience in his business, coming here this time from Detroit, Mich. With Mr. Matthews, will be associated H. M. Parker, of Ontario, Canada, who is a graduate pharmacist of both American and Canadian schools, and who has held the position of examiner of pharmacists in Ontario. The citizens welcome these gentlemen to our business community and speak for them a generous share of the public patronage.

Notice.  
The City Union of Christian Young People's societies desire to thank the Crystal Ice company, the City Water company, the Fair association and all who so kindly assisted the Union in so successfully carrying out the plans of their booth during the Fair. The booth was a popular resort for the weary throng. L. M. Frail, President.

Shriner's Meeting Saturday Night.  
The ceremonial session of Ballant Abner Temple of the Mystic Shrine held Saturday night in Masonic Temple was a grand success in every particular. There was a large attendance, including nobles from sister temples, and it was evident that all present enjoyed themselves. ### THE BOLLER MAKERS' STRIKE.

Denver, Sept. 25.—J. P. Dunlavy, a prominent business man of Trinidad, is in this city. He led a conference with Congressman Shaffroth with respect to efforts being made to remove settlers from the Maxwell land grant. Dunlavy's efforts are being directed to a peaceful settlement of the affairs, as he is of the opinion that any effort to remove the settlers by force will lead to trouble. People have been living on the land, many of them for twenty years, and are not going to leave crops and improvements without a protest which may go beyond words. Dunlavy hopes to secure a peaceful settlement in the controversy by a compromise which will be fair to the settlers on the grant. Congressman Shaffroth said nothing could be done except to have congress pass a bill permitting settlers to take other lands in lieu of those they have, without being required to live on them five years to obtain title.

Chairman Resigned.  
Baltimore, Sept. 25.—United States Senator Wellington to day resigned the chairmanship of the republican state central committee in accordance with a written request by Governor Lowmyer, who is a candidate for re-election on the republican ticket. Thomas J. Shryock was elected to succeed him.

Boller Makers Still Out.  
San Francisco, Sept. 25.—At a meeting of the striking boiler makers a motion was made that the men in all the shops working on all transports (whether government or chartered) stay out until eight hours is guaranteed by the law on transport work. The motion was unanimously carried.

Tired of Life.  
Dorchester, Neb., Sept. 25.—Winding willow weepers around her neck, Mrs. H. S. Steinhilber ended her life two miles east of town. Throwing her weight backward she leaped, until choked to death. A neighbor found her dead.

The Low Line Ditch.  
President Wallace Hesseiden, Attorney Childers, Engineer Harroon and Messrs. A. A. Grant, M. S. Otero and others went over the entire line of the ditch yesterday, to examine into the necessary work to be done, on account of the change of road bed by the Santa Fe railroad company.

Today's meeting of the board of directors was held in the office of Attorney Childers, and a great deal of detail work was disposed of.

There were present President Hesseiden, and Directors A. A. Grant, M. S. Otero, M. P. Stamm and Attorney Childers.

Instructions were given to the engineers to go ahead at once with their part of the work, and the board closed contracts with the Schubert Improvement company of Pueblo, Colorado, who will begin the construction work immediately.

President Hesseiden has also called the advisory committee together. This committee is composed of F. A. Manzanarez, of Las Vegas; W. W. Jones, of San Marcel; and J. L. Morris, of Thornton—men well known to the work in hand. They will be on the ground within a week.

President Hesseiden promises that the ditch will be completed by the month of March, 1900. What a glorious beginning of the new year this will be for the Rio Grande valley and its metropolis. It will bring an influx of 5,000 farmers to a land flowing with milk and honey. And all this garden spot will be tributary to Albuquerque. It means more than the average man appreciates, and too much cannot be said to those citizens of Albuquerque who have exerted themselves to bring about a condition that will be an all of reward and advantage to our stirring little city.

 under sentence of death for outraging  
 women. Their friends have appealed to the president to  
 save their lives. The president will do  
 a decent thing by keeping hands off  
 American soldiers sent to the Philip-  
 pines to make their assault upon the  
 enemy in the field.

DISHONESTY creeps to the surface  
 quicker in mining matters than in any  
 other business. A mine does not lie,  
 although tenderloins are often deceived by  
 their own ignorance of mines. It takes  
 years for men to learn the character of  
 different mineral deposits, yet lawyers  
 and other tenderloins come out from the  
 east and become familiar with a mine in  
 a half hour's visit.

Says the Des Moines Union: "It has  
 been observed that the evening papers  
 not only give the verdict in the Dreyfus  
 case but that they gave the testimony  
 each day as it proceeded. The past year  
 or two has been a great educator to the  
 people in the matter of newspapers. They  
 have pretty thoroughly learned the  
 lesson that the evening newspaper gives  
 the news the day it happens and twelve  
 hours ahead of the morning papers."

A NEW composing machine is now un-  
 der discussion. It is so far developed  
 that it will soon have stock for sale. The  
 machine, unlike the Mergenthaler, uses  
 actual type. The type is set by apparatus  
 operated by a key board. Subsequently  
 the lines are automatically "justified"  
 by machinery and put on the galley. A  
 distributing machine works at the same  
 time, carrying out type back into their  
 reservoirs. The estimates are that the  
 machine can be built for \$500 each and  
 sold for \$1,000 or more for \$500 a year.  
 The initial capitalization of the company  
 is put at \$5,000,000.

WHEN a man of wealth dies he does  
 a service for his country that makes  
 some of them worth more dead than  
 living. It is estimated that the war  
 revenue tax on the legacies left by the  
 late Cornelius Vanderbilt will bring to  
 the internal revenue coffers about \$2,  
 700,000. In addition to this sum, in it-  
 self a great fortune, the state inheritance  
 tax of the state of New York will be  
 nearly \$1,500,000. So, all told, Mr. Van-  
 derbilt dead was worth \$5,000,000 to the  
 people of the state and nation. Speak  
 naught but good of the dead—but there  
 are other rich men who are evading that  
 inheritance tax too long.

THE Denver Mining Record says: Do  
 not expect of foreign capital. If the  
 local capitalist is too timid or too  
 penurious to furnish the required help,  
 his brother in the east or over the water  
 is looking for investment and will take  
 you out of your property if you are care-  
 less, but so will the local investor. He  
 may, and probably will, help you to de-  
 velop and improve the property if you at-  
 tend to your own business and do your  
 share of the figuring. In either case,  
 the result is in your own hands; there-  
 fore we say again, do not be afraid of  
 foreign capital, but do not ask to be in-  
 sured against your own folly and care-  
 lessness.

MEXICO'S FRIENDSHIP.  
 Mexico's determination to send her  
 president into the United States for a  
 visit, with all the surroundings of pomp  
 and display of which the people of our  
 southern neighbor are fond, will give  
 precious little satisfaction to other Latin  
 Americans who have sought to create a  
 boy man in the form of Uncle Sam, a  
 land-grabbing demon who is seeking or  
 likely to seek the territory of the other  
 republics of the western hemisphere. By  
 every consideration of logic and loca-  
 tion Mexico would be the land to the  
 south on which we would look with ven-  
 erous eyes. If we were in pursuit of ag-  
 grandizement, she alone of all the re-  
 public of the western world is contig-  
 uous to us; she alone has at any time lost  
 any of her land to us; she of all others  
 should be suspicious if there were any  
 ground for suspicion. But there is none,  
 there never was. When Mexico, under  
 all these conditions, gives such evidence  
 of enthusiastic friendship for the United  
 States, the last prop under the chimeri-  
 cal alliance against the United States is  
 knocked out.

PASSMORE'S VIEWS.  
 Now that our street fair is over and  
 everybody seems so well pleased with the  
 results, would it not be wise for the busi-  
 ness men of our city to get together and  
 form a regular fair association; form a  
 stock company and incorporate it and  
 issue shares; purchase or lease a square  
 of land inside of our city; build the nec-  
 essary buildings, grand stands, fences,  
 etc., including base ball grounds and  
 bicycle track; also plant a few hundred  
 trees so that in a few years we  
 would have a grove which could be  
 rented or leased to the many secret so-  
 cieties for picnic purposes, which in

time would bring in quite a little re-  
 venue; also would be a source of a little  
 pleasure to our people. By incorporat-  
 ing the association we could be economiz-  
 able to the laws and the books at any  
 time open for inspection. The directors  
 to consist of five citizens to hold office—  
 one for five years, one for four, one for  
 three, one for two and one for one year,  
 so that a new director will be elected  
 each year, the oldest to act as president  
 except by change by the directors. In  
 this way there would always be a new  
 man on the directors' board each year.  
 In this way all improvements would be  
 permanent—the lumber that is now in  
 the grand stand and the Midway could  
 be used on the new grounds and all  
 other material at this time to a good ad-  
 vantage. With a place of this kind  
 many amusements could be gotten up  
 that would greatly add to the pleasure  
 and profit to the people of our city. We  
 are, and have been, enjoying a steady,  
 substantial growth and let us continue  
 by adding to our city a first-class public  
 park which is so necessary for any city  
 of any importance. I think most of  
 our residents of our city think we  
 have got on the right track and so let us  
 all put our shoulder to the wheel and  
 make it a city well worthy of its name—the  
 metropolis of the southwest.

Telegraphing to Mars.  
 The idea that we may possibly be able  
 sometime to communicate with the planet  
 Mars is a perfectly sound one. Those who  
 laugh at it merely emphasize their lack  
 of knowledge of the most rapid progress  
 years ago man with his family could not  
 cross a stream a hundred yards wide. He  
 could communicate with his fellow men  
 only so far as the voice would reach. The  
 medical science knew no positive cure for  
 dyspepsia. But we have progressed. Steam  
 crosses the ocean, electricity communi-  
 cates across the continent, and the bot-  
 tle's Stomach Bitters has proved a boon  
 to humanity. It strikes at the root of  
 almost all sickness—the stomach, and  
 cures indigestion, constipation, bilious-  
 ness and dyspepsia. A private revenue  
 stamp should cover the neck of the bot-  
 tle.

THE FAIR.  
 210 Railroad Avenue.  
 The fair is the most attractive store in  
 Albuquerque, in fact the most elegant in  
 the west, and has become so under the  
 genial management of L. F. Levy. The  
 beautiful display of furniture, hardware,  
 and china, cut glass, toys, notions and  
 ornaments of all kinds can be compared  
 favorably with any display west of Chi-  
 cago.

A visit to this store will amply re-  
 pay anyone, and polite assistance will always  
 be found willing and happy to show their  
 wares.

To Cure Constipation Forever.

Dr. Chamberlain's Cathartic, 10c per box.  
 It cures constipation, biliousness, indigestion,  
 etc., and is a safe and reliable remedy.

A number of our prominent city ladies  
 were noticed riding horse back Saturday  
 evening, and made a fine appearance by  
 their graceful actions in handling their  
 respective animals. The ladies will soon organize a  
 riding club in this city. Among those  
 in the party Saturday evening were  
 Mesdames E. L. Washburn, Lorton Miller  
 and Mrs. T. J. Curran, and the Misses F.  
 Tolan and Lukens.

## "Durability is Better Than Show."

The wealth of the multi-millionaires is not equal to good health. Riches without health are a curse, and yet the rich, the middle classes and the poor alike have, in Hood's Sarsaparilla, a valuable assistant in getting and maintaining perfect health. It never disappoints.

Scrofula—Three years ago our son, now eleven, had a serious case of scrofula and erysipelas with dreadful sores, discharges, and itching eruptions. He could not walk. Several physicians did not help for sixteen months. Three months' treatment with Hood's Sarsaparilla cured him. He is now well and strong since I was married at 18. Mrs. M. A. WATERS, 1529 30th St., Washington, D. C.

Eczema—We had to tie the hands of our two-year-old son on account of eczema on his face and neck. Hood's Sarsaparilla helped until we used Hood's Sarsaparilla, which soon cured it. Mrs. A. V. WYCK, 1235 10th St., New York, N. Y.

# WELCOME!

The Fair this year affords us the most agreeable opportunity of welcoming vast crowds of strangers and sight-seers to our city. In so doing we at the same time wish to extend to you our most cordial invitation to make our store your store, with the assurance of our most ready willingness of rendering any assistance necessary.

We furthermore take pleasure in calling your attention to a few well founded facts:

Having just ransacked the principal eastern markets for a complete line of everything in wearing apparel, we feel confident that we are showing a line of goods that would do credit to any of the most fashionable eastern establishments at prices which will be sure to please everybody.

Our line of ready-to-wear garments, such as ladies' waists in silk, wool, mohair; skirts in every conceivable novel texture; ladies' wrappers and dressing gowns, outer garments such as capes, jackets and reefer in cloth, plush and furs; children's ready-made dresses is one in which we feel confident of finding your most hearty approbation.

In furnishing goods such as underwear, hosiery, neckwear, corsets and all kinds of novelty goods, we are certain of pleasing even the most fastidious.

Space will not permit us to go into detail about every one of our departments. We simply ask you to come whether you buy or not, for we take pleasure in showing you the most complete line in the city. We call attention to our window display.

## The Activities of Autumn!

They are to be found in every section of the store. They are caused by the high showing of fall and winter merchandise. Freshness, brightness, warmth and color greet you on every side. There are no two words in the language so interesting to the buying public, especially on the threshold of a season, as **NEW GOODS**. This store is filled with new goods, the result of months of anxious thought and research. Not only are the goods new, but they're stylish; they're dependable; they're goods that you can buy with confidence and they're all justly priced. Thus we begin the autumn that closes the century.

## The New Dress Goods.

We've had the best of the world's products to pick from. We think we have made just those selections which will please our public if style, variety, newness, and price reasonableness count. Come and look at them. The price is from 10c the yard to \$2.00.

## A Season of Silks.

Oil cloth and linoleum—in this line we embrace all grades and our prices are the lowest. Albert Faber, Grant building.

## The Black Crepons.

First in rank as a fashion favorite. The dressiest, most durable, and, in every way, most economical fabric ever ready for hand in a gown. From \$1.25 to \$2.75 the yard. Also have them at 50c the yard.

## Golf Caps and Jackets.

Early shipments are now on display. Advance styles to choose from and all exclusive. Hardly any two alike. Will be pleased to have you make an early inspection. Ladies' Special Melton Jacket at \$7.75 is unmatched. Fine Golf Caps from \$5.00 upward. Children's and Misses' Jackets from \$1.50 upward.

## Autumn Hosiery.

This big equipment of reliable sorts of stockings for women and children is all ready for you to choose from, and it will pay you to choose at once from the following lots:

Special—Fast black seamless hose at 10c. Hose for boys and girls, extra heavy, seamless, fast black, a 20c quality, at two pair for 25c.

## Fall and Winter Underwear.

Shorter days, cooler nights and mornings—these hint at a change from the flimsy undergarments of the summer to the warm sorts. To start the season with vigor we offer the following specials:

Ladies' extra quality ribbed underwear at 25c the garment.  
 Two specials in children's ribbed underwear commencing at 10c for the smallest size.  
 Extra heavy, fleece lined for children, commencing at 15c.
