## FRIENDLY MEDIATION.

Bourke Cochran Recommends it  
in Transvaal Dispute.

Writes an Open Letter to President  
McKinley on the Subject.

Ten Thousand Irishmen Ready to Fight  
Under Gen. Paul's Banner.

## SOUTH AFRICAN WAR IMMINENT.

New York, Sept. 13.—Ex-Congressman  
W. Bourke Cochran has written an open  
letter to President McKinley suggesting  
that he make a proffer of friendly medi-  
ation in the British-Bour trouble. He  
says: "If there be other and sounder  
reasons than those assigned by the press  
for the attitude of the British government  
toward the Transvaal, its position will be  
strengthened by disclosure of them. A  
friendly but urgent tender of your good  
offices would undoubtedly evoke a full  
and complete statement on the grounds  
on which the peace and integrity of the  
Transvaal are threatened. Such a state-  
ment would be a powerful obstacle to  
hostilities, for it would enable the civil-  
ized world to form a judgment on the  
merits of the controversy, and in all  
probability that judgment would impose  
itself on both disputants."

## NOT AN ULTIMATUM.

British Message to Transvaal Simply Re-  
quests Immediate Reply.

London, Sept. 13.—The Associated  
Press learned today that the British  
message to Transvaal does not demand a  
reply in forty-eight hours, but requests  
immediate reply. The message is not an  
ultimatum in the generally accepted  
sense of the word. It expresses the hope  
that President Kruger will accept the  
proposition to relieve the present ten-  
sion. The only part of all aggressive  
language is the reiterated declaration of the  
British government the matter of  
sovereignty in any form. The British  
refuse to deny or affirm the correctness  
of the latest Pretoria dispatches saying  
that in British terms are a five years'  
franchise, quarter representation for the  
Goulds in the Volksraad, equality for the  
British and Dutch Volksraad, and equality  
for the British and Dutch Burgers, in  
reference to presidential and other elec-  
tions.

A special to the Fall Mail Gazette from  
Cape Town says: "The British reply is  
regarded as equivalent to an ultimatum."  
Correspondents' advice from Pretoria  
indicates that war is inevitable. "The  
British message has formed forces to  
help President Kruger is confirmed. It  
is said at Cape Town that a cable-  
gram has been received from New York  
saying 10,000 Irishmen there are ready to  
help Transvaal."

The message of the secretary of state  
for the colonies, Mr. Chamberlain, says  
he understands that a convention, made  
in Pretoria, is to be held on August 15,  
has been withdrawn on account of the  
British attitude regarding suzerainty  
and adds: "The British government  
absolutely repudiates the view  
of the political state of Transvaal  
taken by the Transvaal government,  
claiming the status of a sovereign state,  
and therefore are unable to consider any  
proposed made conditionally on the ac-  
ceptance of this view."

Continuing the news says that the  
British government is satisfied that the  
law embodying the proposed alleviating  
measures for Transvaal is sufficient to  
secure the immediate submission of  
Transvaal which it is understood  
Transvaal admits to be reasonable.  
It then says: "Moreover the presenta-  
tion proposals, in the note of August 9,  
indicates that the government of the  
South African republic themselves recog-  
nized that their previous offers might,  
with advantage, be enlarged, and the in-  
dependence of the republic thereby in  
no way impaired."  
The dispatch then goes on to say that  
great Britain is still prepared to accept  
the franchise proposal of August 9th,  
provided the court of inquiry shows the  
new scheme to be unimpaired by  
nullifying conditions. In this connec-  
tion the British government assumes  
that the new members of the Volksraad  
will be allowed to speak their own language  
and adds that acceptance of these terms  
would at once remove the tension and  
would, in all probability, render un-  
necessary any further intervention on

## DISCUSSING TRUSTS.

Representative Men From Every  
State Meet in Chicago.

Transport Tartar Detained in China  
By British Authority.

Trouble Between Mexican Guards and  
American Cowboys Subsiding.

## CATTLE TRUST AN ASSURED FACT.

Chicago, Sept. 13.—The civic federation  
conference on the use and abuse of  
trusts and combinations, with repre-  
sentative men from nearly every state in  
attendance, opened here today. Central  
music hall was packed with the 200 dele-  
gates and hundreds of spectators. The  
meeting was called to order by Chairman  
Franklin H. Root.  
The roll call disclosed the fact that the  
greater part of the delegates are yet to  
arrive. The responses were few and far  
between. Governor Hughes, it was an-  
nounced, would arrive to-day. Sec-  
retary Kinsley said the delegates would ar-  
rive to-night and to-morrow, having  
found it impossible to attend the opening  
session. The New York delegation  
headed by W. Bourke Cochran, was well  
represented.  
Dr. Howard S. Taylor, a representative  
of Mayor Harrison, and Attorney Gen-  
eral K. C. Atkin, acting for Governor  
Tanner, delivered addresses of welcome.  
The first taste of real business con-  
fronting the delegates came in papers  
delivered by Prof. J. W. Jenks and Prof.  
Henry Carter Adams, both under the  
caption "Problems Before the Confer-  
ence."

"Where competition is excluded or  
where conditions to its exercise are such  
as to give one competitor advantage over  
another, nothing remains but public  
supervision," said Adams.  
John Graham Brooks, lecturer on the  
social sciences at Harvard university, re-  
ad a paper under the head "Are new  
combinations socially dangerous."

## TRANSPORT TARTAR DETAINED.

American Soldiers on Board Complain of  
Unsanitary Conditions.

Hong Kong, Sept. 13.—The United  
States transport Tartar, which was at-  
tached to-day, has been detained by the  
harbor authorities under the British mer-  
chant shipping act, whereby her capacity  
is limited to 733 passengers, although  
the ship has a licensed capacity of  
1,340.  
Consul Wildman, representing the  
United States government, took the mat-  
ter up at once before the local govern-  
ment authorities, maintaining that the  
Tartar is an American troop ship, al-  
though she is flying a British flag. He  
submitted evidence to show that she was  
not subject to the merchant shipping act,  
it is probable that 450 soldiers on board  
is being left behind, when she is finally  
permitted to sail for France. Several  
discharged soldiers, on board the  
Tartar, filed complaints of her unsanitary  
condition, which started proceedings  
to detain the vessel.

The twentieth Kansas volunteers with  
General Funston are aboard, but it is be-  
lieved that the volunteers made no com-  
plaints and are anxious to have clearance  
granted the ship in order that they may  
proceed homeward. A private cablegram  
says the complaint of overcrowding was  
made by discharged regulars.  
Secretary Root decided to take up the  
matter of Tartar with the state depart-  
ment, with a view of having the ship  
cleared at Hong Kong. The war depart-  
ment made public the following dis-  
patch: "Hong Kong, Sept. 13.—The British  
authorities refuse to clear the Tartar,  
because it is overcrowded, and has on  
board hundred and twenty-four."  
(Signed)  
Colonel of the Twentieth Kansas."  
The Tartar was carrying 1,201 soldiers.  
It is a British steamer.

Washington, Sept. 13.—The army  
transport Tartar, reported detained in  
Hong Kong by British authorities, is  
owned by the Canadian Pacific steamship  
company. She sailed under the British  
flag. It is said that under these con-  
ditions she is subject to the British nav-  
igation laws.

## THE BORDER TROUBLE.

Fight Between Mexican Guards and Cow-  
boys Followed by a Slew.

Blanco, Ariz., Sept. 13.—The latest re-  
ports from Naco indicate that everything  
is quiet. Mexican guards, over 100 in  
number, are patrolling the line. Cowboys  
are still arriving here. No arrests have  
yet been made of the cowboys who killed  
the Mexican guards on the San Pedro. It  
is reported that some left the country in  
order to avoid being turned over to the  
Mexican authorities.

## French Army Subsidized.

Boston, Sept. 13.—The Post today an-  
nounces that it received the following  
dispatch from Paris: "Generals Roget  
and Mercier offered on the part of the  
army to demand from President Loubet  
the pardon of Captain Dreyfus if the  
Jewish committee will drop the matter  
and on condition Dreyfus shall live  
away from the large cities of France for  
three years."

## Painters on a Strike.

Philadelphia, Sept. 13.—Fifteen hun-  
dred painters struck to-day in conse-  
quence of the failure of the master paint-  
ers to sign the agreement presented by  
the association. The union demands  
eight hours work per day, at 35 cents per

Reply to American Offer of Au-  
tonomous Government.

Skilfully Lays the Blame on us for  
all Their Woe.

Private McVeagh Sentenced by Court

## ELEVATOR WAR IN CHICAGO.

Manila, Sept. 13.—A correspondent of  
the Associated Press obtains a copy of  
the reply adopted by the Filipino com-  
mission to the American offer of auton-  
omous government. The author of the re-  
ply was Ambrose Riosan, who was  
dressed a position in the same court  
as failed to appear. The document re-  
presents the arguments contained in the re-  
solved appeal to the powers for recognition  
and the Filipino claims that Americans  
were the aggressors in the war and con-  
cludes: "Notwithstanding the foregoing  
we would have accepted your sovereignty  
and autonomy if we had not been  
driven by the behavior of the Americans in  
the beginning, that they were strongly  
opposed to us through race prejudice,  
and the high handed methods of dealing  
with us made us fear for the future in  
your hands."

## PRIVATE McVEAGH CONVICTED.

Sentenced by Court Marital to be Shut  
for Striking a Superior Officer.

Washington, Sept. 13.—Private  
Thomas McVeagh, Company G, First Wy-  
oming volunteer infantry, who was tried  
by the general court martial convened at  
Camp, P. I. in June last on the charge of  
striking a superior officer, was found  
guilty and sentenced to be shot to death  
with musketry, at such time and place as  
proper authorities may direct. Two thirds  
of the court concurred in the sentence.  
President McKinley directed the sentence  
to be commuted to dishonorable discharge  
and forfeiture of all pay and allowances  
and confinement at hard labor for three  
years. Alcatraz Island, California, has  
been designated as the place of confinement.

## An Elevator War.

Chicago, Sept. 13.—What is believed by  
many traders to be the probable begin-  
ning of an elevator war started in the  
wheat market to-day. The scramble for  
shorts in September wheat, early in the  
season, added nearly 2 cents to the price  
within half an hour and apparently  
brought to light a fight among the wealthy  
elevator firms, Wain & Co., Armour  
& Co. and C. J. Beck, being the most  
vitality interested. It was evident  
that a short interest existed.

## Report of Dreyfus Case.

Paris, Sept. 13.—The government com-  
missioner, attached to the council of re-  
vision, may possibly finish the report of  
the case before Monday. In that case  
the council of revision will give its  
decision regarding the merits of the ap-  
peal that day and the following day,  
the cabinet will decide whether meas-  
ures of clemency are advisable.

Glass & Adjusted To suit all sights

One time there was a little chap  
Who whined the long long day,  
An ugly frown would seem his crown  
And he sat work or play.

His father was disgusted quite,  
His mother was distressed,  
But what to do they neither knew,  
And scarcely ever guessed.

Till one day WE to him said,  
Pray bring the lad to our store,  
We'll change his frown to smile and shine  
And he will frown no more.

So straight to our establishment  
The frowning lad they took,  
And straightway set it right,  
We made the youngster look.

Till by and by we found the fault,  
And straightway set it right,  
His temper bad and visage sad,  
Were all defects of sight.

The examination of children's eyes calls for special tact as well  
as professional skill. If they do not need glasses we will frankly  
tell you so. WE TEST THE EYE FREE.

Difficult cases our specialty. If all others have failed, call on us.

# BLUEWATER CORRESPONDENCE.

Troop K, Ninth Cavalry, Passes Through on Way to Albuquerque.

Bluewater, N. M., Sept. 12.—The people of this vicinity were treated to a sight of one of the features of the forthcoming Territorial Fair yesterday, by the appearance of Troop K, Ninth Cavalry, Captain Fuller commanding. The troop numbering nearly 100 men, left Fort Wingate Sunday morning, arrived here at noon yesterday, camped and continued their march this morning to Albuquerque, which place they will reach about the end of the week. They are a fine looking body of men, most of them having seen service in Cuba, and have acted with more or less success, as back-stops for Mauder bullets; they will be a good object lesson of Uncle Sam's military department.

An interesting character with the troop is Sergeant Albert Brewster, nearly of age—eighteen years having passed since he took up arms. To the visitors at camp, he imparts desired information in an intelligent and modest way.

Besides the surgeon, there are three men detailed to the hospital department, two scouts and one interpreter. A gun "on wheels" and several wagons make up quite an imposing column, as it can be seen for miles through the pure air of New Mexico, winding around and about the foot hills of the Zuni mountains.

Bluewater is thriving, stock is doing well and the ranchman is content that his cows are "fair and fat" if not "fatty." The blue water is doing well, as it can be seen for miles through the pure air of New Mexico, winding around and about the foot hills of the Zuni mountains.

Major Van Doren, of the Bluewater Land and Irrigation company, is expected to be at the fair a number of days, where, with his energy and lucidity, he may be expected to uphold the ranching interests of New Mexico.

Ranchwater is having quite a laugh at the people of a neighboring town. It seems at this place the section boss of the railroad company a few days ago, that he had just been killed by a train. Although there are several families here he could not find a purchaser, even after offering it for \$1.50 and to buy one half of it back for \$2. The result of the section boss was to bury the carcass, but before doing so, took the hide off and sold it for \$2. These people have no reputation as vegetarians. Bluewater is wondering if they are going into a dry rot or are loosed.

# Crippled by Rheumatism.

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and poison, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones.

S. S. S. has been curing Rheumatism for twenty years—even the worst cases which seemed almost incurable.

Dr. E. H. Hughes, the popular railroad conductor of Columbia, S. C., had an experience with Rheumatism which convinced him that there is only one remedy that is safe and sure. He says: "I was a sufferer from Rheumatism for many years. I could not get any permanent relief from any medicine prescribed by my physician. I took about a dozen bottles of S. S. S. and now I am as well as I ever was. I can now do my work as usual and I would recommend it to any one suffering from any blood disease."

Everybody knows that Rheumatism is a disease of the blood, and that only a blood remedy is the only proper treatment, but a remedy containing poison and mercury only aggravates the trouble.

**S.S.S. For The Blood**  
Being Purely Vegetable, goes direct to the very cause of the disease, and a permanent cure always results. It is the only blood remedy guaranteed to contain no poison, mercury or other dangerous ingredients.

# WEEKLY CROP REPORT.

Reports of Correspondents on Crop Conditions for the Past Week.

The following report is received by the United States department of agriculture, climate and crop bureau at the weather bureau, New Mexico section:

The weather report for the week ending September 11 was very favorable to the crops and stock interests. The slow, drizzling rains of the 5th and 6th were followed by the heavy rain of the 11th, which was of great benefit to the alfalfa, corn, wheat, and other crops, and also to the stock, as it was of incalculable benefit to the ranges, which were crying for water, and threatening a scarcity of feed and winter feed for stock. As a rule, the rains filled outside water holes again, and it seems to be the general opinion that abundant fall and winter grazing is now practically assured. The effects of the long hot spell, followed by the good, soaking rains, are apparent in the alfalfa, which is now in the prime of its season, and is of excellent quality. While early planted corn has withstood the drought reasonably well, and is doing out fairly, late planted corn is as a rule, very short and poorly filled. Excepting in the latest sections wheat is raised in the alfalfa, and is doing out fairly, while in some localities it is better than was expected, is generally far below the average. In the valleys of northern central sections the third crop of alfalfa is now being cut. The harvest has been interfered with by the recent rains, and some of the crop has not been secured under the best conditions.

The following remarks are extracted from reports of correspondents:

Albuquerque—Professor C. E. Mead—Crops of all kinds have made splendid progress during the past week, and a permanent cure always results. It is the only blood remedy guaranteed to contain no poison, mercury or other dangerous ingredients.

Immediately after the fair, on Monday, September 26, Miss Foyas will resume her kindergarten school in the small frame building located on the Midway.

The lady made arrangements with the Fair association this morning, and desires her pupils to return to school on the date mentioned above.

Mrs. Alex. McKenzie, sister-in-law of Mrs. F. H. Kent, and her friend, Mrs. Barclay, arrived last night from Leeds, South Dakota, coming in from the Pacific coast, where they have been visiting the past few weeks. The ladies will remain here for about a week or ten days, after which they will continue on their journey homeward.

The marriage of Fred J. Ward, the general clerk at Geo. C. Gainsley's shoe store, and Miss Gertrude Maxwell, the estimable daughter of W. A. Maxwell, has been announced to take place in this city on September 26. Cupid and Venus seem to have joined forces in order to inaugurate a matrimonial romance among the young people of Albuquerque and unless all signs fail there will be several similar announcements published before September has vanished into the dim distance.

The executive committee of the Fair association, in accordance with a resolution of the city council, has blocked up Fourth Street between Railroad and Gold avenues, and requests drivers of delivery teams and others to respect the resolution of the council. The past two nights the rope used in blocking the street has been cut by some unscrupulous individuals, who have driven their teams over the walks laid out by the association.

Marshal McMillin will hereafter station an officer on this street, with orders to arrest all persons found violating the spirit of the resolution as passed by the council.
