DEMOCRATS STILL EXPECT LOWER HOUSE TO SHOW GOOD MAJORITY

Chairman Doremus Tells Where Republican Gains Reported Unofficially, Are Really Democratic.

CHAMP CLARK SEEKS FACTS OF ELECTION

Miss Rankin Is Really Elected to Congress From Montana, Notwithstanding Claims That She Was Defeated.

Washington, Nov. 14.—Champion Clark, speaker of the house, reached Washington today and conferred with Democratic leaders regarding the congressional election which, according to the latest unofficial returns, leaves control of the next house in doubt. The speaker first conferred with Representative Doremus, of Michigan, chairman of the Democratic congressional committee, who predicted, despite the unofficial returns indicating the election of five more republicans than democrats, that the final canvass would give the democrats control and the speaker would be re-elected.

The other hand, Representative Doremus, chairman of the republican congressional committee, was insisting that complete returns would show republicans winning instead of democrats and that republicans would dictate the organization of the house.

Doremus is hopeful. Representative Clark, who claimed victory in the White House for the democrats and only 211 republicans were elected, and that there were nine doubtful districts, reiterated this later to Speaker Clark, Senator Stone of Missouri, and other democratic leaders, who believed that the democrats would win the majority.

Where They Are Located. Representative Doremus, in his statement of doubtful districts at the informal conference of party leaders, claimed that official returns would show the election of W. G. Martin, democrat, over W. P. Martin, progressive-protectionist, in Louisiana; Zebulon Weaver, democrat, over James J. Britt, republican, in North Carolina; Thomas Kelly, democrat, over Robert Carrington, republican, in New Jersey; Stanley E. Weaver, democrat, over Mark B. Baker, republican, in Michigan; T. J. Reed, democrat, over G. C. Scott, republican, in Iowa; and M. C. Kelly, progressive, over William H. Coffey, republican, in Pennsylvania. In addition, Mr. Doremus insisted that Harry E. Taylor, democrat, in Montana; Harry B. Mitchell, republican, in Arizona; and Thomas G. Patton, republican, in New York, all apparently defeated by republicans, had excellent chances of success. He asserted that despite the reports of Miss Jean Rankin, republican, in Montana, by a majority of 496, that Harry B. Mitchell had won by a majority of 100, this information, he said, had come from several sources.

Unofficial Returns. Unofficial returns in disputed districts show the election of W. P. Martin, democrat, over W. G. Martin, progressive, in Louisiana; by 12; Carson, New Jersey, by 11; Bacon, Michigan, by 11; Scott, Iowa, by 72; Coleman, Pennsylvania, by 29; Francis, Eighteenth New York, by 2,656; and Graham, Illinois, by 1,529.

Republican leaders in Montana, who claim that first results will show the election of A. J. Barreth, republican, over Guy E. Campbell, democrat, in the First district; and the defeat of the democrat in the Second district, in the Maryland district was made today. In the Third district Pennsylvania district, the official count today, Campbell, democrat, had made a net gain of 14 votes in two precincts.

Champ Clark Intervenes. Speaker Clark evinced great interest in the claims of the democratic congressional chairman and reiterated at the close of the conference that the situation "was very interesting."

"The only thing to be done," said the speaker, "is to watch the official count in all the districts and wait for the final results. Three times in the history of the government, there have been prolonged contests over the election of a speaker. Twice it took three months and once it required two months and a half to elect the speaker. The first long fight was in 1851, when Howell Cobb of Georgia was elected speaker after a fight lasting three months."

UNITED STATES ENTERS VIGOROUS PROTEST AGAINST BELGIAN SLAVERY

American Embassy Is Instructed to Inform Chancellors That Negotiations Are Regarded Here With Disfavor.

20,000 WOMEN AND GIRLS TAKEN FROM FRANCE

Those Who Refuse to Go to Germany Are Thrown Into Prison; Purpose Is to Send More Fighting Men to Front

Washington, Nov. 14.—Deportation of Belgian civilians into Germany for forced labor, has reached such serious proportions that American Charge Grew, at Berlin, has been directed by the state department to take the matter up personally with Chancellor von Bethmann-Hollweg.

The charge was requested to say that such deportations could not but have a most unfortunate effect on neutral opinion, particularly in the United States, which has the welfare of the Belgian civilian population very much at heart.

The instructions, it was learned today, grew out of a long report from Charge Grew, in which he stated that he had discussed the situation informally and unofficially with Under Secretary of Foreign Affairs Zimmermann. The latter admitted that a definite policy had been adopted to enforce the labor of Belgians in cases where they would not work voluntarily, on the ground that so many refused to work as to make the strain on public charity intolerable.

20,000 Women and Girls. The deportations are viewed here not only as a violation of international law, but in a degree, as a violation of Germany's assurances to Ambassador Gerard last June, which, though relating to the 20,000 French women and girls deported from Lille, Roubaix and Tourcoing, are felt to be applicable to the Belgian situation.

Reports from Rome that the United States has joined or will join the nations, Spain, or the Netherlands in a political or economic union, in violation of the question as to the many others that have arisen during the war, the United States will act independently.

The deportations are regarded by some officials here as an attempt to release German workers from the front lines by replacing them with Belgians. More than any other one thing this is expected to increase the bitterness of the allies toward Germany and their desire for peace through a crushing victory.

Foreign Minister Breyer and Cardinal Mercier of Belgium have issued public appeals to the neutral nations to effect a cessation of the deportations. England also is deeply concerned.

Impressions Those Who Refuse. Reports as to the treatment of the deportations in detail but not in substance. Those who go to Germany voluntarily are made to sign a general free-will contract under which they are assured of good food, a salary, guarantee of care for their families and freedom of correspondence with their families. Those who are taken by force are coerced where possible through imprisonment. If this is unsuccessful, in securing signatures the labor is compulsory at 20 francs a day without provision for families or permission to correspond.

SELIGMAN HEARD OF HARDEST WON FIGHT HIS PARTY HAS EVER WAGED

Hard-headed Business Man Uses Hard-headed Business Tactics With Eminent Success in Political Struggle.

BURKHART BEST BET FOR FEDERAL JUDGE

With National Campaign Out of Way Judicial Plum Will Probably Be Awarded by President at Early Day.

Last summer, when the democratic leaders of the state were waiting around trying to find a suitable man to run for governor of New Mexico and finding that the more they milled made more confused and up in the air they were, there was occasionally heard a suggestion that if he could be induced to make the race Arthur Seligman, of Santa Fe, would be an ideal candidate and if elected would make an ideal governor.

The suggestion, however, never got very far—in fact it was never any more than a suggestion. Mr. Seligman was not in any sense a candidate, and no organized movement in his interest was ever instituted. Furthermore while widely and favorably known among business men all over the state, his political fame was almost entirely local to Santa Fe and the adjacent country, and such participation as he had had in state-wide politics was too far in the past and of too inconspicuous a nature to lend any considerable impetus to a Seligman candidacy for governor.

It is not known whether Mr. Seligman has the gubernatorial bee in his bonnet or not, or whether he has his eye on any political office in the future, but it is safe to say that with the record of party service he has made in the last three months, if there were any nominations to be distributed at this time he could just about have his pick. For Arthur Seligman today is the democratic hero. He has accomplished what few if any heads of state could possibly do. He has shown himself to be what the democratic party of New Mexico has needed sorely for many years and has not had—a political strategist of the highest order.

Canada did not wait until now that it is all over, that when the state convention in Santa Fe had adjourned last August and they had had time to think the matter over in cold blood, they did not see much chance to elect but that they had to put it off until the next year.

Building Up the Party. It was in this juncture that Arthur Seligman was called upon to take up the thankless task of acting as chairman of the state central committee. Mr. Seligman responded to the call with full knowledge that the work that lay before him meant the hardest sort of struggle until the votes had been counted—that it meant responsibility without reward, blame without cause, criticism without compensation. He likes the game of politics for its own sake, and he took up the chairmanship with the same bland, unimpeachable smile that he has worn during all the trying days that have intervened—the most striking thing about the man is that under circumstances that would have sent the ordinary individual to the violent ward in a madhouse he has preserved at all times a placid unruffled temper.

The first thing the new chairman had to do was to build up an organization and only those who have worked with him can realize what an undertaking that was. He had to build up a frequent comment during the early days of the campaign that the democrats were almost slow in getting into action. This was so for the reason that their general had not then gotten his troops whipped into shape—but not had the time to organize his battalions, and drill his men. He was applying to politics the same business principles that had made him a successful merchant—organizing things in their logical order and not getting ahead of him. Finally the preliminary work of organization having been accomplished, he gave the order to attack, and from that moment the enemy was on the defensive all the time.

Outplayed Financially. It is an great feat for a political manager to win a campaign when he has a superior organization and a preponderant fund of money with which to do the things that are necessary to be done. The man who, having no organization to begin with, has outplayed financially the best organized campaign, is a rare specimen.

VISCOUNT BRYCE APPROVES PLAN FOR MAINTAINING PEACE OF WORLD

Former Ambassador to Washington Declares United States Cannot Continue Policy of Isolation.

NEUTRAL NATIONS ARE TO PREVENT WARS

High Compliment Is Paid to Manner in Which Recent Election Was Conducted by Americans.

London, Nov. 14.—Viscount Bryce, former British ambassador to the United States, and Prof. Gilbert Murray, of Oxford, were the principal speakers of today at the meeting of the Mayflower club, which is composed of British and Americans, and has as its object the perpetuation of the memory of the Pilgrims. The meeting was held in the reception room of the house of commons and among those present was the American ambassador, Walter H. Page.

Referring to the presidential election in the United States, Lord Bryce said: "All that would be fitting to say here is that we admire the tranquility and perfect order with which such a gigantic piece of work as the election of a president of the United States has been conducted, and we admire no less the dignity and moderation of language displayed during the exciting contest by the two candidates, both men conspicuous for their ability and force of character."

Questions as to the exercise of belligerent rights have always arisen and must always arise between belligerents and neutrals in naval war. Those that have arisen between the allies and the United States are of a different nature and are of a different character. They are questions of a different nature and are of a different character. They are questions of a different nature and are of a different character.

Combination to Prevent War. The only method suggested for preventing these things is a combination of peace-loving nations to be formed after the war and after the settlement of the peace. The purpose of this combination is to prevent the recurrence of such a war as the present one.

League of Peace Approved. "Already made leading statesmen have proposed such a scheme as I have outlined," said Mr. Wilson and Mr. Hughes have given their hearty approval, and opinion is held that such a league is daily growing in its favor.

Here in Great Britain, we cannot take practical steps till this war has been—as it certainly will be—fought through to a decisive victory. But, meantime, we must begin to consider what these practical steps should be and we can assure our friends in America of our sympathy with their scheme and our willingness to co-operate in a work to which our common ideals turn.

Had to Restrict Trading. In the face of current activities of this nature, it was essential that by his majesty's government to take steps that should at least deprive interests so strongly hostile of the facilities and advantages of international trading with British subjects. The public opinion of this country would not have tolerated the preservation of the war by the continued liberty of British subjects to trade with and so enrich the firms in foreign countries whose aims and influence were alike directed against the interests of the United Kingdom.

Defines England's Right. It is essential that the government should at least deprive interests so strongly hostile of the facilities and advantages of international trading with British subjects. The public opinion of this country would not have tolerated the preservation of the war by the continued liberty of British subjects to trade with and so enrich the firms in foreign countries whose aims and influence were alike directed against the interests of the United Kingdom.

GREY JUSTIFIES BLACKLIST; SAYS POLICY TENDS TO SHORTEN WAR

British Reply to American Protest Asserts Measure Is Purely Restriction on English Subjects.

NO PURPOSE TO USE IT TO BOOST TRADE

Declares German Merchants in Neutral Countries Try by All Means Possible to Damage Allies.

Washington, Nov. 14.—The British reply to the latest protest against the trade blacklist, made public tonight by the state department, denies that rights of neutral traders under international law have been ruthlessly cancelled, defines the blacklist measure as a municipal regulation, plainly concerning only the British government and British citizens, and contends that it is designed to shorten the war.

The note fails to meet the American demand that the names of American firms be stricken from the blacklist, but attempts to convince the United States that the British position is just and founded on law. It leaves open the door for further negotiation, which is expected to follow.

Policy Not Necessary. A part which attracted much official notice dealt with the subject of peace, based on the theory that American contentions in a struggle for existence military necessity for the allies to prejudice neutral commerce, and that nothing which happens in distant neutral countries can influence the result of the great conflict.

Petty Acts Defined. "One observation which is very commonly heard is that certain belligerent acts, even though lawful, are too petty to have any influence on the result of the war. It is, I know, difficult for those who have no contact with the war to realize with what painful anxiety men and women in this country must regard even the smallest acts which tend to increase, or diminish, the suffering of the war."

German Business Men Blamed. In its argument, the note points out that German business houses through the world have furthered the cause of Germany in the war and have been active agents for the dissemination of German political and social influence and for the purpose of espionage.

Had to Restrict Trading. In the face of current activities of this nature, it was essential that by his majesty's government to take steps that should at least deprive interests so strongly hostile of the facilities and advantages of international trading with British subjects. CABRERA THROWS MONKEY WRENCH IN MACHINERY OF COMMISSION

Plan Agreed Upon by Three American and Two Mexican Members for Border Control Is Positively Vetoed.

CONFERENCE LIKELY TO END ABRUPTLY

Carranza Representative Is Vehement in Opposition to Plan, Terms of Which Are Kept Secret.

Atlantic City, N. J., Nov. 14.—The plan of border control that had been agreed upon by two of his colleagues and three American members, again has made doubtful the ability of the Americans on the Mexican-American joint commission to assist Mexico in its efforts to restore normal conditions along the frontier.

The Americans were hopeful tonight that they might yet induce the Mexicans to agree to what they believe would be a satisfactory plan for the protection of life and property along the boundary. It was indicated by those in touch with them that further opposition, characterized as quibbling, would not long be tolerated.

May End Conference. There appeared reason tonight to believe that unless the chairman of the commission, adopted a more tractable manner, he and his associates would be informed that further consideration of Mexico's social, economic and military problems must come to an end.

Objections Not Published. The agreement that provided for the withdrawal of the American punitive expedition now in Chihuahua, and for a method of dealing with border raiders in the future, was reached yesterday. Ignacio Bonillas and Alberto J. Pani of the Mexican commission, Mr. Carranza, chairman of the Mexican representation, went to Philadelphia, where he conferred with Rafael Nieto, assistant secretary of the department of finances, of which Mr. Carranza is chief. It was when he reappeared in the commission room today that he announced his opposition to the details of the plan agreed upon.

NO IMMEDIATE PLANS TO RECALL PERSHING. General Pershing said tonight that no orders for a new disposition of troops of the expeditionary force in Mexico have been issued. Nothing at headquarters indicated that an early withdrawal of General Pershing's command was contemplated.

BRITISH STILL DRIVING HARD AGAINST TEUTON LINES ON ANCRE

Purpose of Present Struggle Is to Capture Important Railroad Junction Points in France.

RUSSIANS HOLDING GROUND IN THE EAST

Petrograd Reports Repulse of Austro-German Attacks in Carpathians; Little Fighting Elsewhere.

The British drive, begun early Monday morning, amid fog and rain in the region of the Ancre river in France, has netted them another village—Beaucourt, on the north bank of the Ancre. The capture of this village makes three that have fallen into British hands since the advance began, the other two being Beaucourt-Hamel and St. Pierre-Divion. There is no indication that the offensive has ceased at any point along the five-mile front.

In the drive the British thus far have taken more than 5,000 German prisoners and, according to the latest report, more captives are being brought in.

With comparative quiet still reigning on the Russian and Austro-Italian fronts, the Rumanian and Macedonian theaters continue to be focal points of interest. The Austrians near Orsova and the junction of the Danube, Rumanian and Serbian frontiers have cleared the right bank of the Danube of Rumanian forces, a victory which probably means a lessening of the impediments to the navigation of the river in this region.

Rumanians Pushed Back. Again, the Rumanians in the Alt valley of Transylvania have been pushed back by the Austro-German forces, who also have captured the village of Tumbesti in the Jiu valley, and forced the Rumanian left wing to give way near Petrograd. In the north the Rumanians have been compelled to retire from the Gorya mountains in the Rumanian frontier.

Just what the Russo-Rumanian troops and the forces of the central powers are doing in Dobruja is not known. The Rumanian and Russian forces are doing in Dobruja is not known. The Rumanian and Russian forces are doing in Dobruja is not known.

GERMANS ABOUT LOSSES ON THE ANCRE. Berlin, Nov. 14 (via Wireless to Petrograd).—The official statement issued today by German army headquarters regarding operations on the western front, says:

"On the lower end of the river Ancre yesterday, there was violent fighting, strong British attacks prepared by concentrated artillery fire of the heaviest caliber, were launched against our positions forming an angle to the southwestward. The enemy, in numerous places, succeeded in pushing us back from Beaumont-Hamel and St. Pierre-Divion, together with the lines adjoining leading into the prepared positions.

"Our tenacious defense caused us considerable losses. Other places on the front were attacked from the east of Beaucourt, as far as the south of Grandcourt. Whenever the British had entered, they were ejected by the British counter-attacks of our infantry.

"On the east bank of the river Meuse (Verdun region), there was a fresh artillery fire in the evening hours. French reconnoitering advances against our Headquarters line were repulsed."

FIGHTING CONTINUES ON ITALIAN FRONT. Rome, Nov. 14 (via London).—The war office today issued the following statement of military operations:

"On the Trentino front the artillery on both sides was active. We shelled transporter columns and troops in motion in the Valgrana and Colanico areas and on the Cembra and Asiago plateaus.

"Hostile aircraft, with great persistence, attempted raids over our territory but were driven off. In the upper Valsugana valley, an enemy squadron succeeded in dropping bombs on Canale Santeramo. Three soldiers were killed and some wounded. The Canale, we were informed, was active at several points, a heavy trench mortar, with

Germany Looks to Building Up Her Neglected Industries

By HERBERT BAYARD SWOPE.
Copyright 1916, New York World.

The commercial world today is in a state of confusion. Germany stands at the opposite pole from America. We enforce competition; she enforces combinations. We encourage the participation of the government in business; she demands a monopoly in every one of her trades.

We have taken a long step forward in the creation of a national trade commission that shall regulate competition; she has established a bureau to eliminate all competitive forces. The empire's industrial and financial condition is of most interest to America in so far as we are actually in a state of war with her. And the chief effect of this war is concerned over is the matter of "dumping" that many believe will come after the war from the belligerents. Mostly the fear is against Germany because a meeting against ability and belligerence about "dumping" is being thrown into our markets of enormous stocks of merchandise below cost to win our markets.

CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

When cross, feverish and sick, give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is that the little one gets sluggish, stomach sour, half sick, feverish, don't eat, sleep or act naturally. Breath is bad, system full of cold, has sore throat, stomach ache or diarrhoea. Listen, mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the accumulated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups printed on the bottle. Beware of counterfeiters sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other and with contempt.

main markets will be found along the lines of our national development."

By that phrase, Mr. Lohmann meant through the Balkans into Asia. He is one of the many Germans who believe that the country's future alliance will be with Russia. Although half English, being the son of an English mother, he fears that for many years to come Germany and England will be at sword points.

For Continuation of Plan

Many of the big industrialists of Germany with whom I spoke believe that this system can be profitably continued after peace. They see in the method a means of regulating prices through their enormous purchasing power. For example, if all the copper, amounting to hundreds of millions of pounds annually were to be bought by one bureau, the magnitude of the operation would be such as to enable it, in effect, to dictate the price it would be willing to pay. It may be noted that this system is substantially that employed by the Allies now, as evidenced by the recent order of 500,000,000 pounds which was placed in the American market.

The question of continuing this method, and the other economic questions that will arise after peace comes, are to be handled by an Imperial Transition Commission. This commission will not only deal with the economic transition, but will also be required to solve the financial problems that Germany must face.

Although it is admitted that the heavy drain upon German capital and industry will leave them somewhat crippled, Herbert Guttmann, president of the Dresden bank, assured me that there was no chance that the German debts would be repudiated. He felt confident also that England would be able to meet her obligations, but was not so sure about France and Russia.

Germany's bankers pretend to have no fear of the present system of credit pyramiding. They make a virtue of the fact that practically all of Germany's war money has been raised in Germany itself, and seem not to be worried by the fact that each new issue of the war bond is purchased with bonds of the last issue—a method which I heard described as being like a snake swallowing itself.

Germany's war loans now amount to 47,000,000,000 marks (approximately \$11,750,000,000), with a margin of 5,000,000,000 more marks "credit" voted by the Reichstag. With the new credit of 12,000,000,000 marks now being asked for—which will be obtained by another war loan to be floated in the spring—the total war credits voted will reach 64,000,000,000 marks (about \$16,000,000,000). To the last loan, just closed, which brought over 16,500,000,000 marks, over 4,000,000 people subscribed. They call it the "people's loan" in Germany.

I was told that the necessity of floating another big popular loan was one of the reasons why Falkenhayn was replaced in August by Hindenburg. That there was more than a little truth in the statement is shown by the fact that no sooner had Hindenburg taken hold than all the papers carried big signed statements from him commanding, exhorting, pleading, that the people subscribe to the new loan.

And all the advertisements were written around Hindenburg. It was Hindenburg who coined into millions of marks.

It will be observed that the new or

sixth credit is being authorized at a time when the Allies' offensive has failed to break through the German lines and when the Germans have begun to overrun humanity.

The new war loan is based upon the German reckoning that their daily war needs amount to about \$12,000,000 a day. The Germans say that the Allies are spending more than twice as much.

The contention of the German bankers regarding their ability to meet at least a part of the increased demands which will be made upon Germany's financial resources is shown in the great increase of the savings bank deposits, which in the first eight months of 1916 showed a gain of 1,718,000,000 marks. Since the war began about 400,000 new accounts have been opened, and in the first two years of the war the savings banks showed about \$1,000,000,000 excess of deposits over withdrawals.

Figures are less interesting than the human factors behind them, however, in Germany. They have no automobiles, there are practically no private cars left. They have no rent, food, clothes and other life supplies held down by government regulation. They take pride in saving.

Gambling Still Goes On

The automobile socialism which is typical of Germany today is helping toward this end. It has established purchase and distribution bureaus such as I have described for the necessities of the individual and of the national life. It regulates the labor supply; it puts a check on the rise in prices. The biggest silk house in Berlin was closed for a week when I was there because it had been overcharging. Although it was closed and could receive no customers, all the regular expenses—rent, light and wages—all had to be paid.

Trading and placing the stock markets are still indulged in in Germany and Austria. Many stocks are cheap, paying 10, 15, 20 and 25 per cent dividend, but no one knows how to use it before the present small government share in the profits will be so much increased, that it will practically wipe out all but a narrow margin of gain.

Germany has paid almost all her war expenses through war loans. The taxes have not been heavily increased. According to a statement I obtained the Prussian income tax has been lifted, on an average only 7 to 11 per cent. This system merely defers payment to posterity, but against this load the German economists say that the regular increase in wealth in the empire will act as compensation.

COLD WAVE NOW MOVING TOWARDS EASTERN STATES

Ten Below Zero Reported at Lander, Wyo., Lowest Temperature Recorded Yesterday; El Paso Freezes.

(BY MORNING JOURNAL SPECIAL LEASED WIRE.)

Washington, Nov. 14.—The cold wave from the Rocky mountain region continued to move eastward today and freezing temperatures had extended southward to the Mexican border, where the troops were feeling their effect. The coldest place today was Lander, Wyo., where it was 10 degrees below zero. Pueblo, Colo., and Valentine, Neb., reported 5 below, Charles City, Ia., and North Platte, Neb., 3 below, and Huron, S. D., 2 below.

The advancing cold was being felt throughout the middle west and practically all states east of the Mississippi river, but it seemed to be losing its intensity as it moved eastward.

The temperature today had moderated somewhat in the north. Rocky mountain region, but was much below seasonal averages in all western districts.

El Paso, Tex., reported 22 degrees, San Antonio 25, Del Rio 30, Corpus Christi 24, and Brownsville 23.

At Chicago, 16 degrees was reported, while St. Paul reported 6, St. Louis 16, and Omaha 4.

LEATHER TO BECOME MORE DEAR IN FUTURE

(BY MORNING JOURNAL SPECIAL LEASED WIRE.)

Chicago, Nov. 14.—The price of hides jumped upward again today, leading to a prediction that within a few months Americans may be paying \$15 and \$20 for shoes of ordinary quality.

"Country extremes," a well known grade of hides, were priced at \$2 cents a pound today, an advance of two cents over the previous market. Yesterday these hides were being sold at \$2 cents a pound. It is expected that hides at 25 cents a pound will be a fact before January 1.

The increase in price of leather was blamed on war demands and on embargo by foreign powers by an official of the National Association of Tanners, which begins its eighth annual convention here next Thursday.

Freezing Weather in El Paso.

El Paso, Tex., Nov. 14.—For the first time this year, El Paso and the surrounding valleys experienced freezing weather last night. The United States weather bureau office reported the lowest temperature during the night as 21 degrees below zero. Much suffering among the destitute Mexicans of El Paso and Juarez has been reported to the Associated Charities. Haymon Krupp, a merchant, today gave away coal to all destitute Mexican families who applied for it.

WORKERS OPPOSED TO PEACE NEGOTIATIONS

(BY MORNING JOURNAL SPECIAL LEASED WIRE.)

Baltimore, Md., Nov. 14.—That the 1,500,000 organized workers in the United Kingdom of Great Britain are unalterably opposed to taking part in any peace negotiations, because it might be regarded by the kingdom's enemies as a "sign of weakness," was the statement made by Harry B. Gosling, an English delegate to the convention of the American Federation of Labor here today.

"Our one ray of hope through the dark outlook of the war," he added, "is that the workers on their return to civil life will throw over the hateful system which makes war possible and inevitable."

PREPARATION IS MADE FOR FILING A CONTEST HERE

List of Objections to Canvass
Made by County Commis-
sioners Presented to Coun-
ty Clerk Walker.

The way was prepared yesterday for the beginning of an election contest in the filing with County Clerk A. E. Walker of objections to the official canvass, made by the county commissioners. The objections were made by M. E. Hickey and H. P. Barnes, republican attorneys. The purpose in filing them was said to be to prepare for a contest in case any of the unsuccessful republican candidates decided later to ask for investigation by the court.

The objections were filed in behalf of all republican candidates from the Hughes electors to the bottom of the republican ballot, only the electors H. J. Hammond, C. L. Hill and Juan Ortiz; Frank A. Hubbard, candidate for United States senator; Congressman H. C. Hernandez, candidate for representative in the national lower house, and H. O. Hursan, gubernatorial candidate, are named. The paper says, however, that the other candidates, who are not named, are also objectors.

The attorneys say it appears that 139 electors voted in the Fourth precinct, Rancho de Albuquerque, and that only 197 votes were counted. In the Ninth, Rancho de Arisco, they say the tally shows that the republican electors received nine more votes than the number certified to and that the democratic electors received nine less.

The allegation is made that the board refused to canvass the tally in the Twenty-eighth, Arroyo, it is said. It is asserted that from two to five votes more appear in the certificate than in the tally.

Other objections are made, but it is not charged in them that the republicans lost a specific number of votes.

76,000 SEATS TO BE PROVIDED FOR YALE-HARVARD GAME

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
New Haven, Conn., Nov. 14.—Five thousand additional seats are being erected at the Yale bowl, which will bring the total seating capacity to 76,000 for the Yale-Harvard football game here on November 25. The normal capacity of the amphitheater is nearly 62,000. More than 8,000 new seats were erected two weeks ago, and the latest addition now makes it certain that the stadium will be witnessed by the greatest crowd ever assembled at a football game in America.

In view of the fact that more than 100,000 applications for seats have been received, the Yale ticket office announced tonight that in order to satisfy as many as possible, non-graduates will receive only two tickets.

ROOF BURNS OFF HOUSE; STARTED BY DEFECTIVE CHIMNEY

Fire, starting from a defective chimney, destroyed the roof of a house owned by James Hannel, at 502 South Arco street, yesterday morning. The house was occupied by H. P. Williams. The fire was not discovered until it had gained considerable headway. Neighbors' firemen made a quick response to the alarm, when it was sent in, but when they arrived at Arco street the roof was a mass of flames. The damage was restricted to the roof, however.

FOUR DOCTORS DISAGREED

Pains Disappeared After Use
of Lydia E. Pinkham's
Vegetable Compound.

Wilmington, Del.—"I was suffering from a terrible backache and pains in my side, with bearing down pains and was very nervous. I was always tired, always drowsy, never could get enough sleep and could not eat. I had four doctors and each told me something different. I read of Lydia E. Pinkham's Vegetable Compound and decided to try it. I got good results and I now feel better than I have felt for years and I am gaining in weight. I can gladly recommend it to all women."—Mrs. George W. Smith, 1611 West 4th Street, Wilmington, Del.

"Backache and bearing down pains" are danger signals which every woman should heed. Remove the cause of these aches and pains by taking Lydia E. Pinkham's Vegetable Compound, that good old root and herb medicine. Thousands of women have testified to its virtues.

For forty years it has been making women strong, curing backache, nervousness, indigestion and inflammation, weakness, displacements, irregularity and periodic pain.

If you want special advice write Lydia E. Pinkham Medicine Co., confidential, Lynn, Mass.

SCENE FROM "THE TRAVELERS"—Crystal Tomorrow and Friday.

ORGANIZATIONS OF MINOR LEAGUES WANT VOICE IN COMMISSION

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
New Orleans, Nov. 14.—Following discussion of the annual report of Secretary John H. Farrell, appointment of committees and a preliminary conference by representatives of Class II leagues, the delegates to the annual meeting of the National Association of Baseball Leagues late today cleared the way for consideration tomorrow of some of the more important questions scheduled for settlement during the sessions here.

The conference of Class II leagues resulted in the announcement that a formal request would be made for representation on the national commission of the minor league organizations. The minor leagues, it was contended, have more need of representation on the national commission than the Baseball Players' fraternity. A resolution to this effect will be drawn up by a committee on resolutions, it was announced, and will be submitted to the delegates tomorrow or Thursday.

The national board of arbitration will hand down decisions tomorrow on 133 disputed cases, which have been submitted for settlement. Representatives of 16 minor leagues, comprising about 200 delegates, were present at the opening session today and were welcomed to New Orleans by Mayor Behrman. Vice-President T. H. Morgan presided at the sessions in the absence of President M. H. Sexton. Some of the members of the national commission was in attendance.

SOGGY FIELD SENDS YALE SQUAD TO THE CAGE FOR PRACTICE

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
New Haven, Conn., Nov. 14.—A soggy gridiron and a drizzling rain caused a change in the practice plans of the Yale football team today. Instead of the contemplated scrimmage between the varsity and the scrubs, Coach Tad Jones ordered the squad to the baseball cage, where an hour's signal drill was held, followed by "breaking through" practice for the line.

Tackle Taft and Guard Galt of the first team, who have been injured, practiced with the second eleven. There is still some doubt whether they will be able to start against Princeton Saturday. Braden, the drop-kicking fullback, has a slight injury and he will be served as much as possible in this week's practice.

TIBBETT, STAR-KICKER, MAY PLAY AGAINST YALE

Princeton, N. J., Nov. 14.—The first drive of the season with the exception of David Tibbett, was drilled today in new offensive formations for the Yale game Saturday. There is a possibility that Tibbett, the star drop-kicker, may be in shape to participate in the contest. Moore, another fullback, is slightly injured as a result of hitting a line in the Harvard game, also in the lineup today.

FLORENCE MACBETH, HERE ON NOV. 18, HAS WONDERFUL RECORD

During the season 1915-1916 Florence Macbeth fulfilled many important concert engagements and appeared with great success in the Chicago Grand Opera association, winning the unanimous approval of press and public. She will appear here Saturday, November 18.

Florence Macbeth has appeared as prima colorato in the following major houses:

Grand Opera, Darmstadt, Germany.
Royal opera, Badenweiler, Germany.
Royal opera, Bayreuth, Germany.
Chicago Grand Opera association, season 1913-14.
Grand opera with Century Opera company, season 1914-15.
Chicago Grand Opera association, season 1915-16.
Prague Grand Opera, season 1916-17.

FOR SEPARATION OF BANKING AND STORE KEEPING

Bankers' Association Advised
That Small-town Merchants
Should Be Made to Stop Re-
ceiving Deposits.

The divorcing of banking business and storekeeping in small towns and the placing of the power to issue charters in the hands of the state bank examiner, were recommendations made by the legislative committee to the New Mexico Bankers' association yesterday afternoon.

The committee believed that merchants doing banking business, not confining that the new bank act did not apply to their manner of doing business, should be compelled to discontinue receiving deposits. The committee suggested that they be required to organize a corporation to enter banking business. The banking business should have no connection with the mercantile business, the committee said.

The committee held that the issuance of charters should be left entirely in the hands of the state bank examiner instead of in the hands of a board made up of the governor, attorney general and bank examiner. The suggestion was made that the title be changed from state bank examiner to superintendent of banks. The superintendent's duties, according to the suggestion, would be called examiners.

Making the sale of mortgaged chattels a felony was advised by the committee. The sale of mortgaged chattels is now a misdemeanor.

Judge W. F. Ramsey speaks. Judge W. F. Ramsey, chairman of the federal reserve board of Dallas, Tex., was the first of the prominent financiers who came from points outside New Mexico, to speak. He addressed the bankers at the afternoon session of the conference.

Judge Ramsey regarded the federal reserve law as the greatest piece of legislation enacted for fifty years although, he said, it might not be altogether perfect. The system decentralized the money power and placed the money of the people's wealth within easy reach of those who had use for it.

The distribution of money reserves throughout the country, said Judge Ramsey, tended to reduce the rate of interest. Some bankers, and he might have thought, had got interest was necessary to make money, but he believed the condition was broader with money so cheap that it made possible the carrying on of a greater volume of business.

The smallest bank in New Mexico, he said, had a reserve of \$100,000. He said the largest bank in New York state, outside New York City, can get it. He gave the federal reserve system credit for this.

President Corbett III. The convention opened yesterday morning at the Commercial club with H. B. Jones, of Tucuman, vice president of the association, in the chair. John Corbett, of Denning, president, was unable to come on account of illness.

H. B. McMillen gave the address of welcome, saying that Albuquerque not only welcomed the bankers, but treated them would find it possible to meet here many times in the future. D. T. Hoskins responded. Mr. Hoskins commented on the growth of the city and said the bankers were glad to come here because of the hearty reception always given them.

The following committees were appointed:

Resolutions—Hallett Reynolds, W. D. Murray and E. M. Beckler.
Auditing—A. B. McMillen, Frank Collins and W. F. Fox.
Nominations—D. T. Hoskins, H. J. Hammond and J. W. Fox.

Albuquerque bankers entertained visiting bankers with a banquet last night at the Alvarado hotel. Bankers were entertained yesterday afternoon at bridge at the Country club.

Physicians report more cases of kidney trouble among women than men. Mrs. Anna Reed, Tucuman, Ala., writes: "I was down with my back as I could not stand up more than half of the time. Foley Kidney Pills took all of the hurt out. They are the best kidney pills I ever took." Rheumatic pains, swollen ankles, backache, stiff joints, sore muscles and sleep disturbing bladder ailments indicate diseased kidneys. Foley Kidney Pills act promptly. Sold everywhere.

Want a high grade employee? or the better grade of servants? Make use of the want columns of the Journal.

SANTA FE READY TO PROVIDE FOR 1,800 TEACHERS

Elaborate Preparations Made
in Ancient City for Entertain-
ment of Delegates to
Educational Convention.

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Santa Fe, Nov. 14.—Provision has been made for 1,800 teachers during the Educational convention Thanksgiving week so that not a single teacher need be without a good bed, a warm room and square meals three times a day. In addition, an abundance of free entertainment, social attention as well as a splendid program have been provided. The commercial organizations have so organized the work of receiving visitors, seating them to their quarters, and looking after their comfort and entertainment, that a new standard will be set in that respect for future conventions.

The building of the Woman's Board of Trade will be kept open all day and evenings for a rest room for the visitors. Provision has been made for the serving of meals in addition to the restaurants and hotels. In four centrally located places, the High school, where the domestic science class will serve meals, the Woman's Board of Trade library, where the Presbyterian Aid society will serve dinners and luncheons; in the Scottish Rite Cathedral, where the Woman's Board of Trade will serve meals; and in the assembly room of St. John's Methodist Episcopal church will serve two meals a day.

Sunday afternoon, the State museum will be thrown open to the visitors and museum assistants will personally escort and explain to groups of visitors the art exhibit, as well as the mural paintings and archaeological treasures, beginning at 2, 3 and 4 o'clock. The artists will have their studios open to those who wish to take a peep at the workshops of modern art.

Nothing has been overlooked to make the visit of the teachers profitable and interesting to Santa Fe's guests.

HIGH COST OF LIVING BLAMED ON MIDDLEMEN

President Wilson Addresses
National Grange on What
Should Be Done to Promote
Agriculture

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Washington, Nov. 14.—President Wilson blamed middlemen for the high cost of foodstuffs here tonight in a speech welcoming to Washington the convention of the National Grange, the first formal speech he has delivered since the election. Urging that farmers increase their output, the president said:

"We ought to raise such big crops that circumstances like the present can never repeat when men can make as if the supply was so short that the middlemen could charge for it what he pleased. It will not do to be negatively with the rest of the world in respect to its food supply."

The president did not mention recent petitions to him to declare an embargo on exportation of foodstuffs from the United States to the rest of the world, and he did not refer even indirectly to the outcome of the presidential election. His address was interrupted frequently by applause by the farmers attending the first day of the celebration of the founding of the grange.

Compliments Farmers. "It seems to me," said the president, "problems of our life and the life of the world lie before us problems in connection with which the farmers of the United States will play a part such as they never have played before."

"It goes without saying that the physical life of the nation has always depended upon the farm. It goes without saying, also, that to a large extent the physical life of the world has drawn its sustenance from the great areas of farm land in the United States. We have sent food to all parts of the world, and the American farmer has contributed to the life of all the countries of the world. But you know that as our own population has increased, the proportion in which we have fed the world has been contracted with our own. And there are problems that are comparable with the problems of statesmanship being posed by the farmers of the United States."

SANTA FE PERSONALS

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL)
Santa Fe, Nov. 14.—W. H. Babo, E. E. Nuding, W. H. Kerr and A. J. Fischer, on a hunting expedition yesterday afternoon west of Santa Fe, bagged twenty-eight quail and several cottontails.

Dr. Charles A. Wheeler left this afternoon for Grant county on behalf of the Scottish Rite Masonic reunion at Santa Fe early next year.

COLD WAVE SPREADS EAST AND SOUTHWARD

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Washington, Nov. 14.—Cold weather from the Rocky mountains spread eastward and southward tonight, freezing temperatures being recorded in nearly all states. Snow appeared in New England, New York, the Ohio valley, around the great lakes, and in Tennessee, and alet was general in northern Louisiana. The sun shone in the west.

Cold wave warnings issued tonight included all the south Atlantic states except south and central Florida. Freezes were reported in all the gulf states. Heavy rains preceded closely the cold wave along the Atlantic coast.

WIRELESS GREETINGS BETWEEN U. S. AND JAPAN

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
New York, Nov. 14.—President Wilson and the emperor of Japan will exchange messages tomorrow upon the occasion of the inauguration of a trans-Pacific wireless service between the United States and Japan. It was announced by the Marconi Wireless Telegraph Company of America here tonight.

For the present, it was said, service will be confined to San Francisco, Hawaii and Japan.

MEN FEEL TIRED, TOO. While much is said about tired women, it must be remembered that men also pay the penalty of overwork. When the kidneys are weak, inactive or sluggish, when one feels tired out and miserable, lacks energy and ambition, Foley Kidney Pills are tonic and strengthening. Wm. H. Clark, Springfield, Ohio, writes: "I found no relief from kidney trouble until I discovered Foley Kidney Pills. Now I am in A-1 shape." They act quickly and surely. Sold everywhere.

OFFICIAL IS CHARGED WITH CRIMINAL LIBEL

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Chicago, Nov. 14.—Warrants for the arrest of State's Attorney Hoyne and the city editors of five Chicago newspapers, were asked today by Chief Justice Gibson of the municipal court, who charged criminal libel.

The complaint is based on an alleged interview by Hoyne, growing out of Hoyne's charges against Chief of

Police Hooley, Judge Trade asked warrants for the state's attorney and for Walter B. Brown, general manager of the City news bureau, and intimated that warrants would be issued for the city editors of the five newspapers.

For Throat and Lungs STUBBORN COUGHS AND COLDS ECKMAN'S ALTERATIVE

Sold by All Leading Druggists

While much is said about tired women, it must be remembered that men also pay the penalty of overwork. When the kidneys are weak, inactive or sluggish, when one feels tired out and miserable, lacks energy and ambition, Foley Kidney Pills are tonic and strengthening. Wm. H. Clark, Springfield, Ohio, writes: "I found no relief from kidney trouble until I discovered Foley Kidney Pills. Now I am in A-1 shape." They act quickly and surely. Sold everywhere.

MAKING A MEAL ON BREAD

Here would not be unpleasant if it were our bread. The leaves that come daily from our ovens, so crisp and appetizing have a flavor that appeals to the palate. People don't eat our bread from a sense of duty. They eat it because they like it. So will you when you come to try it. Will it be today?

Which Do You Prefer?

It is important for reasons of health and practical economy for every housekeeper to ask herself this question:

"Do I prefer a pure baking powder like Dr. Price's, made of cream of tartar derived from grapes, or am I willing to use a baking powder made of alum or phosphate, both derived from mineral sources?"

The names of the ingredients printed on the label show whether the kind you are now using or any brand, new or old, that may be offered is a genuine cream of tartar powder, or merely a phosphate or alum compound.

There is no alum nor phosphate in

IMPORTANCE OF MINING INDUSTRY CLEARLY SHOWN

Speaker at Congress in Chicago Calls Attention to Growth of Production Since European War Began.

Chicago, Nov. 14.—The importance of the mining industry of the United States was shown by U. A. Tupper of Chicago this afternoon in an address before the American Mining Congress, in which he said the amount contributed to the wealth of the nation in its mines totaled \$19,739,298.33 in the last ten years, and that the amount of returns in 1905 (\$1,622,947,784) increased to \$2,244,033,833 in 1912. Since the beginning of the European war, he said, the business has reached the approximate sum of \$130,000,000.

"The wonderful earning capacity of American mines," said Mr. Tupper, "is illustrated by the dividends distributed in 1917 mining camps. (all that make their dividends public), during the ten months of 1916 last closed. These companies between January 1 and October 31, of this year, have divided among shareholders \$184,850,127. If the dividend payments of the securities-holding corporations were added (as they rightfully could be), 90 years' total would reach \$223,432,298—a convincing argument that mining has now earned on its own principal reason for our present standing at the head of the world's great industrial countries."

Figures on Cotton Consumption.
Washington, Nov. 14.—Cotton used in the United States during October amounted to 55,249 running bales, exclusive of lint, compared with 50,762 in 1915, and for the three months ending October 31, 1,453,293 bales, compared with 1,463,892 a year ago.

Hughes Lead Increases.
St. Paul, Minn., Nov. 14.—The Hughes plurality on a re-election of votes throughout the state mounted this afternoon to 1,086. The total in Hughes, Hennepin county's latest figures, showing a decided gain for Hughes, were: Wilson 178,559; Hughes 179,647.

GLASS OF WATER BEFORE YOU EAT ANY BREAKFAST

Wash Poison From System Each Morning and Feel Fresh as a Daisy.

Every day you clean the house you live in to get rid of the dust and dirt which collect through the previous day. Your body, the house you live in, also becomes filled up with twenty-four hours with all manner of filth and poison. If only men and women could realize the wonders of drinking phosphated hot water, what a gratifying change would take place.

Instead of the thousands of sickly, straggling-looking men, women and children with pale or muddy complexion, instead of the multitudes of "nervous wrecks," "brain faggers" and pessimists who should be bright, optimistic throngs of rosy-cheeked people everywhere.

Everyone, whether sick or well, should drink each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, and fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, and, particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at a drug store. It will cost but a trifle but is sufficient to demonstrate the quick and appearance change in both health and appearance waiting those who practice internal cleansing. We must remember that internal cleansing is more important than outside because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

FOOD SITUATION IN RUSSIA UP FOR SOLUTION

Duma Must Find Means of Correcting Abuses Due to Lack of Transportation and Abuses of Speculators.

Petrograd, Nov. 14 (via London).—The food situation and the problem of reorganizing the present supply channels, which have proved inadequate to meet the needs of the population, are the principal questions which will occupy the attention of the duma, which has resumed its sessions after a four-months' adjournment.

Since the last session the whole supply question has become of paramount importance and the press and public are unanimous in demanding some immediate action that will allow the people to benefit from the plentiful resources of the country. These, if properly handled, it is contended, would be sufficient to provide for the entire population at prices not exceeding those in the other countries at war.

Causes of Shortage.
The present conditions are to be traced chiefly to lack of transportation facilities and to speculation. Speculation has promptly met with punishment whenever the offenders have been taken to increase the means of transporting supplies from the food centers to the large cities. But all the committees engaged in the consideration of the question are convinced through investigation that complete reorganization can alone remedy the present economic disaster.

The duma is expected to express itself in the early part of the session on the question of the advisability of transferring the management of supplies from the ministry of agriculture to the ministry of the interior.

Wait Word From Poland.
Another eagerly awaited feature of the session is the declaration to Poland of the ultimatum to that part of Russian Poland occupied by German troops. A large number of prominent Poles, who are exiles from their homes in Russian Poland because of the German invasion, are ready to have expressed themselves as disatisfied with the German offer which, according to their views, is an attempt to perpetuate the dismemberment of Poland, and is therefore unacceptable.

HEAVY LOSSES SUSTAINED BY ITALIAN ARMY

Berlin, Nov. 14 (via Washington).—The Italian army has suffered heavy losses in its offensive in the Italian Alps. The Italian army has suffered heavy losses in its offensive in the Italian Alps. The Italian army has suffered heavy losses in its offensive in the Italian Alps.

Villa's Barbarity Confirmed.
El Paso, Nov. 14.—Confirmation of the report that Villa had ordered all captured Carranza soldiers branded with the letters "V. C." for Venustiano Carranza, was received here by government agents from Chihuahua City refugees, who say Villa ordered the Carranza soldiers branded as traitors because they did not drive the "foreign invaders" out of Mexico.

MISTREATMENT OF AMERICANS WILL BE INVESTIGATED

Lansing Instructs Consul Edwards at El Paso to Make Thorough Probe of Facts in Brahan and Other Cases.

El Paso, Tex., Nov. 14.—American Consul Thomas C. Edwards of El Paso, Tex., was instructed today by Secretary of State Lansing to make a thorough investigation and report immediately regarding the charges against the Americans. A message is also known to have been sent to the American representative in Mexico City requesting the Americans. An effort is being made to prevent the Americans from being taken to Chihuahua City for trial, as it is feared that, because of the unsettled conditions there, they may be killed. It is in the charge of being a Villa spy and Williams with having stolen cattle in his possession.

Ambrose Garcia, inspector general of consulates for the Carranza government, went to Juarez today to hold a conference by telegraph with General Trevino about the American cases. It is expected here the two Americans will be released late today.

Nothing definite has been learned of William Dill, the New Orleans traveling man, who disappeared from his hotel here and was reported to be in jail in Juarez. Mr. Garcia stated today he had been unable to locate Dill in Juarez. Albert Herold, another American, who was with Villa at one time, according to his father, is still being held in Chihuahua City, having been re-arrested after being released on a charge of cattle stealing near Juarez.

Edwards Calls on Garcia.
Acting upon his instructions from Secretary of State Lansing, American Consul Edwards today called upon Ambrose Garcia, acting inspector general of consulates for the Carranza government, and filed a formal protest against the removal of the two Americans to Chihuahua City. At the same time, he made a request for immediate information as to the charges against them.

He also asked that an investigation be made of the charges against Albert Herold at Chihuahua City. Captain Smith, British consul here, is acting for the United States in this case, Consul Edwards announced, as there now is no American consul there.

YOUNG LADY HAS MOST UNUSUAL PERSUASIVE POWER

Borrows \$80,000 From Wealthy Chicagoans Which She Says Was Spent on Chicken Farm Mostly.

Chicago, Nov. 14.—Miss Annie Sharpley, who borrowed \$80,000 from wealthy Chicagoans without security, by her own account, was today by attorneys to have admitted to day that she was the same Annie Sharpley who once was sent to the federal penitentiary from Philadelphia for forgery.

Miss Sharpley's affairs became public after she had filed a petition in bankruptcy, scheduling \$80,000 in debts, and declaring that her extensive poultry farm, from which she sold eggs to many wealthy families here, had been sacrificed to her longing to "go back to the States."

The entire value of the farm, she said, had been spent in inducing David Belasco to produce the play.

Miss Sharpley later said the money she obtained had gone for the support of a Englishman whom she had loved in her girlhood, and who had since lived on the money she had been able to make. He was killed recently in battle, she said.

The same persuasiveness that enabled Miss Sharpley to borrow large amounts has prevented any of her creditors from taking action against her, it was said. Miss Sharpley said she could repay the loans if given time.

Swollen Ankles and Feet Are Indications of Kidney Trouble

Swollen ankles and feet are forms of a dropsical condition, due to disordered kidneys. Naturally when the kidneys are deranged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists; or under the eyes in bag-like formations.

It is just as necessary to keep the kidneys acting properly as to keep the bowels active, says an eminent physician. When one is sick the first thing to be done is to thoroughly test the kidney secretions.

The very best possible way to take care of yourself is to take a little "Anuric" with the meals. In this way it is readily dissolved with the food, picked up by the blood and finally reaches the kidneys, where it has a tonic effect in rebuilding these organs.

"Anuric" was recently discovered by Dr. Pierce, of Buffalo, N. Y.; it has been thoroughly tested in its labors as well as in his Invalids' Hotel. Everyone can quickly associate Dr. Pierce with his great herbal restorative tonic, "Golden Medical Discovery," and his "Favorite Prescription," universally known as an invigorator for womanly life.

A different person daily offers his or her words of praise of "Anuric." Now Mrs. John Reardon, speaks:

"For over ten years I have been bothered with a menacing kidney trouble. My back ached constantly. Had rheumatic pains through the limbs and knees. My hands and feet both puffed up in sort of a dropsical way. In spite of many remedies I used I obtained no relief. Just lately I read of 'Anuric' in our daily papers so I used the remedy. The results have been beneficial."

Simply step into the drug store and ask for a 50c package of "Anuric," or send 10c to Dr. Pierce for trial package.

COMPROMISE IN PROPOSED RATES NOW ARRANGED

There Is to Be No General Increase of Freight Charges to Pacific Coast and Inter-mountain Points.

Washington, Nov. 14.—Cancellation of the proposed general increase in freight rates by transcontinental railroads on traffic from and to the Pacific coast and the intermountain country, and the east, was authorized today by the Interstate Commerce commission. Notice was given of a compromise between carriers and shippers for a maximum increase of 10 cents per hundred pounds on carload rates, and a maximum of 5 cents on less than carload traffic to coast points.

No changes to intermountain points from eastern territory between the Atlantic coast and the Missouri river are contemplated and the commission stated that accordingly discriminations under the long and short haul clause now existing between Pacific coast ports and the intermountain cities will be diminished to the extent of the increases to the Pacific coast ports. The eastbound carload rates on asphaltum, barley, beans, canned goods, dried fruit and wine from the Pacific coast will be increased. The commission made this announcement.

What Authority Is Granted.
The commission has granted authority to transcontinental lines to cancel all of the protested eastbound and westbound rates between points on the Pacific coast and the intermountain territory on the one hand and points in eastern defined territories on the other hand, contained in transcontinental traffic which were suspended by the commission in its order of investigation and suspension docket No. 308, in consequence of which the hearing on the suspended rates, set for Chicago, November 28, Salt Lake, November 28, San Francisco, December 4, Portland, Ore., December 11, and Spokane, Wash., December 14, 1916, before Examiner Thurlert, have been cancelled.

Hearings on fourth section applications Nos. 25, etc., respecting rates on commodities from eastern defined territory to Pacific coast points and intermediate points and fourth section applications Nos. 9-13, etc., respecting rates on barley, beans, canned goods, asphaltum, dried fruit, wine and other commodities from Pacific coast ports to eastern destinations, set for the same places and dates, will be held as scheduled.

New Tariffs to Be Filed.
It is understood that the transcontinental lines purpose to file tariffs effective upon statutory notice, December 30, 1916, applicable upon the so-called schedule "C" commodities covered in the eastern docket No. 938, which will increase the present rates to the Pacific coast ports a maximum of 10 cents per hundred pounds on carload and 5 cents per hundred pounds on less than carload traffic. But no changes to intermountain points in the eastern docket No. 938, which run from the Atlantic coast to the Missouri river, inclusive, are contemplated.

Hence, the discriminations under the fourth section (which relates to the long and short haul clause of the interstate commerce law) now existing between Pacific coast ports and intermountain cities will be diminished to the extent of increase to the Pacific ports. Rates from Missouri river and points of states west thereof, to intermountain cities taking maximum rates will be increased to the level of the rates to the Pacific coast ports, the maximum increase being 10 cents per hundred pounds on carload and 5 cents per hundred pounds on less than carload traffic.

Under the new rates, the eastbound carload rates on asphaltum, barley, beans, canned goods, dried fruit and wine from Pacific coast ports will be increased 10 cents per hundred pounds.

Americans Return to Holland.
The Hague, Netherlands, Nov. 14 (via London).—Courier Thomas Thomas Smith and the other American passengers on board the Dutch mail steamship Komnigren, Rotterdam, who were taken by a German submarine to Zebruggen last week, were permitted by the Germans to return to Holland today.

Dumb's Death Exaggerated.
Vienna, Nov. 14.—There is no foundation for the report recently published in the United States of the death of Dr. Constantin Dumba, former Austro-Hungarian ambassador to the United States.

ROCK ISLAND TO BE REORGANIZED; PLANS ANNOUNCED

Stockholders to Receive \$40 Preferred Stock in Exchange for Each \$100 of Common in Old Corporation.

New York, Nov. 14.—Plans for the reorganization of the Chicago, Rock Island and Pacific railway company, announced here tonight, provide that the stockholders purchase 7 per cent preferred stock at par to the extent of 49 per cent of their present holdings. In other words, for every share of their present stock, it was estimated, the stockholders will obtain 49 new shares of the new preferred stock and 51 shares of new common stock.

The common stock issue of the new company will be the same as that of the present company and the new cash thus provided will be approximately \$20,000,000. The present \$20,000,000, par value debentures, are to be exchanged for an equal amount, par value, of 6 per cent preferred stock. The coupons maturing January 15, 1916, and July 15, 1916, on the present debentures, are to be paid in cash and the stock will be cumulative up to 5 per cent per annum. The money to be thus raised, it is said, will be applied in payment of acquisition of two-year collateral secured gold notes, collateral secured bonds, receiver's certificates and for reorganization requirements and future working capital.

Refunding Bonds.
As a result of paying off the receiver's certificates and the collateral secured bonds, there will be presently realized to the new company approximately \$25,000,000 first and refunding bonds, besides other bonds which will become available for future improvements. From this \$25,000,000, to be presently realized, the plan contemplates the sale of approximately \$15,000,000 face amount of the first and refunding bonds so that the new company will be in position to meet the \$12,500,000 first gold mortgage notes, maturing July, 1917, without resorting to the cash raised from the sale of preferred stock to the stockholders.

The plan leaves undisturbed \$25,753,552 of secured obligations and equipment of trusts of the railway company and its subsidiary corporations, and through the exchange of debentures into preferred stock and the payment of various obligations to be met out of the cash requirements of the plan, the fixed charges of the railway company will be reduced from \$12,277,095 to \$10,922,595.

ROUTINE WORK TAKES WILSON'S WHOLE TIME

Washington, Nov. 14.—President Wilson cancelled the Tuesday cabinet meeting and all other engagements today, so he could dispose of a pile of routine work, which was accumulated during the campaign.

The executive officers were thronged with visitors. Word has gone out that very few new appointments will be made. The president, it was said today, would like to find places for some defeated senators and representatives, but cannot appoint them to boards and commissions created by congress because of legal restrictions against it.

Support for Missions Small.
New York, Nov. 14.—Twenty-seven per cent of all the Sunday schools of the Methodist church are making no contributions toward missionary work. Dr. Edgar Blake, of the Methodist board of Sunday schools, told the church's board of foreign missions in conference here today. Blake said that during the last year 15 cents was the average contribution of each Sunday school member toward missionary work.

WEDNESDAY, NOVEMBER 15, 1916

WHAT THE ELECTION SHOWS

Not only is President Wilson free
of obligation to the Wall Street crowd,
but he is not under the slightest obli-
gation to Boss Murphy, in New York,
to Boss Taggart in Indiana, or Boss
Hoyt in Illinois.

The president will enter upon his
second term as president under an obli-
gation except to the people of the
United States who gave him a majority
in the electoral college and a ma-
jority of the popular vote. The boss,
both democratic and republican, was
against Woodrow Wilson and both
the republican and the democratic
boss was licked.

With the advent of the metropol-
itan newspapers, it is interesting to
note how they explained things when
everybody thought Hughes was elected.
The New York Herald, which
had unambiguously supported
Hughes, said the issues were upon
principles and not upon men. Then it
gave Mr. Hughes a long lecture
on how the country should be run
for the next four years.

The New York Sun, which had
lauded the president with all of its
ample sarcasm during the campaign,
pointed with glee to the "virtue of
election" served on the president
by the people.

The New York American, which
had been switched by Mr. Hearst dur-
ing the last days of the campaign to
support of Wilson, ascribed the de-
feat of the president to his "un-
fortunate foreign policy."

The New York Tribune told of the
reputation of "Wilsonism" and
warned Mr. Hughes to be up and do-
ing for "national rehabilitation."

The Philadelphia Public Ledger
saw in the defeat of Wilson a demand
in the nation for robust Americanism
and protection of business inter-
ests, and the Public Ledger's remarks
after it became convinced that Wil-
son had been elected may serve as an
example of what all of the anti-Wil-
son press is saying.

"It would be idle to seek to explain
away the fact revealed by the returns,
or to try to find another meaning
than the obvious one. No one could
look at the reconstructed political
map of the United States and honestly
regard the issue as other than what it
is, a definite acceptance by the
greater portion of the country of the
Wilson methods and policies. There
may have been factors and causes
affecting the vote in limited localities,
but none of these apparently diverted
the main stream of national sentiment.
The mass of the people, South and West,
evidently gave greater weight to the fact
that the nation had in fact been kept out
of war than to the issue by which
it was done; they refused to see in
the President's actions either a deroga-
tion of the national honor or a humiliat-
ing surrender of government to
at functions under duress and in the
interest of a class."

The Ledger is correct. The people
of the west saw no derogation of the
national honor in letting Germany
to terms without severing diplomatic
relations, and in the eight-hour
law they saw merely a temporary ex-
pedient for preventing a strike, which
it postponed might never occur. They
saw no danger about it, no humiliat-
ing surrender of government functions."

The Minneapolis Journal, which
strongly fought the re-election of
Wilson, said it all in this:

"There is one fact in connection
with election in the United States that
may well be emphasized. The ma-
jority rules, and it rules without a
"veto" in opposition.

"Mr. Wilson is elected President.
Yesterday he sailed across the Hudson
River, after visiting Washington.
Though this victory has been hard
to him at the point, the people
all along waved handkerchiefs and
extended the glad hand. Already this
election was forgotten. In no other
country but the United States could
this happen in just the way it did."

THE CAMPAIGN MANAGERS

Any while summing up the wires
and the therefore of the election
results, it may be well to call atten-
tion to the difference of management.
Vance McCormick was a master of
organization and Robert W. Woolley,
who resigned from the very respon-
sible position of superintendent of the
mint to take over the publicity work
of the democratic national com-
mittee, conducted the best publicity cam-

aign ever known in any national
campaign.

Wilcox, the republican national
chairman, was a failure. He was one
of the sort who insists upon attend-
ing to every little detail himself, and
the job was a mile too big for him.
He was nervous, jumped up and
down, ran his fingers through his
hair, had nervous headaches, com-
plained to everybody who saw him
of being overworked. Such a man
should never have been permitted to
take the management of the cam-
paign.

But the republican publicity cam-
paign was almost invisible. It was the
poorest thing of its sort ever inflicted
upon the American people. The men
in charge of it really had no idea of
what the voters wanted or would
stand. One of its great stunts was
to refer to Secretary of the Treasury
McAdoo as "the crown prince." The
entire output of republican publicity
work dealt in things that were petty.

The republican party has a history
that is inspiring. It has been a party
of progress and achievement. For
a long time it was directed by men
of brains and character. But it has
fallen in hard lines when it cannot
find a bigger man than Wilcox to
manage its campaigns or a more ef-
ficient man than Barry to manage its
publicity. They might as well have
continued Taft's private secretary,
Charles Hilco as national chairman.
Before becoming Mr. Taft's private
secretary he was the head of a school
for feeble minded boys, which didn't
seem to have qualified him for a good
private secretary to the president or
for the manager of a great national
campaign.

Colonel George Harvey came out
in the North American Review, just
before the election, with a prediction
of just how the election would go.
Most of his guesses failed to show up
in good form when the votes were
counted.

PLACING THE BLAME

Just now the republicans of New
Mexico—some of them at least—are
telling how it would have happened
otherwise. Senator Thomas Benton
Caton is sure the ticket would have
triumphed if he had been nominated
for senator. He would have been
beaten worse than Hubbell was. Sen-
ator Romero believes the fatal de-
fect was in not nominating him for
governor. He would have lost his
own counts by five hundred votes
Charles Spiess and Charles Springer
are quite sure that if the nominat-
ing convention had heeded their advice,
everything would have been well.
Their manipulation of the republican
party in the past was one of the
strongest reasons for its defeat.

The combination which for many
years has centered around Attorney
Hawkins, of El Paso, is doomed to
New Mexico. This combination is
composed of very able men, but the
people of the state understand that
these men serve special interests, and
the day of domination by special in-
terests is over in New Mexico.

Peeling potatoes is prohibited by
Germany, and the offender may be
committed to prison for six months.
A lot of cooks would be glad if it
were made a penitentiary offense in the
United States.

ENSLAVING THE BELGIANS

Germany has a precedent for carry-
ing people away into captivity. That
was the custom of the Assyrians in
the old biblical days, and of the
Romans under Caesar and of the
Huns during the campaigns of Attila,
but it hasn't occurred before the
present war for considerably more
than a thousand years, except among
the Arab tribes of Africa who did a
considerable business in that line dur-
ing the days of the livingstone ex-
plorations.

The carrying away of the Belgian
people to work in the German fields
and factories is but part and parcel
of that efficiency which sent the
Lusitania to the bottom of the ocean
with more than a thousand innocent
men, women and children. Germany
cannot stop leave Cardinal Mercier
from telling the truth, except by kill-
ing him. That, it has not dared to
yet.

In South Dakota the ballot was
eight feet long. That state has the
initiative, the referendum and the re-
call, and the framers of all free
primary laws.

CABINET CHANGES LIKELY

It is believed that several members
of President Wilson's cabinet believe
that they should retire to private life.
Mr. Daniels has enjoyed the honor
of his position for four years, and
his newspaper to Raleigh needs his
attention. Mr. Baker came reluctantly
from Cleveland to the war de-
partment. He is a young man with
a future to make, and he feels that
his law business needs his undivided
attention. Secretary Redfield enjoys
the future platform, and he has been
considerably hampered of late in the
freedom of his expression.

Laboring, McAdoo, Houston, Lane,
Burleson, William B. Wilson and
Gregory probably will remain where
they are, unless Lane, should be
called to a supreme court vacancy
likely to occur any time.

The "I-Told-You-So" club met the
day after the election, but nothing
was given out for publication.

It was an eyelash finish instead of
a landslide.

AND ON THE THIRD DAY

THE PRESIDENT PLAYED GOLF AND
REMAINED UNCONCERNED

MR. HUGHES RETIRED EARLY AND LEFT
WORD THAT HE WAS NOT TO BE DISTURBED.

THERE WERE SCENES OF WILD
JOY AT THE NATIONAL HEADQUARTERS

With Scissors and Paste

CONSIDERING WHO GRANDPA WAS

(American Magazine)

When I was about 10 years old I
went to an animal show where there
were 15 or 20 monkeys, mostly small,
in one cage. But among them there
was one very large monkey, four or
five times as big as any of the others.

I don't know who invited him, or
how he came to be there, but he made
his presence felt, as we shall see.

When feeding time came, the keeper
appeared with a large bundle of
cabbage leaves which he threw into
the cage filled with small mon-
keys, for as fast as the keeper threw
the leaves into the cage, the big mon-
key grabbed them and held onto them.

When some of the little mon-
keys criticized him, he merely showed
his teeth and went on with his work.

After he had acquired all the leaves
that had been thrown into the cage
he gathered the whole supply together
into a pile and sat on top of the pile.

Then he ate all that he wanted
—and perhaps more than he wanted.
He did not eat all the leaves that had
been passed into the cage because
his stomach could not hold so many.

He held the cage, where he un-
derstood all that he could, he lost
interest, yawned and walked away.

Then the little monkeys scampered to
the remaining pile of leaves and each
took what was left—but not without bak-
ing and inequalities among themselves.

Although the big monkey sat on
himself, unpopulated, both inside and
outside the cage, he was not satis-
fied about it. Indeed, why should he
be? He held the cage, where he un-
derstood all that he could, he lost
interest, yawned and walked away.

There wasn't a monkey on the
premises that did not really wish
him—no monkey that did not wish
to be like him. Outside the cage
were a lot of two-legged grumbler
resembling monkeys—but why worry
about their unintelligent mutter-
ings, especially since they were safely
shut off from the cabbage leaves by
good substantial bars?

Perhaps this little story of brute
force and human selfishness will re-
mind you of some human being who
bores an occasional hand showing.
Don't be too hard in your judgments,
however. He is patient. You must not
blame him if they show monkey
characteristics since in a while you
know what famous highborn Dar-
win and his successors have taught
us that man and monkey descended
from the same ancestor, namely a
certain brand of ape. The work of
transforming man from ape began
1,000,000 or 5,000,000 years ago, but I
would not go so far as to say that
the job has been entirely finished.
Lots of time will be required. It
takes more than a fifty to get off
one's all fours. This word "human"
you know, is a comparatively recent
degree that has been conferred
upon us.

THE CATERPILAR TRACTOR

(Popular Mechanics)

To Americans it is a matter of spe-
cial interest that American inventive
genius undoubtedly has played a
fundamental part in producing these
remarkable caterpillar tractors. There is
little doubt that they are powerful
winning tractors, of either the cater-
pillar or the alligator type, which
have been covered with armor with-
in recent years. These tractors have
evolved these masterly machines
for large scale farming, big lumber-
ing projects and the like. Later
they demonstrated their military
value in a convincing manner. One
manufacturer has shipped 1,000
tractors of the caterpillar type to
England within recent months, and
reports received by the concern since
then have indicated that some of
them, at least, were being equipped
for actual fighting. Another Ameri-
can concern some time ago prepared
complete plans for an armored car
of the alligator type, patterned after ma-

chine that are extensively used for
logging in the western forests, and
submitted them to the British authori-
ties. The plans were under consid-
eration for a time and then the mat-
ter was dropped. It is the belief
of this concern that the features of
the car it designed have been appropri-
ated in whole or in part by the Brit-
ish government, and that Great Brit-
ain is unfair in claiming the credit
for these war monsters.

The distinctive feature of the cater-
pillar car is that it is supported by a
single wheel at the front and two
wide endless tracks, or belts, of the
exterior type, and that Great Brit-
ain is unfair in claiming the credit
for these war monsters.

When feeding time came, the keeper
appeared with a large bundle of
cabbage leaves which he threw into
the cage filled with small mon-
keys, for as fast as the keeper threw
the leaves into the cage, the big mon-
key grabbed them and held onto them.

When some of the little mon-
keys criticized him, he merely showed
his teeth and went on with his work.

After he had acquired all the leaves
that had been thrown into the cage
he gathered the whole supply together
into a pile and sat on top of the pile.

Then he ate all that he wanted
—and perhaps more than he wanted.
He did not eat all the leaves that had

MEXICAN CHAIRMAN
HOLDS UP AGREEMENT

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Atlantic City, N. J., Nov. 14.—Vig-
orous opposition today by Luis Ca-
brera, chairman of the Mexican rep-
resentation, prevented a formal agree-
ment on the principle and essential
points of the plan for the withdrawal
of the American troops from Mexico,
and other questions that have arisen
between the two countries.

It became known today that yester-
day, while Mr. Cabrera was in Phila-
delphia conferring with Raphael Nie-
to, sub-secretary of the department of
finance, Carranza's other two repre-
sentatives and the American com-
missioners entered into an agreement
which the Mexicans believed would be
ratified by Mr. Cabrera. When Ca-
brera appeared before the commission
today, however, he objected to cer-
tain terms in the proposed agreement
and for an hour addressed the com-
missioners, protesting against the plan
as agreed to by the other two Mexi-
cans.

This unexpected opposition by Mr.
Cabrera is believed to have brought
the commissioners once more to a po-
sition where a solution of the inter-
national problems cannot be reached
until the latter part of the week.

FORD DEFENDS PLAN
TO EXPAND BUSINESS

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Detroit, Mich., Nov. 14.—Henry
Ford, the automobile manufacturer,
on the witness stand today at the
Dodge injunction hearing, declared
that his plans for spending many mil-
lions of dollars to double or triple the
capacity of the Ford Motor Car com-
pany's plant would probably revolution-
ize the automobile business.

Ford admitted that he contemplated
expending millions of dollars to
obtain one deposit and more millions
to erect plant buildings on the Detroit
river near Detroit. When his plans
are completed, he testified, his com-
pany will be able to ship one to its
customers and there make cashless de-
liveries of great strength would result, Ford
said, and he added that he had not
formally in writing had been one of
the great problems which automobile
makers have faced.

Ford, as president of his company,
in defiance of an injunction suit
brought by Humber and John Dodge,
local automobile manufacturers, re-
sistant him from using the Ford
company's profits to develop his busi-
ness.

WANTS SHIPMENTS OF
APPLES EXPEDITED

(BY MORNING JOURNAL SPECIAL LEASED WIRE)
Louisville, Ky., Nov. 14.—Acting
upon a request by counsel for the In-
ternational Apple Shippers' associa-
tion, Commissioner C. C. McChesney
this morning suggested to railroad rep-
resentatives that a special effort be
made by all lines to rush refrigerator
car shipments to districts which are
experiencing difficulty in getting per-
ishable crops to market.

His suggestion was offered at the
opening of the morning session of the
hearings in progress here, in connec-
tion with the Interstate Commerce
commission's investigation into the
control of the supply on the railroads
of the country.

The measure he proposed is simi-
lar to that now being undertaken by
the railroads at the suggestion of their
own representatives, for the relief of
the coal shortage in certain sections
of the country by the return of all
coal cars to the owning roads.

THE VOID IN TODAY

The sun is shining just as bright.
The flowers blooming just as sweet.
The hill and laughter just as light.
As over in the village street.

The friendly doors are open wide,
With little children there at play—
The clock is ticking and the birds
And loved and coddled yesterday.

The merry world it hovers along
With just as much of life and
The shadows are the same that cast
Across my path last even time.

The merry world it hovers along
With just as much of life and
The shadows are the same that cast
Across my path last even time.

His friendly door today is crossed
With sombre black of grief and parting.
And silence where I have lost
God's rarest gift to me—A friend!

POISONING THE PHILIPPINES

(Nebraska State Journal)
Senator Hitchcock's vote against
protecting the Philippines from the
liquor traffic is being attacked in the
state campaign. The manner in
which American brewers and distill-
ers have been encouraged to extend
their trade across the Philippines has
given our philanthropic venture in
the Philippines one of its more sar-
donic aspects. Any people not fit for
self government ought certainly to be
protected from the evil influence of
the alcoholic trade. The only valid
excuse for refusing to do
this is a desire to assist brewery
profits at the expense of a dependent
people.

CUTTING TEETH AT 75

(Warrington, Va., Times)
Charleston, W. Va.—Peter Minor,
75 years old, a remarkable specimen
of the human frame, is cutting a new
set of teeth. During the spring he
mailed 150 pairs of teeth, himself, built
282 pounds of seven tall calves. He
cleared five acres of new ground and
sowed his own corn. He has all this
in the fastest, he scientifically cul-
tivates flowers, having no many
varieties that he has raised blooming
all the year round.

STOCK EXCHANGE SHOWS DECIDEDLY BETTER MARKET

Railroad Shares Are About
Only Laggards, Due to Possi-
bility of Strike Occurring
at Early Date.

Trading during the first half of the session was marked by a series of de-
cisions and advances, which again de-
veloped the market. In the final hour
the entire list rose briskly, even rail-
road shares being the exception. The
closing market was a decided advance
over the previous day's closing. The
common gained 1/2 cent.

Central Leather again was the weak
feature of the session. A rise in Mexi-
can leather was reported by the Mexi-
can Smeltering and Refining Co. The
Mexican Smeltering and Refining Co.
is a subsidiary of the Mexican Smel-
ting and Refining Co. The Mexican
Smeltering and Refining Co. is a sub-
sidiary of the Mexican Smelting and
Refining Co. The Mexican Smelting
and Refining Co. is a subsidiary of
the Mexican Smelting and Refining Co.

FEDERAL LOAN BOARD WANTS TO HEAR FARMERS

Desires That They Attend Meeting to Be Held in Post-office Building Here Next Monday.

Business men of Albuquerque may give a banquet next Monday night to members of the federal farm loan board. Tentative arrangements for the affair were discussed last night. Many other plans have been given luncheon. However, Albuquerque may go one step further and give a banquet.

The federal farm loan board wants to talk to the farmers of New Mexico when it holds its hearing in the Albuquerque federal building next Monday, November 20, according to Frank H. Wilson, advance man for the board, who arrived yesterday to complete arrangements for the hearing.

"The farm loan act was adopted for the benefit of the farmer," said Mr. Wilson, "and the board is anxious to apply this new legislation so as to best serve the farmers. For that reason it wants the farmers of New Mexico to attend this hearing and tell the board first hand, their farm loan needs, and to listen to the explanation of the act by the members of the board which will administer it."

Mr. Wilson announced positively that Secretary McAdoo will attend the Albuquerque hearing, as will all the other members of the board, including George W. Norris, Herbert Quick, James W. S. A. Smith and Charles E. Lobell.

The board will arrive in Albuquerque on the morning of Monday, November 20. It is now on the last lap of its 25,000-mile tour of investigation about the farm loan needs of various sections. During December it will digest this great mass of testimony and outline the twelve bank districts. The banks will be established in January and it is hoped that they will be ready to lend money for agricultural purposes in February.

Mr. Wilson met with the Albuquerque Chamber of Commerce committee and approved its arrangements for getting this section of the state properly represented at the Albuquerque hearing.

"The farm loan act has met with a wonderful response all over the country," said Mr. Wilson. "The south and west have been particularly aggressive in organizing to take advantage of it. Naturally the sections which have suffered from a curtailed credit will be the first to grasp the new opportunities provided under this act."

"The government will establish twelve federal land banks, each with a capital of \$750,000," explained the visitor, "and the government itself will subscribe the original capital of these banks. Farmers to borrow from these banks are required to group themselves into national farm loan associations, probably one for each community. These associations must have ten or more members, made up of farmers, and a cooperative farm loan association is required. These groups borrow in bulk from the banks."

"The organization of these groups is required in order to provide the machinery for governing the banks, for the valuation of lands, for the granting of a local responsibility and for the elimination of worthless accounts. The local associations of borrowers are the foundation stones of the whole system and through them the system is made purely co-operative, and through them its ownership and control are kept in the hands of the farmers themselves. Helping the Tenants—Big Co-operative Machine."

"Farmers are permitted to borrow up to 60 per cent of the value of the land, and the percentage of the value of the improvements, and if a tenant desires to borrow to purchase land, he may get the 50 per cent possible under this act and then he may give a second mortgage to the original owner for the difference. So it is expected that this act will enable many tenants to become land owners."

"After the original capital of these banks is loaned, the banks get additional money for lending through the sale of their bonds, thus it will be seen that this farm loan banking system is a big co-operative machine, which collects the savings of the thrifty and then puts this money out for the purposes of agricultural development. The whole process is done under governmental supervision, without waste and without profit to any individual."

"Loans are made to farmers on the amortization, or installment plan. These loans may run from five to ten years, and they must be paid back in equal annual installments throughout the period of the loan. They recognize the fact that farmers need long-time loans, so as to put their farms in shape to pay back the debt out of the profits from the investment."

Mr. Wilson predicts that the farm loan act will regenerate the sections of the country where agricultural development has been retarded by a shortage of capital, and he predicts that the commercial prosperity of cities will be augmented as a result of this stimulation of agricultural development.

ESCAPED CONVICT BETRAYS TRAIL BY DISCARDING CLOTHES

Under Sheriff Dick Lewis yesterday picked up the hot trail of Jose Antonio Pino, who escaped from the state penitentiary last Thursday. Pino was in Albuquerque in custody as Monday, the under sheriff learned.

Joe Smith, a boy, first came upon the escapee's trail, finding his cast-off underclothes on the bank of the Rio Grande south of Old Town. The clothes bore the prison number and the boy, realizing the importance of his find because of the numerous reports it to Under Sheriff Lewis.

The numerals disclosed the identity of the prisoner. They were 3225. A description of Pino, sent the sheriff's office, stated that the convict was a prisoner from Socorro county to serve from one to one and one-half years for larceny of cattle.

With the cast-off clothes young Smith found a piece of wrapping paper bearing the name of A. Michaels, merchant. Under Sheriff Lewis had bought a suit and underwear at his store Monday, paying \$14 for the outfit.

The under sheriff informed Warden J. McManus that the penitentiary that Pino's trail had been picked up. He was thought to be going toward Helen and word was sent to officers of Valencia county.

PROMINENT BANKERS

WILL ADDRESS THE ROTARIANS TODAY

The Rotary club will have its weekly luncheon today, instead of tomorrow, so that it may hear prominent bankers who are in Albuquerque for the convention of the New Mexico Bankers' association. The club will have luncheon at the Alvarado hotel at 12:15 o'clock. Many guests have been invited.

P. W. Goebel of Kansas City, Kan., president of the American Bankers' association; Judge W. F. Ramsey, chairman of the federal reserve board, Dallas, Texas, and H. B. Jones, treasurer, vice-president of the New Mexico Bankers' association, will address the club.

CARD TO THE PUBLIC

Beginning November 15th luncheons will be advanced from 7:30 to 8:30 and dinner from 11 to 12:25. We feel sure that our patrons will appreciate the fact that, with the high cost of supplies, it is practically impossible to serve these meals at the present prices.
